The Company prepares its consolidated financial results in accordance with International Financial Reporting Standards ("IFRS"). Accordingly, Smithfield's results reported herein differ from Smithfield's results contained in the Company's consolidated financial statements, which include certain adjustments in order to conform to IFRS. These

adjustments include the re-measurement of biological assets from cost to fair value through earnings, the reclassification of numerous balance sheet items primarily reflected in biological assets and deferred taxes, and classification changes within the financial results, primarily for distribution expenses, which have a significant impact on gross margin.
