## **REASONS FOR AND BENEFITS OF THE ACQUISITION**

As disclosed in the announcement of the Company dated 28 September 2018, the Xuhui District government has exercised its power to resume a land parcel owned by the Group in Xuhui District. The land resumed is situated adjacent to the Land. The Acquisition presents a good opportunity for the Group to replenish its land reserves, especially in an area where the Group is familiar with; and to venture in a new business model of developing rental housing.

In 2017, the Shanghai government introduced the new land uses type of “rental residential properties”. Under this uses, the land must be developed into residential properties and completed housing units will be made available in the market for rent. The Acquisition allows the Group to venture into a new business model of developing investment property for residential purposes. As the Group continues to pursue its four main strategic plans of “residential property development + investment property operation + urban renewal service + cooperation between industrial and financial capital”, development of rental residential properties fits well into the first two limbs of the Group’s strategies. Given that the Land is located in Shanghai, where the Group’s headquarters is based and its roots are, the Board believes that the Acquisition provides the Group with an exciting opportunity to undertake a new business form in the Group’s home town to implement the Group’s strategy to achieve a long-term sustainable growth.

The Acquisition was conducted by way of an open bidding auction by the Shanghai Xuhui Land Bureau. The Consideration reflected the final bidding price submitted by SUD and it was determined after taking into account, among other matters, the prevailing market price of comparable land and buildings in Shanghai and the future potential development. The Directors are of the view that the terms of the Acquisition are fair and reasonable and in the interests of the shareholders of the Company as a whole.
