CHAIRMAN'S STATEMENT

On behalf of the board (the "Board") of directors (the "Directors") of Fornton Group Limited (the "Company", together with its subsidiaries, the "Group"), I am pleased to present the annual results of the Group for the year ended 31 December 2012.

2012 was a tough year for the Group, as well as the export-manufacturing industry as a whole. Unfavorable macroeconomic factors, such as the European sovereign debt crisis and the stagnant economic growth of the United States of America (the "USA"), posed a series of challenges for our industry. However, the Group was able to record an increase in revenue in 2012 of approximately 22.5% to approximately HK\$400.0 million, which was principally attributable to the Group's continued effort in soliciting and exploring new customers and providing the customers products of high quality. On the other hand, the gross profit margin of the Group decreased from 24.3% to 19.0% amid the surging cost of production and high inflation rate in the People's Republic of China (the "PRC") as well as the factors as mentioned above.

Although weak purchasing power in the USA and Europe will continue to affect the industry in 2013, we will maintain the same competitive edge that differentiates us from numerous competitors. Our executives and staff will approach business in 2013 with an attitude that resonates with the Company's value — "Quality is key" and "Innovation". Management will also place emphasis on cost control, quality enhancement and growth of the clientele base, as these three key areas are vital to the Group's success. Despite the uncertain and volatile global economic outlook of 2013, I am confident that the Group will be able to endure the tough times ahead, and continue satisfying our customers with quality products.

On behalf of the Board, I sincerely thank the management and staff for their dedication and hard work. Furthermore, I would like to extend my gratitude to the business partners and shareholders of the Group (the "Shareholders") for their continual support and confidence in the Group.

Yam Tak Cheung

MANAGEMENT DISCUSSION AND ANALYSIS

FINANCIAL PERFORMANCE AND BUSINESS REVIEW

The Group is a knitwear manufacturer established in Hong Kong which manufactures an extensive assortment of knitwear products ranging from classically styled wardrobe basis to high quality fashion apparel. Same as previous years, the Group's customers mainly comprise international apparel brand owners headquartered in the USA and European countries such as Germany and Switzerland with their products marketed under their own labels and sold around the world.

In 2012, the Group recorded a turnover of approximately HK\$400,035,000, showing an increase of approximately 22.5% from the 2011's turnover of approximately HK\$326,624,000, which was mainly attributable to an increase in sales orders from one of the major customers of the Group headquartered in the USA and new customers of the Group headquartered in Europe and Asia.

As compared with turnover in previous year, turnover generated by customers headquartered in the USA and European countries decreased from approximately 66.5% to 65.7% and decreased from approximately 24.5% to 21.8% respectively, whilst Canada and other countries increased over the total turnover of the Group from approximately 5.6% to 5.8%, and increased from approximately 3.4% to 6.7% respectively.

Gross profit of the Group for the year ended 31 December 2012 decreased by approximately 4.2% from approximately HK\$79,391,000 in previous year to HK\$76,046,000 in 2012. Moreover, the gross profit margin decreased from approximately 24.3% in 2011 to 19.0% in 2012 as a result of worsening of the market conditions and business environment, severe competition of the textile industry in Europe and the USA, ongoing increase in labour cost and general inflation in the PRC.

For the year ended 31 December 2012, the Group recorded a profit of approximately HK\$13,738,000, representing an increase of approximately 24.0% as against approximately HK\$11,081,000 for the previous year mainly attributable to the one-off listing expenses of approximately HK\$8,995,000 incurred for the Company's initial public offering (the "Listing") in the previous year. The effect was partially offset by the decrease in gross profit margin as mentioned above.

MANAGEMENT DISCUSSION AND ANALYSIS (CONTINUED)

FINANCIAL POSITION, LIQUIDITY AND CAPITAL STRUCTURE

The Group generally finances its operations with internally generated cash flows, equity financing and with facilities mainly provided by banks in Hong Kong during the year ended 31 December 2012. At 31 December 2012, the Group had aggregate bank borrowings of HK\$25,831,000, of which HK\$7,786,000 is repayable within one year from the end of the reporting period and HK\$18,045,000 is not repayable within one year from the end of the reporting period but contain a repayment on demand clause (shown under current liabilities). The Group adopts a prudent funding and treasury policy. The borrowings were mainly denominated in Hong Kong dollars ("HK\$"), while the cash and cash equivalents held by the Group were mainly denominated in HK\$, Renminbi ("RMB") and United States dollars ("US\$"). Save for the amounts due to a Director and a related company, which are non-interest bearing, all of the Group's borrowings are on a floating rate basis.

As at 31 December 2012, the Group recorded total assets of approximately HK\$206,359,000, which were financed by equity of approximately HK\$139,241,000 and liabilities of approximately HK\$67,118,000. The gearing ratio of total borrowings as a percentage of total capital and reserves attributable to Shareholders was 20.2% (2011: 30.7%). The Group had total cash and bank balances of approximately HK\$90,215,000. Deposits amounting to HK\$3,000,000 have been pledged to secure bank overdrafts, short-term bank loans and unused banking facilities. The current ratio (current assets divided by current liabilities) of the Group increased from 1.86 times as at 31 December 2011 to 2.46 times as at 31 December 2012.

CONTINGENT LIABILITIES

On 16 November 2011, the High Court made a judgement (the "Judgement") in favour of a subsidiary of the Group to dismiss a claim from a supplier (the "Supplier").

On 23 July 2012, the Supplier has filed a notice of appeal against the Judgement (the "Appeal") and the Appeal was heard on 8 March 2013.

On 14 March 2013, the Court of Appeal ordered that the Appeal is allowed and the Judgement is set aside. The Court of Appeal also ordered that unless the dispute between the Supplier and the subsidiary of the Group can be settled by other means, the dispute should be remitted for a re-trial by another judge.

Based on the legal advice, the Directors are of the opinion that (i) the Group has meritorious defenses against the Supplier; and (ii) the amounts involved in the claim is not material; therefore no provision for the claim has been made in the consolidation financial statements for the year ended 31 December 2012. In additions, the claim is not expected to have material impact on the Group.

MANAGEMENT DISCUSSION AND ANALYSIS (CONTINUED)

USE OF PROCEEDS

The Company has set out the intended use of the net proceeds from the Listing of approximately HK\$39,700,000 in the section headed "Future plans and use of proceeds" in the prospectus of the Company dated 18 October 2011 (the "Prospectus"). Approximately HK\$17,300,000 was at the time of the Listing allocated to the proposed construction of the new production factory on a piece of land located in Yangwu Village, Dalang Town, Dongguan City, Guangdong Province, the PRC (the "Land"). As a result of the disposal of the Land as detailed in the announcement of the Company dated 2 March 2012, the Company has reallocated the said HK\$17,300,000 to general working capital purpose. As at 31 December 2012, the unused proceeds of HK\$18,600,000 were deposited in the licensed banks in Hong Kong. Set out below is the original intended use of proceeds as set out in the Prospectus, revised intended use of proceeds, utilised amount and unutilised amount of the net proceeds as at 31 December 2012:

| | Original intended use of proceeds | Revised intended use of proceeds | Net proceeds (HK\$ million) | As at 31 December 2012 | |
|---|--|--|--------------------------------|-----------------------------------|-------------------------------------|
| | | | | Utilised amount (HK\$ million) | Unutilised amount (HK\$ million) |
| 1 | construction of new production factory on the Land | reallocated as general working capital | 17.3 | 9.6 | 7.7 |
| 2 | acquisition of an additional 220 sets of computerised knitting machines | remaining unchanged | 18.1 | 7.2 | 10.9 |
| 3 | enhancing the Group's product design and development capabilities and sales and merchandising capabilities | remaining unchanged | 1.5 | 1.5 | — |
| 4 | developing the enterprise resource planning system of the Group covering various functions | remaining unchanged | 0.8 | 0.8 | — |
| 5 | the Group's working capital | remaining unchanged | 2.0 | 2.0 | — |

FOREIGN EXCHANGE EXPOSURE

The Group's sales and purchases are principally transacted in US\$. With production plants and office located in the PRC and Hong Kong, operating expenses of the Group are primarily denominated in HK\$, RMB or US\$. As the HK\$ is pegged to the US\$, the Group does not expect to be exposed to any currency risks in the near term. Moreover, the Group has a foreign currency hedging policy to monitor the foreign exchange exposure and has entered into several structured forward contracts during the year ended 31 December 2012 to manage the currency exposure. It will also consider further hedging significant foreign currency exposure should the need arise.

MANAGEMENT DISCUSSION AND ANALYSIS (CONTINUED)

EMPLOYEE AND REMUNERATION POLICY

As at 31 December 2012, the Group has workforce of approximately 1,200 persons including three executive Directors and three independent non-executive Directors in Hong Kong and the PRC. Remuneration policies in respect of the directors and senior management are reviewed regularly by the directors and by the remuneration committee respectively. Remuneration packages of the Group were determined with reference to performance, qualification and experience of the staff as well as the operating results of the Group and the current market condition with salaries and wages being reviewed on an annual basis. The Group also provided discretionary bonus, medical insurance, social security and provident fund to the staff of the Group. Pursuant to the written resolution of the shareholders of the Company (the "Shareholders") on 11 October 2011, the Company has adopted a share option scheme (the "Scheme") for the purpose of motivating eligible participants. For the year ended 31 December 2012, no share options were granted by the Company since the adoption of the Scheme.

FUTURE PLANS FOR MATERIAL INVESTMENTS AND CAPITAL ASSETS

Save as disclosed in the Prospectus, the Group did not have other plans for material investments and capital assets.

SIGNIFICANT INVESTMENT HELD

Except for investment in subsidiaries, during the year ended 31 December 2012, the Group did not hold any significant investment in equity interest in any company.

MATERIAL ACQUISITIONS AND DISPOSALS OF SUBSIDIARIES AND AFFILIATED COMPANIES

For the year ended 31 December 2012, the Group did not have any material acquisitions and disposals of subsidiaries and affiliated companies.

OUTLOOK

The major customers of the Group are well-recognized international apparel brand owner of which products are mainly exported to the USA and the European countries. There might be some downward pressure on both the sales volume and selling prices of the Group's products in 2013 as a result of the uncertain macroeconomic environment including the recent events in the Euro zone. On the other hand, it is expected that the Group's operating cost will be increased due to continuing inflation in the PRC. The operating environment of the Group is likely to remain challenging in 2013. The Group will continue to focus on product quality by manufacturing novel, complicated designs to attract new customers and cost control.

DIRECTORS AND SENIOR MANAGEMENT

The Company will adopt the practice of holding Board meetings regularly for at least four times a year at approximately quarterly intervals. At least 14 days' notice will be given for a regular Board meeting to give all Directors an opportunity to attend. For all other Board meetings, reasonable notice will be given. Pursuant to code provision A.1.1 of the CG Code, the Board should meet regularly and Board meetings should be at least four times a year.

DIRECTORS' AND AUDITOR'S RESPONSIBILITIES FOR THE ACCOUNTS

The Directors acknowledge responsibilities for overseeing the preparation of the financial statements of the Group for the year ended 31 December 2012 which should give a true and fair view of the state of affairs and of the results and cash flows of the Group on a going concern basis.

The Directors' responsibilities in the preparation of the financial statements of the Group and the auditor's responsibilities are set out in the independent auditor's report.

INTERNAL CONTROL

The Board is responsible for overseeing the Group's internal control system and ensuring that a sound and effective internal control system is maintained. The Company has engaged SHINEWING Risk Services Limited ("SHINEWING Risk Services") to conduct review and make recommendations for the improvement and strengthening of the internal control system. SHINEWING Risk Services has reviewed the major internal controls and measures, including financial, operational and compliance as well as risk management and has made relevant recommendations for improvement of the internal control system to the Board. Any material non-compliance or failures in internal controls maintained by the Group and relevant recommendations for improvements are reported to the Audit Committee.

CORPORATE GOVERNANCE (CONTINUED)

The Board has to be fully responsible for the stability and effectiveness of the systems of internal control and with management of the Group. It is also responsible for ensuring that recommendations made by the internal audit function and SHINEWING Risk Services are properly implemented. The Board recognizes that the Group's internal control system plays a key role in the management of risks, and the assurance of continued compliance with laws and regulations by the Group.

The Audit Committee has kept under review the system of internal control. Based on review undertaken together with reports submitted by the management and SHINEWING Risk Services, the Audit Committee will provide the Board with advice on the adequacy of the Group's internal control system, including the adequacy of resources, qualifications and experience of staff of the Company's accounting and financial reporting function, in order to ensure that an effective internal control system is put in place. During the year under review, the Board considers that the Group has complied with the provisions on internal controls as stipulated in the CG Code. The Board is satisfied that the Group's internal control system including financial, operational and compliance controls and risk management functions as appropriate to the Group have been put in place and that no significant areas of improvement which are required to be brought to the attention of the Audit Committee have been revealed.

REPORT OF THE DIRECTORS (CONTINUED)

DIRECTORS' AND SENIOR MANAGEMENT BIOGRAPHIES

Biographical details of the Directors and the senior management of the Group are set out on pages 9 to 11 of the annual report.

DIRECTORS' SERVICE CONTRACTS AND REMUNERATION

Mr. Yam Tak Cheung, Ms. Wong Kan Kan, Kandy and Mr. Wong Tat Wai, Derek had entered into a service agreement with the Company for an initial term of two years, commencing from 18 October 2011 with an annual remuneration of approximately HK\$0.54 million, HK\$1.37 million and HK\$1.25 million respectively. Either party has the right to give not less than three months' written notice to terminate the respective service agreement. In addition, each of these Directors will be entitled to a discretionary bonus to be calculated based on individual performance. Each of these Directors will also be reimbursed all reasonable out-of-pocket expenses properly incurred by him/her in the performance of his/her duties as a director.

Pursuant to the letter of appointment from the Company to each of the independent non-executive Directors dated 11 October 2011, the appointment of each of Mr. Wang Wei Hung Andrew, Mr. Cheng Dickson and Mr. Sin Ka Man is for an initial term of two years commencing from 11 October 2011 with a director's fee of HK\$100,000, HK\$100,000 and HK\$100,000 per annum respectively.

The Board has the general power of determining Directors' remuneration, subject to the authorisation of the Shareholders given at the annual general meeting of the Company each year. The remuneration of the executive Directors is subject to the review of the Company's remuneration committee, and their remuneration is determined with reference to directors' qualifications, experience, duties, responsibilities and performance and results of the Group. As for the independent non-executive Directors, their remuneration is determined by the Board, upon recommendation of the Company's remuneration committee, with reference to the Directors' qualifications, experience, duties, responsibilities and performance and results of the Group.

Details of Directors' emoluments during the year are set out in notes 15(a) to the financial statements.

Save as aforesaid, none of the Directors who are proposed for re-election at the forthcoming annual general meeting has a service contract with the Company which is not determinable by the Company within one year without payment of compensation other than statutory compensation.

DIRECTORS' INTERESTS IN CONTRACTS

Except for those disclosed in section headed "Connected Transactions" below and note 34 to the financial statements, no contracts of significance in relation to the business of the Group to which the Company or any of its subsidiaries was a party and in which a director of the Company had a material interest, either directly or indirectly, subsisted as at the end of the year or at anytime during the year ended 31 December 2012.

At no time during the year ended 31 December 2012 was the Company, any of its holding companies or any of its subsidiaries or fellow subsidiaries a party to any arrangement to enable the Directors to acquire benefits by means of the acquisitions of shares in, or debentures of, the Company or any other body corporate.

REPORT OF THE DIRECTORS (CONTINUED)

Other than the service contracts of the Directors, no contracts concerning the management and administration of the whole or any substantial part of the business of the Group were entered into or existed during the year.

SHARE OPTION SCHEME

A share option scheme (the "Scheme") was adopted pursuant to the written resolutions of all the shareholders passed on 11 October 2011. The Scheme operates for purpose of providing incentives and rewards to eligible participants who make contributions to the Group's operations and profitability. The Company and any of its associate do not grant/exercise any share option scheme since the date of the Listing, 28 October 2011.

DIRECTORS' INTERESTS AND SHORT POSITIONS IN SHARES AND UNDERLYING SHARES

At 31 December 2012, the interests and/or short positions of directors in the share, the underlying shares or debentures of the Company or any of its associated corporations (within the meaning of Part XV of the Securities and Futures Ordinance (the "SFO")), as recorded in the register required to be kept by the Company pursuant to Section 352 of the SFO, or as otherwise notified to the Company and The Stock Exchange of Hong Kong Limited (the "Stock Exchange") pursuant to the Model Code for Securities Transactions by Directors of Listed Issuers, were as follows:

The Company:

| Name of director | Capacity and nature of interest | Number of Shares held (Note 1) | Percentage of the Company's issued share capital |
|-------------------------|---|-----------------------------------|--|
| Mr. Yam Tak Cheung | Interest of controlled corporation (Note 2) | 104,000,000 (L) | 25.00 |
| | Interest of spouse (Note 3) | 104,000,000 (L) | 25.00 |
| Ms. Wong Kan Kan, Kandy | Interest of controlled corporation (Note 4) | 104,000,000 (L) | 25.00 |
| | Interest of spouse (Note 5) | 104,000,000 (L) | 25.00 |
| Mr. Wong Tat Wai, Derek | Interest of controlled corporation (Note 6) | 104,000,000 (L) | 25.00 |

Notes:

- The letter "L" denotes a long position in the directors' interest in the share capital of the Company.
- Mr. Yam Tak Cheung is the beneficial owner of 100% of the issued share capital of Integrated Asset Management (Asia) Limited and is deemed to be interested in the 104,000,000 Shares held by Integrated Asset Management (Asia) Limited under the SFO.

REPORT OF THE DIRECTORS (CONTINUED)

3. *Mr. Yam Tak Cheung is the spouse of Ms. Wong Kan Kan, Kandy and is deemed to be interested in the Shares held by Ever Rosy Limited.*
4. *Ms. Wong Kan Kan, Kandy is the beneficial owner of 100% of the issued share capital of Ever Rosy Limited and is deemed to be interested in the 104,000,000 Shares held by Ever Rosy Limited under the SFO.*
5. *Ms. Wong Kan Kan, Kandy is the spouse of Mr. Yam Tak Cheung and is deemed to be interested in the Shares held by Integrated Asset Management (Asia) Limited.*
6. *Mr. Wong Tat Wai, Derek is the beneficial owner of 100% of the issued share capital of Premier Wise Limited and is deemed to be interested in the 104,000,000 Shares held by Premier Wise Limited under the SFO.*

Save as disclosed above, as at 31 December 2012, to the best knowledge of the Directors, none of the Directors nor the chief executive of the Company had registered an interest or short position in the shares, underlying shares or debentures of the Company or any of its associated corporations that was required to be recorded pursuant to Section 352 of the SFO, or as otherwise notified to the Company and the Stock Exchange pursuant to the Model Code for Securities Transactions by Directors of Listed Issuers.

CONTINUING CONNECTED TRANSACTIONS

The Company had a continuing connected transaction, details of which are disclosed in accordance with the requirements of Chapter 14A of the Listing Rules.

In view of (i) the need for larger office space to, among other things, establish a showcase room for the sample collection designed by the Group, (ii) the expiry of the previous tenancy in December 2010; (iii) the acquisition of an office located in Kwun Tong by Long Rise Investment Development Limited ("Long Rise") in April 2010 with the total gross area of 8,887 ft² which the Directors consider suitable for expansion of the Group in terms of its location and space; and (iv) the costs and time to be saved from searching other possible premises in the public property market, on 30 March 2011, the Group entered into a tenancy agreement (the "Headquarter Tenancy Agreement") with Long Rise, pursuant to which the Group agreed to lease from Long Rise all that Unit A, 32nd Floor, Legend Tower, 7 Shing Yip Street, Kwun Tong, Kowloon, Hong Kong as the headquarter of the Company in Hong Kong. The term of the Headquarter Tenancy Agreement is for three years commencing from 1 December 2010. The annual rent is HK\$1,800,000, exclusive of rates, Government rent and management fees, with a rent-free period commencing from 1 December 2010 to 31 January 2011. The Directors estimate that the annual rent payable by the Group to Long Rise for each of the three years commencing on 1 January 2011 will not exceed the annual cap of approximately HK\$1,800,000. In the event that the Headquarter Tenancy Agreement is renewed, the relevant Listing Rules will be complied with. The rent payable to Long Rise by the Group was determined on an arm's length basis with reference to the prevailing market rent.

Based on the relevant annual cap stated above for the Headquarter Tenancy Agreement, the Directors, at the date of entering into the Headquarter Tenancy Agreement, expect that the consideration ratio, being the only applicable percentage ratio mentioned in Rule 14.07 of the Listing Rules, will on an annual basis be either less than 5% or less than 25% and the annual consideration is less than HK\$10,000,000. Therefore, the transactions contemplated under the Headquarter Tenancy Agreement are not subject to independent Shareholders' approval requirements but are subject to reporting and announcement requirements contained in Chapter 14A of the Listing Rules. Given the recurring nature of the transactions contemplated under the Headquarter Tenancy Agreement, the Directors consider that strict compliance with the announcement requirements would be impractical and would add unnecessary administrative costs to the Company.

REPORT OF THE DIRECTORS (CONTINUED)

Accordingly, pursuant to Rule 14A.42(3) of the Listing Rules, the Company has applied for a waiver from strict compliance with the announcement requirements contained in Rule 14A.47 of the Listing Rules upon listing of the Shares, provided that the annual value of the transactions contemplated under the Headquarter Tenancy Agreement does not exceed the relevant annual cap stated above for each of the three financial years ending 31 December 2013. Further details of the continuing connected transactions are disclosed in notes 34(b) of the financial statements.

The independent non-executive Directors have reviewed the above continuing connected transaction and confirmed that it has been entered into by the Company in the ordinary course of its business, on normal commercial terms/on terms no less favorable than terms available from independent third parties, and in accordance with the terms of the agreement governing such transactions that are fair and reasonable and in the interests of the Shareholders as a whole.

For the purpose of Rule 14A.38 of the Listing Rules, the Board engaged the SHINEWING (HK) CPA Limited as the auditor of the Company to report on the above continuing connected transaction for the year ended 31 December 2012 in accordance with Hong Kong Standard on Assurance Engagement 3000 "Assurance Engagements Other Than Audits or Reviews of Historical Financial Information" and with reference to Practice Note 740 "Auditor's Letter on Continuing Connected Transactions under the Hong Kong Listing Rules" issued by the HKICPA. The auditor has issued its unqualified letter containing its findings and conclusions in respect of the transaction disclosed by the Group in accordance with Rule 14A.38 of the Listing Rules.

The related party transactions in respect of notes 34(a) of the financial statements do not constitute connected transactions or continuing connected transactions as defined in Chapter 14A of the Listing Rules.

DIRECTORS' RIGHTS TO ACQUIRE SHARES

At no time during the year were rights to acquire benefits by means of the acquisition of shares in or debentures of the Company or any other body corporate granted to any director or their respective spouses or minor children, or were any such rights exercised by them; or was the Company or any of its subsidiaries a party to any arrangement to enable the directors, their respective spouses or minor children to acquire such rights in any other body corporate.

REPORT OF THE DIRECTORS (CONTINUED)

SUBSTANTIAL SHAREHOLDERS' AND OTHER PERSONS' INTERESTS AND SHORT POSITIONS IN SHARES AND UNDERLYING SHARES

As at 31 December 2012, the interests and short positions of 5% or more of the issued share capital of the Company were recorded in the register of interests required to be kept by the Company pursuant to Section 336 of the SFO were as follows:

Long position:

| Name of Shareholders | Capacity and nature of interest | Number of ordinary shares held (Note 1) | Percentage of the Company's issued share capital |
|---|---------------------------------|--|--|
| Integrated Asset Management (Asia) Limited (Note 2) | Beneficial interest | 104,000,000 (L) | 25.00 |
| Ever Rosy Limited (Note 3) | Beneficial interest | 104,000,000 (L) | 25.00 |
| Premier Wise Limited (Note 4) | Beneficial interest | 104,000,000 (L) | 25.00 |

Notes:

1. The letter "L" denotes a long position in the shareholder's interest in the share capital of the Company.
2. Mr. Yam Tak Cheung is the beneficial owner of 100% of the issued share capital of Integrated Asset Management (Asia) Limited and is deemed to be interested in the 104,000,000 shares held by Integrated Asset Management (Asia) Limited under the SFO.
3. Ms. Wong Kan Kan, Kandy is the beneficial owner of 100% of the issued share capital of Ever Rosy Limited and is deemed to be interested in the 104,000,000 shares held by Ever Rosy Limited under the SFO.
4. Mr. Wong Tat Wai, Derek is the beneficial owner of 100% of the issued share capital of Integrated Premier Wise Limited and is deemed to be interested in the 104,000,000 shares held by Premier Wise Limited under the SFO.

Save as disclosed above, as at 31 December 2012, no person, other than a Director, whose interests are set out under the section headed "Directors' interests and short positions in shares and underlying shares" above, had registered an interest or short position in the shares, underlying shares or debentures of the Company that was required to be recorded pursuant to Section 336 of the SFO.

SUFFICIENCY OF PUBLIC FLOAT

Based on the information that is publicly available to the Company and within the knowledge of the directors as at the date of this report, the Company has maintained the prescribed amount of public float as required under the Listing Rules as all times up to the date of this report (being the latest practicable date prior to the issue of this report).

Causeway Bay, Hong Kong

TO THE MEMBERS OF FORNTON GROUP LIMITED

(incorporated in Bermuda with limited liability)

We have audited the consolidated financial statements of Fornton Group Limited (the "Company") and its subsidiaries (collectively referred to as the "Group") set out on pages 29 to 88, which comprise the consolidated statement of financial position as at 31 December 2012, and the consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

DIRECTORS' RESPONSIBILITY FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of consolidated financial statements that give a true and fair view in accordance with Hong Kong Financial Reporting Standards issued by the Hong Kong Institute of Certified Public Accountants and the disclosure requirements of Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on these consolidated financial statements based on our audit and to report our opinion solely to you, as a body, in accordance with Section 90 of the Bermuda Companies Act, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. We conducted our audit in accordance with Hong Kong Standards on Auditing issued by the Hong Kong Institute of Certified Public Accountants. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

INDEPENDENT AUDITOR'S REPORT (CONTINUED)

OPINION

In our opinion, the consolidated financial statements give a true and fair view of the state of affairs of the Group as at 31 December 2012, and of the Group's profit and cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards and have been properly prepared in accordance with the disclosure requirements of the Hong Kong Companies Ordinance.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 December 2012

1. GENERAL INFORMATION AND BASIS OF PRESENTATION

Fornton Group Limited (“the Company”) was incorporated in Bermuda on 13 April 2011 as an exempted company with limited liability. The address of the registered office and principal place of business of the Company are disclosed in the corporate information of the annual report.

Pursuant to a group reorganisation (the “Reorganisation”) of the Company and its subsidiaries (collectively referred to as the “Group”) to rationalise the structure of the Group in preparation for the listing of the Company’s shares on The Stock Exchange of Hong Kong Limited (the “Stock Exchange”), the Company acquired the entire interests of Wide Reach Limited (“Wide Reach”) and its subsidiaries by way of swap of shares and became the holding company of the companies now comprising the Group on 11 October 2011. Details of the Reorganisation were set out in the prospectus of the Company dated 18 October 2011.

The shares of the Company have been listed on the Stock Exchange since 28 October 2011.

Since all entities which took part in the Reorganisation were under common control of a group of ultimate equity shareholders, the Group is regarded as a continuing entity resulting from the Reorganisation of entities under common control. The consolidated financial statements for the year ended 31 December 2011 have been prepared on the basis that the current group structure had been in existence at 1 January 2011, using the principle of merger accounting as set out in the Accounting Guidelines 5 “Merger Accounting for common control considerations” issued by the Hong Kong Institutes of Certified Public Accountants (the “HKICPA”). Accordingly, the consolidated results of the Group for the year ended 31 December 2011 include the results of the Company and its subsidiaries with effect from 1 January 2011 or, if later, since their respective dates of incorporation, as if the current group structure had been in existence throughout the year presented. All material intra-group transactions and balances have been eliminated on consolidation.

The Company acts as an investment holding company and the principal activities of its subsidiaries are set out in Note 37.

The functional currency of the Company is United States dollars (“US\$”). The consolidated financial statements is presented in Hong Kong dollars (“HK\$”) as the operations of the Group are mainly based in Hong Kong.

2. APPLICATION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSS”)

In the current year, the Group has applied the following new and revised amendments issued by the HKICPA.

| | |
|--|--|
| Amendments to Hong Kong Accounting Standards (“HKAS”) 12 | Deferred Tax: Recovery of Underlying Assets |
| Amendments to HKFRS 1 | Severe Hyperinflation and Removal of Fixed Dates for First-time Adopters |
| Amendments to HKFRS 7 | Financial Instrument: Disclosures-Transfers of Financial Assets |

The directors of the Company anticipate that the application of above new and revised amendments has had no material impact on the Group’s performance and position for the current and prior years and/or the disclosures set out in these consolidated financial statements.

The Group has not early applied the following new and revised HKFRSs that have been issued but are not yet effective.

2. APPLICATION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS (CONTINUED)**Annual Improvements to HKFRSs 2009–2011 Cycle issued in June 2012**

The Annual Improvements to HKFRSs 2009–2011 Cycle include a number of amendments to various HKFRSs. The amendments are effective for annual periods beginning on or after 1 January 2013. Amendments to HKFRSs include the amendments to HKAS 16 Property, Plant and Equipment and the amendments to HKAS 32 Financial Instruments: Presentation.

The amendments to HKAS 16 clarify that spare parts, stand-by equipment and servicing equipment should be classified as property, plant and equipment when they meet the definition of property, plant and equipment in HKAS 16 and as inventory otherwise. The directors of the Company do not anticipate that the application of the amendments will have a material effect on the Group's consolidated financial statements.

The amendments to HKAS 32 clarify that income tax on distributions to holders of an equity instrument and transaction costs of an equity transaction should be accounted for in accordance with HKAS 12 Income Taxes. The directors of the Company anticipate that the amendments to HKAS 32 will have no effect on the Group's consolidated financial statements as the Group has already adopted this treatment.

Amendments to HKAS 32 Offsetting Financial Assets and Financial Liabilities and amendments to HKFRS 7 Disclosures — Offsetting Financial Assets and Financial Liabilities

The amendments to HKAS 32 clarify existing application issues relating to the offset of financial assets and financial liabilities requirements. Specifically, the amendments clarify the meaning of "currently has a legally enforceable right of set-off" and "simultaneous realisation and settlement".

The amendments to HKFRS 7 require entities to disclose information about rights of offset and related arrangements (such as collateral posting requirements) for financial instruments under an enforceable master netting agreement or similar arrangement.

The amendments to HKFRS 7 are effective for annual periods beginning on or after 1 January 2013 and interim periods within those annual periods. The disclosures should also be provided retrospectively for all comparative periods. However, the amendments to HKAS 32 are not effective until annual periods beginning on or after 1 January 2014, with retrospective application required.

The directors of the Company anticipate that the application of these amendments to HKAS 32 and HKFRS 7 may result in more disclosures being made with regard to offsetting financial assets and financial liabilities in the future.

2. APPLICATION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS (CONTINUED)**HKFRS 9 Financial Instruments**

HKFRS 9 issued in 2009 introduces new requirements for the classification and measurement of financial assets. HKFRS 9 amended in 2010 includes the requirements for the classification and measurement of financial liabilities and for derecognition.

Key requirements of HKFRS 9 are described as follows:

- All recognised financial assets that are within the scope of HKAS 39 Financial Instruments: Recognition and Measurement are subsequently measured at amortised cost or fair value. Specifically, debt investments that are held within a business model whose objective is to collect the contractual cash flows, and that have contractual cash flows that are solely payments of principal and interest on the principal outstanding are generally measured at amortised cost at the end of subsequent accounting periods. All other debt investments and equity investments are measured at their fair values at the end of subsequent reporting periods. In addition, under HKFRS 9, entities may make an irrevocable election to present subsequent changes in the fair value of an equity investment (that is not held for trading) in other comprehensive income, with only dividend income generally recognised in profit or loss.
- With regard to the measurement of financial liabilities designated as at fair value through profit or loss, HKFRS 9 requires that the amount of change in the fair value of the financial liability that is attributable to changes in the credit risk of that liability is presented in other comprehensive income, unless the recognition of the effects of changes in the liability's credit risk in other comprehensive income would create or enlarge an accounting mismatch in profit or loss. Changes in fair value of financial liabilities attributable to changes in the financial liabilities' credit risk are not subsequently reclassified to profit or loss. Under HKAS 39, the entire amount of the change in the fair value of the financial liability designated as fair value through profit or loss was presented in profit or loss.

HKFRS 9 is effective for annual periods beginning on or after 1 January 2015, with earlier application permitted.

2. APPLICATION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS (CONTINUED)

HKFRS 9 Financial Instruments (Continued)

The directors of the Company anticipate that the adoption of HKFRS 9 in the future may have significant impact on amounts reported in respect of the Group's financial assets and financial liabilities. However, it is not practicable to provide a reasonable estimate of that effect until a detailed review has been completed.

New and revised Standards on consolidation and disclosures

In June 2011, a package of five standards on consolidation, joint arrangements, associates and disclosures was issued, including HKFRS 10, HKFRS 11, HKFRS 12, HKAS 27 (as revised in 2011) and HKAS 28 (as revised in 2011).

Key requirements of these five standards are described below.

HKFRS 10 replaces the parts of HKAS 27 Consolidated and Separate Financial Statements that deal with consolidated financial statements and HK (SIC)-Int 12 Consolidation — Special Purpose Entities. HKFRS 10 includes a new definition of control that contains three elements: (a) power over an investee, (b) exposure, or rights, to variable returns from its involvement with the investee, and (c) the ability to use its power over the investee to affect the amount of the investor's returns. Extensive guidance has been added in HKFRS 10 to deal with complex scenarios.

HKFRS 12 is a disclosure standard and is applicable to entities that have interests in subsidiaries, joint arrangements, associates and/or unconsolidated structured entities. In general, the disclosure requirements in HKFRS 12 are more extensive than those in the current standards.

In July 2012, the amendments to HKFRS 10, HKFRS 11 and HKFRS 12 were issued to clarify certain transitional guidance on the application of these five HKFRSs for the first time.

These five standards, together with the amendments relating to the transitional guidance, are effective for annual periods beginning on or after 1 January 2013. Earlier application is permitted provided that all of these five standards are applied early at the same time.

The directors of the Company anticipate that the application of these five standards have no significant impact on amounts reported in the consolidated financial statements as all subsidiaries are wholly owned by the Company.

2. APPLICATION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS (CONTINUED)**New and revised Standards on consolidation and disclosures (Continued)****Amendments to HKFRS 10, HKFRS 12 and HKAS 27 Investment Entities**

The amendments to HKFRS 10 introduce an exception to consolidating subsidiaries for an investment entity, except where the subsidiaries provide services that relate to the investment entity's investment activities. Under the amendments to HKFRS 10, an investment entity is required to measure its interests in subsidiaries at fair value through profit or loss.

To qualify as an investment entity, certain criteria have to be met. Specifically, an entity is required to:

- obtain funds from one or more investors for the purpose of providing them with professional investment management services;
- commit to its investor(s) that its business purpose is to invest funds solely for returns from capital appreciation, investment income, or both; and
- measure and evaluate performance of substantially all of its investments on a fair value basis.

Consequential amendments to HKFRS 12 and HKAS 27 have been made to introduce new disclosure requirements for investment entities.

The amendments to HKFRS 10, HKFRS 12 and HKAS 27 are effective for annual periods beginning on or after 1 January 2014, with early application permitted. The directors of the Company anticipate that the application of the amendments will have no effect on the Group as the Company is not an investment entity.

HKFRS 13 Fair Value Measurement

HKFRS 13 establishes a single source of guidance for fair value measurements and disclosures about fair value measurements. The Standard defines fair value, establishes a framework for measuring fair value, and requires disclosures about fair value measurements. The scope of HKFRS 13 is broad; it applies to both financial instrument items and non-financial instrument items for which other HKFRSs require or permit fair value measurements and disclosures about fair value measurements, except in specified circumstances. In general, the disclosure requirements in HKFRS 13 are more extensive than those in the current standards. For example, quantitative and qualitative disclosures based on the three-level fair value hierarchy currently required for financial instruments only under HKFRS 7 Financial Instruments: Disclosures will be extended by HKFRS 13 to cover all assets and liabilities within its scope.

HKFRS 13 is effective for annual periods beginning on or after 1 January 2013, with earlier application permitted. The directors of the Company anticipate that application of the new standard may affect certain amounts reported in the consolidated financial statements and result in more extensive disclosures in the consolidated financial statements.

2. APPLICATION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS (CONTINUED)**Amendments to HKAS 1 — Presentation of Items of Other Comprehensive Income**

The amendments to HKAS 1 Presentation of Items of Other Comprehensive Income introduce new terminology for the statement of comprehensive income and income statement. Under the amendments to HKAS 1, a “statement of comprehensive income” is renamed as a “statement of profit or loss and other comprehensive income” and an “income statement” is renamed as a “statement of profit or loss”. The amendments to HKAS 1 retain the option to present profit or loss and other comprehensive income in either a single statement or in two separate but consecutive statements. However, the amendments to HKAS 1 require items of other comprehensive income to be grouped into two categories: (a) items that will not be reclassified subsequently to profit or loss; and (b) items that may be reclassified subsequently to profit or loss when specific conditions are met. Income tax on items of other comprehensive income is required to be allocated on the same basis — the amendments do not change the option to present items of other comprehensive income either before tax or net of tax.

The amendments to HKAS 1 are effective for annual periods beginning on or after 1 July 2012. The presentation of items of other comprehensive income will be modified accordingly when the amendments are applied in future accounting periods.

Other than disclosed above, the directors of the Company anticipate that the application of the other new and revised standards, amendments and interpretations will have no material impact on the results and the financial position of the Group.

3. SIGNIFICANT ACCOUNTING POLICIES

The consolidated financial statements have been prepared in accordance with HKFRSs issued by the HKICPA. In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on the Stock Exchange and the Hong Kong Companies Ordinance.

The consolidated financial statements have been prepared under the historical cost basis except for certain financial instruments, which are measured at fair values, as explained in the accounting policies set out below. Historical cost is generally based on the fair value of the consideration given in exchange for goods.

The principal accounting policies are set out below.

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company (its subsidiaries). Control is achieved where the Company has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities.

Income and expenses of subsidiaries acquired or disposed of during the year are included in the consolidated statement of comprehensive income from the effective date of acquisition and up to the effective date of disposal, as appropriate.

Where necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with those used by other members of the Group.

All intra-group transactions, balances, income and expenses are eliminated in full on consolidation.

Merger accounting for business involving entities under common control

The consolidated financial statements incorporate the financial statements items of the combining entities or businesses in which the common control combination occurs as if they had been combined from the date when the combining entities or businesses first came under the control of the controlling party.

The net assets of the combining entities or businesses are consolidated using the existing book values from the controlling parties' perspective. No amount is recognised in respect of goodwill or excess of acquirer's interest in the net fair value of acquiree's identifiable assets, liabilities and contingent liabilities over cost at the time of common control combination, to the extent of the continuation of the controlling party's interest.

The consolidated statements of comprehensive income includes the results of each of the combining entities or businesses from the earliest date presented or since the date when the combining entities or businesses first came under the common control, where this is a shorter period, regardless of the date of the common control combination.

The comparative amounts in the consolidated financial statements are presented as if the entities or businesses had been combined at the end of the previous reporting period or when they first came under common control, whichever is shorter.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2012

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**Investment in a subsidiary**

Investment in a subsidiary is carried on the statement of financial position of the Company at cost less impairment. Provision for impairment in a subsidiary is made when the recoverable amount of the subsidiary is lower than the Company's respective cost of investment.

Plant and equipment

Plant and equipment are stated in the consolidated statement of financial position at cost less subsequent accumulated depreciation and accumulated impairment losses, if any.

Depreciation is recognised so as to write off the cost of items of plant and equipment less their residual values over their estimated useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets. However, when there is no reasonable certainty that ownership will be obtained by the end of the lease term, assets are depreciated over the shorter of the lease term and their useful lives.

An item of plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

Prepaid lease payment

Payment for obtaining land use rights is considered as operating lease payment. Land use rights are stated at cost less accumulated amortisation and accumulated impairment losses. Amortisation is charged to consolidated statement of comprehensive income over the period of the rights using the straight-line method.

Inventories

Inventories are stated at the lower of cost and net realisable value. Costs of inventories are calculated using the weighted average method. Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2012

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**Financial instruments**

Financial assets and financial liabilities are recognised in the consolidated statements of financial position when a group entity becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets at fair value through profit or loss ("FVTPL")) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs that are directly attributable to the acquisition of financial assets at FVTPL are recognised immediately in profit or loss.

Financial assets

The Group's financial assets are classified into one of the two categories, including financial assets at FVTPL and loans and receivables. The classification depends on the nature and purpose of the financial assets and is determined at the time of initial recognition. All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period to the net carrying amount on the initial recognition.

Interest income is recognised on an effective interest basis for debt instruments other than those financial assets classified as at FVTPL, of which interest income is included in net gains or losses.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2012

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**Financial instruments (Continued)****Financial assets (Continued)****Financial assets at fair value through profit or loss**

Financial assets at FVTPL has two subcategories, including financial assets held for trading and those designated as at FVTPL on initial recognition. A financial asset is classified as held for trading if:

- it has been acquired principally for the purpose of selling in the near term; or
- it is a part of a portfolio of identified financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument.

A financial asset other than a financial asset held for trading may be designated as at FVTPL upon initial recognition if:

- such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise; or
- the financial asset forms part of a group of financial assets or financial liabilities or both, which is managed and its performance is evaluated on a fair value basis, in accordance with the Group's documented risk management or investment strategy, and information about the grouping is provided internally on that basis; or
- it forms part of a contract containing one or more embedded derivatives, and HKAS 39 permits the entire combined contract (asset or liability) to be designated as at FVTPL.

Financial assets at FVTPL are measured at fair value, with changes in fair value arising from remeasurement recognised directly in profit or loss in the period in which they arise. The net gain or loss recognised in profit or loss includes any dividend or interest earned on the financial assets and is included in the other gains and losses line item in the consolidated statement of comprehensive income.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Subsequent to initial recognition, loans and receivables (including trade and other receivables, pledged bank deposits, and bank balances and cash) are carried at amortised cost, using the effective interest method, less any identified impairment losses (see accounting policy on impairment loss on financial assets below).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2012

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Financial instruments (Continued)**Impairment loss on financial assets**

Financial assets, other than those at FVTPL, are assessed for indicators of impairment at the end of the reporting period. Financial assets are considered to be impaired when there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the financial assets have been affected.

For financial assets other than those at FVTPL, objective evidence of impairment could include:

- significant financial difficulty of the issuer or counterparty; or
- breach of contract, such as default or delinquency in interest or principal payments; or
- it becoming probable that the borrower will enter bankruptcy or financial re-organisation; or
- disappearance of an active market for that financial asset because of financial difficulties.

For certain categories of financial asset, such as trade receivables, assets that are assessed not to be impaired individually are, in addition, assessed for impairment on a collective basis. Objective evidence of impairment for a portfolio of receivables could include the Group's past experience of collecting payments, an increase in the number of delayed payments in the portfolio past the credit period of 0–45 days, observable changes in national or local economic conditions that correlate with default on receivables.

For financial assets carried at amortised cost, the amount of the impairment loss recognised the difference between the asset's carrying amount and the present value of the estimated future cash flows discounted at the financial asset's original effective interest rate.

The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of trade receivables, where the carrying amount is reduced through the use of an allowance account. Changes in the carrying amount of the allowance account are recognised in profit or loss. When a trade receivable is considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited to profit or loss.

For financial assets measured at amortised cost, if, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment losses was recognised, the previously recognised impairment loss is reversed through profit or loss to the extent that the carrying amount of the asset at the date the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Financial instruments (Continued)

Financial liabilities and equity instruments

Debt and equity instruments issued by a group entity are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of the group after deducting all of its liabilities. Equity instruments issued by the Group are recognised at the proceeds received, net of direct issue costs.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premium or discounts) through the expected life of the financial liability, or where appropriate, a shorter period to the net carrying amount on initial recognition.

Interest expenses are recognised on an effective interest basis.

Financial liabilities

Financial liabilities including trade and other payables, amounts due to a director and a related company, bank borrowings and obligations under finance leases are subsequently measured at amortised cost, using the effective interest method.

For the year ended 31 December 2012

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**Financial instruments** *(Continued)***Derivative financial instruments**

Derivatives are initially recognised at fair value at the date a derivative contract is entered into and are subsequent remeasured to their fair value at the end of the reporting period. The resulting gain or loss is recognised in profit or loss immediately.

Derecognition

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all risks and rewards of ownership of the asset to another entity. If the Group neither transfer nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group continues to recognise the asset to the extent of its continuing involvement and recognises an associated liability. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or expire. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

Cash and cash equivalents

Bank balances and cash in the consolidated statement of financial position comprise cash at bank and on hand and short-term deposits with a maturity of three months or less. For the purpose of the consolidated statement of cash flows, cash and cash equivalent consist of cash and short-term deposits as defined above.

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Impairment losses

At the end of the reporting period, the Group reviews the carrying amounts of its assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. An impairment loss is recognised as an expense immediately in profit or loss.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risk specific to the asset for which the estimates of future cash flows have not been adjusted.

Where an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior years. A reversal of an impairment loss is recognised as income immediately.

Revenue recognition

(i) *Sale of goods*

Revenue is measured at the fair value of the consideration received or receivable and represents amounts receivable for goods sold in the normal course of business, net of discounts, sales returns and sales related taxes.

Revenue from sale of goods is recognised when the goods are delivered and title has passed, at which time all the following conditions are satisfied:

- the Group has transferred to the buyer the significant risks and rewards of ownership of the goods;
- the Group retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- the amount of revenue can be measured reliably;
- it is probable that the economic benefits associated with the transaction will flow to the Group; and
- the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Deposits received from customers prior to meeting the above criteria on revenue recognition are included in the consolidated statements of financial position under current liabilities.

For the year ended 31 December 2012

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**Revenue recognition** *(Continued)***(ii) Interest income**

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Group and the amount of income can be measured reliably. Interest income from a financial asset is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts the estimated future cash receipts through the expected life of the financial asset to the that asset's net carrying amount on initial recognition.

Leasing

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

The Group as lessee

Assets held under finance leases are recognised as assets of the Group at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the consolidated statements of financial position as a finance lease obligation.

Lease payments are apportioned between finance expenses and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance expenses are recognised immediately in profit or loss.

Operating lease payments are recognised as an expense on a straight-line basis over the lease term.

In the event that lease incentives are received to enter into operating leases, such incentives are recognised as a liability. The aggregate benefit of incentives is recognised as reduction of rental expense on a straight-line basis, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

Borrowing costs

All borrowing costs are recognised in profit or loss in the period in which they are incurred.

Retirement benefit costs

Payments to state-managed retirement benefit schemes and the Mandatory Provident Fund Scheme (the "MPF Scheme") are charged as an expense when employees have rendered service entitling them to the contribution.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2012

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**Taxation**

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from "profit before taxation" as reported in the consolidated statement of comprehensive income because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax base used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary difference to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of the reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rate (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Current and deferred tax is recognised in to profit or loss.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For the year ended 31 December 2012

3. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**Foreign currencies**

In preparing the financial statements of each individual group entity, transactions in currencies other than the functional currency of that entity (foreign currencies) are recorded in the respective functional currency (i.e. the currency of the primary economic environment in which the entity operates) at the rates of exchanges prevailing on the dates of the transactions. At the end of the reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on the translation of monetary items, are recognised in profit or loss in the period in which they arise.

For the purposes of presenting the consolidated financial statements, the assets and liabilities of the Group's foreign operations are translated into the presentation currency of the Group (i.e. HK\$) using exchange rates prevailing at the end of each reporting period. Income and expenses are translated at the average exchange rates for the year. Exchange differences arising, if any, are recognised as a separate component of equity (the exchange translation reserve). Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in equity under the heading of exchange translation reserve.

Government grants

Government grants are not recognised until there is reasonable assurance that the Group will comply with the conditions attaching to them and that the grants will be received.

Government grants are recognised in profit or loss on a systematic basis over the periods in which the Group recognises as expenses the related costs for which the grants are intended to compensate.

Government grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Group with no future related costs are recognised in profit or loss in the period in which they become receivable.

4. KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, which are described in Note 3, the directors of the Company are required to make estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

The followings are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

Depreciation of plant and equipment

Plant and equipment are depreciated on a straight-line basis over their estimated useful lives, after taking into account their estimated residual values. The determination of the useful lives and residual values involve management's estimation. The Group assesses annually the residual value and the useful life of the plant and equipment and if the expectation differs from the original estimate, such a difference may impact the depreciation in the year and the estimate will be changed in the future period.

Impairment loss recognised in respect of plant and equipment

The impairment loss for plant and equipment is recognised for the amounts by which the carrying amounts exceed their recoverable amounts, in accordance with the Group's accounting policy. The recoverable amounts of plant and equipment have been determined based on value-in-use calculations. These calculations require the use of estimates such as the future revenue with a stable growth rate and a suitable discount rate. The carrying amounts of plant and equipment were approximately HK\$41,633,000 at 31 December 2012 (2011: HK\$49,542,000). No impairment loss was recognised during the years ended 31 December 2012 and 2011.

Estimated impairment loss recognised in respect of trade receivables

The Group performs ongoing credit evaluations of its customers and adjusts credit limits based on payment history and the customer's current credit-worthiness, as determined by the review of their current credit information. The Group continuously monitors collections and payments from its customers and maintains a provision for estimated credit losses based upon its historical experience. Credit losses have historically been within the Group's expectations and the Group will continue to monitor the collections from customers and maintain an appropriate level of estimated credit losses. The carrying amounts of trade receivables were approximately HK\$44,026,000 at 31 December 2012 (2011: HK\$42,722,000). No impairment loss was recognised during the years ended 31 December 2012 and 2011.

4. KEY SOURCES OF ESTIMATION UNCERTAINTY (CONTINUED)**Estimated allowance for inventories**

The management of the Group reviews an ageing analysis at the end of the reporting period, and makes allowance for obsolete and slow-moving inventory items identified that are no longer suitable for sale. The management estimates the net realisable value for such raw materials, work-in-progress and finished goods based primarily on the latest invoice prices and current market conditions. The Group carries out an inventory review on a product-by-product basis at the end of each reporting period and makes allowance for obsolete and slow-moving items. The carrying amounts of inventories were approximately HK\$21,358,000 at 31 December 2012 (2011: HK\$26,987,000). No impairment loss was recognised during the years ended 31 December 2012 and 2011.

5. CAPITAL RISK MANAGEMENT

The Group manages its capital to ensure that entities in the Group will be able to continue as a going concern while maximising the return to shareholders through the optimisation of the debt and equity balance. The Group's overall strategy remains unchanged from prior year.

The capital structure of the Group consists of net debts which include the bank borrowings in Note 25, obligations under finance leases in Note 26, and net of cash and cash equivalents and equity attributable to the owners of the Company, comprising issued share capital and reserves.

The directors of the Company review the capital structure periodically. As part of the review, the directors of the Company consider the cost of capital and the risks associated with each class of capital, and take appropriate actions to adjust the Group's capital structure. Based on the recommendations of the directors of the Company, the Group will balance its overall capital structure through the issue of new or the redemption of existing debt and new share issues.

| Financial assets | | |
| Loans and receivables (including bank balances and cash) | 138,221 | 99,804 |
| Derivative financial instruments | 550 | 700 |
| Financial liabilities | | |
| Financial liabilities at amortised cost | 65,330 | 68,670 |

7. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's major financial instruments include trade and other receivables, derivative financial instruments, pledged bank deposits, bank balances and cash, trade and other payables, amounts due to a director and a related company, bank borrowings and obligations under financial leases. Details of these financial instruments are disclosed in respective notes. The risks associated with these financial instruments include market risk (currency risk and interest rate risk), credit risk and liquidity risk. The policies on how to mitigate these risks are set out below. The directors of the Company manage and monitor these exposures to ensure appropriate measures are implemented on a timely and effective manner. There has been no material change to the Group's exposure to financial risk or the manner in which it manages and measures the risk.

Market risk**Currency risk**

The Group believe that the pegged rate between the US\$ and the HK\$ will be materially unaffected by any changes in the value of US\$ against other currencies. In this respect, the Group considers its exposure to foreign currency risk in respect of HK\$ to be insignificant.

The Group has foreign currency operation, which expose the Group to foreign currency risk. The currency giving rise to this risk is primarily Renminbi ("RMB").

7. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

Market risk (Continued)**Currency risk** (Continued)

The carrying amounts of the Group's foreign currency denominated monetary assets and liabilities at the end of the reporting date are as follows:

| | Assets | | Liabilities | |
|-----|------------------|------------------|------------------|------------------|
| | 2012 HK\$'000 | 2011 HK\$'000 | 2012 HK\$'000 | 2011 HK\$'000 |
| RMB | 8,027 | 1,073 | 15,985 | 12,105 |

The management monitors foreign exchange exposure by using structured forward contracts to manage and hedge significant foreign currency exposures. Such structured forward contracts are not accounted for under hedge accounting (see Note 21 for details).

Sensitivity analysis

The Group is mainly exposed to the effects of fluctuation in RMB.

The following table details the Group's sensitivity to a 5% increase and decrease in US\$ against RMB. 5% is the sensitivity rate used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the end of the reporting period for a 5% change in foreign currency rates. A positive number below indicates an increase in post-tax profit where US\$ strengthen 5% against the relevant currency. For a 5% weakening of US\$ against the relevant currency, there would be an equal and opposite impact on the profit, and the balances below would be negative. The analysis is performed on the same basis for the year ended 31 December 2012 and 2011.

| | RMB | |
|--|------------------|------------------|
| | 2012 HK\$'000 | 2011 HK\$'000 |
| Impact on post-tax profit for the year | 332 | 461 |

This is mainly attributable to the exposure on outstanding trade and other payables denominated in RMB at the end of the reporting period.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)
For the year ended 31 December 2012

7. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

Market risk (Continued)

Currency risk (Continued)

For the outstanding structured forward contracts, if the market forward exchange rate of US\$ against RMB had been 5% higher/lower, post-tax profit for the year ended 31 December 2012 would be decreased by approximately HK\$7,723,000 (2011: HK\$6,228,000)/increased by approximately HK\$103,000 (2011: HK\$178,000) as a result of the changes in the market forward exchange rate of US\$ against RMB.

In management's opinion, the sensitivity analysis is unrepresentative of the inherent foreign exchange risk as the year end exposure does not reflect the exposure during the year.

Interest rate risk

The Group is exposed to fair value interest rate risk in relation to fixed-rate obligations under finance leases (see Note 26 for details). The Group currently does not have an interest rate hedging policy. However, the management monitors interest rate exposure and will consider other necessary action when significant interest rate exposure is anticipated.

The Group is also exposed to cash flow interest rate risk in relation to variable-rate bank borrowings (see Note 25 for details of these borrowings). It is the Group's policy to keep its borrowings at floating rate of interests so as to minimise the fair value interest rate risk.

The Group's pledged bank deposits and bank balances are short-term in nature and the exposure of the interest rate risk is minimal.

Sensitivity analysis

The sensitivity analysis below has been determined based on the exposure to interest rates for non-derivative instruments at the end of reporting period. For variable-rate bank borrowings, the analysis is prepared assuming the amount of liability outstanding at the end of reporting period was outstanding for the whole year. A 50 basis point increase or decrease is used for the year ended 31 December 2012 (2011: 50 basis points) when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates.

If interest rates had been 50 basis points higher/lower for the year and all other variables were held constant, the Group's post-tax profit for the year ended 31 December 2012 would decrease/increase by approximately HK\$108,000 (2011: HK\$140,000). This is mainly attributable to the Group's exposure to cash flow interest rate risk on its variable-rate bank borrowings.

In management's opinion, the sensitivity analysis is unrepresentative of the interest rate risk as the year end exposure does not reflect the exposure during the year.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

7. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES *(CONTINUED)*

Credit risk

At the end of the reporting period, the Group's maximum exposure to credit risk which will cause a financial loss to the Group due to the failure to discharge an obligation by the counterparties provided by the Group is arising from the carrying amount of the respective recognised financial assets as stated in the consolidated statements of financial position.

In order to minimise the credit risk, the management of the Group has delegated a team responsible for determination of credit limits, credit approvals and other monitoring procedures to ensure that follow-up action is taken to recover overdue debts. In addition, the Group reviews the recoverable amount of each individual trade debt at the end of the reporting period to ensure that adequate impairment losses are made for irrecoverable amounts. In this regard, the management of the Company considers that the Group's credit risk is significantly reduced.

The credit risk on liquid funds is limited because majority of the funds are deposited in banks with high credit ratings assigned by international credit rating agencies.

The Group has concentration of credit risk of trade receivables, as 57% of the total trade receivables at 31 December 2012 was due from the Group's largest customer (2011: 61%) and 70% of the total trade receivables at 31 December 2012 was due from the five largest trade customers (2011: 85%).

The Group's concentration of credit risk by geographical locations is mainly in the United States of America (the "USA"), which accounted for 60% of the total trade receivables at 31 December 2012 (2011: 62%).

Liquidity risk

In management of liquidity risk, the Group monitors and maintains a level of cash and cash equivalents deemed adequate by the management to finance the Group's operations and mitigate the effects of fluctuations in cash flows. Management monitors the utilisation of bank borrowings and ensures compliance with loan covenants.

Liquidity risk (Continued)

The following table details the Group's remaining contractual maturity for its non-derivative financial liabilities based on the agreed repayment terms. The table has been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay. Specifically, bank borrowings with a repayment on demand clause are included in the earliest time band regardless of the probability of the banks choosing to exercise their rights. The maturity dates for other non-derivative financial liabilities are based on the agreed repayment dates. The table includes both interest and principal cash flows. To the extent that interest flows are floating rate, the undiscounted cashflows on interest are estimated based on interest rates at the end of the reporting period, and therefore subject to change if changes in variable interest rates differ to those estimates of interest rates determined at the end of the reporting period.

7. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)**Liquidity risk** *(Continued)*

Bank loans with a repayment on demand clause are included in the “within 1 year or on demand” time band in the above maturity analysis. At 31 December 2012, the aggregate undiscounted principal amounts of these bank loans amounted to HK\$18,045,000 (2011: HK\$25,830,000). Taking into account the Group’s financial position, the directors of the Company do not believe that it is probable that the banks will exercise their discretionary rights to demand immediate repayment. The directors of the Company believe that such bank loans will be repaid more than one year but not exceeding five years after the reporting date in accordance with the scheduled repayment dates set out in the loan agreements. At that time, the aggregate principal and interest cash outflows will amount to HK\$18,339,000 (2011: HK\$26,424,000).

The amounts included above for variable interest rate instruments for non-derivative financial liabilities is subject to change in variable interest rates differ to those estimates of interest rates determined at the end of the reporting period.

8. FAIR VALUE

The fair value of financial assets and financial liabilities (excluding derivative instruments) is determined in accordance with generally accepted pricing models based on discounted cash flow analysis using prices or rates from observable current market transactions as input.

The directors of the Company consider that the carrying amounts of current financial assets and financial liabilities recorded at amortised cost in the consolidated financial statements approximate to their fair values due to their short-term maturities.

The directors of the Company also consider that the fair value of the long-term portion of liabilities approximates to their carrying amount as they are carried at amortised cost by using the effective interest method.

Foreign currency forward contracts are measured using quoted forward exchange rates yield curves derived from quoted interest rates matching maturities of the contracts.

8. FAIR VALUE (CONTINUED)

Fair value measurements recognised in the consolidated statement of financial position

The following table provides an analysis of financial instruments that are measured subsequent to initial recognition at fair value, grouped into Levels 1 to 3 based on the degree to which the fair value is observable.

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active market for identical assets or liabilities.
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

| | 2012 Level 2 HK\$'000 | 2011 Level 2 HK\$'000 |
|----------------------------------|-----------------------------|-----------------------------|
| Asset | | |
| Derivative financial instruments | 550 | 700 |

The total loss of HK\$150,000 (2011: gain of HK\$700,000) included in the profit or loss relates to the derivative forward contacts held at the end of the reporting period.

9. TURNOVER AND OTHER OPERATING INCOME

Turnover represents the net amounts received and receivable for goods sold in the normal course of business, net of discounts, sales returns and sales related taxes.

Analysis of the Group's turnover for the year is as follows:

| | 2012 HK\$'000 | 2011 HK\$'000 |
|--|------------------|------------------|
| Turnover | | |
| Sales of knitted products | 400,035 | 326,624 |
| Other operating income | | |
| Bank interest income | 190 | 171 |
| Gain on change in fair value of derivative financial instruments | — | 700 |
| Gain on disposal of plant and equipment | 289 | 494 |
| Gain on disposal of prepaid lease payment (Note 18) | 1,920 | — |
| Net investment income from derivative financial instruments | 1,603 | 360 |
| Sales of scrapped materials | 1,163 | 902 |
| Government grant (Note a) | 107 | — |
| Sundry income | 185 | 455 |
| Waiver of trade payables (Note b) | — | 851 |
| | 5,457 | 3,933 |

Notes:

- a. A one-off government grant of approximately HK\$107,000 (2011: Nil) has been recognised during the year ended 31 December 2012 which was designated for the Group's contribution to the environment improvement in Guangdong Province, the People Republic of China (the "PRC"). All conditions in respect of the grant had been fulfilled and such government grant was recognised in other operating income for the year.
- b. On 16 November 2011, the High Court made a decision in favour of the Group to dismiss a claim of approximately HK\$851,000 from a supplier.

10. SEGMENT INFORMATION
