AsiaInfo Technologies Limited
亞 信 科 技 控 股 有 限 公 司

(Incorporated in the British Virgin Islands with limited liability)

(Stock Code: 1675)

PROFIT WARNING

This announcement is made by AsiaInfo Technologies Limited (the "**Company**", together with its subsidiaries (the "**Group**")) pursuant to the Inside Information Provisions under Part XIVA of the Securities and Futures Ordinance (Chapter 571 of the Laws of Hong Kong) and Rule 13.09 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited.

The board (the "**Board**") of directors (the "**Directors**") of the Company hereby informs the shareholders and potential investors of the Company that, based on the information currently available and a preliminary assessment of the Group's financial performance, it is expected that the operating revenue of the Group for the year ended 31 December 2025 (the "**Period**") will be approximately RMB6.20 billion to RMB6.35 billion (2024: approximately RMB6.646 billion), while the net profit for the Period will be approximately RMB70 million to RMB110 million (2024: approximately RMB516 million), and the net cash inflow from operating activities will be approximately RMB400 million (2024: net outflow of approximately RMB100 million). The decrease in the Group's net profit for the Period was partly attributable to the effects of the non-operating items, which have no adverse impact on the Group's daily operations and long-term business development. It is primarily due to the one-time severance compensation of approximately RMB175 million arising from personnel restructuring optimisation. Excluding the effects of the non-operating items, the Group's net profit for the Period is expected to be approximately RMB250 million to RMB290 million.

Additionally, the Company actively navigated severe and complicated external environments and overcame pressures and challenges, achieving improvements or enhancements in certain business segments and performance. Major achievements include: i) transformation and innovation in traditional businesses, with proactive measures taken to address the cost-reduction and efficiency-enhancement pressure from operator customers. As a result, the downward trend in operator market revenue has been significantly controlled and improved, with the high double-digit decrease in 2024 substantially narrowed to a mid single-digit decrease in 2025; ii) capitalising on our continued expansion and investment in AI delivery and other areas by building a sustainable AI delivery system while deepening collaboration with leading companies like Alibaba Cloud and NVIDIA, we achieved substantial growth in revenue and orders and maintained a robust pipeline of business opportunities, with increased proactive investments in areas such as physical AI and satellite internet; and iii) our operating cash flow has changed from a net outflow in 2024 to a net inflow due to significant improvement in receivables collection.

In 2026, the Company will adhere to its "AI First" strategic plan, consolidate its core business of operator services, seize strategic high ground in digital and intelligent operations, and cultivate a second growth engine from intelligent connectivity products, with a view to facilitate the Company's transformation into a leader in providing professional services, digital and intelligent operations, and intelligent connectivity to enterprise customers in the era of the intelligent internet. The Board and the management are confident about the Company's future development.

The Company is still in the process of finalising the annual results for the Period. The information contained in this announcement is only a preliminary assessment by the Board based on the figures and information currently available and has not been audited or reviewed by the Company's auditor or the audit committee of the Company. The specific financial information is subject to the disclosure of the 2025 annual results announcement and the 2025 annual report of the Company.

Shareholders and potential investors of the Company are advised to exercise caution when dealing in the shares of the Company.

By order of the Board
