MANAGEMENT DISCUSSION AND ANALYSIS

OVERVIEW

Ten Pao Group Holdings Limited (“Ten Pao” or the “Company”, and together with its subsidiaries, the “Group”) is a leading one-stop smart power supply solutions provider in Hong Kong and a player of nearly 40 years in the switching power supply unit industry. The Group prides itself on its strong research and development (“R&D”) capabilities and a one-stop production model, enabling it to develop technologically advanced products and serve as a major supplier of leading and fast-growing international brands.

For the six months ended 30 June 2018, overall revenue of the Group was HK\$1,470.3 million, which has been increased by 6.9% when compared with the same period last year. However, the appreciation of Renminbi (“RMB”) exchange rate during the period under review has adversely affected the results of the Group whose major revenue are denominated in the United States (the “US”) dollars with expenses are mainly denominated in RMB. The booming development in the electric vehicle and smartphone industries had intensified the shortage in the supply of certain electronic components and led to an increase in their prices. In addition, the increasing minimum wage in the People’s Republic of China (the “PRC”) inevitably posed cost challenges on Ten Pao. The Group’s gross profit declined to HK\$157.9 million, or by 41.3% when compared with the same period last year and gross profit margin was 10.7%. Loss before income tax was HK\$17.7 million as compared to a profit before income tax of HK\$118.5 million for the six months ended 30 June 2017. Loss attributable to owners of the Company amounted to HK\$11.6 million as compared to a profit attributable to owners of the Company of HK\$92.7 million for the six months ended 30 June 2017. Basic loss per share was HK1 cent as compared to a basic earning of HK9 cents per share for the six months ended 30 June 2017. The board (the “Board”) of directors (the “Directors”) of the Company does not recommend the payment of an interim dividend for the six months ended 30 June 2018.

MARKET AND BUSINESS REVIEW

During the period under review, market supply of raw materials remained tight, mainly due to the consistently thriving electric vehicle and smartphone markets since last year, which led to a supply gap of electronic components and in turn a substantial increase in the price of certain electronic components essential for producing consumer electronic products. Furthermore, with the government of the PRC strictly implementing the “Plan of Supervision and Inspection of Environmental Protection”, manufacturers who were unable to meet the latest environmental protection requirement had to have their operations overhauled or productions suspended. Meanwhile, as the government of the PRC tightened standards for recycling plastic scrap materials, plastics supply was tense and price shot up. Hence, since the beginning of 2018, the supply lead time of some key raw materials, particularly passive components, has gradually prolonged and the related costs of these raw materials also increased. The shortage in supply and the rising price of such raw materials also posed impediment to the Group in its delivery of products to its customers. To counter the impacts of external uncertainties, the Group has been actively adjusting its business strategy to mitigate the adverse impact of the recent unfavorable business environment.

The Group’s switching power supply units for consumer products are well-accepted in various industries, including telecommunication equipment, media and entertainment equipment, electrical home appliances, lighting equipment and other products (such as healthcare products). Most of the Group’s products are incorporated into and/or applied in the customers’ own-brand end products. Revenue from switching power supply units for consumer products decreased by 4.0% to HK\$982.4 million as compared to that of the six months ended 30 June 2017, making up 66.8% of the total revenue of the Group. Gross profit and gross profit margin were HK\$98.2 million and 10.0% respectively. Affected by the longer raw material supply lead time, the telecommunication segment is going through transition. Revenue of the telecommunication segment continued to constitute the major part of the Group’s total revenue with a sum of HK\$550.9 million, representing a slight increase of 3.8% as compared to that of the six months ended 30 June 2017. However, according to International Data Corporation’s Worldwide Mobile Phone Tracker¹ report for the first quarter of 2018, consumers around the world are expected to rely more and more on smartphones. As such, the demand for smartphones will keep increasing, and in turn, the demand for ultra-fast charging and flash charging as well as relevant technologies will continue to grow. The telecommunication market is expected to see continuous growth in the coming few years. To gain a larger share in the market, the Group will actively strengthen its core competitiveness, direct more resources onto R&D, and enhance its product quality. At the same time, it will strive to maintain steady growth of its different business segments.

¹ <https://www.idc.com/getdoc.jsp?containerId=prUS43773018>

The smart chargers and industrial power tool use controller products continued to perform outstandingly, with revenue increased by 38.4% to HK\$487.9 million as compared to that of the six months ended 30 June 2017. Gross profit and gross profit margin were HK\$59.7 million and 12.2%. With its plant in Hungary in operation, the Group is closer to its overseas customers and able to expand business with its core customers, as well as enhance cooperation with new customers. Furthermore, policies of the Hungarian government, including cash subsidies and tax relief, are favourable to the development of Ten Pao's Hungarian plant and the Group is encouraged to make further investment there. Giving full play to the advantages of its overseas facility, the Group will exert its best in expanding the segment's customer base.

During the period under review, many provinces and cities in the PRC have raised the minimum wage. The Group has therefore adjusted its workers' wages accordingly. To trim labor costs and boost production capacity, the Group has been building more flexible automated production lines. These automated production lines, however, require in depth evaluation and adjustments to make sure that the products will meet the Group's quality standards and that production capacity can in fact be enhanced. The Group believes when the automated production lines start to operate, they will contribute to the Group's business performance.

BUSINESS OUTLOOK

In the second half of 2018, although it is expected that the global economy will remain volatile, the Group will actively respond to the market trends, particularly in devising strategies to cope with tight raw material supply and rising labour costs.

While there are uncertainties in the global economy, the weakening of RMB in recent months is considered positive for the Group. Even though the trade war between the US and the PRC has escalated recently and the market felt the blow when the US published the proposed list of tariffs on Chinese goods, the Group believes that as it is armed with a diverse product mix of switching power supply units, an extensive clientele and steady source of customers from Europe, plus the geographical advantage and production capacity support from its factory in Hungary, it will be able to effectively mitigate potential risks. The Group will closely monitor the market and flexibly deploy measures to secure a balanced customer mix and rally customers from different regions.

Regarding raw materials and related costs, with supply expected to continue to lag behind market demand, the Group will strive to enhance the bargaining power of its products and look for other solutions including adjusting product prices and optimizing product designs to lower material consumption. The Group will consider using alternative materials from stable sources and with price advantage, without sacrificing product quality, to reduce its reliance on a particular material and maintain a stable supply of raw materials for the Group. During the period under review, certain PRC brands of electronic components had been used to replace the overseas brands of electronic components.

On top of keeping close ties with existing customers, the Group has kept exploring new markets and customers. In the second half of 2018, the Group will start working with other leading smartphone manufacturers in the PRC, which will enhance the performance of the telecommunication segment. Moreover, with the “One Belt, One Road” initiative moving ahead in solid strides, Chinese enterprises are opened to more markets with growth potential. The Group has started business discussion with a number of European customers, in its bid to bring in more profits.

At the advent of “Industrie 4.0”, the manufacturing industry is looking at a market with higher demand in terms of product structure and customer experience. The Group will thus continue to invest in R&D so that it will be capable of providing ultra-fast charging and flash charging technology to smartphone customers. It will also pursue R&D in scopes such as high-power electric supply technologies, wireless charging and power supply for Smart Home application. The direction of the Group is to develop more high-tech embedded solutions that can meet customers’ constantly changing needs. As for production capacity, construction of phase two of the Group’s Hungarian factory will start in the second half of 2018 and it will be equipped with Automatic Insertion (AI) and Surface Mount Technology (SMT) equipment. The Group is looking forward to boost its production capacity for taking orders from new European customers. The Group’s manufacturing base in Huizhou of the PRC will also build additional floor areas for its production to cope with the increasing demand from our customers. By pooling together internal and external resources, the Group will be able to strengthen its overall profitability and have a firm foundation to achieve long-term development.

Looking ahead, Ten Pao remains cautiously optimistic about the growth prospect of its business in the future. As always, the Group will be prudent and pragmatic in implementing its business strategies and countering market challenges to the ultimate end of growing its business. The Group will seize opportunities in the industry to enhance operational and financial performance, thereby solidify its leadership position in the switching power supply industry.

LIQUIDITY AND FINANCIAL RESOURCES

The Group maintains a strong and healthy balance sheet. As of 30 June 2018, net current assets was HK\$211.7 million as compared with HK\$272.7 million of 31 December 2017. As of 30 June 2018, current ratio was 1.18 times (31 December 2017: 1.24 times) (current ratio is calculated by using the following formula: current assets/current liabilities), which is mainly attributable to the payment of income tax and creditors with the operating cash flow generated during the six months ended 30 June 2018.

The Group has always pursued a prudent treasury management policy and actively managed its liquidity position with sufficient standby banking facilities to cope with its daily operation and any demands for capital in its future development.

Gearing ratio was 62.1% as at 30 June 2018 (31 December 2017: 31.7%) (gearing ratio is calculated by using the following formula: total borrowings/total equity).

The Group's borrowings were mainly arranged on a floating rate basis. During the six months ended 30 June 2018, the Group has entered into hedging arrangements to hedge against exposure in interest rate risk for certain banking facilities only. As such, any substantial fluctuation of interest rate may cause financial impacts on the Group. The management of the Company will continue to monitor the Group's interest rate exposure and will consider taking appropriate actions, including but not limited to hedging should the need arise.

Net cash used in operating activities was HK\$60.9 million for the six months ended 30 June 2018 (six months ended 30 June 2017: HK\$70.9 million generated from operating activities) and the decrease was mainly attributable to the building of strategic inventory of certain electronic components and the earlier settlement to suppliers to get the raw materials necessary for the production in time.

Net cash used in investing activities for the six months ended 30 June 2018 was HK\$80.0 million (six months ended 30 June 2017: HK\$66.3 million) as the Group has acquired additional plant and machineries to cope with the increasing orders from customers.

During the six months ended 30 June 2018, net cash generated from financing activities was HK\$131.2 million (six months ended 30 June 2017: HK\$6.5 million used in financing activities).

DEBT MATURITY PROFILE

The maturity profile of the Group's borrowing is set out below:

	30 June 2018 HK\$'000 (Unaudited)	31 December 2017 HK\$'000 (Audited)
Within 1 year	253,364	119,904
Between 1 and 2 years	52,926	36,496
Between 2 and 5 years	34,480	31,404
	340,770	187,804

FINANCIAL RISK MANAGEMENT

Foreign Exchange Risk

The Group operates mainly in the PRC, with a notable portion of its revenue derived from its export sales to overseas countries. The Group is exposed to foreign exchange risks, in particular fluctuations in currency exchange rates of HK\$ and USD against RMB.

The Group generates a notable portion of revenue and receivables in USD and HK\$, while its cost of sales is primarily denominated in RMB. For the six months ended 30 June 2018, its revenue denominated in USD and HK\$ amounted to approximately 65.3% of its total revenue (six months ended 30 June 2017: 71.5%).

The Group manages its foreign exchange risk by performing regular reviews of the Group's net foreign exchange exposures and it may enter into certain forward foreign exchange contracts, when necessary, to manage its exposure against foreign currencies and to mitigate the impact on exchange rate fluctuations. During the six months ended 30 June 2018, no forward foreign exchange contracts had been entered into by the Group as the Group did not consider there was any risk associated with exchange rate fluctuation that may adversely affect the results of the Group. As at 30 June 2018, the Group had no outstanding forward contract (31 December 2017: Nil).

Cash Flow and Fair Value Interest Rate Risk

As the Group has no significant interest-bearing assets (other than bank balances and cash), the Group's income and operating cash flows are substantially independent of changes in market interest rates. As of 30 June 2018, the Group had bank borrowings of HK\$340.8 million (31 December 2017: HK\$187.8 million) which was primarily denominated in HK\$, RMB and USD.

Credit Risk

The Group has no significant concentrations of credit risk. The carrying amounts of trade receivables, deposits and other receivables, bank balances and cash included in the interim condensed consolidated balance sheets represent the Group's maximum exposure to credit risk in relation to its financial assets. The Group has policies in place to ensure credit terms are only granted to customers with an appropriate credit history, and credit evaluations on them were performed periodically, taking into account of their financial position, past experience and other factors. For customers to whom no credit terms were offered, the Group generally requires them to pay deposits and/or advances prior to the delivery of products. The Group typically does not require collaterals from customers. Provisions are made for the balances when they are past due and the management considers the default risk is high.

As at 30 June 2018, all of the bank balances, term deposits and restricted bank deposits were deposited with highly reputable and sizable banks and financial institutions without significant credit risk in the PRC and Hong Kong. The management does not expect to incur any losses from non-performance by these banks and financial institutions. As at 30 June 2018 and 31 December 2017, the Group held cash and bank balances and restricted bank deposits totalling HK\$193.6 million and HK\$208.2 million, respectively, with four major banks in the PRC and Hong Kong.

Liquidity Risk

The liquidity position of the Group is monitored closely by its management. The Group monitors and maintains a level of cash and cash equivalents deemed adequate by the management to finance its operations and mitigate the effects of fluctuations in cash flows.

CONTINGENT LIABILITIES

As at 30 June 2018, the Group did not have any significant contingent liabilities (31 December 2017: Nil).

FUTURE PLANS FOR MATERIAL INVESTMENTS OR CAPITAL ASSETS

The Group did not have plans for material investments or capital assets during the six months ended 30 June 2018.

MATERIAL ACQUISITIONS AND DISPOSALS OF SUBSIDIARIES, ASSOCIATES AND JOINT VENTURES

The Group did not have any material acquisitions and disposals of subsidiaries, associates and joint ventures for the six months ended 30 June 2018.

CORPORATE GOVERNANCE AND OTHER INFORMATION

HUMAN RESOURCES

The Group employed a total of approximately 6,500 full-time employees as of 30 June 2018. The Group believes the human resources are its valuable assets and maintains its solid commitment to attracting, developing and retaining talented employees, in addition to providing dynamic career opportunities and a favorable working environment to its employees. The Group constantly provides training with diverse operational functions and offers competitive remuneration packages and incentives to all employees. The Group operates a share option scheme to recognise and acknowledge the contributions of its employees and the Directors. Further details of which is set out in the section headed “Share Option Scheme” in page 19 of this report. The Group regularly reviews its human resources policies for addressing corporate development needs. The total labour costs for the six months ended 30 June 2018 was HK\$282.9 million, as compared to HK\$231.0 million for the same period last year.

INTERIM DIVIDEND

The Board does not recommend the payment of an interim dividend for the six months ended 30 June 2018 (30 June 2017: HK2.5 cents per share) to the Company’s shareholders.

UPDATE ON DIRECTOR’S INFORMATION

Set out below is the change in the Director’s information, which are required to be disclosed pursuant to Rule 13.51B(1) of the Rules (the “Listing Rules”) Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the “Stock Exchange”):

With effect from 13 May 2018, Mr. Lee Kwan Hung resigned as an independent non-executive director of Asia Cassava Resources Holdings Limited, a company listed on the Main Board of the Stock Exchange (stock code: 841).

Save as disclosed above, there are no other information which are required to be disclosed under Rule 13.51B(1) of the Listing Rules.

MODEL CODE FOR SECURITIES TRANSACTIONS

The Company has adopted the Model Code for Securities Transactions by Directors of Listed Issuers (the “Model Code”) contained in Appendix 10 to the Listing Rules as the code of conduct regarding securities transactions of the Directors. Employees of the Group (the “Relevant Employees”) who, because of their office or employment, are likely to possess inside information in relation to the Company or its securities are also subject to compliance with the Model Code. Following specific enquiry, each of the Directors has confirmed compliance with the Model Code throughout the six months ended 30 June 2018 and up to the date of this report. No incident of non-compliance of the Model Code by the Relevant Employees was noted by the Company during the six months ended 30 June 2018 and up to the date of this report.

PURCHASE, SALE OR REDEMPTION OF THE COMPANY’S LISTED SECURITIES

Neither the Company nor any of its subsidiaries purchased, sold or redeemed any of the Company’s listed securities during the six months ended 30 June 2018.

AUDIT COMMITTEE AND REVIEW OF FINANCIAL STATEMENTS

The Board has established an audit committee of the Company (the “Audit Committee”) which comprises three independent non-executive Directors, namely Mr. Chu Yat Pang Terry (chairman), Mr. Lam Cheung Chuen and Mr. Lee Kwan Hung.

The Audit Committee has reviewed the Company’s unaudited interim condensed consolidated financial statements for the six months ended 30 June 2018 in conjunction with the Company’s management. The Audit Committee has also reviewed the effectiveness of the risk management and internal control systems of the Company and considers the risk management and internal control systems to be effective and adequate.

In addition, the independent auditor of the Company, PricewaterhouseCoopers, has reviewed the unaudited interim financial information for the six months ended 30 June 2018 in accordance with Hong Kong Standard on Review Engagements 2410 “Review of Interim Financial Information Performed by the Independent Auditor of the Entity” issued by the Hong Kong Institute of Certified Public Accountants.

SUFFICIENCY OF PUBLIC FLOAT

Based on the information that is publicly available to the Company and within the knowledge of the Directors, for the six months ended 30 June 2018 and, up to the date of this report, there has been sufficient public float of not less than 25% of the Company's issued shares as required under the Listing Rules.

CORPORATE GOVERNANCE PRACTICES

The Board and management are committed to abiding by the principles of good corporate governance with emphasis on transparency and accountability. The Board has established the Audit Committee, a nomination committee and a remuneration committee with defined terms of reference in accordance with the requirements set out in the Listing Rules.

The Board has reviewed the Company's corporate governance practices and is satisfied that the Company has been in compliance with the code provisions set out in the Corporate Governance Code contained in Appendix 14 to the Listing Rules throughout the six months ended 30 June 2018 and up to the date of this report, with the exception of code provision A.2.1.

According to code provision A.2.1, the roles of chairman and chief executive should be separate and should not be performed by the same person. The Company deviates from this code provision because Mr. Hung Kwong Yee ("Chairman Hung") performs both the roles of the chairman of the Board and the chief executive officer of the Company. Chairman Hung, the founder of the Group with the established market reputation in the power supply industry in the PRC, has extensive experience in its business operation and management in general. The Board believes that vesting the two roles in the same person provides the Company with strong and consistent leadership and facilitates the implementation and execution of the Group's business strategies which is in the best interests of the Company. Under the leadership of Chairman Hung, the Board works effectively and performs its responsibilities with all key and appropriate issues discussed in a timely manner. In addition, as all major decisions are made in consultation with members of the Board and relevant Board committees, and there are three independent non-executive Directors on the Board offering independent perspectives, the Board is of the view that there are adequate safeguards in place to ensure sufficient balance of powers within the Board. The Board shall nevertheless review the structure and composition of the Board from time to time in light of prevailing circumstances, to maintain a high standard of corporate governance practices of the Company.

DIRECTORS' AND CHIEF EXECUTIVE'S INTERESTS AND SHORT POSITIONS IN SHARES, UNDERLYING SHARES AND DEBENTURES

As at 30 June 2018, the interests and short positions of the Directors and the chief executive of the Company in the shares, underlying shares and debentures of the Company or any associated corporation (within the meaning of Part XV of the Securities and Futures Ordinance, Chapter 571 of the Laws of Hong Kong (the "SFO")), as recorded in the register required to be kept under Section 352 of the SFO or as otherwise notified to the Company and the Stock Exchange pursuant to the Model Code, were as follows:

(A) Long position in ordinary shares of the Company

Name of Director	Capacity	Note	Number of ordinary shares interested	Approximate percentage* of the Company's issued share capital
Chairman Hung	Beneficial owner		13,052,000	1.30%
	Interest of a controlled corporation	1	338,012,000	33.78%
	Founder of a discretionary trust	2	300,000,000	29.99%
Total			651,064,000	65.07%
Lam Cheung Chuen	Beneficial owner		1,000,000	0.10%

Notes:

- These shares are held by Even Joy Holdings Limited, a company wholly owned by Chairman Hung. By virtue of the SFO, Chairman Hung is deemed to be interested in these shares held by Even Joy Holdings Limited.
- These shares are held by TinYing Investments Limited, a company wholly owned by TinYing Holdings Limited, which is in turn wholly owned by Vistra Trust (BVI) Limited acting as the trustee of The TinYing Trust (the "Family Trust"). The Family Trust is a discretionary trust established by Chairman Hung as settlor. The beneficiaries of the Family Trust are Chairman Hung, certain of his family members and other persons who may be added or amended from time to time. By virtue of the SFO, Chairman Hung, TinYing Holdings Limited and Vistra Trust (BVI) Limited are deemed to be interested in these shares held by TinYing Investments Limited.

(B) Long position in underlying shares of the Company – physically settled unlisted equity derivatives

Name of Director	Capacity	Number of underlying shares of the Company in respect of the share options granted <i>(Note)</i>	Approximate percentage* of underlying shares of the Company over the Company's issued share capital
Chairman Hung	Beneficial owner	864,000	0.09%
Hung Sui Tak	Beneficial owner	300,000	0.03%
Chu Yat Pang Terry	Beneficial owner	200,000	0.02%
Lam Cheung Chuen	Beneficial owner	200,000	0.02%
Lee Kwan Hung	Beneficial owner	200,000	0.02%

Note: Details of the share options granted by the Company are set out in the section headed "Share Option Scheme" in this report.

* The percentage represents the number of ordinary shares/underlying shares of the Company interested divided by the number of the Company's issued shares as at 30 June 2018.

Save as disclosed above, as at 30 June 2018, none of the Directors or chief executive of the Company had any interests and/or short positions in the shares, underlying shares and debentures of the Company or any associated corporation (within the meaning of Part XV of the SFO), as recorded in the register required to be kept under Section 352 of the SFO, or as otherwise notified to the Company and the Stock Exchange pursuant to the Model Code.

INTERESTS AND SHORT POSITIONS OF SUBSTANTIAL SHAREHOLDERS

As at 30 June 2018, so far as is known to the Directors, the following corporations or persons (other than a Director or the chief executive of the Company) had an interest or short position in the shares and underlying shares of the Company as recorded in the register required to be kept by the Company under Section 336 of the SFO:

Long position in shares of the Company

Name of shareholder	Capacity	Number of ordinary shares interested	Approximate percentage* of the Company's issued share capital
Even Joy Holdings Limited	Beneficial owner	338,012,000	33.78%
TinYing Investments Limited	Beneficial owner	300,000,000	29.99%
TinYing Holdings Limited	Interest in a controlled corporation	300,000,000	29.99%
Vistra Trust (BV) Limited	Trustee of a discretionary trust	300,000,000	29.99%

Note: The above interests are also disclosed in the above section headed "Directors' and chief executive's interests and short positions in shares, underlying shares and debentures".

* The percentage represents the number of ordinary shares of the Company interested divided by the number of the Company's issued shares as at 30 June 2018.

Save as disclosed above, as at 30 June 2018, other than the Director and the chief executive of the Company whose interests are set out in the paragraph headed "Directors' and chief executive's interests and short positions in shares, underlying shares and debentures" above, no person had interest or short position in the shares or underlying shares of the Company which were required to be recorded in the register required to be kept by the Company pursuant to Section 336 of the SFO.

SHARE OPTION SCHEME

The Company adopted a share option scheme on 23 November 2015 (the “Share Option Scheme”), which falls within the ambit of, and is subject to the regulations under Chapter 17 of the Listing Rules. The purpose of the Share Option Scheme is to recognise and acknowledge the contributions the employees, Directors and other participants have had or may have made to the Group. Details of movement of the share options granted under the Share Option Scheme for the six months ended 30 June 2018 are as follows:

Name or category of option holders	Date of grant (Note 1)	Exercise price per share	Exercise period	Number of share options				
				Outstanding as at 1 January 2018	Granted during the period	Exercised during the period	Lapsed/ cancelled during the period	Outstanding as at 30 June 2018
Directors								
Chairman Hung	15/9/2016	HK\$1.31	15/9/2016–14/9/2019	864,000	–	–	–	864,000
Hung Sui Tak	15/9/2016	HK\$1.31	15/9/2016–14/9/2019	300,000	–	–	–	300,000
Lam Cheung Chuen	15/9/2016	HK\$1.31	15/9/2016–14/9/2019	200,000	–	–	–	200,000

Total				18,644,000	–	–	–	18,644,000

Notes:

1. The share options granted were vested on the date of grant.
2. Mr. Hong Guandai retired as an executive Director with effect from 25 May 2018.
3. The number and/or exercise price of the share options may be subject to adjustment in the case of rights or bonus issues, or other changes in the Company’s share capital.

REPORT ON REVIEW OF INTERIM FINANCIAL INFORMATION

To the Board of Directors of Ten Pao Group Holdings Limited

(incorporated in the Cayman Islands with limited liability)

INTRODUCTION

We have reviewed the interim financial information set out on pages 22 to 64, which comprises the interim condensed consolidated balance sheet of Ten Pao Group Holdings Limited (the “Company”) and its subsidiaries (together, the “Group”) as at 30 June 2018 and the interim condensed consolidated statement of profit or loss, the interim condensed consolidated statement of comprehensive income, the interim condensed consolidated statement of changes in equity and the interim condensed consolidated statement of cash flows for the six-month period then ended, and a summary of significant accounting policies and other explanatory notes. The Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited require the preparation of a report on interim financial information to be in compliance with the relevant provisions thereof and Hong Kong Accounting Standard 34 “Interim Financial Reporting”. The directors of the Company are responsible for the preparation and presentation of this interim financial information in accordance with Hong Kong Accounting Standard 34 “Interim Financial Reporting”. Our responsibility is to express a conclusion on this interim financial information based on our review and to report our conclusion solely to you, as a body, in accordance with our agreed terms of engagement and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

SCOPE OF REVIEW

We conducted our review in accordance with Hong Kong Standard on Review Engagements 2410, “Review of Interim Financial Information Performed by the Independent Auditor of the Entity”, issued by the Hong Kong Institute of Certified Public Accountants. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

CONCLUSION

Based on our review, nothing has come to our attention that causes us to believe that the interim financial information of the Group is not prepared, in all material respects, in accordance with Hong Kong Accounting Standard 34 “Interim Financial Reporting”.

NOTES TO THE INTERIM FINANCIAL INFORMATION

(All amounts in HK dollar thousands unless otherwise stated)

1 GENERAL INFORMATION

Ten Pao Group Holdings Limited (天寶集團控股有限公司) (the “Company”) was incorporated in the Cayman Islands on 27 January 2015 as an exempted company with limited liability under the Companies Law, Cap 22 (Law 3 of 1961, as consolidated and revised) of the Cayman Islands. The address of the Company’s registered office is Cricket Square, Hutchins Drive, P.O. Box 2681, Grand Cayman KY1-1111, Cayman Islands.

The Company, an investment holding company, and its subsidiaries (collectively, the “Group”) are principally engaged in the developing, manufacturing and sales of switching power supply units for consumer products and smart chargers and controllers for industrial use in the People’s Republic of China (the “PRC”). The controlling shareholder of the Group is Mr. Hung Kwong Yee (洪光椅) (the “Controlling Shareholder” or “Chairman Hung”).

On 11 December 2015, shares of the Company were listed on The Stock Exchange of Hong Kong Limited (the “Stock Exchange”).

This interim financial information (the “Interim Financial Information”) is presented in Hong Kong dollar (“HK\$”) thousands, unless otherwise stated.

This Interim Financial Information was approved for issue on 10 August 2018 and has not been audited.

2 BASIS OF PREPARATION

This Interim Financial Information for the six months ended 30 June 2018 (the “Period”) has been prepared in accordance with Hong Kong Accounting Standard 34 “Interim Financial Reporting” issued by Hong Kong Institute of Certified Public Accountants. This Interim Financial Information should be read in conjunction with the annual financial statements for the year ended 31 December 2017 (the “2017 Financial Statements”), which have been prepared in accordance with Hong Kong Financial Reporting Standards (“HKFRSs”).

3 ACCOUNTING POLICIES

The accounting policies applied are consistent with those of the annual financial statements for the year ended 31 December 2017, as described in those annual financial statements, except for the adoption of amendments to HKFRSs effective for the financial year beginning 1 January 2018.

(a) **New and amended standards adopted by the Group**

A number of new or amended standards became applicable for the current reporting period and the Group had to change its accounting policies and make retrospective adjustments as a result of adopting these new or amended standards. The Group's assessment of the impact of these new or amended standards is set out below.

HKFRS 9 Financial Instruments

Nature of change

HKFRS 9 addresses the classification, measurement and derecognition of financial assets and financial liabilities, introduces new rules for hedge accounting and a new impairment model for financial assets.

Impact

The Group has reviewed its financial assets and liabilities and assessed the impact from the adoption of HKFRS 9 as follows. The majority of the Group's debt instruments that are currently classified as financial assets at fair value through profit or loss ("FVPL") satisfy the conditions for classification as at FVPL and hence there is no change to the accounting for these assets.

There is no impact on the Group's accounting for financial liabilities, as the new requirements only affect the accounting for financial liabilities that are designed at fair value through profits or loss and the Group does not have any such liabilities. The derecognition rules have been transferred from HKAS 39 Financial Instruments: Recognition and Measurement and have not been changed.

3 ACCOUNTING POLICIES (CONTINUED)

(a) New and amended standards adopted by the Group (continued)

HKFRS 9 Financial Instruments (continued)

Impact (continued)

The new impairment model requires the recognition of impairment provisions based on expected credit losses rather than only incurred credit losses as is the case under HKAS 39. It applies to financial assets classified at amortised cost, debt instruments measured at fair value through other comprehensive income, contract assets under HKFRS 15 Revenue from Contracts with Customers. Based on the assessments undertaken to date, the Group expects no increase in loss allowance for trade debtors.

HKFRS 15 Revenue from Contracts with Customers

Nature of change

The Hong Kong Institute of Certified Public Accountants has issued a new standard for the recognition of revenue. This will replace HKAS 18 which covers contracts for goods and services and HKAS 11 which covers construction contracts and related literature.

The new standards is based on the principle that revenue is recognised when control of a good or service transfers to a customer.

The standard permits either a full retrospective or a modified retrospective approach for the adoption.

Impact

Management has assessed the effects of applying the new standards on the Group's financial statements and has identified there is no material impact on the Group. Revenue of sales of goods is recognised at a point in time.

3 ACCOUNTING POLICIES (CONTINUED)

(b) Impact of standards issued but not yet applied by the Group

HKFRS 16 Leases

HKFRS 16 was issued in January 2016. It will result in almost all leases being recognised on the balance sheet, as the distinction between operating and finance leases is removed. Under the new standard, an asset (the right to use the leased item) and a financial liability to pay rentals are recognised. The only exceptions are short-term and low-value leases.

The accounting for lessors will not significantly change.

The standard will affect primarily the accounting for the Group's operating leases. As at the reporting date, the Group has non-cancellable operating lease commitments of HK\$4,261,000. However, the Directors do not expect the adoption of HKFRS 16 would result in significant impact on the Group's financial performance and positions except for the recognition of the right-of-use assets and corresponding lease liabilities arising from accounting for operating leases by the Group as a lessee.

Some of the commitments may be covered by the exception for short-term and low-value leases and some commitments may relate to arrangements that will not qualify as leases under HKFRS 16.

The standard is mandatory for first interim periods within annual reporting periods beginning on or after 1 January 2019. The Group does not intend to adopt the standard before its effective date.

4 ESTIMATES

The preparation of the Interim Financial Information requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

In preparing this Interim Financial Information, the significant judgments made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the 2017 Financial Statements.

5 FINANCIAL RISK MANAGEMENT

5.1 Financial risk factors

The Group's activities expose it to a variety of financial risks: market risk (including foreign exchange risk, price risk, cash flow and fair value interest rate risk), credit risk and liquidity risk.

This Interim Financial Information does not include all financial risk management information and disclosures required in the annual financial statements, and should be read in conjunction with the 2017 Financial Statements.

There have been no changes in the risk management function since 31 December 2017 or in any risk management policies since 31 December 2017.

5.2 Liquidity risk

Compared to the year ended 31 December 2017, there was no material change in the contractual undiscounted cash outflows for financial liabilities. The Group exercises prudent liquidity risk management by maintaining sufficient cash and bank balances. The Group's liquidity risk is further mitigated through the availability of financing through its own cash resources and the availability of banking facilities to meet its financial commitments. In the opinion of the Directors, the Group does not have any significant liquidity risk.

5 FINANCIAL RISK MANAGEMENT (CONTINUED)

5.3 Fair value estimation

The table below analyses financial instruments carried at fair value, by the levels of inputs to valuation techniques. The inputs to valuation techniques are categorised into three levels within a fair value hierarchy, as follows:

- Level 1 – Quoted prices unadjusted in active markets for identical assets or liabilities.
- Level 2 – Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly that is, as prices or indirectly that is, derived from prices.
- Level 3 – Inputs for the asset or liability that are not based on observable market data that is, unobservable inputs.

The following table presents the Group's assets and liabilities that are measured at fair value as at 30 June 2018 and 31 December 2017.

	As at 30 June 2018 (unaudited)			
	Level 1	Level 2	Level 3	Total
Recurring fair value measurements				
Assets				
Derivative financial instruments	–	73	–	73
Financial assets at fair value through other comprehensive income – non current	–	–	11,861	11,861
Financial assets at fair value through profit or loss-non current	–	–	2,947	2,947

5 FINANCIAL RISK MANAGEMENT (CONTINUED)**5.3 Fair value estimation (continued)**

	As at 31 December 2017 (audited)			
	Level 1	Level 2	Level 3	Total
Recurring fair value measurements				
Assets				
Derivative financial instruments	–	12	–	12
Financial assets at fair value through profit or loss-non current	–	–	2,901	2,901
Liabilities				
Derivative financial instruments	–	5	–	5

(a) Financial instruments in level 1

The fair value of financial instruments traded in active markets is based on quoted market prices at the end of the reporting period. A market is regarded as active if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis. The quoted market price used for financial assets held by the Group is the current bid price. These instruments are included in level 1.

5 FINANCIAL RISK MANAGEMENT (CONTINUED)

5.3 Fair value estimation (continued)

(b) Financial instruments in level 2

The fair value of financial instruments that are not traded in an active market is determined by using valuation techniques. These valuation techniques maximise the use of observable market data where it is available and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

(c) Financial instruments in level 3

If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

Specific valuation techniques used to value financial instruments include:

- Quoted market prices or dealer quotes for similar instruments.
- The fair value of forward foreign exchange contracts determined using forward exchange rates at the balance sheet date, with the resulting value discounted back to present value.
- The fair value of the remaining financial instruments is determined using discounted cash flow analysis.

There were no transfers of financial assets between level 2 and level 3 fair value hierarchy classifications during the Period.

Fair value of financial assets and liabilities measured at amortised cost. There were no other changes in valuation technique during the Period.

5 FINANCIAL RISK MANAGEMENT (CONTINUED)

5.3 Fair value estimation (continued)

(c) Financial instruments in level 3 (continued)

The fair values of the following financial assets and liabilities approximate their respective carrying amounts:

- Bank borrowings
- Trade and other payables
- Trade and other receivables
- Amounts due from related parties
- Amounts due to related parties
- Cash and cash equivalents
- Restricted bank deposits

6 SEASONALITY

The Group's sales volume has historically been affected by seasonality. As the Group's products are used by the Group's customers in their respective manufacturing processes, the demand for the Group's products fluctuates in accordance with fluctuations in the demand for their products. A significant portion of the Group's downstream industries have generally been in higher demand in the second half of each calendar year due to the seasonal purchase patterns of consumers such as Thanksgiving Day and Christmas holidays. As a result, the Group recorded higher revenue in the second half of the year than that of the first half of the year during each year.

Notes to the Interim Financial Information

(All amounts in HK dollar thousands unless otherwise stated)

7 SEGMENT INFORMATION

The chief operating decision-makers have been identified as the executive Directors. The executive Directors review the Group's internal reporting in order to assess performance and allocate resources and have determined the operating segments based on the internal reports that are used to make strategic decisions. The executive Directors considered the nature of the Group's business and determined that the Group's electric charging products can be categorised into seven reportable segments as follows: (i) telecommunication, (ii) media and entertainment, (iii) electronic cigarette, (iv) electrical home appliances, (v) smart chargers and controllers, (vi) lighting, and (vii) others.

Segment information for the interim condensed consolidated statement of profit or loss is set out below:

	Tele-communication	Media and entertainment	Electronic cigarette	Electrical home appliances	Smart chargers and controllers	Lighting	Others	Total

10 FINANCE INCOME AND EXPENSES

	Six months ended 30 June	
	2018 (Unaudited)	2017 (Unaudited)
Finance expenses:		
Interest on bank borrowings	(3,465)	(3,052)
Finance income:		
Interest income	210	128
Net finance expenses	(3,255)	(2,924)

11 INCOME TAX (CREDIT)/EXPENSE

	Six months ended 30 June	
	2018 (Unaudited)	2017 (Unaudited)
Current income tax		
– PRC corporate income tax	–	11,931
– Hong Kong profits tax	2,487	6,073
Subtotal	2,487	18,004
Deferred income tax (Note 26)	(8,602)	7,770
	(6,115)	25,774

Hong Kong profits tax has been provided at the rate of 16.5% on the estimated assessable profit for the Period (2017 interim: 16.5%).

PRC corporate income tax (“CIT”) is provided on the assessable income of entities within the Group incorporated in the PRC, calculated in accordance with the relevant regulations of the PRC after considering the available tax benefits.

Notes to the Interim Financial Information

(All amounts in HK dollar thousands unless otherwise stated)

11 INCOME TAX (CREDIT)/EXPENSE (CONTINUED)

Pursuant to the PRC Corporate Income Tax Law passed by the Tenth National People's Congress on 16 March 2007, the CIT for domestic and foreign enterprises has been unified at 25%, effective from 1 January 2008.

Ten Pao Electronic (Huizhou) Co., Ltd. was set up as a foreign investment manufacturing enterprise in the PRC. Ten Pao Electronic (Huizhou) Co., Ltd. was recognized as "New and High Technology Enterprises" and thus enjoys a preferential CIT rate of 15% from 1 January 2016 to 10 October 2018. Its CIT rate for the Period was 15% (2017 interim: 15%).

12 (LOSSES)/EARNINGS PER SHARE

(a) Basic (losses)/earnings per share

Basic (losses)/earnings per share is calculated by dividing the loss/profit for the Period by the weighted average number of ordinary shares in issue for the Period.

	Six months ended 30 June	
	2018 (Unaudited)	2017 (Unaudited)
(Loss)/profit attributable to owners of the Company (HK\$'000)	(11,562)	92,697
Weighted average number of shares issued (thousands)	1,000,005	1,000,000
Basic (losses)/earnings per share (HK cents)	(1)	9

12 (LOSSES)/EARNINGS PER SHARE (CONTINUED)

(b) Diluted (losses)/earnings per share

Diluted (losses)/earnings per share is calculated by adjusting the weighted average number of ordinary shares outstanding to assume conversion of all dilutive potential ordinary shares.

The Company has one category of dilutive potential ordinary shares: share options. The number of shares that would have been issued assuming the exercise of the share options less the number of shares that could have been issued at fair value (determined as the average market share price of the Company's shares) for the same amount of proceed are share issues for no consideration which causes dilution to (losses)/earnings per share. During the Period, the outstanding share options do not have any material dilutive impact. Therefore, the diluted (losses)/earnings per share of the Company approximates the basic (losses)/earnings per share.

13 DIVIDENDS

The Board does not recommend the payment of an interim dividend for the six months ended 30 June 2018 (2017 interim: HK2.5 cents per ordinary share).

On 25 May 2018, a final dividend of HK2.5 cents per ordinary share for the year ended 31 December 2017, absorbing an amount of HK\$25,011,000, was approved by all the then shareholders of the Company, and HK\$25,008,000 was paid on 28 June 2018.

Notes to the Interim Financial Information

(All amounts in HK dollar thousands unless otherwise stated)

As at 30 June 2018, none of the Group's bank borrowings were secured over property, plant and equipment (31 December 2017: HK\$14,517,000) (Note 22(a)).

Notes to the Interim Financial Information

(All amounts in HK dollar thousands unless otherwise stated)

15 INVESTMENT PROPERTIES

	30 June 2018 (Unaudited)	31 December 2017 (Audited)
At fair value		
At beginning of period	5,700	5,430
Net gains from fair value adjustment	450	270
At end of period	6,150	5,700

As at 30 June 2018, the Group had no unprovided contractual obligations for future repairs and maintenance (31 December 2017: Nil).

The valuation of the Group's investment properties was performed by the valuer, Jones Lang LaSalle Corporate Appraisal and Advisory Limited, to determine the fair value of the investment properties as at 31 December 2017 and 30 June 2018. The revaluation gains or losses are included in 'Other losses – net' in the interim condensed consolidated statement of profit or loss. The following table analyses the investment properties carried at fair value, by valuation method.

Description	Quoted prices in active markets for identical assets Level 1	Office units – Hong Kong		Total
		Significant other observable inputs Level 2	Significant unobservable inputs Level 3	
Recurring fair value measurements method				
Investment properties:				
As at 30 June 2018 (unaudited)	–	6,150	–	6,150
As at 31 December 2017 (audited)	–	5,700	–	5,700

Notes to the Interim Financial Information

(All amounts in HK dollar thousands unless otherwise stated)

15 INVESTMENT PROPERTIES (CONTINUED)

There were no transfers between Level 1, 2, and 3 during the Period (31 December 2017: Nil).

As at 30 June 2018, the Group's bank borrowings were secured over investment properties with the carrying amounts of HK\$6,150,000 (31 December 2017: HK\$5,700,000) (Note 22(a)).

16 INVENTORIES

	30 June 2018 (Unaudited)	31 December 2017 (Audited)
Raw materials	215,490	159,023
Work in progress	85,700	58,318
Finished goods	169,416	205,825
	470,606	423,166
Less: allowance for impairment	(22,608)	(23,342)
	447,998	399,824

Notes to the Interim Financial Information

(All amounts in HK dollar thousands unless otherwise stated)

17 TRADE AND OTHER RECEIVABLES

	30 June 2018 (Unaudited)	31 December 2017 (Audited)
Trade receivables	729,834	769,153
Less: allowance for impairment	(3,366)	(571)
Trade receivables, net	726,468	768,582
Bills receivable	1,186	7,028
Prepayments	15,115	9,827
Deposits	12,405	4,558
Advances to employees	7,191	6,177
Value added tax allowance	–	14,155
Others	9,247	9,151
	771,612	819,478

The credit period granted to customers is generally between 30 and 90 days based on invoices date. The ageing analysis of the trade receivables from the date of sales is as follows:

	30 June 2018 (Unaudited)	31 December 2017 (Audited)
Less than 3 months	673,570	719,105
More than 3 months but not exceeding 1 year	53,570	50,048
More than 1 year	2,694	–
	729,834	769,153

Notes to the Interim Financial Information

(All amounts in HK dollar thousands unless otherwise stated)

17 TRADE AND OTHER RECEIVABLES (CONTINUED)

The Group's sales are made to various customers. While there is concentration of credit risk within a few major customers, these customers are reputable with good track record.

As at 30 June 2018, the Group's bank borrowings were secured over trade and other receivables with the carrying amounts of HK\$345,937,000 (31 December 2017: HK\$359,904,000) (Note 22(a)).

18 DERIVATIVE FINANCIAL INSTRUMENTS

	30 June 2018 (Unaudited)	31 December 2017 (Audited)
Derivative financial assets – Non-current	73	12
Derivative financial liabilities – Current	–	5
	Amount	Notional amount
As at 30 June 2018 (unaudited)		
Derivative financial assets – Non-current		
Types of contracts		
Interest rate swap contracts	73	20,405
As at 31 December 2017 (audited)		
Derivative financial liabilities – Current		
Types of contracts		
Interest rate swap contracts	5	10,422
Derivative financial assets – Non-current		
Types of contracts		
Interest rate swap contracts	12	15,243

Changes in fair values of derivative financial instruments are recorded in 'Other losses – net' in the interim condensed consolidated statement of profit or loss.

19 FINANCIAL ASSETS AT FAIR VALUE THROUGH PROFIT OR LOSS – NON CURRENT

	30 June 2018 (Unaudited)	31 December 2017 (Audited)
Fair value of insurance contract for a member of key management	2,947	2,901

Changes in fair value of financial assets at fair value through profit or loss are recorded in 'Other losses – net' in the interim condensed consolidated statement of profit or loss (Note 8).

The fair value of the insurance is based on the unobservable inputs.

As at 30 June 2018, the Group's bank borrowings were secured over financial assets at fair value through profit or loss with the carrying amounts of HK\$2,947,000 (31 December 2017: HK\$2,901,000) (Note 22(a)).

20 RESTRICTED BANK DEPOSITS

As at 30 June 2018, bank deposits amounting to HK\$17,103,000 (31 December 2017: HK\$27,429,000) are deposits held by the bank in a segregated account as security for borrowings from the bank (Note 22(a)). The remaining bank deposits amounting to HK\$6,816,000 are deposits held by the bank in a segregated accounts as security for notes payable (Note 25).

As at 30 June 2018, the weighted average interest rate was 2.05% (31 December 2017: 2.01%).

Notes to the Interim Financial Information

(All amounts in HK dollar thousands unless otherwise stated)

21 SHARE CAPITAL AND SHARE PREMIUM

Ordinary shares, issued and fully paid:

	Number of ordinary shares (thousands)	Share capital (HK\$'000)	Share premium (HK\$'000)
As at 30 June 2018 and 31 December 2017	1,000,456	10,005	125,788

Detailed movement of issued shares are analysed as follows:

	Number of shares (thousands)	Share capital HK\$'000	Share premium HK\$'000	Total HK\$'000
At 1 January 2017 (audited) and 30 June 2017 (unaudited)	1,000,000	10,000	125,064	135,064
Proceeds from shares issued upon exercise of share options (i)	456	5	592	597
Transfer from other reserve upon exercise of share options (ii)	–	–	132	132
At 1 January 2018 (audited) and 30 June 2018 (unaudited)	1,000,456	10,005	125,788	135,793

- (i) Employee share option scheme: share options exercised during the year ended 31 December 2017 resulted in 456,000 shares being issued, with exercise proceeds of HK\$597,000.
- (ii) Upon exercise of the share options, share options reserve amounting to HK\$132,000 was transferred to share premium.

Notes to the Interim Financial Information

(All amounts in HK dollar thousands unless otherwise stated)

22 BORROWINGS

	30 June 2018 (Unaudited)	31 December 2017 (Audited)
Non-current		
Bank borrowings		
– secured (a)	142,798	114,214
Less: current portion of non-current borrowings	(55,392)	(46,314)
	87,406	67,900

Bank borrowings		
– secured (a)	191,790	66,616
– unsecured	6,182	6,974
Total short-term bank borrowings	197,972	73,590
Current portion of non-current borrowings	55,392	46,314
	253,364	119,904
Total borrowings	340,770	187,804

Notes to the Interim Financial Information

(All amounts in HK dollar thousands unless otherwise stated)

22 BORROWINGS (CONTINUED)

Movement in borrowings is as follows:

	Six months ended 30 June	
	2018	2017
Opening balance as at 1 January	187,804	179,257
Proceeds from borrowings	699,765	567,679
Repayments of borrowings	(547,055)	(539,104)
Currency translation differences	256	1,141
Closing balance as at 30 June	340,770	208,973

- (a) As at 30 June 2018, bank borrowings amounting to HK\$334,588,000 (31 December 2017: HK\$180,830,000) are secured over the following assets:

	30 June 2018 (Unaudited)	31 December 2017 (Audited)
Restricted bank deposits (Note 20)	17,103	27,429
Financial assets at fair value through profit or loss-non current (Note 19)	2,947	2,901
Investment properties (Note 15)	6,150	5,700
Trade and other receivables (Note 17)	345,937	359,904
Property, plant and equipment	–	14,517
	372,137	410,451

Notes to the Interim Financial Information

(All amounts in HK dollar thousands unless otherwise stated)

22 BORROWINGS (CONTINUED)

- (b) The carrying amounts of the borrowings are denominated in the following currencies:

	30 June 2018 (Unaudited)	31 December 2017 (Audited)
HK\$	228,904	126,589
RMB	76,034	35,889
USD	35,832	25,319
Others	–	7
	340,770	187,804

23 FINANCIAL ASSETS AT FAIR VALUE THROUGH OTHER COMPREHENSIVE INCOME – NON CURRENT

	30 June 2018 (Unaudited)	31 December 2017 (Audited)
Unlisted equity investment in the PRC	11,861	–

The following table presents the changes in financial assets at fair value through other comprehensive income for the six months ended 30 June 2018:

Opening balance as at 31 December 2017	–
Addition	11,861
Closing balance as at 30 June 2018	11,861

As at 30 June 2018, the management of the Group has assessed the fair value of financial assets at fair value through other comprehensive income and held the view of no significant changes between investment cost and fair value.

Notes to the Interim Financial Information

(All amounts in HK dollar thousands unless otherwise stated)

24 DEFERRED GOVERNMENT GRANTS

	30 June 2018 (Unaudited)	31 December 2017 (Audited)
Opening net book amount	9,909	9,932
Credited to statement of profit or loss	(370)	(699)
Currency translation differences	(72)	676
Closing net book amount	9,467	9,909

For the Period, the amount represented the subsidy granted by a local government authority in the PRC relating to the construction of solar photovoltaic. This government grant is used for the construction of the roof photovoltaic power generation demonstration projects, which is deferred for amortisation as other gains on a straight-line basis over the useful lives of the related assets.

The deferred government grants will be amortised to 'Other losses – net' from the point at which the relevant assets are ready for use on a straight-line basis over the assets' useful lives.

Notes to the Interim Financial Information

(All amounts in HK dollar thousands unless otherwise stated)

25 TRADE AND OTHER PAYABLES

	30 June 2018 (Unaudited)	31 December 2017 (Audited)
Trade payables	751,579	807,070
Advance	1,706	9,995
Notes payable	6,816	7,996
Wages and staff welfare benefits payable	115,236	127,795
Accrual for expenses and other payables	38,639	36,640
Other taxes payable	14,013	18,675
	927,989	1,008,171

The ageing analysis of trade payables is as follows:

	30 June 2018 (Unaudited)	31 December 2017 (Audited)
Less than 3 months	551,292	619,779
More than 3 months but not exceeding 1 year	199,912	187,088
More than 1 year	375	203
	751,579	807,070

Notes to the Interim Financial Information

(All amounts in HK dollar thousands unless otherwise stated)

26 DEFERRED INCOME TAX ASSETS AND LIABILITIES

The movements in deferred income tax assets and liabilities before offsetting are as follows:

	Six months ended 30 June	
	2018 (Unaudited)	2017 (Unaudited)
Deferred income tax assets		
Opening balance as at 1 January	19,712	17,250
Recognised/(written back) in the profit or loss	7,088	(1,242)
Currency translation differences	(403)	462
Closing balance as at 30 June	26,397	16,470

	Six months ended 30 June	
	2018 (Unaudited)	2017 (Unaudited)
Deferred income tax liabilities		
Opening balance as at 1 January	53,589	40,500
(Written back)/recognised in the profit or loss	(1,514)	6,528
Currency translation differences	(404)	1,375
Closing balance as at 30 June	51,671	48,403

26 DEFERRED INCOME TAX ASSETS AND LIABILITIES (CONTINUED)

Deferred income tax assets are recognised for tax losses carry-forward to the extent that the realisation of the related tax benefits through the future taxable profits is probable.

As at 30 June 2018, the Group recognised deferred income tax asset of HK\$7,689,000 (31 December 2017: Nil) in respect of the tax losses amounting to HK\$45,267,000 (31 December 2017: Nil), as the Group expects the future taxable profits could realise the related tax benefits.

As at 30 June 2018, the Group did not recognise deferred income tax asset of HK\$383,000 (31 December 2017: HK\$378,000) in respect of the tax losses amounting to HK\$2,640,000 (31 December 2017: HK\$3,562,000), as their recoverability is uncertain.

As of 30 June 2018, the Group had tax loss carryforwards of HK\$54,275,000 (31 December 2017: HK\$6,368,000) which can be carried forward to offset future taxable income. The net operating tax loss carryforwards, including subsidiaries in the PRC and Hungary, will begin to expire as follows:

	30 June 2018 HK\$ (Unaudited)	31 December 2017 HK\$ (Audited)
2021	3,142,000	3,142,000
2022	3,226,000	3,226,000
2023	47,907,000	–
	54,275,000	6,368,000

Notes to the Interim Financial Information

(All amounts in HK dollar thousands unless otherwise stated)

27 COMMITMENTS

(a) Operating lease commitments

The Group leases premises under non-cancellable operating lease agreements.

The Group had future aggregate minimum lease payments under non-cancellable operating leases as follows:

	30 June 2018 (Unaudited)	31 December 2017 (Audited)
Not later than one year	4,261	8,075
Later than one year and not later than five years	–	57
	4,261	8,132

(b) Capital commitments

	30 June 2018 (Unaudited)	31 December 2017 (Audited)
In respect of the acquisitions of plant and equipment, contracted but not provided for	14,022	15,299
