The US\$350,000,000 senior notes (the “Notes”) will bear interest at a rate of 7.3% per annum from and including January 13, 2021 (the “Original Issue Date”). Interest will be paid on the Notes semi-annually (except for the last interest payment) and in arrears on January 13 and July 13 from 2021 to 2025, commencing July 13, 2021. Unless previously repurchased, canceled or redeemed, the Notes will mature on January 13, 2025. The Notes will be the unsubordinated senior obligations of Redsun Properties Group Limited (弘陽地產集團有限公司) (the “Issuer” or the “Company”) and will be irrevocably and unconditionally guaranteed by certain of our subsidiaries (the “Subsidiary Guarantors”). We refer to the guarantees by the Subsidiary Guarantors as “Subsidiary Guarantees”. The Notes may also be guaranteed by certain of our future subsidiaries as described in the section entitled “Description of the Notes”.

The Issuer may redeem the Notes, in whole or in part, at any time and from time to time on or after January 13, 2023, at the redemption prices set forth in “Description of the Notes — Optional Redemption” plus accrued and unpaid interest (if any) to (but not including) the redemption date. At any time and from time to time prior to January 13, 2023, the Issuer may at its option redeem the Notes, in whole but not in part, at a redemption price of 100% of the principal amount of the Notes plus a premium as set forth in this offering memorandum as of, and accrued and unpaid interest, if any, to (but not including) the redemption date. In addition, the Issuer may at its option redeem the Notes at any time and from time to time prior to January 13, 2023 up to 35% of the aggregate principal amount of the Notes with the net cash proceeds of one or more sales of certain capital stock of the Issuer in an equity offering at a redemption price of 107.3% of the principal amount of the Notes redeemed, plus accrued and unpaid interest, if any, to (but not including) the redemption date. Upon the occurrence of a Change of Control Triggering Event or a Delisting Event (as defined in the indenture governing the Notes (the “Indenture”)), the Issuer will be required to make an offer to repurchase all Notes outstanding at a purchase price equal to 101% of the principal amount thereof, plus accrued and unpaid interest, if any, to (but not including) the date of repurchase. As more fully described herein, the Issuer may redeem the Notes, in whole but not in part, at a redemption price equal to 100% of the principal amount thereof, together with accrued and unpaid interest, if any, to the date fixed by the Issuer for redemption, if the Issuer would become obligated to pay certain additional amounts as a result of certain changes in tax laws or certain other circumstances. See the section entitled “Description of the Notes — Redemption for Taxation Reasons”. The Notes will be (i) general obligations of the Issuer; (ii) senior in right of payment to any existing and future obligations of the Issuer expressly subordinated in right of payment to the Notes; (iii) at least *pari passu* in right of payment with the Existing Notes and all other unsecured, unsubordinated obligations of the Issuer (subject to any priority rights of such unsecured, unsubordinated obligations pursuant to applicable law); (iv) guaranteed by the Subsidiary Guarantors and the JV Subsidiary Guarantors (if any) on a senior basis, subject to the limitations described under “Description of the Notes — The Subsidiary Guarantees and the JV Subsidiary Guarantees” and in “Risk Factors — Risks Relating to the Notes, the Subsidiary Guarantees and the JV Subsidiary Guarantees” of this offering memorandum; (v) effectively subordinated to the secured obligations of the Issuer, the Subsidiary Guarantors and the JV Subsidiary Guarantors (if any), to the extent of the value of the assets serving as security therefor; and (vi) effectively subordinated to all existing and future obligations of the Non-Guarantor Subsidiaries.

See the section entitled “Risk Factors” beginning on page 19 and particularly pages 62–78 for risks relating to the Notes, the Subsidiary Guarantees and the JV Subsidiary Guarantees.

ENFORCEMENT OF CIVIL LIABILITIES

We are an exempted company incorporated in the Cayman Islands with limited liability, and each Subsidiary Guarantor and JV Subsidiary Guarantor (if any) is also incorporated or may be incorporated, as the case may be, outside the United States, such as the British Virgin Islands and Hong Kong. The Cayman Islands, the British Virgin Islands, Hong Kong and other jurisdictions have different bodies of securities laws from the United States and protections for investors may differ.

Substantially all of our businesses, assets and operations are located outside the United States. In addition, all of our directors, supervisors and executive officers are residents of countries other than the United States and substantially all of the assets of such persons are located outside the United States. Therefore, it may be difficult for investors to effect service of process upon the Issuer, the Subsidiary Guarantors, or such persons, or to enforce against the Issuer, the Subsidiary Guarantors, our directors, supervisors, officers, or such person judgments obtained in United States courts, including judgments predicated upon the civil liability provisions of the securities laws of the United States or any state thereof.

Since 1979, the PRC government has promulgated laws and regulations in relation to general economic matters such as foreign investment, corporate organization and governance, commerce, taxation, foreign exchange and trade, with a view towards developing a comprehensive system of commercial law. In particular, legislation over the past four decades has significantly enhanced the protections afforded to various forms of foreign investment in the PRC. As a result of the activities to develop the legal system, the system of laws in the PRC continues to evolve. However, even where adequate law exists, the enforcement of existing laws or contracts may be uncertain and sporadic. The PRC legal system is based on written statutes and their interpretations, and prior court decisions may be cited for reference but have limited weight as precedent. We have been advised by Fangda Partners, our PRC legal advisor, that it is uncertain whether the courts of the PRC would (i) enforce judgments of U.S. courts obtained against us or our directors, supervisors and officers predicated solely upon the civil liability provisions of the U.S. federal or state securities laws, or (ii) entertain original actions brought in the PRC against us or such persons predicated solely upon the U.S. federal or state securities laws. There is no treaty for reciprocal recognition or enforcement of judgments between PRC and the United States.

Ogier, our British Virgin Islands legal advisor, has advised that although there is no statutory enforcement in the British Virgin Islands of judgments or orders obtained in the United States courts, the courts of the British Virgin Islands will recognize and enforce such foreign judgment or order, without re-examination or re-litigation of the matters adjudicated upon, if the judgment or order (i) is given by a foreign court of competent jurisdiction; (ii) is final and conclusive; (iii) is not in respect of punitive damages, taxes or other charges of a like nature or in respect of a fine or other penalty; (iv) was not obtained by fraud or in breach of the rules of natural justice of the British Virgin Islands; and (v) is not of a kind, the enforcement of which is contrary to public policy in the British Virgin Islands. The courts of the British Virgin Islands will apply the rules of British Virgin Islands private international law to determine whether the foreign court is a court of competent jurisdiction. Subject to these limitations, the courts of the British Virgin Islands will recognize and enforce a foreign judgment for a liquidated sum and may also give effect in the British Virgin Islands to other kinds of foreign judgments, such as declaratory orders, orders for performance of contracts and injunctions. The Notes, the Subsidiary Guarantees,

the JV Subsidiary Guarantees (if any) and the Indenture are each governed by the laws of the State of New York. Under the Notes and the Indenture, we will irrevocably submit to the non-exclusive jurisdiction of any state or United States federal court located in the Borough of Manhattan, the City of New York, New York in any suit, action or proceeding arising out of or relating to the Notes, the Subsidiary Guarantees, the JV Subsidiary Guarantees (if any) and the Indenture.

Ogier, our counsel as to Cayman Islands laws, has advised us that the courts of the Cayman Islands would recognize, as a valid judgment, a final and conclusive judgment in personam obtained in the federal or state courts in the United States against the Issuer under which a sum of money is payable (other than a sum of money payable in respect of multiple damages, taxes or other charges of a like nature or in respect of a fine or other penalty) or, in certain circumstances, a final and conclusive in personam judgment for non-monetary relief, and would give a judgment based thereon, provided that: (i) such courts had proper jurisdiction over the parties subject to such judgment; (ii) such courts did not contravene the rules of natural justice of the Cayman Islands; (iii) such judgment was not obtained by fraud; (iv) the enforcement of the judgment would not be contrary to the public policy of the Cayman Islands; (v) no new admissible evidence relevant to the action is submitted prior to the rendering of the judgment by the courts of the Cayman Islands; (vi) such judgment is not inconsistent with a Cayman Islands judgment or order in respect of the same matter; (vii) such judgment is enforced within six years of the date of such judgment; and (viii) there is due compliance with the correct procedures under the laws of the Cayman Islands.

We have been advised by our Hong Kong legal advisors, Paul Hastings, that Hong Kong has no arrangement for the reciprocal enforcement of judgments with the United States. However, under Hong Kong common law, a foreign judgment (including one from a court in the United States predicated upon United States federal or state securities laws) may be enforced in Hong Kong by bringing an action in a Hong Kong court, and then seeking summary or default judgment based on the strength of the foreign judgment, *provided* that the foreign judgment is for a debt or definite sum of money and is final and conclusive on the merits. In addition, the Hong Kong courts may refuse to recognize or enforce a foreign judgment if such judgment: (a) was obtained by fraud; (b) was rendered by a foreign court that lacked the appropriate jurisdiction at the time (as determined by Hong Kong jurisdictional rules); (c) is contrary to public policy or natural justice; (d) is for a sum payable in respect of taxes or other charges of a like nature or in respect of a fine or is penal in nature; or (e) is barred from enforcement by or in breach of the provisions of the Foreign Judgments (Restriction on Recognition and Enforcement) Ordinance (Chapter 46 of the Laws of Hong Kong).

The Notes and the Indenture are each governed by the laws of the State of New York. Under the Notes and the Indenture, each of the Issuer, the Subsidiary Guarantors and the JV Subsidiary Guarantors (if any) will irrevocably submit to the non-exclusive jurisdiction of any state or United States federal court located in the Borough of Manhattan, the City of New York, New York in any suit, action or proceeding arising out of or relating to the Notes, the Subsidiary Guarantees and the JV Subsidiary Guarantees (if any) and the Indenture.

Each of the Issuer, the Subsidiary Guarantors and the JV Subsidiary Guarantors (if any), expects to appoint Cogency Global Inc. as its respective agent to receive service of process with respect to any action brought against it in the United States federal courts

located in the Borough of Manhattan the City of New York under the federal securities laws of the United States or of any state of the United States or any action brought against it in the courts of the State of New York in the Borough of Manhattan, the City of New York under the securities laws of the State of New York.

SUMMARY

You should read the entire offering memorandum, including “Risk Factors,” “Description of the Notes,” our combined financial statements and our consolidated financial statements and the related notes, before making an investment decision.

OVERVIEW

We are a comprehensive property developer with a strong foothold in the Yangtze River Delta Region and a national strategic layout, focusing on the development of residential properties and the development, operation and management of commercial and integrated properties. Through implementing the national layout strategy of “penetrating the Greater Jiangsu Region, strengthening foothold in major metropolitan areas and expanding into core cities” (做透大江蘇、深耕都市圈、做強中心城), we have promoted and stabilized our national strategic layout and strengthened our regional foothold with focus on core areas, bringing us to a stage of rapid and balanced development. Since the incorporation of Nanjing Redsun in 1999, we have worked in the sector of property development and sales for over 20 years, established the Hong Yang brand and received widespread recognition for our development capacity and industry position. We have maintained steady growth in recent years. Our net profit increased from RMB1,220.7 million in 2017 to RMB1,412.3 million in 2018 and further increased to RMB1,467.6 million in 2019, and our net profit for the six months ended June 30, 2019 and 2020 amounted to RMB743.1 million and RMB677.4 million (USD95.9 million), respectively. As of December 31, 2017, 2018 and 2019 and June 30, 2020, our total assets amounted to RMB41,325.3 million, RMB67,922.1 million, RMB95,397.1 million and RMB101,695.8 million (US\$14,394.1 million), respectively.

We have established the *Hong Yang* brand, which enjoyed a high reputation and recognition in the Yangtze River Delta region. In 2020, we were ranked 47th among China’s Top 500 property developers and 2nd in terms of growth rate among China’s Top 10 property developers by the China Real Estate Association, Shanghai E-house China R&D Institute and China Real Estate Appraisal. Sales of the Group for the first half of 2020 also increased its rank to 46th nationwide according to the statistics of CRIC (克而瑞研究中心). In 2019, we were ranked TOP 500 China Real Estate Developers by China Real Estate Association, E-house China R&D Institute, and China Real Estate Appraisal and TOP 50 New and Vigorous Chinese Listed Companies by Brand Value by National Business Daily and Tsinghua SEM, and we also received the award of “2019 Top 30 Brand of China Real Estate Companies (mixed all 11–30) (2019中國房地產公司品牌價值TOP 30 (混合所有11–30)) in the 2019 China Real Estate Brand Value Research Results Release Conference cum 16th China Real Estate Brand Development Summit (2019年中國房地產品牌價值研究成果發布會暨第十六屆中國房地產品牌發展高峰論壇) held in Beijing in 2019.

Designing and developing customer-tailored products and implementing high standards of quality control are the lifeline of us. We conducted an intensive study of customer needs and launched four product lines, from properties with the best improvement, to high-quality rigid demand housing, namely, Times Series (時光系), Sunrise Series (昕悅系), Chenhui Series (宸暉系) and Hongzhu Series (弘著系), to meet the needs of different consumer groups. We use high-quality materials and accessories for

construction and decoration and critically review the work of contractors. We use the internal standard of “millimetric quality error” for product quality control. We strive to meet the needs of our customers through fine workmanship and quality control measures.

We have balanced property development and operation abilities. While developing residential properties, we also operate commercial complexes covering shopping malls, amusement parks and community centers, hotels and office buildings. Most of these commercial property buildings are adjacent to our residential property projects, providing ancillary services for our residents and also driving the appreciation of our residential property projects. Looking ahead, we will continue to adhere to the “Property + Commercial” dual-driven strategy. In 2017, 2018 and 2019, our commercial properties maintained an average rental rate of over 90%, and accounted for a revenue of RMB166.4 million, RMB359.0 million and RMB411.4 million, respectively. In the six months ended June 30, 2020, revenue from commercial operations and hotel operations increased by 10.4% to RMB225.6 million (US\$31.9 million) as compared to RMB204.3 million in the corresponding period of 2019.

We focus our business activities across the Yangtze River Delta region, one of the most economically prosperous and vibrant regions in China, and have gradually extended our reach to the Greater Bay Area, the Chengdu-Chongqing region, the middle reaches of Yangtze River and the Shandong Peninsula. As at June 30, 2020, we had a total of 169 projects under construction with an aggregate planned gross floor area of 18,370,000 sq.m. By virtue of our deep understanding of the property markets in the Yangtze River Delta region, we strategically selected and acquired quality land in the Jiangsu and Anhui Provinces. As of June 30, 2020, we had land reserves with a total GFA of approximately 18,374,029 sq.m. (GFA of approximately 9,677,837 sq.m. was attributable to us), representing an increase of 8.5% from that of 16,931,996 sq.m. as at 31 December 2019. Our land reserves comprise of (i) completed properties with a saleable GFA of approximately 856,744 sq.m., (ii) investment properties with a rentable GFA of approximately 734,520 sq.m., and (iii) properties under development with an aggregate GFA of approximately 16,782,765 sq.m.. We believe our existing land reserves can provide sufficient support for our future development.

We launched our head office in Shanghai in February 2019 to form a dual headquarters’ operation in Shanghai and Nanjing. Shanghai, which has a large property market, is one of our key expansion regions in future. The COVID-19 Outbreak

The COVID-19 pandemic which began at the end of 2019 has affected millions of individuals and adversely impacted national economies worldwide, including China. Several cities in China where we have significant land bank and operations had imposed travel restrictions in an effort to curb the spread of the highly infectious COVID-19. The COVID-19 outbreak has affected our business operation and financial condition. However, the PRC central and local governments have taken various measures to manage cases and reduce potential spread and impact of infection, and further introduced various policies to boost the economy and stimulate the local property markets. Since March 2020, China and some other countries gradually lifted stay-at-home orders and began to resume work and school at varying levels and scopes. Given the uncertainties as to the development of the outbreak at the moment, it is difficult to predict how long these conditions will persist and to what extent to which we may be affected. We cannot assure you that our business, financial condition and results of operations will not be materially and adversely affected. For details, please see “Risk Factors — Natural disasters, acts of war, occurrence of epidemics, and other disasters could affect our business and the national and regional economies in the PRC”.

Notes:

- (1) EBITDA consists of profit before taxation plus amortization of intangible assets, capitalized interests included in the cost of goods, finance costs and depreciation of fixed assets. EBITDA is not a standard measure under IFRS. EBITDA is a widely used financial indicator of a company's ability to service and incur debt. EBITDA should not be considered in isolation or construed as an alternative to cash flows, net income or any other measure of financial performance or as an indicator of our operating performance, liquidity, profitability or cash flows generated by operating, investing or financing activities. In evaluating EBITDA, we believe that investors should consider, among other things, the components of EBITDA such as sales and operating expenses and the amount by which EBITDA exceeds capital expenditures and other charges. We have included EBITDA because we believe it is a useful supplement to cash flow data as a measure of our performance and our ability to generate cash flow from operations to cover debt service and taxes. EBITDA presented herein may not be comparable to similarly titled measures presented by other companies. Investors should not compare our EBITDA to EBITDA presented by other companies because not all companies use the same definition. Investors should also note that EBITDA as presented herein may be calculated differently from Consolidated EBITDA as defined and used in the Indenture governing the Notes. See the sectioned entitled "Description of the Notes — Definitions" for a description of the manner in which Consolidated EBITDA is defined for purposes of the Indenture governing the Notes.
- (2) EBITDA margin is calculated by dividing EBITDA by revenue.

RISK FACTORS

You should carefully consider the risks and uncertainties described below and other information contained in this offering memorandum before making an investment decision in relation to the Notes. The risks and uncertainties described below may not be the only ones that exist. Additional risks and uncertainties that we are not aware of or that we currently believe are immaterial may also materially and adversely affect our business, prospects, financial condition and results of operations. If any of the possible events described below occur, our business, prospects, financial condition or results of operations could be materially and adversely affected and the market price of the Notes may decline. In such case, we may not be able to satisfy our obligations under the Notes, and you could lose all or part of your investment.

RISKS RELATING TO OUR BUSINESS

Our business and prospects are dependent on the economic conditions in the PRC and the performance of the PRC property market, and in particular on the performance of the markets in Nanjing and various major cities in the Yangtze River Delta, and therefore any potential decline in property sales or prices or demand for properties in the PRC generally, or in the major cities in this region, could have a material adverse effect on our business, financial condition and results of operations.

We principally develop and sell properties in Nanjing and other parts of the Yangtze River Delta. As of June 30, 2020, we had 169 property projects under construction in the PRC in various stages of development, which were largely located in major cities in Jiangsu and Anhui Provinces. Our business therefore is heavily dependent on the property markets in the Yangtze River Delta. These property markets may be affected by local, regional, national and global factors, including economic and financial developments, speculative activities in local markets, demand for and supply of properties, availability of alternative investment choices for property buyers, inflation, government policies, interest rates and the availability of capital. Any adverse developments in the PRC property market generally or in this region in particular, could materially and adversely affect our business, financial condition, results of operations and prospects.

Furthermore, private ownership of property in China is still at a relatively early stage of development. Demand for private residential property has been increasing rapidly in recent years, which has often been coupled with volatile market conditions and fluctuations in prices. Numerous factors may affect the development of the market and, accordingly, it is very difficult to predict when and how significantly demand will develop.

Limited availability of accurate financial and market information and the general low level of transparency in China's property industry contribute to overall market uncertainty. In addition, the limited amounts and types of mortgage financing available to individuals may also inhibit demand for residential property. The risk of over-supply is also increasing in parts of China where property investment, trading and speculation have become more active.

Due to an increase in demand for residential properties in the PRC in the last few years, the PRC Government adopted measures to limit the price level of properties in order to prevent the market from becoming overheated. Such austerity measures may affect property price level, market demand and supply and our business performance.

If as a result of any one or more of these or similar factors, demand for residential property or market prices decline significantly, our business, results of operations, financial condition and prospects could be materially and adversely affected.

Although we have generally experienced increase in revenue and net profit for the three years ended December 31, 2019 and the six months ended June 30, 2020, investors should be cautioned that past performance is not indicative of future performance.

We had negative net operating cash flow for the year ended December 31, 2017 and 2018 and the six months ended June 30, 2019 and 2020 and we may not be able to obtain sufficient funding for our land acquisitions and future property developments, our business operation or repayment of our indebtedness whether through bank loans, corporate bonds, trust financing or other arrangements, on commercially reasonable terms, or at all.

Property development usually requires substantial capital investment during the land acquisition and construction period. During the years ended December 31, 2017 and 2018 and the six months ended June 30, 2019 and 2020, our liquidity requirements arose principally from the acquisition of land for, and development of, our property development projects. Our property development projects have been generally funded through cash generated from operations including proceeds from the pre-sale of our properties, bank loans, corporate bonds, shareholder's equity injection and trust and other financing arrangements. We expect to continue to fund our projects through these sources and will look for additional financing opportunities, such as debt offerings.

However, we cannot assure you that such funds will be sufficient or that any additional financing can be obtained on satisfactory or commercially reasonable terms, or at all. For the years ended December 31, 2017 and 2018 and the six months ended June 30, 2019 and 2020, we recorded negative net cash flow from operating activities of approximately RMB3,498.0 million, RMB2,628.0 million, RMB2,514.5 million and RMB3,430.8 million (US\$485.6 million), respectively. Our negative net operating cash flow was principally attributable to the long-term and capital-intensive nature of property development, our land acquisitions and business expansion during the relevant periods. See "Management Discussion and Analysis of Financial Condition and Results of Operations — Liquidity and Capital Resources — Cash Flow." Although we recorded positive net cash flow from operating activities of approximately RMB989.7 million for the year ended December 31, 2019, we cannot assure you that we will not experience negative net cash flow again or achieve positive cash flow from our operating activities in the future. A negative net cash flow position for operating activities could impair our ability to make necessary capital expenditures, constrain our operational flexibility and adversely affect our ability to expand our business and enhance our liquidity. For example, if we do not have sufficient net cash flow to fund our future liquidity, pay our trade and bills payables and repay the outstanding debt obligations when they become due, we may need to significantly increase external borrowings or secure other external financing. Accordingly, if we fail to obtain sufficient external financing, there could be a default under the terms of these debt obligations which could cause repayment of our debt to be accelerated and our business operation and financial conditions may be materially and adversely affected. See "— We have significant indebtedness and may incur additional indebtedness in the future, and we may not be able to generate sufficient cash to satisfy our existing and future debt obligations" and "— Risks Relating to the Notes, the Subsidiary Guarantees and JV Subsidiary Guarantees — If we are unable to comply with the restrictions and covenants in our debt agreements or the Indenture there could be a default under the terms of these agreements, which could cause

repayment of our debt to be accelerated.” Meanwhile, if adequate funds are not available from external borrowings, whether on satisfactory terms or at all, we may be forced to delay or abandon our development and expansion plans, and our business, prospects, financial condition and results of operations may be materially and adversely affected.

We may not be able to acquire land reserves in desirable locations that are suitable for development at commercially acceptable prices in the future, which may affect our business, financial condition, results of operations and prospects.

The growth and success of our business depend on our ability to continue acquiring land reserves located in desirable locations at commercially reasonable prices. Our ability to acquire land depends on a variety of factors that we cannot control, such as general economic conditions, government land policies, our effectiveness in identifying and acquiring land parcels suitable for development and the competition among property developers for such land parcels. During the years ended December 31, 2017, 2018 and 2019 and the six months ended June 30, 2020, a majority of our completed projects were developed on land obtained through public tender, auction or listing-for-sale process organized by government authorities, and we may continue to acquire land for our property development projects through such methods. The PRC Government and relevant local authorities control the supply and price of new land parcels and approve the planning and use of such land parcels. Local governments control the land acquisition process through government-organized public tender, auction or listing-for-sale process. Specific regulations are in place to control the methods and procedures by which land parcels are acquired and developed in the PRC. See “Regulation.” Furthermore, the rapid development of the cities of Jiangsu and other parts of the Yangtze River Delta in recent years has resulted in a shortage in the supply of undeveloped land in desirable locations and increased land acquisition costs, which is one of the largest components of our cost of sales. Any increase in our land costs resulting from shortages of supply or our inability to procure land could have a material and adverse effect on our business, financial condition, results of operations and prospects.

We may not be able to obtain adequate financing to fund our future land acquisitions and property development, and such capital resources may not be available on commercially reasonable terms or at all.

Property development is capital intensive. We are expected to continue to incur a high level of capital expenditure for land acquisition and construction for the foreseeable future. For information on our capital expenditure for the years ended December 31, 2017, 2018 and 2019 and the six months ended June 30, 2020 and our capital commitments as of December 31, 2017, 2018 and 2019 and the six months ended June 30, 2020, see “Management Discussion and Analysis of Financial Condition and Results of Operations — Indebtedness” in this offering memorandum.

During the years ended December 31, 2017, 2018 and 2019 and the six months ended June 30, 2020, we financed our property projects primarily through a combination of internally generated funds, including proceeds from pre-sales and sales of our properties, borrowings from financial institutions, such as CBRC-licensed commercial banks and trust financing companies, and bonds. See “Business — Project Financing — Trust and Other

Financing Arrangements.” Our ability to obtain external financing in the future and the cost of such financing are subject to uncertainties beyond our control, including:

- requirements to obtain PRC Government approvals necessary for obtaining financing in the domestic or international markets;
- our future financial condition, results of operations and cash flows;
- the condition of the international and domestic financial markets and the availability of financing;
- changes in the monetary policies of the PRC Government with respect to bank interest rates and lending practices; and
- changes in policies regarding regulation and control of the property market.

The PRC Government has implemented a number of measures to manage the growth of the money supply and the availability of credit, especially with respect to the property sector. For example:

- the PBOC has adjusted the Renminbi deposit reserve ratio for major banks several times since 2010, first upward (to a peak of 21.5%) and more recently downward (to its present level of 14.5%)Effective on October 15, 2018, the PBOC would make downward adjustment of the Renminbi deposit reserve ratio for large commercial banks, joint stock commercial banks, city commercial banks, non-county rural commercial banks and foreign-funded commercial banks by 1.0%;
- the PBOC has adjusted the benchmark one-year bank lending rate many times since 2008In particular, in 2015 the PBOC lowered the benchmark one-year bank lending rate to 5.35% on March 1, 2015, to 5.00% on May 11, 2015, to 4.85% on June 27, 2015, to 4.6% on August 26, 2015, and further lowered it to 4.35% on October 24, 2015;
- starting from August 20, 2019, the PBOC introduced the one-year loan prime rate (the “LPR”) and suggested PRC commercial banks to adopt the LPR as the pricing benchmark in the floating rate loan contracts. In addition, PRC commercial banks shall no longer enter into floating rate loan contracts based on the benchmark one-year leanding rate since January 1, 2020;
- requiring that at least (i) 20% of total investment in property projects is for affordable housing or commodity housing; and (ii) 25% of the total investment for all other types of property projects is funded by the developer’s own capital, and the highest percentage had been at 30% during the years ended December 31, 2016, 2017 and 2018;
- restricting commercial banks from granting loans to property developers which will be used to pay land premium;

- restricting trust companies from providing financing to property developers that have not obtained the relevant land use right certificates, construction land planning permits, construction work planning permit or construction work commencement permits, or to projects that fail to meet project capital ratio requirements;
- restricting trust companies from funding projects developed by property developers which, or whose controlling shareholders, do not have second-level or above qualification;
- prohibiting PRC commercial banks from extending any existing loans or granting any new or revolving credit facilities in any form to property developers with non-compliance records in relation to, among other things, holding and speculating idle lands, using the land outside the scope of the designated purpose, postponing construction commencement or completion, hoarding properties and rigging price for properties;
- prohibiting PRC commercial banks from taking commodity properties that have been vacant for more than two years as security for loans to property developers; and
- prohibiting property developers from using borrowings obtained from local banks to fund property developments outside the regions in which the lending banks reside.

In addition, on March 13, 2018, the PRC State Council submitted the Reform Plan on State Council Agencies for review of the First Session of the thirteenth NPC, proposing to merge the CIRC and the CBRC to strengthen the regulation over financial institutions, and thereafter report to the newly established Financial Stability and Development Committee. In April 2018, CBRC and CIRC were merged as CBIRC, covering the regulation of banking and insurance sectors in the PRC. This reform will lead to uncertainties in regulatory environment of the finance market, which may indirectly affect the real property industry. Further, on December 31, 2020, PBOC and CBRC jointly promulgated the Notice on Establishing a Centralization Management System for Real Estate Loans of Banking Financial Institutions (《關於建立銀行業金融機構房地產貸款集中度管理制度的通知》), which put forward certain requirements for the proportion of real estate loans and the personal housing loans to all RMB loans in banking financial institutions(excluding overseas branches). These financial institutions, based on the statistical data on December 31, 2020, will be given a business adjustment transition period of 2 or 4 years, which depends on whether they exceed 2% of the legal proportion, to legitimate their loan structures. PBOC and CBRC shall take measures, such as additional capital requirements and weight adjustments of risk of real estate assets for these banking financial institutions that fail to implement proportional rectification within certain period. For further information, see “Regulation.” The above measures and other similar government actions and policy initiatives have limited our ability and flexibility in using bank loans, trust and other financing arrangements to finance our property projects. Should the PRC Government introduce similar additional initiatives, we may not be able to secure adequate financing or renew our existing credit facilities prior to their expiration on commercially reasonable terms or at all.

We are a holding company and will rely on dividends paid by the PRC Subsidiaries to fund our cash and financing requirements, and any limitation on the ability of the PRC Subsidiaries to pay dividends to us could have a material adverse effect on our ability to conduct business.

We are a holding company incorporated in the Cayman Islands and we conduct our business operations primarily through our Subsidiaries in China. We will be financially dependent on dividends received from these entities. Therefore, we may face financial difficulties should such entities incur debt or losses affecting their ability to pay us dividends or make other distributions to us.

The PRC laws and regulations require that dividends be paid only out of distributable profits, which are net profit of our PRC Subsidiaries as determined in accordance with PRC GAAP or IFRS, whichever is lower, less any recovery of accumulated losses and appropriations to statutory and other reserves that our PRC Subsidiaries are required to make. Moreover, because the calculation of distributable profits under PRC GAAP is different from the calculation under IFRS in certain respects, our operating Subsidiaries may not have distributable profits as determined under PRC GAAP, even if they have profits for that year as determined under IFRS, or vice versa. Accordingly, we may not receive sufficient distributions from our PRC Subsidiaries. Failure by our operating Subsidiaries in the PRC to pay dividends to us could have a negative impact on our cash flow and our ability to make dividend distributions to our Shareholders in the future, including those periods in which our financial statements indicate that our operations have been profitable.

Furthermore, some of our PRC Subsidiaries, including Hong Yang Land Company Limited (弘陽置地(集團)有限公司) (previously known as Nanjing Redsun Real Estate Development Co. Ltd (南京紅太陽房地產開發有限公司)), which holds all of our other PRC Subsidiaries, are restricted from making distributions to us due to restrictive covenants contained in agreements, such as bank credit facilities, to which they are subject. Any of the above factors may affect our ability to pay dividends to our Shareholders and to service our indebtedness, which could materially and adversely affect our ability to conduct business.

We are subject to risks associated with certain covenants or restrictions under our bank borrowings, bonds issuance, trust and other financing arrangements which may adversely affect our business, financial condition and results of operations.

We are subject to certain restrictive covenants in the loan contracts between us and certain banks and the trust and other arrangements entered into by us. For instance, some of our loan agreements with certain commercial banks restrict our operating Subsidiaries from paying dividends to their shareholders without prior consent from the lenders, including that Hong Yang Land Company Limited (弘陽置地(集團)有限公司) (previously known as Nanjing Redsun Real Estate Development Co. Ltd (南京紅太陽房地產開發有限公司)), which holds all of our other PRC Subsidiaries, is restricted from making any dividend or distribution to us. Our loan agreements with certain banks may contain cross-default clauses. If any cross-default occurs, such banks are entitled under these agreements to accelerate the repayment of all or part of the relevant loans and to recover against the security for such indebtedness. We may be required to seek the consent of the banks in order to carry out any mergers, restructurings, spin-offs, reductions in registered share capital, material asset transfers, liquidations, changes in shareholding or management structures or the establishment of any joint ventures. Furthermore, as long as such loans are outstanding, some of our relevant operating Subsidiaries may not be able to provide

guarantees to any third parties. In addition, our trust and other financing arrangements may have covenants that, among other things, the project company is required to notify and obtain written consent from the trust financing companies and other financing institutions in advance if, during the term of the trust financing, it is involved in any operational decisions which would lead to any material changes to the trust and other financing arrangement's interests, or if we need to provide guarantees for other external loans if there are circumstances which may affect our ability to repay loans. Should we fail to abide by these provisions, our lenders may be entitled to accelerate repayment of the relevant loans, in which case our business, financial condition and results of operations could be materially and adversely affected.

Hong Yang Group Company, a limited liability company incorporated in Hong Kong and a controlling shareholder of the Company, issued US\$100 million senior notes in August 2019, which bear an interest rate of 11.50% per annum and due 2021 (“**Hong Yang 2021 Senior Notes**”). On the other hand, Hong Seng, a company incorporated in the British Virgin Islands and wholly owned by Hong Yang Group Company, which is not part of our Group, issued US\$275 million senior notes in February 2020, which bear an interest rate of 9.875% per annum and due August 2022 (“**Hong Seng 2022 Senior Notes**”). The Hong Seng 2022 Senior Notes are irrevocably and unconditionally guaranteed by Hong Yang Group Company.

According to the indenture or the constituent document governing the Hong Yang 2021 Senior Notes and Hong Seng 2022 Senior Notes, Hong Yang Group Company and all of its restricted subsidiaries, which include the Company and our Subsidiaries, are subject to customary high-yield covenants (the “**Hong Yang Notes Covenants**”) and other terms in the relevant indenture and constituent document. The Hong Yang Notes Covenants, subject to the permitted exceptions, carve-outs and materiality qualifications contained therein, limit Hong Yang Group Company's and its restricted subsidiaries' ability to, among other things:

- incur or guarantee additional indebtedness or issue disqualified or preferred stock;
- declare dividends on its capital stock or purchase or redeem capital stock;
- make investments or other specified restricted payments;
- issue or sell capital stock of restricted subsidiaries;
- guarantee indebtedness by restricted subsidiaries;
- sell assets;
- create liens;
- enter into sale and leaseback transactions;
- enter into agreements that restrict the restricted subsidiaries' ability to pay dividends, transfer assets or make intercompany loans;
- enter into transactions with shareholders or affiliates;

- engage in any business other than those which are the same as or related, ancillary or complementary to property development and commercial property operation, furniture and construction material wholesaling and retailing as well as property management businesses; and
- effect a consolidation or merger.

In addition, the Existing Notes and the 2019 Term Loan Facilities contain a number of restrictive covenants that, subject to certain permitted exceptions, carve-outs and materiality qualifications, impose limitations and restrictions on the Company and our Subsidiaries to, among other things:

- incur or guarantee additional indebtedness or issue disqualified or preferred stock;
- declare dividends on its capital stock or purchase or redeem capital stock;
- make investments or other specified restricted payments;
- issue or sell capital stock of restricted subsidiaries;
- guarantee indebtedness by restricted subsidiaries;
- sell assets;
- create liens;
- enter into sale and leaseback transactions;
- enter into agreements that restrict the restricted subsidiaries' ability to pay dividends, transfer assets or make intercompany loans;
- enter into transactions with shareholders or affiliates;
- engage in any business other than those which are the same as or related, ancillary or complementary to property development and commercial property operation, furniture and construction material wholesaling and retailing as well as property management businesses; and
- effect a consolidation or merger.

After we have issued the Notes offered under this offering memorandum, we and our restricted subsidiaries will be required to comply with the covenants under the Notes.

We have significant indebtedness and may incur additional indebtedness in the future, and we may not be able to generate sufficient cash to satisfy our existing and future debt obligations.

We currently have, and will continue to require, a substantial amount of indebtedness. Our bank loans and other borrowings, including both current and non-current borrowings, as of December 31, 2017, 2018 and 2019 and the six months ended June 30, 2020 were RMB11,629.5 million, RMB19,326.5 million, RMB20,271.7 million and RMB20,570.8 million (US\$2,911.6 million), respectively. As of the date of this offering memorandum, we have issued an aggregate principal amount of US\$1,935 million Existing Notes, of which an

aggregate principal amount of US\$1,668.2 million remain outstanding. Please see “Description of Other Material Indebtedness — Offshore Debt Securities” for further details. Our gearing ratio was 137.5%, 158.3%, 163.7% and 159.4%, respectively, as of December 31, 2017, 2018 and 2019 and June 30, 2020. Our indebtedness and gearing could have significant implications, including, among others:

- increasing our vulnerability to adverse general economic and industry conditions;
- requiring us to dedicate a substantial portion of our cash flow from operations to servicing and repaying our indebtedness, thereby reducing the availability of our cash flow for our business expansion, working capital and other general corporate purposes;
- limiting our flexibility in planning for or reacting to changes in our businesses and the industry in which we operate;
- placing us at a competitive disadvantage compared to our competitors with lower levels of indebtedness;
- limiting our ability to borrow additional funds; and
- increasing our cost of additional financing.

Pursuant to certain trust financing agreements, trust companies and asset management companies have veto rights over some of our above corporate actions, which will further limit our flexibility of operation and ability to raise additional funding. Moreover, our trust and other financings are generally secured by our equity interests in the PRC Subsidiaries or lien of land use rights or development projects. If we default and cannot repay all of the secured indebtedness, we may lose part or all of our equity interests in these PRC Subsidiaries, our proportionate share of the asset value of the relevant land use rights or our development projects. See “Business — Project Financing — Trust and Other Financing Arrangements.”

In the future, we may from time to time require substantial additional indebtedness and contingent liabilities. Our ability to generate sufficient cash to satisfy our existing and future debt obligations will depend upon our future operating performance, which will be affected by, among other things, prevailing economic conditions, PRC governmental regulation, demand for properties in the regions we operate and other factors, many of which are beyond our control. We may not generate sufficient cash flow to pay our anticipated operating expenses and to service our debt, in which case we will be forced to adopt an alternative strategy that may include actions such as reducing or delaying property project development, disposing of assets, restructuring or refinancing indebtedness or seeking equity capital. These strategies may not be implemented on satisfactory terms, or at all, and, even when implemented, may result in a material and adverse effect on our business, results of operations and financial condition.

Our results of operations largely depend on a number of factors including the schedule of our property development and the timing of property sales and may therefore vary significantly from year to year.

Our business model is to sell certain properties for immediate return of capital to fund our business, operations and expansion plans, while strategically retaining other properties for stable recurring rental income and long-term capital appreciation. For the years ended December 31, 2017, 2018 and 2019 and the six months ended June 30, 2020, our revenue generated from property development and sales amounted to 96.7%, 95.7%, 97.0% and 97.7%, respectively, of our total revenue. Our results of operations may fluctuate due to factors such as the schedule of our property development projects and the timing of property sales.

We generally recognize revenue from the sale of our properties upon delivery to purchasers. There is a time difference between pre-sales of projects under development and the completion of property construction. Because the timing of completion of our properties varies according to our construction timetable, our results of operations may vary significantly from period to period depending on the GFA sold or pre-sold, and the timing between our pre-sales and completion and the delivery of the properties to purchasers. Periods in which we pre-sell a large amount of aggregate GFA, may not be periods in which we generate a correspondingly high level of revenue, if the properties pre-sold are not completed and delivered within the same period. The effect of timing of delivery on our operational results is accentuated by the fact that during any particular period of time we can only undertake a limited number of projects due to the substantial capital requirements for land acquisition and construction costs.

Fluctuations in our operating results may also be caused by other factors, including fluctuations in expenses, such as land grant premium, development costs, administrative expenses, and selling and marketing expenses, and changes in market demand for our properties. As a result, our period-to-period comparisons of results of operations and cash flow positions may not be indicative of our future results of operations and may not be taken as meaningful measures of our financial performance for any specific period. In addition, the cyclical property market of the PRC affects the optimal timing for the acquisition of land, the planning of development and the sales of properties. This cyclicity, combined with the lead time required for the completion of projects and the sales of properties, means that our results of operations relating to property development activities may be susceptible to significant fluctuations from period to period. Furthermore, our property development projects may be delayed or adversely affected by a combination of factors beyond our control, which may in turn adversely affect our revenue recognition and consequently our cash flow and results of operations.

Fluctuations in the price of construction materials and labor costs could affect the construction fees charged by our construction contractors which could adversely affect our business and financial performance.

The cost of construction materials, such as steel and cement, and labor costs, are subject to a high degree of volatility. The risk of fluctuations in construction material and labor costs during the terms of the contracts are absorbed by our construction contractors to a large extent as we outsource our construction work to them as they are responsible for purchasing most of the construction materials and bear relevant labor costs during the terms of the relevant contracts. However, our contracts with construction companies contain price adjustment mechanism which requires us to bear the extra costs if the market

price of the raw material deviates more than 5% of its contract price. In addition, if there is any significant increase in the cost of construction materials and labor costs, our construction contractors may require it to renegotiate construction fees or we may be subject to higher construction fees when our existing construction contracts expire. Furthermore, we typically pre-sell our properties prior to their completion and we will not be able to pass the increased costs on to our customers if the costs of construction materials and labor increase subsequent to the pre-sales. If any of these occur, our business, financial condition and results of operations may be adversely affected.

Our business may be adversely affected if we fail to obtain, or experience material delays in obtaining, necessary government approvals to carry out our property development and management operations.

The property industry in the PRC is heavily regulated. Property developers must abide by various laws and regulations, including rules stipulated by national and local governments to enforce these laws and regulations. To engage in property development and management operations, we must also apply to relevant government authorities to obtain and renew various licenses, permits, certificates and approvals, including but not limited to, qualification certificates for property developers, land use right certificates, construction work commencement permits, construction work planning permits, construction land planning permits and pre-sales permits. Before the government authorities issue or renew any certificate or permit, we must meet the relevant requirements. Some of our PRC subsidiaries are currently in the process of renewing their qualification certificates. If we fail to obtain or renew the certificates in a timely manner, the relevant government authorities may impose administrative penalties on us and our operations may be adversely affected. Those who engage in real estate development without obtaining qualification certificates will be ordered to cease development activities. The illegal profits will be confiscated and a fine of five times of the illegal profits or less may be imposed. See “Regulation.”

There can be no assurance that we will be able to adapt to new rules and regulations that may come into effect from time to time with respect to the property industry or that we will not encounter material delays or difficulties in fulfilling the necessary conditions to obtain and/or renew all necessary certificates or permits for our operations in a timely manner, or at all, in the future. In the event that we fail to obtain or renew, or encounter significant delays in obtaining or renewing, the necessary certificates and/or government approvals for any of our major property projects, we will not be able to continue with our development plans, and our business, financial condition and results of operations may be adversely affected.

The LAT calculated by the relevant PRC tax authorities may be different from our calculation of LAT liabilities for provision purposes, which may have an adverse effect on our financial condition.

Pursuant to PRC regulations on LAT, both domestic and foreign investors in real estate development in the PRC are subject to LAT on income from the sale or transfer of land use rights, properties and their attached facilities, at progressive rates ranging from 30% to 60% on the appreciation of land value. We paid RMB349.2 million, RMB159.7 million, RMB496.5 million and RMB275.7 million (US\$39.0 million) for LAT for the years ended December 31, 2017, 2018 and 2019 and the six months ended June 30, 2020, respectively. In accordance with a circular issued by the SAT, which became effective on February 1, 2007, LAT obligations are required to be settled with the relevant tax bureaus within a specified time after the completion of a property development project.

We make provisions for LAT by reference to our sales recognized and in accordance with our estimates of the LAT which will be payable under relevant PRC laws and regulations. As we often develop our projects in several phases, deductible items for calculation of LAT, such as land costs, are apportioned among such different phases of development. Provisions for LAT are made on our own estimates based on, among others, our own apportionment of deductible expenses which are subject to final confirmation by the relevant tax authorities upon settlement of the LAT. For the years ended December 31, 2017, 2018 and 2019, we made LAT provisions of RMB401.1 million, RMB441.4 million and RMB564.8 million, respectively. For the six months ended 30 June 2020, the LAT provision made by the Group was RMB275.7 million (US\$39.0 million), while that for the corresponding period in 2019 was RMB142.8 million. LAT liabilities are subject to determination by the tax authorities upon the completion of the property development projects and may be different from the amounts that were initially provided for. Any such differences may impact our profit after tax and deferred tax provision in the periods in which such taxes are finalized with the relevant tax authorities. Our financial condition may be adversely and materially impacted if our LAT liabilities as calculated by the relevant tax authorities are higher than our provisions.

The appraised value of our properties may be different from their actual realizable value and are subject to change, and if the actual realizable value of our properties is substantially lower than their appraised value, there may be a material adverse effect on our business, results of operation and financial condition.

The appraised value of our properties is based on multiple assumptions that include elements of subjectivity and uncertainty. The assumptions, on which the appraised value of our properties and land reserves is based, include that we will develop and complete the projects in a timely manner in accordance with our latest development proposals provided to our property valuer; we have obtained or will obtain on a timely basis all approvals from regulators necessary for the development of the projects, which do not allow for any delays, such as those that may be caused by weather or natural disasters, or delays in the timely completion of demolition and relocations; and we have paid all the land premium and demolition and resettlement costs and obtained all land use right certificates and transferable land use rights without any obligation to pay additional land premium or demolition and resettlement costs.

If we fail to obtain the approvals from regulators necessary for the development of our projects, some assumptions used by our property valuer in appraising the value of our properties will prove inaccurate. Therefore, the appraised value of our properties should not be taken as their actual realizable value or a forecast of their realizable value. Unforeseeable changes to the development of our property projects as well as national and local economic conditions may affect the value of our property holdings.

We may not be able to complete our development projects on time, which may affect our cash flow.

Property development projects require substantial capital expenditure prior to and during the construction period for, among other things, land acquisition and construction. The construction of property projects may take over a year or longer before a positive net cash flow may be generated through pre-sales, sales, leasing or rentals. As a result, our cash flows and results of operations may be affected by our project development schedules and any changes to those schedules. The schedules of our project developments depend on a number of factors, including the performance and efficiency of our third-party contractors and our ability to finance construction. Other specific factors that could adversely affect our project development schedules include:

- natural catastrophes and adverse weather conditions;
- changes in market conditions, economic downturns and decreases in business and consumer sentiments in general;
- failure to obtain necessary licenses, permits and approvals from relevant government authorities in a timely manner;
- changes in relevant regulations, government policies and government planning;
- relocation of existing residents and/or demolition of existing structures;
- shortages of raw materials, equipment, contractors and skilled labor;
- labor disputes;
- construction accidents; and
- errors in judgment on the selection and acquisition of potential sites.

Construction delays or failure to complete the construction of a project according to our planned specifications, schedule and budget may harm our reputation as a property developer, leading to loss of or delay in recognizing revenues and lower returns. If a property project is not completed on time, the purchasers of pre-sold units of the project may be entitled to compensation for late delivery. If the delay extends beyond a certain period, the purchasers may be entitled to terminate their pre-sales agreements and claim damages. There can be no assurance that we will not experience any significant delays in completion or delivery of any of our projects in the future or that we will not be subject to any liabilities for any such delays.

Our financing costs are subject to changes in interest rates.

We have incurred and are expected to continue to incur a significant amount of interest expense relating to our borrowings from banks, as well as from our trust and other financing arrangements. Accordingly, changes in interest rates have affected and will continue to affect our financing costs. Because a majority of our borrowings are in Renminbi, the interest rates on our borrowings are primarily affected by the benchmark interest rates set by the PBOC, which have fluctuated significantly in recent years. We recorded finance costs of RMB441.5 million, RMB499.3 million, RMB634.3 million, RMB183.8 million and RMB425.2 million (US\$60.2 million) during the years ended

December 31, 2017, 2018, 2019 and the six months ended June 30, 2019 and 2020, respectively. Future increases in the PBOC benchmark interest rate may lead to higher lending rates, which may increase our finance costs and thereby materially and adversely affect our business, financial condition, results of operations and prospects.

We may be adversely affected by material issues that affect our relationships or business ventures with our joint venture and associated company partners.

We have entered into joint ventures and established associated companies with third parties and may continue to do so in the future. The performance of such joint ventures and associated companies has affected, and will continue to affect, our results of operations and financial position. Generally, we do not expect to record gains from such joint ventures and associated companies until they start to generate revenue by delivering properties they develop. For the years ended December 31, 2017, 2018 and 2019, our share of profits of joint ventures and associates was RMB418.1 million, RMB367.0 million and RMB693.0 million, respectively. For the six months ended 30 June 2020, our share of profits of joint ventures and associates was RMB232.9 million (US\$33.0 million), representing an increase of 10.3% from approximately RMB211.2 million for the corresponding period in 2019.

During the years ended December 31, 2017, 2018 and 2019 and the six months ended June 30, 2019 and 2020, our investments in joint ventures and associated companies increased significantly. As of December 31, 2017, 2018 and 2019 and June 30, 2019 and 2020, our investments in joint ventures amounted to RMB639.5 million, RMB1,026.5 million, RMB2,237.0 million, RMB2,237.0 million and RMB2,595.8 million (US\$367.4 million), respectively. Our investments in associated companies amounted to RMB805.9 million, RMB1,712.8 million, RMB5,584.4 million, RMB5,584.4 million and RMB6,010.7 million (US\$850.8 million), respectively, as of the same dates.

The success of a joint venture or an associated company depends on a number of factors, some of which are beyond our control. As a result, we may not be able to realize the anticipated economic and other benefits from our joint ventures and associated companies. In addition, in accordance with PRC law, our joint venture agreements and the articles of association of our joint ventures and associated companies, certain matters relating to joint venture require the consent of all parties to the joint ventures and associated companies. Therefore, such joint venture agreements involve a number of risks, including:

- we may not be able to pass certain important board resolutions requiring unanimous consent of all of the directors of our joint ventures and associated companies if there is a disagreement between us and our joint venture partners;
- we may disagree with our joint venture and associated company partners in connection with the scope or performance of our respective obligations under the joint venture arrangements;
- our joint venture and associated company partners may be unable or unwilling to perform their obligations under the arrangements with us, including their obligation to make required capital contributions and shareholder loans, whether as a result of financial difficulties or other reasons;
- our partners may have economic or business interests or goals or philosophies that are inconsistent with ours;

- our partners may take action contrary to our requests or instructions or contrary to our policies or objectives with respect to our property investments; or
- our partners may face financial or other difficulties affecting their ability to perform their obligations under the relevant joint venture and associated company arrangements with us.

In addition, since we do not have full control over the business and operations of our joint ventures and associated companies, we cannot assure that they have been, or will be in strict compliance with all applicable PRC laws and regulations. We cannot assure you that we will not encounter problems with respect to our joint ventures and associated companies or our joint ventures and associated companies will not violate PRC laws and regulations, which may have a material adverse effect on our business, results of operation and financial condition.

Furthermore, the ability of our joint venture and associated companies to pay dividends or other distributions may be subject to their earnings, financial position, cash requirements and availability, applicable laws and regulations and restrictions on making payments to us contained in financing or other agreements. If any of our joint ventures or associated companies incurs indebtedness in its own name, the instruments governing the indebtedness may restrict dividends or other distributions on its equity interest to us. These restrictions could reduce the amount of dividends or other distributions that we receive from these entities, which could in turn restrict our ability to fund our business operations, to service our indebtedness and to pay dividends to our Shareholders. In addition, their declaration of dividends will be at the absolute discretion of the boards of our joint ventures and associated companies. Also, as we expect to continue to invest in joint ventures and associated companies for the development of property projects, our liquidity may be further restricted if we are not able to receive dividends from our existing or future joint ventures or associated companies, which could materially and adversely affect our ability to conduct our business. We cannot assure you that we will be able to achieve good returns on (or even recover) our investments in joint ventures and associates.

Future investments or acquisitions may have a material adverse effect on our ability to manage our business.

We may make strategic investments and acquisitions that complement our operations. However, our ability to make successful strategic investments and acquisitions depend on a number of factors, including our ability to identify suitable targets, obtaining required financing on reasonable and favorable terms and governmental approval. In the event that we fail to identify suitable targets or are prevented from making such strategic investments or acquisitions due to financial, regulatory or other constraints, we may not be able to effectively implement our investment or expansion strategies.

Acquisitions typically involve a number of risks, including, but not limited to (i) difficulties in integrating the operations and personnel of the acquired businesses; (ii) difficulties in maintaining uniform standards, controls and policies across the expanded group; (iii) liabilities associated with the acquired businesses that were unknown at the time of acquisition; and (iv) adverse impact on our results of operations due to amortization and/or impairment for goodwill associated with the acquisitions. Further, we cannot assure you that we will be able to make acquisitions or investments on favorable terms or within a desired time frame. There is also no assurance that such acquisitions or investments would yield the expected level of return. In addition, we may require additional financing in order to make such acquisitions and investments. Debt financing may result in an increase in the

level of our indebtedness while equity financing may result in dilution of ownership of existing Shareholders. Any of these factors could have a material adverse effect on our business, results of operations, financial condition and prospects.

We rely on third-party contractors and any failure by these contractors to provide satisfactory services, our reputation, business, results of operations and financial condition may be adversely affected.

We engage third parties to carry out various services relating to our property development projects, including project design, pile setting, foundation building, construction, utility connection, landscaping, equipment installation, elevator installation and decoration. We generally select third-party contractors through a tender process and endeavor to engage companies with a strong reputation and track record, high performance reliability and adequate financial resources. Our third-party contractors may fail to provide satisfactory services at the level of quality or within the time required by us. In addition, completion of our property developments may be delayed, and we may incur additional costs, due to the financial or other difficulties of our contractors. If the performance of any third-party contractor is unsatisfactory, we may need to replace such contractor or take other remedial actions, which could increase the costs and adversely affect the development schedules of our projects and materially and adversely affect our reputation, credibility, financial condition and business operations. Moreover, we cannot assure you that our employees will be able to consistently applying our quality standards in carrying out quality control, and to detect all defects in the services rendered by third-party service providers or contractors. In addition, as we enter into new geographical areas in the PRC, there may be a shortage of third-party contractors that meet our quality standards and other requirements in such locations and, as a result, we may not be able to engage a sufficient number of high-quality third-party contractors, which may adversely affect the construction schedules and development costs of our property development projects. Furthermore, if our relationship with any of the third-party service providers or contractors deteriorates, a serious dispute with such third-party service provider or contractor may arise, which may in turn result in costly legal proceedings. The occurrence of any of the above events may have a material adverse effect on our business, financial condition, results of operations and prospects.

We may be unable to successfully manage the growth of our business and our historical results of operations may not be representative of our future performance.

Our revenue increased significantly during the years ended December 31, 2017, 2018 and 2019. Our revenue increased from RMB6,139.7 million in 2017 to RMB9,238.7 million in 2018, and increased further to RMB15,169.5 million in 2019. For the six months ended June 30, 2020, our revenue amounted to RMB9,623.8 million (US\$1,362.2 million), representing an increase of 146.3% from RMB3,907.5 million for the corresponding period in 2019. Our gross profit increased by 15.9% from RMB2,491.6 million in 2017 to RMB2,887.1 million in 2018, and further increased to RMB3,813.3 million in 2019, representing a further increase of 32.1% as compared to the gross profit in 2018. For the six months ended June 30, 2020, our gross profit was RMB2,434.4 million (US\$344.6 million), representing an increase of 115.0% from RMB1,132.3 million for the corresponding period in 2019. Our net profit increased by 15.7% from RMB1,220.7 million in 2017 to RMB1,412.3 million in 2018, and further increased by 3.92% to RMB1,467.6 million in 2019, as compared to 2018. For the six months ended June 30, 2020, our net profit was RMB677.4 million (US\$95.9 million), representing a decrease of 8.8% from RMB743.1 million for the corresponding period in 2019. There can be no assurance that our revenue,

gross profit or net profit will not decrease in the future. We have faced and will continue to face challenges including rising development and administrative costs and increasing competition for employees and business opportunities.

We have established a set of policies, controls and procedures to manage our Subsidiaries, including personnel management policies, internal control policies and internal audit procedures. However, as our business continues to expand, there can be no assurance that these policies, controls and procedures will prove as effective as we hope. As a result, our past results of operations may not be indicative of our future performance.

As such, our financial performance from June 30, 2020 onwards may not be directly comparable to our historical financial performance.

Our results of operations, financial condition and prospects may be adversely affected by impairment loss for properties under development and completed properties held for sale.

The real estate market volatility may subject us to risks in connection with possible impairment loss for properties under development and completed properties held for sale, if we fail to complete the construction and sell the properties in time at our desired prices. Impairment loss may arise when the carrying value of a property exceeds its recoverable amount. For the years ended December 31, 2017, 2018 and 2019, we recorded impairment losses recognized for properties under development and completed properties held for sale in the amount of RMB163.7 million, RMB116.8 million, and RMB27.6 million, respectively. We cannot assure you that we may not incur impairment losses, if any or at similar level, during adverse market conditions in the future. If we incur such impairment losses, our results of operations, financial condition and prospects may be adversely affected.

Our results of operations, financial condition and prospects may be adversely affected by fair value changes in our available-for-sale investments and the possible impairment losses for such investments.

During the years ended December 31, 2017 and 2018, under limited circumstances, we purchased low-risk available-for-sale investments for cash management purposes, which mainly included wealth management products with the underlying assets of PRC treasury bonds, commercial paper, interbank borrowings and bills issued by the PBOC. As of December 31, 2016 and 2017, our available-for-sale investments amounted to RMB1,620.2 million and RMB2,006.7 million, respectively. As of December 31, 2018, our available-for-sale investments amounted to nil. This was caused by the newly adopted IFRS 9 Financial Instruments, which replaced IAS 39 Financial Instruments: Recognition and Measurement for annual periods beginning on or after January 1, 2018. Under IAS 39 Financial Instruments, our debt instruments were classified as available-for-sale investments, whereas under the newly adopted IFRS 9 Financial Instruments, debt financial instruments are measured at fair value through profit or loss. See Notes 2.2 and 3 to the consolidated financial statements as of and for the year ended December 31, 2018 and 2019, respectively, included elsewhere in this offering memorandum, for further details. As of December 31, 2018 and 2019 and June 30, 2020, our financial assets measured at fair value through profit or loss was RMB1,130.6 million, RMB1,148.4 million and RMB1,824 million (US\$258.2 million), respectively. The values of certain available-for-sale financial assets are marked to market, and net changes in their fair value are recorded as our operating income or loss, and therefore directly affects our results of operations.

If our management evaluates that the decline in value of available-for-sale financial assets is not temporary, such decline in the value can result in the recognition of impairment losses. This evaluation is a matter of judgment by the management, which includes the assessment of various factors. We did not make any impairment provisions for available-for-sale financial assets during the years ended December 31, 2017, 2018 and 2019 and the six months ended June 30, 2020. However, we cannot assure you that we will not make any such impairment provisions in the future. If we make such impairment provisions, our results of operations, financial condition and prospects may be adversely affected.

The new and revised IFRSs and interpretive guidance on their application which are effective for accounting periods beginning on or after January 1, 2018 and 2019, respectively, render certain of the historical financial information as of and for the year ended December 31, 2017 not directly comparable with financial information after January 1, 2018 and 2019, respectively.

We have adopted new and revised IFRSs for the financial statements as of and for the year ended December 31, 2018, including but not limited to IFRS 9 Financial Instruments, IFRS 15 Revenue from Contracts with Customers, Amendments to IFRS 2 and Amendments to IFRS 4.

- IFRS 9 Financial Instruments replaces IAS 39 Financial Instruments: We have recognized the transition adjustments against the applicable opening balances in equity at January 1, 2018, if any. Therefore, the comparative information was not restated and continues to be reported under IAS 39. As of January 1, 2018, we have classified our available-for-sale investments as financial assets measured at fair value through profit or loss as these financial instruments were held for trading.
- IFRS 15 and its amendments replace IAS 11 Construction Contracts, IAS 18 Revenue and related interpretations and it applies, with limited exceptions, to all revenue arising from contracts with customers. The cumulative effect of the initial application of IFRS 15 was recognized as an adjustment to the opening balance of retained profits as of January 1, 2018.

We have adopted new and revised IFRSs for the financial statements as of and for the year ended December 31, 2019, including but not limited to, Amendments to IFRS 9 Prepayment Features with Negative Compensation Leases, IFRS 16 Leases, Amendments to IAS 19 Plan Amendment, Curtailment or Settlement, Amendments to IAS 28 Long-term interests in Associates and Joint Ventures, IFRIC23 Uncertainty over Income Tax Treatments and Annual Improvements 2015–2017 Cycle Amendments to IFRS 3, IFRS 11, IAS 12 and IAS 23.

- IFRS 16 replaces IAS 17 Leases, IFRIC 4 Determining whether an Arrangement contains a Lease, SIC 15 Operating Leases — Incentives and SIC 27 Evaluating the Substance of Transactions involving the legal form of a lease. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases under a single on-balance sheet model. Lessor accounting under IFRS 16 is substantially unchanged from IAS 17. Lessors will continue to classify leases as either operating or finance leases using similar principles as in IAS 17. Therefore, IFRS 16 did not have any financial impact on leases where we are the lessor. We adopted IFRS 16 using the modified retrospective method of adoption with the date of initial application of 1 January 2019. Under this method, the standard is applied retrospectively with the cumulative effect of initial adoption as an

adjustment to the opening balance of retained earnings at 1 January 2019, and the comparative information for 2018 was not restated and continues to be reported under IAS 17.

See Notes 2.2 and 3 to the consolidated financial statements as of and for the year ended December 31, 2018 and 2019, respectively, for further details.

Implementation of new and revised IFRSs and interpretive guidance on the application thereof may affect our business, financial condition and results of operations. In addition, historical financial information as of and for the years ended December 31, 2017 may not be directly comparable against respective financial information after January 1, 2018 and 2019. Investors must therefore exercise caution when making comparisons of any financial figures after January 1, 2018 and 2019 against the historical financial figures prior to January 1, 2018 and 2019 and when evaluating our financial condition and results of operations.

Our expansion into new geographical markets presents certain risks and uncertainties.

In order to achieve sustainable growth, we need to continue to seek development opportunities in select regions in the PRC with the potential for growth and where we have no existing operations. We may not be able to identify geographic locations with sufficient growth potential to expand our market reach or operate our new projects. For the geographic locations we select, we may face intense competition from developers with established experience or presence and from other developers with similar expansion plans. As we may face challenges not previously encountered, we may fail to recognize or properly assess risks or take full advantage of opportunities.

Furthermore, our experience in existing markets and our business model, including our Hong Yang Plazas, may not be readily transferable to, and replicated in, new markets in our target cities. The property markets in our target cities may be different from each other in terms of the level of local economic and industrial development, local governmental policies and support, development phases of local businesses, market demand for our properties, types of properties to be developed and development cycles. We may have limited ability to leverage our established brands and reputation in new markets in the way we have done in our existing markets. Furthermore, the administrative, regulatory and tax environments in our target cities may be different from each other and we may face additional expenses or difficulties in complying with new procedures and adapting to new environments in the new markets. In addition, we may not have the same level of familiarity with local governments, business practices, regulations and customer preferences as other local and more experienced property developers in such cities, which may put us in a disadvantageous position.

As we continue to expand, we will have to continue to improve our managerial, development and operational expertise and allocation of resources. To effectively manage our expanded operations, we will need to continue to recruit and train managerial, accounting, internal audit, engineering, technical, sales and other staff to satisfy our property development requirements, including staff with local market knowledge. In order to fund our ongoing operations and our future growth, we need to have sufficient internal capital sources or access to additional financing from external sources. Further, we will be required to manage relationships with a greater number of customers, tenants, suppliers, contractors, service providers, lenders and other third parties. Accordingly, we will need to further strengthen our internal controls and compliance functions to ensure that we are able to comply with our legal and contractual obligations and to reduce our operational and

compliance risks. We cannot assure you that we will not experience issues such as capital constraints, construction delays and operational difficulties at new business locations. We may also experience difficulties in expanding our existing business and operations and training an increasing number of personnel to manage and operate the expanded business.

The fair value of our investment properties is likely to fluctuate from time to time and may decrease significantly in the future, which may materially and adversely affect our profitability.

We are required to reassess the fair value of our investment properties at the end of each reporting period. Under IFRS, gains or losses arising from changes in the fair value of our investment properties are included in our combined statements of comprehensive income for the period in which they arise. Our investment properties were valued by our property valuer, as of December 31, 2017, 2018 and 2019, on an open market and existing use basis, which reflected market conditions on the respective dates. Based on such valuation, we recognized the aggregate fair value of our investment properties and relevant deferred tax on our combined statements of financial position and increases in fair value of investment properties and movements of the relevant deferred tax on our combined statements of comprehensive income. For the years ended December 31, 2017, our fair value losses on investment properties was RMB287.4 million. For the year ended December 31, 2018 and 2019, our fair value gains on investment properties were RMB260.8 million and RMB310.5 million. For the six months ended June 30, 2020, our fair value gains on investment properties were RMB57.3 million (US\$8.1 million).

Despite their impact on the reported profit, fair value gains or losses do not change our cash position as long as the relevant investment properties are held by us. The amount of revaluation adjustments has been, and will continue to be, subject to market fluctuations. As a result, we cannot assure you that changes in the market conditions will continue to create fair value gains on our investment properties or that the fair value of our investment properties will not decrease in the future. In addition, the fair value of our investment properties may materially differ from the amounts it would receive in actual sales of the investment properties. Any significant decreases in the fair value of our investment properties or any significant decreases in the amount we receive in actual sales of the investment properties as compared with the recorded fair value of such properties would materially and adversely impact our results of operations.

We are partially dependent on commercial property investment and operation income from our investment property portfolio.

Commercial property investment and operation income from our investment properties constitutes an important part of our business and revenue. For the years ended December 31, 2017, 2018 and 2019 and the six months ended June 30, 2019 and 2020, the revenue of commercial property investment and operations accounted for approximately 2.7%, 3.9%, 2.7%, 4.8% and 2.2% of our total revenue, respectively. We are subject to risks incidental to the ownership and operation of commercial properties, including volatility in market rental rates and occupancy levels, competition for tenants, costs resulting from on-going maintenance and repair and inability to collect rent from tenants or renew leases with tenants due to bankruptcy, insolvency, financial difficulties or other reasons. In addition, we may not be able to renew leases with our tenants on terms acceptable to us, or increase rental rates to the level of the then prevailing market rate, or at all, upon the expiry of the existing terms. In addition, we may not be able to enter into new

leases at the rental rates expected. All these factors could negatively affect the demand for our investment properties and our rental income, which could have a material and adverse effect on our business, financial condition and results of operations.

We may not be able to attract and retain quality tenants for our investment properties.

Our investment properties compete for tenants with other property developers on factors including location, quality, maintenance, property management, rental rates, services provided and other lease terms. There can be no assurance that our existing or prospective tenants will not choose other properties. Any future increase in the supply of properties which compete with us would increase the competition for tenants and, as a result, we may have to reduce rental rates or incur additional costs to make our properties more attractive. Also, we may not be able to lease our properties to a desirable mix of tenants to achieve our business objectives or for rental rates that are consistent with our projections. If we are not able to retain our existing tenants, attract new tenants to replace those that leave or lease our vacant properties, our occupancy rates may decline and our investment properties may become less attractive and competitive. This in turn may have a material and adverse effect on our business, financial condition and results of operations.

We incur maintenance and operating costs in operating our investment properties and hotel, which may increase.

Our Hong Yang Plazas, amusement park and hotel utilize a large amount of utilities such as gas, water and electricity. We are generally not able to influence the prices which utility providers charge, nor can we easily switch to different utilities providers. Any price increase or change in the pricing structure from these utility providers could have an adverse effect on our operating costs. As a result, increases in the prices of products and services which we procure to maintain our services to our tenants and guests could increase our operating costs if we are not able to pass these higher costs onto our customers.

In addition, operating investment properties and our hotel, as well as the restaurants and other associated facilities within the hotel, involves a significant amount of fixed costs, including maintenance and upkeep costs as well as employee and staff salaries and expenses. These fixed costs limit our ability to respond to adverse market conditions by minimizing costs. Such limitations may have an adverse impact on our profitability when the property leasing and hotel industries experience a downturn and may exacerbate the impact of a decline in occupancy rates, rental rates or room rates or in demand for our restaurants and catering facilities. Any significant increase in maintenance costs and operating costs may have a material and adverse effect on our business, financial condition, results of operations and prospects.

We face certain risks of defects or deficiencies in connection with our investment properties, amusement park and hotels and any accidents, injuries or prohibited activities in our investment properties, amusement park and hotels may adversely affect our reputation and subject us to liability.

Our investment properties, amusement park and hotels may have defects or deficiencies requiring significant capital expenditures, repair or maintenance expenses or payment of other obligations to third parties. If any of our investment properties, amusement park or hotels has design, construction or other latent property or equipment defects, repairs, maintenance or, if necessary, replacements may need to be carried out to rectify these defects. In addition, wear and tear of our investment properties, amusement park and hotels or adverse weather conditions could result in defects requiring repairs or

replacement. Such defects and/or the repair, maintenance or replacement works carried out to rectify them could increase our costs and could have an adverse effect on the operations of our investment properties, amusement park and hotels and/or the attractiveness to tenants and guests of such investment properties, amusement park and hotels.

There are inherent risks of accidents, injuries or prohibited activities (such as illegal drug use, gambling, violence or prostitution by guests and infringement of third parties' intellectual property or other rights by our tenants) taking place in public places, such as shopping malls and hotels. The occurrence of one or more accidents, injuries or prohibited activities at any of our investment properties, amusement park or hotels could adversely affect our reputation among customers and guests, harm our brand, decrease our overall rents and hotel occupancy rates and increase our costs by requiring us to implement additional safeguard measures. In addition, if accidents, injuries or prohibited activities occur at any of our investment properties, amusement park or hotels, we may be held liable for costs, damages and fines. Our current property and liability insurance policies may not provide adequate or any coverage for such losses and we may be unable to renew our insurance policies or obtain new insurance policies without increases in premiums and deductibles or decreases in coverage levels, or at all.

Our investment properties and hotel may encounter temporary closures, reduced turnover or lower occupancy rates as a result of repairs, refurbishments, renovation or upgrade of the properties or neighboring properties.

Our investment properties and hotel may require repairs and refurbishments which may require significant capital expenditures. Our investment properties and hotels may also need to undergo redevelopment or renovation works from time to time to retain their attractiveness and may also require maintenance or repairs. Such repairs, refurbishments, redevelopments, renovations or upgrade of our investment properties and hotels may impact on our ability to attract tenants at our investment properties and guests and customers for our restaurants and event facilities at our hotel. In some circumstances, such repairs, refurbishments, redevelopments or renovations may require the temporary closure of an investment property or hotel or the restaurants or other facilities within the investment property or hotel. As a result, during the period of any such repairs, refurbishments, redevelopments, renovations or upgrade, we may experience a reduction in the occupancy rates, rental income and/or average room rates of the investment properties or hotel. For instance, we commenced the commercial operation of the Nanjing Hong Yang Plaza in May 2011 and started the renovation and upgrading work in 2016. See “Business — Commercial Property Investment and Operations — Nanjing Hong Yang Plaza — Renovation and Upgrade.” The renovation and upgrading work resulted in termination or failure to renew of certain leases with tenants of Nanjing Hong Yang Plaza, as well as compensation paid to these tenants.

Furthermore, buildings neighboring any of our investment properties and hotel may be demolished or redeveloped for alternative uses, which may cause disruption to our investment properties and hotel. This may in turn negatively impact the revenue, attractiveness and valuation of our investment properties and hotel. Furthermore, any development or redevelopment of neighboring properties could add properties that compete with our investment properties and hotel. The occurrence of any of the above circumstances could have a material and adverse effect on our business, financial condition, results of operations and prospects.

The illiquidity of investment properties and the lack of alternative uses of hotel and investment properties may significantly limit our ability to respond to adverse changes in the performance of our investment properties.

Because property investments in general are relatively illiquid, our ability to promptly sell one or more of our investment properties in response to changing economic, financial and investment conditions is limited. The property market is affected by various factors, such as general economic conditions, availability of financing, interest rates and supply and demand, many of which are beyond our control. We cannot predict whether we will be able to sell any of our investment properties for the price or on the terms set by us, or whether any price or other terms offered by a prospective purchaser would be acceptable to us. We also cannot predict the length of time needed to find a purchaser and to complete the sale of a property. Moreover, we may also need to incur capital expenditure to manage and maintain our properties or to correct defects or make improvements to these properties before selling them. We cannot assure you that financing for such expenditures would be available when needed, or at all. In addition, if we sell an investment property during the term of that property's management agreement or tenancy agreement, we may have to pay termination fees to our retail tenants.

Furthermore, the aging of investment properties, changes in economic and financial conditions or changes in the competitive landscape in the PRC property market may adversely affect the amount of rentals and revenue we generate from, as well as the fair value of, our investment properties. However, hotels and investment properties may not be readily converted to alternative uses, as such conversion requires extensive governmental approvals in the PRC and involves substantial capital expenditures for the purpose of renovation, reconfiguration and refurbishment. We cannot assure you that we will possess the necessary approvals and sufficient funds to carry out the required conversion. These factors and any others that would impede our ability to respond to adverse changes in the performance of our hotel and investment properties could affect our ability to compete against our competitors and our results of operations.

Certain portions of our property development projects and investment properties are designated as civil air defense properties.

According to the PRC laws and regulations, new buildings constructed in cities should contain basement areas that can be used for civil air defense purposes in times of war. According to the PRC Civil Air Defense Law (《中華人民共和國人民防空法》) promulgated by the NPC on October 29, 1996, as amended on August 27, 2009, and the Management Measures for Peacetime Development and Usage of Civil Air Defense Properties (《人民防空工程平時開發利用管理辦法》) promulgated by the House Civil Air Defense Office on November 2001, after obtaining the approval from the civil air defense supervising authority, a developer can manage and use such areas designated as civil air defense properties in times of peace and make profit therefrom. During the years ended December 31, 2017, 2018 and 2019, we had entered into contracts to transfer the right to use civil air defense properties in our property development projects to our customers as car parks and we intend to continue such transfer. However, in times of war, such areas may be used by the government at no cost. In the event of war and if the civil air defense area of our projects is used by the public, we may not be able to use such area as car parks, and such area will no longer be a source of our revenue. In addition, while our business operations have complied with the laws and regulations on civil air defense property in all material aspects, we cannot assure you that such laws and regulations will not be amended in the future, which may make it more burdensome for us to comply with and increase our

compliance cost. As of June 30, 2020, we had certain completed civil air defense properties which are primarily used or to be used for car parks, representing an insignificant portion of our property portfolio.

We guarantee mortgage loans of certain of our customers and may become liable to mortgagee banks if customers default on their loans.

We derive a substantial portion of our revenue from sales of our properties. Most purchasers of our properties apply for bank borrowings and mortgages to fund their purchases. In line with industry practice, banks require us to guarantee mortgage loans taken out by purchasers of the properties that we develop. Typically, we guarantee the full value of mortgage loans taken out by purchasers, as well as accrued interest and penalties for defaults in mortgage payments, up until the issuance of the relevant property ownership certificates and the registration of the mortgage in favor of the mortgagee bank. These are contingent liabilities not reflected on our balance sheets. If a purchaser defaults on a mortgage loan, we may be required to repurchase the underlying property by paying off the mortgage. If we fail to do so, the mortgagee bank may auction off the underlying property and recover any additional amount outstanding from us as the guarantor of the mortgage loans. In line with industry practice, we do not conduct any independent credit checks on our customers and rely on the credit evaluations conducted by the mortgage banks for such customers.

As of June 30, 2020, our outstanding guarantees in respect of the residential mortgages of our customers amounted to RMB13,547.7 million (US\$1,917.5 million). During the years ended December 31, 2017, 2018 and 2019 and the six months ended June 30, 2020, we did not encounter any incidents of default by our customers with a material impact on our business or financial condition. However, should any material default occur and if we were called upon to honor our guarantees, our financial condition and results of operations could be adversely affected.

The total GFA of some of our property developments may be different from the original authorized area.

Government grants of land use rights for a parcel of land specify in the land grant contract the permitted total GFA that the developer may develop on the land. In addition, the total GFA is also set out in the relevant urban planning approvals and construction permits. However, the actual GFA constructed may be different from the total GFA authorized in the land grant contract or relevant construction permits due to factors such as subsequent planning and design adjustments. The actual GFA may be subject to approval when the relevant authorities inspect the properties after completion. The developer may be required to pay additional land premium and/or administrative fines or take corrective actions in respect of the adjusted land use and excess GFA before a completion certificate (《工程竣工驗收備案表》) can be issued to the property developer. Until the completion certificate is issued, we would not be able to deliver individual units to purchasers or to recognize the related pre-sale proceeds as revenue. The methodology for calculating the additional land premium is generally the same as the original land grant contract. If issues related to excess GFA cause delays in the delivery of our products, we may also incur liability to purchasers under our sales and purchase agreements. There can be no assurance that the constructed total GFA for each of our existing projects under development or any future property developments will not exceed permitted total GFA. Any of these factors may adversely affect our business.

We are exposed to contractual and legal risks related to pre-sales, which could have an adverse effect on our business, financial condition and result of operations.

We make certain undertakings in our pre-sale contracts, and our pre-sale contracts and the PRC laws and regulations provide for remedies for breach of these undertakings. For example, if we fail to complete a pre-sold property on time, we may be liable to the relevant customers for such late delivery under the relevant pre-sale contracts or pursuant to relevant PRC laws and regulations. If our delay extends beyond a specified period, the purchasers may terminate their pre-sale contracts and claim for compensation. A customer may also terminate his or her contract with us and/or bring claims for compensation for certain other contractual disputes, including, for example, if the GFA of the relevant unit, as set out in the individual building ownership certificate, deviates by more than 3% from the GFA of that unit as set out in the contract; if the floor plan of the relevant unit is different from what is set out in the contract and adversely affects the quality and functionality of the unit; if the interior decoration of the relevant unit is inferior to what is set out in the contract; or if the customer fails to receive the individual property ownership certificate within a statutory period due to our fault. Any of such factors could have a material adverse effect on our business, financial condition and results of operations. Though we are typically entitled to claim damages from the third-party contractors if such breaches are due to their fault, we cannot assure you that the damages we recoup will fully compensate our losses.

Changes of PRC laws and regulations with respect to pre-sales may adversely affect our business.

We depend on cash flows from pre-sales of properties as an important source of funding for our property developments. Under current PRC laws and regulations, property developers must fulfill certain conditions before they can commence pre-sales of the relevant properties and pre-sales proceeds may only be used to finance the related development. Any ban or additional restrictions on pre-sales may require us to seek alternative sources of funding to finance our developments, and if sufficient alternative funding is not available to us on commercially reasonable terms, or at all, our cash flow and prospects, and business, results of operations and financial condition could be materially and adversely affected.

We may be liable to our customers for damages if individual property ownership certificates are not delivered to our customers in a timely manner due to our fault.

Property developers in the PRC typically assist purchasers of property to obtain the relevant individual property ownership certificates within a time frame set out in the relevant property sale and purchase agreement, or in the absence of such time frame, within 90 days of delivery of the property if the construction of the property purchased has not been completed, or within 90 days of execution of the agreement if the construction of the property purchased has been completed. We generally elect to specify the deadline for the delivery in the property sale and purchase agreements to allow sufficient time for the application and approval processes. Under current regulations, we are required to submit requisite governmental approvals in connection with our property developments, including land use rights documents and planning permits, to the local bureau of land resources and housing administration after receipt of the completion and acceptance certificate for the relevant properties and apply for the property ownership initial registration in respect of these properties. We are then required to submit after delivery of the properties, the relevant property sale and purchase agreements, identification documents of the purchasers, proof of payment of deed tax, for the relevant local authority's review and the issuance of

the individual property ownership certificates in respect of the properties purchased by the respective purchasers. Delays by the various administrative authorities in reviewing the application and granting approval as well as other factors may affect timely delivery of the general as well as individual property ownership certificates. There can be no assurance that we will not incur material liability to purchasers in the future for the late delivery of individual property ownership certificates due to our fault or for any reason beyond our control.

The property development business is subject to claims under statutory quality warranties, and if a number of claims are brought against us under our warranties, our reputation, business, results of operation and financial condition may be materially and adversely affected.

Under the Regulations on Administration of Development and Operation of Urban Real Estate (《城市房地產開發經營管理條例》) enacted by the State Council on July 20, 1998 and amended on January 8, 2011, March 19, 2018, March 24, 2019, March 27, 2020 and November 29, 2020 and the Regulation for the Administration of Sales of Commodity Buildings (《商品房銷售管理辦法》), which went into effect on June 1, 2001, all property developers in the PRC must provide certain quality warranties for the properties they construct or sell. We are required to provide these warranties to our customers. Generally, we receive quality warranties from third-party contractors with respect to our property projects. If a large number of claims were brought against us under our warranties and if we were unable to obtain reimbursement for such claims from third-party contractors in a timely manner or at all, or if the money retained by us to cover our payment obligations under the quality warranties was not sufficient, we could incur expenses to resolve such claims or face delays in remedying the related defects, which could in turn harm our reputation, and adversely affect our business, financial condition and results of operations.

We may be subject to fines or forfeit land to the PRC Government if we fail to pay land grant premium or fail to develop properties within the time and in accordance with the terms set out in the relevant land grant contracts.

Under PRC laws, if we fail to develop a property project according to the terms of the land grant contract, including those relating to the payment of land premium, resettlement and demolition costs and other fees, the designated use of the land and the time for commencement and completion of the property development, government authorities may issue a warning, impose a penalty and/or order us to forfeit the land. Specifically, under current PRC laws, if we fail to pay any outstanding land grant premium by the stipulated deadlines, we may be subject to late payment penalties or the repossession of the land by the government. If we fail to commence development within one year of the commencement date stipulated in the land grant contract, the relevant PRC land bureau may issue a warning to us and impose an idle land fee on the land equal to 20% of the land premium. If we fail to commence development within two years from the commencement date stipulated in the land grant contract, the relevant PRC land bureau may confiscate our land use rights without compensation, unless the delay in the development is caused by government action or is due to a force majeure. Moreover, if a property developer commences development of the property in accordance with the timeframe stipulated in the land grant contract but, suspend for more than one year and falls under either of the following two situations (i) the developed land area is less than one-third of the total land area, or (ii) the total invested capital is less than one-fourth of the total planned investment in the project, the land may be treated as idle land and will be subject to the risk of forfeiture.

In September 2007, the Ministry of Land and Resources issued a new notice to further enhance control of the land supply by requiring developers to develop land according to the terms of the land grant contracts and restricting or prohibiting any non-compliant developers from participating in future land auctions. In January 2008, the State Council issued a Notice on Promoting Land Saving and Efficient Use (《關於促進節約集約用地的通知》) to escalate the enforcement of existing rules on idle land management. Furthermore, the Ministry of Land and Resources issued a Notice on Restricting the Administration of Construction Land and Promoting the Use of Approved Land (《關於嚴格建設用地管理促進批而未用土地利用的通知》) in August 2009, which reiterated the applicable rules with regard to idle land management. On June 1, 2012, the Ministry of Land and Resources promulgated the revised Measures on the Disposal of Idle Land (《閒置土地處置辦法》), which went into effect July 1, 2012. These further measures may prevent competent land authorities from accepting any application for new land use rights or processing any title transfer transaction, lease transaction, mortgage transaction or land registration application with respect to idle land prior to the completion of the required rectification procedures.

We cannot assure you that circumstances leading to the repossession of land or delays in the completion of a property development will not arise in the future. If our land is repossessed, we will not be able to continue our property development on the forfeited land, recover the costs incurred for the initial acquisition of the repossessed land or recover development costs and other costs incurred up to the date of the repossession. In addition, we cannot assure you that regulations relating to idle land or other aspects of land use rights grant contracts will not become more restrictive or punitive in the future. If we fail to comply with the terms of any land use right grant contract as a result of delays in project development, or as a result of other factors, we may lose the opportunity to develop the project, as well as our past investments in the land, which could materially and adversely affect our business, financial condition and results of operations.

If we are unable to successfully retain the services of our current personnel and hire, train and retain senior executives or key personnel, our ability to develop and successfully market our products may be impaired.

The success and growth of our business has depended significantly on our ability to identify, hire, train and retain suitable employees with capable skills and qualifications, including management personnel with relevant professional skills. We rely on them to continue to develop our business. We provide incentives to attract and retain management and experienced personnel to meet the future development needs. In addition, if any of our directors or any member of our senior management team or any of our other key personnel joins a competitor or carries on a competing business, we may lose customers and additional key staff members. However, as the competition is fierce in China for senior management and key personnel with extensive experience in property development, if a large number of directors and senior management resign, and we fail to find a suitable candidate, our business may be adversely affected.

Our controlling shareholder has significant influence in determining the outcome of major corporate transactions that require shareholder approvals and may take actions that may conflict with the interest of the holders of the Notes.

As of the date of this offering memorandum, Mr. Zeng Huansha is our largest shareholder and is indirectly holding in effect a super majority of the voting rights in us. See “Principal Shareholders.” Mr. Zeng has and will continue to have the ability to exercise a controlling influence in our business, and may cause us to take actions that are not in, or

may conflict with, the interests of the holders of the Notes. Both Mr. Zeng Huansha and his wife have provided guarantees to certain debts of the Group. Mr. Zeng will be able to influence the major policy decisions of us by controlling the election of board members and, in turn, indirectly controlling the selection of our senior management, determining the timing and amount of any dividend payments, approving annual budgets, deciding on increases or decreases in our share capital, determining our issuance of new securities, approving mergers, acquisitions and disposals of our assets or businesses, and amending our articles of association. These actions may be taken even if they are opposed by the holders of the Notes.

Potential liability for health and environmental problems could result in delay in the development of our properties.

We are subject to a variety of laws and regulations concerning the protection of health and the environment. As required by PRC laws, independent environmental consultants have conducted environmental impact assessments at all of our construction projects and environmental impact assessment documents were submitted to the relevant government authorities for approval before commencement of construction. The local authorities may request a developer to submit the environmental impact documents, issue orders to suspend the construction and impose a penalty for a project where environmental impact assessment documents have not been approved before commencement of construction.

As required by PRC laws and regulations, property projects with GFA in excess of 50,000 sq.m. or in environmentally sensitive regions or areas are required to undergo environmental assessments and the related assessment document must be submitted to the relevant government authorities for approval before commencement of construction. For other property projects, we are required to file the environmental impact registration form for record-filing. If we fail to meet such requirements, local authorities may issue orders to stop construction and based on the circumstances of the violation and the consequences thereof, impose on us a fine of between one to five percent of the total investment amount of the project, and may also issue orders to restore the original conditions before the construction; and the persons directly in charge and other directly responsible persons of us shall be subject to administrative sanctions under the law. After the completion of construction, we are required to make an acceptance check of the environmental protection facilities and prepare an acceptance report according to the standards and procedures stipulated by the competent administrative department of environmental protection under the State Council. When making an acceptance check of environmental protection facilities, we are required not to commit fraud. We are also required to make the acceptance report publicly available in accordance with the law unless we are required to keep confidential according to national provisions. If we cannot make an acceptance check of environmental protection facilities in due course, the development of our projects may be delayed.

The CBIRC and/or other agencies of the PRC Government may tighten the regulations relating to trust loans being provided to the property industry in the PRC, which may affect our ability to obtain trust loans.

As of December 31, 2018 and 2019 and June 30, 2020, our trust and other financing arrangements accounted for approximately 26.0%, 19.3% and 7.8% of our total indebtedness, respectively. See “Business — Project Financing — Trust and Other Financing Arrangements.” There are uncertainties regarding trust financing. The operation of trust financing companies in the PRC is primarily regulated by the CBRC pursuant to the Rules Governing Trust Financing Companies (《信托公司管理辦法》), which went into effect on March 1, 2007. Trust financing companies are therefore under the

supervision and monitoring of the CBIRC and are required to comply with the relevant notices and regulations promulgated by the CBIRC. There can be no assurance that the PRC Government will not implement additional or more stringent requirements with regard to trust financing companies. This could result in a reduction in our financing options and/or an increase in the cost of financing our properties, which in turn could have a material adverse effect on our business, financial condition, results of operations and prospects.

We may be subject to fines due to the lack of registration of our leases.

Pursuant to the Administrative Measures for Commodity Housing Leasing (《商品房屋租賃管理辦法》), parties to a lease agreement are required to file the lease agreements for registration and obtain property leasing filing certificates for their leases. As of the date of this offering memorandum, we leased over 90 properties in 20 cities mainly for our office premises. All of the landlords are Independent Third Parties. As of the date of this offering memorandum, we failed to register a number of lease agreements as the tenant. The failure to register the lease agreements does not affect the validity of the lease agreements under the relevant PRC laws and regulations. However, there can be no assurance that legal disputes or conflicts concerning such leases and tenancies will not arise in the future. In addition, as advised by our PRC Legal Adviser, we may be required by relevant government authorities to file the lease agreements for registration and may be subject to a fine for non-registration within the prescribed time limit, which may range from RMB1,000 to RMB10,000 per lease agreement. We estimated total maximum penalty will not have a material adverse effect on our business, financial condition, results of operation and prospects. The occurrence of any of the above conflicts or disputes or the imposition of the above fines could require us to make additional efforts and/or incur additional expenses, any of which could materially and adversely impact our business, financial condition and results of operations. The registration of these lease agreements to which we are a party requires additional steps to be taken by the respective other parties to the lease agreement which are beyond our control. There can be no assurance that the other parties to our lease agreements will be cooperative and that we can complete the registration of these lease agreements and any other lease agreements that we may enter into in the future.

Our current insurance coverage may not be adequate to cover all risks related to our operations.

Consistent with what we believe to be the industry norm for the property development industry in the PRC, we do not maintain insurance coverage against destruction of or damage to our properties, no matter whether they are under development or held for sale other than those over which our lending banks have securities interests or for which we are required to maintain insurance coverage under the relevant loan agreements. In addition, we do not maintain insurance against any liability arising from allegedly tortious acts committed on our work sites. If we suffer any losses, damages or liabilities in the course of our business operations, we may not have adequate insurance coverage to provide sufficient funds to cover any such losses, damages or liabilities or to replace any property that has been destroyed. Therefore, there may be instances when we will sustain losses, damages and liabilities because of our lack of insurance coverage, which may in turn adversely affect our financial condition and results of operations.

We may be involved in legal and other disputes arising out of our operations and may face relevant liabilities as a result.

We may be involved from time to time in disputes with various parties involved in the development and the sale of our properties, including (without limitation) contractors, suppliers, construction workers, original residents, partners, banks and purchasers. These disputes may lead to protests and may result in damage to our reputation, substantial costs and diversion of resources and management's attention. As most of our projects are comprised of multiple phases, purchasers of our properties in earlier phases may commence legal actions against us if our subsequent planning and development of the projects are perceived to be inconsistent with our representations and warranties made to such earlier purchasers. In addition, we may have compliance issues with regulatory bodies in the course of our operations, which may subject us to administrative proceedings and unfavorable decrees that result in liabilities and cause delays to our property developments. See "Business — Legal Proceedings and Compliance — Legal Proceedings." We may be involved in other proceedings or disputes in the future that may have an adverse effect on our business, financial condition, results of operations or cash flows.

We may be exposed to intellectual property infringement, misappropriation or other claims by third parties and deterioration in our brand image could adversely affect our business.

We believe that we have built an excellent reputation in our markets for the quality of our various product series. We have also placed great importance on the continuous enhancement of our brand name and the increase in our brand recognition. Any negative incident or negative publicity concerning us or our properties may materially and adversely affect our reputation, business, financial condition and results of operations. Brand value, which is based largely on consumer perceptions with a variety of subjective qualities, can be damaged even by isolated business incidents that damage consumers' trust. Consumer demand for our properties and our brand value could diminish significantly if we fail to preserve the quality of our properties or fail to deliver a consistently positive consumer experience, or if we are perceived to act in an unethical or socially irresponsible manner. Any negative publicity and the resulting decrease in brand value, or any failure to establish our brand in provinces and cities in which we currently operate, may have a material adverse effect on our business, financial condition and results of operations.

Our brand strategy also depends on our ability to use, develop and protect our intellectual properties, such as our trademarks. As a result, we could be subject to trademark disputes. The defense and prosecution of intellectual property lawsuits and related legal and administrative proceedings can be both costly and time-consuming and may significantly divert our resources and the time and attention of our management personnel. An adverse ruling in any such litigation or proceedings could subject us to significant liabilities to third parties, require us to seek licenses from third parties and to pay ongoing royalties, or subject us to injunctions prohibiting the use of such name and/or logo.

We may be subject to fines or penalties if we fail to comply with any applicable laws, rules or regulations.

Historically, we experienced certain non-compliance incidents. For example, several our project companies commenced construction for certain of our projects before obtaining construction work permits, several our project companies did not comply with the relevant construction work planning permit when they constructed the relevant projects, our Group did not fully make certain social security insurance and housing provident fund

contributions for their employees, and several other types of non-compliance incidents, including failure to report an accurate tax base and failure to file accurate tax amount, mis-sales, failure to attach identification labels to prepackaged food, sales of food outside the scope of catering service permit, and sub-contracting the construction work without authorization during the construction of our project. We believe these non-compliances did not have a material operational and financial impact on us. There is no assurance that our internal control measures will be effective and there will not be any non-compliance incidents in the future.

In addition, PRC laws, rules or regulations governing our industry have been evolving rapidly, we cannot assure you that we will not be subject to fines or penalties arising from non-compliance incidents if we fail to adapt to the new regulatory regime in a timely manner, or at all, which may have a material adverse effect on our business, financial condition and results of operations.

We may not be able to timely prevent or detect actions by our employees or agents which violate applicable anti-corruption laws and regulations.

Bribery and other misconduct by our employees or agents may be difficult to prevent or to detect on a timely basis, or at all. Although we have put in place relevant internal control measures aimed at preventing our employees and agents from engaging in conduct which would violate applicable anti-corruption laws and regulations, there can be no assurance that we will be able to prevent or detect such misconduct. Such misconduct by our employees or agents could subject us to financial losses and harm our business and operations. In addition to potential financial losses, such misconduct could subject us to third party claims and regulatory investigations. Any of the foregoing could have a material adverse effect on our business, financial condition, results of operations and prospects.

If we fail to implement sufficiently and effectively our risk management and internal control policies and procedures, our business and prospects may be materially and adversely affected.

We continually enhance our risk management and internal control policies and systems as part of a continuous effort to improve our risk management capabilities and enhance our internal controls. However, there can be no assurance that our risk management and internal control policies and procedures will adequately control or protect us against all risks. Some of these risks are unforeseeable or unidentifiable and may be more severe than what we may anticipate. For example, we have entered into several financing agreements which restricted some of our PRC Subsidiaries, including Hong Yang Land Company Limited (弘陽置地(集團)有限公司) (previously known as Nanjing Redsun Real Estate Development Co. Ltd (南京紅太陽房地產開發有限公司)), which holds all of our other PRC Subsidiaries, from making distributions to us due to restrictive covenants contained in such financing agreements. Such restriction may affect our ability to pay dividends to our Shareholders and to service our indebtedness, which could materially and adversely affect our ability to conduct business.

Our risk management capabilities and ability to effectively monitor legal compliance and other risks are restricted by the information, tools, models and technologies available to us. Moreover, our employees will require time to adjust to these policies and procedures and we cannot assure you that our employees will be able to consistently comply with or accurately apply them. If our risk management and internal control policies, procedures and systems fail to be implemented effectively, or if the intended results of such policies,

procedures and systems are not achieved in a timely manner (including our ability to maintain an effective internal control system), our business, financial condition, results of operations and reputation may be materially and adversely affected.

Our business, financial condition, results of operations and prospects may be adversely affected as a result of negative media coverage relating to us or the real estate market in which we operate or intend to operate.

We may be subject to or associated with negative publicity, including those on the Internet, with respect to our corporate affairs and conduct related to our personnel, the real estate market we operate or intend to operate. We may also be subject to negative reports or criticisms by various media. We make no representation as to the appropriateness, accuracy, completeness or reliability of any such information or publication. Nonetheless, any negative coverage, whether or not related to us or our related parties and regardless of truth or merit, may have an impact on our brand and reputation and, consequently, may undermine the confidence of our customers and investors in us, which may in turn materially and adversely affect our business, financial condition, results of operations and prospects.

RISKS RELATING TO INDUSTRY

Our operations are subject to extensive government policies and regulations and we are particularly susceptible to adverse changes in policies relating to the PRC property industry in regions in which we operate.

Our business is subject to extensive governmental regulation and, in particular, we are sensitive to policy changes in the PRC property sector. The PRC Government exerts considerable direct and indirect influence on the growth and development of the PRC property market through industry policies and other economic measures, such as setting interest rates, controlling the supply of credit by changing bank reserve ratios and implementing lending restrictions, increasing tax and duties on property transfers, imposing restrictions on foreign investment and currency exchange and requiring the real estate developers to deleverage. Since 2004, the PRC and local governments introduced a series of regulations and policies designed to generally control the growth of the property market, including, among others:

- strictly enforcing the idle land-related laws and regulations;
- restricting the grant or extension of revolving credit facilities to property developers that hold a large amount of idle land and vacant commodity properties;
- prohibiting commercial banks from lending funds to real estate developers with an internal capital ratio lower than certain prescribed percentage;
- restricting PRC commercial banks from granting loans to property developers for the purpose of paying land grant premiums;
- controlling the supply of residential property sales by adopting lots drawing policy in certain cities such as Nanjing;
- limiting the maximum amount of monthly mortgage and the maximum amount of total monthly debt service payments of an individual borrower;

- imposing a business tax levy on the sales proceeds for second-hand transfers subject to the length of holding period and type of properties;
- raising the minimum percentage of down payment of the purchase price of the residential property of a family;
- restricting purchasers from acquiring second and more residential properties and imposing property purchase restrictions on non-local residents who cannot provide any proof of local tax or social security payments for more than a specified time period in certain cities; and
- restricting the availability of individual housing loans in the property market to individuals and their family members with more than one residential property, and raising interest rates of such loans.

In the second half of 2020, media reported that the MOHURD and PBOC have held a joint meeting to communicate with key real estate enterprises and other relevant governmental departments. According to media reports, in the meeting, it is announced that the MOHURD and PBOC, jointly with other relevant governmental departments, have formulated rules for fund monitoring and financing administration of key real estate enterprises to establish a more market-oriented, rule-based and transparent administration over the financing by real estate enterprises. Such rules are yet to be released in public.

On December 31, 2020, PBOC and CBRC jointly promulgated the Notice on Establishing a Centralization Management System for Real Estate Loans of Banking Financial Institutions (《關於建立銀行業金融機構房地產貸款集中度管理制度的通知》), which put forward certain requirements for the proportion of real estate loans and the personal housing loans to all RMB loans in banking financial institutions (excluding overseas branches). These financial institutions, based on the statistical data on December 31, 2020, will be given a business adjustment transition period of 2 or 4 years, which depends on whether they exceed 2% of the legal proportion, to legitimate their loan structures. PBOC and CBRC shall take measures, such as additional capital requirements and weight adjustments of risk of real estate assets for these banking financial institutions that fail to implement proportional rectification within certain period.

These and other measures, including additional requirements for pre-sales and restricting the use of funds raised by pre-sales, made the properties we developed more costly, unattractive or even unavailable to certain of our customers. In addition, since January 2010, policies implemented by the PRC Government with regard to bank loans and trust financing arrangements for property development projects have had, and may continue to have, a dampening effect on the property markets in which we operate. These measures resulted in downward pressure on the PRC property market starting in the second half of 2011 and reduced transaction volumes in the first quarter of 2012.

Following the market fluctuations in the face of temporary easing of some restrictions by local governments in the second and third quarters of 2012, the property price and transaction volume increased in the last quarter of 2012 and the first quarter of 2013. On February 26, 2013, the General Office of the State Council announced the Notice on Further Regulation of the Real Estate Market (《國務院辦公廳關於繼續做好房地產市場調控工作的通知》). According to such notice, local governments shall increase the supply of housing properties and lands, and set price control targets in cities with rapidly increasing property prices. In addition, the notice also requires the local government to strictly implement existing purchase restrictions and differentiated credit policies with regard to the

down payment ratios and interest rates for mortgages for second and more residential property. If the property price increases too quickly, the local branch of the PBOC may further increase interest rates and down payment ratio for mortgages for second and more properties. For cities with existing purchase restrictions, the city municipals shall impose further restrictions. For cities with no purchase restrictions, the provincial governments must require these cities to promptly adopt purchase restrictions. The tax, building and construction authorities are required to coordinate to ensure that the 20% individual income tax on the difference between the sales proceeds and the original purchase price for the sale of second-hand properties is strictly implemented. These policies aim to serve to restrain the trend of excessive increase in housing prices. At the end of 2013, a round of policies aiming at promoting affordable housing and discouraging speculative investments in residential properties were announced in a number of large cities in China, including Beijing, Shanghai, Guangzhou, Shenzhen, Zhengzhou, Nanchang, Fuzhou, Xiamen, Nanjing and Hangzhou.

The PRC Government has eased certain restrictive measures starting in the third quarter of 2014 to foster the growth of the residential property market in China, encourage transactions and reduce idle housing inventories. However, such measures have resulted signs of overheating in the property markets in first- and certain second-tier cities. As a response, in certain first- and second-tier cities including Shanghai, Shenzhen, and Suzhou, local governments have again enhanced restrictive measures such as raising the minimum percentage of down payment of the purchase price of the second and more residential property of a family, requiring longer social insurance records in such cities for citizens whose household registration were not in such cities, and restriction on the percentage of price increases by real estate developers during a year. In 2015, the PRC Government raised percentage of down payment and changed the calculation base of business tax concerning transfer of individual housing, pursuant to which, where an individual sells a property purchased within two years, business tax shall be levied on the full amount of the sales income; where an individual sells a non-ordinary property that was purchased more than two years ago, business tax shall be levied on the difference between the sales income and the original purchase price of the house; the sale of an ordinary residential property purchased by an individual more than two years ago is not subject to such business tax. In 2016, such tax policies have been further refined.

On February 13, 2017, the Asset Management Association of China issued Circular 4 of Regulation for Registration Management of Private Asset Management Plan by Securities and Future Institutions (the “**Circular 4**”). The Circular 4 provides that any private equity and asset management plan that is adopted to make either direct or indirect investment into any ordinary residential property project located in certain PRC cities where the property price rises too fast shall not be filed for a record temporarily. Such cities currently include 16 major cities in the PRC, such as Shanghai, Hefei, Nanjing, Suzhou, Tianjin, Fuzhou, Wuhan and Zhengzhou, and the list of such cities may be updated from time to time in the future according to the relevant regulations of the Ministry of Housing and Urban-Rural Development of the PRC. According to the Circular 4, a private equity and asset management plan shall neither be used to finance any real estate developer, by means of bank entrusted loans, trust plans, or usufruct of transferee assets, for the purpose of paying the price of land grant or supplementing the working capital, nor be used to directly or indirectly facilitate any violation or illegality of various institutions’ granting of loans for down payments.

Local governments in Nanjing and certain other cities have introduced further policies to restrain property purchases for specialization purposes and prevent property prices from rising too quickly. Such policies include raising the minimum percentage of down payment of the purchase price, setting the minimum interest rate for personal mortgage loans, adopting lots drawing policy for the sales of residential properties, setting a credit cap for housing provident fund loans and strictly restricting purchasers from acquiring second and more residential property and selling properties owned for less than five years. On April 1, 2017, the Ministry of Land and Resources and Ministry of Housing and Urban-Rural Development issued the Circular of the Ministry of Housing and Urban-Rural Development and the Ministry of Land and Resources on Tightening the Management and Control over Intermediate Residential Properties and Land Supply (《住房城鄉建設部、國土資源部關於加強近期住房及用地供應管理和調控有關工作的通知》). To maintain a housing supply-demand balance, cities facing serious demand over supply and overheating market shall increase the supply of housing land, especially for ordinary commercial houses; and cities with excessive housing supply shall reduce or suspend the land supply for housing. All the local governments shall build inspection systems to monitor the source of funds for land acquisition to ensure that the real estate developers use their own legal funds to purchase lands. These measures reduced the transaction volumes in certain major cities in the PRC in the second quarter of 2017.

There is no assurance that the PRC Government will relax existing restrictive measures, impose and enhance restrictive measures, or to impose other restrictive policies, regulations or measures in the future. The existing and other future restrictive measures may limit our access to capital, reduce market demand for our products and increase our finance costs, and any easing measures introduced may also not be sufficient. If we fail to adapt our operations to new policies, regulations and measures that may come into effect from time to time with respect to the real property industry, or such policy changes negatively impact our business, our financial condition, results of operations and prospects may be materially and adversely affected.

We face intense competition, which may materially and adversely affect our business, results of operation and financial condition.

The property market in Nanjing and other parts of the Yangtze River Delta has been highly competitive in recent years. Property developers from the PRC and overseas have entered the property development markets in the region where we have operations and those into which we may enter in the future. Our competitors include overseas listed foreign developers and top-tier domestic developers and they may have better access to resources, in particular financial resources than us. Competition among property developers may cause an increase in land costs and raw material costs, shortages in quality construction contractors, temporary local market surpluses in property supply leading to property price declines, and higher costs to attract or retain talented employees, thereby affecting our profitability. If we fail to compete effectively, our financial condition, results of operations and prospects may be materially and adversely affected.

Our investments in the PRC are subject to the PRC Government's control over foreign investment in the property sector.

The PRC Government has imposed restrictions on foreign investment in the property sector to curtail the perceived over-heating of the property sector by, among other things, increasing the capital and other requirements for establishing foreign-invested real estate enterprises, tightening foreign exchange control on cross-border investment and financing activities and imposing restrictions on purchases of properties in China by foreign persons.

Restrictions imposed by the PRC Government on foreign investment in the property sector may affect our ability to make further investments in our PRC Subsidiaries and as a result may limit our business growth and have a material and adverse effect on our business, results of operations and financial condition.

RISKS RELATING TO CONDUCTING BUSINESS IN THE PRC

The PRC economic, political and social conditions as well as government policies could affect our business.

The economy of the PRC differs from the economies of most developed countries in many respects, including but not limited to structure, level of government involvement, level of development, growth rate, control of foreign exchange, and allocation of resources.

While the PRC economy has grown significantly in the past 40 years, growth has been uneven, both geographically and among the various sectors of the economy. The PRC Government has implemented various measures to encourage economic growth and guide the allocation of resources. Some of these measures benefit the overall PRC economy, but may also negatively affect our operations. For example, our financial position and results of operations may be adversely affected by the PRC Government's control over capital investment or any changes in tax regulations or foreign exchange controls that are applicable to us.

The PRC economy has been transitioning from a planned economy to a market oriented economy. For the past three decades, the PRC Government has implemented economic reform measures emphasizing the utilization of market forces in the development of the PRC economy. Many of the economic reforms carried out by the PRC Government are unprecedented or experimental and are expected to be refined and improved over time. The PRC economy has grown significantly in recent decades, but there can be no assurance that this growth will continue or continue at the same pace. In addition, demand for our services and our business, financial position and results of operations may be adversely affected by (i) political instability or changes in social conditions in the PRC, (ii) changes in laws, regulations or policies or the interpretation of laws, regulations or policies, (iii) measures which may be introduced to control inflation or deflation, (iv) changes in the rate or method of taxation, and (v) imposition of additional restrictions on currency conversion and remittances abroad.

The PRC legal system has inherent uncertainties that could limit the legal protection available to you.

Our business is conducted in mainland China and is governed by PRC laws and regulations. All of our operating Subsidiaries are located in China and are subject to PRC laws and regulations. The PRC legal system is based on written statutes. Prior court decisions are not legally binding and can only be cited as reference. Additionally, PRC written statutes are often principle-oriented and require detailed interpretations by the enforcement bodies in applying and enforcing such laws. Since 1979, the PRC Government has promulgated laws and regulations in relation to economic matters such as foreign investment, corporate organization and governance, commerce, taxation and trade, with a view to developing a comprehensive system of commercial law. However, as these laws and regulations are continually evolving in response to changing economic and other conditions, and because of the limited volume of published cases and their non-binding nature, any particular interpretation of PRC laws and regulations may not be definitive. In addition, the PRC legal system is based in part on government policies and internal rules,

some of which are not published on a timely basis, if at all, and some of which may have a retroactive effect. The PRC may not accord equivalent rights, or protection for such rights, to those that you might expect in countries with more sophisticated real estate laws and regulations.

Furthermore, the PRC is geographically large and divided into various provinces and municipalities. As such, when PRC laws, rules, regulations and policies apply in different parts in the PRC, there may be varying applications and interpretations. Legislation or regulations, particularly for local applications, may be enacted without sufficient prior notice or announcement to the public. Accordingly, we may not be aware of the existence of new legislation or regulations. There is at present no integrated system in the PRC from which information can be obtained in respect of legal actions, arbitrations or administrative actions. Even if an individual court-by-court search were performed, certain courts may refuse to make their documentation available for inspection. As a result, the legal protections available to you under the PRC legal system may be limited.

The global financial markets have experienced significant slowdown and volatility during the past few years and any continued deterioration may adversely affect the PRC property market and our business operations.

The economic slowdown and turmoil in the global financial markets starting in the second half of 2008 have resulted in a general tightening of credit, an increased level of commercial and consumer delinquencies, lack of consumer confidence and increased market volatility. The global economic slowdown has also affected the PRC property market by, among other things, reducing the demand for commercial and residential properties resulting in the reduction of property prices; adversely impacting the purchasing power of potential property purchasers, which may further impact the general demand for properties and cause a further erosion of their selling prices; and negatively impacting the ability of property developers and potential property purchasers to obtain financing.

More recently, global market and economic conditions were adversely affected by the credit crisis in Europe, the credit rating downgrade of the United States, the trade war between the United States and the PRC and heightened market volatility in major stock markets. Starting in April 2018, the United States imposed tariffs on various categories of imports from China, and the PRC responded with similarly sized tariffs on United States' products. The rhetoric surrounding the trade war continues to escalate and neither side has been willing to significantly progress stalled trade negotiations. The amicable resolution of such a trade war remains elusive, and the lasting impacts any trade war may have on the PRC economy and the industries Group's clients operate in remain uncertain.

In June 2016, the United Kingdom held a remain-or-leave referendum on its membership within the European Union, the result of which favored the exit of the United Kingdom from the European Union ("Brexit"). On 29 March 2017, the United Kingdom triggered Article 50 of the European Union's Lisbon Treaty, opening a two-year window, which has since been extended to 31 October 2019, for negotiations that will determine the future terms of the United Kingdom's relationship with the European Union, as well as whether the United Kingdom will be able to continue to benefit from the European Union's free trade and similar agreements. The United Kingdom is currently scheduled to leave the European Union on January 31, 2020, nevertheless, there is a great deal of uncertainty as to whether that will happen, and if so, how. There is no assurance as to whether the United Kingdom will (i) leave the European Union on January 31, 2020 without a withdrawal agreement in place; (ii) leave the European Union on January 31, 2020 with a withdrawal agreement in place, which provides for a transition period (likely

until the end of 2020, but possibly longer) during which time European Union law will continue to apply in the UK; or (iii) halt/cancel Brexit altogether. Given the lack of precedent, it is unclear how Brexit would affect the fiscal, monetary and regulatory landscape within the United Kingdom, the European Union and globally. This event has resulted in a downgrade of the credit ratings of the United Kingdom and the uncertainty before, during and after the period of negotiation may also create a negative economic impact and increase volatility in global markets. There is also concern over similar movements in other European Union member countries, such as Italy. The outlook for the world economy and financial markets remains uncertain.

In Asia and other emerging markets, some countries are expecting increasing inflationary pressure as a consequence of liberal monetary policy or excessive foreign fund inflow, or both. In the Middle East, Eastern Europe and Africa, political unrest in various countries has resulted in economic instability and uncertainty. To control inflation in the past, the PRC Government has imposed control on bank credits, limits on loans for fixed assets and restrictions on state bank lending. Such austerity measures can lead to a slowdown in the economic growth. The ongoing trade war between the United States and the PRC is highly likely to affect the global economy and in particular, the PRC economy. The rhetoric surrounding the trade war continues to escalate. The amicable resolution of such ongoing trade war between the United States and China remains elusive, subject to continuous tension and could negatively impact the economic conditions of China, as well as other parts of the world. The PRC economy grew at a slower pace from 2016 with a yearly real GDP growth of 6.7%. It further decreased to 6.6% in 2018, which was the slowest annual GDP growth rate recorded since 1990. Recently, there have been growing concerns about the volatility of the Chinese economy and the adjustments of Chinese fiscal policies. The Chinese government has taken monetary and regulatory measures to stabilize the market, including measures affecting market liquidity, new equity offering pipelines and trading activities of certain market participants. These and other issues resulting from the global economic slowdown and financial market turmoil have adversely impacted, and may continue to adversely impact, home owners and potential property purchasers, which may lead to a decline in the general demand for our properties and erosion of their selling prices. Any further tightening of liquidity in the global financial markets may in the future negatively affect our liquidity. If the global economic and financial market slowdown and volatility continue or become more severe than currently anticipated, or if the PRC economy and financial market continue to slow down, our business, financial condition, results of operations and prospects could be materially and adversely affected.

Fluctuations in the value of the Renminbi and governmental control of currency conversion may limit our ability to use capital effectively.

Substantially all of our revenue and expenditures are denominated in Renminbi, while the net proceeds from the offering of the Notes will be in U.S. Dollars and any dividends we pay on our shares will be in Hong Kong Dollars. Fluctuations in the exchange rates between the Renminbi and the Hong Kong Dollar or U.S. Dollar will affect the relative purchasing power in Renminbi terms. Fluctuations in the exchange rates may also cause us to incur foreign exchange losses and affect the relative value of any dividend distributed by us. Currently, we have not entered into any hedging transactions to mitigate our exposure to foreign exchange risk.

Movements in Renminbi exchange rates are affected by, among other things, changes in political and economic conditions and China's foreign exchange regime and policy. PBOC regularly intervenes in the foreign exchange market to limit fluctuations in Renminbi

exchange rates and achieve certain exchange rate targets and policy goals. In August 2015, PBOC changed the way it calculates the mid-point price of Renminbi against the U.S. dollar, requiring the market-makers who submit for reference rates to consider the previous day's closing spot rate, foreign exchange demand and supply as well as changes in major currency rates. The value of the Renminbi depreciated against the U.S. Dollar approximately 4.4% in 2015 and 6.7% in 2016, but appreciated against the U.S. Dollar 5.8% in 2017. We cannot assure you that Renminbi will not appreciate or depreciate significantly in value against Hong Kong Dollar or U.S. Dollar in the future.

In addition, conversion and remittance of foreign currencies are subject to PRC foreign exchange regulations. It cannot be guaranteed that we will have sufficient foreign exchange to meet our foreign exchange needs. Under China's current foreign exchange control system, foreign exchange transactions under the current account conducted by us, including the payment of dividends, do not require advance approval from the SAFE. But we are required to present relevant documentary evidence of such transactions and conduct such transactions at designated foreign exchange banks within China that have the licenses to carry out foreign exchange businesses. Foreign exchange transactions under the capital account, however, must be directly reviewed and handled by banks in accordance with the Circular of the State Administration of Foreign Exchange on Further Simplifying and Improving the Direct Investment-related Foreign Exchange Administration Policies (《關於進一步簡化和改進直接投資外匯管理政策的通知》) (the “**Circular 13**”), and the SAFE and its branches must perform indirect regulation over the foreign exchange registration via banks. The PRC Government may also at its discretion restrict access in the future to foreign currencies for current account transactions. Any insufficiency of foreign exchange may restrict our ability to obtain adequate foreign exchange for dividend payments to shareholders or satisfy any other foreign exchange obligation. If we fail to convert Renminbi into any foreign exchange for any of the above purposes, our potential offshore capital expenditure plans and even our business may be materially and adversely affected.

The PRC Government has implemented restrictions on the ability of PRC property developers to obtain offshore financing which could affect our ability to deploy the funds raised outside of China in our business in the PRC.

On July 10, 2007, SAFE issued the Circular Regarding the Publication of the List of the First Batch of Foreign-Invested Property Development Projects that Have Filed with MOFCOM (《關於下發第一批通過商務部備案的外商投資房地產項目名單的通知》) (“**Circular No. 130**”). Circular No. 130 was then replaced by the Notice of the SAFE on Issuing the Provisions on the Foreign Exchange Administration of Domestic Direct Investment of Foreign Investors and the Supporting Documents (關於印發《外國投資者境內直接投資外匯管理規定》及配套措施文件的通知) (“**Notice No. 21**”) on May 11, 2013. On April 28, 2013, SAFE issued the Measures for the Administration of Foreign Debt Registration (《外債登記管理辦法》) (“**Notice No. 19**”). Notice No. 21 and Notice No. 19 stipulate, among other things, (i) that SAFE will no longer process foreign debt registrations and applications for the purchase of foreign exchange submitted by foreign-invested real estate enterprises (including newly established enterprises and enterprises with increased registered capital) which obtained approval certificates from and registered with MOFCOM on or after June 1, 2007; and (ii) that SAFE will no longer process foreign exchange registrations (or amendments of such registrations) or applications for the sale and purchase of foreign exchange submitted by foreign-invested real estate enterprises which obtained approval certificates from the commerce departments of local governments but which had not registered with MOFCOM. These regulations effectively prohibit our ability to fund our PRC Subsidiaries by way of shareholder loans.

In addition, equity contributions by us and our non-PRC Subsidiaries to our PRC Subsidiaries will require approvals from the commerce department of the local government and registration with the MOFCOM, which may take considerable time and delay the actual contribution to the PRC Subsidiaries. This may adversely affect the financial condition of the PRC Subsidiaries and may cause delays to the development undertaken by such PRC Subsidiaries. There can be no assurance that we have obtained or will obtain in a timely manner all relevant necessary approval certificates or registration for all our operating Subsidiaries in the PRC to comply with this regulation.

Our income tax obligations may increase and dividends from certain PRC subsidiaries may be subject to withholding tax under PRC tax laws.

Regulations on the Implementation of the Enterprise Income Tax Law of the PRC (the “EIT Law”, 《中華人民共和國企業所得稅法實施條例》), effective on January 1, 2008 and amended on April 23, 2019, provide that any dividend payment by PRC companies to foreign enterprise investors will be subject to a withholding tax at a rate of 10%. Pursuant to the Arrangement between Mainland China and Hong Kong for the Avoidance of Double Taxation and Prevention of Fiscal Evasion with respect to Taxes on Income (《內地和香港特別行政區關於對所得避免雙重徵稅和防止偷漏稅的安排》) signed on August 21, 2006, a company incorporated in Hong Kong will be subject to withholding income tax at a rate of 5% on dividends it receives from its PRC subsidiaries if it holds a 25% or more interest in that particular PRC subsidiary at the time of the distribution, or 10% if it holds less than a 25% interest in that subsidiary. However, according to a Circular of the SAT, tax treaty benefits will be denied to “conduit” or shell companies without business substance. Therefore, it is unclear whether dividend payments made by our PRC subsidiaries to us through our Hong Kong subsidiary, will enjoy the 5% PRC tax rate. Currently, we pay 10% of PRC tax on the dividends payments while in the previous years we paid 5%. We are in the process of applying for the certificate of residence status in Hong Kong from the Hong Kong Inland Revenue Department. We will be able to enjoy the 5% rate in the next three years if we can get the approval from the Hong Kong Inland Revenue Department. We conduct a substantial portion of our operations through our subsidiaries located in the PRC. Dividend payments made by PRC subsidiaries to us may not be able to enjoy the 5% PRC tax rate. As a result, our financial conditions may be materially and adversely impacted.

The Issuer may be deemed a PRC resident enterprise under the EIT Law, which may subject it to PRC taxation on its worldwide income, require the withholding of taxes on interest paid on the Notes and require holders of the Notes to pay taxes on gains realized from the sale or other disposition of the Notes.

Under the EIT Law and the related regulations, enterprises organized under the laws of jurisdictions outside the PRC with their “de facto management bodies” located within the PRC may be considered PRC “resident enterprises” and subject to 25% PRC income tax on their worldwide income. The implementation rules to the PRC Enterprise Income Tax Laws define the term “de facto management body” as a “body that has material and overall management and control over the manufacturing and business operations, personnel and human resources, finances and treasury.” As of the date of this offering memorandum, the Issuer did not receive notice that it should be treated as a PRC tax resident from PRC tax authorities. However, there is uncertainty as to whether the Issuer will be treated as PRC “resident enterprises” for the purpose of the EIT Law. If the Issuer is treated as a PRC “resident enterprise,” PRC income tax at a rate of 10% would be required to be withheld from interest payments to holders that are non-PRC resident enterprises, if such interest is

treated as income from sources within the PRC. The PRC Individual Income Tax Law also imposes a withholding tax at the rate of 20% on interest from a PRC source paid to non-PRC individual holders. In addition, any gain realized on the sale or other disposition of the Notes by such holders would be subject to PRC income tax at the rate of 10% for non-resident enterprise holders or 20% for non-resident individual holders if such gain is regarded as income derived from sources within the PRC. Any PRC tax might be reduced under applicable tax treaties. However, it is unclear whether, if the Issuer is considered a PRC resident enterprise, non-PRC holders might be able to claim the benefit of income tax treaties or agreements entered into between PRC and their countries. If the Issuer is required to withhold PRC tax from interest payments on the Notes, the Issuer will be required, subject to certain exceptions, to pay such additional amounts as will result in receipt by the holders of the Notes of such amounts as would have been received had no such withholding been required. The requirement to pay additional amounts will increase the cost of servicing interest payments on the Notes and could have a material adverse effect on our financial condition.

Failure by our Shareholders or beneficial owners who are PRC residents to make any required applications and filings pursuant to regulations relating to offshore investment activities by PRC residents may prevent us from being able to distribute profits and could expose us and our PRC resident Shareholders to liability under the PRC laws.

The Circular on Relevant Issues concerning Foreign Exchange Administration of Overseas Investment and Financing and Return Investments Conducted by Domestic Residents through Overseas Special Purpose Vehicles (《關於境內居民通過特殊目的公司境外投融資及返程投資外匯管理有關問題的通知》) (the “SAFE Circular No. 37”), which was promulgated by SAFE and became effective on July 4, 2014, requires a PRC individual resident (“**PRC Resident**”) to register with a local SAFE branch before he or she contributes assets or equity interests in an overseas special purpose vehicle (the “**Offshore SPV**”) that is directly established or controlled by the PRC Resident for the purpose of conducting investment or financing. Pursuant to the Circular 13, the aforesaid registration shall be reviewed and handled by the banks, and the SAFE and its branches shall perform indirect regulation over the foreign exchange registration via banks. Following the initial registration, the PRC Resident is also required to make registration for any major change in respect of the Offshore SPV, including, among other things, any major change of a PRC Resident shareholder, name or term of operation of the Offshore SPV, or any increase or reduction of the Offshore SPV’s registered capital, share transfer or swap, merger or division. We cannot assure you that all of our shareholders who are PRC Resident will file all applicable registrations or update previously filed registrations as required by these SAFE regulations. Failure to comply with the registration procedures of the SAFE Circular No. 37 may result in penalties and sanctions, including the imposition of restrictions on the ability of the Offshore SPV’s Chinese subsidiary to distribute dividends to its overseas parent.

Our investment properties are located on land that is under long-term land use rights granted by the PRC Government. There is uncertainty about the amount of the land grant premium that we will have to pay and additional conditions that may be imposed if we decide to seek an extension of the land use rights for our investment properties.

Our investment properties are held by us under land use rights granted by the PRC Government. Under PRC laws, the maximum term of the land use rights ranges from 40 years to 70 years depending on the land use purpose. Upon expiration, the land use rights will revert to the PRC Government unless the holder of the land use rights applies for and is granted an extension of the term of the land use rights.

These land use rights do not have automatic rights of renewal and holders of land use rights are required to apply for extensions of the land use rights one year prior to the expiration of their terms. If an application for extension is granted (and such grant would usually be given by the PRC Government unless the land in issue is to be taken back for the purpose of public interests), the holder of the land use rights will be required to, among other things, pay a land grant premium. If no application is made, or if such application is not granted, the properties under the land use rights will be reverted to the PRC Government without any compensation. As none of the land use rights granted by the PRC Government which are similar to those granted for our investment properties has, as of the Latest Practicable Date, run its full term, there is no precedent to provide an indication of the amount of the land grant premium which we will have to pay and any additional conditions which may be imposed if we decide to seek an extension of the land use rights for our investment properties upon the expiry thereof.

In certain circumstances, the PRC Government may, where it considers it to be in the public interest, terminate land use rights before the expiration of the term. In addition, the PRC Government has the right to terminate long-term land use rights and expropriate the land in the event the grantee fails to observe or perform certain terms and conditions pursuant to the land use rights grant contracts. If the PRC Government charges a high land grant premium, imposes additional conditions, or does not grant an extension of the term of the land use rights of any of our investment properties, our operations could be disrupted, and our business, financial condition and results of operations could be materially and adversely affected.

Natural disasters, acts of war, occurrence of epidemics, and other disasters could affect our business and the national and regional economies in the PRC.

Our business is subject to general economic and social conditions in the PRC. Natural disasters, epidemics such as the novel coronavirus named COVID-19 by the World Health Organisation, the human swine flu, also known as Influenza A (H1N1), H5N1 avian flu or severe acute respiratory syndrome (“SARS”), the Ebola virus, and other natural disasters which are beyond our control may adversely affect the economy, infrastructure and livelihood of the people in the PRC. Some regions in the PRC, including certain cities where we operate, are under the threat of flood, earthquake, fire, drought or epidemics. For instance, a serious earthquake and its successive aftershocks hit Sichuan province in May 2008, resulting in tremendous loss of life and injury, as well as destruction of assets in the region. Our business, financial position and results of operations may be materially and adversely affected if natural disasters or other such events occur.

Our ability to adequately staff, manage and/or maintain daily operations may be adversely affected if the outbreak continues or further deteriorates. Given the uncertainties as to the development of the outbreak at the moment, it is difficult to predict how long these

conditions will exist and the extent to which we may be affected. Furthermore, our properties or facilities may be required to be suspended or quarantined, if there were clusters for the COVID-19 cases in our properties or facilities or governmental ordinance to contain the outbreaks. Any of these circumstances will result in material adverse impact on our business, financial condition, results of operations, performance and prospects. Since March 2020, China and some other countries gradually lifted stay-at-home orders and began to resume work and school at varying levels and scopes. However, there can be no assurance that this recovery momentum will continue in the future.

Furthermore, the PRC reported a number of cases of SARS in 2003. Since its outbreak in 2004, there have been reports on occurrences of avian flu in various parts of the PRC, including several confirmed human cases and deaths. Past occurrences of epidemics, depending on their scale, have caused different degrees of damage to the national and local economies in China. Another public health crisis in China triggered by a recurrence of SARS or an outbreak of any other epidemics, including, for example, the ongoing COVID-19, especially in the cities where we have operations, may result in material disruptions to our property development and sales and the operation of commercial properties. In addition, the outbreak of communicable diseases, such as the COVID-19 outbreak on a global scale, may affect investment sentiment and result in sporadic volatility in global capital markets or adversely affect China and other economies. Such outbreak has resulted in restrictions on travel and public transportation and prolonged closures of workplaces, which may have a material adverse effect on the global economy. Any material change in the financial markets, the PRC economy or regional economies as a result of these events or developments may materially and adversely affect our business, financial condition and results of operations.

Our hotel and shopping mall operation businesses may be adversely affected by the outbreak of COVID-19 and other epidemics.

Our hotel and shopping mall operation businesses may be adversely affected by the outbreak of COVID-19 and other epidemics, such as the avian influenza A (H5N1 and H7N9) virus or the influenza A (H1N1) virus.

The outbreak of coronavirus, other epidemics or other widespread communicable disease in the places where we operate may lead the World Health Organisation and certain governments to issue travel advisories against non-essential travel to affected regions, impose travel restrictions or impose quarantines. Such actions could have a material and adverse effect on the number of international visitor arrivals to the PRC and the corresponding demand for hotel rooms, catering and restaurant facilities. The number of customers going to the shopping mall may significantly reduce due to the quarantines imposed by the government. In addition, the outbreak of coronavirus, other epidemics or other widespread communicable disease may result in the temporary closure of hotels, restaurants and/or shopping malls, giving rise to a material disruption to our businesses.

RISKS RELATING TO THE NOTES, THE SUBSIDIARY GUARANTEES AND THE JV SUBSIDIARY GUARANTEES

We are a holding company and payments with respect to the Notes are structurally subordinated to liabilities, contingent liabilities and obligations of our subsidiaries.

We are a holding company with no material operations. We conduct our operations through our PRC subsidiaries. The Notes will not be guaranteed by any current or future PRC subsidiaries or by certain other Non-Guarantor Subsidiaries. Our primary assets are ownership interests in our PRC subsidiaries and other Non-Guarantor Subsidiaries. The Subsidiary Guarantors do not, and the JV Subsidiary Guarantors (if any) may not, have material operations. Accordingly, our ability to pay principal and interest on the Notes and the ability of the Subsidiary Guarantors and the JV Subsidiary Guarantors (if any) to satisfy their obligations under the Subsidiary Guarantees or the JV Subsidiary Guarantees (as the case may be) will depend upon our receipt of principal and interest payments on the intercompany loans and distributions of dividends from our PRC subsidiaries.

Creditors, including trade creditors of our Non-Guarantor Subsidiaries and any holders of preferred shares in such entities, would have a claim on such subsidiaries' assets that would be prior to the claims of holders of the Notes. As a result, our payment obligations under the Notes will be effectively subordinated to all existing and future obligations of such subsidiaries, and all claims of creditors of our Non-Guarantor Subsidiaries will have priority as to the assets of such entities over our claims and those of our creditors, including holders of the Notes. As of June 30, 2020, our Non-Guarantor Subsidiaries had total outstanding indebtedness of approximately RMB20,059.5 million (US\$2,839.2 million) and capital commitments and contingent liabilities arising from guarantees of approximately RMB9,954.1 million (US\$1,408.9 million) and RMB17,927.3 million (US\$2,537.4 million), respectively. See the sections entitled "Description of Other Material Indebtedness." and "Recent Developments" for details and the developments subsequent to December 31, 2019. The Notes and the Indenture permit us, the Subsidiary Guarantors, the JV Subsidiary Guarantor (if any) and our Non-Guarantor Subsidiaries to incur additional indebtedness and issue additional guarantees, subject to certain limitations. The Notes and the Indenture do not restrict the ability of our subsidiaries to issue certain categories of guarantee in the ordinary course of business. In addition, our secured creditors or those of any Subsidiary Guarantor or JV Subsidiary Guarantor (if any) would have priority as to our assets or the assets of such Subsidiary Guarantor or JV Subsidiary Guarantor (if any) over claims of holders of the Notes.

Under the terms of the Notes, a Subsidiary Guarantee required to be provided by a subsidiary of the Company under the terms of the Notes may be replaced by a limited-recourse guarantee, or JV Subsidiary Guarantee, following the sale or issuance to, or a purchase from, a third party of an equity interest in such subsidiary or its direct or indirect majority shareholders (subject to the satisfaction of certain conditions). Recovery under the JV Subsidiary Guarantees provided by a JV Subsidiary Guarantor and its shareholders and subsidiaries are limited to an amount equal to our proportional interest in the issued share capital of such JV Subsidiary Guarantor, multiplied by the fair market value of the total assets in such JV Subsidiary Guarantor and its subsidiaries, on a consolidated basis, as of the date of the last fiscal year end of the Company. As a result, the amount that may be recovered by the Trustee pursuant to a JV Subsidiary Guarantee (compared to a Subsidiary Guarantee) is reduced, which in turn may affect your ability to recover any amounts due under the Notes.

Our payments with respect to the Notes is structurally subordinated to liabilities, contingent liabilities and obligations of our Non-Guarantor Subsidiaries.

Creditors, including trade creditors of our Non-Guarantor Subsidiaries, would have a claim on such entities' assets that would be prior to the claims of the holders of the Notes. As a result, all claims of creditors of our Non-Guarantor Subsidiaries will have priority as to the assets of such entities over our claims and those of our creditors, including holders of the Notes. In addition, our secured creditors or those of any of our subsidiaries would have priority as to our assets or the assets of such subsidiary securing the related obligations over claims of holders of the Notes.

As of June 30, 2020, our Non-Guarantor Subsidiaries had unsubordinated indebtedness in the amount of RMB20,059.5 million (US\$2,839.2 million). The Notes and the Indenture permit us and our Non-Guarantor Subsidiaries to incur additional indebtedness and issue additional guarantees, subject to certain limitations.

Our subsidiaries, including some of our major operating subsidiaries, are subject to restrictions on the payment of dividends and the repayment of intercompany loans or advances to us and our subsidiaries.

As a holding company, we depend, and will depend in the future, on the receipt of dividends and the interest or principal payments on intercompany loans or advances from our subsidiaries, including our PRC subsidiaries, to satisfy our obligations, including our obligations under the Notes. The ability of our subsidiaries to pay dividends and make payments on intercompany loans or advances to their shareholders, including us, is subject to, among other things, distributable earnings, cash flow conditions, restrictions contained in the articles of association of our subsidiaries, restrictions contained in relevant debt instruments, and applicable laws. These restrictions could reduce the amounts that we receive from our subsidiaries, which would restrict our ability to satisfy our obligations under the Notes. Further, certain loan agreements in relation to bank loans entered into by our PRC subsidiaries from PRC lender banks may contain provisions that restrict or prohibit the payment or declaration of dividends or distributions. For instance, some of the loan agreements executed by our subsidiaries, including Hong Yang Land Company Limited (弘陽置地(集團)有限公司) and Ju Rong Zi Jin Real Estate Development Co., Ltd. (句容紫金房地產開發有限公司), with certain commercial banks restrict such subsidiary from paying dividends to its shareholders. Hong Yang Land Company Limited (弘陽置地(集團)有限公司) (previously known as Nanjing Redsun Real Estate Development Co. Ltd (南京紅太陽房地產開發有限公司)) is our subsidiary that holds all of our other PRC Subsidiaries and is restricted from making any dividend or distribution to us.

In addition, if any of our subsidiaries raises capital by issuing equity securities to third parties, dividends declared and paid with respect to such equity securities would not be available to us to make payments on the Notes.

PRC laws and regulations permit payment of dividends only out of accumulated net profits as determined in accordance with PRC accounting standards and regulations and such profits differ from profits determined in accordance with IFRS in certain significant respects, including the use of different bases of recognition of turnover and expenses. Our PRC subsidiaries are also required to set aside a portion of their after-tax net profits as statutory reserves according to PRC accounting standards and regulations to fund certain reserve funds that are not distributable as cash dividends by the board of directors. In

practice, our PRC subsidiaries may pay dividends once a year. As a result of such limitations, there could be timing limitations on payments from our PRC subsidiaries to meet payments required by the Notes, and there could be restrictions on payments required to pay off the Notes at maturity or as required for any early redemption.

Furthermore, in practice, the market interest rate that our PRC subsidiaries can pay with respect to offshore loans generally may not exceed comparable interest rates in the international finance markets. Our PRC subsidiaries are also required to pay a 10% (or 7% if the interest is paid to a Hong Kong resident) withholding tax on our behalf on the interest paid under any shareholders' loans. PRC regulations require approval by SAFE prior to any of our non-PRC subsidiaries making shareholder loans in foreign currencies to our PRC subsidiaries and require such loans to be registered with SAFE. Prior to payment of interest and principal on any such shareholder loan, the PRC subsidiaries must present tax filing form and/or other documents as required by tax authorities on the interest payable in any such shareholder loan and evidence of registration with SAFE, as well as any other documents that SAFE or its local branch may require.

As a result of the foregoing, we cannot assure you that we will have sufficient cash flow from dividends or payments on intercompany loans or advances from our subsidiaries to satisfy the Issuer's obligations under the Notes.

The terms of the Notes permit us to make a substantial amount of Restricted Payment.

The covenant described under "Description of the Notes — Certain Covenants — Limitation on Restricted Payments" generally prohibits us from making any "Restricted Payment" (as defined in the "Description of the Notes"), subject to certain exceptions. One of the exceptions is that we could make restricted payments if (i) no Default has occurred and is continuing or would occur as a result of the proposed Restricted Payment, (ii) the Issuer could incur at least US\$1.00 of the Indebtedness under the proviso in paragraph (1) of the covenant described under "Description of the Notes — Certain Covenants — Limitation on Indebtedness and Preferred Stock," and (iii) the proposed Restricted Payment, together with the aggregate amount of all Restricted Payments made by the Issuer and the Restricted Subsidiaries after the Original Issue Date, does not exceed 30% of Total Assets. The condition described in (ii) above does not need to be met if the aggregate amount of all Restricted Payments made by the Issuer and the Restricted subsidiaries of the Original Issue Date has not exceeded 20% of Total Assets. As a result, if other conditions are satisfied, we will be able to make a substantial amount of Restricted Payment despite the restrictions under the terms of the Notes, including dividend payments to our shareholders as well as substantial minority investments.

We may in the future designate certain subsidiaries, as Unrestricted Subsidiaries under the Indenture, which will not be subject to various covenants under the Indenture; and we and our Restricted Subsidiaries may be able to make dividend payment in shares of our Unrestricted Subsidiaries under the Indenture.

Subject to certain conditions, including, among other things, the absence of a continuing default at the time of and after giving effect to such designation, we may be required to designate any Restricted Subsidiary as an Unrestricted Subsidiary under the Indenture.

In addition, we have the flexibility under the terms of the Notes to designate any subsidiary in the Restructuring Group (as defined under “Description of the Notes — Definitions”) as Unrestricted Subsidiaries. The effects of designation of an entity as an Unrestricted Subsidiary include, but are not limited to:

- the business, assets and liabilities of such entity will no longer be part of the credit underlying the Notes;
- such entity will not be subject to the restrictive covenants applicable to Restricted Subsidiaries under the Indenture;
- as applicable, the Subsidiary Guarantees of such entity may be released; and
- interest expenses on Indebtedness (as defined in the Indenture) of such entity will not be included in the calculation of our Consolidated Interest Expense (as defined under “Description of the Notes — Definitions”), other than such interest expenses on Indebtedness that is Guaranteed by the Company or a Restricted Subsidiary.

As a result of any such designation, the value of assets subject to the restrictive covenants under the Indenture may decrease and the market pricing and trading of the Notes may be materially affected. In addition, we will be able to pay dividends or make distributions on or with respect to our or our Restricted Subsidiaries’ capital stock in shares of capital stock of any Unrestricted Subsidiary, as long as there is no default at the time of, and after giving effect to, such dividend payment or distribution under the Indenture. Accordingly, you are cautioned as to our ability to designate Unrestricted Subsidiaries subject to the conditions set forth in the Indenture.

Our initial Subsidiary Guarantors do not currently have significant operations and certain Subsidiary Guarantees may in some cases be replaced by limited-recourse guarantees.

We conduct substantially all of our business operations through our PRC subsidiaries but none of our current PRC subsidiaries will provide a Subsidiary Guarantee or JV Subsidiary Guarantee either upon issuance of the Notes or at any time thereafter. Therefore, almost all of our revenue and income (as shown in our consolidated financial information included elsewhere in this offering memorandum) are attributed to our PRC operating subsidiaries and any contribution from direct operations of the Subsidiary Guarantors (or JV Subsidiary Guarantors) are immaterial. No future subsidiaries that are organized under the laws of the PRC, Exempted Subsidiaries, Finance Subsidiaries or Listed Subsidiaries (each term as defined in the “Description of the Notes”) will provide a Subsidiary Guarantee or JV Subsidiary Guarantee at any time in the future. In addition, certain of our offshore subsidiaries will not be required to guarantee the Notes if the consolidated assets of these subsidiaries do not exceed 20% of our total assets. As a result, the Notes will be effectively subordinated to all the debt and other obligations, including contingent obligations and trade payables, of our PRC subsidiaries and Other Non-Guarantor Subsidiaries (as defined in the “Description of the Notes”).

The initial Subsidiary Guarantors that will guarantee the Notes do not have significant operations. We cannot assure you that the initial Subsidiary Guarantors or any subsidiaries that may become Subsidiary Guarantors or JV Subsidiary Guarantors in the future will have the funds necessary to satisfy our financial obligations under the Notes if we are unable to do so.

Moreover, under the terms of the Notes, a Subsidiary Guarantee required to be provided by a subsidiary of the Company under the terms of the Notes may be replaced by a limited-recourse JV Subsidiary Guarantee following the sale or issuance to, or purchase from, a third party of an equity interest in such subsidiary or its direct or indirect majority shareholders (subject to the satisfaction of certain conditions). Recovery under the JV Subsidiary Guarantees provided by a JV Subsidiary Guarantor and its shareholders and subsidiaries are limited to an amount equal to our proportional interest in the issued share capital of such JV Subsidiary Guarantor multiplied by the fair market value of the total assets in such JV Subsidiary Guarantor and its subsidiaries, on a consolidated basis, as of the date of the last fiscal year-end of the Company. As a result, the amount that may be recovered by the Trustee pursuant to a JV Subsidiary Guarantee (compared to a Subsidiary Guarantee) is reduced, which in turn may affect your ability to recover any amounts due under the Notes.

We have flexibility to incur debt secured by assets the security interest of which may not be shared with the Holders of the Notes

Although the “Limitation on Liens” covenant as described under the “Description of the Notes” section provides that we may not create or permit to exist any liens on our assets and properties unless such liens are shared on a *pari passu* basis with the Holders of the Notes, such restriction is subject to important exceptions and qualifications. The terms of the Notes give us enhanced flexibility to make Restricted Payments, including investments, in Unrestricted Subsidiaries, minority owned joint ventures and other persons, and we have the flexibility under the terms of the Notes to designate certain subsidiaries as Unrestricted Subsidiaries, which may have substantial assets. Unrestricted Subsidiaries themselves are not subject to the restrictive covenants under the indenture governing the Notes and will therefore be permitted to incur debt secured by their assets, the security interest of which will not be shared with holders of the Notes. In addition, the definition of “Permitted Liens” also gives us and our Restricted Subsidiaries flexibility to incur debt secured by certain assets, the security interest of which may not be shared with holders of the Notes. The Notes will therefore rank behind such secured debt to the extent of the value of such security, the amount of which may be material.

We may not be able to repurchase the Notes upon a Change of Control Triggering Event or a Delisting Event.

We must offer to purchase all outstanding Notes upon the occurrence of a Change of Control Triggering Event or a Delisting Event, at a purchase price equal to 101% of the principal amount plus accrued and unpaid interest. See “Description of the Notes — Repurchase of Notes upon a Change of Control Triggering Event” and “Description of the Notes — Delisting Put Right.”

The source of funds for any such purchase would be our available cash or third-party financing. However, we may not have enough available funds at the time of the occurrence of any Change of Control Triggering Event or Delisting Event to make purchases of

outstanding Notes. Our failure to make the offer to purchase or purchase the outstanding Notes would constitute an Event of Default under the Notes. The Event of Default may, in turn, constitute an event of default under other indebtedness, any of which could cause the related debt to be accelerated after any applicable notice or grace periods. If our other debt were to be accelerated, we may not have sufficient funds to purchase the Notes and repay the debt.

In addition, the definition of Change of Control Triggering Event for purposes of the Indenture does not necessarily afford protection for the holders of the Notes in the event of some highly leveraged transactions, including certain acquisitions, mergers, refinancings, restructurings or other recapitalizations, although these types of transactions could increase our indebtedness or otherwise affect our capital structure or credit ratings. The definition of Change of Control Triggering Event for purposes of the Indenture also includes a phrase relating to the sale of “all or substantially all” of our assets. Although there is a limited body of case law interpreting the phrase “substantially all,” there is no precise established definition under applicable law. Accordingly, our obligation to make an offer to purchase the Notes, and the ability of a holder of the Notes to require us to purchase its Notes pursuant to the offer as a result of a highly-leveraged transaction or a sale of less than all of our assets may be uncertain.

We may elect to redeem the Notes prior to their maturity.

Pursuant to terms of the Notes, we may elect to redeem the Notes prior to their maturity in whole or in part at the price specified in the section entitled “Description of the Notes — Optional Redemption.” The date on which we elect to redeem the Notes may not accord with the preference of particular Noteholders. In addition, a Noteholder may not be able to reinvest the redemption proceeds in comparable securities at the same rate of return of the Notes.

We may be able to redeem the Notes prior to maturity in the event that the Issuer is required to pay additional amounts due to certain changes in tax laws.

As described under “Description of the Notes — Redemption for Taxation Reasons,” in the event we are required to pay Additional Amounts (as defined therein) as a result of certain changes in or interpretations of tax laws of a Relevant Jurisdiction (as defined therein), including any change of interpretation or the stating of an official position that results in we being required to withhold tax on payments on the Notes, we may, at our option, redeem the Notes in whole at a redemption price equal to 100% of the principal amount plus accrued and unpaid interest.

As of the date of this offering memorandum, we have not received any notice that we should be treated as a PRC “resident enterprise” from the PRC tax authorities. However, in the event that we are treated as a PRC “resident enterprise” under the PRC Enterprise Income Tax Law, as described in “— Risks Relating to the PRC — The Issuer may be deemed a PRC resident enterprise under the EIT Law, which may subject it to PRC taxation on its worldwide income, require the withholding of taxes on interest paid on the Notes and require holders of the Notes to pay taxes on gains realized from the sale or other disposition of the Notes.”, we may be required to withhold PRC tax on interest payable to non-resident holders of the Notes. In such case, we will, subject to certain exceptions, be required to pay such Additional Amounts so that a holder of a Note will receive the same amounts as he would have received had no such withholding been required. In the event that such

requirement to withhold PRC taxes and pay Additional Amounts results from certain changes in or interpretations of PRC tax laws, including any change of interpretation or the stating of an official position, we may, at our option, redeem the Notes prior to maturity subject to the conditions described under “Description of the Notes — Redemption for Taxation Reasons.” The Notes may therefore be redeemed at an earlier time prior to the Notes’ stated maturity date, investors may not receive the same economic benefits they would have received had they held the Notes to maturity, and they may not be able to reinvest the proceeds they receive upon redemption in similar securities.

The insolvency laws of the British Virgin Islands, Cayman Islands, Hong Kong and other local insolvency laws may differ from United States bankruptcy law or those of other jurisdictions with which holders of the Notes are familiar.

As we and the Subsidiary Guarantors are not incorporated in the United States, an insolvency proceeding relating to us or the Subsidiary Guarantors, even if brought in the United States, would likely involve the insolvency laws of the Cayman Islands, British Virgin Islands, or Hong Kong, the procedural and substantive provisions of which may differ from comparable provisions of United States federal bankruptcy law.

We conduct substantially all of our business operations in China through PRC-incorporated subsidiaries. We and certain of our subsidiaries, as equity holders of our PRC subsidiaries, are necessarily subject to the bankruptcy and insolvency laws of China in a bankruptcy or insolvency proceeding involving any of such PRC subsidiaries. The PRC laws and regulations relating to bankruptcy and insolvency and the legal proceedings in that regard may significantly differ from those of the United States and other jurisdictions with which the holders of the Notes are familiar. You should analyze these risks and related uncertainties carefully before you invest in the Notes.

We will follow the applicable corporate disclosure standards for debt securities listed on the HKSE, and such standards may be different from those applicable to debt securities listed in certain other countries.

We will be subject to reporting obligations in respect of the Notes to be listed on the HKSE. The disclosure standards imposed by the HKSE may be different than those imposed by securities exchanges in other countries or regions such as the United States or Singapore. As a result, the level of information that is available may not correspond to what investors in the Notes are accustomed to.

The Subsidiary Guarantees and the JV Subsidiary Guarantees, if any, may be challenged under applicable insolvency or fraudulent transfer laws, which could impair the enforceability of the Subsidiary Guarantees and the JV Subsidiary Guarantees, if any.

Under bankruptcy laws, fraudulent transfer laws, insolvency or unfair preference or similar laws in the British Virgin Islands, Cayman Islands, Hong Kong and other jurisdictions where future subsidiary guarantors may be established, a guarantee could be voided, or claims in respect of a guarantee could be subordinated to all other debts of that guarantor if, among other things, the guarantor, at the time it incurred the indebtedness evidenced by, or when it gives, its guarantee:

- incurred the debt with the intent to hinder, delay or defraud creditors or was influenced by a desire to put the beneficiary of the guarantee in a position which, in the event of the guarantor's insolvency, would be better than the position the beneficiary would have been in had the guarantee not been given;
- received less than reasonably equivalent value or fair consideration for the incurrence of such guarantee;
- was insolvent or rendered insolvent by reason of the incurrence of such guarantee;
- was engaged in a business or transaction for which the guarantor's remaining assets constituted unreasonably small capital; or
- intended to incur, or believed that it would incur, debts beyond its ability to pay such debts as they mature.

The measure of insolvency for purposes of the foregoing will vary depending on the laws of the applicable jurisdiction. Generally, however, a guarantor would be considered insolvent at a particular time if it were unable to pay its debts as they fell due or if the sum of its debts was then greater than all of its properties at a fair valuation or if the present fair saleable value of its assets was then less than the amount that would be required to pay its probable liabilities in respect of its existing debts as they became absolute and matured.

In addition, a guarantee may be subject to review under applicable insolvency or fraudulent transfer laws in certain jurisdictions or subject to a lawsuit by or on behalf of creditors of the guarantor. In such case, the analysis set forth above would generally apply, except that the guarantee could also be subject to the claim that, since the guarantee was not incurred for the benefit of the guarantor, the obligations of the guarantor thereunder were incurred for less than reasonably equivalent value or fair consideration. In an attempt to limit the applicability of insolvency and fraudulent transfer laws in certain jurisdictions, the obligations of the Subsidiary Guarantors and the JV Subsidiary Guarantees, if any, under the Subsidiary Guarantees and the JV Subsidiary Guarantees, if any, will be limited to the maximum amount that can be guaranteed by the Subsidiary Guarantors and the JV Subsidiary Guarantees, if any, without rendering the guarantee, as it relates to the Subsidiary Guarantees and the JV Subsidiary Guarantees, if any, voidable under such applicable insolvency or fraudulent transfer laws.

If a court voids the Subsidiary Guarantees or the JV Subsidiary Guarantees, if any, subordinates such guarantee to other indebtedness of the Subsidiary Guarantors or the JV Subsidiary Guarantees, if any, or holds the Subsidiary Guarantees or the JV Subsidiary

Guarantees, if any, unenforceable for any other reason, holders of the Notes would cease to have a claim against the Subsidiary Guarantors or the JV Subsidiary Guarantees, if any, based upon such guarantee, would be subject to the prior payment of all liabilities (including trade payables) of the Subsidiary Guarantors or the JV Subsidiary Guarantees, if any, and would solely be creditors of us and the Subsidiary Guarantors or the JV Subsidiary Guarantees, if any, which has not been voided or held unenforceable. We cannot assure you that, in such an event, after providing for all prior claims, there would be sufficient assets to satisfy the claims of the holders of the Notes.

Our transfer of funds into the PRC to finance our development projects is subject to approval by the PRC government and, as a result, the use of our net proceeds from the offering of the Notes as disclosed may be delayed.

The PRC government has implemented a series of rules and measures to control the inflow of foreign funds into the property development industry or for property speculation. The transfer of our net proceeds from the offering of the Notes into the PRC is subject to such PRC government control measures.

According to Notice No. 19 issued by SAFE on April 28, 2013 which took effect on May 13, 2013, local branches of SAFE shall not register any foreign debt of a Foreign-Invested Real Estates Enterprises (the “**FIREE**”) if it obtained approval certificate from competent commercial departments and filed with MOFCOM on or after June 1, 2007. It restricts the ability of FIREE to raise funds offshore by structuring the funds as a shareholder loan to the property development companies in the PRC. Instead, in most circumstances such companies have to structure the funds from offshore as an equity investment and obtain the funds through an increase of their registered capital or the establishment of new FIREE.

On May 23, 2007, MOFCOM and SAFE jointly promulgated the Notice on Further Reinforcing and Regulating the Approval and Supervision on Foreign Direct Investment in the Real Estate Industry (《關於進一步加強、規範外商直接投資房地產業審批和監管的通知》) (the “**Circular 50**”), which provides that, among things, before any foreign-invested enterprise engaging in real estate development or operations or any FIREE engaging in new real estate project developments, approvals from relevant PRC authorities shall be obtained. On June 18, 2008, MOFCOM issued the Circular on Better Implementation of the Filing of Foreign Investment in the Real Estate Industry (《商務部關於做好外商投資房地產業備案工作的通知》), pursuant to which MOFCOM has delegated the task of verifying filing documents to its provincial agencies. On November 22, 2010, MOFCOM promulgated the Notice on Strengthening Administration of the Approval and Registration of Foreign Investment into Real Estate Industry (《關於加強外商投資房地產業審批備案管理的通知》), which provides that, among other things, the local MOFCOM authorities are not permitted to approve investment companies to engage in the real estate development and management. On June 24, 2014, MOFCOM and SAFE jointly issued the Notice on Improving the Registration of Foreign Investment in Real Estate (《關於改進外商投資房地產業備案工作的通知》) to simplify the procedures of registration of foreign investment in real estate. And the MOFCOM and SAFE jointly issued the Circular on Further Improving the Record-filing for Foreign Investments in Real Estate (《關於進一步改進外商投資房地產業備案工作的通知》) on November 6, 2015, cancelling the online record filing-procedure maintained by MOFCOM, and allowing local branches of MOFCOM to approve the establishment and modification of FIREEs as they did to other foreign-invested enterprises.

Pursuant to the above notices, we are required to register and apply for approvals from relevant PRC governmental authorities if we plan to expand the scope of our business or the scale of our operations, engage in new real estate project developments or operations or increase the registered capital of our subsidiaries or associated project companies in the PRC in the future. Our net proceeds from the offering of the Notes will primarily be used to refinance certain existing indebtedness and for other general corporate purposes. The injection of funds by any of such means is subject to the registration and approval requirements as mentioned above. As a result, we must register and apply for approval with the relevant PRC governmental authorities, and wait till the requested approvals are completed before we may transfer the proceeds from the offering of the Notes into the PRC for the intended uses in the PRC.

In addition, any capital contributions or loans that we, as an offshore company, make to our PRC operating subsidiaries, including from the proceeds of the offering of the Notes, are subject to other foreign investment regulations in the PRC. For example, any of our loans to our PRC subsidiaries cannot exceed the difference between the total investment amount that our PRC subsidiaries are approved to make under the relevant PRC laws and regulations, and their respective registered capital, and must be registered with or approved by the local branches of SAFE.

We may be unable to obtain and remit foreign exchange.

We are a company incorporated in the Cayman Islands. Our ability to satisfy its obligations under the Notes depends upon, among other things, our ability to obtain and remit sufficient foreign currency. We must present certain documents to SAFE, its authorized branch, or the designated foreign exchange bank, for approval before we can obtain and remit foreign currencies out of the PRC including evidence that the relevant PRC taxes have been paid. If we for any reason fail to satisfy any of the PRC legal requirements for remitting foreign currency, our ability to satisfy our obligations under the Notes would be adversely affected.

If we are unable to comply with the restrictions and covenants in our debt agreements or the Indenture there could be a default under the terms of these agreements, which could cause repayment of our debt to be accelerated.

If we are unable to comply with the restrictions and covenants in the Indenture, or our current or future debt and other agreements, there could be a default under the terms of these agreements. In the event of a default under these agreements, the holders of the debt could terminate their commitments to lend to us, accelerate the debt repayment and declare all amounts borrowed due and payable or terminate the agreements, as the case may be. Furthermore, some of our debt agreements, including the Indenture, contain cross-acceleration or cross-default provisions. As a result, our default under one debt agreement may cause the acceleration of other debt, including the Notes, or result in a default under our other debt agreements, including the Indenture. If any of these events occur, we cannot assure you that our assets and cash flow would be sufficient to repay in full all of our indebtedness, or that we would be able to find alternative financing. Even if we could obtain alternative financing, we cannot assure you that it would be on terms that are favorable or acceptable to us. Furthermore, we are permitted to incur indebtedness pursuant to the Indenture if, among other options, we are able to meet the Fixed Charge Coverage Ratio (as defined in the Indenture).

Our operations are restricted by the terms of the Notes, which could limit our ability to plan for or to react to market conditions or meet our capital needs, which could increase your credit risk.

The Indenture includes a number of significant restrictive covenants. These covenants restrict, among other things, our ability, and the ability of our Restricted Subsidiaries, to:

- incur or guarantee additional indebtedness or issue disqualified or preferred stock;
- declare dividends on its capital stock or purchase or redeem capital stock;
- make investments or other specified restricted payments;
- issue or sell capital stock of Restricted Subsidiaries;
- guarantee indebtedness by Restricted Subsidiaries;
- sell assets;
- create liens;
- enter into sale and leaseback transactions;
- enter into agreements that restrict the Restricted Subsidiaries' ability to pay dividends, transfer assets or make intercompany loans;
- enter into transactions with shareholders or affiliates;
- engage in any business other than Permitted Businesses; and
- effect a consolidation or merger.

These covenants could limit our ability to plan for or react to market conditions or to meet our capital needs. Our ability to comply with these covenants may be affected by events beyond our control, and we may have to curtail some of our operations and growth plans to maintain compliance.

We may incur substantial additional indebtedness in the future.

The restrictions under agreements relating to our indebtedness are subject to exceptions. Although the provisions in agreements relating to our indebtedness, including the Indenture, contain restrictions that may limit our financial and operating flexibility, these restrictions are subject to important exceptions and qualifications. Under the Notes, our ability to incur additional debt is subject to the limitation on indebtedness and preferred stock covenant. Under such covenant, we may incur (i) certain Permitted Indebtedness or (ii) additional indebtedness if we can, among other things, satisfy the Fixed Charge Coverage Ratio. The Fixed Charge Coverage Ratio is derived by dividing consolidated EBITDA by Consolidated Fixed Charges. Because our definition of Consolidated EBITDA includes our unrealized gains on valuation adjustments on our investment properties, our Consolidated EBITDA and therefore our ability to incur additional debt under such covenant, could be substantially larger when compared to other

similarly situated PRC-based issuers of high-yield bonds whose covenant does not typically include unrealized gains in the calculation of their respective consolidated EBITDA. Because our definition of Consolidated Interest Expense only includes interest payable by the Issuer or any Restricted Subsidiary if such interest accrues on Indebtedness of any other Person that is Guaranteed by any Restricted Subsidiary, our Consolidated Fixed Charges would be substantially lower, and therefore our ability to incur additional debt under such covenant could be substantially larger, when compared to other similarly situated PRC high yield issuers. Such exceptions and qualifications may allow us to, among other things, incur additional indebtedness, pledge assets to secure certain indebtedness, make certain investments and/or sell certain of our assets. As a result of such actions, we may become significantly leveraged, sustain losses on our investments and/or lose revenue streams, any of which could materially and adversely affect our ability to satisfy our obligations under the Notes and other indebtedness.

A trading market for the Notes may not develop, and there are restrictions on resale of the Notes.

The Issuer will seek a listing of the Notes on the HKSE. Application will be made to the HKSE for the Notes to be admitted for trading on the HKSE. We do not intend to apply for listing of the Notes on any U.S. securities exchange or for quotation through an automated dealer quotation system. We have been advised that the Initial Purchasers intend to make a market in the Notes, but they are not obligated to do so and may discontinue such market-making activity at any time without notice. In addition, the Notes are being offered pursuant to exemptions from registration under the Securities Act and, as a result, you will only be able to resell your Notes in transactions that have been registered under the Securities Act or in transactions not subject to or exempt from registration under the Securities Act. See “Transfer Restrictions.” We cannot predict whether an active trading market for the Notes will develop or be sustained.

The ratings assigned to the Notes may be lowered or withdrawn in the future.

The ratings address our ability to perform our obligations under the terms of the Notes and credit risks in determining the likelihood that payments will be made when due under the Notes. On October 16, 2019, Fitch issued an announcement in which we have been upgraded to “B+” from “B” with a stable outlook. Ratings of the 2021 I Senior Notes and the 2022 II Senior Notes have been upgraded to “B+” from “B”. A rating is not a recommendation to buy, sell or hold securities and may be subject to revision, suspension or withdrawal at any time. We cannot assure you that a rating will remain for any given period of time or that a rating will not be lowered or withdrawn entirely by the relevant rating agency if in its judgment circumstances in the future so warrant. We have no obligation to inform holders of the Notes of any such revision, downgrade or withdrawal. A suspension, reduction or withdrawal at any time of the ratings assigned to the Notes may adversely affect the market price of the Notes.

Certain transactions that constitute “connected transactions” under the Listing Rules will not be subject to the “Limitation on Transactions with Shareholders and Affiliates” covenant.

Our shares are listed on the HKSE and we are required to comply with the Listing Rules, which provide, among other things, that any transaction between a listed company or any of its subsidiaries, on the one hand, and a “connected person” of such listed company, on the other hand, is a “connected transaction” that, if the value of such

transaction exceeds the applicable de minimis thresholds, may require the prior approval of the independent shareholders of such listed company. The definition of “connected person” to a listed company includes, among others, any 10% or more shareholder of (i) such listed company or (ii) any subsidiary of such listed company. The concept of “connected person” also captures “associates,” which include, among others, (a) any subsidiary of such “connected person,” (b) any holding company of such “connected person” and any subsidiary of such holding company, and (c) any company in which such entity or entities mentioned in (a) and (b) above taken together has/have the power to exercise control, directly or indirectly, of 30% or more of the voting power of such company.

The “Limitation on Transactions with Shareholders and Affiliates” covenant in the Notes only applies to transactions between the Company or any Restricted Subsidiary, on the one hand, and

- (a) any holder (or any Affiliate of such holder) of 10% or more of shares of the Issuer; or
- (b) any Affiliate of the Issuer, on the other hand.

As such, transactions between the Company or any Restricted Subsidiary, on the one hand, and an Affiliate of any Restricted Subsidiary, on the other hand, will not be captured by such covenant, even though they may be connected transactions under the Listing Rules and subject to any requirements under the Listing Rules to obtain approval from independent shareholders. As a result, we are not required by the terms of the Notes to ensure that any such transactions are on terms that are fair and reasonable, and we will not need to deliver officers’ certificates or procure the delivery of fairness opinions of accounting, appraisal or investment banking firms to the trustee of the Notes for any such transactions.

There may be less publicly available information about us than is available in certain other jurisdictions.

There may be less publicly available information about companies listed in Hong Kong than is regularly made available by public companies in certain other countries. In addition, our financial statements are prepared and presented in accordance with IFRS, which differs in certain significant respects from GAAP in other jurisdictions, which might be material to the financial information contained in this offering memorandum. We have not prepared a reconciliation of our combined financial statements and our consolidated financial statements and related footnotes between IFRS and other GAAP. You should consult your own professional advisors for an understanding of the differences between IFRS and other GAAP and how those differences might affect the financial information contained in this offering memorandum.

The liquidity and price of the Notes following the offering may be volatile.

The price and trading volume of the Notes may be highly volatile. Factors such as variations in our turnovers, earnings and cash flows and proposals of new investments, strategic alliances and/or acquisitions, interest rates and fluctuations in prices for comparable companies could cause the price of the Notes to change. Any such

developments may result in large and sudden changes in the volume and price at which the Notes will trade. We cannot assure you that these developments will not occur in the future.

Certain facts and statistics are derived from publications not independently verified by us, the Initial Purchasers or their respective advisors.

Facts and statistics in this offering memorandum relating to China's economy and the industry in which we operate are derived from publicly available sources. While we have taken reasonable care to ensure that the facts and statistics presented are accurately reproduced from such sources, they have not been independently verified by us, the Initial Purchasers or our or their respective advisors and, therefore, we make no representation as to the accuracy of such facts and statistics, which may not be consistent with other information compiled within or outside China. Due to possibly flawed or ineffective calculation and collection methods and other problems, such facts and statistics may be inaccurate or may not be comparable to facts and statistics produced for other economies and should not be unduly relied upon. Further, we cannot assure you that they are stated or compiled on the same basis or with the same degree of accuracy as may be the case elsewhere.

We will follow the applicable corporate disclosure standards for debt securities listed on the HKSE, which standards may be different from those applicable to debt securities listed in certain other countries.

We will be subject to reporting obligations in respect of the Notes to be listed on the HKSE. The disclosure standards imposed by the HKSE may be different than those imposed by securities exchanges in other countries or regions such as the United States. As a result, the level of information that is available may not correspond to what investors in the Notes are accustomed to.

The Notes will initially be held in book-entry form, and therefore you must rely on the procedures of the relevant clearing systems to exercise any rights and remedies.

The Notes will initially only be issued in global form and held through Euroclear and Clearstream. Interests in the Notes represented by the Global Notes will trade in book-entry form only, and Notes in definitive registered form, or definitive registered notes, will be issued in exchange for book-entry interests only in very limited circumstances. Owners of book entry interests will not be considered owners or holders of the Notes. The nominee of the common depositary for Euroclear and Clearstream will be the sole registered holder of the Global Notes representing the Notes. Payments of principal, interest and other amounts owing on or in respect of the Global Notes representing the Notes will be made to the Paying Agent, which will make payments to Euroclear and Clearstream. Thereafter, these payments will be credited to accounts of participants that hold book-entry interests in the Global Notes representing the Notes and credited by such participants to indirect participants. After payment to the nominee of the common depositary for Euroclear and Clearstream, we will have no responsibility or liability for the payment of interest, principal or other amounts to the owners of book-entry interests. Accordingly, if you own a book-entry interest, you must rely on the procedures of Euroclear and Clearstream or, if you are not a participant in Euroclear and Clearstream, on the procedures of the participant through which you own your interest, to exercise any rights and obligations of Noteholder under the Indenture.

Unlike the holders of the Notes themselves, owners of book-entry interests will not have the direct right to act upon our solicitations for consents, requests for waivers or other actions from Noteholders. Instead, if you own a book-entry interest, you will be permitted to act only to the extent you have received appropriate proxies to do so from Euroclear and Clearstream. The procedures implemented for the granting of such proxies may not be sufficient to enable you to vote on a timely basis. Similarly, upon the occurrence of an Event of Default under the Indenture, unless and until definitive registered notes are issued in respect of all book-entry interests, if you own a book-entry interest, you will be restricted to acting through Euroclear and Clearstream. The procedures to be implemented through Euroclear and Clearstream may not be adequate to ensure the timely exercise of rights under the Notes.

We may make amendments to and seek waivers from certain provisions of the Indenture.

Under certain circumstances as described below under “Description of the Notes — Amendments and Waiver — Amendments Without Consent of Holders,” we may, from time to time, and without prior consultation with the Noteholders, make certain amendments to the Indenture. Further, under certain circumstances as described below under “Description of the Notes — Amendments and Waiver — Amendments With Consent of Holders,” we may, from time to time, and with the consent of the holders of not less than a majority in aggregate principal amount of the outstanding Notes, make certain amendments to the Indenture or waive future compliance by the Issuer and the Subsidiary Guarantors, with certain provisions of the Indenture. If the requisite consents are obtained (if required) and/or the relevant conditions are satisfied (or waived) and such amendments or waivers become operative, all Noteholders will be bound by the terms of the Indenture as amended, whether or not a Noteholder delivered a consent. Such amendments or waivers could materially increase the credit risks faced by Noteholders or could otherwise be materially adverse to the interests of the Noteholders.

We may be subject to risks presented by fluctuations in exchange rates between the Renminbi and other currencies, particularly the U.S. dollar.

The Notes are denominated in U.S. dollars, while substantially all of our revenue are generated by our PRC operating subsidiaries and are denominated in Renminbi. Pursuant to reforms of the exchange rate system announced by the PBOC on July 21, 2005, Renminbi-to-foreign currency exchange rates are allowed to fluctuate within a narrow and managed band against a basket of foreign currencies, rather than being effectively linked to the U.S. dollar. Further, from May 18, 2007, the PBOC enlarged the floating band for the trading prices in the interbank foreign exchange market of the Renminbi against the U.S. dollar from 0.3% to 0.5% around the central parity rate, effective on May 21, 2007. This allows the Renminbi to fluctuate against the U.S. dollar by up to 0.5% above or below the central parity rate published by the PBOC. The floating band was further widened to 1.0% on April 16, 2012. These changes in currency policy resulted in the Renminbi appreciating against the U.S. dollar by approximately 33.0% from July 21, 2005 to December 31, 2014. On March 17, 2014, the PBOC further widened the floating band against the U.S. dollar to 2.0%. On August 11, 2015, the PBOC adjusted the mechanism for market makers to form the central parity rate by requiring them to consider the closing exchange rate of the last trading date, the supply and demand of foreign exchange and the rate change at primary international currencies. On December 11, 2015, the China Foreign Exchange Trade System, a sub-institutional organization of the PBOC, published the CFETS Renminbi exchange rate index for the first time which weighs the Renminbi based on 13 currencies, to

guide the market in order to measure the Renminbi exchange rate from a new perspective. The PRC government may adopt further reforms of its exchange rate system, including making the Renminbi freely convertible in the future. If such reforms were implemented and resulted in devaluation of the Renminbi against the U.S. dollar, our financial condition and results of operations could be materially and adversely affected because of our substantial U.S. dollar denominated indebtedness and other obligations after the issuance of the Notes. Such devaluation could also materially and adversely affect the value, translated or converted into U.S. dollars or otherwise, of our earnings and our ability to satisfy our obligations under the Notes. The value of the Renminbi has depreciated significantly against U.S. dollars since the end of 2015 and there is no assurance that the Renminbi will not experience significant depreciation or (as the case may be) appreciation against U.S. dollars or against any other currency in the future.

There are limited hedging instruments available in China to reduce our exposure to exchange rate fluctuations between the Renminbi and other currencies. In addition, following the offering of the Notes, we may enter into foreign exchange or interest rate hedging agreements in respect of our U.S. dollar-denominated liabilities under the Notes. These hedging agreements may require us to pledge or transfer cash and other collateral to secure our obligations under the agreements, and the amount of collateral required may increase as a result of mark-to-market adjustments. The Initial Purchasers and their affiliates may enter into such hedging agreements permitted under the Indenture governing the Notes, and these agreements may be secured by pledges of our cash and other assets as permitted under the Indenture.

Any hedging obligation entered into or to be entered into by us or our subsidiaries may contain terms and conditions that may result in the early termination, in whole or in part, of such hedging obligation upon the occurrence of certain termination or analogous events or conditions (howsoever described), including such events relating to us and/or any of our subsidiaries, and the terms and conditions of such hedging obligation(s) may provide that, in respect of any such early termination, limited or no payments may be due and payable to, or that certain payments may be due and payable by, us and/or any of our subsidiaries (as relevant) in respect of any such early termination. Any such early termination, in whole or in part, of any such hedging obligation(s), and the payment and any other consequences and effects of such early termination(s), may materially and adversely affect our financial condition and/or any of our subsidiaries and may materially and adversely affect the performance of our or their respective obligations under or in relation to the Notes (if applicable), any indebtedness or any other present or future obligations and commitments.

The Trustee may request Noteholders to provide an indemnity, security and/or pre-funding to its satisfaction.

Under certain circumstances, including without limitation giving notice to the Issuer upon an event of default and taking enforcement steps pursuant to the terms of the Indenture, the Trustee may, at its sole discretion, request Noteholders to provide an indemnity, security and/or pre-funding to its satisfaction before it takes actions on behalf of Noteholders. The Trustee shall not be obliged to take any such actions if not indemnified, secured and/or pre-funded to its satisfaction. Negotiating and agreeing to an indemnity, security and/or pre-funding can be a lengthy process and may impact on when such actions can be taken. The Trustee may not be able to take actions, notwithstanding the provision of an indemnity, security and/or pre-funding to it, in breach of the terms of the Indenture and

in circumstances where there is uncertainty or dispute as to the applicable laws or regulations and, to the extent permitted by the agreements and the applicable law, it will be for the Noteholders to take such actions directly.

USE OF PROCEEDS

We estimate that the net proceeds from this offering, after deducting the underwriting discounts and commissions and other estimated expenses payable in connection with this offering, will be approximately US\$343 million. We intend to use the net proceeds for refinancing our existing medium to long term offshore indebtedness which will become due within one year.

Pending application of the net proceeds of this offering, we intend to invest the net proceeds in Temporary Cash Investments (as defined under “Description of the Notes — Definitions”).

EXCHANGE RATE INFORMATION

PRC

The PBOC sets and publishes daily a central parity exchange rate with reference primarily to the supply and demand of Renminbi against a basket of currencies in the market during the prior day. PBOC also takes into account other factors, such as the general conditions existing in the international foreign exchange markets. Since 1994, the conversion of Renminbi into foreign currencies, including U.S. dollars, has been based on rates set by PBOC, which are set daily based on the previous day's interbank foreign exchange market rates and current exchange rates in the world financial markets. From 1994 to July 20, 2005, the official exchange rate for the conversion of Renminbi to U.S. dollars was generally stable. Although Chinese governmental policies were introduced in 1996 to reduce restrictions on the convertibility of Renminbi into foreign currency for current account items, conversion of Renminbi into foreign exchange for capital account items, such as foreign direct investment, loans or securities, requires the approval of the State Administration for Foreign Exchange and other relevant authorities. On July 21, 2005, the PRC government changed its decade-old policy of pegging the value of Renminbi to that of the U.S. dollar. Under the policy, Renminbi is permitted to fluctuate within a narrow and managed band against a basket of certain foreign currencies determined by PBOC. PBOC announces the closing price of a foreign currency traded against the Renminbi in the inter-bank foreign exchange market after the closing of the market on each business day, and makes it the central parity rate for the trading against the Renminbi on the following business day. On May 18, 2007, PBOC announced that the floating band of Renminbi trading prices against the U.S. dollar in the interbank spot foreign currency exchange market would be increased from 0.3% to 0.5% from May 21, 2007. This allowed the Renminbi to fluctuate against the U.S. dollar by up to 0.5% above or below the central parity rate published by PBOC. On June 19, 2010, PBOC announced that it intends to further reform the Renminbi exchange rate regime by allowing greater flexibility in the Renminbi exchange rate. According to this announcement, PBOC will place more emphasis on reflecting market supply and demand with reference to a basket of currencies and continue dynamic management and adjustment of exchange rate floating practice according to published exchange rate floating bands in foreign exchange markets. The floating band was further widened to 1.0% on April 16, 2012.

On March 15, 2014, PBOC announced that since March 17, 2014, the floating band of inter-bank spot foreign exchange market trading price of RMB against U.S. dollar was further widened from 1% to 2%. On each business day, the spread between the Renminbi and U.S. dollars buying and selling prices offered by the designated foreign exchange banks to their clients shall be within 3% of published central parity of U.S. dollar on that day, instead of 2%. PBOC may continue to promote the market-based Renminbi exchange rate regime, enhance the flexibility of Renminbi exchange rate in both directions, and keep the Renminbi exchange rate basically stable at an adaptive and equilibrium level. On August 11, 2015, PBOC announced to improve the central parity quotations of Renminbi against the U.S. dollar by authorizing market-makers to provide central parity quotations to the China Foreign Exchange Trading Center daily before the opening of the interbank foreign exchange market with reference to the interbank foreign exchange market closing rate of the previous day, the supply and demand for foreign exchange as well as changes in major international currency exchange rates. On December 11, 2015, CFETS, a sub-institutional organisation of the PBOC, published the CFETS Renminbi exchange rate index for the first time which weighs the Renminbi based on 13 currencies, to guide the market in order to

measure the Renminbi exchange rate from a new perspective. The International Monetary Fund announced on September 30, 2016 that the Renminbi joins its Special Drawing Rights currency basket. Since October 2016, Renminbi experienced significant fluctuation in value against the U.S. dollar but in 2017 and 2018 rebounded and appreciated significantly against the U.S. dollar. On August 5, 2019, the PBOC set the Renminbi's daily reference rate below RMB7 per U.S. dollar for the first time in over a decade amidst an uncertain trade and global economic climate. There remains significant international pressure on the PRC Government to adopt an even more flexible currency policy, which could result in further and more significant depreciation of the Renminbi against the U.S. dollar. The PRC government may from time to time make further adjustments to the exchange rate system in the future.

Hong Kong

The Hong Kong dollar is freely convertible into other currencies, including the U.S. dollar. Since October 17, 1983, the Hong Kong dollar has been pegged to the U.S. dollar at the rate of HK\$7.80 to US\$1.00. The central element in the arrangements which gave effect to the peg is that, by agreement between the Hong Kong Special Administrative Region government and the three Hong Kong banknote issuing banks (i.e., The Hongkong and Shanghai Banking Corporation Limited, Standard Chartered Bank and the Bank of China), certificates of indebtedness, which are issued by the Hong Kong Government Exchange Fund to the banknote issuing banks to be held as cover for their banknote issues, are issued and redeemed only against payment in U.S. dollars at the fixed exchange rate of HK\$7.80 to US\$1.00. When the banknotes are withdrawn from circulation, the banknote issuing banks surrender the certificates of indebtedness to the Hong Kong Government Exchange Fund and are paid the equivalent U.S. dollars at the fixed rate.

The market exchange rate of the Hong Kong dollar against the U.S. dollar continues to be determined by the forces of supply and demand in the foreign exchange market. However, against the background of the fixed rate which applies to the issue of the Hong Kong currency in the form of banknotes, as described above, the market exchange rate has not deviated materially from the level of HK\$7.80 to US\$1.00 since the peg was first established. However, in May 2005, the Hong Kong Monetary Authority broadened the 22-year old trading band from the original rate of HK\$7.80 per U.S. dollar to a rate range of HK\$7.75 to HK\$7.85 per U.S. dollar. The Hong Kong Special Administrative Region government has stated its intention to maintain the link at that rate and it, acting through the Hong Kong Monetary Authority, has a number of means by which it may act to maintain exchange rate stability. Under the Basic Law, the Hong Kong dollar will continue to circulate and remain freely convertible. The Hong Kong Special Administrative Region government has also stated that it has no intention of imposing exchange controls in Hong Kong and that the Hong Kong dollar will remain freely convertible into other currencies, including the U.S. dollar. However, no assurance can be given that the Hong Kong Special Administrative Region government will maintain the link at HK\$7.75 to HK\$7.85 per U.S. dollar, or at all.

The following table sets forth the exchange rate as set forth in the H.10 statistical release of the Federal Reserve Board for the periods indicated:

Notes:

- (1) EBITDA consists of profit before taxation plus amortization of intangible assets, capitalized interests included in the cost of goods, finance costs and depreciation of fixed assets. EBITDA is not a standard measure under IFRS. EBITDA is a widely used financial indicator of a company's ability to service and incur debt. EBITDA should not be considered in isolation or construed as an alternative to cash flows, net income or any other measure of financial performance or as an indicator of our operating performance, liquidity, profitability or cash flows generated by operating, investing or financing activities. In evaluating EBITDA, we believe that investors should consider, among other things, the components of EBITDA such as sales and operating expenses and the amount by which EBITDA exceeds capital expenditures and other charges. We have included EBITDA because we believe it is a useful supplement to cash flow data as a measure of our performance and our ability to generate cash flow from operations to cover debt service and taxes. EBITDA presented herein may not be comparable to similarly titled measures presented by other companies. Investors should not compare our EBITDA to EBITDA presented by other companies because not all companies use the same definition. Investors should also note that EBITDA as presented herein may be calculated differently from Consolidated EBITDA as defined and used in the Indenture governing the Notes. Finance expenses exclude amounts capitalized. See the sectioned entitled "Description of the Notes — Definitions" for a description of the manner in which Consolidated EBITDA is defined for purposes of the Indenture governing the Notes.
- (2) EBITDA margin is calculated by dividing EBITDA by revenue.

MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

You should read the following discussion and analysis of our financial condition and results of operations in conjunction with our combined financial information, together with the notes thereto, included elsewhere to this offering memorandum. Our combined financial information has been prepared in accordance with IFRS, which may differ in material respects from generally accepted accounting principles in other jurisdictions.

Our historical results do not necessarily indicate results expected for the future. The following discussion and analysis contains certain forward-looking statements that involve risks and uncertainties. Our actual results may differ from those anticipated in these forward-looking statements as a result of a number of factors, including those described in the sections entitled “Risk Factors” and “Business.”

OVERVIEW

We are a comprehensive property developer with a strong foothold in the Yangtze River Delta Region and a national strategic layout, focusing on the development of residential properties and the development, operation and management of commercial and integrated properties. Through implementing the national layout strategy of “penetrating the Greater Jiangsu Region, strengthening foothold in major metropolitan areas and expanding into core cities” (做透大江蘇、深耕都市圈、做強中心城), we have promoted and stabilized our national strategic layout and strengthened our regional foothold with focus on core areas, bringing us to a stage of rapid and balanced development. Since the incorporation of Nanjing Redsun in 1999, we have worked in the sector of property development and sales for over 20 years, established the *Hong Yang* brand and received widespread recognition for our development capacity and industry position. We have maintained steady growth in recent years. Our net profit increased from RMB1,220.7 million in 2017 to RMB1,412.3 million in 2018 and further increased to RMB1,467.6 million in 2019, and our net profit for the six months ended June 30, 2019 and 2020 amounted to RMB743.1 million and RMB677.4 million (US\$95.9 million), respectively. As of December 31, 2017, 2018 and 2019 and June 30, 2020, our total assets amounted to RMB41,325.3 million, RMB67,922.1 million, RMB95,397.1 million and RMB101,695.8 million (US\$14,394.1 million), respectively.

We have established the *Hong Yang* brand, which enjoyed a high reputation and recognition in the Yangtze River Delta region. In 2020, we were ranked 47th among China’s Top 500 property developers and 2nd in terms of growth rate among China’s Top 10 property developers by the China Real Estate Association, Shanghai E-house China R&D Institute and China Real Estate Appraisal. Sales of the Group for the first half of 2020 also increased its rank to 46th nationwide according to the statistics of CRIC (克而瑞研究中心). In 2019, we were ranked TOP 500 China Real Estate Developers by China Real Estate Association, E-house China R&D Institute, and China Real Estate Appraisal and TOP 50 New and Vigorous Chinese Listed Companies by Brand Value by National Business Daily and Tsinghua SEM, and we also received the award of “2019 Top 30 Brand of China Real Estate Companies (mixed all 11–30) (2019中國房地產公司品牌價值TOP 30 (混合所有11–30)) in the 2019 China Real Estate Brand Value Research Results Release Conference cum 16th China Real Estate Brand Development Summit (2019年中國房地產品牌價值研究成果發佈會暨第十六屆中國房地產品牌發展高峰論壇) held in Beijing in 2019.

Designing and developing customer-tailored products and implementing high standards of quality control are the lifeline of us. We conducted an intensive study of customer needs and launched four product lines, from properties with the best improvement, to high-quality rigid demand housing, namely, Times Series (時光系), Sunrise Series (昕悦系), Chenhui Series (宸暉系) and Hongzhu Series (弘著系), to meet the needs of different consumer groups. We use high-quality materials and accessories for construction and decoration and critically review the work of contractors. We use the internal standard of “millimetric quality error” for product quality control. We strive to meet the needs of our customers through fine workmanship and quality control measures.

We have balanced property development and operation abilities. While developing residential properties, we also operate commercial complexes covering shopping malls, amusement parks and community centers, hotels and office buildings. Most of these commercial property buildings are adjacent to our residential property projects, providing ancillary services for our residents and also driving the appreciation of our residential property projects. Looking ahead, we will continue to adhere to the “Property + Commercial” dual-driven strategy. In 2017, 2018 and 2019, our commercial properties maintained an average rental rate of over 90%, and accounted for a revenue of RMB166.4 million, RMB359.0 million and RMB411.4 million, respectively. In the six months ended June 30, 2020, revenue from commercial operations and hotel operations increased by 10.4% to RMB225.6 million (US\$31.9 million) as compared to RMB204.3 million in the corresponding period of 2019.

We focus our business activities across the Yangtze River Delta region, one of the most economically prosperous and vibrant regions in China, and have gradually extended our reach to the Greater Bay Area, the Chengdu-Chongqing region, the middle reaches of Yangtze River and the Shandong Peninsula. As at June 30, 2020, we had a total of 169 projects under construction with an aggregate planned gross floor area of 18,370,000 sq.m. By virtue of our deep understanding of the property markets in the Yangtze River Delta region, we strategically selected and acquired quality land in the Jiangsu and Anhui Provinces. As of June 30, 2020, we had land reserves with a total GFA of approximately 18,374,029 sq.m. (GFA of approximately 9,677,837 sq.m. was attributable to us), representing an increase of 8.5% from that of 16,931,996 sq.m. as at 31 December 2019. Our land reserves comprise of (i) completed properties with a saleable GFA of approximately 856,744 sq.m., (ii) investment properties with a rentable GFA of approximately 734,520 sq.m., and (iii) properties under development with an aggregate GFA of approximately 16,782,765 sq.m.. We believe our existing land reserves can provide sufficient support for our future development.

We launched our head office in Shanghai in February 2019 to form a dual headquarters’ operation in Shanghai and Nanjing. Shanghai, which has a large property market, is one of our key expansion regions in future. Our investment, financing, research and development and human resources departments will be mainly set up in Shanghai in the future to provide support for our further business expansion.

We have been successfully listed on the Stock Exchange of Hong Kong since July 12, 2018 and our shares are listed under the stock code “1996”. We believe our listing has provided us an important opportunity for leapfrog development. Starting from 2019, our shares were included in the Hang Seng Composite Index and the southbound Stock Connect, which we believe will further strengthen our influence in the capital markets.

SIGNIFICANT FACTORS AFFECTING OUR RESULTS OF OPERATIONS AND FINANCIAL CONDITION

Our business, results of operations, financial condition and prospects are affected by a number of factors, many of which are beyond our control, including those set forth below. The following should be read in conjunction with the section headed “Risk Factors” in this offering memorandum.

Economic growth, urbanization and demand for real estate properties in China, particularly in Nanjing, Suzhou and other major cities in Yangtze River Delta Region

Economic growth, urbanization and increasing purchasing power have been the main driving forces behind the increasing market demand for real estate properties in China. These factors are in turn affected by a number of macroeconomic factors, including changes in the global economy and world markets, as well as the fiscal and monetary policies of the PRC government. The paces of economic growth, urbanization and increasing purchasing power in China are expected to continue to significantly affect the number of potential property buyers and the pricing and profitability of residential properties, and, in turn, our performance and results of operations. Because we focus primarily on developing properties in Nanjing, Suzhou and other major cities in Yangtze River Delta Region, developments in markets in Nanjing, Suzhou and other major cities in Yangtze River Delta Region and other future target cities are especially important to our operations. If there is a downturn in the global economy, the PRC economy or in any of the property markets in which we have operations, or a decrease in the pace of urbanization, our financial condition and results of operations may be materially and adversely affected. See “Risk Factors — Risks Relating to Our Business — Our business and prospects are dependent on the economic conditions in the PRC and the performance of the PRC property market, and in particular on the performance of the markets in Nanjing and various major cities in the Yangtze River Delta, and therefore any potential decline in property sales or prices or demand for properties in the PRC generally, or in the major cities in this region, could have a material adverse effect on our business, financial condition, and results of operations.”

The regulatory environment and measures affecting the property industry in China

PRC governmental policies and measures regarding property development and related industries have a direct impact on our business and results of operations. From time to time, the PRC government adjusts its macroeconomic control policies to encourage or restrict development in the private property sector through regulating, among other things, the supply of land, pre-sales of properties, land usage, plot ratios, bank financing and taxation. In recent years, in response to rising property prices across the country, the PRC government has implemented a series of measures aimed at controlling prices in the real estate market. Various administrative bodies have introduced policies and measures to discourage speculation and impose more stringent requirements on property developers. These measures require, among other things, higher minimum down payments from purchasers, new restrictions on the purchase of properties, that a minimum portion of investment in property projects be devoted to affordable and commodity housing and increases in bank lending rates for mortgage financing. A substantial portion of our customers make down payments and rely on mortgage financing to purchase our properties. Accordingly, regulations or measures adopted by the PRC government that are intended to increase down payment requirements, restrict the ability of purchasers to obtain mortgages, limit their ability to resell their properties or increase the cost of mortgage financing may decrease market demand for our properties and adversely affect our results of operations. Measures taken by the PRC government to control the money supply, credit availability

and fixed asset investment also have a direct impact on our business and results of operations. Furthermore, the PRC government may introduce initiatives which may affect our access to capital and the means by which we can finance our property development. See “Risk Factors — Risks Relating to Our Industry — Our operations are subject to extensive government policies and regulations and we are particularly susceptible to adverse changes in policies relating to the PRC property industry in regions in which we operate.”

Land acquisition and construction costs

Our success and continuing growth will largely depend on our ability to acquire quality land at prices that can generate reasonable returns. As the Chinese economy continues to grow rapidly and demand for residential properties remains strong, competition among property developers for land is likely to continue to intensify. In recent years, land premiums have increased notably in major cities in China and in the cities in which we operate, in particular. Construction costs have also increased in recent years mainly due to increases in labor costs and costs of raw materials. Historically, we mainly acquired state-owned land use rights through public tender, auction and listing-for-sale, cooperating with third-party business partners and acquisition of equity interests in other companies or property interests held by other companies. However, there can be no assurance that we will be able to continue to source land with favorable prices given the increasing competition for land for development. If our land acquisition costs significantly increase, we may incur substantial additional financing costs. If we cannot sell our properties at increased prices sufficient to offset increases in costs, our profitability will be adversely affected.

Access to capital and cost of financing

Bank loans and borrowings from financial institutions and trust financing are important funding sources for our property development. As of December 31, 2017, 2018 and 2019 and the six months ended June 30, 2020, the amount of our outstanding current and non-current bank loans was RMB8,034.6 million, RMB13,626.0 million, RMB14,546.2 million and RMB18,034.1 million (US\$2,552.6 million), respectively. Our access to capital and cost of financing will be affected by the prevailing interest rates on bank loans, which are linked to the PBOC benchmark lending rates, the restrictions imposed by the PRC government on bank lending for property development, and the general conditions of the domestic and global capital markets.

As of December 31, 2017, 2018 and 2019 and the six months ended June 30, 2020, our outstanding amount of other borrowings (including loans and trust and other financings) was RMB3,594.9 million, RMB5,700.5 million, RMB5,725.5 million and RMB2,536.7 million (US\$359.0 million), respectively. Compared with bank loans, trust financing offers greater flexibility in terms of availability, but financing costs under trust financing arrangements are generally higher than those under bank loans. If we are unable to enter into such trust financing arrangements on favorable terms in the future, or at all, our results of operations and financial condition may be materially and adversely affected.

Our total interest cost (including capitalized interest expenses) on bank loans, other borrowings and senior notes amounted to RMB830.9 million, RMB1,548.2 million, RMB2,447.9 million, RMB1,153.1 million and RMB1,487.8 million (US\$210.6 million) for the years ended December 31, 2017, 2018 and 2019 and the six months ended June 30, 2019 and 2020, respectively. For the same periods, our effective interest rate was 7.52%, 7.81%, 8.55%, 8.87% and 7.83%, respectively. Any potential increase in interest rates may result in additional interest costs for us, especially in newly raised loans.

Timing of property development

The development of property projects requires significant time. It may take several months, years, or even longer, after the start of development before pre-sales of properties in that development are commenced. We do not recognize revenue until properties have been sold, completed and delivered to their customers. Due to fluctuations in market demand, the revenue that we recognize in a particular period may also be affected by market conditions at the time a particular property project is pre-sold or sold. Moreover, delays in construction, regulatory approval or other processes may adversely affect the completion timetable of our projects and, therefore, our recognition of revenue from our projects.

Pre-sales of properties

Pre-sales of properties constitute one of the most important sources of our operating cash flows during our project development process. PRC law allows us to pre-sell properties prior to their completion upon satisfaction of certain pre-conditions but requires that we use the pre-sales proceeds to finance the particular project that has been presold. See “Business — Property Development and Sales Process — Marketing and Sales.” The amount and timing of cash inflows from pre-sales are affected by a number of factors, including the development schedules of our projects, restrictions on pre-sales imposed by the PRC government, the availability and affordability of mortgage financing for our purchasers, market demand for our properties and the number of our properties available for pre-sale. In addition, any reduction in cash flows from the pre-sales of our properties will likely increase our reliance on external financing, which may increase our costs and may impact our ability to finance our continuing property development.

Fair value of our investment properties

Changes in the fair value of our investment properties have had, and are expected to continue to have, a substantial effect on our results of operations. Investment properties are initially measured at their fair values based on valuations performed by our independent property valuer, and subsequent gains or losses arising from changes in these fair values are recorded as fair value gains or losses on investment properties. The property valuer has used methods of valuation which involve, *inter alia*, certain estimates including current market transaction prices for comparable properties, appropriate yield rates and expected current market rents. Favorable or unfavorable changes to the assumptions would result in changes in the estimated fair value of our investment properties and corresponding adjustments to the amount of gain or loss reported in the combined statements of comprehensive income. For the year ended December 31, 2017, our fair value losses on investment properties were RMB287.4 million. For the years ended December 31, 2018 and 2019, our fair value gains on investment properties were RMB260.8 million and RMB310.5 million. For the six months ended June 30, 2020, our fair value gains on investment properties were 57.3 million (US\$8.1 million). The amounts of valuation adjustments are likely to continue to be significant as a result of market fluctuations and have a significant impact on our results of operations. See “Risk Factors — Risks Relating to Our Business — The fair value of our investment properties is likely to fluctuate from time to time and may decrease significantly in the future, which may materially and adversely affect our profitability.”

LAT

Our property development is subject to LAT in respect of the appreciated value of the related land and improvements on such land. LAT applies to both domestic and foreign investors engaged in real estate development in China and is levied on properties sold at progressive rates ranging from 30% to 60% on the appreciation of land value. We paid RMB349.2 million, RMB159.7 million, RMB496.5 million and RMB275.7 million (US\$39.0 million) for LAT for the years ended December 31, 2017, 2018 and 2019 and the six months ended June 30, 2020, respectively. The fluctuation in the amount of LAT paid during these periods was mainly due to the delivery timetables of our projects and differences in the sales prices of the properties in its various developments. We make provisions for LAT based on our recognized sales and in accordance with our estimates of the LAT rate which will be applicable under relevant PRC laws and regulations. For the years ended December 31, 2017, 2018 and 2019 and the six months ended June 30, 2019 and 2020, we made LAT provisions of RMB401.1 million, RMB441.4 million, RMB564.8 million, RMB142.8 million and RMB275.7 million (US\$39.0 million), respectively. LAT liabilities are subject to determination by the tax authorities upon the completion of the property development projects and may be different from the amounts that were initially recorded. Any such differences may impact our profits after tax and deferred tax provision in the periods in which such taxes are finalized with the relevant tax authorities. For further information on PRC regulations relating to LAT, see “Regulation — Regulations on Taxation — Land Appreciation Tax.”

CRITICAL ACCOUNTING POLICIES, ESTIMATES AND JUDGMENTS

The preparation of our financial statements in conformity with IFRS requires our management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making judgments about the carrying values of assets and liabilities that are not readily apparent from other resources. Our actual results may differ from these estimates.

These estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods. The relevant estimates or underlying assumptions that we have made in the past have been generally in line with our actual results for the years ended December 31, 2017, 2018 and 2019 and the six months ended June 30, 2019 and 2020.

Judgments made by our management in the application of IFRS that have significant effect on our financial statements and major sources of estimation uncertainty are discussed in Notes 2.2 and 3 to the consolidated financial statements as of and for the year ended December 31, 2018 and 2019 and the six months ended June 30, 2020, respectively.

The selection of critical accounting policies and the sensitivity of reported results to changes in conditions and assumptions are factors to be considered when reviewing our financial statements. The following critical accounting policies involve the most significant judgments and estimates used in the preparation of our combined financial statements.

Revenue recognition

Revenue is recognized in profit or loss when it is probable that the economic benefits will flow to us and the revenue and costs, if applicable, can be measured reliably on the following basis:

Sale of Properties

Revenue from the sale of properties in the ordinary course of business is recognized when all the following criteria are met:

- (a) the significant risks and rewards of ownership of the properties are transferred to purchasers;
- (b) neither continuing managerial involvement to the degree usually associated with ownership, nor effective control over the properties are retained;
- (c) the amount of revenue can be measured reliably;
- (d) it is probable that the economic benefits associated with the transaction will flow to the Group; and
- (e) the cost incurred or to be incurred in respect of the transaction can be measured reliably.

The above criteria for the sale of properties are met when construction of the relevant properties has been completed and the Group has obtained the project completion report issued by the relevant government authorities, the properties have been delivered to the buyers, and the collectability of related receivables is reasonably assured. Payments received on properties sold prior to the date of revenue recognition are included in the combined statements of financial position under current liabilities.

Rental income

Rental income is recognized on a time proportion basis over the lease terms.

Service income

Service income derived from hotel operation and the provision of property maintenance and management services is recognized when the relevant services are rendered.

Interest income

Interest income is recognized, on an accrual basis using the effective interest method by applying the rate that discounts the estimated future cash receipts over the expected life of the financial instrument of the net carrying amount of the financial asset.

Revenue of the sale of other goods

Revenue of the sale of other goods is recognized when the significant risks and rewards of ownership have been transferred to the buyer, provided that the Group maintains neither managerial involvement to the degree usually associated with ownership, nor effective control over the goods sold.

Properties under development

Properties under development are intended to be held for sale after completion.

Properties under development are stated at the lower of cost comprising land costs, construction costs, borrowing costs, professional fees and other costs directly attributable to such properties incurred during the development period and net realizable value.

Properties under development are classified as current assets unless those will not be realized in normal operating cycle. On completion, the properties are transferred to completed properties held for sale.

Completed properties held for sale

Completed properties held for sale are stated in the statements of financial position at the lower of cost and net realizable value. Cost is determined by an apportionment of the total costs of land and buildings attributable to the unsold properties. Net realizable value takes into account the price ultimately expected to be realizable, less estimated costs to be incurred in selling the properties.

Investment properties

Investment properties are interests in land and buildings (including the leasehold interest under an operating lease for a property which would otherwise meet the definition of an investment property) held to earn rental income and/or for capital appreciation, rather than for use in the production or supply of goods or services or for administrative purposes; or for sale in the ordinary course of business. Such properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at fair value, which reflects market conditions at the end of 2017, 2018 and 2019.

Gains or losses arising from changes in the fair values of investment properties are included in profit or loss in the year in which they arise.

Any gains or losses on the retirement or disposal of an investment property are recognized in profit or loss in the year of the retirement or disposal.

For a transfer from investment properties to owner-occupied properties or inventories, the deemed cost of a property for subsequent accounting is its fair value at the date of change in use. If a property occupied by the Group as an owner-occupied property becomes an investment property, the Group accounts for such property in accordance with IAS 16 Property, Plant and Equipment up to the date of change in use, and any difference at that date between the carrying amount and the fair value of the property is accounted for as a revaluation and carried in the asset revaluation reserve in equity. For a transfer from inventories to investment properties, any difference between the fair value of the property at that date and its previous carrying amount is recognized in profit or loss.

Transfer to or from investment property

Transfers to or from investment property shall be made when and only when there is a change in use evidenced by:

- (a) commencement of owner-occupation, for a transfer from investment property to owner-occupied property;
- (b) commencement of development with a view to sale, for a transfer from investment property to inventories;
- (c) end of owner-occupation, for a transfer from owner-occupied property to investment property; or
- (d) commencement of an operating lease to another party, for a transfer from inventories to investment property.

Estimate of fair value of investment properties

Investment properties under construction carried at fair value, were revalued at each reporting date based on the appraised market value provided by independent professional valuers. Such valuations were based on certain assumptions, which are subject to uncertainty and might materially differ from the actual results. In making the estimation, the Group considers information from current prices in an active market for similar properties and uses assumptions that are mainly based on market conditions existing at the end of 2017, 2018 and 2019 and June 30, 2020.

The principal assumptions for the Group's estimation of the fair value include those related to estimated rental values with reference to the current market rents for similar properties in the same location and condition, appropriate capitalization rates and expected profit margin. The fair value of investment properties as of December 31, 2017, 2018 and 2019 and the six months ended June 30, 2019 and 2020 was RMB8,722.9 million, RMB9,397.0 million, RMB11,572.0 million, RMB10,876.5 million and RMB12,506.7 million (US\$1,770.2 million), respectively.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings, net of directly attributable transaction costs.

The Group's financial liabilities include trade and bills payables, other payables, amounts due to shareholders, amounts due to related companies, senior notes and interest-bearing bank and other borrowings.

Subsequent measurement

The subsequent measurement of financial liabilities depends on their classification as follows:

Loans and borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost, using the effective interest rate method unless the effect of discounting would be immaterial, in which case they are stated at cost. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the effective interest rate amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate. The effective interest rate amortization is included in finance costs in profit or loss.

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, i.e. assets that necessarily take a substantial period of time to get ready for their intended use or sale, are capitalized as part of the cost of those assets. The capitalization of such borrowing costs ceases when the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs capitalized. All other borrowing costs are expensed in the period in which they are incurred. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

Income tax

Income tax comprises current and deferred tax. Income tax relating to items recognized outside profit or loss is recognized outside profit or loss, either in other comprehensive income or directly in equity.

Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of 2017, 2018 and 2019, taking into consideration interpretations and practices prevailing in the countries in which the Group operates.

Deferred tax is provided, using the liability method, on all temporary differences at the end of 2017, 2018 and 2019 between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognized for all taxable temporary differences, except:

- where the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of taxable temporary differences associated with investments in subsidiaries and associates when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognized for all deductible temporary differences, the carryforward of unused tax credits and any unused tax losses. Deferred tax assets are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, the carryforward of unused tax credits and unused tax losses can be utilized, except:

- where the deferred tax asset relating to the deductible temporary differences arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of deductible temporary differences associated with investments in subsidiaries and associates deferred tax assets are only recognized to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at the end of 2017, 2018 and 2019 and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Unrecognized deferred tax assets are reassessed at the end of 2017, 2018 and 2019 and are recognized to the extent that it has become probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of 2017, 2018 and 2019.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

For more details of our accounting policies and judgments, see our combined financial information included elsewhere in this offering memorandum.

Property development and sales

Revenue from property development and sales is recognized only after properties have been sold to purchasers and after satisfying the requirements for delivery as stipulated in the sale and purchase agreements.

Consistent with industry practice, we typically enter into sales contracts with purchasers while the properties are still under development but after satisfying the conditions for pre-sales in accordance with PRC laws and regulations. See “Business — Property Development and Sales Process — Marketing and Sales.” Before the criteria for the recognition of sales of properties are met, payments received from purchasers are recorded as “advances from customers” in our combined financial statements.

There is a time difference between the pre-sales of properties in projects under development and the completion of construction. Because the timing of completion of our properties varies according to the construction timetable, our results of operations may vary significantly from period to period depending on the GFA sold or pre-sold, and the timing between pre-sales and completion and delivery of the properties to purchasers. Periods in which we pre-sell a large amount of aggregate GFA may not be periods in which we generate a correspondingly high level of revenue if the properties pre-sold are not completed and delivered within the same period. As a result, our revenue from property development and sales may fluctuate due to factors such as the schedule of our property development and the timing of property sales.

The recognized average selling price of properties sold also fluctuated from year to year depending on the selling prices for properties in cities and regions where we developed and sold property projects as well as the types of properties delivered in the relevant years.

Commercial property investment and operations

We also generate rental income from our lease of commercial properties, office space and car parks and fee income from operation of our amusement park. Our commercial properties include Nanjing Hong Yang Plaza (including the amusement park), Changzhou Hong Yang Plaza and certain other retail spaces accompanying our residential properties. We hold these commercial properties for capital appreciation and lease them to generate rental income or operate them to generate fee income. In addition, we charge certain tenants with site use fees and advertising space use fees. Our revenue from commercial property investment and operations was RMB166.4 million, RMB359.0 million and RMB411.4 million (US\$59.1 million) for the years ended 2017, 2018 and 2019, representing 2.7%, 3.9% and 2.7% of our total revenue for the relevant year, respectively. Our revenue from commercial property investment and operations was RMB186.4 million and RMB212.8 million (US\$30.1 million) for the six months ended June 30, 2019 and 2020, representing 4.7% and 2.2% of our total revenue for the relevant period, respectively.

For tenants of our Nanjing Hong Yang Plaza and Changzhou Hong Yang Plaza, rents are usually fixed during a preliminary period, and for the remaining term, are charged at an increased fixed rate. For certain tenants, rents are determined on a pre-determined percentage of the retail gross revenue of the tenants. The tenants must accurately report their gross revenue to us on a monthly basis. Failure to do so will subject them to a contractual penalty.

The fair value of completed investment properties is determined by the income capitalization method by taking into account the net rental income of the properties derived from the existing leases and/or achievable in the existing market with due allowance for the reversionary income potential of the leases, which have been then capitalized to determine the fair value at an appropriate capitalization rate. A significant increase (decrease) in the estimated rental value would result in a significant increase (decrease) in the fair value of the investment properties. A significant increase (decrease) in the capitalization rate in isolation would result in a significant decrease (increase) in the fair value of the investment properties.

Hotel Operations

Our revenue from hotel operations mainly represents hotel room rent, dining fees and meeting venue booking fees generated from Nanjing Hong Yang Hotel and Wuxi Lakefort Hotel. We also operate an Ibis Hotel under entrustment model. This revenue is recognized over the period when such services are rendered. Our revenue from hotel operations was insignificant during the years ended December 31, 2017, 2018 and 2019 and the six months ended June 30, 2019 and 2020.

Cost of Sales

For the years ended December 31, 2017, 2018 and 2019 and the six months ended June 30, 2019 and 2020, our cost of sales was RMB3,648.0 million, RMB6,351.7 million, RMB11,356.2 million, RMB2,775.2 million and RMB7,189.4 million (US\$1,017.6 million), respectively, representing approximately 59.4%, 68.8%, 74.9%, 71.0% and 74.7% of our revenue for the relevant year.

Cost of property development and sales

Cost of property development and sales mainly includes construction costs, land acquisition costs, and capitalized interest. We recognize the cost of property sales for a given period to the extent that revenue from such properties has been recognized in such period.

Construction costs

Construction costs represent costs for the design and construction of a project, primarily consisting of payments to our contractors, including those responsible for civil engineering, construction, landscaping, equipment installation and interior decoration, as well as infrastructure construction costs and design costs. Our construction costs are affected by a number of factors, such as changes in the price of construction materials, the location and type of properties under construction and investments in ancillary facilities.

Land acquisition cost

Land acquisition costs represent costs relating to acquisition of the rights to occupy, use and develop land, and primarily include land premium paid in connection with land grants from the PRC government or land obtained by urban redevelopment, transfers, cooperative arrangements, corporate acquisitions or otherwise. Our land acquisition costs are affected by a number of factors, such as the method of acquisition, the location of the underlying property, market conditions, the project's plot ratios, the designated use of the underlying property and changes in PRC policies and regulations. We may also be required to pay demolition and resettlement costs as part of our land acquisition costs.

As land acquisition costs vary by location and as we recognize land acquisition costs only when properties satisfy the requirements for delivery, our total land acquisition costs per sq.m. vary from period to period due to differences in the composition of the total GFA delivered by each project. For example, a significant proportion of our total properties delivered in a certain period may be in locations with relatively low land acquisition costs, resulting in relatively low total land acquisition costs per sq.m. for that period, while, in another period, a significant proportion of our total GFA delivered may be in locations with relatively high land acquisition costs, resulting in relatively high total land acquisition costs per sq.m. for that period. As the location of our properties completed and delivered in future periods will vary from past periods, the above sensitivity analysis is for reference only and should not be unduly relied upon.

Capitalized Interest

We capitalize a significant portion of our finance costs to the extent that such costs are directly attributable to the construction of a particular project. Finance costs that are not directly attributable to the development of a project are expensed and recorded as finance costs in our combined income statements in the period in which they are incurred.

Cost of Commercial Property Investment and Operations

Our cost of commercial property investment and operations primarily includes depreciation costs, amortization, utilities and cleaning fees.

Cost of Hotel Operations

Our cost of hotel operations primarily includes staff costs, utility costs, depreciation expenses of the hotel building and amortization of decoration expenses.

Gross Profit and Gross Profit Margin

Our gross profit represents revenue less cost of sales. Our gross profit for the years ended December 31, 2017, 2018 and 2019 and the six months ended June 30, 2019 and 2020 was RMB2,491.6 million, RMB2,887.1 million, RMB3,813.3 million, RMB1,132.3 million and RMB2,434.4 million (US\$344.6 million), respectively. Our gross profit margin for the years ended December 31, 2017, 2018 and 2019 and the six months ended June 30, 2019 and 2020 was 40.6%, 31.2%, 25.1%, 29.0% and 25.3%, respectively.

Other Income and Gains

Our other income and gains consists of interest income, financial guarantees contracts gain, service income, government grants and others. Interest income primarily consists of interest income on bank deposits, short-term wealth management products and advances to joint ventures and associated companies. For the years ended December 31, 2017, 2018 and 2019 and the six months ended June 30, 2019 and 2020, we received discretionary government grants of RMB1.2 million, RMB1.4 million, RMB3.7 million, RMB0.1 million and RMB3.3 million (US\$0.47 million), respectively, in recognition of our achievements in energy saving and environmental protection.

Fair Value Gains/(Losses) on Investment Properties

Fair value gains on investment properties represent the excess of the current estimated value over the carrying value of the investment properties. Upward fair value adjustments are unrealized capital gains on an investment property as of the relevant reporting date. The amount of the increase in fair value attributable to an investment property depends on the prevailing property market and such increase is a non-cash gain which does not generate any cash inflow as long as we hold the relevant investment property.

The fair value losses on investment properties were RMB287.4 million in 2017. The fair value gains on investment properties were RMB260.8 million and RMB310.5 million in 2018 and 2019. For the six months ended June 30, 2020, our fair value gains on investment properties were RMB57.3 million (US\$8.1 million).

We generally expect not to receive gains from such joint ventures and associated companies until their respective development of property projects are completed and delivered. For the years ended December 31, 2017, 2018 and 2019 and the six months ended June 30, 2019 and 2020, our share of gains on joint ventures and associates were RMB418.1 million, RMB367.0 million, RMB693.0 million, RMB211.2 million and RMB232.9 million (US\$33.0 million), respectively.

Corporate income tax

Our PRC Subsidiaries are subject to a corporate income tax at the rate of 25% according to the EIT Law. For the years ended December 31, 2017, 2018 and 2019 and the six months ended June 30, 2019 and 2020, we paid RMB456.4 million, RMB638.9 million, RMB736.1 million, RMB367.1 million and RMB475.4 million (US\$67.3 million) of PRC corporate income tax. For the same periods, our effective corporate income tax rate was 28.1%, 30.1%, 36.2%, 30.1% and 37.3%, respectively.

The Company was incorporated in the Cayman Islands as an exempted company with limited liability under the Companies Law of the Cayman Islands and, is exempted from Cayman Islands income tax. The Company's direct Subsidiary in the British Virgin Islands was incorporated under the BVI Business Companies Act of the British Virgin Islands and is exempted from British Virgin Islands income tax. Hong Kong Profits Tax was calculated at 16.5% of the assessable profit during the years ended December 31, 2017, 2018 and 2019 and the six months ended June 30, 2020. No provision for Hong Kong Profits Tax was made as our Group did not have any assessable profit during the years ended December 31, 2017, 2018 and 2019 and the six months ended June 30, 2020 subject to Hong Kong Profits Tax.

LAT

Under PRC laws and regulations, our property development and sales are subject to LAT in respect of the appreciated value of the related land and improvements on such land. LAT applies to both domestic and foreign investors in real estate development in the PRC and is levied on properties for sale, at progressive rates ranging from 30% to 60% on the appreciation of land value. Certain exemptions are available for the sale of ordinary residential properties if the appreciation values do not exceed 20% of the total deductible items (as defined in the relevant tax laws). Whether a property qualifies for the ordinary residential property exemption is determined by the local government. Historically, sales of higher-end properties and commercial properties have had higher appreciation values, and have been therefore generally subject to higher LAT rates. On December 28, 2006, the SAT issued the Notice on the Settlement Management of Land Appreciation Tax on Real Estate Enterprises (《關於房地產開發企業土地增值稅清算管理有關問題的通知》), which took effect on February 1, 2007. Such notice provides further clarification regarding the settlement of LAT. Local provincial tax authorities can formulate their own implementation rules according to the notice and local conditions. On May 12, 2009, the SAT issued the Regulations of Land Appreciation Tax Settlement Administration (《土地增值稅清算管理規程》), effective on June 1, 2009, which further clarifies the specific conditions and procedures for the settlement of LAT. We make provisions for LAT by reference to our recognized sales and in accordance with our estimates of the LAT which will be payable under relevant PRC laws and regulations, but only prepay 2% to 3% of the pre-sales or sales proceeds after the pre-sales or sales, as the case may be, as required by the local tax authorities under prevailing market practice. During the years ended December 31, 2017, 2018 and 2019 and the six months ended June 30, 2020, we paid RMB349.2 million, RMB159.7 million, RMB496.5 million and RMB275.7 million (US\$39.0 million) for LAT, respectively. We made LAT provisions of RMB401.1 million, RMB441.4 million, RMB564.8 million, RMB142.8 million and RMB275.7 million (US\$39.0 million) for the years ended December 31, 2017, 2018 and 2019 and the six months ended June 30, 2019 and 2020, respectively. See “Regulation — Regulations on Taxation — Land Appreciation Tax” for more details on the PRC regulations on LAT.

Profit and Total Comprehensive Income for the Year

For the years ended December 31, 2017, 2018 and 2019 and the six months ended June 30, 2019 and 2020, our total comprehensive income was RMB1,195.5 million, RMB1,323.1 million, RMB1,656.8 million, RMB724.5 million and RMB895.1 million (US\$126.7 million), respectively.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF RESULTS OF OPERATIONS

Six months ended June 30, 2020 compared to six months ended June 30, 2019

Our revenue increased by 146.3% from RMB3,907.5 million in the first half of 2019 to RMB9,623.8 million (US\$1,362.2 million) in the first half of 2020 mainly attributable to an increase in revenue derived from our property development and sales.

The table below sets forth a summary of revenue derived from each of our business segments:

	For the Six Months Ended June 30,				
	2019		2020		
	RMB'000 (unaudited)	%	RMB'000 (unaudited)	US\$'000 (unaudited)	%
Property development and sales	3,703,189	94.8	9,398,208	1,330,230	97.7
Commercial property investment and operations	186,413	4.7	212,839	30,125	2.2
Hotel operations	17,899	0.5	12,765	1,807	0.1
Total	3,907,501	100.0	9,623,812	1,362,162	100.0

Revenue derived from property development and sales increased significantly by 153.8% from RMB3,703.2 million in the first half of 2019 to RMB9,398.2 million (US\$1,330.2 million) in the first half of 2020, mainly due to the increase in projects delivered in 2020 and hence the increase in the recognized revenue.

Revenue derived from commercial property investment and operations increased by 14.2% from RMB186.4 million in the first half of 2019 to RMB212.8 million (US\$30.1 million) in the first half of 2020. The increase was mainly due to the additional contributions from Pavilion C2 and C3 Nanjing Hong Yang Plaza grandly opened in August 2019.

Revenue derived from hotel operations decreased by 28.7% from RMB17.9 million in the first half of 2019 to RMB12.8 million (US\$1.8 million) in the first half of 2020, which was mainly due to decrease in occupancy rate in the hotel industry as affected by the COVID-19 epidemic.

Cost of sales

Our cost of sales increased by 159.1% from RMB2,775.2 million in the first half of 2019 to RMB7,189.4 million (US\$1,017.6 million) in the first half of 2020, primarily due to the increased number of projects delivered during the period. The projects delivered during the relevant period included Changzhou Tian Xia Jin (天下錦) project, Chuzhou Times Billow (時光瀾庭) project and Wuxi Sunrise Joy Court (昕悦棠) project.

Gross profit and gross profit margin

As a result of the foregoing, our gross profit increased by 115.0% from RMB1,132.3 million in the first half of 2019 to RMB2,434.4 million (US\$344.6 million) in first half of 2020. Our gross profit margin decreased from 29.0% in the first half of 2019 to 25.3% in the first half of 2020, primarily due to the decrease in the percentage of revenue recognized for products with higher gross profit margin as compared with the same period of 2019.

Other income and gains

Our other income and gains decreased by 26.5% from RMB244.0 million in the first half of 2019 to RMB179.2 million (US\$25.4 million) in the first half of 2020 mainly due to the reclassification of management consulting service fees as revenue.

Selling and distribution expenses

Our selling and distribution expenses increased by 21.4% from RMB263.3 million in the first half of 2019 to RMB319.7 million (US\$45.3 million) in the first half of 2020 mainly due to the launch of new property projects of the Group available for pre-sale in 2020.

Administrative expenses

Our administrative expenses increased by 50.3% from RMB361.3 million in the first half of 2019 to RMB543.1 million (US\$76.9 million) in the first half of 2020 mainly due to the business expansion of the Group.

Working Capital

We have historically financed and will continue to finance our working capital through proceeds from the pre-sales and sales of properties, receipt of rental income, borrowings from banks and other financial institutions, shareholder's capital injection and bonds. As of December 31, 2017, 2018 and 2019 and the six months ended June 30, 2020, the amount of our outstanding current and non-current bank loans was RMB8,034.6 million, RMB13,626.0 million, RMB14,546.2 million and RMB18,034.1 million (US\$2,552.6 million), respectively. As of the same dates, our outstanding amount of other borrowings (including loans and trust and other financings) was RMB3,594.9 million, RMB5,700.5 million, RMB5,725.5 million and RMB2,536.7 million (US\$359.0 million), respectively. We expect to receive cash from pre-sales of each of the projects under development and projects held for future development when the Group obtains pre-sale permits for these projects. We generally commence pre-sale activities for our properties within six to nine months after the acquisition of the relevant land parcels. We also expect to obtain project development loans from commercial banks and financings from trust companies or asset management companies from time to time in the ordinary course of business. The Group may also issue corporate bonds to obtain additional financings after the Listing. See "Business — Project Financing."

We have long term cooperative relationships with major commercial banks in Jiangsu Province. In anticipation of our business expansion in 2018, we have been discussing strategic cooperation since late 2017, which have led to the recent signing of long term cooperation agreements with a few commercial banks. On May 10, 2018, we entered into a strategic cooperation agreement with Industrial and Commercial Bank of China, Nanjing Branch that provided an aggregate credit line of RMB10.0 billion to us to fund our acquisition and working capital. On May 15, 2018, we entered into a strategic cooperation agreement with Jiangsu Bank, Nanjing Branch that provided an aggregate credit line of RMB10.0 billion to us to fund our business operation and working capital. On May 31, 2018, we entered into a strategic cooperation agreement with Shanghai Pudong Development Bank, Nanjing Branch that provided an aggregate credit line of RMB10.0 billion to us to fund our acquisition and working capital. On June 21, 2018, we entered into a strategic cooperation agreement with PingAn Bank that provided an aggregate credit line of RMB6.0 billion to us to fund our acquisition and working capital. On February 2019, we entered into a strategic cooperation agreement with China Minsheng Bank that provided an aggregate credit line of RMB10.0 billion. The amounts of credit lines provided under these strategic cooperation agreements are firm offers, although the drawdown will be subject to the internal approval of these banks. We expect that we will have significant cash inflow from pre-sales and sales of properties which are currently under development.

Taking into account our business prospects, the cash generated from our operations, presently available banking facilities and other financial resources available to us and our presence in the offshore debt capital markets, we believe we will have sufficient available working capital for our present requirements for at least 12 months following the date of this offering memorandum.

As of June 30, 2020, we had capital commitments of RMB9,954.1 million (US\$1,408.9 million). As of the same date, we had aggregate bank and other borrowings of approximately RMB13,825.8 million (US\$1,956.9 million) to be repaid within the two years. We plan to satisfy such repayment obligations principally through proceeds from pre-sales and sales of properties, new bank borrowings or refinancings and issuance of bonds. We expect that we will have significant cash inflow from pre-sales and sales of properties which are currently under development. As of June 30, 2020, we had total bank facilities of RMB52,610.0 million (US\$7,446.5 million), with unused bank facilities of RMB21,530.0 million (US\$3,047.4 million). We believe that we have sufficient unused banking facilities and internal resources to repay our indebtedness as it becomes due, to meet our capital commitments, including for both our existing and future development projects. For details regarding our fund and working capital management measures, see “Business — Fund Management.”

Total	12,494,966	7,584,892	12,108,720	17,927,301	2,537,445

We provide guarantees to banks to secure the mortgage arrangements of purchasers of its properties. As of December 31, 2017, 2018 and 2019 and June 30, 2020 the maximum amount of guarantees given by us to the banks for mortgage facilities amounted to RMB5,046.9 million, RMB5,800.2 million, RMB8,454.9 million and RMB13,547.6 million (US\$1,917.5 million), respectively. These include guarantees which will be terminated upon the completion of the transfer procedures with the purchasers in respect of the legal title of the properties, and guarantees which will be terminated upon the full repayment of mortgage loans by the purchasers to the banks.

We do not consider it probable that it will sustain a loss under these guarantees as the banks have the right to sell the property and recover the outstanding loan balances from the sale proceeds if the property purchasers default on these payment obligations. We have not recognized any deferred income in respect of these guarantees as their fair value is considered to be minimal by us.

We provided guarantees to banks and other institutions in connection with financial facilities granted to related companies and third parties. As of June 30, 2020, guarantees provided by us for related companies amounted to RMB4,379.7 million (US\$619.9 million). Certain of the Group's property, plant and equipment, completed properties held for sale, properties under development and investment properties were pledged to secure bank and other borrowings granted to our related companies.

Legal Contingencies

In the normal course of business, we may be involved in lawsuits and other proceedings. While the outcomes of such contingences, lawsuits or other proceedings cannot be determined at present, we believe that any resulting liabilities will not, individually or in the aggregate, have a material adverse effect on our financial position or results of operations.

As of the date of this offering memorandum, we had no other material contingent liabilities other than those disclosed in this offering memorandum.

OFF-BALANCE SHEET COMMITMENTS AND ARRANGEMENTS

Except for the contingent liabilities described above, we have not entered into any off-balance sheet arrangements or commitments to guarantee the payment obligations of any third parties and related parties. We do not have any variable interest in any unconsolidated entity that provides financing, liquidity, market risk or credit support to us or engage in leasing or hedging or research and development services with us.

MARKET RISKS

We are exposed to various types of market risks from its use of financial instruments, in the normal course of our operations, mainly including credit risk, liquidity risk, interest rate risk and foreign currency risk. Our risk management strategy aims to safeguard our ability to continue in order to provide returns for our shareholders and to minimize our risk exposure.

Credit Risk

Credit risk is the risk of loss due to the inability or unwillingness of a counterparty to meet its contractual obligations. We have no concentrations of credit risk in view of our large number of customers. We did not record any significant bad debt losses during the years ended December 31, 2017, 2018 and 2019. The credit risk of our other financial assets, which mainly comprise restricted cash and pledged deposits, other receivables, and amounts due from related companies, arises from default of the counterparty, with a maximum exposure equal to the carrying amounts of these instruments.

Liquidity Risk

Our objective is to maintain a balance between continuity of funding and flexibility through the use of interest-bearing bank and other borrowings. Cash flows are closely monitored on an ongoing basis.

Interest Rate Risk

Our exposure to risk for changes in market interest rates relates primarily to our interest-bearing bank and other borrowings. We do not use derivative financial instruments to hedge interest rate risk. We manage our interest cost using variable rate bank borrowings and other borrowings.

Currency Risk

Our business is principally conducted in RMB and most of our monetary assets and liabilities are denominated in RMB. Accordingly, we consider our exposure to currency risk to be insignificant.

BUSINESS

OVERVIEW

We are a comprehensive property developer with a strong foothold in the Yangtze River Delta Region and a national strategic layout, focusing on the development of residential properties and the development, operation and management of commercial and integrated properties. Through implementing the national layout strategy of “penetrating the Greater Jiangsu Region, strengthening foothold in major metropolitan areas and expanding into core cities” (做透大江蘇、深耕都市圈、做強中心城), we have promoted and stabilized our national strategic layout and strengthened our regional foothold with focus on core areas, bringing us to a stage of rapid and balanced development. Since the incorporation of Nanjing Redsun in 1999, we have worked in the sector of property development and sales for over 20 years, established the Hong Yang brand and received widespread recognition for our development capacity and industry position. We have maintained steady growth in recent years. Our net profit increased from RMB1,220.7 million in 2017 to RMB1,412.3 million in 2018 and further increased to RMB1,467.6 million in 2019, and our net profit for the six months ended June 30, 2019 and 2020 amounted to RMB743.1 million and RMB677.4 million (USD95.9 million), respectively. As of December 31, 2017, 2018 and 2019 and June 30, 2020, our total assets amounted to RMB41,325.3 million, RMB67,922.1 million, RMB95,397.1 million and RMB101,695.8 million (US\$14,394.1 million), respectively.

We have established the *Hong Yang* brand, which enjoyed a high reputation and recognition in the Yangtze River Delta region. In 2020, we were ranked 47th among China’s Top 500 property developers and 2nd in terms of growth rate among China’s Top 10 property developers by the China Real Estate Association, Shanghai E-house China R&D Institute and China Real Estate Appraisal. Sales of the Group for the first half of 2020 also increased its rank to 46th nationwide according to the statistics of CRIC (克而瑞研究中心). In 2019, we were ranked TOP 500 China Real Estate Developers by China Real Estate Association, E-house China R&D Institute, and China Real Estate Appraisal and TOP 50 New and Vigorous Chinese Listed Companies by Brand Value by National Business Daily and Tsinghua SEM, and we also received the award of “2019 Top 30 Brand of China Real Estate Companies (mixed all 11–30) (2019中國房地產公司品牌價值TOP 30 (混合所有11–30)) in the 2019 China Real Estate Brand Value Research Results Release Conference cum 16th China Real Estate Brand Development Summit (2019年中國房地產品牌價值研究成果發布會暨第十六屆中國房地產品牌發展高峰論壇) held in Beijing in 2019.

Designing and developing customer-tailored products and implementing high standards of quality control are the lifeline of us. We conducted an intensive study of customer needs and launched four product lines, from properties with the best improvement, to high-quality rigid demand housing, namely, Times Series (時光系), Sunrise Series (昕悅系), Chenhui Series (宸暉系) and Hongzhu Series (弘著系), to meet the needs of different consumer groups. We use high-quality materials and accessories for construction and decoration and critically review the work of contractors. We use the internal standard of “millimetric quality error” for product quality control. We strive to meet the needs of our customers through fine workmanship and quality control measures.

We have balanced property development and operation abilities. While developing residential properties, we also operate commercial complexes covering shopping malls, amusement parks and community centers, hotels and office buildings. Most of these

commercial property buildings are adjacent to our residential property projects, providing ancillary services for our residents and also driving the appreciation of our residential property projects. Looking ahead, we will continue to adhere to the “Property + Commercial” dual-driven strategy. In 2017, 2018 and 2019, our commercial properties maintained an average rental rate of over 90%, and accounted for a revenue of RMB166.4 million, RMB359.0 million and RMB411.4 million, respectively. In the six months ended June 30, 2020, revenue from commercial operations and hotel operations increased by 10.4% to RMB225.6 million (US\$31.9 million) as compared to RMB204.3 million in the corresponding period of 2019.

We focus our business activities across the Yangtze River Delta region, one of the most economically prosperous and vibrant regions in China, and have gradually extended our reach to the Greater Bay Area, the Chengdu-Chongqing region, the middle reaches of Yangtze River and the Shandong Peninsula. As at June 30, 2020, we had a total of 169 projects under construction with an aggregate planned gross floor area of 18,370,000 sq.m. By virtue of our deep understanding of the property markets in the Yangtze River Delta region, we strategically selected and acquired quality land in the Jiangsu and Anhui Provinces. As of June 30, 2020, we had land reserves with a total GFA of approximately 18,374,029 sq.m. (GFA of approximately 9,677,837 sq.m. was attributable to us), representing an increase of 8.5% from that of 16,931,996 sq.m. as at 31 December 2019. Our land reserves comprise of (i) completed properties with a saleable GFA of approximately 856,744 sq.m., (ii) investment properties with a rentable GFA of approximately 734,520 sq.m., and (iii) properties under development with an aggregate GFA of approximately 16,782,765 sq.m.. We believe our existing land reserves can provide sufficient support for our future development.

We launched our head office in Shanghai in February 2019 to form a dual headquarters’ operation in Shanghai and Nanjing. Shanghai, which has a large property market, is one of our key expansion regions in future. Our investment, financing, research and development and human resources departments will be mainly set up in Shanghai in the future to provide support for our further business expansion.

We have been successfully listed on the Stock Exchange of Hong Kong since July 12, 2018 and our shares are listed under the stock code “1996”. We believe our listing has provided us an important opportunity for leapfrog development. Starting from 2019, our shares were included in the Hang Seng Composite Index and the southbound Stock Connect, which we believe will further strengthen our influence in the capital markets.

COMPETITIVE STRENGTHS

We believe that the following competitive strengths are the key to our many achievements and distinguish us from our competitors:

Establishing the *Hong Yang* brand and becoming a leading comprehensive property developer in Yangtze River Delta Region

We are a comprehensive property developer with a strong foothold in the Yangtze River Delta Region and a national strategic layout, focusing on the development of residential properties and the development, operation and management of commercial and multi-use properties. Since the incorporation of Nanjing Redsun in 1999, we have worked

continuously in property development and sale sector, establishing our *Hong Yang* brand and receiving widespread recognition for our property development expertise and market-leading position.

Rooted in the Yangtze River Delta region with a particular focus on Nanjing, Suzhou, Wuxi, Changzhou and Nantong in Jiangsu Province and Hefei, the capital city of Anhui Province, currently we have also expanded our business into selected cities with high growth potential, such as Guangzhou, Kaifeng, Nanchang, Wuhan and Changsha. In terms of GDP, population and per capita income, the Yangtze River Delta region is one of the most dynamic economic regions in China. In 2016, while the land area of the Yangtze River Delta region represented only 2.2% of the total land area in the PRC, the region's GDP and sales of commodities represented 20.0% and 24.6% of the GDP and sales of commodities in the PRC as a whole. The Chinese Government also aims to promote the development of the region with favorable policies (such as supporting the growth of the Shanghai Free Trade Zone), with the goal of transforming the region into the world's largest metropolis circle by 2030.

Our development has been based on our foundation in Nanjing, Jiangsu Province. Jiangsu Province is one of the most developed economies in China, with a GDP that reached RMB9,963 billion in 2019, which ranked second among all regional economies in China that year. As the capital of Jiangsu Province, Nanjing is an important coastal transportation hub in eastern China and also one of the commercial, trade and financial centers in the Yangtze River Delta region. Our Nanjing Hong Yang Plaza development received the Nanjing New Commercial Landmark award in 2018. Our Nanjing Solaris Loving City • Section VIII (旭日愛上城八區) development received the Nanjing Single Property Top Sales for Residential Buildings award in 2017 by number of units sold.

Jiangbei New Area, Nanjing, where our Nanjing headquarter is located, is a demonstration new district approved by the State Council in 2015 for the purpose of transforming and upgrading of China's national industries and pioneering new urbanization and development. Jiangbei New Area is the only nationally chartered new district in Jiangsu Province. As a new growing region in southern Jiangsu, Jiangbei New Area is also the northern service center and comprehensive transportation hub of the Nanjing metropolis circle, with promising development potential. The Jiangbei New Area government has adopted several policies to promote growth, such as financial subsidies for scientific research institutions and fund investment for innovative enterprises, in order to attract well-known enterprises and talented individuals to settle in the district. Consistent with these growth policies, we have actively contributed to the development of Jiangbei New Area. As of December 31, 2017, we had developed an aggregate GFA of 4,923,012 sq.m. of residential and commercial properties in Jiangbei New Area. Our primary property properties in Jiangbei New Area comprise the Solaris Upper City, Solaris Loving City and Hua Impression residential properties, Nanjing Hong Yang Plaza and Nanjing Hong Yang Hotel.

Our *Hong Yang* brand enjoys a strong reputation and widespread recognition in the Yangtze River Delta region. The brand "Hong Yang" held by Hong Yang Group Company is China well-known trademark. In 2020, we were ranked 47th among China's Top 500 property developers and 2nd in terms of growth rate among China's Top 10 property developers by the China Real Estate Association, Shanghai E-house China R&D Insitute and China Real Estate Appraisal. Sales of the Group for the first half of 2020 also increased its rank to 46th nationwide according to the statistic of CRIC (克而瑞研究中心). In 2019, we were included in the following categories by the China Real Estate Association, E-house

China R&D Institute, China Real Estate Appraisal and National Business Daily and Tsinghua SEM: TOP 500 China Real Estate Developers and TOP 50 New and Vigorous Chinese Listed Companies by Brand Value.

Our net profit increased from RMB1,220.7 million in 2017 to RMB1,412.3 million in 2018 and further increased to RMB1,467.6 million in 2019, and our net profit for the six months ended June 30, 2019 and 2020 amounted to RMB743.1 million and RMB677.4 million (US\$95.9 million), respectively. As of December 31, 2017, 2018 and 2019 and June 30, 2020, our total assets amounted to RMB41,325.3 million, RMB67,922.1 million, RMB95,397.1 million and RMB101,695.8 million (US\$14,394.1 million), respectively.

Innovative product design, accurate product positioning, leading quality control system and customer-tailored products

Designing and developing customer-tailored products and implementing high standards of quality control have been critical to our success.

To position our products to meet the needs of different consumer groups, we conducted an intensive study of customer needs and launched four product lines, from properties with the best improvement, to high-quality rigid demand housing, namely, Times Series (時光系), Sunrise Series (昕悦系), Chenhui Series (宸暉系) and Hongzhu Series (弘著系). To optimize our home designs, we worked with famous design companies in China and abroad based on the concept of “the same function with smaller areas and the same area with richer functions.” In respect of landscape design, we engaged international and domestic leading landscape design companies to develop comfortable and pleasant residential environments that surpassed industry benchmarks. When expanding to different cities and regions, we take into account specific regional characteristics, market trends and customer feedback in creating designs that we believe will satisfy our customers’ needs.

We strive to enhance customer satisfaction through fine workmanship and quality control measures. In all of our developments, we used high-quality construction materials and accessories and carefully monitor the work of our contractors. We have adopted a quality standard that we refer to as “millimetric quality error” for product quality control. Our quality control measures consist of several elements: (i) supervising construction on the basis of design drawings, quality targets agreed in project contracts, national construction acceptance rules, construction quality inspection standards and our Hong Yang Real Estate Project Administration System; (ii) engaging third parties to evaluate the construction and delivery stages and to survey customer satisfaction with delivered properties; and (iii) exploring the use of big data analytics to identify signs of consumer satisfaction in the information we accumulate through our information technology platform.

We have achieved a strong reputation and high customer retention rates as a results of our complete product lines, excellent designs in the areas of home layout and landscaping and strict quality control. In 2017, our customer retention as measured by recommendation and repurchase rates reached approximately 22%. Meanwhile, according to the FG Consulting (賽惟諮詢)’s third-party customer satisfaction survey, most of our residential property products achieved high customer satisfaction.

With our innovative product design and standardized operating procedures and system, we have managed to maintain our product leadership in the market while improving our operational efficiency. We have received four industry awards in the first half of 2020, among which our “Chengdu • Future Time” had been recognized as the best cost-effective product in the CRIC Product Power League, with selling rate ranked number 1 in the Shortlisted List of Cost-Effective Products in the First Half of 2020 (2020年上半年高性價比產品測評入圍項目). Our other recent and landmark projects include Chengdu Xinglong Lake project, Suzhou Xiangcheng project and Zhengzhou Hongyang Mansion.

High-quality land reserves and stable and reliable land acquisition ability

Leveraging our deep understanding of the property markets in the Yangtze River Delta region, we have strategically selected and acquired quality parcels of land that will enable us to further develop these markets, particularly in Jiangsu Province and Anhui Province. To achieve rapid and quality growth, we have proposed and promoted the investment strategy of “penetrating the Greater Jiangsu Region, strengthening foothold in major metropolitan areas and expanding into core cities” (做透大江蘇、深耕都市圈、做強中心城). In 2019, we entered 17 cities including Jinan, Qingdao, Xi’an, Changsha, Wenzhou and Zhengzhou, and we have currently established our presence in the Yangtze River Delta, Southwest China, South China, Central China and Northwest China regions, gradually realizing our nationwide expansion. In pursuing developments in new cities, we conduct extensive pilot studies and follow careful evaluation standards before we acquire land. We believe that our high-quality land reserves, will lead to long-term and stable growth.

We have a variety of methods to acquire land, including tender, auction or listing-for-sale, merger and acquisition and cooperative development with third parties. Cooperating with reputable property developers enables us to obtain large, high-quality projects, and we can manage the investment risks we face by minimizing the investment cost. In the Yangtze River Delta region, due to our local resources and brand appeal, many leading property developers in the PRC have established long-term stable partnerships with us. In other regions, the synergistic effect achieved through cooperation also enabled us to benefit from local resources to build our own brand and reputation. For example, the “Great Time at Joy Peak West District” in Nanjing, developed in partnership with Greenland Group, “Best Time Garden” in Nantong, developed in partnership with Country Garden and Zhongnan Group, and “Superior Charm Garden” in Suzhou, developed in partnership with Future Land all achieved satisfactory market responses.

As of June 30, 2020, we had land reserves with a total GFA of approximately 18,374,029 sq.m. (GFA of approximately 9,677,837 sq.m. was attributable to us), representing an increase of 8.5% from that of 16,931,996 sq.m. as at 31 December 2019. Our land reserves comprise of (i) completed properties with a saleable GFA of approximately 856,744 sq.m., (ii) investment properties with a rentable GFA of approximately 734,520 sq.m., and (iii) properties under development with an aggregate GFA of approximately 16,782,765 sq.m.. We believe our existing land reserves can provide sufficient support for our future development.

Excellent commercial property assets and strong operational abilities, forming synergistic effect in residential property development

We have balanced property development and operational abilities and maintained a “Property + Commercial” dual-driven strategy. We began the sale of our first residential development Hongyang Xurihuating in 2003 and commenced development of Nanjing Hong Yang Plaza in 2006, signaling the start of our commercial business. Alongside the development of residential properties, we operate a range of commercial properties that include shopping malls, amusement parks, community centers, hotels and office buildings. As at June 30, 2020, we operate three Hong Yang Plazas, which were located in Nanjing, Changzhou and Yantai respectively, one office building (Hong Yang Tower), two hotels (Nanjing Hong Yang Hotel and Wuxi Lakefort Hotel) and an Ibis Hotel under entrusted management model. Most of these commercial property buildings are adjacent to our residential property projects, providing ancillary services for our residents and also driving the appreciation of our residential property projects.

In selected cities, we strive to build integrated living centers in promising locations with the goal of meeting the different needs of customers through various business formats. We believe that this approach helps to develop a city while improving the regional property values and living environments. Our Nanjing Hong Yang Plaza has a large commercial scale. After upgrading, it combines multiple commercial properties, including an integrated shopping mall, an amusement park and a home furniture mall. Nanjing Hong Yang Plaza can provide customers of different age groups with shopping, leisure and entertainment options, including an amusement park with a ferris wheel and a roller coaster. Changzhou Hong Yang Plaza, which is adjacent to the Hong Yang Upper City • Phase IV development has been designed to provide a garden-style shopping experience, a revolving restaurant street and an ecology-themed kids' park, and will also include hotels and office space. Changzhou Hong Yang Plaza has been designed as a neighborhood center, based on our “Hong Yang Life + (&Home)” design concept, which we believe will provide our customers with a wide variety of dining, shopping, sports and entertainment venues.

We strive to achieve synergies through an organic combination of commercial property projects and residential property projects. Commercial properties can generate stable rents, supplement cash flows for our residential property development business and reduce risks brought by price fluctuations and uncertain delivery schedules in the residential property development business. Our commercial property assets also create more possibilities for financing. Meanwhile, commercial properties can improve the overall positioning, attractiveness and investment value of property projects, driving the growth of residential property sales. In addition, the brand effect produced by commercial properties can also establish customer loyalty for residential property projects. Our commercial property operations have matured over time. In 2017, 2018 and 2019 and the six months ended June 30, 2019 and 2020, our commercial properties maintained an average rental rate of over 90%, and accounted for an operating income of RMB166.4 million, RMB359.0 million, RMB411.4 million, RMB186.4 million and RMB212.8 million (US\$30.1 million), respectively.

An efficient and modern management model that focuses on investment, financing, management and exit (IFME) to maximize returns on property projects

We have established an efficient and modern management model characterized by investment, financing, management (operations) and exit (marketing) and a throughout operation indicator system. These elements are integrated and designed to maximize returns on property projects. We believe that our IFME management model injects vitality and accountability into the Group and helps us to ensure product quality, improve operational efficiency, keep project development on schedule, lower construction costs, and increase shareholder returns.

Investment. We have developed a detailed indicator evaluation system when evaluating projects for investment. Prior to an investment, the main indicators we consider include revenue and cost of land acquisition ratio, gross profit margin and net profit, launch time, destocking cycle, positive cash flow-back cycle. Also prior to an investment, we require preliminary arrangement of financing to be expressly provided in project feasibility report and project investment decision and estimate real-time cash flow. We strive to be disciplined in following the original indicators for a project throughout the pre-investment, investment and post-investment phases. We assign responsibility to specific personnel to adhere to the indicators and they are accountable if there is any deviation. We also have land-acquisition policies in joint venture projects, which are designed to achieve rapid turnover, high profits and low risk and profitability.

Financing. We follow sound financial policies and endeavor to broaden our financial channels to meet our need for capital. We have a variety of sources of funds, including land mortgage financing provided by commercial banks, project development financing, fixed asset financing, working capital loans, debt financing provided by trust companies and asset management companies and capital increases by shareholders. To maintain stable financing sources and lower financing costs, we have established strong relationships with many major banks in China, including Agriculture Bank of China, Bank of China, ICBC and Bank of Communications. In addition, we sought financing from major trust companies, including Chang'an International Trust Co., Ltd. (長安國際信託股份有限公司) and Shanghai Ai Jian Trust Co., Ltd. (上海愛建信託有限責任公司), and major asset management companies, including China Huarong Asset Management Co., Ltd. As of June 30, 2020, we had total bank facilities of RMB52,610.0 million (US\$7,446.5 million), with unused bank facilities of RMB21,530.0 million (US\$3,047.4 million).

We follow systematic financial management practices and manage our current assets by closely monitoring the cash status and maturity profile of our borrowings, so as to ensure sufficient working capital. We continually review our debt structure in view of our diversified capital sources, high-quality project portfolio and the PBOC's policy of lowering the benchmark lending rate. As of June 30, 2020, our borrowings maturing within one year, in the second year, within two to five years and over five years accounted for 36.8%, 18.6%, 41.9% and 2.6%, respectively, of our total outstanding debt. By virtue of our close relationships with banks and our good credit history, we believe that we will be able to reduce the interest rates we pay on our current borrowings, thereby reducing our financing costs. The effective interest rates on our debt, in the aggregate, were 7.50%, 7.81%, 8.55%, 8.87% and 7.83% in 2017, 2018 and 2019 and the first half of 2019 and 2020, respectively.

Management (Operation). We have established “large operation” management systems to improve operation efficiency through standardized project development and management procedures, clear meeting decision-making mechanism, assessment indicator system and various information systems that are necessary to conduct large and complex business operations successfully. Our management systems include detailed operation indicators system and procedures for the main workflows in all phases of the project cycle, with responsibility assigned to specific personnel and completion criteria. For example, we set clear objectives for opening new projects by requiring our development teams in various cities to commence work within 85 days and achieve quality opening within 180 days after land acquisition. To help achieve this result, we formulate a “route for realizing opening within 180 days,” specify key deadlines, assign various business support lines to participate in the development process and strive for efficiency in applying for and receiving approvals. Meanwhile, we have standardization for planning and design, component parts of the pioneering zones and demonstration zones, and we have established good relationships with quality general contractors and other suppliers in order to form long-term strategic partnerships with them.

Our information technology systems can monitor real-time data and provide a reference for project evaluation indicator system. On the fourth floor of our headquarters in Hong Yang Tower, we have set up a monitoring center as our operational control platform for remote monitoring of the project implementation. This monitoring center also operates our “400” national complaint service hotline, which we established to receive feedback from our customers. Our objective is to monitor product quality and provide convenient and efficient services for customers after checking each house individually during the delivery.

Exit (Marketing). We have established a comprehensive marketing management system, which includes product positioning management, marketing tactics management, base price management, rate management and goal management. Our headquarters are responsible for auditing the product positioning and marketing tactics of every projects to ensure its rationality and comply with the overall strategy and value proposition of the Company; our Group management controls the base prices and authorizes local branches to adjust selling prices and discounts. Our Group management also controls sales commissions and manages the sales targets. In addition, at each marketing stage, we have adopted standardized marketing plans and a range of approved marketing activities. Improved marketing mechanism can for the most part enhance the selling rate of our projects.

Relying on the payback mechanism with clear time requirements, person in charge and assessment criteria, our marketing department and finance department cooperate closely and make strategy aiming at such as customer's own capital, mortgage loans from different banks and housing provident fund loans respectively, which makes the sales outstanding flowing back rapidly, has helped us improve our capital turnover rate and shorten the period in which our cash flows turn positive. Overall, we believe that our standardized procedures for project implementation will help us improve exit efficiency in the future.

The rich expertise and valuable industry experience of our senior management team members will help us seize potential opportunities and identify market risks. In addition, we have a dedicated team of employees with experience in property development, planning, design, construction, financing and other relevant fields. We recruit employees from well-known universities in China and provide them with continuous vocational training to improve their abilities. We believe that our remuneration and

incentive policies help us attract and retain talented professionals. We follow performance standards, conduct training and evaluate the performance of employees in a manner that we believe improves the work efficiency of our employees and enhances their execution ability.

Our corporate culture emphasizes professionalism and building credibility for the long term. The focus and determination of our management enables us to respond promptly to the ever-changing trends in the PRC property market. With our keen insights, we have leveraged our resources to make advances in the property sector.

OUR STRATEGIES

We endeavor to become the premier and trusted comprehensive property developer in the country. For this end, we will implement the following strategies:

Continue to proactively explore markets in the Yangtze River Delta region and selectively develop new markets at the same time to form a regional pattern of “1 + 3 + X”

Taking urban agglomeration as our development group, based on consulting companies CRIC China and Yihan’s research on over 300 property markets in Chinese cities, and taking full account of factors including economic development, market capacity, population growth rate and income level of various regions, we selected “1 + 3 + X” strategic zones (namely the Yangtze River Delta region, central China, southern China, southwestern China and other regions).

We will continue to proactively explore markets in the Yangtze River Delta region, the largest economic circle in China featuring highly developed property markets. We have geographical advantages in the markets as we have reached the Yangtze River Delta for many years and our brand has been recognized by consumers. In the cities we have entered, we intend to implement the customer coverage strategy by three product lines to raise the market share. We intend to focus on Shanghai, Nanjing, Hangzhou and Hefei metropolis circles and expand into surrounding cities, and selectively enter some third/fourth-tier cities with development potentials in the Yangtze River Delta region.

Meanwhile, we had expanded our reach to the whole country by dint of our long-term development experience and ability. We took central China, southern China and southwestern China as priority target regions. In these regions, we place emphasis on hub cities, such as Wuhan, Tianjin, Chongqing, Chengdu, Zhengzhou and Changsha, and the metropolis circles formed by these hub cities and their surrounding cities. As of June 30, 2020, we have subsidiaries in Wuhan, Chongqing, Changsha and Chengdu, and plan to establish subsidiaries in the aforesaid remaining hub cities. We set up teams to explore local land resources and cooperation opportunities. In these new markets, we develop projects in a replicable and standardized way and flexibly adapt to local market characteristics for rapid destocking. With the gradual outward extension of these hub cities and metropolis circles, we believe that the Group will be transformed from a regional property company into a first-class, trusted comprehensive property developer in the country.

Continue to adopt diversified land acquisition strategies to enrich and optimize our land reserves

We believe that traditional process of bidding invitation, auction or listing is becoming more difficult and gradually becoming poor popular due to policy intervention, whereas process of bidding invitation, auction or listing based on government industrialization guides will become more popular. However, as industry centralization is increasing, mergers and acquisitions still exist and are expected to expand rapidly in the next two to three years.

We will continue to adopt diversified land acquisition strategies including open tender, auction or listing-for-sale, cooperation with the third-party partners and acquisitions of equity interest of other companies or property interests held by them. Tender, auction or listing-for-sale is the most important way for us to acquire land in recent years and is expected to continue to be one of the most important ways for us to acquire land in future.

In the coming two to three years, we plan to continue making cooperative development as an important way of acquiring land and enhance the strength of acquiring land through mergers and acquisitions. Cooperative development is our important land development channel, specifically including joint trading, land lot trading, alternate trading, and so on. We attach great importance to our partners' goodwill and only choose to cooperate with quality enterprises with strong brand strength and rich resources. Mergers and acquisitions are also an important means for us to acquire land reserves. In recent years, we successfully obtained quality projects including Mountain View Garden in Jurong, Zhenjiang and Wuxi Sanwan Qing by mergers and acquisitions or financial investment. In 2019, we expanded to a number of metropolitan core cities of China including Jinan, Qingdao, Xi'an, Changsha, Wenzhou and Zhengzhou, to expand our urban layout. Through these flexible and diversified land acquisition strategies, we believe that the land reserves of the Group will be further enriched and optimized.

Further improve product quality and design based on customer and created value for customer

We have always valued product quality, as it is closely connected to the brand image of the Group. We will continue to improve product quality, which will help raise popularity and consumer recognition of the Group in China, thus facilitating our nationwide layout plan. While ensuring reliability of product quality, we will also seek to standardize more product lines, design schemes and development process to accelerate destocking by scalable business models.

We will take characteristics of consumer groups as the point of entry and make targeted design of house layout and community facilities to meet needs of different people. In the coming years, we will gradually shift our main service targets from people with rigid demand to upgraders, and eventually achieve full coverage of all types of customers by the three product lines.

As the population structure and social concepts change over time, consumers' demand for housing is also constantly changing. For example, in view of China's aging population, we design our residential communities with the convenience of the elderly in mind. On the other hand, the increase in the proportion of dink families and the implementation of the two-child policy are the main reasons for transformation of our products towards upgraded properties. We have also conducted special market research on young people to learn about their preferences. We will vigorously promote smart home and intelligent community and establish an online to offline platform to realize one-stop management of mobile applications for community services.

Expand the business sector primarily based on the asset-light mode to promote “Hong Yang” brand and form a synergistic effect with the residential property development sector

General consumers’ recognition of the brand “Hong Yang” is closely related to the success of commercial properties in history. Nanjing Redsun Home Furniture and Construction Mall gives many consumers in Nanjing a first impression about the Group, and Nanjing Hong Yang Plaza is even synonymous with one-stop life services in the minds of consumers in Jiangbei. Nanjing Hong Yang Plaza boosted the sales of the Group’s 22 residential communities in Jiangbei New Area, and the Changzhou Hong Yang Plaza opened in September 2018 and its interpretation of the concept of Hong Yang Life + will also become one of the major selling points of the surrounding residential community Hong Yang Upper City • Phase IV. We will continue to expand the business sector with Hong Yang Plaza as the main product and rely on brand effect of “Hong Yang” to give play to the synergistic effect with the residential property sector.

In expanding the business sector, we intend to adopt a development path combining light assets with heavy assets, dominated by light assets. The combination of light assets and heavy assets helps us optimize resource allocation and avoid risks. For example, in 2019, we managed to develop a number of leasing projects and projects under entrusted management. Among others, Tengzhou Hong Yang Plaza, as a project under entrusted management, achieved contract signing and business opening in the same year, which further boosted the influence of the Hong Yang brand. Regarding commercial operations, three of our shopping centre projects, namely Pavilion C Nanjing Hong Yang Plaza, Yantai Zhifu Hong Yang Plaza and Tengzhou Hong Yang Plaza were grandly opened in 2019, which was astoundingly magnificent. In the future, the commercial property operation sector of the Group will take the expansion of light assets as the main route of incremental development.

Improve operation efficiency, pursue rapid turnover and increase capital use efficiency

We formulated a series of systems to standardize and regulate our business processes. Adhering to the management concept of “making headquarters perfect, cities strong and project settled,” we intend to continually optimize our business processes and establish delayering management models and improve operation efficiency by streamlining burdensome procedures and shortening decision-making chains. This will help us achieve faster opening and destocking, so as to achieve the goal of fast turnover. We will strive to shorten the average time from our land acquisition to opening to six months in the future.

We will continue to adopt robust financial policies, closely monitor important financial indicators including gearing ratio and interest coverage ratio, and prudently manage capital structure, cash flow and circulating capital to control costs and risks. We plan to maintain a reasonable inventory level to ensure stable cash flows for our operating activities and debt payments.

We also intend to further optimize capital structure via diversified financing channels. At present, our debt ratio is healthy and there is still room for profit margins, so we have greater financing flexibility. In our financing effort, we put more weight on the time value than on the cost of capital, which matches our pursuit of rapid turnover. The headquarters of the Group will continue to exercise overall control over the cash to further increase capital use efficiency.

Accelerate talent system building to attract high-quality talents in the industry

We have established talent system and accelerated to recruit talents with attractive remuneration and benefits. We issued special incentives to motivate the existing team. For example, our project co-investment scheme fully mobilized the enthusiasm of employees by clear co-investment standards.

We launched our head office in Shanghai in February 2019 to form a dual headquarters' operation in Shanghai and Nanjing. Shanghai, which has a large property market, is one of our key expansion regions in future. In addition, our demand for quality talents also increases with the nationwide business layout. There are a number of national key universities and talent pools in Shanghai. Moreover, Shanghai can also attract excellent talents from all over the country with its strong economic strength and Shanghai culture. We hope the second headquarters in Shanghai can attract high-quality talents. Our investment, financing, research and development and human resources departments will be mainly set up in Shanghai in the future to provide support for our further business expansion.

The COVID-19 Outbreak

The COVID-19 pandemic which began at the end of 2019 has affected millions of individuals and adversely impacted national economies worldwide, including China. Several cities in China where we have significant land bank and operations had imposed travel restrictions in an effort to curb the spread of the highly infectious COVID-19. The COVID-19 outbreak has affected our business operation and financial condition. However, the PRC central and local governments have taken various measures to manage cases and reduce potential spread and impact of infection, and further introduced various policies to boost the economy and stimulate the local property markets. Since March 2020, China and some other countries gradually lifted stay-at-home orders and began to resume work and school at varying levels and scopes. Given the uncertainties as to the development of the outbreak at the moment, it is difficult to predict how long these conditions will persist and to what extent to which we may be affected. We cannot assure you that our business, financial condition and results of operations will not be materially and adversely affected. For details, please see “Risk Factors — Natural disasters, acts of war, occurrence of epidemics, and other disasters could affect our business and the national and regional economies in the PRC”.

OUR BUSINESS

Our business operations consist of three principal business segments: (i) property development and sales; (ii) commercial property investment and operations and (iii) hotel operations. We derive our revenue from sales of residential properties and accompanying retail spaces developed by us, rental income from commercial property investment and operations and service fee income from hotel operations. The table below sets forth a breakdown of our total revenue by business lines and nature of income for the periods indicated:

As at June 30, 2020, we had a total of 169 projects under construction with an aggregate planned gross floor area of 18,370,000 sq.m.

Residential Properties: Our residential properties are located either in urban areas with convenient access to transportation facilities or in suburban areas with scenic surroundings. Some of these residential properties include accompanying retail spaces or office spaces. We divide our residential properties into three series:

- *Times Series (時光系)* — featuring delicate and elegant neo-classical style or fashionable and simplistic modern style. Examples include Times in the Garden (時光裡花園) in Nanjing, and In Times (時光裡) in Hefei.

- *Sunrise Series (昕悦系)* — similar to Time Series in styles and also featuring neo-Chinese architectural style. Examples include Jing Garden of Superior Class (上品璟苑) in Wuxi, Sunrise Joy Garden (昕悦花園) in Hefei, and Sunrise Joy Masterpiece Residence (昕悦名邸) in Suzhou.
- *Chenhui Series (宸暉系)* — featuring high-end residence with modern technology.
- *Hongzhu Series (弘著系)* — featuring customized designs. Examples include Wuxi Sanwan Qing (無錫三萬頃) in Wuxi and Mountain View Garden (山卿苑) in Zhenjiang.

Commercial Properties: We currently have three Hong Yang Plazas in operation and they are located in Nanjing, Changzhou in Jiangsu Province, and Yantai in Shandong Province respectively.

- The Nanjing Hong Yang Plaza, located in Jiangbei New Area, Nanjing, Jiangsu Province, is a commercial complex consisting of a shopping mall and entertainment facilities.
- The Changzhou Hong Yang Plaza, located in Tianning district, Changzhou, Jiangsu Province, is a shopping center. It is adjacent to Hong Yang Upper City • Phase IV (弘陽上城四期).

We had also developed our Hong Yang Tower and two hotels.

Hong Yang Tower: The Hong Yang Tower, located near the Nanjing Hong Yang Plaza, is an office building developed by us. We retain certain office spaces for our own use and have sold the remaining office spaces to third parties.

Hotels: We own and operate two hotels. Our Hong Yang Hotel is located next to the Nanjing Hong Yang Plaza. Our Lakefort Hotel is located near the Lake Tai (太湖) resort in Wuxi, Jiangsu Province. We also operate an Ibis Hotel under entrusted management model.

OUR PROJECT PORTFOLIO

The manner in which we classify our projects may be different from the classifications employed by other property developers. Each property project or project phase may require multiple land use right certificates, construction commencement permits, pre-sales permits and other permits and certificates, which may be issued at different times in the development process. The table below sets forth the differences between our classification of properties and in the consolidated financial statements of the Group set out elsewhere in this offering memorandum:

<u>Classification by us</u>	<u>Auditor’s report</u>

Projects or project phases for which the requisite records of application for examination of completion of works have been obtained	<ul style="list-style-type: none"> ● Completed properties held for sale ● Investment properties ● Property, plant and equipment

As at June 30, 2020, we had a total of 169 projects under construction with an aggregate planned gross floor area of 18,370,000 sq.m. By virtue of our deep understanding of the property markets in the Yangtze River Delta region, we strategically selected and acquired quality land in the Jiangsu and Anhui Provinces, and have gradually extended our reach to the Greater Bay Area, the Chengdu-Chongqing region, the middle reaches of Yangtze River and the Shandong Peninsula. As of June 30, 2020, we had land reserves with a total GFA of approximately 18,374,029 sq.m. (GFA of approximately 9,677,837 sq.m. was attributable to us), representing an increase of 8.5% from that of 16,931,996 sq.m. as at 31 December 2019. Our land reserves comprise of (i) completed properties with a saleable GFA of approximately 856,744 sq.m., (ii) investment properties with a rentable GFA of

approximately 734,520 sq.m., and (iii) properties under development with an aggregate GFA of approximately 16,782,765 sq.m.. We believe our existing land reserves can provide sufficient support for our future development.

Classification of Our Residential Properties

We categorize our residential properties as follows:

- Low-rise apartments (低層住宅) — residential buildings that typically have two to three stories;
- Multi-story apartments (多層住宅) — residential buildings that typically have four to six stories;
- Mid-rise apartments (小高層住宅) — residential buildings that typically have seven to nine stories;
- High-rise apartments (高層住宅) — residential buildings that typically have 10 stories or more;
- Townhouses (聯排房屋) — residential house that are connected to each other and each such house typically has three to four stories.

PROPERTY DEVELOPMENT AND SALES PROCESS

We have a well-established project development process, which typically includes the major steps illustrated in the diagram below:

Depending on the project scale and complexity, it generally takes 24 to 26 months for us to complete a project after acquiring the relevant land use rights.

Investment

Site Selection

We place great importance on the site selection process because it is a key factor to the success of our project development operation. In conjunction with our ongoing in-depth, economic, political, demographic and market research with respect to the Yangtze River Delta region and other major cities in China, we continuously identify and assess potential development opportunities for new projects.

Our senior management determines the future operational plans based on our overall strategies. We take cost control into consideration from the first stage and throughout the construction work. Based on the development strategies, our investment development department coordinates the site selection process with various other departments. Our marketing management department evaluates the market conditions in the target areas and estimates the expected sales prices and sales period. Our design management department

collects information about local requirements for our regional Subsidiaries designing and construction. Our operational management department makes plans for development and pre-sales.

Based on the information prepared by various departments, our investment management department prepares a feasibility analysis report for each potential site being considered to evaluate its development prospects and risk profile. The feasibility analysis report contains detailed analysis about the site's existing and potential commercial values, potential land acquisition costs, construction budget, expected return and risk control feasibility. Our investment management department submits the feasibility analysis report to the vice president committee for review and approval. The vice president committee comprises our president of real estate department and heads of our strategic investment department, financial management department, marketing management department and operating management department. The feasibility analysis report is then submitted to the president committee for final review and approval. The president committee comprises our chairman, president and heads of our strategic investment department and financial management department.

We take into consideration the following key factors in conducting site selection analyzes:

- general economic conditions, demographics, population density, competitive landscape, composition of industry sectors and economic vitality of the region;
- urbanization growth rate, disposable income and purchasing power of consumers;
- policy trends of the local government and urban planning and development plans of the local government;
- core values of the city and the surrounding areas;
- competitive landscape of the local property development market;
- suitability for property development and development prospects;
- convenience of the site's location, transportation network, infrastructure and ancillary facilities;
- existing plot ratio and potential development scale; and
- complexity of land ownership structure in the region and complexity of property rights relating to the land parcel.

Land Acquisition

We acquire land for our projects mainly through two methods: (i) public tender, auction or listing-for-sale and (ii) acquisition of equity interests in companies that hold land use rights, or acquisition of property interests held by other companies. Our investment and development department is responsible for coordinating the land acquisition process.

Public Tender, Auction or Listing-for-sale

We acquire a majority of our land through public tender, auction or listing-for-sale organized by government authorities.

- In a public tender, an evaluation committee consisting of no fewer than five members (typically including one representative of the grantor and other experts) evaluates the tenders submitted by bidders. In selecting the tender, the evaluation committee considers various factors including each bidder's bidding price, real estate development experience and track record, credit history, qualification and development proposal.
- In an auction, local land bureaus hold the auction process and grant the land use rights to the bidder with the highest bidding price.
- In a listing-for-sale process, local land bureaus specify conditions for granting the land use rights before bids are submitted. The land use rights are granted to the bidder with the highest bidding price at the end of the listing-for-sale period.

See “Regulation — Regulations on Land and the Development of Real Estate Projects — Land Grants.”

Acquisition of Equity Interests or Investments in Companies

We acquire a portion of our land through acquiring equity interests or investing in companies that possess land use rights for target lands. This method allows us to negotiate the terms and conditions directly with the targeted companies or the counter parties, which enables us to obtain target lands at competitive prices.

Planning and Design

Product Positioning

We started product positioning at the project site selection stage and formed a preliminary opinion report on land assessment and product positioning. The design management department will formulate the master planning and design specifications for the project under development. By applying our four residential product lines, we will accelerate the process of matching customers, land, products and profit, and constantly improve the quality of work. After the land is acquired, the project team will quickly deepen product positioning and provide sufficient input for planning and design work.

Project Planning and Design

We outsource our project planning and design work to Independent Third Parties. We manage our overall planning and design work through our design management department in Nanjing and the design teams at our regional Subsidiaries. Our design management department has formulized standardized procedures for project design. The design proposals in each step, from the preliminary design to the construction design, must be reviewed and approved by us. We communicate frequently with design companies during the review process to optimize the design plans. We also involve various other departments, such as the marketing management department, the cost management department and operational management department, to review the design plans from the positioning, cost-

control and construction scheduling perspectives. The finalized design plans are submitted to the relevant government authorities for approval, after which they become the blueprint for the construction.

We engage specialized design firms for different types of design work of a project, such as landscape design, architectural design, interior design and scenery design. Through a tender-by-invitation process, we carefully select design firms based on their strengths, pricing and suitability for our specific requirements. To enhance the value and marketability of our projects, we engage reputable domestic and international design firms to perform detailed design work for our projects. In recent years, we worked with certain famous international design companies, such as Callison Construction Co., Ltd., Callison RTKL, DAHLIN Group Architecture Planning Company and WAA International., and major domestic design companies, such as Shanghai Tianhua Construction Design Co., Ltd., Shanghai Tuofang Construction Design Firm and United Design Group.

Our design management department also carries out certain research activities, maintains and updates self-owned design resource database, which may facilitate the standardization, modulation and innovation of our design work stream, and maintains the competitiveness of our products. Most of staff in our design management department has solid industry experience. To strengthen our design team's industry experience, we have organized various site visits in the Canada, Japan, Thailand and multiple cities in China.

Development and Construction

Selection of Suppliers

We outsource the construction work of our projects to external Independent Third Party construction companies. Outsourcing construction work allows us to better focus on our business as a property developer, and to leverage the expertise of the construction companies and minimize certain risks, such as risks from fluctuations in the cost of certain raw materials.

We select construction companies for our projects through a tender process in accordance with the Law on Tender and Bidding of the PRC and the Rules on the Tender Scope and Criteria for Construction Projects (《工程建設項目招標範圍和規模標準規定》). The tender process may be conducted via open tender or tender by invitation. For the years ended December 31, 2017, 2018 and 2019, a majority of the construction companies for our projects were selected through tender by invitation. We prefer construction companies with which we have long-term working relationships to ensure the quality of our products, and have an internal list of construction companies that meet our criteria and which we may invite to tender for new projects. To ensure the quality and workmanship of our properties, we apply stringent criteria in the selection of our construction companies. When assessing construction companies, we take into consideration factors such as professional qualifications, reputation, credentials, financial condition, experience, price quote, track record and quality of construction work, proposed construction schedule and plan and technical capabilities.

The construction contracts we enter into with the selected construction companies contain warranties provided by the construction companies with respect to construction schedules, quality and safety standards. The construction companies are required to pay

finances in the event of delays and are responsible for the costs incurred in rectifying construction defects, pre- and post-completion and delivery. In addition, we are entitled to terminate a construction contract and claim damage for losses if the construction company causes any material delay to the development schedule or irreparable damage to the project development.

We make payments to construction companies in installments in accordance with the terms and conditions stipulated in the construction contracts and the milestone payment schedule varies from case to case. In general, we pay the construction companies 80% of the full contract price when the construction work is completed, and pay 95% of the total contract price upon project settlement. We retain the remaining 5% as quality deposit for two to five years. The quality deposit is used to cover any contingent expenses incurred as a result of construction defects.

Procurement of Raw Materials

The construction companies are generally responsible for the procurement of raw materials, such as concrete and steel, used in the construction process. The raw material costs are typically included in the construction contract prices. Our contracts with construction companies contain price adjustment mechanism which requires us to bear the extra costs if the market price of the raw material deviates more than 5% of its contract price. We normally specify a list of brands and the construction companies procure such materials with reference to pricing guidelines issued by local authorities. For materials which materially affect the design of our projects, such as external finishing materials, internal decorative materials and valves, we may require the construction companies to procure these materials at prices pre-negotiated by us. For certain essential raw materials, such as ground and wall tile, we may source them from an exclusive supplier and enter into a strategic agreement with it for one to two years.

We are responsible for purchasing specific materials and fixtures such as elevators, air conditioners and generators. We have a three-tier procurement management system. Our tender and procurement department manages a central supplier database, which contains evaluation information about all the suppliers of the Group. Our regional Subsidiaries maintain their own database for suppliers in their cities. Our project companies conduct on-site management of the suppliers and gather first-hand information about the suppliers. To qualify for our supplier database, the supplier must meet our strict standards on quality, productivity and compliance record. We conduct visit on our suppliers on a quarterly basis as well as on *ad hoc* basis.

To maximize our economies of scale and bargaining power, we centrally procure certain raw materials. We normally seek tenders from no less than three suppliers within our qualified supplier database for regular procurement and from no less than five suppliers for procurement with a total amount of RMB1.0 million or more. We enter into procurement contracts with the winning bidders. The terms of the procurement contracts usually track the construction periods of the relevant projects, which range from one to two years. Suppliers may enter into new tender bids when the contractual periods expire. Typically, we may terminate a contract if the supplier fails to supply the relevant materials in accordance with the terms of the contract, industry standards or relevant regulatory requirements.

The procurement contracts are usually fixed-priced and do not contain any minimum purchase commitments. We can, to a certain extent, pass the increases in raw material costs to our customers by increasing the prices of our properties. However, we still bear the risk of price fluctuations in raw materials to the extent that we are unable to increase our prices to fully cover any increases in costs.

In general, we make payments to our suppliers in installments in accordance with the terms and conditions stipulated in the procurement contracts, and payment terms granted by our suppliers vary depending on factors such as the relationship between the supplier and us and the transaction size. We normally settle payment within five days of the receipt of invoices, which are normally provided to us after the products have passed our quality control inspection processes and those of the construction supervision companies.

We do not maintain any inventory of construction materials. As we established a qualified supplier database, we have sufficient options and alternatives when a supplier fails to meet our demand, which largely prevents the risk of supply shortages. As for the raw materials which we are responsible for purchasing, we require the construction unit to formulate the demand plan in advance. After our review, the joint inspection and acceptance of raw materials by us and the construction unit shall be paid by us after meeting the requirements.

Construction Supervision and Quality Control

We place significant emphasis on quality control with regard to the construction and management of our projects. We are dedicated to develop quality projects with the artisan spirit. Most members of our quality control team hold engineering qualification or assistant engineering qualification. In compliance with relevant PRC laws and regulations, we engage independent certified construction supervision companies and additional independent third-party supervision consultants to monitor the entire construction process of our projects. The construction supervision companies conduct quality inspections on construction materials and on-site workmanship checks to ensure all construction materials and properties meet our prescribed specifications and applicable regulatory requirements.

To ensure quality of properties and compliance with relevant laws and regulations and our own standards, we have established a system of quality control policies and procedures to govern each aspect of the development process. Our operational management department, together with its counterparts in our regional Subsidiaries, is responsible for overseeing the overall construction process for each of our projects. We require daily on-site inspections by three to five professional engineers and in some cases, by third party supervision companies as well. During the inspections, we check whether the construction companies comply with the blueprint and if they deviate from the blueprint, whether such deviation is an appropriate adjustment. We also check whether the construction companies comply with our procedures regarding inspection of raw materials and equipment. Our inspection process includes the following: (i) the samples of all raw materials must be sent to us for pre-approval and stored for records; (ii) all equipment and raw materials must be inspected when entering the construction sites; and (iii) all sub-divided work steps are inspected and only upon the satisfaction of the inspection results of one work step, the next work step may be carried out.

Any instances of non-compliance discovered during the inspections are reported to operational management department, which provides written rectification requests and impose penalties. We will not issue the inspection certificate to any projects that fail to meet our standards. We may request the suspension of the construction work if there are any material quality issues and require remedial measures before the construction work can be re-commenced.

The construction companies which we engage are not allowed to subcontract or transfer their contractual agreements with us to third parties without our prior consent. If the construction companies violate these obligations, we are entitled to terminate the agreements and a penalty of 10% of the contract price.

Civil Defense Areas

According to relevant PRC laws and regulations, new buildings constructed in cities for civil use should contain basement areas that can be used for civil defense purposes in times of war. We engage construction companies to construct civil defense areas for our property projects as required by the applicable PRC laws and regulations. The GFA of the civil defense areas of a property project depends on the size, nature and design of the property project in accordance with the relevant PRC laws. The construction cost of civil defense areas is included in our inventories and charged to cost of sales upon recognition of revenue. The property management companies are in charge of the maintenance of our civil defense areas. We monitor the status of civil defense areas periodically to ensure that their functions as civil defense properties are not impaired.

Marketing and Sales

Pricing

Our ability to price our products at desired levels has been, and will continue to be, important to its results of operations. Generally, we determine the prices of our for-sale properties based on a variety of factors, including market conditions, competitive landscape and prices of comparable properties in the market, expected investment returns, positioning of properties, target customers, locations, floors, facing directions, views, and cost of construction. We also adjust the prices of our for-sale properties during the sales process based on market responses we experience, especially when we experience favorable responses. We occasionally make temporary downward adjustments to the prices to accelerate the turnover rate.

Pre-sales

We commence pre-sale activities for our properties prior to their completion, usually within six to nine months after the acquisition of the relevant land parcels. According to the applicable PRC laws and regulations, there are certain criteria which must be met before we may commence any pre-sale activities for a property under development. These conditions include full payment of the land grant premium and acquisition of all relevant land use right certificates, construction-related permits and pre-sale permits. See “Regulation — Regulations on Real Estate Transfer and Sale — Sale of Commodity Buildings.” In addition, prior to the pre-sale of each project, our headquarters will conduct project-opening-risk inspection by the departments of design, market, operation, customer service

and etc., and itemize the risk items, to ensure that the project can present its best appearance when faces the customers, and thus to satisfy the selling rate indicator on launch days.

Further, in some cities where we operate, such as Nanjing, the use of pre-sale proceeds is restricted. Under the applicable rules and regulations of these local governments, the use of pre-sale proceeds are restricted to be primarily for the construction and development of the relevant projects. See “Regulation — Regulations on Real Estate Transfer and Sale — Sale of Commodity Buildings.”

Marketing and Sales

Our properties for sale mainly target the mass market, mainly first home purchasers and purchasers with rigid demand on improving. Purchasers of our properties are mainly individuals. Our marketing management department is responsible for formulating marketing and sales strategies and managing the overall marketing and sales process. It makes decisions with respect to product positioning and is closely involved in each property development process, from land selection to pre-sales and sales of properties. It conducts regular market research studies and constantly monitors the changing market conditions to adjust its marketing and sales strategies in a timing manner.

The marketing and sales strategies vary from project to project and depend on factors including market conditions, project scale and targeted customers. We market properties by way of visual and print media channels such as newspapers, magazines, television and billboards, as well as the Internet.

Although we conduct direct sales for a majority of our properties, we also engage reputable third-party real estate sales agents on a non-exclusive basis to facilitate the marketing and sales of our projects, especially for the small portion of our completed but unsold properties. The standard service agreements we enter into with sales agents include key terms such as the scope of retention, duration of services, scope of authorization, fees and payment method. The standard service agreements also stipulate that the sales agents must not conduct unauthorized sales or sell our properties at prices lower than those agreed by us, and that the sales agents must carry out truthful advertising and comply with all applicable regulatory requirements. Commissions to the sales agents are negotiated on a case-by-case basis and usually range from 0.5% to 1% for residential properties, of the total sale proceeds originated from such agents. The sales agents do not receive any sales payments on behalf of us. Payments are made by the customers directly to company accounts designated by us.

Payment Arrangements

Customers may purchase our properties by one lump-sum payment or payment by installments. For customers who opt to pay by installments, they may fund their purchases by personal funds or mortgage loans provided by commercial banks.

We typically require our customers to pay a deposit amounting to certain percentage of the contract price upon entering into a sale and purchase agreement. Such deposits are non-refundable and are forfeited if the customers default on the purchases. Customers who purchase properties by making one lump-sum payment are normally required to fully settle the total purchase price within the prescribed period after entering into the relevant sale and

purchase agreements. Customers who pay by installments are required to make payments in accordance with the agreed payment schedules. Outstanding balances must be fully settled prior to property delivery. Customers who purchase properties with mortgage loans are required to pay a down payment of no less than 30% of the total purchase price upon entering into a sale and purchase agreement. The outstanding amounts are settled by the mortgagee banks within the prescribed period pursuant to the respective bank financing agreements.

In line with industry practice in the PRC, we provide guarantees to mortgagee banks for the mortgage loans offered to our customers. These guarantees are typically released upon the issuance of the relevant property ownership certificate for the property and the registration of the mortgage in favor of the mortgage bank. If a purchaser defaults on a mortgage loan during the guarantee period, we are required to repay the outstanding balances owed to the mortgagee bank. We are assigned the title to the mortgage loan, giving us rights to the property, after settling such outstanding balances. In accordance with industry practice, we rely on the credit checks conducted by the mortgagee banks and do not conduct independent credit checks on our customers. As of December 31, 2019, outstanding guarantees provided by us in respect of mortgage loans of our customers amounted to RMB8,454.9 million (US\$1,214.5 million).

Delivery and After-sale Services

A joint inspection team will be organized by the operational management department, designing department, marketing department and customer service department of our regional companies prior to the completion acceptance for each project by government authorities but no later than 60 days before the delivery date to the owners, to conduct preliminary checks to projects and form a rectification list, which will be written off item by item by the project company, in order to pass the governments' completion acceptance successfully. The Customer Service Department of our headquarters will supervise and censure the performance of city companies.

Delivery of Properties

Delivering quality properties and providing satisfying purchasing experiences to customers are fundamental to the success of our business. We closely monitor the construction progress of our properties so as to deliver properties to our customers within the timeframe specified in the respective sale and purchase agreements and in a manner that complies with PRC laws and regulations. Prior to delivery, our customer service department from city company will take charge of organizing other function departments to conduct delivery risk checking and comprehensive inspection and acceptance for each project, and only when the identified issues have been rectified will the properties be delivered to the customers, thus to ensure customer's satisfaction. Our headquarters' customer service, operations, marketing, design, and other departments jointly supervise the implementation of delivery comprehensive acceptance specifications of the city company's project, and perform spot checks and assessments.

The timeframes for delivery are set out in the relevant sale and purchase agreements. Under a typical sale and purchase agreement, we are liable to pay a monetary penalty of 0.01% of the purchase price on a daily basis until delivery of the property if we fail to

deliver the property on the delivery day stipulated in the agreement. A purchaser may have the right to repudiate the sale and purchase agreement if the delay exceeds 30 days, and we must return the full payment, together with an extra penalty.

After-sale Services

We are committed to customer satisfaction and offer our customers comprehensive after-sale services, including, among others, providing assistance in obtaining property ownership certificates, following up on warranty issues and performing maintenance services. Our after-sale services are managed by our customer service department.

We value feedback from our customers and believe it is important in helping us maintain customer relationships, improve product and service quality and identify customer preferences. We have a customer service telephone hotline for customers to provide feedback and complaints about our products and services. It is our policy to attend to any customer feedback or complaints in a timely manner. In addition, to better understand the needs of our customers so as to improve our offerings, we conduct customer satisfaction surveys in three month following delivery and regular surveys annually.

Warranties and Returns

We provide our customers with warranties for the quality of building structures pursuant to the Measures on the Sales of Commodity Housing (《商品房銷售管理辦法》) and Regulations for the Operations of Urban Property Development (《城市房地產開發經營管理條例》). In addition, in accordance with the published national standards, we provide quality warranties for ground foundations, main structures, waterproofing work, water and electricity work, decorative work and sanitary wares. The warranty durations vary depending on the covered items and are usually for a period of no less than two to five years. The warranty durations for ground foundations and main structures are the relevant reasonable lifespans stated in the design documents.

Our construction companies are responsible for rectifying quality defects in the properties, whether such defects are discovered pre- or post-completion and delivery. We may repair quality defects only if the construction companies cannot repair the defect in a timely manner. We generally retain a quality deposit of 5% of the total contract price for approximately one to five years to cover any contingent expenses that may be incurred as a result of any quality defects.

Except for the breach of a sale and purchase agreement by us, we do not allow returns of properties from our customers.

PROJECT FINANCING

We finance our projects primarily through internal cash flows generated from our operating activities, including proceeds from the pre-sales and sales of properties, rental income, fee income, and also through bank loans, equity injection and bonds. We also entered into several trust and other financing arrangement to finance the property development of our projects. We aim to finance our property developments with internal resources to the extent practicable so as to reduce the level of external funding required.

Sale and Pre-sale Proceeds

We use the proceeds from the pre-sales and sales of our properties to fund part of our construction costs, make interest payments and repay debt obligations.

Pre-sale proceeds form an integral source of our operating cash inflows during project development. According to the applicable PRC laws and regulations, there are certain criteria which must be met before we may commence any pre-sale activities for properties under development, and the use of pre-sale proceeds may be restricted by local governments in cities where we operate. See “— Property Development and Sales Process — Marketing and Sales — Pre-sales” in this section and “Regulation — Regulations on Real Estate Transfer and Sale — Sale of Commodity Buildings.”

Bank Loans

Bank loans are our primary source of external financing. As of December 31, 2017, 2018 and 2019 and June 30, 2020, our outstanding bank loans amounted to RMB8,034.6 million, RMB13,626.0 million, RMB14,546.2 million and RMB18,034.1 million (US\$2,552.6 million), respectively.

Our ability to obtain financing from banks for our projects depends on various economic measures introduced by the central and local governments. According to a guideline issued by the CBRC on August 30, 2004, no bank loans may be granted with respect to projects for which the land use right certificates, construction land planning permits, construction work planning permits or construction work commencement permits have not been obtained. On May 25, 2009, the State Council issued a Notice on Adjusting the Capital Ratios for Fixed Asset Investment Projects (關於調整固定資產投資項目資本金比例的通知), which stipulates a minimum capital requirement of 20% for ordinary commodity apartments and indemnificatory housing and a minimum capital requirement of 30% for other real estate development projects. On September 9, 2015, the State Council promulgated the Notice on Adjusting and Improving the Capital Fund Principle for Fixed Assets Investment (關於調整和完善固定資產投資項目資本金制度的通知), according to which the minimum capital ratio for other real estate development projects is adjusted from 30% to 25%. See “Regulation — Establishment of a Real Estate Development Enterprise.”

Trust and Other Financing Arrangements

Similar to other property developers in the PRC, we occasionally enter into financing arrangements with trust companies or asset management companies in the ordinary course of business to finance our property development. Compared with bank borrowings, such financing arrangements usually offer greater flexibility in terms of availability, approval schedule and repayment requirements, and therefore is an effective alternative source of funding for some of our project developments, particularly during the tightened banking credit environments.

As of December 31, 2019, the total amount of trust and other financing arrangements outstanding accounted for 19.3% of our total borrowings as of the same date. For additional information as to the relevant laws and regulations applicable to trust and other financing arrangements, see “Regulation — Regulations on Real Estate Financing — Financing Real Estate Development and Acquisition.”

The trust companies, asset management companies and their financing vehicles we have cooperated with are reputable and well-established institutions in the PRC and are Independent Third Parties to us.

Types of Our Trust and Other Financing Arrangements

Our trust and other financing arrangements can be roughly divided into two categories:

- Type I Arrangements are similar to bank loans, which do not involve transfer of equity interest in the project company;
- Type II Arrangements involve pledge of shares and/or transfer of equity interest in the project company to the lending financial institution, which is entitled to appoint directors of the board and senior management of the project company.

Our trust and other financing arrangements are usually secured by one or more types of collateral, including land use rights of the project, shares of the project company or cash, and may also be guaranteed by the project company or our controlling shareholders or their associates. Upon the maturity of the financing arrangements and the satisfaction of repayment, the corresponding share pledges, liens or guarantees will be released and, as the case may be, the equity interest of the project company that is transferred to the financial institutions will be repurchased by the relevant entities at a consideration based on pre-determined formula in accordance with the relevant agreements. We believe that our trust or other financial arrangements are in line with industry practice in the PRC.

COMMERCIAL PROPERTY INVESTMENT AND OPERATIONS

In line with our business strategy, we own and operate a substantial portion of our commercial properties we developed for long-term investment purposes. These commercial properties include Hong Yang Plazas and retail spaces accompanying our residential projects. We hold these commercial properties for capital appreciation and rental income. In addition, we charge certain tenants with site use fees and advertising space use fees. For the years ended December 31, 2017, 2018 and 2019, revenue generated from commercial property investment and operations amounted to RMB166.4 million, RMB359.0 million and RMB411.4 million, respectively, representing 2.7%, 3.9% and 2.7% of our total revenue in the respective years. Our revenue from commercial property investment and operations was RMB186.4 million and RMB212.8 million (US\$30.1 million) for the six months ended June 30, 2019 and 2020, representing 4.7% and 2.2% of our total revenue for the relevant period, respectively.

Operation

We operate our Nanjing Hong Yang Plaza through the operational management department of the relevant Subsidiary. It is responsible for planning, project management, tender recruitment, tenant management, lease management, finance and marketing of our Nanjing Hong Yang Plaza. Our operating team is dedicated to providing customers with high quality products and services. We strive to adapt to the regional market and enhance the competitiveness of our Nanjing Hong Yang Plaza.

Our amusement park operation team puts safety as their priority in operating the amusement park. We strictly follow the safety check procedure and conduct regular inspection on the entertainment equipment. Our staff are required to take intensive training in relation to operational security and are not allowed to operate the entertainment equipment until they pass our tests.

Marketing and Promotion

We carry out various marketing and promotional activities to enhance our brand of Hong Yang Plaza and attract tenants. Our promotional events are tailored to the preferences of our tenants and shoppers with an aim to enhance visitors' shopping experience. Sales and discounts are scheduled throughout the year to maintain abundant visitor flows. For instance, we hold Spring Sound Festival (春茗會), an activity participated by over 200 major corporations each year, to promote the brand awareness among our potential tenants.

Further, we carry out various marketing and promotions through WeChat, websites and outdoor LED advertisements in addition to mainstream news and advertising media to attract shoppers to experience our Nanjing Hong Yang Plaza in person.

Site Selection

In selecting suitable sites for our Hong Yang Plaza, we focus on areas with maturing road network and great potential in population growth.

Conveniently located near the north bridgehead of the Yangtze River Bridge, the Nanjing Hong Yang Plaza is easily accessible to residents in both north and south sides of the Yangtze River. The expanding road network in Nanjing, which is expected to have 11 cross-river passageways, provides further accessibility to the Nanjing Hong Yang Plaza. It is currently connected by Metro Line 3 and will be connected by Metro Line S8 once its planned south extension is completed.

According to Overall Plan of Nanjing Jiangbei New Area (2014–2030), the location of the Nanjing Hong Yang Plaza will be the center of the Jiangbei New Area in the future. As the first nationally-planned new district in Jiangsu Province, the Jiangbei New Area enjoys the priority in government's development plan. The Jiangbei New Area has a total site area

of 2,451 sq.km, and is expected to have a total population of approximately three million by 2030. Within 90 minutes of driving, the Hong Yang Plaza covers other cities in Nanjing Metropolitan Area with a total population over five million.

Design

We strive to build the Hong Yang Plazas using high standards from the outset. We are committed to devoting our attention to details and providing quality properties to our customers, which will reinforce our market reputation. We invited world famous architecture and design firms, such as CallisonRTKL (U.S.), COX Design and Consult (Australia) and Ho and Partners Architects Engineers & Development Consultants (Hong Kong), to participate in preliminary planning and designing of the Nanjing Hong Yang Plaza. The overall planning, development and construction of the Nanjing Hong Yang Plaza were jointly completed by C&P Design and Architect (France), Hong Kong Baer High Forest Architectural Landscape Design and Research Institute, Synergistic Real Estate Management & Network Pte (SRE) (Singapore), ACOR Consultants Pty (Singapore), Dataway Group, as well as our in-house design team. Our collaboration with design consulting firms helps us better address to the different tastes of our tenants and shoppers.

We carefully plan the layout of our Nanjing Hong Yang Plazas to optimize the overall shopping experience of visitors. The Nanjing Hong Yang Plaza is divided into different zones and tenants are grouped based on their industry sectors. This layout provides ease of navigation to shoppers and optimizes compatibility of tenants.

Tenant Selection

We select tenants of Nanjing Hong Yang Plaza that fit our market position and benefit our growth strategies. Positioned as one of the leading integrated commercial complex in Jiangbei New Area, Nanjing Hong Yang Plaza strives to attract tenants that are first to its type in this area, such as the IMAX cinema. We also select tenants with a balanced mix of industry sectors with special focus on fashion, international boutique retails, streetwear fashion brands and boutique supermarkets. We also take into account a number of other factors including the needs of the surrounding communities and the attractiveness to visitors.

Lease

The terms and conditions of the leases are usually negotiated with reference to that for comparable properties in local markets. A typical lease agreement entered into between our tenants and us specifies the term, the rent (whether it's fixed or performance-based or a mix of both), security deposit, the permissibility for tenants to renovate the leased property, as well as the payment arrangements of rents, property management fees and utilities.

Depending on the types of tenants, the terms of leases vary from two-three years to 10 years. We usually enter into leases with longer terms with large companies such as supermarkets. Upon the expiration of the lease term, the tenant usually has the priority to renew the lease for the same terms and conditions.

Rents are usually fixed during a preliminary period, and for the remaining term, are charged at an increased fixed rate. For certain tenants, rents are determined on a pre-determined percentage of the retail gross revenue of the tenants. The tenants must accurately report their gross revenue to us on a monthly basis. Failure to do so will subject them to a contractual penalty.

The tenant is usually required to pay a security deposit at the day of signing the lease and pay its rents before the 15th day of each month. We are required to refund the security deposit to the tenant within three months after the lease expires or terminates if the tenant fulfills its obligations under the lease. We are entitled to deduct penalties from the security deposit with cause, with prior written notice the tenant.

We are entitled to terminate the lease if the tenant defaults the payment of all kinds for three times or more, changes the construction structure of the leased property, or changes the brand it operates without our consent. If the tenant defaults its payment for 15 days or more, it must pay 2% of the delayed payment per day and we are entitled to suspend partial or all of the utility supplies or property management services on its leased property until the defaulted amount is repaid.

To maintain the competitiveness and profitability of our investment properties, we closely monitor the operation of individual stores to assess their attractiveness to customers. We also review the performance of our tenants and assess their rent payment ability on a regular basis. The performance assessment may be taken into account during the negotiations for the lease renewal with our tenants.

Car parking facilities

Our Nanjing Hong Yang Plaza has car parking facilities for the convenience of visitors and tenants. We provide hourly parking and, in some cases, monthly parking at such car parking facilities. Hourly parking services mainly benefit shoppers and other visitors, whereas the monthly users of the car parking facilities are mainly tenants of Nanjing Hong Yang Plaza and residents of our residential property projects nearby.

Changzhou Hong Yang Plaza

Our Changzhou Hong Yang Plaza commenced its operation in September 2018. Adjacent to Hong Yang Upper City • Phase IV (弘陽上城四期), the Changzhou Hong Yang Plaza is a community center for local residents to satisfy all aspects of their needs. Changzhou Hong Yang Plaza has a total GFA of approximately 80,844 sq.m. featuring a garden-style shopping center, a revolving restaurant street, an ecology-themed kids park, an open garden and farm, a rooftop sports field and one of the biggest multi-story parking garage in Changzhou.

Changzhou Hong Yang Plaza is located in Tianning District, Changzhou, which has a permanent population of approximately 640,000 and is the commercial, cultural and entertainment center of Changzhou. Changzhou Hong Yang Plaza will be accessible from two subway exits, when the construction of the subway is completed, and several bus stops. With approximately 4,000 households in our Hong Yang Upper City. Phase IV and several other communities nearby, we estimate that the Changzhou Hong Yang Plaza will attract an annual foot traffic of 500,000.

We adopt the concept of “Hong Yang Life + (& Home)” when we design the Changzhou Hong Yang Plaza. We aim at building a community center that serves as an extension of home for our residents of all age groups. We strive to create a family-friendly environment that brings our customers rich experience in dining, shopping, sports and entertainments.

To promote the Changzhou Hong Yang Plaza, we organize large-scale public relation events, such as tenant recruitment events, investment fairs and media roadshows, to build connections with potential tenants. We also disseminate project information through media and commercial channels to increase our target tenants’ awareness of the Changzhou Hong Yang Plaza. After it commences operation, we will manage our Changzhou Hong Yang Plaza through the operational management department of the relevant Subsidiary.

Hong Yang Plazas in Other Cities

We aim to promote our “Hong Yang Plaza” brand and make it more influential. The reputation of our Hong Yang Plaza, together with its mature business model, operational management and client relationships, enable us to replicate the success of Hong Yang Plaza in other cities. We plan to adopt asset-light business model by outputting our Hong Yang Plaza brand and operation to local commercial property owners and we believe that it will minimize our market risks.

In February 2018, we entered into an agreement with Yifu Real Estate (Hefei) Development Co. Ltd. (義福房地產(合肥)發展有限責任公司), an Independent Third Party, to lease a shopping mall with an aggregate GFA of 150,827.3 sq.m. on West Changjiang Road (長江西路) in Hefei, Anhui Province. Our plan is to operate it according to our Hong Yang Plaza standard, and the Hefei Hong Yang Plaza commenced its commercial operation in 2019.

In June 2018, we entered into an agreement with Hengyang City Jin Liu Yuan Real Estate Development Co. Ltd. (衡陽市金六源房地產開發有限公司), an Independent Third Party, to lease a shopping mall under construction with an aggregate GFA of approximately 150,000 sq.m. in Zhengxiang District (蒸湘區) in Hengyang, Hunan Province. We plan to renovate it and operate it according to our Hong Yang Plaza standard. The Hengyang Hong Yang Plaza is expected to commence its commercial operation in September 2020.

In 2019, we also entered into several agreements with third parties to expand our Hong Yang Plaza operation into the major cities in Jiangsu, Hebei, Shandong and Tianjin Provinces including Changzhou, Langfang, Yantai and Yanjiao. Yanjiao Hong Yang Plaza grandly opened in September 2020.

New development projects including Changzhou Mingli Hong Yang Plaza and Changzhou Hong Yang Times are currently under construction and expected to commence operation in June 2022 and April 2023, respectively and Anqing Hong Yang Plaza is in the planning stage and expected to be completed in November 2022.

COMPETITION

We are a comprehensive property developer with a strong foothold in the Yangtze River Delta Region and a national strategic layout, focusing on the development of residential properties and the development, operation and management of commercial and comprehensive properties. According to the statistics of CRIC (克而瑞研究中心), our sales for the first half of 2020 were ranked 46th nationwide.

We believe that the commercial and residential property markets in the regions we operate and in China as a whole are highly competitive and fragmented. We compete primarily with other major national and regional commercial and residential developers, especially those that operate in Nanjing and other cities in the Yangtze River Delta region where we operate. We compete with other real estate developers in terms of a number of factors, including, but not limited to, geographic location, management expertise, product and service quality, price, financial resources, brand recognition and ability to acquire proper land reserves.

Despite the high level of competition, we have demonstrated resilience to market changes and competition with our substantial experience and reputation in property development and commercial property operations, prudent project planning and implementation of business strategies and high quality property products and services. Further, given our brand recognition and strong execution capabilities, we believe that we can continue to react promptly to the challenges in the PRC property market. We endeavor to further strengthen our market position in Nanjing while we make selective entries into other cities in the Yangtze River Delta region as well as other major cities nationwide.

INTELLECTUAL PROPERTY

We place significant emphasis on developing our brand image and pay great attention to the protection of our intellectual property rights. We believe our brand **rsun** and **弘阳** are well known and widely recognized in the Yangtze River Delta. As of December 31, 2019, we had registered 20 trademarks in the PRC and one domain name for which our Subsidiaries were the registered proprietor.

The right to use **rsun** and **弘阳** other trademarks were granted to our Company on a royalty-free basis according to a trademark licensing agreement entered into between our Company and Hong Yang Group Company on June 25, 2018. The trademark licensing agreement has an indefinite term.

We rely to a significant extent on our brand, **rsun** and **弘阳**, in marketing our properties, but our business is otherwise not materially dependent on any intellectual property rights.

EMPLOYEES

As of June 30, 2020, the Group had 3,829 employees in total, of which 3,110 employees were engaged in the real estate development business, 577 employees were engaged in the commercial property operation business, and 142 employees were engaged in the hotel management business.

We mainly recruit employees from the labor market, universities and through headhunting. We are committed to training and retaining skilled employees at all levels. We provide on-going and systematic training programs for our employees based on their positions and expertise to enhance their understanding and knowledge of the property industry and related areas. For instance, training programs for our marketing and sales personnel focus on improving their sales capabilities, whereas trainings designed to improve management and leadership skills are offered to mid- to senior-level management personnel. In addition to providing internal trainings, we also engage external experts to conduct training sessions for our employees from time to time.

We launched our head office in Shanghai in February 2019 to form a dual headquarters' operation in Shanghai and Nanjing. Shanghai, which has a large property market, is one of our key expansion regions in future. In addition, our demand for quality talents also increases with the nationwide business layout. There are a number of national key universities and talent pools in Shanghai. Moreover, Shanghai can also attract excellent talents from all over the country with its strong economic strength and Shanghai culture. We hope the second headquarters in Shanghai can attract high quality talents. Our investment, financing, research and development and human resources departments will be mainly set up in Shanghai in the future to provide support for our further business expansion.

We are dedicated to maintaining good working relationships with our employees. As of the date of this offering memorandum, we did not experience any significant labor disputes which adversely affected in a material manner on our business operations. We enter into individual employment contracts with our employees which cover the wages, employee benefits and other matters required by applicable PRC laws and regulations.

We offer our employees salaries and benefits which are competitive with market standards. We also contribute to basic medical insurance, pension insurance, maternity insurance, unemployment insurance, work-related injury insurance and housing provident funds for our employees. Despite what is otherwise disclosed in this prospectus, we pay relevant insurance premiums according to applicable PRC laws and regulations.

Our employees have established the employee union, which is responsible for facilitating communication between us and our employees. The employee union handles complaints from the employees, liaises between the employees and our management and ensures the legal rights of the employees are protected.

INSURANCE

We maintain insurance, including social insurance, for our employees as required by applicable PRC laws and regulations and as we consider appropriate for our business operations. Under applicable PRC laws and regulations, construction companies as employers are required to purchase insurance for their construction workers. In line with industry practice, we do not currently maintain additional insurance in this respect.

As required by banks with respect to properties that have been pledged as collateral to secure bank loans, we have obtained property damage and third-party liability insurance for such properties in accordance with the relevant loan documents.

We are of the view that we have maintained adequate insurance coverage for our operations and that the scope of our coverage is in line with industry norms. However, there are certain risks for which we are not insured or which we may not have sufficient insurance coverage for losses, damages and liabilities that may arise in the course of our business operation. See “Risk Factors — Risks Relating to Our Business — Our current insurance coverage may not be adequate to cover all risks related to our operations.”

LEASED PROPERTIES

As of the date of this offering memorandum, we leased over 90 properties in 20 cities mainly for our office premises. Our leases generally have a term ranging from three months to 20 years, and we expect to renew the leases upon their expiry. All of the landlords are Independent Third Parties.

As of the date of this offering memorandum, we failed to register a number of lease agreements as the tenant. We sought cooperation from the landlords at the leased properties to register such executed lease agreements. Registration of lease agreements requires the submission of certain documents of landlords, including their identity documentation and property ownership certificates, to the relevant authorities and therefore the registration is subject to cooperation of landlords which is not within our control. The lack of registration will not affect the validity and enforceability of these lease agreements. However, the relevant government authorities may require us to rectify these unregistered lease agreements within a certain period of time and, if we fail to so rectify, impose a fine of up to RMB10,000 for each unregistered lease agreement. See “Risk Factors — Risks Relating to Our Business — We may be subject to fines due to the lack of registration of our leases.”

In order to ensure on-going compliance with the PRC law and regulations relating to the registration of executed lease agreements, where we are the tenant to an executed lease agreement, we will continue to seek cooperation from the landlords of the leased properties to register executed lease agreements with the relevant PRC government authorities and will adopt a variety of risk control measures to mitigate such regulatory risk in the future. We have improved our standard lease terms with our potential landlords. We have also established a database of our leased properties with detailed information, including the status of the lease registration of office premises, to ensure timely registration of our leased properties. We believe we have implemented adequate and effective measures internally. However, as we do not control the landlords, there is no assurance whether and when our landlords will register the leases.

ENVIRONMENTAL MATTERS

We are subject to a number of environmental laws and regulations including the Environmental Protection Law of the PRC (《中華人民共和國環境保護法》), the Prevention and Control of Environmental Noise Pollution Law of the PRC (《中華人民共和國環境噪聲污染防治法》), the Environmental Impact Assessment Law of the PRC (《中華人民共和國環境影響評價法》) and the Administrative Regulations on Environmental Protection for Development Projects (《建設項目環境保護管理條例》). See “Regulation — Development of a Real Estate Project.”

Pursuant to applicable laws and regulations, each of our development projects must undergo an environmental assessment before the commencement of construction. We must submit an environmental impact assessment report, along with other required documents, to the relevant environmental protection authorities for approval. The approval may contain certain standards, which must be incorporated into the design, construction and operation of the project. We require our construction companies to comply with these standards during the construction process. We also encourage our construction companies to use environmentally friendly equipment and technologies. Upon the completion and before the delivery of the property, the relevant environmental protection authorities inspect the project to ensure compliance with all applicable environmental laws and regulations.

As of the date of this offering memorandum, we had not encountered any material issues in passing inspections conducted by the relevant environmental protection authorities upon completion of our properties. None of our properties has received any material fines or penalties associated with the breach of any environmental laws or regulations in recent years.

HEALTH AND SAFETY MATTERS

We are subject to various PRC laws and regulations with respect to safety and work-related incidents. We have established a set of guidelines on issues relating to occupational health and safety and have developed a comprehensive management system to implement our policies and procedures in this respect. In addition, we provide regular training to our employees on topics relating to occupational health and safety to enhance the awareness and knowledge of our employees.

Under applicable PRC laws and regulations, our construction companies are responsible for the safety of the construction sites and are required to maintain accident insurance for their workers. We generally require our construction companies to purchase accident insurance in accordance with applicable laws and regulation, adopt effective occupational safety control measures and offer regular physical examinations and training to workers who are exposed to the risk of occupational injuries.

We are committed to providing our employees with a safe and hygienic working environment. To ensure construction quality and safety, we have established a set of standards and specifications which we require both our own workers as well as workers employed by third party construction companies to follow during the construction process. We closely monitor each project at every stage to ensure the construction process is in

compliance with relevant laws and regulations. We also engage Independent Third Party supervising companies to monitor the safety of our construction sites throughout the construction process.

FUND MANAGEMENT

To manage our idle cash on hand, we purchase and redeem wealth management products using them as our “cash pool” from which we could readily access cash as needed and, generate higher yield than bank deposits, as these products are highly liquid and bear a relatively low level of risk. The underlying financial assets of the wealth management products in which we invested primarily consist of PRC treasury bonds, commercial paper, interbank borrowings and bills issued by the PBOC. As of December 31, 2017, our available-for-sale investments was RMB2,006.7 million. As of January 1, 2018, we adopted new accounting standards which are effective for accounting periods beginning on or after January 1, 2018 and classified our available-for-sale investments as financial assets measured at fair value through profit or loss as these financial instruments were held for trading. As of December 31, 2018, our financial assets measured at fair value through profit or loss was RMB1,130.6 million. See Note 2.2 to the consolidated financial statements as of and for the year ended December 31, 2018 for further details. As of December 31, 2019, our financial assets measured at fair value through profit or loss was RMB1,148.4 million. As of June 30, 2020, our financial assets measured at fair value through profit or loss was RMB1,824 million (US\$258.2 million). The Group invests in unlisted investments, which represent wealth management products issued by banks in mainland China and a wealth management private fund in Hong Kong.

Depending on the amounts of our idle cash and our budget plan, our finance department applies for approval by our senior management of the purchase of available-for-sale investments. Before making an application to our senior management, our finance department conducts a feasibility study of the available-for-sale investments taking into consideration the size of the investments, their risk profiles and the rate of return. Our finance department is required to select available-for-sale investments issued by reputable banks and financial institutions with a low risk and high liquidity profile to ensure that such investments are compatible with our working capital requirements and strategic plans.

LEGAL PROCEEDINGS AND COMPLIANCE

Legal Proceedings

We may face arbitration, litigation or administrative proceedings in the ordinary course of our business. As of the date of this offering memorandum, we are not aware of any material arbitration, litigation or administrative proceedings against us that may have a material adverse impact on our business, financial condition on results of operations.

REGULATIONS ON LAND AND THE DEVELOPMENT OF REAL ESTATE PROJECTS

Land Grants

On April 12, 1988, the National People's Congress of China (the "NPC") passed an amendment to the *Constitution of the PRC* (中華人民共和國憲法). The amendment allowed the transfer of land use rights for value to prepare for reforms of the legal regime governing the use of land and transfer of land use rights. On December 29, 1988, the SCNPC also amended the *Land Administration Law of the PRC* (中華人民共和國土地管理法) to permit the transfer of land use rights for value.

Under the *Provisional Regulations of the People's Republic of China on Grant and Transfer of the Land-Use Rights of State-owned Urban Land* (中華人民共和國城鎮國有土地使用權出讓和轉讓暫行條例) (the "**Provisional Regulations on Grant and Transfer**") promulgated by the State Council on May 19, 1990, a system of assignment and transfer of the right to use State-owned land is adopted. A land user shall pay land premium to the State as consideration for the grant of the right to use a land site within a certain term, and the land user may transfer, lease out, mortgage or otherwise commercially exploit the land use rights within the term of use. Under the Provisional Regulations on Grant and Transfer and the Urban Real Estate Law, the land administration authority under the local government of the relevant city or county shall enter into an assignment contract with the land user to provide for the grant of land use rights. The land user shall pay the land premium as provided by the assignment contract. After full payment of the land premium, the land user shall register with the land administration authority and obtain a land use rights certificate which evidences the acquisition of land use rights. The Development Regulations provide that the land use right for a land parcel intended for real estate development shall be obtained through grant except for land use rights which may be obtained through appropriation pursuant to PRC laws or the stipulations of the State Council.

Under the *Regulations on the Grant of State-Owned Land Use Rights by Way of Tender, Auction and Listing-for-sale* (招標拍賣掛牌出讓國有土地使用權規定) promulgated by the Ministry of Land and Resources (中華人民共和國國土資源部) (the "**MLR**") on May 9, 2002 and implemented on July 1, 2002 and revised on September 28, 2007 with the name *Regulations on the Grant of State-Owned Construction Land Use Rights by Way of Tender, Auction and Listing-for-sale* (招標拍賣掛牌出讓國有建設用地使用權規定) effective on November 1, 2007 (the "**Land Grant Regulations**"), land to be used for industrial, commercial, tourism, entertainment or commodity residential purposes, or where there are two or more intended users for the certain piece of land, shall be granted by way of competitive processes. A number of measures are provided by the Land Grant Regulations to ensure such grant of land use rights for commercial purposes is conducted openly and fairly.

On May 11, 2011, the MLR promulgated the *Opinions on Upholding and Improving the System for the Transfer of Land by Tender, Auction and Listing-for-Sale* (國土資源部關於堅持和完善土地招標拍賣掛牌出讓制度的意見), which provides stipulations to improve policies on the supply of land through public tender, auction and listing-for-sale, and strengthen the active role of land transfer policy in the control of the real estate market.

On June 11, 2003, the MLR promulgated the *Regulations on the Grant of State-owned Land Use Rights by Agreement* (協議出讓國有土地使用權規定). According to this regulation, if there is only one party interested in using the land, the land use rights (excluding profit-oriented land for commercial use, tourism, entertainment and commodity residential properties) may be assigned by way of agreement. If two or more parties are interested in the land use rights to be assigned, such land use rights shall be granted by means of tender, auction and listing-for-sale.

According to the *Circular on the Distribution of the Catalog for Restricted Land Use Projects (2012 Edition) and the Catalog for Prohibited Land Use Project (2012 Edition)* (關於印發《限制用地項目目錄(2012年本)》和《禁止用地項目目錄(2012年本)》的通知) promulgated by the MLR and NDRC on May 23, 2012, the granted area of the residential housing projects should not exceed (i) seven hectares for small cities and towns, (ii) 14 hectares for medium-sized cities, or (iii) and 20 hectares for large cities and plot ratio which is not lower than 1.0.

The Measures on the Administration of Reserved Land (土地儲備管理辦法), promulgated by MLR, MOF, the PBOC and the CBRC on January 3, 2018, define “reserved land” and stipulate the administrative, regulatory and implementing procedures involved with the planning, standard, development, management and protect, supply and capital expenditure of reserved land.

Development of a Real Estate Project

Commencement of real estate project and regulations with respect to idle land

Under the *Urban Real Estate Law*, those who have been granted the land use rights must develop the land in accordance with the use and construction period as prescribed by the land use right grant contract. Pursuant to the *Measures on Disposal of Idle Land* (閒置土地處置辦法) promulgated by the MLR on April 28, 1999, amended on June 1, 2012 and implemented on July 1, 2012, the land can be defined as idle land under any of the following circumstances:

- (i) development and construction of the state-owned idle land is not commenced after one year of the prescribed time limit in the land use right grant contract or allocation decision; or
- (ii) the development and construction of the state-owned idle land has been commenced but the area of the development and construction that has been commenced is less than one-third of the total area to be developed and constructed or the invested amount is less than 25% of the total amount of investment, and the development and construction have been continuously suspended for one year or more without an approval.

Where the delay of commencement of development is caused by the government’s behavior or due to the force majeure of natural disasters, the land administrative authorities shall discuss with the holder of state-owned construction land use rights and choose the methods for disposal in accordance with the *Measures on Disposal of Idle Land*.

The Notice on Strengthening the Disposing of Idle Land (關於加大閒置土地處置力度的通知) issued by the MLR on September 8, 2007 emphasizing that the disposal of idle land shall be speeded up. The land regulatory authority may impose an idle land penalty of up to 20% of the land premium; the land regulatory authority shall reclaim the idle land without compensation as required by the relevant regulations. For land that becomes idle as a result of illegal approval, such land shall be reclaimed before the end of 2007.

Planning of a real estate project

Under the *Regulation on Planning Administration regarding Granting and Transfer of State-Owned Land Use Right in Urban Area* (城市國有土地使用權出讓轉讓規劃管理辦法) promulgated by the Ministry of Construction in December 1992 and amended in January 2011, a real estate developer shall apply for a construction land planning permit (建設用地規劃許可證) from the municipal planning authority. The SCNPC promulgated the *Urban and Rural Planning Law of PRC* (中華人民共和國城鄉規劃法) on October 28, 2007 and amended on April 24, 2015 and April 23, 2019, pursuant to which, a construction work planning permit (建設工程規劃許可證) must be obtained from relevant urban and rural planning government authorities for building any structure, fixture, road, pipeline or other engineering project within an urban or rural planning area.

These loans are mainly used to finance our business and our working capital requirements. They have terms generally ranging from one to five years. As of June 30, 2020, the aggregate outstanding amount under these loans amounted to approximately RMB18,034.1 million (US\$2,552.6 million), of which RMB6,641.6 million (US\$940.1 million) was due within one year and RMB11,392.5 million (US\$1,612.5 million) was due more than one year. Our bank loans are primarily secured by our fixed assets and shares of certain subsidiaries. See also “Management’s Discussion and Analysis of Financial Condition and Results of Operations — Indebtedness.”

The principal amounts outstanding under our PRC bank loans generally bear interest at floating rates calculated with reference to the PBOC benchmark interest rate. Floating interest rates are generally subject to annual or quarterly review by the lending banks. Interest payments are payable either monthly or quarterly and must be made on each payment date as provided in the particular loan agreement.

Covenants

Under these PRC loans with banks, many of our subsidiary borrowers have agreed, among other things, not to take some of the following actions without obtaining the relevant lender’s prior consent:

Guarantee and Security

We and certain of our PRC subsidiaries have entered into guarantee agreements with PRC banks and financial institutions in connection with some of the PRC loans, pursuant to which these subsidiaries have guaranteed all liabilities of the subsidiary borrowers under these loans. DESCRIPTION OF THE NOTES

For purposes of this “Description of the Notes,” the term “Issuer” refers only to Redsun Properties Group Limited (弘陽地產集團有限公司) and any successor obligor on the Notes and not to any of its Subsidiaries. Each Subsidiary of the Issuer which Guarantees the Notes is referred to as a “Subsidiary Guarantor,” and each such Guarantee is referred to as a “Subsidiary Guarantee.” Each Subsidiary of the Issuer that in the future provides a JV Subsidiary Guarantee (as defined below) is referred to as a “JV Subsidiary Guarantor.”

The Notes are to be issued under an indenture (the “**Indenture**”) dated as of January 13, 2021, among the Issuer, the Subsidiary Guarantors, and The Bank of New York Mellon, London Branch, as trustee (the “**Trustee**”).

The following is a summary of the material provisions of the Indenture, the Notes, the Subsidiary Guarantees and the JV Subsidiary Guarantees (if any). This summary does not purport to be complete, and is subject to, and is qualified in its entirety by reference to all of the provisions of the Indenture, the Notes, the Subsidiary Guarantees and the JV Subsidiary Guarantees (if any). It does not restate those documents in their entirety. Whenever particular sections or defined terms of the Indenture not otherwise defined herein are referred to, such sections or defined terms are incorporated herein by reference. Copies of the Indenture will be available for inspection on or after the Original Issue Date, during normal business hours and by giving prior notice at the corporate trust office of the Trustee at One Canada Square, London E14 5AL, United Kingdom.

Brief Description of the Notes

The Notes are:

- general obligations of the Issuer;
- senior in right of payment to any existing and future obligations of the Issuer expressly subordinated in right of payment to the Notes;
- at least *pari passu* in right of payment with the Existing Notes and all other unsecured, unsubordinated obligations of the Issuer (subject to any priority rights of such unsecured, unsubordinated obligations pursuant to applicable law);
- guaranteed by the Subsidiary Guarantors and the JV Subsidiary Guarantors (if any), on a senior basis, subject to the limitations described below under the caption “— The Subsidiary Guarantees and the JV Subsidiary Guarantees” and in “Risk Factors — Risks Relating to the Notes, the Subsidiary Guarantees and the JV Subsidiary Guarantees”;
- effectively subordinated to the secured obligations of the Issuer, the Subsidiary Guarantors and the JV Subsidiary Guarantors (if any), to the extent of the value of the assets serving as security therefor; and
- effectively subordinated to all existing and future obligations of the Non-Guarantor Subsidiaries (as defined below).

The Notes will mature on the Maturity Date, unless earlier redeemed pursuant to the terms thereof and the Indenture.

The Notes will bear interest at 7.3% per annum from January 13, 2021 or from the most recent interest payment date to which interest has been paid or duly provided for, payable semiannually (except for the last interest payment) in arrears on January 13 and July 13 (each an “**Interest Payment Date**”), commencing July 13, 2021.

Interest on the Notes will be paid to Holders of record at the close of business on June 28 or December 29 immediately preceding an Interest Payment Date (each, a “**Record Date**”), notwithstanding any transfer, exchange or cancellation thereof after a Record Date and prior to the immediately following Interest Payment Date. Interest on the Notes will be calculated on the basis of a 360-day year comprised of twelve 30-day months. So long as the Notes are held in global form, each payment in respect of the Global Note will be made to the person shown as the holder of the Notes in the Register at the close of business (of the relevant clearing system) on the Clearing System Business Day before the due date for such payments, where “Clearing System Business Day” means a weekday (Monday to Friday, inclusive) except December 25 and January 1.

Except as described under “Optional Redemption,” “Redemption for Taxation Reasons” and otherwise provided in the Indenture, the Notes may not be redeemed prior to maturity (unless they have been repurchased by the Issuer).

In any case in which the date of the payment of principal of, premium (if any) on or interest on the Notes is not a Business Day, then payment of such principal, premium or interest need not be made on such date but may be made on the next succeeding Business Day. Any payment made on such Business Day shall have the same force and effect as if made on the date on which such payment is due and no interest on the Notes shall accrue for the period after such date.

The Indenture allows additional Notes to be issued from time to time (the “**Additional Notes**”), subject to certain limitations described under “— Further Issues.” Unless the context requires otherwise, references to the “Notes” for all purposes of the Indenture and this “Description of the Notes” include any Additional Notes that are actually issued.

The Notes will be issued only in fully registered form, without coupons, in denominations of US\$200,000 and integral multiples of US\$1,000 in excess thereof. No service charge will be made for any registration of transfer or exchange of Notes, but the Issuer may require payment of a sum sufficient to cover any transfer tax or other similar governmental charge payable in connection therewith.

All payments on the Notes will be made in U.S. dollars by the Issuer at the office or agency of the Issuer maintained for that purpose (which initially will be the specified office of the Paying Agent currently located at One Canada Square, London E14 5AL, United Kingdom), and the Notes may be presented for registration of transfer or exchange at such office; *provided* that, at the option of the Issuer, payment of interest may be made by check mailed to the address of the Holders as such address appears in the Note register maintained by the Note Registrar or by wire transfer. Interest payable on the Notes held through Euroclear or Clearstream will be available to Euroclear or Clearstream participants (as defined herein) on the Business Day following payment thereof.

As of the date of the Indenture, all of the Issuer's Subsidiaries will be "Restricted Subsidiaries." Under the circumstances described below under the caption "— Certain Covenants — Designation of Restricted and Unrestricted Subsidiaries," the Issuer will be permitted to designate certain of its Subsidiaries as "Unrestricted Subsidiaries." The Issuer's Unrestricted Subsidiaries will generally not be subject to the restrictive covenants in the Indenture. The Issuer's Unrestricted Subsidiaries will not Guarantee the Notes.

The Subsidiary Guarantees and the JV Subsidiary Guarantees

Redsun Properties Investment (Holdings) Limited (弘阳地产投资(控股)有限公司) and Hong Yang Properties Investment Limited (弘陽地產投資有限公司) will be initial Subsidiary Guarantors on the Original Issue Date.

The Issuer will cause each of its future Restricted Subsidiaries (other than Persons organized under the laws of the PRC, Exempted Subsidiaries, the Finance Subsidiaries and the Listed Subsidiaries), as soon as practicable after such Person becomes a Restricted Subsidiary, and each Exempted Subsidiary that ceases to be an Exempted Subsidiary, as soon as practicable after it ceases to be an Exempted Subsidiary, and each Finance Subsidiary that ceases to be a Finance Subsidiary, as soon as practicable after it ceases to be a Finance Subsidiary, and each Listed Subsidiary that ceases to be a Listed Subsidiary, as soon as practicable after it ceases to be a Listed Subsidiary, as the case may be, to execute and deliver to the Trustee a supplemental indenture to the Indenture pursuant to which such entity will Guarantee the payment of the Notes as either a Subsidiary Guarantor or a JV Subsidiary Guarantor. Notwithstanding the foregoing sentence, the Issuer may elect to have (i) any future Subsidiary Guarantor or JV Subsidiary Guarantor; (ii) any future Restricted Subsidiary organized under laws outside the PRC, at the time such entity becomes a Restricted Subsidiary, (iii) any Exempted Subsidiary, at the time that such entity ceases to be a Exempted Subsidiary, (iv) any Finance Subsidiary, at the time such entity ceases to be a Finance Subsidiary, or (v) any Listed Subsidiary, at the time such entity ceases to be a Listed Subsidiary not provide a Subsidiary Guarantee or a JV Subsidiary Guarantee (Restricted Subsidiaries that are so elected not to provide Subsidiary Guarantee or JV Subsidiary Guarantee, together with each of the Initial Non-Guarantor Subsidiaries (other than W Ocean), to the extent that such Initial Non-Guarantor Subsidiary is not an Exempted Subsidiary, Finance Subsidiary or Listed Subsidiary, the "**Other Non-Guarantor Subsidiaries**"); *provided* that, at the time such entity becomes a Restricted Subsidiary or ceases to be a Subsidiary Guarantor or JV Subsidiary Guarantor or an Exempted Subsidiary or a Finance Subsidiary or a Listed Subsidiary, as the case may be, after giving effect to the consolidated assets of such entity, the Consolidated Assets of all Other Non-Guarantor Subsidiaries do not account for more than 20% of the Total Assets.

In addition, if, at any time, the Consolidated Assets of all Other Non-Guarantor Subsidiaries account for more than 20% of the Total Assets, the Issuer must cause one or more Other Non-Guarantor Subsidiaries to execute and deliver to the Trustee a supplemental indenture to the Indenture pursuant to which such Other Non-Guarantor Subsidiaries will Guarantee the payment of the Notes such that the 20% limitation is complied with, *provided* that, such supplemental indenture shall be executed and delivered as soon as practicable from the date of the most recent fiscal quarter for which the consolidated financial statements of the Issuer (which the Issuer shall use its best efforts to compile on a timely basis and which may be internal consolidated financial statements) become available.

Each Restricted Subsidiary that guarantees the Notes after the Original Issue Date other than a JV Subsidiary Guarantor is referred to as a “Future Subsidiary Guarantor” and upon execution of the applicable supplemental indenture to the Indenture will be a “Subsidiary Guarantor.” Each Restricted Subsidiary that provides a JV Subsidiary Guarantee for the Notes after the Original Issue Date is referred to as a “Future JV Subsidiary Guarantor” and, upon execution of the applicable supplemental indenture to the Indenture, will be a “JV Subsidiary Guarantor.”

The Other Non-Guarantor Subsidiaries and W Ocean, together with Restricted Subsidiaries organized under the laws of the PRC, the Exempted Subsidiaries (for so long as they are Exempted Subsidiaries), the Listed Subsidiaries (for so long as they are Listed Subsidiaries) and the Finance Subsidiaries (for so long as they are Finance Subsidiaries), are referred to herein as the “Non-Guarantor Subsidiaries.”

None of the existing or future Restricted Subsidiaries organized under the laws of the PRC will provide a Subsidiary Guarantee or JV Subsidiary Guarantee at any time in the future. None of the existing or future Exempted Subsidiaries, Listed Subsidiaries or Finance Subsidiaries (for so long as they maintain the relevant status) will provide a Subsidiary Guarantee or JV Subsidiary Guarantee at any time in the future.

In the case of a Restricted Subsidiary (i) that is, or is proposed by the Issuer or any of its Restricted Subsidiaries to be, established or acquired after the Original Issue Date, (ii) that is not a Non-Guarantor Subsidiary and (iii) in respect of which the Issuer or any of its Restricted Subsidiaries (x) is proposing to sell, whether through the sale of existing Capital Stock or the issuance of new Capital Stock, no less than 20% of the Capital Stock of such Restricted Subsidiary or (y) is proposing to purchase no less than 50.1% and no more than 80% of the Capital Stock of an entity and designate such entity as a Restricted Subsidiary, the Issuer may, concurrently with the consummation of such sale or purchase, cause the provision of a JV Subsidiary Guarantee (as defined below) instead of a Subsidiary Guarantee for (a) such Restricted Subsidiary and (b) the Restricted Subsidiaries of such Restricted Subsidiary that are not Non-Guarantor Subsidiaries, if the following conditions, in the case of both (a) and (b), are satisfied:

- as of the date of execution of the JV Subsidiary Guarantee (as defined below), no document exists that is binding on the Issuer or any of the Restricted Subsidiaries that would have the effect of (a) prohibiting the Issuer or any of the Restricted Subsidiaries from providing such JV Subsidiary Guarantee or (b) requiring the Issuer or any of the Restricted Subsidiaries to deliver or keep in place a guarantee on terms that are more favorable to the recipients of such guarantee than the JV Subsidiary Guarantee;
- such sale or issuance of Capital Stock is made to, or such purchase of Capital Stock is purchased from, an Independent Third Party at a consideration that is not less than (in the case of a sale or issuance) or no more than (in the case of a purchase) the Fair Market Value of such Capital Stock;
- concurrently with providing the JV Subsidiary Guarantee, the Issuer shall or shall cause such JV Subsidiary Guarantor to deliver to the Trustee:

- (i) (A) a duly executed JV Subsidiary Guarantee of such JV Subsidiary Guarantor (the “**JV Subsidiary Guarantee**”) and each Restricted Subsidiary of such JV Subsidiary Guarantor that is not a Non-Guarantor Subsidiary, and (B) a duly executed supplemental indenture to the Indenture pursuant to which such JV Subsidiary Guarantor will guarantee the payment of the Notes, each of which provides, among other things, that the aggregate claims of the Trustee under such JV Subsidiary Guarantee and all JV Subsidiary Guarantees provided by the Restricted Subsidiaries and shareholders of such JV Subsidiary Guarantor will be limited to the JV Entitlement Amount;
- (ii) an Officers’ Certificate certifying a copy of the Board Resolution to the effect that such JV Subsidiary Guarantee has been approved by the Board of Directors and if the Board of Directors comprises of any disinterested members, a majority of such disinterested members; and
- (iii) a legal opinion by a law firm of recognized international standing confirming that under New York law such JV Subsidiary Guarantees are valid, binding and enforceable against the JV Subsidiary Guarantors providing such JV Subsidiary Guarantees (subject to customary qualifications and assumptions).

As of June 30, 2020, the Issuer and its Subsidiaries had total outstanding indebtedness of approximately RMB32,133.3 million (US\$4,548.2 million), of which RMB19,455.2 million (US\$2,753.7 million) was secured.

As of June 30, 2020, our Non-Guarantor Subsidiaries had total outstanding indebtedness of approximately RMB20,059.5 million (US\$2,839.2 million) and capital commitments and contingent liabilities arising from guarantees of approximately RMB9,954.1 million (US\$1,408.9 million) and RMB17,927.3 million (US\$2,537.4 million), respectively.

The Subsidiary Guarantee of each Subsidiary Guarantor:

- is a general obligation of such Subsidiary Guarantor;
- is effectively subordinated to the secured obligations of such Subsidiary Guarantor, to the extent of the value of the assets serving as security therefor;
- is senior in right of payment to all future obligations of such Subsidiary Guarantor expressly subordinated in right of payment to such Subsidiary Guarantee;
- ranks at least *pari passu* with the subsidiary guarantee for the Existing Notes and all other unsecured and unsubordinated Indebtedness of such Subsidiary Guarantor (subject to any priority rights of such unsecured and unsubordinated Indebtedness pursuant to applicable law); and
- is effectively subordinated to all existing and future obligations of the Non-Guarantor Subsidiaries.
- If any is provided, the JV Subsidiary Guarantee of each JV Subsidiary Guarantor:

- will be a general obligation of such JV Subsidiary Guarantor;
- will, together with all the JV Subsidiary Guarantees provided by the Subsidiaries and shareholders of such JV Subsidiary Guarantor, in the aggregate, be enforceable only up to the JV Entitlement Amount;
- will be effectively subordinated to the secured obligations of such JV Subsidiary Guarantor, to the extent of the value of the assets serving as security therefor;
- will, together with all the JV Subsidiary Guarantees provided by the Subsidiaries and shareholders of such JV Subsidiary Guarantor, in the aggregate, be limited to the JV Entitlement Amount, and will be senior in right of payment to all future obligations of such JV Subsidiary Guarantor expressly subordinated in right of payment to such JV Subsidiary Guarantee; and
- will, together with all the JV Subsidiary Guarantees provided by the Subsidiaries and shareholders of such JV Subsidiary Guarantor, in the aggregate, be limited to the JV Entitlement Amount, and will rank at least *pari passu* with all other unsecured and unsubordinated Indebtedness of such JV Subsidiary Guarantor (subject to any priority rights of such unsecured and unsubordinated Indebtedness pursuant to applicable law).

Although the Indenture contains limitations on the amount of additional Indebtedness that Restricted Subsidiaries may incur, the amount of such additional Indebtedness could be substantial. In the event of a bankruptcy, liquidation or reorganization of any Non-Guarantor Subsidiary, the Non-Guarantor Subsidiaries will pay the holders of their debt and their trade creditors before they will be able to distribute any of their assets to the Issuer.

The JV Subsidiary Guarantee of each JV Subsidiary Guarantor will not be secured.

Under the Indenture, and any supplemental indenture to the Indenture, as applicable, each of the Subsidiary Guarantors and the JV Subsidiary Guarantors (if any) will jointly and severally Guarantee the due and punctual payment of the principal of, premium, if any, and interest on, and all other amounts payable under, the Notes; *provided* that, any JV Subsidiary Guarantee, together with all the JV Subsidiary Guarantees provided by the Subsidiaries and shareholders of such JV Subsidiary Guarantor, in the aggregate, will be limited to the JV Entitlement Amount. The Subsidiary Guarantors and JV Subsidiary Guarantors will (1) agree that their respective obligations under the Subsidiary Guarantees and JV Subsidiary Guarantees, as the case may be, will be enforceable irrespective of any invalidity, irregularity or unenforceability of the Notes or the Indenture and (2) waive their right to require the Trustee to pursue or exhaust its legal or equitable remedies against the Issuer prior to exercising its rights under the Subsidiary Guarantees and the JV Subsidiary Guarantees, as the case may be. Moreover, if at any time any amount paid under a Note or the Indenture is rescinded or must otherwise be repaid or restored, the rights of the Holders under the Subsidiary Guarantees and the JV Subsidiary Guarantees, as the case may be, will be reinstated with respect to such payment as though such payment had not been made. All payments under the Subsidiary Guarantees and the JV Subsidiary Guarantees, as the case may be, are required to be made in U.S. dollars.

Under the Indenture, and any supplemental indenture to the Indenture, as applicable,

- each Subsidiary Guarantee will be limited to an amount not to exceed the maximum amount that can be guaranteed by the applicable Subsidiary Guarantor without rendering the Subsidiary Guarantee, as it relates to such Subsidiary Guarantor, voidable under applicable law relating to fraudulent conveyance or fraudulent transfer or similar laws affecting the rights of creditors generally; and
- each JV Subsidiary Guarantee will, together with all the JV Subsidiary Guarantees provided by the Subsidiaries and shareholders of such JV Subsidiary Guarantor, in the aggregate, be limited to an amount which is the lower of (i) the JV Entitlement Amount and (ii) an amount not to exceed the maximum amount that can be guaranteed by the applicable JV Subsidiary Guarantor without rendering the JV Subsidiary Guarantee, as it relates to such JV Subsidiary Guarantor, voidable under applicable law relating to fraudulent conveyance or fraudulent transfer or similar laws affecting the rights of creditors generally.

If a Subsidiary Guarantee or JV Subsidiary Guarantee were to be rendered voidable, it could be subordinated by a court to all other Indebtedness (including guarantees and other contingent liabilities) of the applicable Subsidiary Guarantor or JV Subsidiary Guarantor, as the case may be, and, depending on the amount of such Indebtedness, a Subsidiary Guarantor's liability on its Subsidiary Guarantee or a JV Subsidiary Guarantor's liability on its JV Subsidiary Guarantee, as the case may be, could in each case be reduced to zero.

The obligations of each Subsidiary Guarantor under its Subsidiary Guarantee may be limited, or possibly invalid, under applicable laws. Similarly, the obligations of each JV Subsidiary Guarantor under its JV Subsidiary Guarantee may be limited, or possibly invalid, under applicable laws. See "Risk Factors — Risks Relating to the Notes, the Subsidiary Guarantees and the JV Subsidiary Guarantees — The Subsidiary Guarantees and the JV Subsidiary Guarantees, if any, may be challenged under applicable insolvency or fraudulent transfer laws, which could impair the enforceability of the Subsidiary Guarantees and the JV Subsidiary Guarantees, if any."

Release of the Subsidiary Guarantees or JV Subsidiary Guarantees

A Subsidiary Guarantee given by a Subsidiary Guarantor and a JV Subsidiary Guarantee given by a JV Subsidiary Guarantor may be released in certain circumstances, including:

- upon repayment in full of the Notes;
- upon a defeasance as described under "— Defeasance — Defeasance and Discharge;"
- upon the designation by the Issuer of a Subsidiary Guarantor or a JV Subsidiary Guarantor, as the case may be, as an Unrestricted Subsidiary in compliance with the terms of the Indenture;
- upon the sale, merger or disposition of a Subsidiary Guarantor or a JV Subsidiary Guarantor, as the case may be, in compliance with the terms of the Indenture (including the covenants under the captions "— Certain Covenants — Limitation

on Sales and Issuances of Capital Stock in Restricted Subsidiaries,” “— Certain Covenants — Limitation on Asset Sales” and “— Consolidation, Merger and Sale of Assets”) resulting in such Subsidiary Guarantor or JV Subsidiary Guarantor, as the case may be, no longer being a Restricted Subsidiary, so long as (1) such Subsidiary Guarantor or JV Subsidiary Guarantor, as the case may be, is simultaneously released from its obligations in respect of any of the Issuer’s other Indebtedness or any Indebtedness of any other Restricted Subsidiary and (2) the proceeds from such sale, merger or disposition are used for the purposes permitted or required by the Indenture;

- upon a Subsidiary Guarantor or a JV Subsidiary Guarantor becoming an Exempted Subsidiary, a Finance Subsidiary or a Listed Subsidiary;
- in the case of a Subsidiary Guarantee, upon the replacement of a Subsidiary Guarantee with a JV Subsidiary Guarantee; or
- upon a Subsidiary Guarantor or JV Subsidiary Guarantor becoming an Other Non-Guarantor Subsidiary, in compliance with the terms of the Indenture.

No release of a Subsidiary Guarantor from its Subsidiary Guarantee or a JV Subsidiary Guarantor from its JV Subsidiary Guarantee shall be effective against the Trustee or the Holders until the Issuer has delivered to the Trustee an Officers’ Certificate stating that all requirements relating to such release have been complied with and such release is authorized and permitted by the terms of the Indenture.

Replacement of Subsidiary Guarantees with JV Subsidiary Guarantees

A Subsidiary Guarantee given by a Subsidiary Guarantor may be released following the sale or issuance by the Issuer or any of its Restricted Subsidiaries of Capital Stock in (a) such Subsidiary Guarantor or (b) any other Subsidiary Guarantor that, directly or indirectly, owns a majority of the Capital Stock of such Subsidiary Guarantor, in each case where such sale or issuance, whether through the sale of existing shares or the issuance of new shares, is for no less than 20% and no more than 49.9% of the issued Capital Stock of the relevant Subsidiary Guarantor, *provided* that the following conditions are satisfied or complied with:

- as of the date of such proposed release, no document exists that is binding on the Issuer or any of the Restricted Subsidiaries that would have the effect of (a) prohibiting the Issuer or any of the Restricted Subsidiaries from releasing such Subsidiary Guarantee, (b) prohibiting the Issuer or any of the Restricted Subsidiaries from providing a JV Subsidiary Guarantee, or (c) requiring the Issuer or any of the Restricted Subsidiaries to deliver or keep in force a replacement guarantee on terms that are more favorable to the recipients of such guarantee than the JV Subsidiary Guarantee;
- such sale or issuance of Capital Stock has been made to an Independent Third Party at a consideration that is not less than the Fair Market Value of such Capital Stock;

- concurrently with the release of such Subsidiary Guarantee, the Issuer shall or shall cause such JV Subsidiary Guarantor to deliver to the Trustee:
 - (a) (A) a duly executed JV Subsidiary Guarantee of such JV Subsidiary Guarantor and each Restricted Subsidiary of such JV Subsidiary Guarantor that is not a Non-Guarantor Subsidiary and (B) a duly executed supplemental indenture to the Indenture pursuant to which such JV Subsidiary Guarantor will Guarantee the payment of the Notes, each of which provides, among other things, that the aggregate claims of the Trustee under such JV Subsidiary Guarantee and all JV Subsidiary Guarantees provided by the Restricted Subsidiaries and shareholders of such JV Subsidiary Guarantor will be limited to the JV Entitlement Amount;
 - (b) an Officers' Certificate certifying a copy of the Board Resolution to the effect that such JV Subsidiary Guarantee has been approved by the Board of Directors and if the Board of Directors comprises of any disinterested members, a majority of such disinterested members; and
 - (c) a legal opinion by a law firm of recognized international standing confirming that under New York law such JV Subsidiary Guarantee is valid, binding and enforceable against the JV Subsidiary Guarantor providing such JV Subsidiary Guarantee (subject to customary qualifications and assumptions).

Notwithstanding the foregoing paragraph, any such sale or issuance of the Capital Stock of the relevant Subsidiary Guarantor (including where such sale results in the relevant Subsidiary Guarantor ceasing to be a Restricted Subsidiary) will need to comply with the other covenants set forth in the Indenture, including, without limitation, the "Limitation on Asset Sales" and "Limitation on Restricted Payments" covenants.

Any Net Cash Proceeds from the sale or issuance of such Capital Stock shall be applied by the Issuer (or any Restricted Subsidiary) in accordance with the "Limitation on Asset Sales" covenant.

Further Issues

Subject to the covenants described below and in accordance with the terms of the Indenture, the Issuer may, from time to time, without notice to or the consent of the Holders, create and issue Additional Notes having the same terms and conditions as the Notes (including the benefit of the Subsidiary Guarantees and the JV Subsidiary Guarantees, if any) in all respects (or in all respects except for the issue date, issue price and the first payment of interest on them and, to the extent necessary, certain temporary securities law transfer restrictions) (a "**Further Issue**") so that such Additional Notes may be consolidated and form a single class with the previously outstanding Notes and vote together as one class on all matters with respect to the Notes; *provided* that the issuance of any such Additional Notes shall then be permitted under the "Limitation on Indebtedness and Preferred Stock" covenant described below.

Optional Redemption

At any time and from time to time on or after January 13, 2023 the Issuer may redeem the Notes, in whole or in part, at the redemption prices set forth below, plus accrued and unpaid interest, if any, on the Notes redeemed to (but not including) the redemption date if redeemed during the twelve-month period beginning on January 13 of the year indicated below:

Period	Redemption Price
2023	103%
2024	101.5%

At any time and from time to time prior to January 13, 2023, the Issuer may at its option redeem the Notes, in whole but not in part, at a redemption price equal to 100% of the principal amount of the Notes plus the Applicable Premium as of, and accrued and unpaid interest, if any, to (but not including) the redemption date. Neither the Trustee nor the Paying Agent is responsible for calculating or verifying the Applicable Premium.

At any time and from time to time prior to January 13, 2023, the Issuer may at its option redeem up to 35% of the aggregate principal amount of the Notes with the Net Cash Proceeds of one or more sales of the Common Stock of the Issuer in an Equity Offering at a redemption price of 107.3% of the principal amount of the Notes redeemed, plus accrued and unpaid interest, if any, to (but not including) the redemption date; *provided* that at least 65% of the aggregate principal amount of the Notes (including any Additional Notes) originally issued remains outstanding after each such redemption and any such redemption takes place within 60 days after the closing of the related Equity Offering.

Selection and Notice

The Issuer will give not less than 30 days' nor more than 60 days' notice of any redemption to the Holders and the Trustee. If less than all of the Notes are to be redeemed at any time, the Notes for redemption will be selected as follows:

- (1) if the Notes are listed on any securities exchange or are held through a clearing system, in compliance with the requirements of the principal securities exchange on which the Notes are listed (if any) or the requirements of the clearing system; or
- (2) if the Notes are not listed on any securities exchange or held through any clearing system, on a *pro rata* basis, by lot or by such method as the Trustee in its sole and absolute discretion deems fair and appropriate unless otherwise required by applicable law.

A Note of US\$200,000 in principal amount or less shall not be redeemed in part. If any Note is to be redeemed in part only, the notice of redemption relating to such Note will state the portion of the principal amount to be redeemed. With respect to any certificated Note, a Note in principal amount equal to the unredeemed portion will be issued upon cancellation of the original Note. On and after the redemption date, interest will cease to accrue on the Notes or portions of them called for redemption.

Delisting Put Right

Not later than 30 days following a Delisting Event, the Issuer will make a Delisting Offer to Purchase all outstanding Notes (a “**Delisting Offer**”) at a purchase price equal to 101% of the principal amount thereof plus accrued and unpaid interest, if any, to (but excluding) the Delisting Put Date (subject to the right of Holders of record on the applicable Record Date to receive interest due on the relevant Interest Payment Date falling on or prior to the Delisting Put Date).

The Issuer has agreed in the Indenture that upon a Delisting Event it will timely repay all Indebtedness governed by, or obtain consents as necessary under, or terminate, agreements or instruments that would otherwise prohibit a Delisting Offer required to be made pursuant to the Indenture. Notwithstanding this agreement of the Issuer, it is important to note that if the Issuer is unable to repay (or cause to be repaid) all of the Indebtedness, if any, that would prohibit repurchase of the Notes or is unable to obtain the requisite consents of the holders of such Indebtedness, or terminate any agreements or instruments that would otherwise prohibit a Delisting Offer, it would continue to be prohibited from purchasing the Notes. In that case, the Issuer’s failure to purchase tendered Notes would constitute an Event of Default under the Indenture.

The Trustee shall not be required to take any steps to ascertain whether a Delisting Event or any event which could lead to a Delisting Event has occurred and shall not be liable to any person for any failure to do so.

Repurchase of Notes Upon a Change of Control Triggering Event

Not later than 30 days following a Change of Control Triggering Event, the Issuer will make an Offer to Purchase all outstanding Notes (a “**Change of Control Offer**”) at a purchase price equal to 101% of the principal amount thereof plus accrued and unpaid interest, if any, to (but not including) the Offer to Purchase Payment Date.

The Issuer has agreed in the Indenture that it will timely repay all Indebtedness or obtain consents as necessary under, or terminate, agreements or instruments that would otherwise prohibit a Change of Control Offer required to be made pursuant to the Indenture. Notwithstanding this agreement of the Issuer, it is important to note that if the Issuer is unable to repay (or cause to be repaid) all of the Indebtedness, if any, that would prohibit repurchase of the Notes or is unable to obtain the requisite consents of the holders of such Indebtedness, or terminate any agreements or instruments that would otherwise prohibit a Change of Control Offer, it would continue to be prohibited from purchasing the Notes. In that case, the failure of the Issuer to purchase tendered Notes would constitute an Event of Default under the Indenture.

Certain of the events constituting a Change of Control Triggering Event under the Notes may also constitute an event of default under certain debt instruments of the Issuer and its Subsidiaries. Future debt of the Issuer may also (1) prohibit the Issuer from purchasing Notes in the event of a Change of Control Triggering Event; (2) provide that a Change of Control Triggering Event is a default; or (3) require repurchase of such debt upon a Change of Control Triggering Event. Moreover, the exercise by the Holders of their right to require the Issuer to purchase the Notes could cause a default under other Indebtedness, even if the Change of Control Triggering Event itself does not, due to the financial effect of the purchase on the Issuer. The ability of the Issuer to pay cash to the

Holder following the occurrence of a Change of Control Triggering Event may be limited by the Issuer's then-existing financial resources. There can be no assurance that sufficient funds will be available when necessary to make the required purchase of the Notes. See "Risk Factors — Risks Relating to the Notes, the Subsidiary Guarantees and the JV Subsidiary Guarantees — We may not be able to repurchase the Notes upon a Change of Control Triggering Event."

The phrase "all or substantially all," as used with respect to the assets of the Issuer in the definition of "Change of Control," will likely be interpreted under applicable law of the relevant jurisdictions and will be dependent upon particular facts and circumstances. As a result, there may be a degree of uncertainty in ascertaining whether a sale or transfer of "all or substantially all" the assets of the Issuer has occurred.

Notwithstanding the above, the Issuer will not be required to make a Change of Control Offer following a Change of Control Triggering Event if a third party makes the Change of Control Offer in the same manner within the same time frame and otherwise in compliance with the requirements set forth in the Indenture applicable to a Change of Control Offer made by the Issuer and purchases all Notes validly tendered and not withdrawn under such Change of Control Offer.

Except as described above with respect to a Change of Control Triggering Event, the Indenture does not contain provisions that permit the Holders to require that the Issuer purchase or redeem the Notes in the event of a takeover, recapitalization or similar transaction.

The Trustee shall not be required to take any steps to ascertain whether a Change of Control Triggering Event or any event which could lead to a Change of Control Triggering Event has occurred and shall not be liable to any person for any failure to do so.

No Mandatory Redemption or Sinking Fund

There will be no mandatory redemption or sinking fund payments for the Notes.

Additional Amounts

All payments of principal of, premium (if any) and interest on the Notes or under the Subsidiary Guarantees and JV Subsidiary Guarantees (if any) will be made without withholding or deduction for, or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature imposed or levied by or within any jurisdiction in which the Issuer, a Surviving Person (as defined under the caption "— Consolidation, Merger and Sale of Assets") or an applicable Subsidiary Guarantor or JV Subsidiary Guarantor is organized or resident for tax purposes (or any political subdivision or taxing authority thereof or therein) (each, as applicable, a "**Relevant Jurisdiction**"), or the jurisdiction through which payments are made or any political subdivision or taxing authority thereof or therein (each, together with a Relevant Jurisdiction, a "**Taxing Jurisdiction**"), unless such withholding or deduction is required by law or by regulation or governmental policy having the force of law. In the event that any such withholding or deduction is so required, the Issuer, a Surviving Person or the applicable Subsidiary Guarantor or JV Subsidiary Guarantor, as the case may be, will pay such additional amounts ("**Additional Amounts**") as will result in receipt by the Holder of each Note of such

amounts as would have been received by such Holder had no such withholding or deduction been required, except that no Additional Amounts shall be payable:

1. for or on account of:
 - (a) any tax, duty, assessment or other governmental charge that would not have been imposed but for:
 - (i) the existence of any present or former connection between the Holder or beneficial owner of such Note and the Taxing Jurisdiction, other than merely holding such Note or the receipt of payments thereunder or under a Subsidiary Guarantee or JV Subsidiary Guarantee, including, without limitation, such Holder or beneficial owner being or having been a national, domiciliary or resident of such Taxing Jurisdiction or treated as a resident thereof or being or having been physically present or engaged in a trade or business therein or having or having had a permanent establishment therein; or
 - (ii) the presentation of such Note (in cases in which presentation is required) more than 30 days after the later of the date on which the payment of the principal of, premium, if any, and interest on, such Note became due and payable pursuant to the terms thereof or was made or duly provided for, except to the extent that the Holder thereof would have been entitled to such Additional Amounts if it had presented such Note for payment on any date within such 30-day period; or
 - (iii) the failure of the Holder or beneficial owner to comply with a timely request of the Issuer, a Surviving Person, any Subsidiary Guarantor or any JV Subsidiary Guarantor, addressed to the Holder, to provide information concerning such Holder's or its beneficial owner's nationality, residence, identity or connection with any Taxing Jurisdiction, if and to the extent that due and timely compliance with such request is required under the tax laws of such jurisdiction in order to reduce or eliminate any withholding or deduction as to which Additional Amounts would have otherwise been payable to such Holder; or
 - (iv) the presentation of such Note (in cases in which presentation is required) for payment in the Taxing Jurisdiction, unless such Note could not have been presented for payment elsewhere;
 - (b) any estate, inheritance, gift, sale, transfer, personal property or similar tax, assessment or other governmental charge;
 - (c) any tax, assessment, withholding or deduction required by sections 1471 through 1474 of the U.S. Internal Revenue Code of 1986, as amended ("FATCA"), any current or future Treasury Regulations or rulings promulgated thereunder, any intergovernmental agreement between the United States and any other jurisdiction to implement FATCA, any law,

regulation or other official guidance enacted in any jurisdiction implementing such intergovernmental agreement or FATCA, or any agreement with the U.S. Internal Revenue Service under FATCA; or

- (d) any combination of taxes, duties, assessments or other governmental charges referred to in the preceding clauses (a), (b) and (c); or
- (2) to a Holder that is a fiduciary, partnership or person other than the sole beneficial owner of any payment to the extent that such payment would be required to be included in the income under the laws of a Taxing Jurisdiction, for tax purposes, of a beneficiary or settlor with respect to the fiduciary, or a member of that partnership or a beneficial owner who would not have been entitled to such Additional Amounts had that beneficiary, settlor, partner or beneficial owner been the Holder thereof.

The Issuer, a Surviving Person, a Subsidiary Guarantor, or a JV Subsidiary Guarantor, as the case may be, will (i) make any such withholding or deduction and (ii) remit the full amount deducted or withheld to the relevant authority in accordance with applicable law. The Issuer, a Surviving Person, a Subsidiary Guarantor or a JV Subsidiary Guarantor, as the case may be, will make reasonable efforts to obtain certified copies of tax receipts evidencing the payment of any taxes so deducted or withheld from the Taxing Jurisdiction imposing such taxes. The Issuer, a Surviving Person, a Subsidiary Guarantor or a JV Subsidiary Guarantor, as the case may be, will furnish to the Holders and the Trustee, within 90 days after the date the payment of any taxes so deducted or withheld is due pursuant to applicable law, either certified copies of tax receipts evidencing such payment or, if such receipts are not obtainable, other evidence of such payments.

At least 30 days prior to each date on which any payment under or with respect to the Notes is due and payable, if the Issuer, a Surviving Person, a Subsidiary Guarantor or a JV Subsidiary Guarantor will be obligated to pay Additional Amounts with respect to such payment, the Issuer, a Surviving Person, a Subsidiary Guarantor or a JV Subsidiary Guarantor, as the case may be, will deliver to the Trustee an Officers' Certificate, stating the fact that such Additional Amounts will be payable and the amounts so payable and will set forth such other information necessary to enable the Paying Agent to pay such Additional Amounts to the Holders on such payment date.

In addition, the Issuer or a Surviving Person, will pay any stamp, issue, registration, documentary, value added or other similar taxes and other duties (including interest and penalties) payable in any Taxing Jurisdiction in respect of the creation, issue, offering, execution or enforcement of the Notes, the Subsidiary Guarantees, the JV Subsidiary Guarantees or any documentation with respect thereto.

Whenever there is mentioned in any context the payment of principal of, and any premium or interest on, any Note or under any Subsidiary Guarantee or JV Subsidiary Guarantee, such mention shall be deemed to include payment of Additional Amounts provided for in the Indenture to the extent that, in such context, Additional Amounts are, were or would be payable in respect thereof.

Redemption for Taxation Reasons

The Notes may be redeemed, at the option of the Issuer or a Surviving Person (as defined under “— Consolidation, Merger and Sale of Assets”), as a whole but not in part, upon giving not less than 30 days’ nor more than 60 days’ notice to the Holders and the Trustee (which notice shall be irrevocable), at a redemption price equal to 100% of the principal amount thereof, together with accrued and unpaid interest (including any Additional Amounts), if any, to the date fixed by the Issuer or a Surviving Person, as the case may be, for redemption (the “**Tax Redemption Date**”) if, as a result of:

- (1) any change in, or amendment to, the laws (or any regulations or rulings promulgated thereunder) of a Relevant Jurisdiction affecting taxation; or
- (2) any change in the existing official position or the stating of an official position regarding the application or interpretation of such laws, regulations or rulings (including a holding, judgment or order by a court of competent jurisdiction),

which change or amendment becomes effective (or in the case of an official position, is announced) (i) with respect to the Issuer or any initial Subsidiary Guarantor, on or after the date of the final offering memorandum relating to the issue of the Notes, or (ii) with respect to any Future Subsidiary Guarantor, Future JV Subsidiary Guarantor or Surviving Person, on or after the date such Subsidiary Guarantor, JV Subsidiary Guarantor or Surviving Person becomes a Subsidiary Guarantor, JV Subsidiary Guarantor or Surviving Person, with respect to any payment due or to become due under the Notes or the Indenture, the Issuer, a Subsidiary Guarantor, a JV Subsidiary Guarantor or a Surviving Person, as the case may be, is, or on the next Interest Payment Date would be, required to pay Additional Amounts, and such requirement cannot be avoided by the taking of reasonable measures by the Issuer, the Subsidiary Guarantor, the JV Subsidiary Guarantor or the Surviving Person, as the case may be; *provided* that no such notice of redemption shall be given earlier than 90 days prior to the earliest date on which the Issuer, the Subsidiary Guarantor, the JV Subsidiary Guarantor or the Surviving Person, as the case may be, would be obligated to pay such Additional Amounts if a payment in respect of the Notes were then due.

Prior to the giving of any notice of redemption of the Notes pursuant to the foregoing, the Issuer, a Subsidiary Guarantor, a JV Subsidiary Guarantor or a Surviving Person, as the case may be, will deliver to the Trustee at least 30 days but not more than 60 days before a redemption date:

- (1) an Officers’ Certificate stating that such change or amendment or stating of an official position referred to in the prior paragraph has occurred, describing the facts related thereto and stating that such requirement cannot be avoided by the Issuer, the Subsidiary Guarantor, the JV Subsidiary Guarantor or the Surviving Person, as the case may be, by taking reasonable measures available to it; and
- (2) an Opinion of Counsel or an opinion of a tax consultant, in either case of recognized standing with respect to tax matters of the Relevant Jurisdiction, stating that the requirement to pay such Additional Amounts results from such change or amendment or stating of an official position referred to in the prior paragraph.

The Trustee shall be entitled to accept such certificate and opinion as sufficient evidence of the satisfaction of the conditions precedent described above, in which event it shall be conclusive and binding on the Holders. The Trustee will not be responsible for any loss occasioned by acting in reliance on such certificate and opinion. The Trustee is not obligated to investigate or verify any information in such certificate and opinion.

Any Notes that are redeemed for tax reasons will be canceled.

Certain Covenants

Set forth below are summaries of certain covenants contained in the Indenture.

Limitation on Indebtedness and Preferred Stock

- (1) The Issuer will not, and will not permit any Restricted Subsidiary to, Incur any Indebtedness (including Acquired Indebtedness), and the Issuer will not permit any Restricted Subsidiary to issue Preferred Stock, *provided* that the Issuer, any Subsidiary Guarantor or JV Subsidiary Guarantor may Incur Indebtedness (including Acquired Indebtedness), any Finance Subsidiary may Incur Finance Subsidiary Indebtedness and the Issuer may issue Additional Notes, and any Non-Guarantor Subsidiary (other than a Finance Subsidiary when Incurring Finance Subsidiary Indebtedness) may Incur Permitted Subsidiary Indebtedness if, after giving effect to the Incurrence of such Indebtedness or Permitted Subsidiary Indebtedness and the receipt and application of the proceeds therefrom, (x) no Default has occurred and is continuing and (y) the Fixed Charge Coverage Ratio would be not less than 2.0 to 1.0. Notwithstanding the foregoing, the Issuer will not permit any Restricted Subsidiary to Incur any Disqualified Stock (other than Disqualified Stock held by the Issuer or a Subsidiary Guarantor, so long as it is so held).
- (2) Notwithstanding the foregoing, the Issuer and, to the extent provided below, any Restricted Subsidiary may Incur each and all of the following (“**Permitted Indebtedness**”):

 - (b) Any *Pari Passu* Guarantee;
 - (c) Indebtedness of the Issuer or any Restricted Subsidiary outstanding on the Original Issue Date excluding Indebtedness permitted under clause (d) below; *provided* that such Indebtedness of Non-Guarantor Subsidiaries shall be included in the calculation of Permitted Subsidiary Indebtedness (other than any such Indebtedness described in clauses (a) and (b) above and clauses (d), (f), (g), (m) and (o) below);
 - (d) Indebtedness of the Issuer or Indebtedness or Preferred Stock of any Restricted Subsidiary owed to or held by the Issuer or any Restricted Subsidiary; *provided* that (i) any event which results in any such Restricted Subsidiary to which such Indebtedness is owed or by which such Preferred Stock is held ceasing to be a Restricted Subsidiary or any subsequent transfer of such Indebtedness or Preferred Stock (other than to the Issuer or any

Restricted Subsidiary) shall be deemed, in each case, to constitute an Incurrence of such Indebtedness not permitted by this clause (d) and (ii) if the Issuer is the obligor on such Indebtedness and none of the Subsidiary Guarantors and the JV Subsidiary Guarantors is the obligee on such Indebtedness, such Indebtedness must be unsecured and expressly be subordinated in right of payment to the Notes and if a Subsidiary Guarantor or a JV Subsidiary Guarantor is the obligor on such Indebtedness and none of the Issuer, the Subsidiary Guarantors and the JV Subsidiary Guarantors is the obligee on such Indebtedness, such Indebtedness must be unsecured and expressly subordinated in right of payment to the Subsidiary Guarantee of such Subsidiary Guarantor or the JV Subsidiary Guarantee of such JV Subsidiary Guarantor, as the case may be; *provided* further that, any Preferred Stock issued by a Subsidiary Guarantor or a JV Subsidiary Guarantor and held by the Issuer or another Restricted Subsidiary must by the terms thereof or by operation of law be subordinated in right of payment to the Subsidiary Guarantee of such Subsidiary Guarantor or the JV Subsidiary Guarantee of such JV Subsidiary Guarantor, as the case may be;

- (e) Indebtedness (“**Permitted Refinancing Indebtedness**”) issued in exchange for, or the net proceeds of which are used to refinance or refund, replace, exchange, renew, repay, redeem, defease, discharge or extend (collectively, “refinance” and “refinances” and “refinanced” shall have a correlative meaning), then outstanding Indebtedness (or Indebtedness that is no longer outstanding but that is refinanced substantially concurrently with the Incurrence of such Permitted Refinancing Indebtedness) Incurred under the immediately preceding paragraph (1) or clauses (a), (c), (h), (n), (p), (q), (r), (s), (t), (u) or (v) of this paragraph (2) and any refinancings thereof in an amount not to exceed the amount so refinanced (plus premiums, accrued interest, fees and expenses); *provided* that (i) Indebtedness the proceeds of which are used to refinance the Notes or Indebtedness that is *pari passu* with, or subordinated in right of payment to, the Notes or a Subsidiary Guarantee or a JV Subsidiary Guarantee shall only be permitted under this clause (e) if (A) in case the Notes are refinanced in part or the Indebtedness to be refinanced is *pari passu* with the Notes or a Subsidiary Guarantee or a JV Subsidiary Guarantee, as the case may be, such new Indebtedness, by its terms or by the terms of any agreement or instrument pursuant to which such new Indebtedness is issued or remains outstanding, is expressly made *pari passu* with, or subordinate in right of payment to, the remaining Notes or such Subsidiary Guarantee or such JV Subsidiary Guarantee, as the case may be, or (B) in case the Indebtedness to be refinanced is subordinated in right of payment to the Notes, a Subsidiary Guarantee or a JV Subsidiary Guarantee, as the case may be, such new Indebtedness, by its terms or by the terms of any agreement or instrument pursuant to which such new Indebtedness is issued or remains outstanding, is expressly made subordinate in right of payment to the Notes, such Subsidiary Guarantee or such JV Subsidiary Guarantee, as the case may be, at least to the extent that the Indebtedness to be refinanced is subordinated to the Notes, such Subsidiary Guarantee or such JV Subsidiary Guarantee, (ii) such new Indebtedness, determined as of the date of Incurrence of such new Indebtedness, does not mature prior to the

Stated Maturity of the Indebtedness to be refinanced, and the Average Life of such new Indebtedness is at least equal to the remaining Average Life of the Indebtedness to be refinanced, (iii) in no event may Indebtedness of the Issuer, any Subsidiary Guarantor or any JV Subsidiary Guarantor be refinanced pursuant to this clause (e) by means of any Indebtedness of any Restricted Subsidiary that is not a Subsidiary Guarantor or a JV Subsidiary Guarantor (other than Finance Subsidiary Indebtedness), and (iv) in no event may Indebtedness of the Issuer or any Subsidiary Guarantor be refinanced pursuant to this clause by means of any Indebtedness of any JV Subsidiary Guarantor;

- (f) Indebtedness Incurred by the Issuer or any Restricted Subsidiary pursuant to Hedging Obligations entered into in the ordinary course of business and designed solely to protect the Issuer or any of its Restricted Subsidiaries from fluctuations in interest rates, currencies or the price of commodities and not for speculation;
- (g) Pre-Registration Mortgage Guarantees by the Issuer or any Restricted Subsidiary;

- (1) to the Issuer or a Wholly Owned Restricted Subsidiary, or in the case of a Restricted Subsidiary that is not Wholly Owned, *pro rata* to its shareholders or incorporators or on a basis more favorable to the Issuer and its Restricted Subsidiaries;
- (2) to the extent such Capital Stock represents director's qualifying shares or is required by applicable law to be held by a Person other than the Issuer or a Wholly Owned Restricted Subsidiary;
- (3) the sale or issuance of Capital Stock of a Restricted Subsidiary if, immediately after giving effect to such sale or issuance, such Restricted Subsidiary would no longer constitute a Restricted Subsidiary and any remaining Investment in such Person would have been permitted to be made under the "— Limitation on Restricted Payments" covenant if made on the date of such sale or issuance and provided that the Issuer complies with the "— Limitation on Asset Sales" covenant; or

- (4) the sale or issuance of Capital Stock of a Restricted Subsidiary (which remains a Restricted Subsidiary after any such sale or issuance); *provided* that the Issuer or such Restricted Subsidiary applies the Net Cash Proceeds of such sale or issuance in accordance with the “— Limitation on Asset Sales” covenant.

Limitation on Issuances of Guarantees by Restricted Subsidiaries

The Issuer will not permit any Restricted Subsidiary which is not a Subsidiary Guarantor or a JV Subsidiary Guarantor, directly or indirectly, to Guarantee any Indebtedness (“**Guaranteed Indebtedness**”) of the Issuer or any Subsidiary Guarantor or JV Subsidiary Guarantor, unless (1)(a) such Restricted Subsidiary simultaneously executes and delivers a supplemental indenture to the Indenture providing for an unsubordinated Subsidiary Guarantee (in the case of a Subsidiary Guarantor) or JV Subsidiary Guarantee (in the case of a JV Subsidiary Guarantor) of payment of the Notes by such Restricted Subsidiary and (b) such Restricted Subsidiary waives and will not in any manner whatsoever claim or take the benefit or advantage of, any rights of reimbursement, indemnity or subrogation or any other rights against the Issuer or any other Restricted Subsidiary as a result of any payment by such Restricted Subsidiary under its Subsidiary Guarantee or JV Subsidiary Guarantee, as the case may be, until the Notes have been paid in full or (2) such Guarantee is permitted by clauses (2)(c), (2)(d) or (2)(q), under the caption “— Limitation on Indebtedness and Preferred Stock.”

If the Guaranteed Indebtedness (1) ranks *pari passu* in right of payment with the Notes, any Subsidiary Guarantee or any JV Subsidiary Guarantee, then the Guarantee of such Guaranteed Indebtedness shall rank *pari passu* in right of payment with, or subordinated to, the Notes, the Subsidiary Guarantee or the JV Subsidiary Guarantee, as the case may be, or (2) is subordinated in right of payment to the Notes, any Subsidiary Guarantee or any JV Subsidiary Guarantee, then the Guarantee of such Guaranteed Indebtedness shall be subordinated in right of payment to the Notes, the Subsidiary Guarantee or the JV Subsidiary Guarantee, as the case may be, at least to the extent that the Guaranteed Indebtedness is subordinated to the Notes, the Subsidiary Guarantee or the JV Subsidiary Guarantee.

Limitation on Transactions with Shareholders and Affiliates

The Issuer will not, and will not permit any Restricted Subsidiary to, directly or indirectly, enter into, renew or extend any transaction or arrangement (including, without limitation, the purchase, sale, lease or exchange of property or assets, or the rendering of any service) with (x) any holder (or any Affiliate of such holder) of 10% or more of any class of Capital Stock of the Issuer or (y) any Affiliate of the Issuer (each an “**Affiliate Transaction**”), unless:

- (1) the Affiliate Transaction is on fair and reasonable terms that are no less favorable to the Issuer or the relevant Restricted Subsidiary than those that would have been obtained in a comparable arm’s length transaction by the Issuer or the relevant Restricted Subsidiary with a Person that is not an Affiliate of the Issuer; and

- (2) the Issuer delivers to the Trustee:
 - (a) with respect to any Affiliate Transaction or series of related Affiliate Transactions involving aggregate consideration in excess of US\$5.0 million (or the Dollar Equivalent thereof), a Board Resolution set forth in an Officers' Certificate certifying that such Affiliate Transaction complies with this covenant and if the Board of Directors comprises of any disinterested members, such Affiliate Transaction has been approved by a majority of such disinterested members; and
 - (b) with respect to any Affiliate Transaction or series of related Affiliate Transactions involving aggregate consideration in excess of US\$15.0 million (or the Dollar Equivalent thereof), in addition to the Board Resolution required in clause 2(a) above, an opinion as to the fairness to the Issuer or the relevant Restricted Subsidiary of such Affiliate Transaction from a financial point of view issued by an accounting, appraisal or investment banking firm of recognized international standing.

The foregoing limitation does not limit, and shall not apply to:

- (1) the payment of reasonable and customary regular fees and other reasonable and customary compensation to directors or officers of the Issuer or any Restricted Subsidiary;
- (2) transactions between or among the Issuer and any of its Wholly Owned Restricted Subsidiaries or between or among Wholly Owned Restricted Subsidiaries;
- (3) any Restricted Payment of the type described in clauses (1) or (2) of the first paragraph and clause (8) of the second paragraph of the covenant described above under the caption “— Limitation on Restricted Payments” if permitted by that covenant;
- (4) any sale of Capital Stock (other than Disqualified Stock) of the Issuer;
- (5) any purchase of Capital Stock of a Restricted Subsidiary pursuant to a Staged Acquisition Agreement, and any purchase of Capital Stock of a Restricted Subsidiary held by a Financial Company Investor;
- (6) any repurchase, redemption or other acquisition or retirement for value of any Capital Stock of the Issuer or any Restricted Subsidiary pursuant to clause (9) of the second paragraph of the covenant entitled “— Limitation on Restricted Payments;”
- (7) any transaction between (A) the Issuer or any Restricted Subsidiary and (B) any entity in the Restructuring Group entered into in connection with the proposed Restructuring, including but not limited to the transactions entered into for purposes of any reorganization in connection with the proposed Restructuring and the entry into, and the performance thereof, of any underwriting agreement or other transaction documents in connection with the proposed Restructuring;

- (8) any transaction between (A) the Issuer or any Restricted Subsidiary and (B) any entity in the Restructuring Group entered into in the ordinary course of business, on fair and reasonable terms and in compliance with the rules of any Qualified Exchange on which the Capital Stock of a Subsidiary of the Issuer in the Restructuring Group is listed pursuant to the Restructuring; and
- (9) any provision of Guarantee by any direct or indirect shareholder of the Issuer or any Permitted Holder for Indebtedness Incurred by the Issuer or any of its Restricted Subsidiaries in the ordinary course of business and the provision of Guarantee by any Restricted Subsidiary of the Issuer for Indebtedness incurred by its wholly owned Restricted Subsidiaries.

In addition, the requirements of clause (2) of the first paragraph of this covenant shall not apply to (i) Investments (including Permitted Investments that are permitted under paragraph (18) of the definition of “Permitted Investments” but otherwise excluding any other Permitted Investments) not prohibited by the “— Limitation on Restricted Payments” covenant, (ii) transactions pursuant to agreements in effect or otherwise publicly disclosed on the Original Issue Date, or any amendment or modification or replacement thereof, so long as such amendment, modification or replacement is not more disadvantageous to the Issuer and its Restricted Subsidiaries than the original agreement in effect on the Original Issue Date, (iii) any transaction (A) between or among any of the Issuer, any Wholly Owned Restricted Subsidiary and any Restricted Subsidiary that is not a Wholly Owned Restricted Subsidiary or (B) between or among Restricted Subsidiaries that are not Wholly Owned Restricted Subsidiaries or (C) between or among the Issuer or a Restricted Subsidiary on the one hand and a Jointly Controlled Entity, an Associate or an Unrestricted Subsidiary on the other hand and (iv) any transaction involving Receivable Financing Assets, or participation therein, in connection with any Receivable Financing; *provided* that in the case of clause (iii) (a) such transaction is entered into in the ordinary course of business, (b) in the case of a transaction with a Restricted Subsidiary that is not a Wholly Owned Restricted Subsidiary, none of the minority shareholders or minority partners of or in such Restricted Subsidiary is a Person described in clause (x) or (y) of the first paragraph of this covenant (other than by reason of such minority shareholder or minority partner being an officer or director of such Restricted Subsidiary or being a Subsidiary of the Issuer), and (c) in the case of a transaction with a Jointly Controlled Entity, an Associate or an Unrestricted Subsidiary, none of the shareholders or partners (other than the Issuer or a Restricted Subsidiary) of such Jointly Controlled Entity, Associate or Unrestricted Subsidiary is a Person described in clause (x) or (y) of the first paragraph of this covenant (other than by reason of such shareholder or partner being a director or officer of such Jointly Controlled Entity, Associate or Unrestricted Subsidiary or by reason of such shareholder or partner being, the Issuer or a Subsidiary, Jointly Controlled Entity or Associate of the Issuer).

Limitation on Liens

The Issuer will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly, incur, assume or permit to exist any Lien on any Capital Stock of a Subsidiary Guarantor or a JV Subsidiary Guarantor (other than a Permitted Lien specified in clauses (1) and (6) of the definition of “**Permitted Liens**”), unless the Notes are equally and ratably secured by such Lien.

The Issuer will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly, incur, assume or permit to exist any Lien of any nature whatsoever on any of its assets or properties of any kind, whether owned at the Original Issue Date or thereafter acquired, except Permitted Liens, unless the Notes are equally and ratably secured by such Lien.

Limitation on Sale and Leaseback Transactions

The Issuer will not, and will not permit any of its Restricted Subsidiaries to, enter into any Sale and Leaseback Transaction; *provided* that the Issuer or any Restricted Subsidiary may enter into a Sale and Leaseback Transaction if:

- (1) the Issuer or any Restricted Subsidiary could have (a) Incurred Indebtedness in an amount equal to the Attributable Indebtedness relating to such Sale and Leaseback Transaction under the covenant described above under “— Limitation on Indebtedness and Preferred Stock” and (b) incurred a Lien to secure such Indebtedness pursuant to the covenant described above under the caption “— Limitation on Liens,” in which case, the corresponding Indebtedness and Lien will be deemed incurred pursuant to those provisions;
- (2) the gross cash proceeds of that Sale and Leaseback Transaction are at least equal to the Fair Market Value of the property that is the subject of such Sale and Leaseback Transaction; and
- (3) the transfer of assets in that Sale and Leaseback Transaction is permitted by, and the Issuer or such Restricted Subsidiary applies the proceeds of such transaction in compliance with, the covenant described below under the caption “— Limitation on Asset Sales.”

Limitation on Asset Sales

The Issuer will not, and will not permit any Restricted Subsidiary to, consummate any Asset Sale, unless:

- (1) no Default shall have occurred and be continuing or would occur as a result of such Asset Sale;
- (2) the consideration received by the Issuer or such Restricted Subsidiary, as the case may be, is at least equal to the Fair Market Value of the assets sold or disposed of; and
- (3) at least 75% of the consideration received consists of cash, Temporary Cash Investments or Replacement Assets; *provided* that in the case of an Asset Sale in which the Issuer or such Restricted Subsidiary receives Replacement Assets

involving aggregate consideration in excess of US\$10.0 million (or the Dollar Equivalent thereof), the Issuer shall deliver to the Trustee an opinion as to the fairness to the Issuer or such Restricted Subsidiary of such Asset Sale from a financial point of view issued by an accounting, appraisal or investment banking firm of international standing. For purposes of this provision, each of the following will be deemed to be cash:

- (a) any liabilities, as shown on the Issuer's most recent consolidated balance sheet, of the Issuer or any Restricted Subsidiary (other than contingent liabilities and liabilities that are by their terms subordinated to the Notes, any Subsidiary Guarantee or any JV Subsidiary Guarantee) that are assumed by the transferee of any such assets pursuant to a customary assumption, assignment, novation or similar agreement that releases the Issuer or such Restricted Subsidiary from further liability; and
- (b) any securities, notes or other obligations received by the Issuer or any Restricted Subsidiary from such transferee that are promptly, but in any event within 30 days of closing, converted by the Issuer or such Restricted Subsidiary into cash, to the extent of the cash received in that conversion.

Within 360 days after the receipt of any Net Cash Proceeds from an Asset Sale, the Issuer (or any Restricted Subsidiary) may apply such Net Cash Proceeds to:

- (1) permanently repay Senior Indebtedness of the Issuer or a Subsidiary Guarantor or a JV Subsidiary Guarantor (if any) or any Indebtedness of a Restricted Subsidiary that is not an Issuer or a Subsidiary Guarantor or a JV Subsidiary Guarantor, if any (and, if such Senior Indebtedness repaid is revolving credit Indebtedness, to correspondingly reduce commitments with respect thereto) in each case owing to a Person other than the Issuer or a Restricted Subsidiary; or
- (2) acquire properties and assets that replace the properties and assets that were the subject of such Asset Sale or in properties or assets (other than current assets that are not land use rights, properties under development or completed property held for sale), including any shares of Capital Stock in a Person holding such properties or assets, that will be used in a Permitted Business ("**Replacement Assets**"),

provided that, pending the application of Net Cash Proceeds in accordance with clauses (1) or (2) of this paragraph, such Net Cash Proceeds may be temporarily invested only in cash or Temporary Cash Investments.

Any Net Cash Proceeds from Asset Sales that are not applied or invested as provided in clauses (1) and (2) in the immediately preceding paragraph will constitute "Excess Proceeds." Excess Proceeds of less than US\$10.0 million (or the Dollar Equivalent thereof) will be carried forward and accumulated. When accumulated Excess Proceeds exceed US\$10.0 million (or the Dollar Equivalent thereof), within 10 days thereof, the Issuer must make an Offer to Purchase Notes having a principal amount equal to:

- (1) accumulated Excess Proceeds, multiplied by

- (2) a fraction (x) the numerator of which is equal to the outstanding principal amount of the Notes and (y) the denominator of which is equal to the outstanding principal amount of the Notes and all *pari passu* Indebtedness similarly required to be repaid, redeemed or tendered for in connection with the related Asset Sale,

rounded down to the nearest US\$1,000.

The offer price in any Offer to Purchase will be equal to 100% of the principal amount of the Notes purchased plus accrued and unpaid interest to but excluding the date of purchase, and will be payable in cash.

If any Excess Proceeds remain after consummation of an Offer to Purchase, the Issuer or any Restricted Subsidiary may use those Excess Proceeds for any purpose not otherwise prohibited by the Indenture. If the aggregate principal amount of Notes (and any other *pari passu* Indebtedness) tendered in such Offer to Purchase exceeds the amount of Excess Proceeds, the Trustee will select the Notes to be purchased on a *pro rata* basis by lot or such other method the Trustee determines in its sole and absolute discretion. Upon completion of each Offer to Purchase, the amount of Excess Proceeds will be reset at zero.

Limitation on the Issuer's Business Activities

The Issuer will not, and will not permit any Restricted Subsidiary to, directly or indirectly, engage in any business other than Permitted Businesses; *provided, however*, that the Issuer or any Restricted Subsidiary may own Capital Stock of an Unrestricted Subsidiary or joint venture or other entity that is engaged in a business other than Permitted Businesses as long as any Investment therein was not prohibited when made by the covenant under the caption “— Limitation on Restricted Payments.”

Use of Proceeds

The Issuer will not and will not permit any Restricted Subsidiary to, use the net proceeds from the sale of the Notes, in any amount, for any purpose other than (1) as specified under the caption “Use of Proceeds” in this offering memorandum (or in the case of Additional Notes, the offering or other document relating to the sale of such Additional Notes) and (2) pending the application of all of such net proceeds in such manner, to invest the portion of such net proceeds not yet so applied in Temporary Cash Investments.

Designation of Restricted and Unrestricted Subsidiaries

The Board of Directors may designate any Restricted Subsidiary (other than the Issuer) to be an Unrestricted Subsidiary; *provided* that (1) no Default shall have occurred and be continuing at the time of or after giving effect to such designation; (2) neither the Issuer nor any Restricted Subsidiary provides credit support (other than any Guarantee in compliance with clause (6) below) for the Indebtedness of such Restricted Subsidiary; (3) such Restricted Subsidiary has no outstanding Indebtedness that could trigger a cross-default to the Indebtedness of the Issuer; (4) such Restricted Subsidiary does not own any Disqualified Stock of the Issuer or Disqualified or Preferred Stock of another Restricted Subsidiary or hold any Indebtedness of, or any Lien on any property of, the Issuer or any Restricted Subsidiary, if such Disqualified or Preferred Stock or Indebtedness could not be Incurred under the covenant described under the caption “— Limitation on Indebtedness and Preferred Stock” or such Lien would violate the covenant described under the caption

“— Limitation on Liens;” (5) such Restricted Subsidiary does not own any Voting Stock of another Restricted Subsidiary, and all of its Subsidiaries are Unrestricted Subsidiaries or are being concurrently designated to be Unrestricted Subsidiaries in accordance with this paragraph; and (6) the Investment deemed to have been made thereby in such newly-designated Unrestricted Subsidiary and each other newly-designated Unrestricted Subsidiary being concurrently redesignated would be permitted to be made by the covenant described under “— Limitation on Restricted Payments.”

The Board of Directors may designate any Unrestricted Subsidiary to be a Restricted Subsidiary; *provided* that (1) no Default shall have occurred and be continuing at the time of or after giving effect to such designation; (2) any Indebtedness of such Unrestricted Subsidiary outstanding at the time of such designation which will be deemed to have been Incurred by such newly-designated Restricted Subsidiary as a result of such designation would be permitted to be Incurred by the covenant described under the caption “— Limitation on Indebtedness and Preferred Stock;” (3) any Lien on the property of such Unrestricted Subsidiary at the time of such designation which will be deemed to have been incurred by such newly-designated Restricted Subsidiary as a result of such designation would be permitted to be incurred by the covenant described under the caption “— Limitation on Liens;” (4) such Unrestricted Subsidiary is not a Subsidiary of another Unrestricted Subsidiary (that is not concurrently being designated as a Restricted Subsidiary); and (5) if such Restricted Subsidiary is not organized under the laws of the PRC, such Restricted Subsidiary shall upon such designation execute and deliver to the Trustee a supplemental indenture to the Indenture by which such Restricted Subsidiary shall become a Subsidiary Guarantor or a JV Subsidiary Guarantor to the extent required under “— The Subsidiary Guarantees and the JV Subsidiary Guarantees.”

Government Approvals and Licenses; Compliance with Law

The Issuer will, and will cause each Restricted Subsidiary to, (1) obtain and maintain in full force and effect all governmental approvals, authorizations, consents, permits, concessions and licenses as are necessary to engage in the Permitted Businesses; (2) preserve and maintain good and valid title to its properties and assets (including land-use rights) free and clear of any Liens other than Permitted Liens; and (3) comply with all laws, regulations, orders, judgments and decrees of any governmental body, except to the extent that failure so to obtain, maintain, preserve and comply with would not reasonably be expected to have a material adverse effect on (a) the business, results of operations or prospects of the Issuer and its Restricted Subsidiaries, taken as a whole, or (b) the ability of the Issuer any Subsidiary Guarantor or any JV Subsidiary Guarantor to perform its obligations under the Notes, the relevant Subsidiary Guarantee, the relevant JV Subsidiary Guarantee or the Indenture.

Anti-Layering

The Issuer will not incur and will not permit any Subsidiary Guarantor or JV Subsidiary Guarantor to Incur, any Indebtedness if such Indebtedness is contractually subordinated in right of payment to any other Indebtedness of the Issuer, such Subsidiary Guarantor or such JV Subsidiary Guarantor, as the case may be, unless such Indebtedness is also contractually subordinated in right of payment to the Notes, the applicable Subsidiary Guarantee or the applicable JV Subsidiary Guarantee, on substantially identical

terms. This does not apply to distinctions between categories of Indebtedness that exist by reason of any Liens or Guarantees securing or in favor of some but not all of such Indebtedness.

Suspension of Certain Covenants

If, on any date following the date of the Indenture, the Notes have a rating of Investment Grade both of the Rating Agencies and no Default has occurred and is continuing (a “**Suspension Event**”), then, beginning on that day and continuing until such time, if any, at which the Notes cease to have a rating of Investment Grade from either of the Rating Agencies, the provisions of the Indenture summarized under the following captions will be suspended:

- (1) “— Certain Covenants — Limitation on Indebtedness and Preferred Stock”;
- (2) “— Certain Covenants — Limitation on Restricted Payments”;
- (3) “— Certain Covenants — Limitation on Dividend and Other Payment Restrictions Affecting Restricted Subsidiaries”;
- (4) “— Certain Covenants — Limitation on Sales and Issuances of Capital Stock in Restricted Subsidiaries”;
- (5) “— Certain Covenants — Limitation on Issuances of Guarantees by Restricted Subsidiaries”;
- (6) “— Certain Covenants — Limitation on the Issuer’s Business Activities”;
- (7) “— Certain Covenants — Limitation on Sale and Leaseback Transactions”;
- (8) “— Certain Covenants — Limitation on Asset Sales”; and
- (9) Clause (4) under paragraphs (a) and (b) of the covenant described under “— Consolidation, Merger and Sale of Assets.”

During any period that the foregoing covenants have been suspended, the Board of Directors may not designate any of the Restricted Subsidiaries as Unrestricted Subsidiaries pursuant to the covenant summarized under the caption “— Certain Covenants — Designation of Restricted and Unrestricted Subsidiaries” or the definition of “Unrestricted Subsidiary.”

Such covenants will be reinstated and apply according to their terms as of and from the first day on which a Suspension Event ceases to be in effect. Such covenants will not, however, be of any effect with regard to actions of the Issuer or any Restricted Subsidiary properly taken in compliance with the provisions of the Indenture during the continuance of the Suspension Event, and following reinstatement the calculations under the covenant summarized under “— Certain Covenants — Limitation on Restricted Payments” will be made as if such covenant had been in effect since the date of the Indenture except that no Default will be deemed to have occurred solely by reason of a Restricted Payment made while that covenant was suspended.

There can be no assurance that the Notes will ever achieve a rating of Investment Grade or that any such rating will be maintained.

Provision of Financial Statements and Reports

- (1) So long as any of the Notes remain outstanding, the Issuer will file with the Trustee and furnish to the Holders upon request, as soon as they are available but in any event not more than 10 calendar days after they are filed with The Stock Exchange of Hong Kong Limited or any other recognized exchange on which the Issuer's Common Stock are at any time listed for trading, true and correct copies of any financial report in the English language filed with such exchange; *provided* that if at any time the Common Stock of the Issuer ceases to be listed for trading on a recognized stock exchange, the Issuer will file with the Trustee and furnish to the Holders:
 - (a) as soon as they are available, but in any event within 90 calendar days after the end of the fiscal year of the Issuer, copies of its financial statements (on a consolidated basis and in English language) in respect of such financial year (including a statement of income, balance sheet and cash flow statement) audited by a member firm of an internationally-recognized firm of independent accountants;
 - (b) as soon as they are available, but in any event within 45 calendar days after the end of the second financial quarter of the Issuer, copies of its financial statements (on a consolidated basis and in English language) in respect of such half-year period (including a statement of income, balance sheet and cash flow statement) reviewed by a member firm of an internationally-recognized firm of independent accountants; and
 - (c) as soon as they are available, but in any event within 45 calendar days after the end of each of the first and third financial quarters of the Issuer, copies of its unaudited financial statements (on a consolidated basis and in English language), including a statement of income, balance sheet and cash flow statement, prepared on a basis consistent with the audited financial statements of the Issuer together with a certificate signed by the person then authorized to sign financial statements on behalf of the Issuer to the effect that such financial statements are true in all material respects and present fairly the financial position of the Issuer as at the end of, and the results of its operations for, the relevant quarterly period.
- (2) In addition, so long as any of the Notes remain outstanding, the Issuer will provide to the Trustee (a) within 120 days after the close of each fiscal year ending after the Original Issue Date, an Officers' Certificate stating the Fixed Charge Coverage Ratio with respect to the most recent fiscal year and showing in reasonable detail the calculation of the Fixed Charge Coverage Ratio, including the arithmetic computations of each component of the Fixed Charge Coverage Ratio, with a certificate from the Issuer's external auditors verifying the accuracy and correctness of the calculation and arithmetic computation; *provided* that, the Issuer shall not be required to provide such auditor certification if its external auditors refuse to provide such certification as a result of a policy of such external auditors not to provide such certification; and (b) as soon as possible and in any

event within 30 days after the Issuer becomes aware or should reasonably become aware of the occurrence of a Default, an Officers' Certificate setting forth the details of the Default, and the action which the Issuer proposes to take with respect thereto.

Events of Default

The following events will be defined as "Events of Default" in the Indenture:

- (1) default in the payment of principal of (or premium, if any, on) the Notes when the same becomes due and payable at maturity, upon acceleration, redemption or otherwise;
- (2) default in the payment of interest on any Note when the same becomes due and payable, and such default continues for a period of 30 consecutive days;
- (3) default in the performance or breach of the provisions of the covenants described under "— Consolidation, Merger and Sale of Assets," the failure by the Issuer to make or consummate a Delisting Offer to Purchase in the manner described under the caption "— Delisting Put Right," the failure by the Issuer to make or consummate an Offer to Purchase in the manner described under the captions "— Repurchase of Notes upon a Change of Control Triggering Event," "— Limitation on Asset Sales," or the occurrence of an "Event of Default" as defined under the Hong Seng Notes;
- (4) the Issuer or any Restricted Subsidiary defaults in the performance of or breaches any other covenant or agreement in the Indenture or under the Notes (other than a default specified in clause (1), (2) or (3) above) and such default or breach continues for a period of 30 consecutive days after written notice by the Trustee or the Holders of 25% or more in aggregate principal amount of the Notes;
- (5) there occurs with respect to any Indebtedness of the Issuer, any Restricted Subsidiary, Hong Yang Group Company Limited (弘陽集團有限公司) or any of its subsidiaries which constitute the "Restricted Subsidiaries" as defined in the indentures governing the Hong Seng Notes, having an outstanding principal amount of US\$15 million (or the Dollar Equivalent thereof) or more in the aggregate for all such Indebtedness of all such Persons, whether such Indebtedness now exists or shall hereafter be created, (a) an event of default that has caused the holder thereof to declare such Indebtedness to be due and payable prior to its Stated Maturity and/or (b) the failure to make a principal payment when due;
- (6) one or more final judgments or orders for the payment of money are rendered against the Issuer or any of its Restricted Subsidiaries and are not paid or discharged, and there is a period of 60 consecutive days following entry of the final judgment or order that causes the aggregate amount for all such final judgments or orders outstanding and not paid or discharged against all such Persons to exceed US\$15 million (or the Dollar Equivalent thereof) (in excess of amounts which the Issuer's insurance carriers have agreed to pay under applicable policies) during which a stay of enforcement, by reason of a pending appeal or otherwise, is not in effect;

- (7) an involuntary case or other proceeding is commenced against the Issuer or any Significant Restricted Subsidiary with respect to it or its debts under any applicable bankruptcy, insolvency or other similar law now or hereafter in effect seeking the appointment of a receiver, liquidator, assignee, custodian, trustee, sequestrator or similar official of the Issuer or any Significant Restricted Subsidiary or for any substantial part of the property and assets of the Issuer or any Significant Restricted Subsidiary and such involuntary case or other proceeding remains undismissed and unstayed for a period of 60 consecutive days; or an order for relief is entered against the Issuer or any Significant Restricted Subsidiary under any applicable bankruptcy, insolvency or other similar law as now or hereafter in effect;
- (8) the Issuer or any Significant Restricted Subsidiary, other than in connection with a solvent liquidation or reorganization (except for any solvent liquidation or reorganization of the Issuer), (a) commences a voluntary case under any applicable bankruptcy, insolvency or other similar law now or hereafter in effect, or consents to the entry of an order for relief in an involuntary case under any such law, (b) consents to the appointment of or taking possession by a receiver, liquidator, assignee, custodian, trustee, sequestrator or similar official of the Issuer or any Significant Restricted Subsidiary or for all or substantially all of the property and assets of the Issuer or any Significant Restricted Subsidiary or (c) effects any general assignment for the benefit of creditors; or
- (9) any Subsidiary Guarantor or JV Subsidiary Guarantor denies or disaffirms its obligations under its Subsidiary Guarantee or JV Subsidiary Guarantee or, except as permitted by the Indenture, any Subsidiary Guarantee or JV Subsidiary Guarantee is determined to be unenforceable or invalid or shall for any reason cease to be in full force and effect.

If an Event of Default (other than an Event of Default specified in clause (7) or (8) above) occurs and is continuing under the Indenture, the Trustee or the Holders of at least 25% in aggregate principal amount of the Notes then outstanding, by written notice to the Issuer (and to the Trustee if such notice is given by the Holders), may, and the Trustee at the written request of such Holders shall, subject to receiving indemnity and/or security and/or pre-funding to its satisfaction, declare the principal of, premium, if any, and accrued and unpaid interest on the Notes to be immediately due and payable. Upon a declaration of acceleration, such principal of, premium, if any, and accrued and unpaid interest shall be immediately due and payable. If an Event of Default specified in clause (7) or (8) above occurs with respect to the Issuer or any Significant Restricted Subsidiary, the principal of, premium, if any, and accrued and unpaid interest on the Notes then outstanding shall automatically become and be immediately due and payable without any declaration or other act on the part of the Trustee or any Holder.

The Holders of at least a majority in principal amount of the outstanding Notes by written notice to the Issuer and to the Trustee may on behalf of all the Holders of Notes waive all past defaults and rescind and annul a declaration of acceleration and its consequences if:

- (1) all existing Events of Default, other than the nonpayment of the principal of, premium, if any, and interest on the Notes that have become due solely by such declaration of acceleration, have been cured or waived, and
- (2) the rescission would not conflict with any judgment or decree of a court of competent jurisdiction.

Upon such waiver, the Default will cease to exist, and any Event of Default arising therefrom will be deemed to have been cured, but no such waiver will extend to any subsequent or other Default or impair any right consequent thereon.

If an Event of Default occurs and is continuing, the Trustee may pursue, in its own name or as trustee of an express trust, any available remedy by proceeding at law or in equity to collect the payment of principal of and interest on the Notes or to enforce the performance of any provision of the Notes or the Indenture. The Trustee may maintain a proceeding even if it does not possess any of the Notes or does not produce any of them in the proceeding.

The Holders of at least a majority in aggregate principal amount of the outstanding Notes may direct the time, method and place of conducting any proceeding for any remedy available to the Trustee or exercising any trust or power conferred on the Trustee. However, the Trustee may refuse to follow any direction that conflicts with law or the Indenture, that may involve the Trustee in personal liability, or that is unduly prejudicial to the rights of Holders not joining in the giving of such direction and may take any other action that is not inconsistent with any such direction received from Holders. The Trustee shall not be required to expend its funds in following such direction if it does not reasonably believe that reimbursement or indemnity and/or security is assured to it.

A Holder of Notes may not institute any proceeding, judicial or otherwise, with respect to the Indenture or the Notes, or for the appointment of a receiver or trustee, or for any other remedy under the Indenture or the Notes, unless:

- (1) the Holder has previously given the Trustee written notice of a continuing Event of Default;
- (2) the Holders of at least 25% in aggregate principal amount of outstanding Notes make a written request to the Trustee to pursue the remedy;
- (3) such Holder or Holders offer the Trustee indemnity and/or security and/or pre-funding satisfactory to the Trustee against any costs, liability or expense to be incurred in compliance with such written request;
- (4) the Trustee does not comply with the request within 60 days after receipt of the written request and the offer of indemnity and/or security and/or pre-funding; and

- (5) during such 60-day period, the Holders of a majority in aggregate principal amount of the outstanding Notes do not give the Trustee a direction that is inconsistent with the written request.

However, such limitations do not apply to the right of any Holder to receive payment of the principal of, premium, if any, or interest on, such Note, or to bring suit for the enforcement of any such payment, on or after the due date expressed in the Notes, which right shall not be impaired or affected without the consent of the Holder.

If the Trustee collects any money pursuant to the Indenture, it shall pay out the money in the following order:

First, to the Trustee to the extent necessary to reimburse the Trustee and its agents for any unpaid expenses incurred in connection with the collection or distribution of such amounts held or realized and any properly incurred fees and expenses incurred in connection with carrying out its functions under the Indenture (including properly incurred legal fees);

Second, to the Trustee for the benefit of Holders; and

Third, any surplus remaining after such payments will be paid to the Issuer or to whomever may be lawfully entitled thereto.

Officers of the Issuer must certify to the Trustee in writing, on or before a date not more than 120 days after the end of each fiscal year ending after the Original Issue Date and within 14 days of demand by the Trustee, that a review has been conducted of the activities of the Issuer and the Restricted Subsidiaries and the Issuer's and the Restricted Subsidiaries' performance under the Indenture and that the Issuer and each Restricted Subsidiary have fulfilled all of their respective obligations thereunder, or, if there has been a default in the fulfillment of any such obligation, specifying each such default and the nature and status thereof. The Issuer will also be obligated to notify the Trustee in writing of any Default or Defaults in the performance of any covenants or agreements under the Indenture. See "— Provision of Financial Statements and Reports."

The Trustee and the Agents need not do anything to ascertain whether any Event of Default has occurred or is continuing and will not be responsible to Holders or any other person for any loss arising from any failure by it to do so, and, the Trustee or the Agents may assume that no such event has occurred and that the Issuer is performing all its obligations under the Indenture and the Notes unless the Trustee has received written notice of the occurrence of such event or facts establishing that an Event of Default has occurred or the Issuer is not performing all of its obligations under the Indenture and the Notes. The Trustee is entitled to rely on any Opinion of Counsel or Officers' Certificate regarding whether an Event of Default has occurred.

Consolidation, Merger and Sale of Assets

(a) The Issuer will not consolidate with, merge with or into another Person, permit any Person to merge with or into it, or sell, convey, transfer, lease or otherwise dispose of all or substantially all of the properties and assets of the Issuer and its Restricted Subsidiaries (computed on a consolidated basis) (as an entirety or substantially an entirety in one transaction or a series of related transactions) unless each of the following conditions is satisfied:

- (1) the Issuer shall be the continuing Person, or the Person (if other than it) formed by such consolidation or merger, or with or into which the Issuer consolidated or merged, or that acquired or leased such property and assets (the “**Surviving Person**”) shall be a corporation organized and validly existing under the laws of the British Virgin Islands, the Cayman Islands or Hong Kong and shall expressly assume, by a supplemental indenture to the Indenture, executed and delivered to the Trustee, all the obligations of the Issuer under the Indenture, including the obligation to pay Additional Amounts with respect to any Relevant Jurisdiction, and the Indenture shall remain in full force and effect;
- (2) immediately after giving effect to such transaction, no Default shall have occurred and be continuing;
- (3) immediately after giving effect to such transaction on a *pro forma* basis, the Issuer or the Surviving Person, as the case may be, shall have a Consolidated Net Worth equal to or greater than the Consolidated Net Worth of the Issuer or the Surviving Person immediately prior to such transaction;
- (4) immediately after giving effect to such transaction on a *pro forma* basis, the Issuer or the Surviving Person, as the case may be, could Incur at least US\$1.00 of Indebtedness under the proviso of paragraph (1) of the covenant described under “— Certain Covenants — Limitation on Indebtedness”;
- (5) the Issuer shall deliver to the Trustee (x) an Officers’ Certificate (attaching the arithmetic computations to demonstrate compliance with clauses (3) and (4)) and (y) an Opinion of Counsel, in each case stating that such consolidation, merger or transfer and the relevant supplemental indenture complies with this provision, that all conditions precedent provided for in the Indenture relating to such transaction have been complied with;
- (6) each Subsidiary Guarantor, unless such Subsidiary Guarantor is the Person with which the Issuer has entered into a transaction described under “— Consolidation, Merger and Sale of Assets,” shall execute and deliver a supplemental indenture to the Indenture confirming that its Subsidiary Guarantee shall apply to the obligations of the Issuer or the Surviving Person, as the case may be, in accordance with the Notes and the Indenture; and
- (7) no Rating Decline shall have occurred.

(b) No Subsidiary Guarantor or JV Subsidiary Guarantor will consolidate with, merge with or into another Person, permit any Person to merge with or into it, or sell, convey, transfer, lease or otherwise dispose of all or substantially all of its and its Restricted Subsidiaries' properties and assets (computed on a consolidated basis) (as an entirety or substantially an entirety in one transaction or a series of related transactions) to another Person (other than the Issuer or another Subsidiary Guarantor or, in the case of a JV Subsidiary Guarantor, other than to another JV Subsidiary Guarantor, the Issuer or a Subsidiary Guarantor), unless:

- (1) such Subsidiary Guarantor or JV Subsidiary Guarantor shall be the continuing Person, or the Person (if other than it) formed by such consolidation or merger, or with or into which such Subsidiary Guarantor or JV Subsidiary Guarantor consolidated or merged, or that acquired or leased such property and assets shall be the Issuer, another Subsidiary Guarantor or shall become a Subsidiary Guarantor concurrently with the transaction (or, in the case of a JV Subsidiary Guarantor, another JV Subsidiary Guarantor, the Issuer or a Subsidiary Guarantor); and shall expressly assume, by a supplemental indenture to the Indenture, executed and delivered to the Trustee, all the obligations of such Subsidiary Guarantor or JV Subsidiary Guarantor under the Indenture and the Subsidiary Guarantee or the JV Subsidiary Guarantee, as the case may be, including the obligation to pay Additional Amounts with respect to any Relevant Jurisdiction and the Indenture, the Subsidiary Guarantee or the JV Subsidiary Guarantee, as the case may be, shall remain in full force and effect;
- (2) immediately after giving effect to such transaction, no Default shall have occurred and be continuing;
- (3) immediately after giving effect to such transaction on a *pro forma* basis, the Issuer or the Surviving Person shall have a Consolidated Net Worth equal to or greater than the Consolidated Net Worth of the Issuer or the Surviving Person immediately prior to such transaction;
- (4) immediately after giving effect to such transaction on a *pro forma* basis, the Issuer or the Surviving Person, as the case may be, could Incur at least US\$1.00 of Indebtedness under the first paragraph of the covenant under the caption “— Limitation on Indebtedness and Preferred Stock;”
- (5) the Issuer delivers to the Trustee (x) an Officers' Certificate (attaching the arithmetic computations to demonstrate compliance with clauses (3) and (4)) and (y) an Opinion of Counsel, in each case stating that such consolidation, merger or transfer and the relevant supplemental indenture complies with this provision and that all conditions precedent provided for in the Indenture relating to such transaction have been complied with; and
- (6) no Rating Decline shall have occurred;

provided that this paragraph shall not apply to any sale or other disposition that complies with the “— Limitation on Asset Sales” covenant or any Subsidiary Guarantor or JV Subsidiary Guarantor whose Subsidiary Guarantee or JV Subsidiary Guarantee, as the case

may be, is unconditionally released in accordance with the provisions described under “— The Subsidiary Guarantees and the JV Subsidiary Guarantees — Release of the Subsidiary Guarantees or JV Subsidiary Guarantees.”

Although there is a limited body of case law interpreting the phrase “substantially all,” there is no precise established definition of the phrase under applicable law. Accordingly, in certain circumstances there may be a degree of uncertainty as to whether a particular transaction would involve “all or substantially all” of the property or assets of a Person.

The foregoing requirements shall not apply to a consolidation or merger of any Subsidiary Guarantor or JV Subsidiary Guarantor with and into the Issuer or any other Subsidiary Guarantor or JV Subsidiary Guarantor, so long as the Issuer or such Subsidiary Guarantor or JV Subsidiary Guarantor survives such consolidation or merger.

The foregoing provisions would not necessarily afford Holders protection in the event of highly-leveraged or other transactions involving the Issuer or any Subsidiary Guarantor or JV Subsidiary Guarantor that may adversely affect Holders.

No Payments for Consents

The Issuer will not, and shall not permit any of its Subsidiaries to, directly or indirectly, pay or cause to be paid any consideration, whether by way of interest, fee or otherwise, to any Holder for or as an inducement to any consent, waiver or amendment of any of the terms or provisions of the Indenture, the Notes, any Subsidiary Guarantee or JV Subsidiary Guarantee unless such consideration is offered to be paid or is paid to all Holders that consent, waive or agree to amend such term or provision within the time period set forth in the solicitation documents relating to such consent, waiver or amendment.

Notwithstanding the foregoing, in any offer or payment of consideration for, or as an inducement to, any consent, waiver or amendment of any of the terms or provisions of the Indenture or the Notes in connection with an exchange or tender offer, the Issuer and any Subsidiary may exclude (i) Holders or beneficial owners of the Notes that are not institutional “accredited investors” as defined in Rule 501 under the Securities Act, (ii) Holders or beneficial owners of the Notes that are located in the U.S. or are “U.S. Persons” as defined in Regulation S under the Securities Act, and (iii) Holders or beneficial owners of the Notes in any jurisdiction where the inclusion of such Holders or beneficial owners would require the Issuer or any Subsidiary to comply with the registration requirements or other similar requirements under any securities laws of such jurisdiction, or the solicitation of such consent, waiver or amendment from, or the granting of such consent or waiver, or the approval of such amendment by, Holders or beneficial owners in such jurisdiction would be unlawful, in each case as determined by the Issuer in its sole discretion.

Defeasance

Defeasance and Discharge

The Indenture will provide that the Issuer will be deemed to have paid and will be discharged from any and all obligations in respect of the Notes on the 183rd day after the deposit referred to below, and the provisions of the Indenture will no longer be in effect

with respect to the Notes (except for, among other matters, certain obligations to register the transfer or exchange of the Notes, to replace stolen, lost or mutilated Notes, to maintain paying agencies, to pay Additional Amounts and to hold monies for payment in trust) if, among other things:

- (1) the Issuer (a) has deposited with the Trustee (or its agent), in trust, money and/or U.S. Government Obligations or any combination thereof that through the payment of interest and principal in respect thereof in accordance with their terms will provide money in an amount sufficient to pay the principal of, premium, if any, and accrued interest on the Notes on the Stated Maturity for such payments in accordance with the terms of the Indenture and the Notes and (b) delivers to the Trustee an Opinion of Counsel or a certificate of an internationally-recognized firm of independent accountants to the effect that the amount deposited by the Issuer is sufficient to provide payment for the principal of, premium, if any, and accrued interest on, the Notes on the Stated Maturity for such payment in accordance with the terms of the Indenture;
- (2) the Issuer has delivered to the Trustee an Opinion of Counsel of recognized international standing to the effect that the creation of the defeasance trust does not violate the U.S. Investment Company Act of 1940, as amended, and after the passage of 123 days following the deposit, the trust fund will not be subject to the effect of Section 547 of the United States Bankruptcy Code or Section 15 of the New York Debtor and Creditor Law; and
- (3) immediately after giving effect to such deposit on a *pro forma* basis, no Event of Default, or event that after the giving of notice or lapse of time or both would become an Event of Default, shall have occurred and be continuing on the date of such deposit or during the period ending on the 183rd day after the date of such deposit, and such defeasance shall not result in a breach or violation of, or constitute a default under, any other agreement or instrument to which the Issuer or any of its Restricted Subsidiaries is a party or by which the Issuer or any of its Restricted Subsidiaries is bound.

In the case of either discharge or defeasance of the Notes, each of the Subsidiary Guarantees and JV Subsidiary Guarantees (if any) will terminate.

Defeasance of Certain Covenants

The Indenture further will provide that (i) the provisions of the Indenture applicable to the Notes will no longer be in effect with respect to clauses (3), (4), (5)(x) and (7) under the first paragraph, and clauses (3), (4), (5)(x) and (6) under the second paragraph under “— Consolidation, Merger and Sale of Assets” and all the covenants described herein under “— Certain Covenants,” other than as described under “— Certain Covenants — Government Approvals and Licenses; Compliance with Law” and “— Certain Covenants — Anti-Layering,” and (ii) clause (3) under “Events of Default” with respect to clauses (3), (4), (5)(x) and (7) under the first paragraph, and clauses (3), (4), (5)(x) and (6) under the second paragraph under “Consolidation, Merger and Sale of Assets” and with respect to the other events set forth in clause (i) above, clause (4) under “Events of Default” with respect to such other covenants in clause (i) above and clauses (5) and (6) under “Events of Default” shall be deemed not to be Events of Default upon, among other things, the deposit with the Trustee (or its agent), in trust, of money, U.S. Government Obligations or a combination

thereof that through the payment of interest and principal in respect thereof in accordance with their terms will provide money in an amount sufficient to pay the principal of, premium, if any, and accrued interest on the Notes on the Stated Maturity of such payments in accordance with the terms of the Indenture and the Notes, the satisfaction of the provisions described in clause (2) of the preceding paragraph.

Defeasance and Certain Other Events of Default

In the event that the Issuer exercises its option to omit compliance with certain covenants and provisions of the Indenture as described in the immediately preceding paragraph and the Notes are declared due and payable because of the occurrence of an Event of Default that remains applicable, the amount of money and/or U.S. Government Obligations on deposit with the Trustee will be sufficient to pay amounts due on the Notes at the time of their Stated Maturity but may not be sufficient to pay amounts due on the Notes at the time of the acceleration resulting from such Event of Default. However, the Issuer will remain liable for such payments.

Amendments and Waiver

Amendments Without Consent of Holders

The Indenture, the Notes, the Subsidiary Guarantees or the JV Subsidiary Guarantees (if any) may be amended in accordance with the Indenture, without the consent of any Holder, to:

- (1) cure any ambiguity, defect, omission or inconsistency in the Indenture, the Notes, the Subsidiary Guarantees or the JV Subsidiary Guarantees (if any);

- (9) make any other change that does not materially and adversely affect the rights of any Holder; or
- (10) conform the text of the Indenture, the Notes, the Subsidiary Guarantees or the JV Subsidiary Guarantees to any provision of this “Description of the Notes” to the extent that such provision in this “Description of the Notes” was intended to be a verbatim recitation of a provision in the Indenture, the Notes, the Subsidiary Guarantees or the JV Subsidiary Guarantees.

Amendments With Consent of Holders

The Indenture, the Notes, the Subsidiary Guarantees or the JV Subsidiary Guarantees (if any) may be amended with the consent of the Holders of not less than a majority in aggregate principal amount of the outstanding Notes, and the Holders of a majority in aggregate principal amount of the outstanding Notes may amend or waive future compliance by the Issuer, the Subsidiary Guarantors and the JV Subsidiary Guarantors (if any) with any provision thereof; *provided, however*, that no such modification, amendment or waiver may, without the consent of each Holder affected thereby:

repurchased pursuant to a Change of Control Offer or an Offer to Purchase with the Excess Proceeds from any Asset Sale whether through an amendment or waiver of provisions in the covenants, definitions or otherwise, unless such amendment, waiver or modification shall be in effect prior to the occurrence of a Change of Control Triggering Event or the event giving rise to the repurchase of the Notes under “— Limitation on Asset Sales”;

- (11) change the date or the price of redemption or repurchase of the Notes from that stated under the captions “— Optional Redemption,” “— Delisting Put Right,” or “— Redemption for Taxation Reasons”;
- (12) amend, change or modify the obligation of the Issuer, any Subsidiary Guarantor or any JV Subsidiary Guarantor to pay Additional Amounts; or
- (13) amend, change or modify any provision of the Indenture or the related definition affecting the ranking of the Notes, any Subsidiary Guarantee or any JV Subsidiary Guarantee in a manner which adversely affects the Holders.

Unclaimed Money

Claims against the Issuer for the payment of principal of, premium, if any, or interest, on the Notes will become void unless presentation for payment is made as required in the Indenture within a period of six years.

No Personal Liability of Incorporators, Stockholders, Officers, Directors or Employees

No recourse for the payment of the principal of, premium, if any, or interest on any of the Notes or for any claim based thereon or otherwise in respect thereof, and no recourse under or upon any obligation, covenant or agreement of the Issuer, any of the Subsidiary Guarantors or any of the JV Subsidiary Guarantors in the Indenture, or in any of the Notes, the Subsidiary Guarantees or the JV Subsidiary Guarantees, or because of the creation of any Indebtedness represented thereby, shall be had against any incorporator, stockholder, officer, director, employee or controlling person of the Issuer, any of the Subsidiary Guarantors or JV Subsidiary Guarantors, or of any successor Person thereof. Each Holder, by accepting the Notes, waives and releases all such liability. The waiver and release are part of the consideration for the issuance of the Notes, the Subsidiary Guarantees and the JV Subsidiary Guarantees. Such waiver may not be effective to waive liabilities under the U.S. federal securities laws.

Concerning the Trustee and the Agents

The Bank of New York Mellon, London Branch will be appointed as Trustee under the Indenture. The Bank of New York Mellon SA/NV, Luxembourg Branch will be appointed as note registrar (the “**Note Registrar**”) and as transfer agent (the “**Transfer Agent**”) and The Bank of New York Mellon, London Branch has been appointed as paying agent (the “**Paying Agent**”) and together with the Note Registrar and the Transfer Agent, the “**Agents**”) with regard to the Notes. Except during the continuance of a Default, the Trustee undertakes to perform such duties and only such duties as are specifically set forth in the Indenture, and no implied covenant or obligation shall be read into the Indenture against the Trustee. If an Event of Default has occurred and is continuing, the Trustee will use the

same degree of care and skill in its exercise of the rights and powers vested in it under the Indenture as a prudent person would exercise under the circumstances in the conduct of such person's own affairs.

The Trustee is permitted to engage in other transactions, including normal banking and trustee relationships, with the Issuer and its Affiliates; *provided, however*, that if it acquires any conflicting interest, it must eliminate such conflict or resign.

The Trustee will not be under any obligation to exercise any rights or powers conferred under the Indenture for the benefit of the Holders, unless such Holders have provided to the Trustee indemnity and/or security satisfactory to the Trustee against any loss, liability or expense.

The Trustee is indemnified and given relief from responsibility in circumstances as set out in the Indenture.

Book-Entry; Delivery and Form

The Notes will be represented by a global note in registered form without interest coupons attached (the “**Initial Global Note**”). On the Original Issue Date, the Global Note will be deposited with a common depository and registered in the name of the common depository or its nominee for the accounts of Euroclear and Clearstream. Any additional Notes will be represented by additional global notes in registered form without interest coupons attached (the “**Additional Global Notes**” and, together with the Initial Global Note, the “**Global Notes**”).

Global Notes

Ownership of beneficial interests in the Global Notes (the “**book-entry interests**”) will be limited to persons that have accounts with Euroclear and/or Clearstream or persons that may hold interests through such participants. Book-entry interests will be shown on, and transfers thereof will be effected only through, records maintained in book-entry form by Euroclear and Clearstream and their participants.

Except as set forth below under “— Individual Definitive Notes,” the book-entry interests will not be held in definitive form. Instead, Euroclear and/or Clearstream will credit on their respective book-entry registration and transfer systems a participant's account with the interest beneficially owned by such participant. The laws of some jurisdictions may require that certain purchasers of securities take physical delivery of such securities in definitive form. The foregoing limitations may impair the ability to own, transfer or pledge book-entry interests.

So long as the Notes are held in global form, the common depository for Euroclear and/or Clearstream (or its nominee) will be considered the sole holder of the Global Notes for all purposes under the Indenture and “holders” of book-entry interests will not be considered the owners or “Holders” of Notes for any purpose. As such, participants must rely on the procedures of Euroclear and Clearstream and indirect participants must rely on the procedures of the participants through which they own book-entry interests in order to transfer their interests in the Notes or to exercise any rights of Holders under the Indenture.

None of the Issuer, the Subsidiary Guarantors, the JV Subsidiary Guarantors (if any), the Trustee or any of the Agents will have any responsibility or be liable for any aspect of the records relating to the book-entry interests. The Notes are not issuable in bearer form.

Payments on the Global Notes

Payments of any amounts owing in respect of the Global Notes (including principal, premium, interest and Additional Amounts) will be made to the Paying Agent in U.S. dollars. The Paying Agent will, in turn, make such payments to the common depository for Euroclear and Clearstream, which will distribute such payments to participants in accordance with their procedures. Each of the Issuer, the Subsidiary Guarantors and any JV Subsidiary Guarantors (if any) will make payments of all such amounts without deduction or withholding for, or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature, except as may be required by law and additional amounts may be paid as described under “— Additional Amounts.”

Under the terms of the Indenture, the Issuer, any Subsidiary Guarantor, any JV Subsidiary Guarantor (if any) and the Trustee will treat the registered holder of the Global Notes (i.e., the common depository or its nominee) as the owner thereof for the purpose of receiving payments and for all other purposes. Consequently, none of the Issuer, the Subsidiary Guarantors, the JV Subsidiary Guarantors, the Trustee or any of the Agents has or will have any responsibility or liability for:

- any aspect of the records of Euroclear, Clearstream or any participant or indirect participant relating to or payments made on account of a book-entry interest, for any such payments made by Euroclear, Clearstream or any participant or indirect participants, or for maintaining, supervising or reviewing any of the records of Euroclear, Clearstream or any participant or indirect participant relating to or payments made on account of a book-entry interest; or
- any action or failure to take action by Euroclear, Clearstream or any participant or indirect participant.

Payments by participants to owners of book-entry interests held through participants are the responsibility of such participants.

Redemption of Global Notes

In the event any Global Note, or any portion thereof, is redeemed, the common depository will distribute the amount received by it in respect of the Global Note so redeemed to Euroclear and/or Clearstream, as applicable, who will distribute such amount to the holders of the book-entry interests in such Global Note. The redemption price payable in connection with the redemption of such book-entry interests will be equal to the amount received by the common depository, Euroclear or Clearstream, as applicable, in connection with the redemption of such Global Note (or any portion thereof). The Issuer understands that under existing practices of Euroclear and Clearstream, if fewer than all of the Notes are to be redeemed at any time, Euroclear and Clearstream will credit their respective participants' accounts on a proportionate basis (with adjustments to prevent fractions) or by lot or on such other basis as they deem fair and appropriate; *provided, however*, that no book-entry interest of US\$200,000 principal amount, or less, as the case may be, will be redeemed in part.

Action by Owners of Book-Entry Interests

Euroclear and Clearstream have advised that they will take any action permitted to be taken by a Holder of Notes only at the direction of one or more participants to whose account the book-entry interests in a Global Note are credited and only in respect of such portion of the aggregate principal amount of Notes as to which such participant or participants has or have given such direction. Euroclear and Clearstream will not exercise any discretion in the granting of consents, waivers or the taking of any other action in respect of the Global Note. If there is an Event of Default under the Notes, however, each of Euroclear and Clearstream reserves the right to exchange the Global Note for individual definitive notes in certificated form, and to distribute such individual definitive notes to their participants.

Transfers

Transfers between participants in Euroclear and Clearstream will be effected in accordance with Euroclear and Clearstream's rules and will be settled in immediately available funds. If a Holder requires physical delivery of individual definitive notes for any reason, including to sell the Notes to persons in jurisdictions which require physical delivery of such securities or to pledge such securities, such Holder must transfer its interest in the Global Note in accordance with the normal procedures of Euroclear and Clearstream and in accordance with the provisions of the Indenture.

Book-entry interests in the Global Notes will be subject to the restrictions on transfer discussed under "Transfer Restrictions" of this offering memorandum.

Any book-entry interest in a Global Note that is transferred to a person who takes delivery in the form of a book-entry interest in another Global Note will, upon transfer, cease to be a book-entry interest in the first-mentioned Global Note and become a book-entry interest in the other Global Note and, accordingly, will thereafter be subject to all transfer restrictions, if any, and other procedures applicable to book-entry interests in such other Global Note for as long as it retains such a book-entry interest.

Global Clearance and Settlement Under the Book-Entry System

Book-entry interests owned through Euroclear or Clearstream accounts will follow the applicable settlement procedures. Book-entry interests will be credited to the securities custody accounts of Euroclear and Clearstream participants on the business day following the settlement date against payment for value on the settlement date.

The book-entry interests will trade through participants of Euroclear or Clearstream, and will settle in same-day funds. Since the purchaser determines the place of delivery, it is important to establish at the time of trading of any book-entry interests where both the purchaser's and seller's accounts are located to ensure that settlement can be made on the desired value date.

Information Concerning Euroclear and Clearstream

The Issuer understands as follows with respect to Euroclear and Clearstream:

Euroclear and Clearstream hold securities for participating organizations and facilitate the clearance and settlement of securities transactions between their respective participants through electronic book-entry changes in accounts of such participants. Euroclear and Clearstream provide to their participants, among other things, services for safekeeping, administration, clearance and settlement of internationally traded securities and securities lending and borrowing. Euroclear and Clearstream interface with domestic securities markets. Euroclear and Clearstream participants are financial institutions, such as underwriters, securities brokers and dealers, banks and trust companies, and certain other organizations. Indirect access to Euroclear or Clearstream is also available to others such as banks, brokers, dealers and trust companies that clear through or maintain a custodian relationship with a Euroclear or Clearstream participant, either directly or indirectly.

Although the foregoing sets out the procedures of Euroclear and Clearstream in order to facilitate the original issue and subsequent transfers of interests in the Notes among participants of Euroclear and Clearstream, neither Euroclear nor Clearstream is under any obligation to perform or continue to perform such procedures, and such procedures may be discontinued at any time.

None of the Issuer, the Subsidiary Guarantors, the JV Subsidiary Guarantors, the Trustee or any of the Agents will have responsibility for the performance of Euroclear or Clearstream or their respective participants of their respective obligations under the rules and procedures governing their operations, including, without limitation, rules and procedures relating to book-entry interests.

Individual Definitive Notes

If (1) the common depository or any successor to the common depository is at any time unwilling or unable to continue as a depository for the reasons described in the Indenture and a successor depository is not appointed by the Issuer within 90 days, (2) either Euroclear or Clearstream, or a successor clearing system is closed for business for a continuous period of 14 days (other than by reason of holidays, statutory or otherwise) or announces an intention to permanently cease business or does in fact do so, or (3) any of the Notes has become immediately due and payable in accordance with “— Events of Default” and the Issuer has received a written request from a Holder, the Issuer will issue individual definitive notes in registered form in exchange for the Global Note. Upon receipt of such notice from the common depository, Euroclear, Clearstream or the Trustee, as the case may be, the Issuer will use its best efforts to make arrangements with the common depository for the exchange of interests in the Global Notes for individual definitive notes and cause the requested individual definitive notes to be executed and delivered to the registrar in sufficient quantities and authenticated by the Trustee for delivery to Holders. Persons exchanging interests in a Global Note for individual definitive notes will be required to provide the registrar, through the relevant clearing system, with written instruction and other information required by the Issuer and the Note Registrar to complete, execute and deliver such individual definitive notes. In all cases, individual definitive notes delivered in exchange for any Global Note or beneficial interests therein will be registered in the names, and issued in any approved denominations, requested by the relevant clearing system.

Individual definitive notes will not be eligible for clearing and settlement through Euroclear or Clearstream.

Notices

All notices or demands required or permitted by the terms of the Notes or the Indenture to be given to or by the Holders are required to be in writing and may be given or served by being sent by prepaid courier or first-class mail (if intended for the Issuer or any Subsidiary Guarantor or any JV Subsidiary Guarantor, if any) addressed to the Issuer, (if intended for the Trustee) at the corporate trust office of the Trustee; and (if intended for any Holder) addressed to such Holder at such Holder's last address as it appears in the Note register.

Any such notice or demand will be deemed to have been sufficiently given or served when so sent or deposited and, if to the Holders, when delivered in accordance with the applicable rules and procedures of Euroclear or Clearstream, as the case may be. Any such notice shall be deemed to have been delivered on the day such notice is delivered to Euroclear or Clearstream, as the case may be, or if by mail, when so sent or deposited.

Consent to Jurisdiction; Service of Process

The Issuer and each of the Subsidiary Guarantors or JV Subsidiary Guarantor (if any) will irrevocably (1) submit to the non-exclusive jurisdiction of any U.S. federal or New York state court located in the Borough of Manhattan, The City of New York in connection with any suit, action or proceeding arising out of, or relating to, the Notes, any Subsidiary Guarantee, any JV Subsidiary Guarantee, the Indenture or any transaction contemplated thereby; and (2) designate and appoint Cogency Global Inc. for receipt of service of process in any such suit, action or proceeding. TAXATION

The following summary of certain tax consequences of the purchase, ownership and disposition of the Notes is based upon applicable laws, regulations, rulings and decisions in effect as at the date of this offering memorandum, all of which are subject to change (possibly with retroactive effect). This summary does not purport to be a comprehensive description of all the tax considerations that may be relevant to a decision to purchase, own or dispose of the Notes and does not purport to deal with consequences applicable to all categories of investors, some of which may be subject to special rules. Neither these statements nor any other statements in this offering memorandum are to be regarded as advice on the tax position of any holder of the Notes or any person acquiring, selling or otherwise dealing in the Notes or on any tax implications arising from the acquisition, sale or other dealings in respect of the Notes.

Persons considering the purchase of the Notes should consult their own tax advisers concerning the tax consequences of the purchase, ownership and disposition of the Notes.

PRC

The following summary describes the principal PRC tax consequences of ownership of the Notes by beneficial owners who, or which, are not residents of mainland China for PRC tax purposes. These beneficial owners are referred to as (a) non-PRC Bondholders, or (b) beneficial owners who are entities or individuals located outside of the PRC in this “PRC Taxation” section. In considering whether to invest in the Notes, investors should consult their individual tax advisers with regard to the application of PRC tax laws to their particular situations as well as any tax consequences arising under the laws of any other tax jurisdiction.

Income Tax

Pursuant to the EIT Law and its implementation regulations, enterprises that are established under the laws of foreign countries and regions whose “de facto management bodies” are within the territory of the PRC are treated as PRC tax resident enterprises for the purpose of the EIT Law. The EIT Laws provide that the “de facto management body” of an enterprise is the organisation that exercises substantial and overall management and control over the production, employees, books of accounts and properties of the enterprise. If the relevant PRC tax authorities decide, in accordance with applicable tax rules and regulations, that the “de facto management body” of the Issuer is within the territory of the PRC, the Issuer may be treated as a PRC tax resident enterprise for the purpose of the EIT Law and income or gains paid with respect to the Notes may be considered to be derived from sources within the PRC.

Taxation on Interest

The EIT Law and its implementation regulations impose withholding tax at the rate of 10 per cent., or a lower rate if tax treaty benefits are available, on PRC-source income paid to a “non-resident enterprise” that does not have an establishment or place of business in the PRC or that has an establishment or place of business in the PRC but the relevant income is not effectively connected therewith. Pursuant to these provisions of the EIT Law, in the event the Issuer is considered to be a PRC resident enterprise by the PRC tax authorities in the future, interest payable to non-resident enterprise holders of the Notes may be treated as income derived from sources within the PRC and be subject to such PRC

withholding tax at a rate of 10 per cent. Further, in accordance with the Individual Income Tax Law of the PRC which was last amended on 31 August 2018 and took effect on 1 January 2019 and its implementation regulations, if the Issuer is considered to be a PRC tax resident enterprise, interest payable to non-resident individual holders of the Notes may be treated as income derived from sources within the PRC and be subject to a 20 per cent. individual income tax which the Issuer would be obliged to withhold from payments of interests to non-resident individual holders of the Notes. To the extent that the PRC has entered into arrangements relating to the avoidance of double-taxation with any jurisdiction, such as Hong Kong, that allow a lower rate of withholding tax, such lower rate may apply to qualified holders of the Notes.

As confirmed by the Issuer, as at the date of this offering memorandum, the Issuer has not been given notice or informed by the PRC tax authorities that it is considered a PRC tax resident enterprise for the purpose of the EIT Law. On that basis, non-resident enterprise holders of the Notes will not be subject to income tax imposed by any governmental authority in the PRC in respect of the holding of the Notes or any repayment of principal and payment of interest made thereon. However, there is no assurance that the Issuer will not be treated as a PRC tax resident enterprise under the EIT Law and related implementation regulations in the future.

In addition, if the relevant PRC tax authorities decide, in accordance with applicable tax rules and regulations, that the “de facto management body” of the Guarantor is within the territory of the PRC, the Guarantor may be treated as a PRC tax resident enterprise for the purpose of the EIT Law and, in the event that the Guarantor is required to fulfil its obligations under the Guarantee by making interest payments on behalf of the Issuer, such interest payments under the Guarantee may be considered to be derived from sources within the PRC. In such case, the Guarantor may be obliged to withhold PRC tax at a rate of 10 per cent. on such payments to non-PRC resident enterprise holders of the Notes and 20 per cent. for non-resident individual holders of the Notes. To the extent that the PRC has entered into arrangements relating to the avoidance of double-taxation with any jurisdiction, such as Hong Kong, which allows a lower rate of withholding tax, such lower rate may apply to qualified holders of the Notes. Repayment of the principal will not be subject to PRC withholding tax.

Taxation on Capital Gains

The EIT Law and its implementation regulations impose a tax at the rate of 10 per cent., or a lower rate if tax treaty benefits are available, on income derived from sources within the PRC realised by a “non-resident enterprise” that does not have an establishment or place of business in the PRC or that has an establishment or place of business in the PRC but the relevant gain is not effectively connected therewith. The Individual Income Tax Law and its implementation regulations impose a tax at the rate of 20 per cent. on income derived from sources within the PRC realised by non-resident individuals. If the Issuer is considered a PRC resident enterprise by the PRC tax authorities in the future, and if the capital gains realised by holders of the Notes are treated as income derived from sources within the PRC, such gains will be subject to such PRC tax. To the extent that the PRC has entered into arrangements relating to the avoidance of double-taxation with any jurisdiction, such as Hong Kong, that allow a lower rate of tax, such lower rate may apply to qualified non-resident holders of the Notes.

VAT

The Circular 36 provides for that the VAT pilot programme will cover construction industry, real estate industry, finance industry and life service industry on a nation-wide basis from 1 May 2016. Since then, the income derived from the provision of financial services which attracted business tax will be entirely replaced by, and subject to, VAT.

According to Circular 36, entities and individuals providing services within China are subject to VAT. The services are treated as being provided within China where either the service provider or the service recipient is located in the PRC. The services subject to VAT include the provision of financial services such as the provision of loans. It is further clarified under Circular 36 that the “loans” refers to the activity of lending capital for another’s use and receiving the interest income thereon. Based on the definition of “loans” under Circular 36, the issuance of Notes may be regarded as the holders of the Notes providing “loans” to the Issuer, which will therefore be regarded as financial services for VAT purposes. In the event the Issuer is deemed to be a PRC resident enterprise in the PRC by the PRC tax authorities, the holders of the Notes may be regarded as providing financial services within the PRC and consequently, the amount of interest payable by the Issuer to any non-resident holders of the Notes may be subject to withholding VAT at the rate of 6% plus related local surcharges. It is uncertain whether VAT is applicable to any transfer of the Notes between entities or individuals outside the PRC.

Circular 36 has been revised quite recently, the above statement may be subject to further change upon the issuance of further clarification rules and/or different interpretation by the competent tax authority. There is uncertainty as to the application of Circular 36.

Stamp Duty

No PRC stamp duty will be imposed on non-PRC Bondholders either upon issuance of the Bondholders upon a subsequent transfer of Notes to the extent that the register of holders of the Notes is maintained outside the PRC and the issuance and the sale of the Notes is made outside of the PRC.

The following summary describes the principal PRC tax consequences of ownership of the Notes by beneficial owners who, or which, are not residents of mainland China for PRC tax purposes. These beneficial owners are referred to as non PRC Bondholders in this section. In considering whether to invest in the Notes, investors should consult their individual tax advisors with regard to the application of PRC tax laws to their particular situations as well as any tax consequences arising under the laws of any other tax jurisdiction. Reference is made to PRC taxes from the taxable year beginning on or after 1 January 2008.

Pursuant to the New Enterprise Income Tax Law and its implementation regulations, enterprises that are established under laws of foreign countries and regions (including Hong Kong, Macau and Taiwan) but whose “de facto management bodies” are within the territory of China shall be PRC tax resident enterprises for the purpose of the New Enterprise Income Tax Law and they shall pay enterprise income tax at the rate of 25% in respect of their income sourced from both within and outside China. If relevant PRC tax authorities decide, in accordance with applicable tax rules and regulations, that the “de facto management body” of the Issuer is within the territory of the PRC, the Issuer may be

held to be a PRC tax resident enterprise for the purpose of the New Enterprise Income Tax Law and be subject to enterprise income tax at the rate of 25% for its income sourced from both within and outside PRC. As confirmed by the Issuer, as at the date of this offering memorandum, the Issuer has not been notified or informed by the PRC tax authorities that it is considered as a PRC tax resident enterprise for the purpose of the New Enterprise Income Tax Law. On that basis, holders of the Notes will not be subject to withholding tax, income tax or any other taxes or duties (including stamp duty) imposed by any governmental authority in the PRC in respect of the holding of the Notes or any repayment of principal and payment of interest made thereon.

However, there is no assurance that the Issuer will not be treated as a PRC tax resident enterprise under the New Enterprise Income Tax Law and related implementation regulations in the future. Pursuant to the New Enterprise Income Tax Law and its implementation regulations, any non-resident enterprise without establishment within the PRC or whose income has no actual connection to its establishment inside the PRC shall pay enterprise income tax at the rate of 10% on the income sourced inside the PRC, unless a preferential rate is provided by tax treaties or arrangements entered into between the country or region where the non-resident is established and the PRC, and such income tax shall be withheld by sources with the PRC payer acting as the obligatory withholder, who shall withhold the tax amount from each payment or payment due. Accordingly, in the event the Issuer is deemed to be a PRC tax resident enterprise by the PRC tax authorities in the future, the Issuer shall withhold income tax from the payments of interest in respect of the Notes for any non PRC enterprise Bondholder.

However, despite the potential withholding of PRC tax by the Issuer, the Issuer has agreed to pay additional amounts to holders of the Notes so that holders of the Notes would receive the full amount of the scheduled payment, as further set out in the Terms and Conditions of the Notes.

In addition, in the event that the Guarantor is required to discharge its obligations under the Guarantee, the Guarantor will be obliged to withhold PRC enterprise income tax at the rate up to 10% on the payments of interest made by it under the Guarantee to non PRC resident enterprise Bondholders as such payments of interest will be regarded as being derived from sources within the PRC. To the extent that the PRC has entered into arrangements relating to the avoidance of double taxation with any jurisdiction, such as Hong Kong, that allow a lower rate of withholding tax, such lower rate may apply to qualified non PRC resident enterprise Bondholders. Repayment of the principal will not be subject to PRC withholding tax.

Non PRC Bondholders will not be subject to the PRC tax on any capital gains derived from a sale or exchange of Notes consummated outside mainland China between non PRC Bondholders, except however, if the Issuer is treated as a PRC tax resident enterprise under the New Enterprise Income Tax Law and related implementation regulations in the future, any gain realised by the non PRC enterprise Bondholders from the transfer of the Notes may be regarded as being derived from sources within the PRC and accordingly would be subject to up to 10% of PRC withholding tax.

No PRC stamp duty will be chargeable upon the issue or transfer (for so long as the register of Bondholders is maintained outside the PRC) of a Bond.

Hong Kong

Withholding tax

No withholding tax is payable in Hong Kong in respect of payments of principal or interest on the Notes or in respect of any capital gains arising from the sale of the Notes.

Profits tax

Hong Kong profits tax is charged on every person carrying on a trade, profession or business in Hong Kong in respect of assessable profits arising in or derived from Hong Kong from such trade, profession or business.

Under the Inland Revenue Ordinance (Chapter 112 of the Laws of Hong Kong) (the “**Inland Revenue Ordinance**”) as it is currently applied, Hong Kong profits tax may be charged on revenue profits arising on the sale, disposal or redemption of the Notes where such sale, disposal or redemption is or forms part of a trade, profession or business carried on in Hong Kong.

Interest on the Notes will be subject to Hong Kong profits tax where such interest has a Hong Kong source, and is received by or accrues to:

- a financial institution (as defined in the Inland Revenue Ordinance) and arises through or from the carrying on by the financial institution of its business in Hong Kong; or
- a corporation carrying on a trade, profession or business in Hong Kong; or
- a person, other than a corporation, carrying on a trade, profession or business in Hong Kong and such interest is in respect of the funds of the trade, profession or business.

Although no tax is imposed in Hong Kong in respect of capital gains, Hong Kong profits tax may be chargeable on trading gains arising on the sale or disposal of the Notes where such transactions are or form part of a trade, profession or business carried on in Hong Kong.

Stamp duty

No Hong Kong stamp duty will be chargeable upon the issue or transfer of the Notes.

EU Directive on the taxation of savings income

The European Union has adopted the EC Council Directive 2003/48/EC (the “**Directive**”) regarding the taxation of savings income. The Directive requires Member States to provide to the tax authorities of another Member State details of payments of interest (or similar income) paid by a person within its jurisdiction to, or collected by such a person for, an individual resident in that other Member State or to certain limited types of entities established in that other Member State. However, for a transitional period, Luxembourg and Austria are instead required (unless during that period they elect otherwise) to operate a withholding system in relation to such payments, deducting tax at a rate of 35%. The transitional period is to terminate at the end of the first full fiscal year

following agreement by certain non-EU countries to the exchange of information relating to such payments. A number of non-EU countries and territories including Switzerland have adopted similar measures (a withholding system in the case of Switzerland). In addition, the Member States have entered into provision of information or transitional withholding arrangements with certain of those dependent or associated territories in relation to payments made by a person in a Member State to, or collected by such a person for, an individual resident or certain limited types of entity established in one of those territories. In April 2013, the Luxembourg Government announced its intention to abolish the withholding system with effect from 1 January 2015, in favour of automatic information exchange under the Directive, and will provide details of payments of interest (or similar income) as from this date.

On 24 March 2014, the Council of the European Union adopted an EU Council Directive amending and broadening the scope of the requirements described above. In particular, the changes broaden the definition of “interest payment” to cover income that is equivalent to interest and widen the scope of the Directive to payments made to, or collected for, certain other entities and legal arrangements. Member States are required to implement national legislation giving effect to these changes by 1 January 2016 (which national legislation must apply from 1 January 2017).

Investors who are in any doubt as to their position should consult their professional advisers.

The proposed financial transactions tax (“FTT”)

On 14 February 2013, the European Commission published a proposal (the “**Commission’s Proposal**”) for a Directive for a common FTT in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the participating Member States). The proposed FTT has very broad scope. If introduced in the form proposed on 14 February 2013, it could apply to certain dealings in the Notes (including secondary market transactions) in certain circumstances.

The Commission’s Proposal has very broad scope and could, if introduced, apply to certain dealings in the Notes (including secondary market transactions) in certain circumstances.

Under the Commission’s Proposal the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in the Notes where at least one party is a financial institution, and at least one party is established in a participating Member State. A party may be deemed to be, “established” in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is the subject of the transaction is issued in a participating Member State.

However, the FTT proposal remains subject to negotiation between the participating Member States. It may therefore be altered prior to any implementation, the timing of which remains unclear. Additional EU Member States may decide to participate.

Prospective holders of the Notes are advised to seek their own professional advice in relation to the FTT.

Cayman Islands

The Cayman Islands currently have no exchange control restrictions and no income, corporate or capital gains tax, estate duty, inheritance tax, gift tax or withholding tax applicable to the Issuer or any holder of Notes.

Accordingly, payment of principal of (including any premium) and interest on, and any transfer of, the Notes will not be subject to taxation in the Cayman Islands, no Cayman Islands withholding tax will be required on such payments to any holder of the Notes and gains derived from the sale of the Notes will not be subject to Cayman Islands capital gains tax.

No stamp duty is payable under the laws of the Cayman Islands in respect of the execution and issue of the Notes. However, an instrument of transfer in respect of the Notes is stampable if executed in or brought into the Cayman Islands.

British Virgin Islands

Payments of interest and principal on the Notes will not be subject to taxation in the British Virgin Islands and no withholding will be required on the payment of interest and principal to any holder of the Notes nor will gains derived from the disposal of the Notes be subject to British Virgin Islands income or corporation tax, provided that the payments are made to persons who are not resident in the British Virgin Islands.

No estate, inheritance, succession or gift tax, rate, duty, levy or other charge is payable by persons who are not resident in the British Virgin Islands with respect to the Notes. There are currently no withholding taxes or exchange control regulations in the British Virgin Islands applicable to the Issuer.

If neither the Issuer nor any subsidiary holds an interest in real estate in the British Virgin Islands, no stamp duty is payable in respect of the issue of the Notes or on an instrument of transfer in respect of the Notes.

FATCA

Pursuant to certain provisions of the U.S. Internal Revenue Code of 1986, commonly known as FATCA, a “foreign financial institution” may be required to withhold on certain payments it makes (“**foreign passthru payments**”) to persons that fail to meet certain certification, reporting, or related requirements. The issuer may be a foreign financial institution for these purposes. A number of jurisdictions have entered into, or have agreed in substance to, intergovernmental agreements with the United States to implement FATCA (“**IGAs**”), which modify the way in which FATCA applies in their jurisdictions. Under the provisions of IGAs as currently in effect, a foreign financial institution in an IGA jurisdiction would generally not be required to withhold under FATCA or an IGA from payments that it makes. Certain aspects of the application of the FATCA provisions and IGAs to instruments such as the Notes, including whether withholding would ever be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Notes, are uncertain and may be subject to change. Even if withholding would be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Notes, such withholding would not apply prior to the date that is two years after the date on which final regulations defining foreign passthru payments are published in the U.S. Federal Register. Holders should consult their own tax advisers regarding how these rules may apply to their investment in the Notes.

SELLING RESTRICTIONS

General

No action has been taken or will be taken in any jurisdiction by us or the Initial Purchasers that would permit a public offering of the Notes, or the possession, circulation or distribution of this offering memorandum or any other material relating to the Notes or this offering, in any jurisdiction where action for that purpose is required. Accordingly, the Notes may not be offered or sold, directly or indirectly, and neither this offering memorandum nor such other material may be distributed or published, in or from any country or jurisdiction except in compliance with any applicable rules and regulations of such country or jurisdiction.

PRIIPs Regulation/Prohibition of sales to EEA retail investors

The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area (“**EEA**”). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, “**MiFID II**”); or (ii) a customer within the meaning of Directive (EU) 2016/97 (as amended, the “**Insurance Distribution Directive**”), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II. Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended, the “**PRIIPs Regulation**”) for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA. Consequently no key information document required by the PRIIPs Regulation as it forms part of domestic law by virtue of the EUWA (the “**UK PRIIPs Regulation**”) for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

INDEPENDENT REVIEW REPORT 獨立審閱報告

SCOPE OF REVIEW

We conducted our review in accordance with Hong Kong Standard on Review Engagements 2410 *Review of Interim Financial Information Performed by the Independent Auditor of the Entity* issued by the Hong Kong Institute of Certified Public Accountants. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

CONCLUSION

Based on our review, nothing has come to our attention that causes us to believe that the interim financial information is not prepared, in all material respects, in accordance with IAS 34.

3. CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES

The accounting policies adopted in the preparation of the interim condensed consolidated financial information are consistent with those applied in the preparation of the Group's annual consolidated financial statements for the year ended 31 December 2019, except for the adoption of the following revised International Financial Reporting Standards ("IFRSs") for the first time for the current period's financial information.

Amendments to IFRS 3	<i>Definition of a Business</i>
Amendments to IFRS 9, IAS 39 and IFRS 7	<i>Interest Rate Benchmark Reform</i>
Amendment to IFRS 16	<i>Covid-19-Related Rent Concessions (early adopted)</i>
Amendments to IAS 1 and IAS 8	<i>Definition of Material</i>

3. 會計政策變動及披露

於編製中期簡明綜合財務資料所採納的會計政策與編製本集團截至2019年12月31日止年度的年度綜合財務報表所應用者一致，惟對本期間財務資料首次採納以下經修訂國際財務報告準則（「國際財務報告準則」）除外。

國際財務報告準則第3號的修訂	業務的定義
國際財務報告準則第9號、國際會計準則第39號及國際財務報告準則第7號的修訂	利率基準改革
國際財務報告準則第16號的修訂	與2019新型冠狀病毒有關的租金優惠(提前採納)
國際會計準則第1號及國際會計準則第8號的修訂	重大性的定義

3. CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES (Continued)

The nature and impact of the revised IFRSs are described below:

- a) Amendments to IFRS 3 clarify and provide additional guidance on the definition of a business. The amendments clarify that for an integrated set of activities and assets to be considered a business, it must include, at a minimum, an input and a substantive process that together significantly contribute to the ability to create output. A business can exist without including all of the inputs and processes needed to create outputs. The amendments remove the assessment of whether market participants are capable of acquiring the business and continue to produce outputs. Instead, the focus is on whether acquired inputs and acquired substantive processes together significantly contribute to the ability to create outputs. The amendments have also narrowed the definition of outputs to focus on goods or services provided to customers, investment income or other income from ordinary activities. Furthermore, the amendments provide guidance to assess whether an acquired process is substantive and introduce an optional fair value concentration test to permit a simplified assessment of whether an acquired set of activities and assets is not a business. The Group has applied the amendments prospectively to transactions or other events that occurred on or after 1 January 2020. The amendments did not have any impact on the financial position and performance of the Group.
- b) Amendments to IFRS 9, IAS 39 and IFRS 7 address the effects of interbank offered rate reform on financial reporting. The amendments provide temporary reliefs which enable hedge accounting to continue during the period of uncertainty before the replacement of an existing interest rate benchmark. In addition, the amendments require companies to provide additional information to investors about their hedging relationships which are directly affected by these uncertainties. The amendments did not have any impact on the financial position and performance of the Group as the Group does not have any interest rate hedge relationships.

3. 會計政策變動及披露(續)

經修訂國際財務報告準則的性質及影響闡述如下：

- a) 國際財務報告準則第3號的修訂澄清及提供有關業務定義的額外指引。該修訂釐清，一組綜合業務及資產須至少包括一項投入及一個實際過程，而兩者共同對創造產出的能力作出重大貢獻，方可被視為業務。在並未計入所有創造產出所須的投入及過程的情況下，業務亦可存續。該修訂剔除對市場參與者是否具備能力收購業務及持續製造產出進行的評估。相反，重點專注在已取得的投入及已取得實際過程能否共同對創造產出的能力作出重大貢獻。該修訂亦收窄產出的定義，以聚焦在業務向客戶提供的貨品或服務、投資收入或從一般業務所得的其他收入。此外，該修訂提供有關評估已取得過程是否屬實際過程的指引，並引入選擇性公允價值集中測試，允許進行簡化評估，以測試一組已收購的業務及資產是否屬一項業務。本集團已將該修訂預期應用於2020年1月1日或之後發生的交易或其他事件。該修訂對本集團的財務狀況和表現概無任何影響。
- b) 國際財務報告準則第9號、國際會計準則第39號及國際財務報告準則第7號的修訂乃針對銀行間同業拆借利率改革對財務報告的影響。該修訂提供暫時舒緩措施，以便於更替現有利率基準前存在不確定性的期間能繼續使用對沖會計處理。此外，該修訂要求公司向投資者提供有關直接受該等不確定性影響的對沖關係的額外資料。由於本集團並無任何利率對沖關係，故該修訂對本集團的財務狀況及表現概無任何影響。

3. CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES (Continued)

- c) Amendment to IFRS 16 provides a practical expedient for lessees to elect not to apply lease modification accounting for rent concessions arising as a direct consequence of the covid-19 pandemic. The practical expedient applies only to rent concessions occurring as a direct consequence of the covid-19 pandemic and only if (i) the change in lease payments results in revised consideration for the lease that is substantially the same as, or less than, the consideration for the lease immediately preceding the change; (ii) any reduction in lease payments affects only payments originally due on or before 30 June 2021; and (iii) there is no substantive change to other terms and conditions of the lease. The amendment is effective retrospectively for annual periods beginning on or after 1 June 2020 with earlier application permitted. The amendments did not have any impact on the Group's interim condensed consolidated financial information.
- d) Amendments to IAS 1 and IAS 8 provide a new definition of material. The new definition states that information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements. The amendments clarify that materiality will depend on the nature or magnitude of information. The amendments did not have any impact on the Group's interim condensed consolidated financial information.

4. OPERATING SEGMENT INFORMATION

For management purpose, the Group is organised into the following reportable operating segments:

- Property development
- Commercial property investment and operations

3. 會計政策變動及披露(續)

- c) 國際財務報告準則第16號的修訂為承租人提供可行權宜方法，可選擇不就因大流行的2019新型冠狀病毒病疫情而直接導致的租金減免應用租賃修訂會計處理。該可行權宜方法僅適用於因大流行的2019新型冠狀病毒病疫情而直接導致的租金減免，並僅在以下情況下適用：(i)租賃付款變動導致經修訂租賃代價大致相等於或低於緊接該變動前的租賃代價；(ii)租賃付款的任何減幅僅影響原到期日為2021年6月30日或之前的付款；及(iii)其他租賃條款及條件概無實質變動。該修訂於2020年6月1日或之後開始的年度期間追溯有效，並允許提早應用。該等修訂對本集團中期簡明綜合財務資料概無任何影響。
- d) 國際會計準則第1號及國際會計準則第8號的修訂為重大提供新定義。新定義指出，倘遺漏、錯誤陳述或掩蓋資料可合理地預期對一般用途財務報表的主要使用者基於該等財務報表作出的決策造成影響，則有關資料屬重大。該修訂釐清，重大程度將取決於資料的性質或規模。該修訂對本集團的中期簡明綜合財務資料概無任何影響。

The fair value of completed commercial properties is determined by the income capitalisation method by taking into account the net rental income of the properties derived from the existing leases and/or achievable in the existing market with due allowance for the reversionary income potential of the leases, which have been then capitalised to determine the fair value at an appropriate capitalisation rate. Where appropriate, reference has also been made to the comparable sales transactions as available in the relevant market.

已完工商業物業的公允價值乃通過收入資本化法釐定，方法是通過計及有關物業因現有租約而產生及／或在現行市況下可能取得的租金收入淨額(就租約的潛在續租收入作出充分撥備)，然後加以資本化，以按適當的資本化比率釐定公允價值。亦會在適當情況下參考相關市場上可獲得的可資比較銷售交易。

12. INVESTMENT PROPERTIES (Continued)

A significant increase in the estimated rental value would result in a significant increase in the fair value of the investment properties. A significant increase (decrease) in the long term vacancy rate and the capitalisation rate in isolation would result in a significant decrease (increase) in the fair value of the investment properties.

The fair value of the commercial properties under construction is determined by using the comparison method, with reference to sales transactions as available in relevant market, comparable land in close proximity have been selected and adjustments have been made to account for the difference in factors such as location and property size.

The higher the estimated land price the higher the fair value of the investment properties under construction.

As at 30 June 2020, certain of the Group's investment properties with an aggregate carrying amount of approximately RMB8,467,396,000 (31 December 2019: RMB8,375,881,000) have been pledged to only secure bank and other borrowings granted to the Group (note 21).

13. TRADE RECEIVABLES

Trade receivables mainly represent rentals receivable from tenants. The Group seeks to maintain strict control over its outstanding receivables. Overdue balances are reviewed regularly by management. In view of the aforementioned and the fact that the Group's trade receivables relate to a large number of diversified customers, there is no significant concentration of credit risk.

12. 投資物業(續)

估計租值大幅增加將導致投資物業的公允價值大幅增加。長期空置率及資本化比率單獨大幅增加(減少)將導致投資物業的公允價值大幅減少(增加)。

在建商業物業的公允價值使用比較法釐定，並經參考相關市場上可獲得的銷售交易，選用鄰近可資比較土地以進行比較，以及就地點及物業規模等因素的差異作出調整。

估計土地價格越高，在建投資物業公允價值越高。

於2020年6月30日，本集團總賬面值約人民幣8,467,396,000元(2019年12月31日：人民幣8,375,881,000元)的若干投資物業已質押，僅為本集團獲授的銀行及其他借款作抵押(附註21)。

13. 貿易應收款項

貿易應收款項主要指應收租戶租金。本集團尋求對其未收回應收款項維持嚴格控制。管理層會定期審閱逾期結餘。鑒於以上所述及本集團的貿易應收款項涉及大量分散客戶，並無重大信貸風險集中狀況。

13. TRADE RECEIVABLES (Continued)

An ageing analysis of the trade receivables as at the end of the reporting period, based on the invoice date and net of loss allowance, is as follows:

		30 June 2020 2020年 6月30日 RMB'000 人民幣千元 (Unaudited) (未經審核)	31 December 2019 2019年 12月31日 RMB'000 人民幣千元 (Audited) (經審核)

3 to 6 months	3至6個月	1,515	1,668
6 to 12 months	6至12個月	120	447
Over 12 months	超過12個月	—	10
		23,759	6,767

Receivables that were neither past due nor impaired relate to a large number of diversified customers for whom there was no recent history of default.

The Group applies the simplified approach to providing for expected credit losses, which permits the use of the lifetime expected loss provision for all trade receivables. To measure the expected credit losses, trade receivables have been grouped based on shared credit risk characteristics and the days past due. Based on evaluation on the expected loss rate and gross carrying amount, the directors of the Company are of the opinion that the ECL in respect of these balances is considered to be immaterial and therefore there has not been a loss allowance provision.

13. 貿易應收款項(續)

於報告期末，根據發票日期呈列的貿易應收款項(扣除虧損撥備)的賬齡分析如下：

	30 June 2020 2020年 6月30日 RMB'000 人民幣千元 (Unaudited) (未經審核)	31 December 2019 2019年 12月31日 RMB'000 人民幣千元 (Audited) (經審核)

3 to 6 months	1,515	1,668
6 to 12 months	120	447
Over 12 months	—	10
	23,759	6,767

既未逾期亦未減值的應收款項涉及大量無近期違約記錄的多元化客戶。

本集團應用簡化方法為預期信貸虧損計提撥備，該方法允許所有貿易應收款項採用整個存續期的預期虧損撥備。為計算預期信貸虧損，貿易應收款項已根據共享信用風險特徵及逾期日數分類。根據對預期虧損率及賬面總值的評估，本公司董事認為，有關該等結餘的預期信貸虧損並不重大，因此並無就其計提虧損撥備。

At the end of the reporting period, contingent liabilities not provided for in the condensed consolidated statement of financial position were as follows:

20. 或有負債

於報告期末，並未於簡明綜合財務狀況表內就下列各項撥備或有負債：

		30 June 2020 2020年 6月30日 RMB'000 人民幣千元 (Unaudited) (未經審核)	31 December 2019 2019年 12月31日 RMB'000 人民幣千元 (Audited) (經審核)

		17,927,301	12,108,720

20. CONTINGENT LIABILITIES (Continued)

- (i) The Group provided guarantees in respect of mortgage facilities granted by certain banks to the purchasers of the Group's completed properties held for sale. Pursuant to the terms of the guarantee arrangements, in case of default on mortgage payments by the purchasers, the Group is responsible to repay the outstanding mortgage principals together with any accrued interest and penalties owed by the defaulted purchasers to those banks.

Under the above arrangement, the related properties were pledged to the banks as collateral for the mortgage loans, and upon default on mortgage repayments by these purchasers, the banks are entitled to take over the legal titles and will realise the pledged properties through open auction.

The Group's guarantee period starts from the dates of grant of the relevant mortgage loans and ends upon the issuance and registration of property ownership certificates to the purchasers, which will generally be available within one to two years after the purchasers take possession of the relevant properties.

The fair value of the guarantees at initial recognition and the ECL allowance are not significant as the directors of the Company consider that in the event of default on payments, the net realisable value of the related properties can cover the repayment of the outstanding mortgage principal together with the accrued interest and penalties.

20. 或有負債(續)

- (i) 本集團就若干銀行向本集團持作出售的已完工物業買家授出的按揭融資提供擔保。根據擔保安排的條款，如買家拖欠按揭付款，本集團負責向該等銀行償還違約買家所欠的未償還按揭本金連同任何應計利息及罰款。

根據上述安排，相關物業已質押予該等銀行作為按揭貸款的抵押品；倘該等買家拖欠按揭還款，該等銀行有權接管有關法定業權，並通過公開拍賣將所質押物業變現。

本集團的擔保期由授出相關按揭貸款日期起至買家獲發物業所有權證及辦理登記止，有關證明一般會於買家接管相關物業後的一至兩年內取得。

初始確認時的擔保的公允價值和預期信貸虧損撥備並不重大，因為本公司董事認為，如果付款方面發生違約，相關物業的可變現淨值可涵蓋未償還按揭本金連同應計利息及罰款的還款。

20. CONTINGENT LIABILITIES (Continued)

- (ii) As at 30 June 2020, the Group provided guarantees to the extent of RMB4,379,690,000 (31 December 2019: RMB3,653,790,000) in respect of credit facilities granted to the joint ventures and associates. In addition, as at 30 June 2020, the joint venture partners entered into counter-guarantee agreements with the Group, pursuant to which the joint venture partners provided counter-guarantees to the Group in proportion to those joint venture partners' respective interests in the joint ventures in respect of guarantees provided by the Group to the banks and other lenders on behalf of the joint venture partners. In the event of default on payment by the joint ventures, the Group is responsible for repaying the outstanding loan principals together with the accrued interest and penalties owed by the joint ventures, and the Group has the right to recover from the joint venture partners the attributable portion of liabilities paid pursuant to the counter-guarantee agreements.

In the opinion of the directors, the fair values of the guarantees at initial recognition and the ECL allowance are not significant.

20. 或有負債(續)

- (ii) 於2020年6月30日，本集團就授予合營企業及聯營公司的信貸融資提供擔保人民幣4,379,690,000元（2019年12月31日：人民幣3,653,790,000元）。此外，於2020年6月30日，合營企業合夥人與本集團訂立反擔保協議，據此，合營企業合夥人按該等合營企業合夥人各自於合營企業的權益比例向本集團提供反擔保，乃就本集團代表合營企業合夥人向銀行及其他貸款人提供的擔保而作出。倘合營企業拖欠還款，本集團有責任償還合營企業所欠的未償還貸款本金連同應計利息及罰款，而本集團有權根據反擔保協議向合營企業合夥人收回已付負債應佔部分。

董事認為，初始確認時之擔保之公允價值及預期信貸虧損撥備並不重大。

**24. FAIR VALUE AND FAIR VALUE HIERARCHY OF
FINANCIAL INSTRUMENTS (Continued)**

The Group's finance department headed by the finance manager is responsible for determining the policies and procedures for the fair value measurement of financial instruments. The finance manager reports directly to the chief financial officer. At each reporting date, the finance department analyses the movements in the values of financial instruments and determines the major inputs applied in the valuation. The valuation is reviewed and approved by the chief financial officer.

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The following methods and assumptions were used to estimate the fair values:

The fair values of interest-bearing bank loans and other borrowings have been calculated by discounting the expected future cash flows using rates currently available for instruments with similar terms, credit risk and remaining maturities. The Group's own non-performance risk for interest-bearing bank and other borrowings as at 30 June 2020 was assessed to be insignificant.

The fair values of senior notes are based on quoted market prices.

The fair values of listed equity investments are based on quoted market prices.

Provision for land appreciation tax

The Group is a comprehensive property developer in Mainland China focusing on the development of residential properties and the development, operation and management of commercial and mixed-use properties. Land appreciation tax ("LAT") in Mainland China is one of the main components of the Group's taxation charge. LAT is levied on the sale of properties at progressive rates ranging from 30% to 60% based on the appreciation of land value. At the end of each reporting period, the Group estimates the provision for land appreciation tax based on its understanding and interpretation of the relevant tax rules and regulations, and the estimated total sales of properties less total deductible expenditure, which includes prepaid land lease payments, property development costs and borrowing costs. When the LAT is subsequently determined, the actual payments may be different from the estimates.

INDEPENDENT AUDITOR'S REPORT 獨立核數師報告

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Our report is made solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSA's will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSA's, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.

核數師就審核綜合財務報表須承擔的責任

吾等的目標為合理確定此等綜合財務報表整體而言不會存在由於欺詐或錯誤而導致的重大錯誤陳述，並發出載有吾等意見的核數師報告。本報告的編製，僅向全體股東報告，除此以外不可作其他用途。吾等概不就本報告的內容對任何其他人士負責或承擔任何責任。

合理確定屬高層次的核證，惟根據香港審核準則進行的審核工作不能保證總能察覺所存在的重大錯誤陳述。錯誤陳述可因欺詐或錯誤產生，倘個別或整體在合理預期情況下可影響使用者根據綜合財務報表作出的經濟決定時，則被視為重大錯誤陳述。

在根據香港審核準則進行審核的過程中，吾等運用專業判斷，保持專業懷疑態度。吾等亦：

- 識別及評估由於欺詐或錯誤而導致綜合財務報表存在重大錯誤陳述的風險、設計及執行審核程序以應對該等風險，以及獲取充足和適當的審核憑證，作為吾等意見的基礎。由於欺詐可能涉及串謀、偽造、蓄意遺漏、虛假陳述或凌駕內部監控的情況，因此未能發現因欺詐而導致的重大錯誤陳述的風險高於未能發現因錯誤而導致的重大錯誤陳述的風險。
- 瞭解與審核相關的內部監控，以設計適當的審核程序，惟並非旨在對貴集團內部監控的有效性發表意見。
- 評估董事所採用會計政策的恰當性及作出會計估計和相關披露的合理性。

INDEPENDENT AUDITOR'S REPORT 獨立核數師報告

- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.
- 對董事採用持續經營會計基礎的恰當性作出結論，並根據所獲取的審核憑證，確定是否存在與事項或情況有關的重大不確定性，從而可能導致對貴集團的持續經營能力產生重大疑慮。倘吾等認為存在重大不確定性，則有必要在核數師報告中提請使用者注意綜合財務報表中的相關披露。倘有關披露不足，則修訂吾等的意見。吾等的結論乃基於截至核數師報告日期止所取得的審核憑證而作出。然而，未來事項或情況可能導致貴集團無法持續經營。
- 評估綜合財務報表的整體呈報方式、結構及內容，包括披露資料，以及綜合財務報表是否中肯反映相關交易和事項。
- 就貴集團內實體或業務活動的財務資料獲取充足及適當的審核憑證，以便對綜合財務報表發表意見。吾等負責集團審核的方向、監督及執行。吾等就審核意見承擔全部責任。

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

吾等與審核委員會就(其中包括)審核的計劃範圍、時間安排及重大審核發現進行溝通，該等發現包括吾等在審核過程中識別的內部監控的任何重大缺失。

吾等亦向審核委員會作出聲明，指出吾等已符合有關獨立性的相關道德要求，並與彼等溝通可能被合理認為會影響吾等獨立性的所有關係及其他事宜，以及相關防範措施(如適用)。

INDEPENDENT AUDITOR'S REPORT

獨立核數師報告

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Lawrence K.W. Lau.

2.1 BASIS OF PREPARATION (Continued)**Basis of consolidation**

The consolidated financial statements include the financial statements of the Company and its subsidiaries (collectively referred to as the "Group") for the year ended 31 December 2019. A subsidiary is an entity (including a structured entity), directly or indirectly, controlled by the Company. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee (i.e., existing rights that give the Group the current ability to direct the relevant activities of the investee).

When the Company has, directly or indirectly, less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- (a) the contractual arrangement with the other vote holders of the investee;
- (b) rights arising from other contractual arrangements; and
- (c) the Group's voting rights and potential voting rights.

The financial statements of the subsidiaries are prepared for the same reporting period as the Company, using consistent accounting policies. The results of subsidiaries are consolidated from the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases.

2.1 編製基準(續)**綜合入賬基準**

該等綜合財務報表包括本公司及其附屬公司(統稱「本集團」)截至2019年12月31日止年度的財務報表。附屬公司為受本公司直接或間接控制的實體(包括結構性實體)。當本集團對參與投資對象業務所得的浮動回報承擔風險或享有權利以及能透過對投資對象的權力(即本集團獲賦予現有能以主導投資對象相關活動的既存權利)影響該等回報時,即取得控制權。

倘本公司直接或間接擁有少於投資對象大多數表決權或類似權利,則本集團於評估其是否擁有對投資對象的權力時會考慮一切相關事實及情況,包括:

- (a) 與投資對象其他表決權持有人的合約安排;
- (b) 其他合約安排所產生權利;及
- (c) 本集團的表決權及潛在表決權。

附屬公司的財務報表乃就本公司的相同報告期間使用貫徹一致的會計政策編製。附屬公司的業績乃自本集團獲取控制權之日開始作綜合入賬,並繼續綜合入賬直至有關控制權終止之日為止。

2.1 BASIS OF PREPARATION (Continued)

Basis of consolidation (Continued)

Profit or loss and each component of other comprehensive income are attributed to the owners of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control described above. A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

If the Group loses control over a subsidiary, it derecognises (i) the assets (including goodwill) and liabilities of the subsidiary, (ii) the carrying amount of any non-controlling interest and (iii) the cumulative translation differences recorded in equity; and recognises (i) the fair value of the consideration received, (ii) the fair value of any investment retained and (iii) any resulting surplus or deficit in profit or loss. The Group's share of components previously recognised in other comprehensive income is reclassified to profit or loss or retained profits, as appropriate, on the same basis as would be required if the Group had directly disposed of the related assets or liabilities.

2.1 編製基準(續)

綜合入賬基準(續)

即使導致非控股權益出現虧絀結餘，損益及其他全面收入各組成部分仍歸屬於本集團母公司擁有人及非控股權益。所有有關本集團各成員公司間交易的集團內公司間資產及負債、權益、收入、開支及現金流量會於綜合賬目時全數抵銷。

倘有事實及情況顯示上述三項控制因素其中一項或以上出現變動，則本集團會重新評估是否仍控制投資對象。附屬公司的擁有權權益變動（並無喪失控制權）被視為股本交易入賬。

倘本集團失去對附屬公司的控制權，則會終止確認(i)該附屬公司的資產（包括商譽）及負債；(ii)任何非控股權益的賬面值；及(iii)計入權益的累計匯兌差額；並確認(i)已收取代價的公允價值；(ii)任何保留投資的公允價值；及(iii)所產生任何計入損益的盈餘或虧絀。先前已於其他全面收入確認的本集團應佔組成部分乃重新分類至損益或保留溢利（如適用），基準與本集團直接出售相關資產或負債所需依據的基準相同。

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES (Continued)

- (a) IFRS 16 replaces IAS 17 *Leases*, IFRIC 4 *Determining whether an Arrangement contains a Lease*, SIC 15 *Operating Leases — Incentives* and SIC 27 *Evaluating the Substance of Transactions Involving the Legal Form of a Lease*. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases under a single on-balance sheet model to recognise and measure right-of-use assets and lease liabilities, except for certain recognition exemptions. Lessor accounting under IFRS 16 is substantially unchanged from IAS 17. Lessors continue to classify leases as either operating or finance leases using similar principles as in IAS 17.

For a sublease arrangement, the classification of the sublease is made by reference to the right-of-use asset arising from the head lease, instead of by reference to the underlying asset.

IFRS 16 did not have any significant impact on leases where the Group is the lessor.

The Group has adopted IFRS 16 using the modified retrospective method with the date of initial application of 1 January 2019. Under this method, the standard has been applied retrospectively with the cumulative effect of initial adoption recognised as an adjustment to the opening balance of retained earnings at 1 January 2019, and the comparative information for 2018 was not restated and continued to be reported under IAS 17 and related interpretations.

2.2 會計政策及披露變動(續)

- (a) 國際財務報告準則第16號取代國際會計準則第17號租賃、國際財務報告詮釋委員會第4號釐定安排是否包括租賃、準則詮釋委員會第15號經營租賃 — 優惠及準則詮釋委員會第27號評估涉及租賃法律形式交易的內容。該準則載列確認、計量、呈列及披露租賃的原則，並要求承租人根據單一資產負債表模式入賬所有租賃，以確認及計量使用權資產及租賃負債，惟若干確認豁免除外。國際財務報告準則第16號項下出租人會計處理與國際會計準則第17號項下者大致不變。出租人繼續按照與國際會計準則第17號相類的原則將租賃分類為經營租賃或融資租賃。

就分租安排而言，分租乃經參照主租賃所產生使用權資產而非參照相關資產歸類。

國際財務報告準則第16號對本集團作為出租人的租賃並無任何重大影響。

本集團採用修訂追溯法採納國際財務報告準則第16號，首次應用日期為2019年1月1日。根據該方法，該準則予以追溯應用，而首次採納的累計影響確認為對保留盈利於2019年1月1日的期初結餘的調整，而2018年的比較資料不予重列，並繼續根據國際會計準則第17號及相關詮釋呈報。

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES (Continued)

(a) (Continued)

New definition of a lease

Under IFRS 16, a contract is, or contains, a lease if the contract conveys a right to control the use of an identified asset for a period of time in exchange for consideration. Control is conveyed where the customer has both the right to obtain substantially all of the economic benefits from use of the identified asset and the right to direct the use of the identified asset. The Group elected to use the transition practical expedient allowing the standard to be applied only to contracts that were previously identified as leases applying IAS 17 and IFRIC 4 at the date of initial application. Contracts that were not identified as leases under IAS 17 and IFRIC 4 were not reassessed. Therefore, the definition of a lease under IFRS 16 has been applied only to contracts entered into or changed on or after 1 January 2019.

As a lessee — Leases previously classified as operating leases

Nature of the effect of adoption of IFRS 16

The Group has lease contracts for various items of property, machinery, motor vehicles and other equipment. As a lessee, the Group previously classified leases as either finance leases or operating leases based on the assessment of whether the lease transferred substantially all the rewards and risks of ownership of assets to the Group. Under IFRS 16, the Group applies a single approach to recognise and measure right-of-use assets and lease liabilities for all leases, except for two elective exemptions for leases of low-value assets (elected on a lease-by-lease basis) and leases with a lease term of 12 months or less (“short-term leases”) (elected by class of underlying asset). Instead of recognising rental expenses under operating leases on a straight-line basis over the lease term commencing from 1 January 2019, the Group recognises depreciation (and impairment, if any) of the right-of-use assets and interest accrued on the outstanding lease liabilities (as finance costs).

2.2 會計政策及披露變動(續)

(a) (續)

租賃的新定義

根據國際財務報告準則第16號，若合約表明在一段時間內為換取代價而擁有控制一項已識別資產的使用權，則該合約為租賃或包含租賃。倘客戶有權從使用已識別資產中獲取絕大部分經濟利益及有權主導已識別資產的使用，則表示擁有控制權。本集團選擇使用過渡可行權宜方法，僅在首次應用日期對先前應用國際會計準則第17號及國際財務報告詮釋委員會第4號識別為租賃的合約應用該準則。根據國際會計準則第17號及國際財務報告詮釋委員會第4號並無識別為租賃的合約不予重估。因此，國際財務報告準則第16號項下租賃的定義僅適用於在2019年1月1日或之後訂立或變更的合約。

作為承租人 — 先前分類為經營租賃的租賃

採納國際財務報告準則第16號的影響性質

本集團擁有多項涉及不同物業、機器、汽車及其他設備項目的租賃合約。作為承租人，本集團先前按該租賃是否評估為已將其資產所有權的絕大部分回報和風險轉予本集團，將租賃分類為融資租賃或經營租賃。根據國際財務報告準則第16號，本集團就所有租賃應用單一的方法確認和計量使用權資產和租賃負債，惟就低價值資產租賃(按個別租賃基準選擇)和租賃期為12個月或以下的租賃(「短期租賃」，按相關資產類別選擇)的兩種可選擇豁免除外。本集團確認使用權資產折舊(及減值(如有))及未償還租賃負債所產生利息(為融資成本)，而非於自2019年1月1日開始的租賃期按直線法確認經營租賃項下租金開支。

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES (Continued)

(a) (Continued)

As a lessee — Leases previously classified as operating leases (Continued)

Impact on transition

Lease liabilities at 1 January 2019 were recognised based on the present value of the remaining lease payments, discounted using the incremental borrowing rate at 1 January 2019. The right-of-use assets were measured at the amount of the lease liability, adjusted by the amount of any prepaid or accrued lease payments relating to the lease recognised in the statement of financial position immediately before 1 January 2019.

All these assets were assessed for any impairment based on IAS 36 on that date. The Group elected to present the right-of-use assets separately in the statement of financial position. No lease assets were recognised under finance leases previously.

For the leasehold land and buildings (that were held to earn rental income and/or for capital appreciation) previously included in investment properties and measured at fair value, the Group has continued to include them as investment properties at 1 January 2019. They continue to be measured at fair value applying IAS 40.

For the leases previously accounted for as operating leases and entered into for earning sublease rental income, the related right-of-use assets of the head leases amounting to RMB763,200,000 were measured at fair value at 1 January 2019, and have been accounted for and classified as investment properties applying IAS 40 from that date.

2.2 會計政策及披露變動(續)

(a) (續)

作為承租人 — 先前分類為經營租賃的租賃(續)

過渡的影響

於2019年1月1日的租賃負債按剩餘租賃付款的現值，經使用2019年1月1日的遞增借款利率貼現後予以確認。使用權資產按租賃負債的金額計量，並以任何與緊接2019年1月1日前在財務狀況表確認的租賃有關的預付或應計租賃付款的金額予以調整。

所有此等資產均於該日期按國際會計準則第36號作減值評估。本集團選擇在財務狀況表內獨立呈列使用權資產。先前概無租賃資產獲確認為融資租賃。

就先前計入投資物業並按公允價值計量的租賃土地及樓宇(持作賺取租金收入及/或資本增值)而言，本集團繼續將其計入於2019年1月1日的投資物業，並繼續應用國際會計準則第40號按公允價值計量。

就先前入賬列為經營租賃及為賺取分租租金收入而訂立的租賃而言，主租賃的相關使用權資產人民幣763,200,000元於2019年1月1日按公允價值計量，並已自該日期起應用國際會計準則第40號入賬列為及分類為投資物業。

Impact on transition (Continued)

The Group has used the following elective practical expedients when applying IFRS 16 at 1 January 2019:

- Applying the short-term lease exemptions to leases with a lease term that ends within 12 months from the date of initial application
- Using hindsight in determining the lease term where the contract contains options to extend/terminate the lease

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES (Continued)

(b) Amendments to IAS 28 clarify that the scope exclusion of IFRS 9 only includes interests in an associate or joint venture to which the equity method is applied and does not include long-term interests that in substance form part of the net investment in the associate or joint venture, to which the equity method has not been applied. Therefore, an entity applies IFRS 9, rather than IAS 28, including the impairment requirements under IFRS 9, in accounting for such long-term interests. IAS 28 is then applied to the net investment, which includes the long-term interests, only in the context of recognising losses of an associate or joint venture and impairment of the net investment in the associate or joint venture. The Group assessed its business model for its long-term interests in associates and joint ventures upon adoption of the amendments on 1 January 2019 and concluded that the long-term interests in associates and joint ventures continued to be measured at amortised cost in accordance with IFRS 9. Accordingly, the amendments did not have any impact on the financial position or performance of the Group.

2.2 會計政策及披露變動(續)

(b) 國際會計準則第28號的修訂明確說明國際財務報告準則第9號的豁免範圍僅包括就此應用權益法的於聯營公司或合營企業的權益，而不包括實質上構成於聯營公司或合營企業的投資淨額一部分的長期權益(並無就此應用權益法)。因此，實體應用國際財務報告準則第9號而非國際會計準則第28號(包括國際財務報告準則第9號項下的減值規定)將該等長期權益入賬。僅就確認聯營公司或合營企業的虧損及於聯營公司或合營企業的投資淨額的減值而言，國際會計準則第28號繼而應用於投資淨額(包括長期權益)。於2019年1月1日採納該等修訂後，本集團評估其於聯營公司及合營企業的長期權益的業務模式，並得出結論認為，於聯營公司及合營企業的長期權益繼續按照國際財務報告準則第9號按攤銷成本計量。因此，該等修訂對本集團的財務狀況或表現並無任何影響。

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES (Continued)

(c) IFRIC 23 addresses the accounting for income taxes (current and deferred) when tax treatments involve uncertainty that affects the application of IAS 12 (often referred to as “uncertain tax positions”). The interpretation does not apply to taxes or levies outside the scope of IAS 12, nor does it specifically include requirements relating to interest and penalties associated with uncertain tax treatments. The interpretation specifically addresses (i) whether an entity considers uncertain tax treatments separately; (ii) the assumptions an entity makes about the examination of tax treatments by taxation authorities; (iii) how an entity determines taxable profits or tax losses, tax bases, unused tax losses, unused tax credits and tax rates; and (iv) how an entity considers changes in facts and circumstances. Upon adoption of the interpretation, the Group considered whether it has any uncertain tax positions arising from the transfer pricing on its intergroup sales. Based on the Group’s tax compliance and transfer pricing study, the Group determined that it is probable that its transfer pricing policy will be accepted by the tax authorities. Accordingly, the interpretation did not have any impact on the financial position or performance of the Group.

2.2 會計政策及披露變動(續)

(c) 國際財務報告詮釋委員會第23號處理倘稅項處理涉及影響國際會計準則第12號的應用的不確定性(通常指「不確定的稅務狀況」)時的所得稅(即期及遞延)會計處理方法。該詮釋不適用於國際會計準則第12號範圍外的稅項或徵稅,亦無特別包括與不確定稅項處理相關的利息及處罰相關規定。詮釋具體處理(i)實體是否單獨考慮不確定稅項處理;(ii)實體對稅務機關的稅項處理檢查所作的假設;(iii)實體如何釐定應課稅利潤或稅項虧損、稅基、未動用稅項虧損、未動用稅項抵免及稅率;及(iv)實體如何考慮事實及情況變動。於採納該詮釋後,本集團已考慮是否存在因集團內公司間銷售的轉讓定價而產生的任何不確定的稅務狀況。基於本集團的稅務合規及轉讓定價研究,本集團釐定,其轉讓定價政策可能將獲稅務機關接納。因此,該詮釋對本集團的財務狀況或表現並無任何重大影響。

2.3 ISSUED BUT NOT YET EFFECTIVE INTERNATIONAL FINANCIAL REPORTING STANDARDS (Continued)

Amendments to IFRS 3 clarify and provide additional guidance on the definition of a business. The amendments clarify that for an integrated set of activities and assets to be considered a business, it must include, at a minimum, an input and a substantive process that together significantly contribute to the ability to create output. A business can exist without including all of the inputs and processes needed to create outputs. The amendments remove the assessment of whether market participants are capable of acquiring the business and continue to produce outputs. Instead, the focus is on whether acquired inputs and acquired substantive processes together significantly contribute to the ability to create outputs. The amendments have also narrowed the definition of outputs to focus on goods or services provided to customers, investment income or other income from ordinary activities. Furthermore, the amendments provide guidance to assess whether an acquired process is substantive and introduce an optional fair value concentration test to permit a simplified assessment of whether an acquired set of activities and assets is not a business. The Group expects to adopt the amendments prospectively from 1 January 2020. Since the amendments apply prospectively to transactions or other events that occur on or after the date of first application, the Group will not be affected by these amendments on the date of transition.

Amendments to IFRS 9, IAS 39 and IFRS 7 address the effects of interbank offered rate reform on financial reporting. The amendments provide temporary reliefs which enable hedge accounting to continue during the period of uncertainty before the replacement of an existing interest rate benchmark. In addition, the amendments require companies to provide additional information to investors about their hedging relationships which are directly affected by these uncertainties. The amendments are effective for annual periods beginning on or after 1 January 2020. Early application is permitted. The amendments are not expected to have any significant impact on the Group's financial statements.

2.3 已頒佈但未生效的國際財務報告準則 (續)

國際財務報告準則第3號的修訂闡明並提供有關業務定義之額外指引。該等修訂闡明一套綜合活動及資產將被視為業務，其必須至少包括可對產出能力有重大貢獻之投入及實質性進程。在不包括需要創造產出之所有投入及進程時業務可以存在。該等修訂移除評估市場參與者是否有能力收購業務並持續產出。相反，專注點在於所收購之投入及所收購之實質性進程能否共同對創造產出之能力作出重大貢獻。該等修訂亦縮小產出的定義以注重向客戶提供的商品或服務、一般活動之投資收入或其他收入。此外，該等修訂提供指引以評估所收購之進程是否為實質性的並引入可選擇的公允價值集中度測試，以允許簡化評估一系列所收購之活動及資產是否為業務。本集團預期自2020年1月1日起採納該等修訂。由於修訂本預期適用於首次應用日期或之後發生的交易或其他事件，因此本集團在過渡日期將不受這些修訂的影響。

國際財務報告準則第9號、國際會計準則第39號及國際財務報告準則第7號之修訂本旨在解決銀行同業拆息改革對財務申報之影響。該等修訂本提供可在替換現有利率基準前之不確定期限內繼續進行對沖會計處理之暫時性補救措施。此外，該等修訂本規訂公司須向投資者提供有關直接受該等不確定因素影響之對沖關係之額外資料。該等修訂本於2020年1月1日或其後開始的年度生效，可提前獲採納。預期該等修訂本將不會對本集團財務報表造成任何重大影響。

2.3 ISSUED BUT NOT YET EFFECTIVE INTERNATIONAL FINANCIAL REPORTING STANDARDS (Continued)

Amendments to IFRS 10 and IAS 28 address an inconsistency between the requirements in IFRS 10 and in IAS 28 in dealing with the sale or contribution of assets between an investor and its associate or joint venture. The amendments require a full recognition of a gain or loss when the sale or contribution of assets between an investor and its associate or joint venture constitutes a business. For a transaction involving assets that do not constitute a business, a gain or loss resulting from the transaction is recognised in the investor's profit or loss only to the extent of the unrelated investor's interest in that associate or joint venture. The amendments are to be applied prospectively. The previous mandatory effective date of amendments to IFRS 10 and IAS 28 was removed by the IASB in December 2015 and a new mandatory effective date will be determined after the completion of a broader review of accounting for associates and joint ventures. However, the amendments are available for adoption now.

Amendments to IAS 1 and IAS 8 provide a new definition of material. The new definition states that information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements. The amendments clarify that materiality will depend on the nature or magnitude of information. A misstatement of information is material if it could reasonably be expected to influence decisions made by the primary users. The Group expects to adopt the amendments prospectively from 1 January 2020. The amendments are not expected to have any significant impact on the Group's financial statements.

2.3 已頒佈但未生效的國際財務報告準則 (續)

國際財務報告準則第10號及國際會計準則第28號的修訂提出國際財務報告準則第10號及國際會計準則第28號有關處理投資者與其聯營公司或合營企業間之資產出售或注入的規定時的不一致情況。該等修訂規定當投資者與其聯營公司或合營企業間之資產出售或注入構成一項業務時，需全數確認收益或虧損。就涉及不構成一項業務的資產交易而言，交易產生的收益或虧損於投資者的損益確認，並僅以無關聯投資者於該聯營公司或合營企業的權益為限。該等修訂將按預期基準應用。國際會計準則理事會已於2015年12月廢除國際財務報告準則第10號及國際會計準則第28號的修訂的先前強制生效日期，而新強制生效日期將於完成對聯營公司及合營企業會計處理作更廣泛檢討後釐定。然而，該等修訂現時可供採納。

國際會計準則第1號及國際會計準則第8號修訂本對重大予以新定義。新定義列明，倘資料遭忽略、錯報或隱瞞時可合理預期會影響一般用途財務報表主要使用者根據該等財務報表作出的決定，則有關資料屬重大。該等修訂澄清重大與否視乎資料的性質或幅度。倘可合理預期會影響主要使用者的決定，則資料錯報屬重大。本集團預期自2020年1月1日起前瞻性採納該等修訂。該等修訂預期不會對本集團的財務報表產生任何重大影響。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Investments in associates and joint ventures

An associate is an entity in which the Group has a long term interest of generally not less than 20% of the equity voting rights and over which it is in a position to exercise significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies.

A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require the unanimous consent of the parties sharing control.

The Group's investments in associates and joint ventures are stated in the consolidated statement of financial position at the Group's share of net assets under the equity method of accounting, less any impairment losses.

The Group's share of the post-acquisition results and other comprehensive income of associates and joint ventures is included in the consolidated statement of profit or loss and consolidated other comprehensive income, respectively. In addition, when there has been a change recognised directly in the equity of the associate or joint venture, the Group recognises its share of any changes, when applicable, in the consolidated statement of changes in equity. Unrealised gains and losses resulting from transactions between the Group and its associates or joint ventures are eliminated to the extent of the Group's investments in the associates or joint ventures, except where unrealised losses provide evidence of an impairment of the assets transferred. Goodwill arising from the acquisition of associates or joint ventures is included as part of the Group's investments in associates or joint ventures.

2.4 主要會計政策概要

於聯營公司及合營企業的投資

聯營公司指本集團長期擁有合共不少於20%股本投票權且可對其行使重大影響力之企業。重大影響力指的是參與投資對象之財務及經營決策之權力，但不是控制或共同控制該等決策之權力。

合營企業指一種合資安排，對安排擁有共同控制權之訂約方據此對合營企業之資產淨值擁有權利。共同控制指按照合約協定對一項安排所共有控制，共同控制僅在有關活動要求享有控制權之訂約方作出一致同意之決定時存在。

本集團於聯營公司及合營企業之投資以權益會計法按本集團應佔資產淨值扣除任何減值虧損在綜合財務狀況表列賬。

本集團應佔聯營公司及合營企業之收購後業績及其他全面收入分別計入綜合損益表及綜合全面收入表。此外，倘於聯營公司或合營企業之權益直接確認出現變動，則本集團會於綜合權益變動表確認其應佔任何變動（倘適用）。本集團與其聯營公司或合營企業交易所產生未變現收益及虧損按本集團於聯營公司或合營企業之投資為限的方式對銷，惟倘未變現虧損有證據顯示所轉讓資產出現減值則除外。收購聯營公司或合營企業產生之商譽計入為本集團於聯營公司或合營企業投資之一部分。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**Investments in associates and joint ventures (Continued)**

If an investment in an associate becomes an investment in a joint venture or vice versa, the retained interest is not remeasured. Instead, the investment continues to be accounted for under the equity method. In all other cases, upon loss of significant influence over the associate or joint control over the joint venture, the Group measures and recognises any retained investment at its fair value. Any difference between the carrying amount of the associate or joint venture upon loss of significant influence or joint control and the fair value of the retained investment and proceeds from disposal is recognised in profit or loss.

When an investment in an associate or a joint venture is classified as held for sale, it is accounted for in accordance with IFRS 5 *Non-current Assets Held for Sale and Discontinued Operations*.

Business combinations and goodwill

Business combinations are accounted for using the acquisition method. The consideration transferred is measured at the acquisition date fair value which is the sum of the acquisition date fair values of assets transferred by the Group, liabilities assumed by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree that are present ownership interests and entitle their holders to a proportionate share of net assets in the event of liquidation at fair value or at the proportionate share of the acquiree's identifiable net assets. All other components of non-controlling interests are measured at fair value. Acquisition-related costs are expensed as incurred.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts of the acquiree.

2.4 主要會計政策概要(續)**於聯營公司及合營企業的投資(續)**

倘於聯營公司之投資成為與合營企業之投資(反之亦然)，則保留權益不會重新計量，而該項投資會繼續以權益法入賬。在所有其他情況下，於失去對聯營公司之重大影響力或對合營企業之共同控制權時，本集團按其公允價值計量並確認任何保留投資。於失去重大影響力或共同控制權後之聯營公司或合營企業賬面值與保留投資公允價值及出售事項所得款項之任何差異，於損益賬中確認。

當對聯營公司或合營企業的投資被分類為持作出售時，則根據國際財務報告準則第5號持有待售之非流動資產及已終止業務進行處理。

業務合併及商譽

業務合併使用收購法入賬。所轉讓代價按收購日期的公允價值計量，即本集團轉讓的資產、本集團向原擁有人承擔的負債及本集團為交換被收購方控制權而發行的股權於收購日期的公允價值總和。就各業務合併而言，本集團選擇被收購方中屬於現時擁有權且令持有人可在被收購方清盤時獲得該實體一定份額的非控股權益，按公允價值或按佔被收購方的可識別資產淨值的比例計量。非控股權益的所有其他部分按公允價值確認。收購相關成本於產生時列為開支。

當本集團收購業務時，其評估金融資產及所承擔負債，以按照合約條款、收購日期的經濟情況及相關狀況進行適當分類及指定。這包括將被收購方主合約中的嵌入式衍生工具分開。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Business combinations and goodwill (Continued)

If the business combination is achieved in stages, the previously held equity interest is remeasured at its acquisition date fair value and any resulting gain or loss is recognised in profit or loss.

Any contingent consideration to be transferred by the acquirer is recognised at fair value at the acquisition date. Contingent consideration classified as an asset or liability is measured at fair value with changes in fair value recognised in profit or loss. Contingent consideration that is classified as equity is not remeasured and subsequent settlement is accounted for within equity.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred, the amount recognised for non-controlling interests and any fair value of the Group's previously held equity interests in the acquiree over the identifiable net assets acquired and liabilities assumed. If the sum of this consideration and other items is lower than the fair value of the net assets acquired, the difference is, after reassessment, recognised in profit or loss as a gain on bargain purchase.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. Goodwill is tested for impairment annually or more frequently if events or changes in circumstances indicate that the carrying value may be impaired. The Group performs its annual impairment test of goodwill as at 31 December. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units, or groups of cash-generating units, that are expected to benefit from the synergies of the combination, irrespective of whether other assets or liabilities of the Group are assigned to those units or groups of units.

2.4 主要會計政策概要(續)

業務合併及商譽(續)

倘業務合併分階段實現，早前持有的股權按收購日期的公允價值重新計量，因此產生的任何收益或虧損於損益確認。

收購方將予轉讓的任何或然代價乃按收購日期的公允價值確認。分類為資產或負債的或然代價按公允價值計量，公允價值變動於損益確認。分類為權益的或然代價不予重新計量，而其後結算於權益入賬。

商譽初步按成本(即所轉讓代價、就非控股權益確認的金額及本集團先前於被收購方持有的股權公允價值的總額，超出所收購可識別資產淨值及所承擔負債的部分)計量。倘該代價與其他項目的總和低於所收購淨資產的公允價值，差額經重新評估後於損益確認為議價購買收益。

於初步確認後，商譽按成本減任何累計減值虧損入賬。商譽每年進行減值測試，倘有事件或情況變化表明賬面值可能減值，則更頻繁地進行減值測試。本集團於12月31日對商譽進行年度減值測試。就減值測試而言，業務合併中收購的商譽自收購日期起分配至預期受益於合併協同效益的本集團各現金產生單位或現金產生單位組別(不論本集團其他資產或負債是否分配予該等單位或單位組別)。

31 December 2019

2019年12月31日

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**Business combinations and goodwill (Continued)**

Impairment is determined by assessing the recoverable amount of the cash-generating unit (group of cash-generating units) to which the goodwill relates. Where the recoverable amount of the cash-generating unit (group of cash-generating units) is less than the carrying amount, an impairment loss is recognised. An impairment loss recognised for goodwill is not reversed in a subsequent period.

Where goodwill has been allocated to a cash-generating unit (or group of cash-generating units) and part of the operation within that unit is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on the disposal. Goodwill disposed of in these circumstances is measured based on the relative value of the operation disposed of and the portion of the cash-generating unit retained.

Fair value measurement

The Group measures its investment properties, derivative financial instruments and equity investments at fair value at the end of each reporting period. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability, or in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible by the Group. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

2.4 主要會計政策概要(續)**業務合併及商譽(續)**

減值透過評估商譽涉及的現金產生單位(現金產生單位組別)的可收回金額而釐定。倘現金產生單位(現金產生單位組別)的可收回金額低於賬面值，則確認減值虧損。就商譽確認的減值虧損不會於隨後期間撥回。

倘商譽分配予現金產生單位(或現金產生單位組別)，且該單位內部分經營被出售，則與被出售經營有關的商譽在釐定出售收益或虧損時計入經營的賬面值。在該等情況下，被出售的商譽基於所出售經營及所保留現金產生單位部分的相對價值計量。

公允價值計量

本集團於各報告期末按公允價值計量其投資物業、衍生金融工具及權益投資。公允價值指於計量日期之市場參與者之間之有序交易中，就出售資產所收取之價格或轉讓負債所支付之價格。公允價值計量乃基於假設出售資產或轉讓負債之交易於資產或負債之主要市場，或在未有主要市場之情況下，則於資產或負債之最有市場進行。主要或最有市場須位於本集團能到達之地方。資產或負債之公允價值乃使用市場參與者為資產或負債定價所用之假設計量(假設市場參與者依照彼等之最佳經濟利益行事)。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fair value measurement (Continued)

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 – based on quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2 – based on valuation techniques for which the lowest level input that is significant to the fair value measurement is observable, either directly or indirectly
- Level 3 – based on valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by reassessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

2.4 主要會計政策概要(續)

公允價值計量(續)

非金融資產之公允價值計量乃經計及一名市場參與者透過使用其資產之最高及最佳用途或透過將資產出售予將使用其最高及最佳用途之另一名市場參與者而能夠產生經濟利益之能力。

本集團使用適用於不同情況之估值技術，而具有足夠數據計量公允價值，以盡量利用相關可觀察輸入數據及盡量減少使用不可觀察輸入數據。

於財務報表計量或披露公允價值之所有資產及負債，均根據對公允價值計量整體而言屬重要之最低層輸入數據在下述公允價值等級架構內進行分類：

- 第1級 — 按相同資產或負債於活躍市場之報價(未經調整)計算
- 第2級 — 按估值技巧計算(對公允價值計量而言屬重要之最低層輸入數據為可直接或間接觀察)
- 第3級 — 按估值技巧計算(對公允價值計量而言屬重要之最低層輸入數據為不可觀察)

就按經常性基準於財務報表確認之資產及負債而言，本集團於每個報告期末通過重新評估分類(基於對公允價值計量整體而言屬重大之最低層輸入數據)以決定等級架構內各層之間是否有轉移。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Impairment of non-financial assets

Where an indication of impairment exists, or when annual impairment testing for an asset is required (other than inventories, contract assets, deferred tax assets, financial assets, investment properties and non-current assets/a disposal group classified as held for sale), the asset's recoverable amount is estimated. An asset's recoverable amount is the higher of the asset's or cash-generating unit's value in use and its fair value less costs of disposal, and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets, in which case the recoverable amount is determined for the cash-generating unit to which the asset belongs.

An impairment loss is recognised only if the carrying amount of an asset exceeds its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. An impairment loss is charged to the statement of profit or loss in the period in which it arises in those expense categories consistent with the function of the impaired asset.

An assessment is made at the end of each reporting period as to whether there is an indication that previously recognised impairment losses may no longer exist or may have decreased. If such an indication exists, the recoverable amount is estimated. A previously recognised impairment loss of an asset other than goodwill is reversed only if there has been a change in the estimates used to determine the recoverable amount of that asset, but not to an amount higher than the carrying amount that would have been determined (net of any depreciation/amortisation) had no impairment loss been recognised for the asset in prior years. A reversal of such an impairment loss is credited to the statement of profit or loss in the period in which it arises, unless the asset is carried at a revalued amount, in which case the reversal of the impairment loss is accounted for in accordance with the relevant accounting policy for that revalued asset.

2.4 主要會計政策概要(續)

非金融資產的減值

倘出現減值跡象或須對資產(不包括存貨、合約資產、遞延稅項資產、金融資產、投資物業及非流動資產/分類為持作出售的出售組別)進行年度減值測試,則會估計資產的可收回金額。資產的可收回金額乃資產或現金產生單位使用價值與其公允價值減出售成本兩者中的較高者,並且就個別資產釐定,如果資產並不產生大部分獨立於其他資產或資產組合的現金流入,在該情況下,可收回金額則按資產所屬的現金產生單位釐定。

減值虧損僅於資產賬面值超過其可收回金額時確認。評估使用價值時,估計未來現金流量乃以反映貨幣時間值及資產特定風險的除稅前貼現率貼現至其現值。減值虧損於其產生之期間在損益表中支銷,並計入與減值資產之功能一致之有關費用類別內。

於各報告期末,會就是否有任何跡象顯示先前確認之減值虧損不再存在或可能已減少作出評估。倘有該等跡象,便會估計可收回金額。先前就資產(不包括商譽)確認之減值虧損,僅於用以釐定該資產之可收回金額之估計有變時予以撥回,但撥回金額不得高於假設過往年度並無就該資產確認減值虧損而應有之賬面值(扣除任何折舊/攤銷)。此減值虧損之撥回計入發生當期之損益表內,除非資產以重估金額入賬,於此情況下,則減值虧損撥回將根據該重估資產的相關會計政策入賬。

Property, plant and equipment and depreciation

Property, plant and equipment, other than construction in progress, are stated at cost less accumulated depreciation and any impairment losses. When an item of property, plant and equipment is classified as held for sale or when it is part of a disposal group classified as held for sale, it is not depreciated and is accounted for in accordance with IFRS 5, as further explained in the accounting policy for "Non-current assets and disposal groups held for sale". The cost of an item of property, plant and equipment comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use.

Expenditure incurred after items of property, plant and equipment have been put into operation, such as repairs and maintenance, is normally charged to the statement of profit or loss in the period in which it is incurred. In situations where the recognition criteria are satisfied, the expenditure for a major inspection is capitalised in the carrying amount of the asset as a replacement. Where significant parts of property, plant and equipment are required to be replaced at intervals, the Group recognises such parts as individual assets with specific useful lives and depreciates them accordingly.

物業、廠房及設備及折舊

物業、廠房及設備(在建工程除外)按成本減去累計折舊和任何減值虧損入賬。倘物業、廠房及設備被分類為持作出售或屬於分類為持作出售之待售組別其中部分，則毋須折舊，並按國際財務報告準則第5號入賬(詳見「持作出售之非流動資產及待售組別」之會計政策)。物業、廠房及設備項目之成本包括其購買價格和將資產運抵指定地點並使其達到能夠按照預定之方式進行運作狀態之任何直接可歸屬成本。

物業、廠房及設備項目投入運行後產生之開支，如維修和保養，通常在開支發生當期之損益表中扣除。倘符合確認標準，主要檢查之開支於資產賬面值中資本化為重置成本。倘物業、廠房及設備之重要部分須不時更換，則本集團將該等部分確認為具有特定使用年限之個別資產並相應對其計提折舊。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Property, plant and equipment and depreciation (Continued)

Depreciation is calculated on the straight-line basis to write off the cost of each item of property, plant and equipment to its residual value over its estimated useful life. The principal annual rates used for this purpose are as follows:

Buildings	2% to 5%
Hotel properties	5%
Plant and machinery	10%–19%
Motor vehicles	24%
Furniture and fixtures	19%–32%
Leasehold improvements	Over the shorter of the lease terms and 20%

Where parts of an item of property, plant and equipment have different useful lives, the cost of that item is allocated on a reasonable basis among the parts and each part is depreciated separately. Residual values, useful lives and the depreciation method are reviewed, and adjusted if appropriate, at least at each financial year end.

An item of property, plant and equipment including any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss on disposal or retirement recognised in the statement of profit or loss in the year the asset is derecognised is the difference between the net sales proceeds and the carrying amount of the relevant asset.

Construction in progress represents a building under construction, which is stated at cost less any impairment losses, and is not depreciated. Cost comprises the direct costs of construction and capitalised borrowing costs on related borrowed funds during the period of construction. Construction in progress is reclassified to the appropriate category of property, plant and equipment when completed and ready for use.

2.4 主要會計政策概要(續)

物業、廠房及設備及折舊(續)

物業、廠房及設備各項目在採用直線法計算折舊之估計使用期限內撇銷其成本至其殘值。就此目的之比率如下：

樓宇	2%–5%
酒店物業	5%
廠房及機器	10%–19%
汽車	24%
傢俬及裝置	19%–32%
租賃物業裝修	租賃年期及20% (以較短者為準)

如果某項物業、廠房及設備項目其中部分的可使用年期不同，該項目的成本會按合理基準分配至有關部分，而各部分均分開計提折舊。剩餘價值、可使用年期及折舊方法將至少於各財政年度末檢討及按需要作出調整。

物業、廠房及設備項目(包括任何初次確認的重大部分)於出售或預期使用或出售有關項目不會產生未來經濟利益時取消確認。於取消確認資產年度在損益表確認的出售或報廢資產的收益或虧損，為出售有關資產所得款項淨額與其賬面值兩者間的差額。

在建工程指在建的樓宇，按成本減任何減值虧損列賬且不作折舊。成本包括建設期內的直接建設成本及相關借入資金的資本化借款成本。當在建工程完成並可使用時，將被重新分類至適當物業、廠房及設備類別。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment properties

Investment properties are interests in land and buildings (including the leasehold property held as a right-of-use asset (2018: leasehold property under an operating lease) which would otherwise meet the definition of an investment property) held to earn rental income and/or for capital appreciation, rather than for use in the production or supply of goods or services or for administrative purposes; or for sale in the ordinary course of business. Such properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at fair value, which reflects market conditions at the end of the reporting period.

Gains or losses arising from changes in the fair values of investment properties are included in the statement of profit or loss in the year in which they arise.

Any gains or losses on the retirement or disposal of an investment property are recognised in the statement of profit or loss in the year of the retirement or disposal.

For a transfer from investment properties to owner-occupied properties or inventories, the deemed cost of a property for subsequent accounting is its fair value at the date of change in use. If a property occupied by the Group as an owner-occupied property becomes an investment property, the Group accounts for such property in accordance with the policy stated under "Property, plant and equipment and depreciation" for owned property and/or accounts for such property in accordance with the policy stated under "Right-of-use assets" for property held as a right-of-use asset up to the date of change in use, and any difference at that date between the carrying amount and the fair value of the property is accounted for as a revaluation in accordance with the policy stated under "Property, plant and equipment and depreciation" above. For a transfer from inventories to investment properties, any difference between the fair value of the property at that date and its previous carrying amount is recognised in the statement of profit or loss.

2.4 主要會計政策概要(續)

投資物業

投資物業指為賺取租金收入及／或資本增值而持有的土地及樓宇權益(包括符合投資物業定義的持作使用權資產的租賃物業(2018年：經營租賃下的租賃物業))，但不包括用作生產或供應貨品或提供服務或行政管理用途者；或在日常業務過程中出售的土地及樓宇權益。該等物業初步按成本(包括交易成本)計量。首次確認後，投資物業按公允價值列賬，其反映報告期間末之市況。

投資物業公允價值變動產生的收益或虧損列入產生年度的損益表。

報廢或出售投資物業之任何收益或虧損於報廢或出售期間於損益表內確認。

對於從投資物業到自置物業或存貨的轉移，其後續會計處理的視同成本是其使用改變之日的公允價值。如果本集團作為自置物業所有者佔有的物業成為投資物業，則本集團按照「物業，廠房及設備及折舊」中規定的政策對擁有的物業和／或該物業根據「使用權資產」中規定的政策進行會計處理，持有至使用變更之日為止作為使用權資產的物業，以及該日物業賬面價值與公允價值之間的差額根據上述「物業，廠房及設備及折舊」中所述的政策，將該物業記為重估。對於從存貨到投資物業的轉移，在該日期的物業公允價值與其先前的賬面價值之間的任何差額均在損益表中確認。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Properties under development

Properties under development are intended to be held for sale after completion.

Properties under development are stated at the lower of cost comprising land costs, construction costs, borrowing costs, professional fees and other costs directly attributable to such properties incurred during the development period and net realisable value.

Properties under development are classified as current assets unless those will not be realised in the normal operating cycle. On completion, the properties are transferred to completed properties held for sale.

Completed properties held for sale

Completed properties held for sale are stated in the statement of financial position at the lower of cost and net realisable value. Cost is determined by an apportionment of the total costs of land and buildings attributable to the unsold properties. Net realisable value takes into account the price ultimately expected to be realised, less estimated costs to be incurred in selling the properties.

Allocation of property development cost

Land costs are allocated to each unit according to their respective saleable gross floor area ("GFA") to the total saleable GFA. Construction costs relating to units were identified and allocated specifically. Common construction costs have been allocated according to the saleable GFA similar to land costs.

2.4 主要會計政策概要(續)

開發中物業

開發中物業擬於落成後持作待售。

開發中物業按成本與可變現淨值之較低者列賬，成本包括土地成本、建築成本、借貸成本、專業費用及於發展期內與有關物業直接相關的其他成本。

除非開發中物業不會於一個正常營運週期內落成，否則相關開發中物業分類為流動資產。物業於落成時轉至持作待售的已竣工物業。

持作出售的已完工物業

持作出售的已完工物業按成本與可變現淨值兩者之較低者於財務狀況表列賬。成本按未售物業應佔土地及樓宇成本總額的分攤比例釐定，可變現淨值按預期最終將變現的價格減出售物業產生的估計成本計算。

分配物業開發成本

土地成本根據各單位的可售建築面積(「建築面積」)佔可售總建築面積的比例分配至各單位。單位相關建築成本按個別情況識別及分配。一般建築成本按與土地成本相若的方式根據可售建築面積分配。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**Intangible assets (other than goodwill)**

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is the fair value at the date of acquisition. The useful lives of intangible assets are assessed to be either finite or indefinite. Intangible assets with finite lives are subsequently amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at each financial year end.

Leases (applicable from 1 January 2019)

The Group assesses at contract inception whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Group as a lessee

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

At inception or on reassessment of a contract that contains a lease component and non-lease component(s), the Group adopts the practical expedient not to separate non-lease component(s) and to account for the lease component and the associated non-lease component(s) (e.g., property management services for leases of properties) as a single lease component.

2.4 主要會計政策概要(續)**無形資產(商譽除外)**

分開購入的無形資產於初次確認時按成本計量。於業務合併購入無形資產之成本為於收購日期之公允價值。無形資產的可使用年期被評估為有限或無限。可使用年期有限的無形資產其後在可用的經濟年期內攤銷，並在有跡象顯示無形資產可能已減值時進行減值評估。可使用年期有限的無形資產的攤銷期和攤銷法至少於各財政年度末作檢討。

租賃(由2019年1月1日起適用)

本集團在合約開始時評估合約是否為租賃或包含租賃。若合約表明在一段時間內為換取代價而擁有控制一項已識別資產的使用權，則該合約為租賃或包含租賃。

本集團作為承租人

本集團對所有租賃採用單一確認及計量方法(短期租賃及低價值資產租賃除外)。本集團確認租賃負債以作出租賃付款及使用權資產(代表使用相關資產的權利)。

於訂立或重新評估包含租賃組成部分及非租賃組成部分的合同時，本集團採用實際權宜之計，不對非租賃組成部分進行分離，並考慮租賃組成部分及相關的非租賃組成部分(例如，用於物業租賃的物業管理服務)作為單個租賃組成部分。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Leases (applicable from 1 January 2019) (Continued) Group as a lessee (Continued)

(a) Right-of-use assets

Right-of-use assets are recognised at the commencement date of the lease (that is the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and any impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Where applicable, the cost of a right-of-use asset also includes an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease terms and the estimated useful lives of the assets as follows:

Leasehold land	40 years
Office	1 to 5 years

If ownership of the leased asset transfers to the Group by the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

When the right-of-use assets relate to interests in leasehold land held as inventories, they are subsequently measured at the lower of cost and net realisable value in accordance with the Group's policy for "inventories". When a right-of-use asset meets the definition of investment property, it is included in investment properties. The corresponding right-of-use asset is initially measured at cost, and subsequently measured at fair value, in accordance with the Group's policy for "investment properties".

2.4 主要會計政策概要(續)

租賃(由2019年1月1日起適用)(續) 本集團作為承租人(續)

(a) 使用權資產

使用權資產在租賃開始日(即相關資產可供使用之日)確認。使用權資產按成本減去任何累計折舊和任何減值損失後的金額進行計量,並根據租賃負債的重新計量進行調整。使用權資產的成本包括已確認的租賃負債金額,已發生的初始直接成本以及在開始日期或之前支付的租賃付款額減已收到的任何租賃激勵措施。在適用的情況下,使用權資產的成本還包括拆除和移除相關資產或恢復相關資產或資產所在地點的成本估算。使用權資產按租賃期和資產的估計使用壽命中的較短者按直線法計提折舊:

租賃土地	40年
辦公室	1至5年

如果租賃資產的所有權在租賃期結束時轉移至本集團或成本反映了購買期權的行使,則使用資產的估計使用壽命計算折舊。

當使用權資產與作為存貨持有的租賃土地的權益相關時,彼等其後根據本集團的「存貨」政策按成本與可變現淨值的較低者計量。當使用權資產符合投資物業的定義時,則計入投資物業中。相應的使用權資產初始按成本計量,其後根據本集團的「投資物業」政策按公允價值計量。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**Leases (applicable from 1 January 2019) (Continued)****Group as a lessee (Continued)***(b) Lease liabilities*

Lease liabilities are recognised at the commencement date of the lease at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for termination of a lease, if the lease term reflects the Group exercising the option to terminate. The variable lease payments that do not depend on an index or a rate are recognised as an expense in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in lease payments (e.g., a change to future lease payments resulting from a change in an index or rate) or a change in assessment of an option to purchase the underlying asset.

2.4 主要會計政策概要(續)**租賃(由2019年1月1日起適用)(續)****本集團作為承租人(續)***(b) 租賃負債*

於租賃開始日期按租賃期內將作出的租賃付款現值確認租賃負債。租賃付款包括固定付款(包括實質固定付款)減任何租賃優惠應收款項、取決於指數或利率的可變租賃款項以及預期根據剩餘價值擔保支付的金額。租賃付款亦包括本集團合理確定行使的購買選擇權的行使價及支付終止租賃的罰款(倘租賃條款反映本集團行使選擇權終止租賃)。並非取決於指數或利率的可變租賃付款在出現導致付款的事件或條件所發生期間內確認為開支。

於計算租賃付款的現值時，倘租賃中所隱含的利率不易確定，則本集團於租賃開始日期使用增量借貸利率。於開始日期後，租賃負債金額的增加反映了利息的增長及減少租賃付款。此外，倘存租賃期的修改、租賃付款變動(例如：由指數或利率變動引致的未來租賃付款變動)或購買相關資產期權的評估變動，則重新計量租賃負債的賬面值。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Leases (applicable from 1 January 2019) (Continued) *Group as a lessee (Continued)*

(c) *Short-term leases and leases of low-value assets*

The Group applies the short-term lease recognition exemption to its short-term leases of machinery and equipment (that is those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the recognition exemption for leases of low-value assets to leases of office equipment and laptop computers that are considered to be of low value.

Lease payments on short-term leases and leases of low-value assets are recognised as an expense on a straight-line basis over the lease term.

Group as a lessor

When the Group acts as a lessor, it classifies at lease inception (or when there is a lease modification) each of its leases as either an operating lease or a finance lease.

Leases in which the Group does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. When a contract contains lease and non-lease components, the Group allocates the consideration in the contract to each component on a relative stand-alone selling price basis. Rental income is accounted for on a straight-line basis over the lease terms and is included in revenue in the statement of profit or loss due to its operating nature. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

Leases that transfer substantially all the risks and rewards incidental to ownership of an underlying asset to the lessee, are accounted for as finance leases.

(c) *短期租賃和低價值資產租賃*

本集團對其機械設備的短期租賃(即自開始之日起租賃期為12個月或更短且不包含購買期權的租賃)採用短期租賃確認豁免。它還將低價值資產租賃的確認豁免應用於被認為具有低價值的辦公設備和手提電腦的租賃。

短期租賃和低價值資產租賃的租賃付款在租賃期內按直線法確認為費用。

本集團作為出租人

當本集團作為出租人時，在租賃開始時(或發生租賃變更時)將其每個租賃分類為經營租賃或融資租賃。

本集團實質上不轉移與資產所有權有關的全部風險和報酬的租賃分類為經營租賃。當合同包含租賃和非租賃組成部分時，本集團以相對獨立的銷售價格為基礎將合同中的對價分配給每個組成部分。租金收入在租賃期內按直線法入賬，由於其經營性質，計入當期損益表收益。協商和安排經營租賃所發生的初始直接費用被加到租賃資產的賬面價值中，並在租賃期內以與租金收入相同的基礎確認。或然租金在賺取期間確認為收益。

實質上將與相關資產所有權有關的所有風險和報酬轉移給承租人的租賃，作為融資租賃入賬。

When the Group is an intermediate lessor, a sublease is classified as a finance lease or operating lease with reference to the right-of-use asset arising from the head lease. If the head lease is a short-term lease to which the Group applies the on-balance sheet recognition exemption, the Group classifies the sublease as an operating lease.

Leases (applicable before 1 January 2019)

Leases that transfer substantially all the rewards and risks of ownership of assets to the Group, other than legal title, are accounted for as finance leases. At the inception of a finance lease, the cost of the leased asset is capitalised at the present value of the minimum lease payments and recorded together with the obligation, excluding the interest element, to reflect the purchase and financing. Assets held under capitalised finance leases, including prepaid land lease payments under finance leases, are included in property, plant and equipment, and depreciated over the shorter of the lease terms and the estimated useful lives of the assets. The finance costs of such leases are charged to the statement of profit or loss so as to provide a constant periodic rate of charge over the lease terms.

Assets acquired through hire purchase contracts of a financing nature are accounted for as finance leases, but are depreciated over their estimated useful lives.

Leases where substantially all the rewards and risks of ownership of assets remain with the lessor are accounted for as operating leases. Where the Group is the lessor, assets leased by the Group under operating leases are included in non-current assets, and rentals receivable under the operating leases are credited to the statement of profit or loss on the straight-line basis over the lease terms. Where the Group is the lessee, rentals payable under operating leases net of any incentives received from the lessor are charged to the statement of profit or loss on the straight-line basis over the lease terms.

2.4 主要會計政策概要(續)**租賃(由2019年1月1日起適用)(續)****本集團作為出租人(續)**

當本集團為中介出租人時，轉租參照主要租賃產生的使用權資產分類為融資租賃或經營租賃。如果總租約是本集團對其資產負債表內確認豁免適用的短期租約，則本集團將轉租分類為經營租約。

租賃(於2019年1月1日前適用)

凡將資產所有權(法定所有權除外)大部分回報及風險撥歸本集團的租賃均列為融資租賃。融資租賃訂定時，租賃資產的成本將按最低租金付款的現值資本化，並連同反映購買及融資的債務(不包括利息部分)入賬。以資本化融資租賃持有的資產(包括融資租賃項下預付土地租賃款項)包括在物業、廠房及設備項下，並按租約期或資產的估計可使用年期兩者中較短者計算折舊。上述租賃的融資成本於損益表扣減，以在租約期按固定比率扣除。

通過具有融資性質的租購合約收購的資產乃列作融資租賃，有關資產乃按估計可使用年期予以折舊。

資產所有權之絕大部分回報與風險仍歸於出租人之租賃列作經營租賃。倘本集團為出租人，由本集團以經營租賃出租的資產乃計入非流動資產，而經營租賃的應收租金按租約年期以直線法計入損益表。倘本集團為承租人，則經營租賃之應付租金(扣除出租人給予之優惠)按照租期以直線法在損益表扣除。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Leases (applicable before 1 January 2019) (Continued)

Prepaid land lease payments under operating leases are initially stated at cost and subsequently recognised on the straight-line basis over the lease terms.

When the lease payments cannot be allocated reliably between the land and buildings elements, the entire lease payments are included in the cost of the land and buildings as a finance lease in property, plant and equipment.

Investments and other financial assets

Initial recognition and measurement

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, fair value through other comprehensive income, and fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient of not adjusting the effect of a significant financing component, the Group initially measures a financial asset at its fair value plus in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient are measured at the transaction price determined under IFRS 15 in accordance with the policies set out for "Revenue recognition" below.

In order for a financial asset to be classified and measured at amortised cost or fair value through other comprehensive income, it needs to give rise to cash flows that are solely payments of principal and interest ("SPPI") on the principal amount outstanding. Financial assets with cash flows that are not SPPI are classified and measured at fair value through profit or loss, irrespective of the business model.

根據經營租賃預付的土地租金首次乃成本列賬，而隨後則按租期以直線法確認。

租金不可於土地及樓宇部分可靠地分配時，全部租金作為物業、廠房及設備的融資租賃於土地及樓宇的成本中列賬。

投資及其他金融資產

初始確認及計量

金融資產於初步確認時分類，其後按攤銷成本計量，並按公允價值計入其他全面收入及公允價值計入損益。

初步確認時的金融資產分類取決於金融資產的合約現金流量特徵以及本集團管理彼等的業務模式。除了並不包含顯著的融資組成部份或本集團已就此應用簡易處理方法而非調整重大融資組成部分影響，本集團初始按公允價值加上(倘金融資產並非按公允價值計入損益)交易成本計量金融資產。不含重大融資組成部分或本集團已採用實際權宜之方法的貿易應收款項，根據下文「收益確認」所載之政策，根據國際財務報告準則第15號釐定之交易價格計量。

為使金融資產按攤銷成本進行分類及計量，需就未償還本金產生「純粹支付本金及利息」的現金流量。現金流量不是純粹支付本金及利息的金融資產被分類並按公允價值計入損益，而與業務模型無關。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investments and other financial assets (Continued)

Initial recognition and measurement (Continued)

The Group's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both. Financial assets classified and measured at amortised cost are held within a business model with the objective to hold financial assets in order to collect contractual cash flows, while financial assets classified and measured at fair value through other comprehensive income are held within a business model with the objective of both holding to collect contractual cash flows and selling. Financial assets which are not held within the aforementioned business models are classified and measured at fair value through profit or loss.

All regular way purchases and sales of financial assets are recognised on the trade date, that is, the date that the Group commits to purchase or sell the asset. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the marketplace.

Subsequent measurement

The subsequent measurement of financial assets depends on their classification as follows:

Financial assets at amortised cost (debt instruments)

Financial assets at amortised cost are subsequently measured using the effective interest method and are subject to impairment. Gains and losses are recognised in the statement of profit or loss when the asset is derecognised, modified or impaired.

本集團管理金融資產的業務模式指其如何管理其金融資產以產生現金流量。業務模式確定現金流量是否來自收集合約現金流量、出售金融資產，或兩者兼有。以攤銷成本分類和計量的金融資產被保存在一種商業模型中，其目的是持有金融資產以收集合同現金流量，而按公允價值計入其他全面收入的金融資產則被保存在一種商業模型中，既收取合同現金流量並且出售作為目的。不屬於上述業務模式的金融資產，按照公允價值計入損益。

所有一般買賣之金融資產於交易日確認，即本集團承諾購買或出售該資產之日。一般買賣指須按照市場一般設立之規定或慣例在一定期間內交付資產之金融資產買賣。

Subsequent measurement (Continued)

Financial assets at fair value through other comprehensive income (debt instruments)

For debt investments at fair value through other comprehensive income, interest income, foreign exchange revaluation and impairment losses or reversals are recognised in the statement of profit or loss and computed in the same manner as for financial assets measured at amortised cost. The remaining fair value changes are recognised in other comprehensive income. Upon derecognition, the cumulative fair value change recognised in other comprehensive income is recycled to the statement of profit or loss.

Financial assets designated at fair value through other comprehensive income (equity investments)

Upon initial recognition, the Group can elect to classify irrevocably its equity investments as equity investments designated at fair value through other comprehensive income when they meet the definition of equity under IAS 32 Financial Instruments: Presentation and are not held for trading. The classification is determined on an instrument-by-instrument basis.

Gains and losses on these financial assets are never recycled to the statement of profit or loss. Dividends are recognised as other income in the statement of profit or loss when the right of payment has been established, it is probable that the economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably, except when the Group benefits from such proceeds as a recovery of part of the cost of the financial asset, in which case, such gains are recorded in other comprehensive income. Equity investments designated at fair value through other comprehensive income are not subject to impairment assessment.

指定按公允價值計入其他全面收入的金融資產(權益投資)

於初步確認後，倘權益投資符合國際會計準則第32號金融工具：呈列項下的股權定義，且並非持作買賣，本集團可選擇不可撤回地將該權益投資分類為指定按公允價值計入其他全面收入的權益投資。分類乃按個別工具基準而釐定。

該等金融資產的收益及虧損永不回流損益表。倘股息付款權已確立，而股息相關經濟利益很可能流向本集團，且股息金額能可靠計量，則股息會於損益表確認為其他收入，惟倘本集團受惠於該等所得款項作為收回部分金融資產成本則作別論，在此情況下，有關收益會入賬為其他全面收入。指定按公允價值計入其他全面收入的權益投資無須進行減值評估。

Subsequent measurement (Continued)

Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss are carried in the statement of financial position at fair value with net changes in fair value recognised in the statement of profit or loss.

This category includes derivative instruments and equity investments which the Group had not irrevocably elected to classify at fair value through other comprehensive income. Dividends on equity investments classified as financial assets at fair value through profit or loss are also recognised as other income in the statement of profit or loss when the right of payment has been established, it is probable that the economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably.

A derivative embedded in a hybrid contract, with a financial liability or non-financial host, is separated from the host and accounted for as a separate derivative if the economic characteristics and risks are not closely related to the host; a separate instrument with the same terms as the embedded derivative would meet the definition of a derivative; and the hybrid contract is not measured at fair value through profit or loss. Embedded derivatives are measured at fair value with changes in fair value recognised in the statement of profit or loss. Reassessment only occurs if there is either a change in the terms of the contract that significantly modifies the cash flows that would otherwise be required or a reclassification of a financial asset out of the fair value through profit or loss category.

A derivative embedded within a hybrid contract containing a financial asset host is not accounted for separately. The financial asset host together with the embedded derivative is required to be classified in its entirety as a financial asset at fair value through profit or loss.

按公允價值計入損益的金融資產

按公允價值計入損益的金融資產乃於財務狀況表按公允價值列賬，而公允價值變動淨額則於損益表確認。

該類別包括本集團不可撤回地選擇按公允價值計入其他全面收入進行分類的衍生工具及權益投資。分類為按公允價值計入損益的金融資產的權益投資的股息亦在支付權確立時於損益確認為其他收入，與股息有關的經濟利益很大機會流入本集團，且能夠可靠計量股息金額。

當嵌入混合合約(包含金融負債及非金融主體)的衍生工具具備與主體不緊密相關的經濟特徵及風險；具備與嵌入式衍生工具相同條款的單獨工具符合衍生工具的定義；且混合合約並非按公允價值計入損益計量，則該衍生工具與主體分開並作為單獨衍生工具列賬。嵌入式衍生工具按公允價值計量，且其變動計入損益表。僅當合約條款出現變動，以致大幅改變其他情況下所須現金流量時或當原分類至按公允價值計入損益的金融資產獲重新分類時，方進行重新評估。

嵌入混合合約(包含金融資產主體)的衍生工具不得單獨列賬。金融資產主體連同嵌入式衍生工具須整體分類為按公允價值計入損益的金融資產。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Derecognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e., removed from the Group's consolidated statement of financial position) when:

- the rights to receive cash flows from the asset have expired; or
- the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risk and rewards of ownership of the asset. When it has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

2.4 主要會計政策概要(續)

終止確認金融資產

金融資產(或如適用,金融資產的一部分或一組類似金融資產的一部分)主要於以下情況終止確認(即從本集團的財務狀況表刪除):

- 自資產收取現金流量的權利已經屆滿;或
- 本集團已轉讓其自資產收取現金流量的權利或已承擔責任根據「轉讓」安排在並無重大延誤下將其全數支付予第三方;及(a)本集團已轉讓該資產的絕大部分風險及回報,或(b)本集團並無轉讓或保留該資產的絕大部分風險及回報,但已轉讓該產的控制權。

當本集團已轉讓其自資產收取現金流量的權利或已訂立轉讓安排,其會評估有否保留所有的風險及回報,以及其程度。當本集團並無轉讓或保留該資產的絕大部分風險及回報及並無轉讓該資產的控制權,本集團以本集團持續滲入程度為限繼續確認所轉讓資產。在此情況下,本集團亦確認相關負債。經轉讓資產及相關負債乃按反映本集團已保留的權利及責任為基準計量。

持續滲入乃以被轉讓資產作出的一項保證的形式出現,並以該項資產的原賬面值及本集團或須償還的代價數額上限(以較低者為準)計算。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Impairment of financial assets

The Group recognises an allowance for expected credit losses (“ECLs”) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

General approach

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12 months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

At each reporting date, the Group assesses whether the credit risk on a financial instrument has increased significantly since initial recognition. When making the assessment, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition and considers reasonable and supportable information that is available without undue cost or effort, including historical and forward-looking information.

2.4 主要會計政策概要(續)

金融資產減值

本集團確認對並非按公允價值計入損益的所有債務工具預期信貸虧損(「預期信貸虧損」)的撥備。預期信貸虧損乃基於根據合約到期的合約現金流量與本集團預期收取的所有現金流量之間的差額而釐定，並以原實際利率的近似值貼現。預期現金流量將包括出售所持抵押的現金流量或組成合約條款的其他信貸提升措施。

一般方法

預期信貸虧損分兩個階段進行確認。就自初步確認起未有顯著增加的信貸風險而言，預期信貸虧損提供予由未來十二個月內可能發生違約事件而導致的信貸虧損(十二個月預期信貸損失)。就自初步確認起經已顯著增加的信貸風險而言，不論何時發生違約，於餘下風險年期內的預期信貸虧損均須計提虧損撥備(存續期預期信貸虧損)。

本集團在各報告日期評估相關金融工具的信用風險自初始確認後是否已顯著增加。於作出評估時，本集團將報告日期金融工具出現違約事件之風險與初步確認日期金融工具出現違約事件之風險進行比較，並會考慮合理且可證實的資料(毋須過高成本或太多工序便可供查閱)，包括過往經驗及前瞻性資料。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Impairment of financial assets (Continued)

General approach (Continued)

For debt investments at fair value through other comprehensive income, the Group applies the low credit risk simplification. At each reporting date, the Group evaluates whether the debt investments are considered to have low credit risk using all reasonable and supportable information that is available without undue cost or effort. In making that evaluation, the Group reassesses the external credit ratings of the debt investments. In addition, the Group considers that there has been a significant increase in credit risk when contractual payments are more than 30 days past due.

The Group considers a financial asset in default when contractual payments are 90 days past due. However, in certain cases, the Group may also consider a financial asset to be in default when internal or external information indicates that the Group is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

Debt investments at fair value through other comprehensive income and financial assets at amortised cost are subject to impairment under the general approach and they are classified within the following stages for measurement of ECLs except for trade receivables and contract assets which apply the simplified approach as detailed below.

Stage 1 – Financial instruments for which credit risk has not increased significantly since initial recognition and for which the loss allowance is measured at an amount equal to 12-month ECLs

2.4 主要會計政策概要(續)

金融資產減值(續)

一般方法(續)

就按公允價值計入其他全面收入的債務投資，本集團採用低信用風險簡化措施。於各報告日，本集團使用所有無需花費過多成本或力量即可獲得的合理且可支持的信息，評估債務投資是否被認為具有較低的信用風險。在進行評估時，本集團重新評估了債務投資的外部信用評級。此外，本集團認為，當合同付款逾期超過30天時，信用風險顯著增加。

當合約付款已逾期90天，本集團會將金融資產視為違約。然而，在若干情況，在計及本集團所持的任何信貸增強時前，當內部或外部資料指出本集團不大可能悉數收回尚未償還合約金額，則本集團亦可能將金融資產視為違約。倘無法合理預期收回收約現金流量，則撇銷金融資產。

按公允價值計入其他全面收入的債務投資和以攤銷成本計量的金融資產在一般方法下會發生減值，並且在以下階段進行預期信貸損失的計量時分類，而應收貿易賬款和合同資產採用簡化方法的情況則除外，詳情如下：

第一階段 – 金融工具的信用風險自初始確認後並未顯著增加，且虧損撥備以等同於12個月預期信貸虧損的金額計量

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**Impairment of financial assets (Continued)***General approach (Continued)*

Stage 2 – Financial instruments for which credit risk has increased significantly since initial recognition but that are not credit-impaired financial assets and for which the loss allowance is measured at an amount equal to lifetime ECLs

Stage 3 – Financial assets that are credit-impaired at the reporting date (but that are not purchased or originated credit-impaired) and for which the loss allowance is measured at an amount equal to lifetime ECLs

Simplified approach

For trade receivables and contract assets that do not contain a significant financing component or when the Group applies the practical expedient of not adjusting the effect of a significant financing component, the Group applies the simplified approach in calculating ECLs. Under the simplified approach, the Group does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Group has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

For trade receivables and contract assets that contain a significant financing component and lease receivables, the Group chooses as its accounting policy to adopt the simplified approach in calculating ECLs with policies as described above.

第二階段 – 金融工具的信用風險自初始確認後顯著增加，惟其並非信貸減值的金融資產，其虧損撥備以等同於存續期預期信貸虧損的金額計量

第三階段 – 於報告日期信貸減值的金融資產(惟其並非購買或原信貸減值)，其虧損撥備以等同於存續期預期信貸虧損的金額計量

簡化方法

並無重大融資成分或本集團應用可行權宜方法不調整重大融資成分影響的貿易應收款項及合約資產，本集團應用簡化方法計算預期信貸虧損。根據簡化方法，本集團並無追蹤信貸風險的變動，而是根據各報告日期的存續期預期信貸虧損確認虧損撥備。本集團已建立撥備矩陣，乃根據其過往信貸虧損經驗評估預期虧損率，並按債務人特定的前瞻性因素及經濟環境作出調整。

就包括重大融資成分及應收租賃款項的貿易應收款項及合約資產而言，本集團於計算預期信貸虧損選擇採納上述政策所述之簡化方法作為其會計政策。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Group's financial liabilities include trade and other payables, an amount due to the ultimate holding company, derivative financial instruments and interest-bearing bank and other borrowings.

Subsequent measurement

The subsequent measurement of financial liabilities depends on their classification as follows:

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss.

Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationships as defined by IFRS 9. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments. Gains or losses on liabilities held for trading are recognised in the statement of profit or loss. The net fair value gain or loss recognised in the statement of profit or loss does not include any interest charged on these financial liabilities.

金融負債

初始確認及計量

金融負債在初始確認時分類為：按公允價值計入損益的金融負債、貸款及借款、應付款項，或在有效對沖中指定為對沖工具的衍生工具。

初步確認所有金融負債時，乃以公允價值及(倘屬貸款、借款及應付款項)扣除直接應佔交易成本計量。

本集團的金融負債包括貿易和其他應付款項，應付最終控股公司的款項，衍生金融工具以及計息銀行和其他借款。

後續計量

金融負債的後續計量取決於其分類，如下所示：

按公允價值計入損益的金融負債

按公允價值計入損益的金融負債包括交易性金融負債和初始確認時指定為按公允價值計入損益的金融負債。

倘產生金融負債的目的為於近期回購，則該金融負債分類為持作買賣。此分類包括本集團根據國際財務報告準則第9號所界定之對沖關係不被指定為對沖工具之衍生金融工具。獨立嵌入式衍生工具亦分類為持作買賣，除非其被指定為有效的對沖工具則另作別論。持作買賣的負債收益或虧損於損益表內確認。在損益表中確認的公允價值淨損益不包括對這些金融負債收取的任何利息。

Financial liabilities (Continued)

Subsequent measurement (Continued)

Financial liabilities at fair value through profit or loss (Continued)

Financial liabilities designated upon initial recognition as at fair value through profit or loss are designated at the initial date of recognition, and only if the criteria in IFRS 9 are satisfied. Gains or losses on liabilities designated at fair value through profit or loss are recognised in the statement of profit or loss, except for the gains or losses arising from the Group's own credit risk which are presented in other comprehensive income with no subsequent reclassification to the statement of profit or loss. The net fair value gain or loss recognised in the statement of profit or loss does not include any interest charged on these financial liabilities.

Financial liabilities at amortised cost (loans and borrowings)

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost, using the effective interest rate method unless the effect of discounting would be immaterial, in which case they are stated at cost. Gains and losses are recognised in the statement of profit or loss when the liabilities are derecognised as well as through the effective interest rate amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate. The effective interest rate amortisation is included in finance costs in the statement of profit or loss.

按公允價值計入損益的金融負債(續)

於初始確認時指定為按公允價值計入損益的金融負債在初始確認日期且僅在符合國際財務報告準則第9號項下標準時指定。指定為按公允價值計入損益的負債的損益在損益表中確認，惟本集團自身信用風險產生的損益在其他全面收入中列示，且其後不重新分類至損益表。在損益表中確認的公允價值淨損益不包括對這些金融負債收取的任何利息。

按攤銷成本列賬的金融負債(貸款和借款)

初始確認後，有息貸款和借款隨後採用實際利率法按攤銷成本進行計量，除非折現的影響不重大，在這種情況下以成本列示。終止確認負債時以及通過實際利率攤銷過程在損益表中確認損益。

攤銷成本的計算方法是考慮任何收購折價或溢價以及作為實際利率一部分的費用或成本。有效利率攤銷計入損益表中的融資成本。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial liabilities (Continued)

Subsequent measurement (Continued)

Financial guarantee contracts

Financial guarantee contracts issued by the Group are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. A financial guarantee contract is recognised initially as a liability at its fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequent to initial recognition, the Group measures the financial guarantee contracts at the higher of: (i) the ECL allowance determined in accordance with the policy as set out in "Impairment of financial assets"; and (ii) the amount initially recognised less, when appropriate, the cumulative amount of income recognised.

Derecognition of financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged or cancelled, or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and a recognition of a new liability, and the difference between the respective carrying amounts is recognised in the statement of profit or loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

金融負債(續)

後續計量(續)

財務擔保合約

本集團發行的財務擔保合約為要求作出付款以償付持有人因特定債務人未能根據債務工具的條款償還到期款項而招致的損失的合約。財務擔保合約初步按公允價值確認為一項負債，並就發行擔保直接產生的交易成本作出調整。於初步確認後，本集團按以下兩者的較高者計量財務擔保合約：(i)根據「金融資產減值」所載政策釐定的預期信貸虧損撥備；及(ii)初步確認的金額減(如適用)累計攤銷。

終止確認金融負債

當負債項目下的責任被解除或取消或屆滿，金融負債須予終止確認。

如現有金融負債由同一放債人以幾乎完全不同條款的負債所取代，或現有負債的條款實質上幾乎已完全修訂，此類取代或修訂將被視為終止確認原負債及確認新負債處理，而有關賬面值的差額須於損益表確認。

抵銷金融工具

倘目前有合法可強制執行權利抵銷已確認的金額，且有意按淨額基準支付或同時將資產變現及結算負債，則抵銷金融資產及金融負債，而其淨額須列於財務狀況表內。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**Inventories**

Inventories are stated at the lower of cost and net realisable value. Cost is determined on the first-in, first-out basis and, in the case of work in progress and finished goods, comprises direct materials, direct labour and an appropriate proportion of overheads. Net realisable value is based on estimated selling prices less any estimated costs to be incurred to completion and disposal.

Cash and cash equivalents

For the purpose of the consolidated statement of cash flows, cash and cash equivalents comprise cash on hand and demand deposits, and short term highly liquid investments that are readily convertible into known amounts of cash, are subject to an insignificant risk of changes in value, and have a short maturity of generally within three months when acquired, less bank overdrafts which are repayable on demand and form an integral part of the Group's cash management.

For the purpose of the consolidated statement of financial position, cash and cash equivalents comprise cash on hand and at banks, including term deposits, and assets similar in nature to cash, which are not restricted as to use.

Provisions

A provision is recognised when a present obligation (legal or constructive) has arisen as a result of a past event and it is probable that a future outflow of resources will be required to settle the obligation, provided that a reliable estimate can be made of the amount of the obligation.

When the effect of discounting is material, the amount recognised for a provision is the present value at the end of the reporting period of the future expenditures expected to be required to settle the obligation. The increase in the discounted present value amount arising from the passage of time is included in finance costs in the statement of profit or loss.

2.4 主要會計政策概要(續)**存貨**

存貨成本值及可變現淨值之較低者入賬。成本以先進先出的原則確定，就在製品和製成品而言，成本包括直接材料、直接人工和適當比例的間接費用。可變現淨值是基於估計的售價減去完成和處置所需的任何估計成本。

現金及現金等價物

就綜合現金流量表而言，現金及現金等價物包括手頭現金、活期存款及可隨時轉換為已知數額現金、價值變動風險極低及一般自購入後三個月內到期的短期高流動性投資，但須扣減應要求償還及構成本集團現金管理不可分割部分的銀行透支。

就綜合財務狀況表而言，現金及現金等價物由手頭現金及銀行現金組成，包括定期存款及與現金性質類似及用途不受限制的資產。

撥備

倘因過往事件須承擔現時責任(法定或推定)，而履行該責任可能導致未來資源外流，且該責任所涉金額能夠可靠估計，則確認撥備。

倘貼現影響重大，則確認撥備的金額為預期履行責任所需未來開支於報告期末的現值。貼現現值隨時間流逝而增加的金額，並計入損益表中的融資成本。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Income tax

Income tax comprises current and deferred tax. Income tax relating to items recognised outside profit or loss is recognised outside profit or loss, either in other comprehensive income or directly in equity.

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period, taking into consideration interpretations and practices prevailing in the countries in which the Group operates.

Deferred tax is provided, using the liability method, on all temporary differences at the end of the reporting period between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- when the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of taxable temporary differences associated with investments in subsidiaries, associates and joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

2.4 主要會計政策概要(續)

所得稅

所得稅包括即期和遞延稅項。與損益外確認的科目相關的所得稅不在損益確認，而在其他全面收入或直接在權益中確認。

即期稅項資產和負債以報告期末已頒佈或實質已頒佈的稅率(及稅法)，並考慮本集團運營所在國家的詮釋及慣例，按照預期自稅務機關收回或向稅務機關支付的金額進行計量。

遞延稅項使用負債法就報告期末資產及負債稅基與其作財務呈報的賬面值之間的一切暫時差額作出撥備。

所有應課稅暫時差額均確認為遞延稅項負債，除非：

- 遞延稅項負債是由商譽或不構成業務合併交易中的資產或負債的初始確認所產生，而在交易時既不影響會計利潤也不影響應課稅利潤或虧損；及
- 就有關附屬公司、合營企業及聯營公司投資所產生的應課稅暫時差額而言，撥回暫時差額的時間可受控制，而暫時差額於可預見的將來可能不會撥回。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**Income tax (Continued)**

Deferred tax assets are recognised for all deductible temporary differences, and the carryforward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, the carryforward of unused tax credits and unused tax losses can be utilised, except:

- when the deferred tax asset relating to the deductible temporary differences arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of deductible temporary differences associated with investments in subsidiaries, associates and joint ventures, deferred tax assets are only recognised to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at the end of each reporting period and are recognised to the extent that it has become probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

2.4 主要會計政策概要(續)**所得稅(續)**

所有可扣減暫時差額及未動用稅項抵免及任何未動用稅項虧損結轉，均被確認為遞延稅項資產。倘可能具有應課稅利潤抵銷可扣減暫時差額，以及可動用結轉的未動用稅項抵免及稅項虧損，則會確認遞延稅項資產，惟下述情況除外：

- 因有關可扣減暫時差額的遞延稅項資產源自初始確認一項交易（並非業務合併）中的資產或負債，而有關交易進行時既不影響會計利潤也不影響應課稅利潤或虧損；及
- 就有關附屬公司、聯營公司及合營企業投資所產生的可扣減暫時差額而言，遞延稅項資產僅於暫時差額於可預見的將來可能撥回，而且具有應課稅利潤用以抵銷暫時差額時，方會予以確認。

遞延稅項資產的賬面值於各報告期末進行審閱，並扣減至不再可能有足夠應課稅利潤以扣減所有或部分將予動用的遞延稅項資產為止。未確認遞延稅項資產於各報告期末重新評核，並於可能有足夠應課稅利潤以扣減所有或部分將予收回的遞延稅項資產時予以確認。

遞延稅項資產及負債以預期適用於資產變現或負債清還期間的稅率計量，並以報告期末已頒佈或實質已頒佈的稅率（及稅法）為基準。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Income tax (Continued)

Deferred tax assets and deferred tax liabilities are offset if and only if the Group has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

Government grants

Government grants are recognised at their fair value where there is reasonable assurance that the grant will be received and all attaching conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the costs, which it is intended to compensate, are expensed.

Where the grant relates to an asset, the fair value is credited to a deferred income account and is released to the statement of profit or loss over the expected useful life of the relevant asset by equal annual instalments or deducted from the carrying amount of the asset and released to the statement of profit or loss by way of a reduced depreciation charge.

Revenue recognition

Revenue from contracts with customers

Revenue from contracts with customers is recognised when control of goods or services is transferred to the customers at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services.

所得稅(續)

當及僅當本集團有在法律上可強制執行的權利將即期稅項資產與即期稅項負債抵銷，且遞延稅項資產及遞延稅項負債與同一稅務機關對同一應課稅實體或不同應課稅實體徵收的所得稅相關，而該等不同的應課稅實體於各未來期間預期有大額遞延稅項負債或資產將予結算或清償時，擬按淨額基準結算即期稅務負債及資產或同時變現資產及結算負債，則遞延稅項資產與遞延稅項負債可予抵銷。

政府補助

政府補助在合理確信可收取及一切附帶條件均可達成的情況下按其公允價值予以確認。倘補助涉及一項支出，則在與其擬補償而支銷相關成本的期間內，有系統地確認為收入。

當政府補助與某個資產項目相關聯時，公允價值先計入遞延收入賬，並根據相關資產之預期使用年期以年限平均法計入損益表，或者從資產的賬面值中減去並通過減少折舊費用的方式計入損益表。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Revenue recognition (Continued)

Revenue from contracts with customers (Continued)

When the consideration in a contract includes a variable amount, the amount of consideration is estimated to which the Group will be entitled in exchange for transferring the goods or services to the customer. The variable consideration is estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognised will not occur when the associated uncertainty with the variable consideration is subsequently resolved.

When the contract contains a financing component which provides the customer with a significant benefit of financing the transfer of goods or services to the customer for more than one year, revenue is measured at the present value of the amount receivable, discounted using the discount rate that would be reflected in a separate financing transaction between the Group and the customer at contract inception. When the contract contains a financing component which provides the Group a significant financial benefit for more than one year, revenue recognised under the contract includes the interest expense accreted on the contract liability under the effective interest method. For a contract where the period between the payment by the customer and the transfer of the promised goods or services is one year or less, the transaction price is not adjusted for the effects of a significant financing component, using the practical expedient in IFRS 15.

客戶合同收入(續)

當合同中的對價包括可變金額時，本集團將有權獲得對價以交換將商品或服務轉讓給客戶的金額。可變對價在合同開始時進行估計，並受到約束，直到很可能在隨後解決與可變對價相關的不確定性時，在確認的累計收入金額中不會發生重大的收入沖銷。

當合約中包含為客戶提供向其轉移貨品或服務超過一年的重大融資利益的融資部分時，收益按應收金額的現值計量，並以本集團與客戶之間於合約開始時的獨立融資交易所反映的折現率折現。當合約中包含為本集團提供超過一年的重大財務利益的融資部分時，根據合約確認的收益包括按實際利率法計算的合約負債所產生的利息開支。對於客戶付款與轉移承諾商品或服務之間的期限為一年或以下的合約，交易價格不會根據國際財務報告準則第15號的實際權宜方法就重大融資部分的影響而調整。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(a) Sale of properties

Revenues are recognised when or as the control of the asset is transferred to the purchaser. Depending on the terms of the contract and the laws that apply to the contract, control of the asset may transfer over time or at a point in time. Control of the asset is transferred over time if the Group's performance

- provides benefits which are received and consumed simultaneously by the purchaser; or
- creates and enhances an asset that the purchaser controls as the Group performs; or
- does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

If control of the asset transfers over time, revenue is recognised over the period of the contract by reference to the progress towards complete satisfaction of that performance obligation. Otherwise, revenue is recognised at a point in time when the purchaser obtains control of the asset.

The progress towards complete satisfaction of the performance obligation is measured based on the Group's efforts or inputs to the satisfaction of the performance obligation that best depict the Group's performance in satisfying the performance obligation.

In determining the transaction price, the Group adjusts the promised amount of consideration for the effect of a financing component if it is significant.

(a) 銷售物業

於資產控制權轉移至買方時確認收入。視乎合約條款及該合約的適用法例，資產控制權可在一段時間內或某一時間點轉移。倘本集團在履約過程中滿足下列各項，則資產控制權隨時間轉移：

- 本集團履約所帶來的利益由買家同時接收並消耗；或
- 本集團履約時創建及強化由買家控制的資產；或
- 並無創建一項對本集團具可替代用途的資產，且本集團就迄今為止已完成的履約有可強制執行的支付權利。

倘資產控制權隨時間轉移，收入會於整個合約期間經參考已完成履約責任的進度予以確認。否則，收入於買家取得資產控制權的時間點確認。

完成履約責任的進度乃基於本集團履行履約責任的支出或投入，經參考截至報告期末已產生的合約成本佔每份合約的估計總成本的百分比計量。

當存在重大融資成分時，本集團將會調整代價的承諾金額。

(b) Provision of management services

Revenue from the provision of management services is recognised over the scheduled period on a straight-line basis because the customer simultaneously receives and consumes the benefits provided by the Group.

Revenue from other sources

Rental income is recognised on a time proportion basis over the lease terms. Variable lease payments that do not depend on an index or a rate are recognised as income in the accounting period in which they are incurred.

Other income

Interest income is recognised on an accrual basis using the effective interest method by applying the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, when appropriate, to the net carrying amount of the financial asset.

Dividend income is recognised when the shareholders' right to receive payment has been established, it is probable that the economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Contract assets

A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Group performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional. Contract assets are subject to impairment assessment, details of which are included in the accounting policies for impairment of financial assets.

Contract liabilities

A contract liability is recognised when a payment is received or a payment is due (whichever is earlier) from a customer before the Group transfers the related goods or services. Contract liabilities are recognised as revenue when the Group performs under the contract (i.e., transfers control of the related goods or services to the customer).

Contract costs

Other than the costs which are capitalised as inventories, property, plant and equipment and intangible assets, costs incurred to fulfil a contract with a customer are capitalised as an asset if all of the following criteria are met:

- (a) The costs relate directly to a contract or to an anticipated contract that the entity can specifically identify.
- (b) The costs generate or enhance resources of the entity that will be used in satisfying (or in continuing to satisfy) performance obligations in the future.
- (c) The costs are expected to be recovered.

The capitalised contract costs are amortised and charged to the statement of profit or loss on a systematic basis that is consistent with the pattern of the revenue to which the asset related is recognised. Other contract costs are expensed as incurred.

2.4 主要會計政策概要(續)

合約資產

合約資產為收取向客戶轉讓貨物或服務作為交換的代價。倘本集團於客戶支付代價或付款到期前向客戶轉讓貨物或服務，則就所賺取的有條件代價確認合約資產。合約資產需要進行減值評估，其詳情包括在金融資產減值的會計政策中。

合約負債

當本集團轉移相關的商品或服務之前，收到客戶的款項或應付款(以較早者為準)時，確認合約負債。當本集團根據合約履行合約時(即將相關商品或服務的控制權轉讓給客戶)，合約負債確認為收益。

合約成本

除滿足以下所有條件的資本化作為存貨、物業、廠房和設備以及無形資產的費用外，與客戶履行合同產生的成本也資本化為資產：

- (a) 有關成本與實體可特定地識別之合約或預期訂立之合約有直接關係。
- (b) 有關成本令實體將用於完成(或持續完成)日後履約責任之資源得以產生或有所增加。
- (c) 有關成本預期可收回。

資本化合約成本按系統基準進行攤銷並自損益表中扣除，與確認相關資產的收益模式一致。其他合約成本於產生時列為開支。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Contract costs (Continued)

Incremental costs of obtaining a contract were those costs that the Group incurs to obtain a contract with a customer it would not have incurred if the contract had not been obtained e.g., commission to sales agents. Incremental costs of obtaining a contract are capitalised when incurred if the costs related to revenue which will be recognised in a future reporting period and the costs are expected to be recovered. Other costs of obtaining a contract are expense when incurred.

Share-based payments

The Company operates a share option scheme for the purpose of providing incentives and rewards to eligible participants who contribute to the success of the Group's operations. Employees (including directors) of the Group receive remuneration in the form of share-based payments, whereby employees render services as consideration for equity instruments ("equity-settled transactions").

The cost of equity-settled transactions with employees for grants is measured by reference to the fair value at the date at which they are granted. The fair value is determined by an external valuer using a binomial model, further details of which are given in note 31 to the financial statements.

The cost of equity-settled transactions is recognised in employee benefit expense, together with a corresponding increase in equity, over the period in which the performance and/or service conditions are fulfilled. The cumulative expense recognised for equity-settled transactions at the end of each reporting period until the vesting date reflects the extent to which the vesting period has expired and the Group's best estimate of the number of equity instruments that will ultimately vest. The charge or credit to the statement of profit or loss for a period represents the movement in the cumulative expense recognised as at the beginning and end of that period.

2.4 主要會計政策概要(續)

合約成本(續)

取得合約的增加成本是本集團為獲得與客戶簽訂的合約而產生的成本，如果未取得合約，則該等成本不會產生(例如：給予銷售經紀的佣金)。如果與收入有關的成本在以後的報告期中確認，並且預期將收回這些成本，則在發生時將取得合約的增量成本資本化。獲得合約的其他成本在發生時為費用。

以股份為基礎之付款

本公司設有購股權計劃，旨在給予為本集團業務成功作出貢獻之合資格參與者鼓勵及獎勵。本集團僱員(包括董事)按以股付款形式收取酬金，而僱員則提供服務作為股本工具之代價(「股權結算交易」)。

與僱員之股權結算交易之成本乃參考購股權授出之日之公允價值計算。外部估值師採用二項式模型釐訂公允價值，有關進一步詳情載於財務報表附註31。

在滿足表現及／或服務條件的期間，應確認股權結算交易費用為僱員福利開支，並同時相應增加權益。在股權結算交易於各報告期末至歸屬日期間確認之累計開支，反映所過去歸屬期以及本集團就最後歸屬之股本工具之數目之最佳估計。期內在損益表扣除或計入損益表之金額，指於該段期初及期終所確認之累計開支變動。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Share-based payments (Continued)

Service and non-market performance conditions are not taken into account when determining the grant date fair value of awards, but the likelihood of the conditions being met is assessed as part of the Group's best estimate of the number of equity instruments that will ultimately vest. Market performance conditions are reflected within the grant date fair value. Any other conditions attached to an award, but without an associated service requirement, are considered to be non-vesting conditions. Non-vesting conditions are reflected in the fair value of an award and lead to an immediate expensing of an award unless there are also service and/or performance conditions.

For awards that do not ultimately vest because non-market performance and/or service conditions have not been met, no expense is recognised. Where awards include a market or non-vesting condition, the transactions are treated as vesting irrespective of whether the market or non-vesting condition is satisfied, provided that all other performance and/or service conditions are satisfied.

Where the terms of an equity-settled award are modified, as a minimum an expense is recognised as if the terms had not been modified, if the original terms of the award are met. In addition, an expense is recognised for any modification that increases the total fair value of the share-based payments, or is otherwise beneficial to the employee as measured at the date of modification.

Where an equity-settled award is cancelled, it is treated as if it had vested on the date of cancellation, and any expense not yet recognised for the award is recognised immediately. This includes any award where non-vesting conditions within the control of either the Group or the employee are not met. However, if a new award is substituted for the cancelled award, and is designated as a replacement award on the date that it is granted, the cancelled and new awards are treated as if they were a modification of the original award, as described in the previous paragraph.

以股份為基礎之付款(續)

釐定於獎勵授出日之公允價值並無考慮服務及非市場表現條件，惟評定能達成條件之可能性部分在於為最終將歸屬為本集團權益工具之最佳估計數目。市場表現條件將反映在授出日之公允價值。附帶於獎勵中但並無相關聯服務要求之其他任何條件皆視為非歸屬條件。反映非歸屬條件之獎勵公允價值若當中不包含服務及／或表現條件，則須即時予以支銷。

因未能達至非市場表現及／或服務條件，而導致最終並無歸屬之獎勵並不會確認支銷。當獎勵包括一項市場或非歸屬條件，則無論市場或非歸屬條件是否達成，其均仍被視為歸屬，但必須符合所有其他表現及／或服務條件。

倘股權結算交易之條款被修訂，則確認最低開支，猶如條款未被修改及給予的原條款獲履行。此外，任何修訂將確認開支，增加股份付款之公允價值總額，或對以修訂日期計算有關公允價值之僱員有利。

倘股權結算獎勵被註銷，則被視為已於註銷日期被歸屬，而未就獎勵確認之開支則即時確認。這包括在本集團或僱員控制範圍以內之非歸屬條件未能獲履行的任何獎勵。然而，倘被註銷獎勵被新獎勵所取代，則被視為於授出之日期替代獎勵處理，而所註銷及新獎勵之處理方法，乃猶如其為前段所述修訂原獎勵。

The Group operates a defined contribution Mandatory Provident Fund retirement benefit scheme (the "MPF Scheme") under the Mandatory Provident Fund Schemes Ordinance for those employees who are eligible to participate in the MPF Scheme. Contributions are made based on a percentage of the employees' basic salaries and are charged to the statement of profit or loss as they become payable in accordance with the rules of the MPF Scheme. The assets of the MPF Scheme are held separately from those of the Group in an independently administered fund. The Group's employer contributions vest fully with the employees when contributed into the MPF Scheme.

The employees of the Group's subsidiary which operates in Mainland China are required to participate in a central pension scheme operated by the local municipal government. 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, i.e., assets that necessarily take a substantial period of time to get ready for their intended use or sale, are capitalised as part of the cost of those assets. The capitalisation of such borrowing costs ceases when the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs capitalised. All other borrowing costs are expensed in the period in which they are incurred. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

Dividends

Final dividends are recognised as a liability when they are approved by the shareholders in a general meeting. Proposed final dividends are disclosed in the notes to the financial statements.

Interim dividends are simultaneously proposed and declared, because the Company's memorandum and articles of association grant the directors the authority to declare interim dividends. Consequently, interim dividends are recognised immediately as a liability when they are proposed and declared.

借款成本

直接用於購買、興建或生產合資格資產(即需待相當時間方可達致其擬定用途或出售的資產)的借款成本一律撥充作為該等資產的部分成本。一旦資產大致可供擬定用途或出售,則有關借款成本不再撥充資本。特定借款於用作合資格資產開支前的臨時投資所賺取的投資收入於已資本化的借款成本中扣減。所有其他借款成本均於產生期間支銷。借款成本包括實體就借用資金產生的利息及其他成本。

股息

末期股息於股東大會上獲股東批准時確認為負債。擬派末期股息於財務報表附註披露。

中期股息於建議同時宣派,乃因本公司之組織章程大綱及細則授權董事宣派中期股息。因此,中期股息於建議及宣派後隨即確認為負債。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**Foreign currencies**

These financial statements are presented in RMB, which is the Company's functional currency. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency. Foreign currency transactions recorded by the entities in the Group are initially recorded using their respective functional currency rates prevailing at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency rates of exchange ruling at the end of the reporting period. Differences arising on settlement or translation of monetary items are recognised in the statement of profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was measured. The gain or loss arising on translation of a non-monetary item measured at fair value is treated in line with the recognition of the gain or loss on change in fair value of the item (i.e., translation difference on the item whose fair value gain or loss is recognised in other comprehensive income or profit or loss is also recognised in other comprehensive income or profit or loss, respectively).

該等財務報表以人民幣列示，為本公司的功能貨幣。本集團內各實體決定其自身的功能貨幣，列入各實體財務報表的項目使用該呈列貨幣計量。本集團內實體錄得的外幣交易初步使用交易日期的通行功能貨幣匯率入賬。以外幣計值的貨幣資產及負債按報告期末的通行外幣匯率換算。結算或換算貨幣項目時產生的差額於損益表確認。

以外幣為單位而按歷史成本入賬的非貨幣項目按首次交易日的匯率換算。以外幣為單位而按公允價值計量的非貨幣項目按計量公允價值當日的匯率換算。換算按公允價值計量的非貨幣項目產生的收益或虧損按與確認項目公允價值變動的收益或虧損一致的方式處理(即公允價值收益或虧損於其他全面收入或損益中確認的項目的匯兌差額亦分別於其他全面收入或損益中確認)。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Foreign currencies (Continued)

In determining the exchange rate on initial recognition of the related asset, expense or income on the derecognition of a non-monetary asset or non-monetary liability relating to an advance consideration, the date of initial transaction is the date on which the Group initially recognises the non-monetary asset or non-monetary liability arising from the advance consideration. If there are multiple payments or receipts in advance, the Group determines the transaction date for each payment or receipt of the advance consideration.

The functional currencies of certain overseas subsidiaries, joint ventures and associates are currencies other than RMB. As at the end of the reporting period, the assets and liabilities of these entities are translated into RMB at the exchange rates prevailing at the end of the reporting period and their statements of profit or loss are translated into RMB at the weighted average exchange rates for the year.

The resulting exchange differences are recognised in other comprehensive income and accumulated in the exchange fluctuation reserve. On disposal of a foreign operation, the component of other comprehensive income relating to that particular foreign operation is recognised in the statement of profit or loss.

For the purpose of the consolidated statement of cash flows, the cash flows of overseas subsidiaries are translated into RMB at the exchange rates ruling at the dates of the cash flows. Frequently recurring cash flows of overseas subsidiaries which arise throughout the year are translated into RMB at the weighted average exchange rates for the year.

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES

The preparation of the Group's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and their accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amounts of the assets or liabilities affected in the future.

Judgements

In the process of applying the Group's accounting policies, management has made the following judgements, apart from those involving estimations, which have the most significant effect on the amounts recognised in the financial statements:

Classification between investment properties and owner-occupied properties

The Group determines whether a property qualifies as an investment property, and has developed criteria in making that judgement. Investment property is a property held to earn rentals or for capital appreciation or both. Therefore, the Group considers whether a property generates cash flows largely independently of the other assets held by the Group. Some properties comprise a portion that is held to earn rentals or for capital appreciation and another portion that is held for use in the production or supply of goods or services or for administrative purposes. If these portions could be sold separately or leased out separately under a finance lease, the Group accounts for the portions separately. If the portions could not be sold separately, the property is an investment property only if an insignificant portion is held for use in the production or supply of goods or services or for administrative purposes. Judgement is made on an individual property basis to determine whether ancillary services are so significant that a property does not qualify as an investment property.

3. 重大會計判斷及估計

編製本集團的財務報表時，管理層須於報告日作出會影響所呈報收入、開支、資產與負債的報告金額及其披露以及或然負債披露的判斷、估計及假設。有關該等假設及估計的不明朗因素可能導致可能須對日後受到影響的資產與負債的賬面值作出重大調整。

判斷

在應用本集團的會計政策時，除涉及估計的判斷外，管理層亦作出下列判斷，其對財務報表的已確認金額影響至為重大：

投資物業及自置物業的分類

本集團會釐定物業是否為投資物業，並已建立作出判斷的準則。投資物業為持有以賺取租金或資本增值或兩者的物業。因此，本集團會考慮物業是否大致獨立於本集團所持有的其他資產而產生現金流量。部分物業被持作賺取租金或資本增值用途，另一部分則被持作生產、貨物及服務供應或行政用途。倘若此等部分可分別出售或根據融資租賃分別出租，則本集團就將此等部分分別列賬。倘若該等部分無法分別出售，則只能於不重要部分作生產、貨物及服務供應或行政用途時，該物業方列為投資物業。按個別物業判斷以決定配套服務之重大程度是否足以使物業不再列為投資物業。

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES (Continued)

Judgements (Continued)

Classification between investment properties and properties held for sale

The Group develops properties held for sale and properties held to earn rentals and/or for capital appreciation. Judgement is made by management on determining whether a property is designated as an investment property or a property held for sale. The Group considers its intention for holding the properties at the early development stage of the related properties. During the course of construction, the related properties under construction are accounted for as properties under development for sale included in current assets if the properties are intended for sale after its completion, whereas, the properties are accounted for as investment properties under construction included in investment properties if the properties are intended to be held to earn rentals and/or for capital appreciation. Upon completion of the properties, the properties held for sale are transferred to completed properties for sale and are stated at cost, while the properties held to earn rentals and/or for capital appreciation are transferred to completed investment properties. Investment properties, both under construction and completed, are subject to revaluation at the end of each reporting period.

Allocation of construction cost on properties under development for sale

When developing properties, the Group typically divides the development projects into phases. Costs directly related to the development of a phase are recorded as the cost of such phase. Costs that are common to each phase are allocated to each phase based on the saleable floor area of each phase as a percentage of the total saleable floor area of the entire project. The cost of the unit sold is determined by the floor area in square metres sold during the year multiplied by the average cost per square metre of that particular phase of the project.

判斷(續)

投資物業及持作銷售物業的分類

本集團開發持作銷售物業以及持作為賺取租金及／或資本增值的物業。管理層判斷以釐定是否將某物業指定為投資物業或持作銷售物業。本集團認為有意在相關物業的開發初期持有該物業。在建造過程中，如果擬在建造完成後將物業出售的，則在建相關物業記為流動資產中包括其中的待售開發中物業，而如果擬持有該物業以賺取租金及／或進行資本增值，則將這些物業計入投資物業中的在建投資物業。物業落成後，持作銷售物業轉為持作銷售已完工物業並以成本列示，而持作賺取租金及／或資本增值的物業則轉為已完工投資物業。在建和已完工的投資物業，將在每個報告期末進行重估。

待售開發中物業的建築成本分配

在開發物業時，本集團通常將開發項目分為多個階段。與階段的開發直接相關的成本記錄為該階段的成本。每個階段共有的成本是根據每個階段的可售面積(佔整個項目的總可售面積的百分比)分配給每個階段。售出單位的成本由年內售出的樓面面積(平方米)乘以該項目特定階段的每平方米平均成本釐定。

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES (Continued)

Judgements (Continued)

Property lease classification — Group as lessor

The Group has entered into commercial property leases on its investment property portfolio. The Group has determined, based on an evaluation of the terms and conditions of the arrangements, such as the lease term not constituting a major part of the economic life of the commercial property and the present value of the minimum lease payments not amounting to substantially all the fair value of the commercial property, that it retains substantially all the significant risks and rewards incidental to ownership of these properties which are leased out and accounts for the contracts as operating leases.

Whether the presumption that investment properties stated at fair value are recovered through sale is rebutted in determining deferred tax

The Group has investment properties located in the PRC which are measured at fair value. Investment property is property held to earn rentals or for capital appreciation or both. In considering whether the presumption in IAS 12 Income Taxes that an investment property measured at fair value will be recovered through sale is rebutted in determining deferred tax, the Group has developed certain criteria in making that judgement, such as whether an investment property is held within a business model whose objective is to consume substantially all of the economic benefits embodied in the investment property over time or through sale. The presumption is rebutted only in the circumstance that there is sufficient evidence such as a historical transaction, future development plans and management's intention to demonstrate that the investment property is held with the objective to consume substantially all of the economic benefits over time, rather than through sale. Continuous assessments on the presumption will be made by management at each reporting date.

判斷(續)

物業租賃分類 — 本集團作為出租人

本集團就其投資物業組合訂有商業物業租約。本集團根據對安排條款和條件的評估(例如租期不構成商業物業經濟壽命的主要部分,以及最低租賃付款額的現值大致不等於商業物業的所有公允價值),已經釐定其保留與這些出租物業所有權有關的所有重大風險和回報,並將有關合同作為經營租賃入賬。

釐定遞延稅項時以公允價值列示的投資物業透過出售收回的假設是否被駁回

本集團在中國擁有以公允價值計量的投資物業。投資物業是為賺取租金或資本增值或兩者兼有而持有的財產。在考慮是否應以國際會計準則第12號所得稅中假設以公允價值計量的投資物業將透過出售而收回的假設被駁回時,本集團在作出該判斷時制定了若干標準,例如是否在一個業務模型中持有該投資物業,而其目標是隨著時間的推移或通過銷售來消耗投資物業體現的幾乎所有經濟利益。只有在足夠的證據(例如歷史交易、未來發展計劃及管理層意圖證明持有投資物業的目的是隨著時間的推移而不是通過銷售長期消耗幾乎所有的經濟利益)方駁斥該假設。管理層將在每個報告日對假設進行連續評估。

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES (Continued)

Estimation uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below.

Provision for expected credit losses on trade receivables and prepayments, other receivables and other assets

The Group uses a provision matrix to calculate ECLs for trade receivables and prepayments, other receivables and other assets. The provision rates are based on days past due for groupings of various customer segments that have similar loss patterns (i.e., by geography, product type, customer type and rating, and coverage by letters of credit and other forms of credit insurance).

The expected loss rate is initially based on the Group's historical observed default rates. The Group will calibrate the matrix to adjust the historical credit loss experience with forward-looking information. For instance, if forecast economic conditions (i.e., gross domestic products) are expected to deteriorate over the next year which can lead to an increased number of defaults in the properties sector, the historical default rates are adjusted. At each reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

The assessment of the correlation among historical observed default rates, forecast economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and forecast economic conditions. The Group's historical credit loss experience and forecast of economic conditions may also not be representative of a customer's actual default in the future. The information about the ECLs on the Group's trade receivables and prepayments, other receivables and other assets is disclosed in note 24 and note 25 to the financial statements, respectively.

3. 重大會計判斷及估計(續)

估計不明朗因素

下文所述可能引致資產及負債的賬面值於下個財政年度或須予以重大調整的重大風險且有關未來的主要假設，以及於報告期末存在的估計不明朗因素的其他主要來源。

貿易應收款項及預付款項、其他應收款項及其他資產的預期信貸虧損撥備

本集團使用撥備矩陣計算貿易應收款項及預付款項、其他應收款項及其他資產的預期信貸虧損。撥備率乃基於具有類似虧損模式的多個客戶分類組別(即按地理位置、產品類型、客戶類型及評級，以及信用證及其他形式的信貸保險的覆蓋範圍劃分)的逾期天數。

預期虧損率最初基於本集團歷史可觀察違約率。本集團將根據前瞻性資料調整矩陣以調整歷史信貸虧損經驗。例如，如預測經濟狀況(即國內生產總值)將在未來一年惡化，這可能導致房地產行業違約數量增加，則調整歷史違約率。於各報告日期，更新歷史可觀察違約率並分析前瞻性估計的變化。

對歷史可觀察違約率、預測經濟狀況與預期信貸虧損之間的相關性評估是一項重要估計。預期信貸虧損的數量對環境變化及預測經濟狀況敏感。本集團的歷史信貸虧損經驗及經濟狀況預測亦或無法代表客戶的未來實際違約情況。有關本集團貿易應收款項及預付款項、其他應收款項及其他資產的預期信貸虧損的資料分別於財務報表附註24及附註25中披露。

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES (Continued)

Estimation uncertainty (Continued)

Leases — Estimating the incremental borrowing rate

The Group cannot readily determine the interest rate implicit in a lease, and therefore, it uses an incremental borrowing rate (“IBR”) to measure lease liabilities. The IBR is the rate of interest that the Group would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The IBR therefore reflects what the Group “would have to pay”, which requires estimation when no observable rates are available (such as for subsidiaries that do not enter into financing transactions) or when it needs to be adjusted to reflect the terms and conditions of the lease (for example, when leases are not in the subsidiary’s functional currency). The Group estimates the IBR using observable inputs (such as market interest rates) when available and is required to make certain entity-specific estimates (such as the subsidiary’s stand-alone credit rating).

3. 重大會計判斷及估計(續)

估計不明朗因素(續)

租賃 — 評估增量借款率

本集團無法輕易釐定租賃內含的利率，因此，使用增量借款率（「增量借款率」）來計量租賃負債。增量借款率是指本集團在類似期限內以類似擔保，為獲得與類似經濟環境條件下的使用權資產具有相似價值的資產而所需的資金所必須支付以借回的利率。因此，增量借款率反映本集團「需要支付的」事宜，當沒有可觀察的利率（例如：未進行融資交易的附屬公司）或需要進行調整以反映租賃的條款和條件時（例如：當租賃不以附屬公司功能貨幣計值）而需要進行估算。本集團使用可觀察到的數據（例如市場利率（如果可用））估算增量借款率，並且需要進行作出若干特定實體的估算（例如附屬公司的獨立信用評級）。

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES (Continued)

Estimation uncertainty (Continued)

Estimation of fair value of investment properties

In the absence of current prices in an active market for similar properties, the Group considers information from a variety of sources, including:

- (a) current prices in an active market for properties of a different nature, condition or location, adjusted to reflect those differences;
- (b) recent prices of similar properties on less active markets, with adjustments to reflect any changes in economic conditions since the dates of the transactions that occurred at those prices; and discounted cash flow projections based on reliable estimates of future cash flows, supported by the terms of any existing lease and other contracts and (when possible) by external evidence such as current market rents for similar properties in the same location and condition, and using discount rates that reflect current market assessments of the uncertainty in the amount and timing of the cash flows.

The carrying amount of investment properties at 31 December 2019 was RMB11,572,037,000 (2018: RMB9,397,000,000). Further details, including the key assumptions used for fair value measurement and a sensitivity analysis, are given in note 14 to the financial statements.

投資物業公允價值估計

若無類似物業在活躍市場的現價，本集團將考慮來自多種來源之資料，其中包括：

- (a) 不同性質、狀況或地點之物業於活躍市場之現有價格(經調整以反映各項差異)；
- (b) 活躍程度稍遜之市場所提供同類物業近期價格(經調整以反映自按該等價格進行交易當日以來經濟狀況之任何變動)；及根據未來現金流量所作可靠估計預測之經貼現現金流量，此項預測以任何現有租約及其他合約之條款以及(在可行情況下)外來證據(如地點及狀況相同之類似物業現有市場租值)為憑證，並採用可反映有關現金流量金額及時間不明朗因素當時市場評估之貼現率。

於2019年12月31日，投資物業之賬面值為人民幣11,572,037,000元(2018年：人民幣9,397,000,000元)。進一步詳情(包括用作公允價值計量及敏感度分析之主要假設)載於財務報表附註14。

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES (Continued)

Estimation uncertainty (Continued)

Provision for properties under development and completed properties held for sale

The Group's properties under development and completed properties held for sale are stated at the lower of cost and net realisable value. Based on the Group's historical experience and the nature of the subject properties, the Group makes estimates of the selling prices, the costs of completion of properties under development, and the costs to be incurred in selling the properties based on prevailing market conditions.

If there is an increase in costs to completion or a decrease in net sales value, the net realisable value will decrease and this may result in a provision for properties under development and completed properties held for sale. Such provision requires the use of judgement and estimates. Where the expectation is different from the original estimate, the carrying value and provision for properties in the periods in which such estimate is changed will be adjusted accordingly.

PRC corporate income tax ("CIT")

The Group is subject to corporate income taxes in the PRC. As a result of the fact that certain matters relating to the income taxes have not been confirmed by the local tax bureau, objective estimate and judgement based on currently enacted tax laws, regulations and other related policies are required in determining the provision for income taxes to be made. Where the final tax outcome of these matters is different from the amounts originally recorded, the differences will impact on the income tax and tax provisions in the period in which the differences realise.

3. 重大會計判斷及估計(續)

估計不明朗因素(續)

發展中物業及持作出售的已完工物業的撥備

本集團的開發中物業及持作出售的已完工物業以成本與可變現淨值的較低者入賬。本集團根據以往的經驗及所涉物業的性質估計發展中物業的售價與竣工成本，以及根據當前市況估計銷售物業將產生的費用。

倘竣工成本增加而銷售淨值降低，則可變現淨值會減少，可能導致須就發展中物業及持作銷售已竣工物業作出撥備。作出相關撥備時須運用判斷及估計。倘預期有別於原先估計，則會於變更估計期間相應調整物業賬面值及撥備。

中國企業所得稅(「企業所得稅」)

本集團須繳納中國企業所得稅。由於地方稅務局尚未確認有關所得稅的若干事宜，故釐定所得稅撥備時須根據目前已頒佈的稅法、法規及其他相關政策作出客觀估計及判斷。倘該等事項的最終稅款數額有別於原已記錄的數額，則差額會影響差額變現期間的所得稅及稅項撥備。

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES (Continued)

Estimation uncertainty (Continued)

PRC land appreciation tax ("LAT")

The Group is subject to LAT in the PRC. The provision for LAT is based on management's best estimates according to the understanding of the requirements set forth in the relevant PRC tax laws and regulations. The actual LAT liabilities are subject to the determination by the tax authorities upon the completion of the property development projects. The Group has not finalised its LAT calculation and payments with the tax authorities for all its property development projects. The final outcome could be different from the amounts that were initially recorded, and any differences will impact on the LAT expenses and the related provision in the period in which the differences realise.

Deferred tax assets

Deferred tax assets are recognised for unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of future taxable profits together with future tax planning strategies.

3. 重大會計判斷及估計(續)

估計不明朗因素(續)

中國土地增值稅(「土地增值稅」)

本集團須繳納中國土地增值稅。土地增值稅撥備根據管理層對中國相關稅務法律及法規所載規定的理解所作最佳估計計提。實際的土地增值稅負債須待物業發展項目竣工後由稅務機關釐定。本集團尚未就其全部物業發展項目與稅務機關最終確定土地增值稅的計算及付款。最終結果可能與初步入賬的金額不同，差額會影響差額變現期間的土地增值稅開支及相關撥備。

遞延稅項資產

倘可能具有應課稅利潤抵銷虧損，則會就未動用稅項虧損確認遞延稅項資產。管理層在釐定可予以確認的遞延稅項資產金額時，須根據未來應課稅利潤可能出現的時間及水平連同未來稅務計劃策略作出重大判斷。

4. OPERATING SEGMENT INFORMATION

For management purposes, the Group is organised into business units based on their products and services and has three reportable operating segments as follows:

- (a) Property development;
- (b) Commercial property investment and operations;
- (c) Hotel operations.

Management monitors the results of the Group's operating segments separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on reportable segment profit/loss, which is a measure of adjusted profit/loss before tax. The adjusted profit/loss before tax is measured consistently with the Group's profit before tax except that bank interest income, fair value gains on financial assets at fair value through profit or loss, equity-settled share option payment, net foreign exchange gains, investment income, non-lease-related finance costs as well as head office and corporate expenses are excluded from such measurement.

Segment assets exclude unallocated head office and corporate assets as these assets are managed on a group basis.

Segment liabilities exclude unallocated head office and corporate liabilities as these liabilities are managed on a group basis.

The Group's operations are mainly conducted in Mainland China. Management considered that there is no reportable geographic segment as all revenues from external customers are generated in Mainland China and the Group's significant non-current assets are located in Mainland China.

4. 經營分部資料

就管理而言，本集團根據本身的產品及服務劃分業務單位，並設有三個可報告經營分部如下：

- (a) 物業開發；
- (b) 商業物業投資與經營；
- (c) 酒店經營。

管理層獨立監察本集團經營分部業績，藉以作出有關資源分配及表現評核的決策。分部表現基於可報告分部利潤／虧損（為經調整稅前利潤／虧損的計量方式）評定。經調整稅前利潤／虧損的計量方式與本集團稅前利潤的計量方式一致，惟有關計量不包括銀行利息收入、按公允價值計入損益的金融資產公允價值收益、以股權結算的購股權付款、外匯收益淨額、投資收入、非租賃相關融資成本以及總部及企業開支。

分部資產不包括未分配總部及企業資產，原因為該等資產按集團基準管理。

分部負債不包括未分配總部及企業負債，原因為該等負債按集團基準管理。

The Group's subsidiaries incorporated in Hong Kong are not liable for income tax as they did not have any assessable profits currently arising in Hong Kong for the year ended 31 December 2019.

Subsidiaries of the Group operating in Mainland China are subject to PRC corporate income tax at a rate of 25% for the year.

LAT is levied at progressive rates ranging from 30% to 60% on the appreciation of land value, being the proceeds from the sale of properties less deductible expenditures including land costs, borrowing costs and other property development expenditures. The Group has estimated, made and included in taxation a provision for LAT according to the requirements set forth in the relevant Mainland China tax laws and regulations. The LAT provision is subject to the final review and approval by the local tax bureau.

The fair value of completed commercial properties is determined by the income capitalisation method by taking into account the net rental income of the properties derived from the existing leases and/or achievable in the existing market with due allowance for the reversionary income potential of the leases, which have been then capitalised to determine the fair value at an appropriate capitalisation rate. Where appropriate, reference has also been made to the comparable sales transactions as available in the relevant market.

已完工商業物業的公允價值乃通過收入資本化法釐定，方法是通過計及有關物業因現有租約而產生及/或在現行市況下可能取得的租金收入淨額(就租約的潛在續租收入作出充分撥備)，然後加以資本化，以按適當的資本化比率釐定公允價值。亦會在適當情況下參考相關市場上可獲得的可資比較銷售交易。

14. INVESTMENT PROPERTIES (Continued)

A significant increase in the estimated rental value would result in a significant increase in the fair value of the investment properties. A significant increase (decrease) in the long term vacancy rate and the capitalisation rate in isolation would result in a significant decrease (increase) in the fair value of the investment properties.

The fair value of the commercial properties under construction is determined by using the comparison method, and with reference to sales transactions as available in the relevant market, comparable land in close proximity has been selected and adjustments have been made to account for the difference in factors such as location and property size.

The higher the estimated land price, the higher is the fair value of the investment properties under construction.

14. 投資物業(續)

估計租值大幅增加將導致投資物業的公允價值大幅增加。長期空置率及資本化比率單獨大幅增加(減少)將導致投資物業的公允價值大幅減少(增加)。

在建商業物業的公允價值使用比較法釐定，並經參考相關市場上可獲得的銷售交易，選用鄰近可資比較土地以進行比較，以及就地點及物業規模等因素的差異作出調整。

估計土地價格越高，在建投資物業的公允價值越高。

21. TRADE RECEIVABLES

The Group's trade receivables arise from the leasing of investment properties and provision of property management services.

Consideration in respect of properties is payable by the purchasers in accordance with the terms of the related sale and purchase agreements. The Group normally requires its customers to make payment of monthly/quarterly charges in advance in relation to the leasing of investment properties and provision of property management services.

Since the Group's trade receivables are related to a number of diversified customers, there is no significant concentration of credit risk. The Group does not hold any collateral or other credit enhancements over its trade receivable balances. All trade receivables are non-interest-bearing.

An ageing analysis of the trade receivables as at the end of the reporting period, based on the invoice date and net of loss allowance, is as follows:

21. 貿易應收款項

買家須按照相關買賣協議的條款支付物業的代價。本集團一般就租賃投資物業及提供物業管理服務規定其客戶按月/季預付費用。

由於本集團的貿易應收款項涉及多名不同客戶，故並無重大信貸集中風險。本集團並無就其貿易應收款項結餘持有任何抵押品或其他信貸增強措施。所有貿易應收款項均為免息。

29. DEFERRED TAX (Continued)

Deferred tax liabilities (Continued)

For presentation purposes, certain deferred tax assets and liabilities have been offset in the consolidated statement of financial position. The following is an analysis of the deferred tax balances for financial reporting purposes:

		2019 2019年 RMB'000 人民幣千元	2018 2018年 RMB'000 人民幣千元
Net deferred tax assets recognised in the consolidated statement of financial position	於綜合財務狀況表內確認的遞延稅項資產淨值	727,598	443,060
Net deferred tax liabilities recognised in the consolidated statement of financial position	於綜合財務狀況表內確認的遞延稅項負債淨值	(2,428,329)	(2,330,160)
		(1,700,731)	(1,887,100)

The Group also has tax losses arising in Mainland China of RMB1,114,403,000 (2018: RMB1,279,254,000) that will expire in one to five years for offsetting against future taxable profits. Deferred tax assets have not been recognised in respect of these losses as they have arisen in subsidiaries that have been loss-making for some time and it is not considered probable that taxable profits will be available against which the tax losses can be utilised.

Pursuant to the PRC Corporate Income Tax Law, a 10% withholding tax is levied on dividends declared to foreign investors from the foreign investment enterprises established in Mainland China. The requirement is effective from 1 January 2008 and applies to earnings after 31 December 2007. A lower withholding tax rate may be applied if there is a tax treaty between Mainland China and the jurisdiction of the foreign investors. For the Group, the applicable rate is 10%. The Group is therefore liable for withholding taxes on dividends distributed by those subsidiaries established in Mainland China in respect of earnings generated from 1 January 2008.

29. 遞延稅項(續)

遞延稅項負債(續)

就呈列而言，若干遞延稅項資產及負債已於綜合財務狀況表內抵銷。以下為就財務申報目的的遞延稅項結餘分析：

本集團亦有於中國內地產生的稅項虧損人民幣1,114,403,000元(2018年：人民幣1,279,254,000元)，將於一至五年屆滿，用以抵銷未來應課稅利潤。由於該等虧損乃源自蒙受虧損多時的附屬公司且不被視為可能將有可動用稅項虧損抵銷的應課稅利潤，故並無就該等虧損確認遞延稅項資產。

根據《中華人民共和國企業所得稅法》，在中國內地成立的外商投資企業向海外投資者宣派的股息將徵收10%的預扣稅。該規定自2008年1月1日起生效並適用於2007年12月31日後產生的盈利。倘中國內地與該海外投資者所處司法管轄區存在稅收安排，可採用較低預扣稅率。本集團的適用稅率為10%。因此，本集團須就該等在中國內地成立附屬公司就自2008年1月1日起產生的盈利所分派的股息繳納預扣稅。

Deferred tax liabilities (Continued)

As at 31 December 2019, RMB170,000,000 has been recognised as withholding taxes that would be payable on the unremitted earnings that are subject to withholding taxes of the Group's subsidiaries established in Mainland China. In the opinion of the directors of the Company, the Group's fund will be retained in Mainland China for the expansion of the Group's operation, so it is not probable that these subsidiaries will distribute such earnings in the foreseeable future. The aggregate amount of temporary differences associated with investments in subsidiaries in Mainland China for which deferred tax liabilities have not been recognised totalled approximately RMB8,671,293,000 (2018: RMB7,060,112,000).

31. SHARE OPTION SCHEME (Continued)

Pre-IPO Share Option Scheme ("Pre-IPO Scheme") (Continued)

The fair value of the share options granted during 2018 was RMB87,985,000 (HK\$0.95 each), of which the Group recognised a share option expense of RMB31,329,000 (2018: RMB24,326,000) during the year ended 31 December 2019.

The fair value of equity-settled share options granted during the year was estimated as at the date of grant using a binomial model, taking into account the terms and conditions upon which the options were granted. The following table lists the inputs to the model used:

		2019 2019年	2018 2018年
Dividend yield (%)	股息率(%)	—	2.14
Expected volatility (%)	預期波幅(%)	—	43.66
Risk-free interest rate (%)	無風險利率(%)	—	3.64
Expected life of options (year)	購股權預計有效年期(年)	—	4.62–7.17
Weighted average share price (HK\$ per share)	加權平均股價(每股港元)	—	2.28

The expected life of the options is based on the benchmark of the industry and is not necessarily indicative of the exercise patterns that may occur. The expected volatility reflects the assumption management made and is indicative of future trends, which may also not necessarily be the actual outcome.

No other feature of the options granted was incorporated into the measurement of fair value.

At the end of the reporting period, the Company had 107,130,000 share options outstanding under the Pre-IPO Scheme. The exercise in full of the outstanding share options would, under the present capital structure of the Company, result in the issue of 107,130,000 additional ordinary shares of the Company and additional share capital of RMB161,432,000 (before issue expenses).

At the date of approval of these financial statements, the Company had 107,130,000 share options outstanding under the Pre-IPO Scheme, which represented approximately 3.2% of the Company's shares.

31. 購股權計劃(續)

首次公開發售前購股權計劃(「首次公開發售前計劃」)(續)

於2018年內授出的購股權公允價值為人民幣87,985,000元(每份0.95港元)，其中本集團於截至2019年12月31日止年度確認人民幣31,329,000元(2018年：人民幣24,326,000元)的購股權開支。

本年度授出的股權支付購股權於授出日期按二項式估算，估算時將授出購股權的條件及條款納入考慮。下表載列該模式所使用的參數：

購股權的預計年期乃基於行業基準且並不一定反映可能出現的行權方式。預期波幅反映管理層的假設且能表明未來趨勢(但不一定為實際結果)。

公允價值的計算並無計入已授出的購股權的其他特點。

於報告期末，本公司在首次公開發售前計劃下擁有107,130,000份尚未行使的購股權。在本公司現行資本架構下，行使全數未行使的購股權將會導致本公司發行107,130,000股額外普通股及人民幣161,432,000元額外股本(扣除發行開支前)。

截至該等財務報表批准之日，本公司在首次公開發售前計劃下有107,130,000份尚未行使的購股權，相等於本公司股份的約3.2%。

(i) The Group provided guarantees in respect of mortgage facilities granted by certain banks to the purchasers of the Group's completed properties held for sale. Pursuant to the terms of the guarantee arrangements, in case of default on mortgage payments by the purchasers, the Group is responsible to repay the outstanding mortgage principals together with any accrued interest and penalties owed by the defaulted purchasers to those banks.

(i) 本集團就若干銀行向本集團持作出售的已完工物業買家授出的抵押融資提供擔保。根據擔保安排的條款，如買家拖欠按揭付款，本集團負責向該等銀行償還未償還抵押本金及違約買家所欠的任何應計利息及罰款。

37. CONTINGENT LIABILITIES (Continued)

(i) (Continued)

Under the above arrangement, the related properties were pledged to the banks as collateral for the mortgage loans, and upon default on mortgage repayments by these purchasers, the banks are entitled to take over the legal titles and will realise the pledged properties through open auction.

The Group's guarantee period starts from the dates of grant of the relevant mortgage loans and ends upon the issuance and registration of property ownership certificates to the purchasers, which will generally be available within one to two years after the purchasers take possession of the relevant properties.

The fair value of the guarantees at initial recognition and the ECL allowance are not significant as the directors of the Company consider that in the event of default on payments, the net realisable value of the related properties can cover the repayment of the outstanding mortgage principal together with the accrued interest and penalties.

37. 或然負債(續)

(i) (續)

根據上述安排，相關物業已質押予該等銀行作為抵押貸款的抵押品；倘該等買家拖欠抵押還款，該等銀行有權接管有關法定業權，並通過公開拍賣將抵押物業變現。

本集團的擔保期由授出相關抵押貸款日期起至買家獲發物業所有權證及辦理登記止，有關證明一般會於買家接管相關物業後的一至兩年內取得。

初始確認時的擔保的公允價值和預期信貸虧損撥備並不重大，因為本公司董事認為，如果付款方面發生違約，相關物業的可變現淨值可涵蓋要償還的按揭本金，連同應計利息及罰款。

37. CONTINGENT LIABILITIES (Continued)

- (ii) As at 31 December 2019, the Group provided guarantees to the extent of RMB3,653,790,000 (2018: RMB1,784,700,000) in respect of credit facilities granted to the joint ventures and associates. In addition, as at 31 December 2019, the joint venture partners entered into counter-guarantee agreements with the Group, pursuant to which the joint venture partners provided counter-guarantees to the Group in proportion to those joint venture partners' respective interests in the joint ventures in respect of guarantees provided by the Group to the banks and other lenders on behalf of the joint venture partners. In the event of default on payment by the joint ventures, the Group is responsible for repaying the outstanding loan principals together with the accrued interest and penalties owed by the joint ventures, and the Group has the right to recover from the joint venture partners the attributable portion of liabilities paid pursuant to the counter-guarantee agreements.

In the opinion of the directors, the fair values of the guarantees at initial recognition and the ECL allowance are not significant.

37. 或然負債(續)

- (ii) 於2019年12月31日，本集團就授予合營企業及聯營公司的信貸融資提供擔保人民幣3,653,790,000元(2018年：人民幣1,784,700,000元)。此外，於2019年12月31日，合營企業合夥人與本集團訂立反擔保協議，據此，合營企業合夥人按該等合營企業合夥人各自於合營企業的權益比例向本集團提供反擔保，乃就本集團向銀行及其他貸款人代表合營企業合夥人提供的擔保而作出。倘合營企業拖欠還款，本集團有責任償還未償還的貸款本金以及合營企業所欠的應計利息及罰款，而本集團有權根據反擔保協議向合營企業合夥人收回已付負債應佔部分。

董事認為，初步確認之擔保之公允價值及預期信貸虧損撥備並不重大。

		29,546,388	21,919,369	29,879,292	21,787,294

Management has assessed that the fair values of cash and cash equivalents, pledged deposits, restricted cash, amounts due from related companies, trade receivables, trade and bills payables, financial assets included in prepayments, other receivables and other assets, lease liabilities, and financial liabilities included in other payables and accruals approximate to their carrying amounts largely due to the short term maturities of these instruments.

管理層已評估現金及現金等價物、已質押存款、受限制現金、應收關聯公司款項、貿易應收款項、貿易應付款項及應付票據、計入預付款項、其他應收款項及其他資產的金融資產、租賃負債、計入其他應付款項及應計費用的金融負債的公允價值很大程度與其賬面值相若，這是由於該等工具的到期日較短所致。

42. FAIR VALUE AND FAIR VALUE HIERARCHY OF FINANCIAL INSTRUMENTS (Continued)

The Group's finance department headed by the finance manager is responsible for determining the policies and procedures for the fair value measurement of financial instruments. The finance manager reports directly to the chief financial officer and the audit committee. At each reporting date, the finance department analyses the movements in the values of financial instruments and determines the major inputs applied in the valuation. The valuation is reviewed and approved by the chief financial officer. The valuation process and results are discussed with the audit committee twice a year for interim and annual financial reporting.

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values:

The fair values of the interest-bearing bank and other borrowings have been calculated by discounting the expected future cash flows using rates currently available for instruments with similar terms, credit risk and remaining maturities. The changes in fair value as a result of the Group's own non-performance risk for interest-bearing bank and other borrowings as at 31 December 2019 were assessed to be insignificant.

The fair values of senior notes are based on quoted market prices.

The fair values of listed equity investments are based on quoted market prices.

The Group invests in unlisted investments, which represent wealth management products issued by banks in Mainland China and wealth management private funds in Hong Kong. The Group has estimated the fair value of these unlisted investments by using a discounted cash flow valuation model based on the market interest rates of instruments with similar terms and risks.

42. 金融工具的公允價值及公允價值層級 (續)

本集團財務部門由財務經理帶領，負責釐定金融工具公允價值計量的政策及程序。財務經理直接向財務總監及審核委員會彙報。於各報告日期，財務部門分析金融工具價值的變動，確定估值採用的主要輸入數據。估值由財務總監審批。每年與審核委員會討論兩次評估過程和結果，以進行中期和年度財務報告。

金融資產及負債的公允價值以該工具自願交易方(強迫或清盤出售除外)當前交易下可交易金額入賬。以下方法及假設均用來估算公允價值：

計息銀行貸款及其他借款的公允價值已就預期未來現金流量按條款、信貸風險及剩餘到期情況相類似的工具的目前可用比率貼現計算。截至2019年12月31日，本集團計息銀行貸款及其他借款的未履約風險引致的公允價值變動被評為不重大。

優先票據的公允價值乃基於市場報價。

上市權益投資的公允價值基於市場報價。

本集團投資於非上市投資，即中國內地銀行發行的理財產品及香港理財產品私募基金。本集團已使用貼現現金流估值模型，按條款及風險相似的工具的市場利率，估計該等非上市投資的公允價值。

43. 財務風險管理目標及政策

43. FINANCIAL RISK MANAGEMENT OBJECTIVES
AND POLICIES (Continued)

The main risks arising from the Group's financial instruments are interest rate risk, foreign currency risk, credit risk and liquidity risk. The board of directors reviews and agrees policies for managing each of these risks and they are summarised below:

Interest rate risk

The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's long term debt obligations with a floating interest rate.

The following table demonstrates the sensitivity to a reasonably possible change in interest rates, with all other variables held constant, of the Group's profit before tax (through the impact on floating rate borrowings).

43. 財務風險管理目標及政策(續)

本集團金融工具產生的主要風險包括利率風險、外幣風險、信貸風險及流動資金風險。董事會檢討及協定控制各類風險的政策，有關政策概述如下：

利率風險

本集團所承受市場利率變動風險主要與本集團的浮動利率長期債務有關。

下表載列在所有其他變數維持不變之情況下，本集團之稅前利潤(透過浮動利率借款所受影響)對利率合理可能出現變動之敏感程度。

		Increase/ (decrease) in basis points 基點 增加/(減少)	Increase/ (decrease) in profit before tax 稅前利潤 增加/(減少) RMB'000 人民幣千元
31 December 2019	於2019年12月31日

31 December 2018	於2018年12月31日		
RMB	人民幣	25	(23,935)
RMB	人民幣	(25)	23,935

The sensitivity analysis above has been determined assuming that the change in interest rates had occurred at the end of the year and has applied the exposure to interest rate risk to those bank and other borrowings in existence at that date. The estimated percentage increase or decrease represents management's assessment of a reasonably possible change in interest rates over the year until the end of the next reporting period.

以上的敏感度分析乃假設利率變動已於年終時發生而釐定，並已計入於該日存在的銀行貸款及其他借款所面臨的利率風險。估計百分比上調或下調指管理層對直至下一個報告期間結束年度利率的可能合理變動的評估。

Foreign currency risk

The Group has transactional currency exposures. Such exposures arise from sales or purchases by operating units in currencies other than the units' functional currencies. None of the Group's sales (2018: Nil) were denominated in currencies other than the functional currencies of the operating units making the sale, whilst 100% (2018: 100%) of costs were denominated in the units' functional currencies.

In addition, the Group has currency exposures from its cash and cash equivalents, financial assets at fair value through profit or loss and senior notes.

The following table demonstrates the sensitivity at the end of the reporting period to a reasonably possible change in the USD and HKD exchange rate, with all other variables held constant, of the Group's profit before tax (due to changes in the fair values of monetary assets and liabilities).

43. 財務風險管理目標及政策(續)

外匯風險

本集團面臨交易貨幣風險。有關風險源自與非功能貨幣單位的購貨及銷售交易。本集團的銷售均無(2018年：無)以進行出售的經營單位的功能貨幣以外的貨幣計算，而100%(2018年：100%)的成本則以該等單位的功能貨幣計算。

此外，本集團因現金及現金等價物、按公允價值計入損益的金融資產及優先票據而面臨外匯風險。

下表闡述於各報告期末，在所有其他變數維持不變的情況下，本集團的稅前利潤(由貨幣資產及負債的公允價值變動所致)對美元及港元匯率合理可能變動的敏感度：

		Increase/ (decrease) in USD/HKD rate 美元／港元 匯率上升／ (下降) %	Increase/ (decrease) in profit before tax 稅前利潤上升 ／(下降) RMB'000 人民幣千元

43. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

Credit risk

The Group divides financial instruments on the basis of shared credit risk characteristics, such as instrument types and credit risk ratings for the purpose of determining significant increases in credit risk and calculation of impairment. To manage risk arising from trade receivables, the Group has policies in place to ensure that credit terms are made only to counterparties with an appropriate credit history and management performs ongoing credit evaluations of the Group's counterparties. The credit period granted to the customers is generally six months and the credit quality of these customers is assessed, taking into account their financial position, past experience and other factors. The Group also has other monitoring procedures to ensure that follow-up action is taken to recover overdue receivables. In addition, the Group reviews regularly the recoverable amount of trade receivables to ensure that adequate impairment losses are made for irrecoverable amounts. The Group has no significant concentrations of credit risk, with exposure spread over a large number of counterparties and customers.

Management makes periodic collective assessments for financial assets included in prepayments and other receivables and amounts due from related companies as well as individual assessments on the recoverability of other receivables and amounts due from related companies based on historical settlement records and past experience. The Group classified financial assets included in prepayments and other receivables and amounts due from related companies in Stage 1 and continuously monitored their credit risk. The directors of the Company believe that there is no material credit risk inherent in the Group's outstanding balance of financial assets included in prepayments and other receivables and amounts due from related companies.

43. 財務風險管理目標及政策(續)

信貸風險

本集團根據共同的信貸風險特徵(例如工具類型和信貸風險等級)劃分金融工具,以確定信貸風險的重大增加和減值的計算。為管理貿易應收款項產生的風險,本集團已制定政策以確保信貸條件僅適用於具有適當信貸記錄的交易對手,並且管理層對本集團的交易對手進行持續的信貸評估。授予客戶的信貸期通常為六個月,並根據其財務狀況、過往經驗和其他因素評估這些客戶的信貸質量。本集團還有其他監控程序,以確保採取後續行動以收回逾期應收款項。此外,本集團定期檢討貿易應收款項的可收回金額,以確保就無法收回的金額計提足夠的減值虧損。本集團並無重大信貸風險集中,風險分散於大量交易對手及客戶。

管理層根據歷史還款記錄及過往經驗定期對計入預付款項及其他應收款項的金融資產及應收關聯公司款項進行共同評估,並對其他應收款項及應收關聯公司款項的可收回性進行單獨評估。本集團將計入預付款項及其他應收款項的金融資產及應收關聯公司款項分為第1階段,並持續監控其信貸風險。本公司董事認本集團計入預付款項及其他應收款項的金融資產以及應收關聯公司款項並無固有的重大信貸風險。

Net debt includes interest-bearing bank and other borrowings, senior notes, trade and bills payables, other payables and accruals, lease liabilities and amounts due to related companies less cash and cash equivalents. Capital includes equity attributable to owners of the parent. The gearing ratios as at the end of the reporting periods were as follows:

		31 December 2019 2019年 12月31日	31 December 2018 2018年 12月31日
Trade and bills payables	貿易應付款項及應付票據	4,845,588	2,885,646

Capital and net debt	資本及債務淨額	51,507,813	39,482,082
Gearing ratio	資本負債比率	73%	68%

Note: The Group has adopted IFRS 16 using the modified retrospective approach and the effect of the initial adoption is adjusted against the opening balances as at 1 January 2019 with no adjustments to the comparative amounts as at 31 December 2018. This resulted in an increase in the Group's net debt, and hence, the Group's gearing ratio increased from 68% to 69% on 1 January 2019 when compared with the position as at 31 December 2018.

43. 財務風險管理目標及政策(續)

資本管理(續)

本集團採用資本負債比率(即債務淨額除以經調整資本與債務淨額的和)來監控資本。債務淨額包括計息銀行及其他借款、優先票據、貿易應付款項及應付票據、其他應付款項及應計費用、租賃負債及應付關聯公司款項減現金及現金等價物。資本包括母公司擁有人應佔權益。於報告期末的資本負債比率如下：

附註：本集團已經採納國際財務報告準則第16號使用經修改追溯法，而初次採用的影響按2019年1月1日的年初結餘作出調整，對2018年12月31日的可資比較金額概無調整。此引致本集團的債務淨額增加，因此與2018年12月31日的狀況比較，本集團的資本負債比率於2019年1月1日由68%增至69%。

These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the *Auditor's responsibilities for the audit of the consolidated financial statements* section of our report, including in relation to these matters. 關鍵審核事項

Valuation of investment properties

The Group owns investment properties in Mainland China which are measured at fair value and their aggregate carrying amounts were approximately RMB9,397,000,000 as at 31 December 2018, which represented approximately 13.8% of the Group's total assets. The Group engaged an external valuer to perform the valuations of these properties as at 31 December 2018.

貴集團在中國內地擁有多項按公允價值計量的投資物業，該等物業於2018年12月31日的賬面總值約為人民幣9,397,000,000元，分別佔貴集團總資產約13.8%。貴集團已聘請外部估值師對該等物業於2018年12月31日的價值進行估值。

Significant judgement is required to determine the fair values of the investment properties, which reflected market conditions as at the end of the reporting period. The use of different valuation techniques and assumptions could produce significantly different estimates of fair values.

在釐定投資物業的公允價值時需要作出重大判斷，該等公允價值反映報告期末的市況。採用不同的估值技術及假設可能導致公允價值出現重大差異。

The accounting policies and disclosures for the investment properties are included in notes 2.4, 3 and 14 to the consolidated financial statements.

有關投資物業的會計政策及披露載於綜合財務報表附註2.4、3及14。

Key Audit Matters

關鍵審核事項

Provision for land appreciation tax

The Group is a comprehensive property developer in Mainland China focusing on the development of residential properties and the development, operation and management of commercial and mixed-use properties. Land appreciation tax ("LAT") in Mainland China is one of the main components of the Group's taxation charge. LAT is levied on the sale of properties at progressive rates ranging from 30% to 60% based on the appreciation of land value. At the end of each reporting period, the Group estimates the provision for land appreciation tax based on its understanding and interpretation of the relevant tax rules and regulations, and the estimated total sales of properties less total deductible expenditure, which includes prepaid land lease payments, property development costs and borrowing costs. When the LAT is subsequently determined, the actual payments may be different from the estimates.

貴集團為一家中國內地的綜合性房地產開發商，專注於開發住宅物業，以及開發、運營及管理商業及綜合用途物業。中國內地的土地增值稅（「土地增值稅」）為貴集團稅項支出的主要組成部分之一。物業銷售的土地增值稅乃按照30%至60%的累進稅率對土地增值額徵收。於各報告期末，貴集團管理層會根據其對相關稅務規則及法規的理解及詮釋對土地增值稅撥備及估計物業銷售總額減可扣減開支總額（包括土地使用權租賃開支、物業開發成本、借款成本及開發支出）作出估計。在隨後確定土地增值稅時，實際付款金額可能與估計值有所不同。

The accounting policies and disclosures for the provision for land appreciation tax are included in notes 3 and 10 to the consolidated financial statements.

有關土地增值稅撥備的會計政策及披露載於綜合財務報表附註3及10。

OTHER INFORMATION INCLUDED IN THE ANNUAL REPORT

The directors of the Company are responsible for the other information. The other information comprises the information included in the Annual Report, other than the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

土地增值稅撥備

We involved internal tax specialists to assist us to perform a review on the LAT position, including the review of the estimates and assumptions used by the Group and the evaluation of tax exposure based on communications received from the relevant tax authorities and applying our local knowledge and experience. We also recalculated the tax computation and compared our calculations with the amounts recorded by the Group.

吾等已委聘內部稅務專家協助吾等對土地增值稅狀況進行審查，包括審查貴集團使用的估計及假設，以及根據相關稅務部門發出的通訊資料及應用本地知識及經驗評估稅務風險。吾等亦已重新計算稅項計算結果，並將吾等的計算結果與貴集團錄得的金額進行比較。

載於年報的其他資料

貴公司董事須對其他資料承擔責任。其他資料包括載於年報的資料，不包括綜合財務報表及吾等的核數師報告。

吾等對綜合財務報表作出的意見並無涵蓋其他資料，而吾等不會對其他資料發表任何形式的核證結論。

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF THE DIRECTORS FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with IFRSs issued by the IASB and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors of the Company are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors of the Company either intend to liquidate the Group or to cease operations or have no realistic alternative but to do so.

The directors of the Company are assisted by the Audit Committee in discharging their responsibilities for overseeing the Group's financial reporting process.

就吾等審核綜合財務報表而言，吾等的責任為閱讀其他資料，從而考慮其他資料是否與綜合財務報表或吾等在審核過程中獲悉的資料存在重大不符，或似乎存在重大錯誤陳述。倘若吾等基於已進行的工作認為其他資料出現重大錯誤陳述，吾等須報告有關事實。就此，吾等毋須作出報告。

董事就綜合財務報表須承擔的責任

貴公司董事須負責根據國際會計準則理事會頒佈的國際財務報告準則及香港公司條例的披露規定，編製真實而公平地反映情況的綜合財務報表，並進行董事釐定對編製綜合財務報表屬必要的有關內部監控，以使該等綜合財務報表不存在由於欺詐或錯誤而導致的重大錯誤陳述。

在編製綜合財務報表時，貴公司董事須負責評估貴集團持續經營的能力，並披露與持續經營有關的事項（如適用）。除非貴公司董事擬將貴集團清盤或停止營運，或除此之外並無其他實際可行的辦法，否則須採用以持續經營為基礎的會計法。

審核委員會協助貴公司董事履行彼等監督貴集團財務報告程序的責任。

INDEPENDENT AUDITOR'S REPORT 獨立核數師報告

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Our report is made solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSA's will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSA's, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.

核數師就審核綜合財務報表須承擔的責任

吾等的目標為合理確定此等綜合財務報表整體而言不會存在由於欺詐或錯誤而導致的重大錯誤陳述，並發出載有吾等意見的核數師報告。本報告的編製，僅向全體股東報告，除此以外不可作其他用途。吾等概不就本報告的內容對任何其他人士負責或承擔任何責任。

合理確定屬高層次的核證，惟根據香港審核準則進行的審核工作不能保證總能察覺所存在的重大錯誤陳述。錯誤陳述可因欺詐或錯誤產生，倘個別或整體在合理預期情況下可影響使用者根據綜合財務報表作出的經濟決定時，則被視為重大錯誤陳述。

在根據香港審核準則進行審核的過程中，吾等運用專業判斷，保持專業懷疑態度。吾等亦：

- 識別及評估由於欺詐或錯誤而導致綜合財務報表存在重大錯誤陳述的風險、設計及執行審核程序以應對該等風險，以及獲取充足和適當的審核憑證，作為吾等意見的基礎。由於欺詐可能涉及串謀、偽造、蓄意遺漏、虛假陳述或凌駕內部監控的情況，因此未能發現因欺詐而導致的重大錯誤陳述的風險高於未能發現因錯誤而導致的重大錯誤陳述的風險。
- 瞭解與審核相關的內部監控，以設計適當的審核程序，惟並非旨在對貴集團內部監控的有效性發表意見。
- 評估董事所採用會計政策的恰當性及作出會計估計和相關披露的合理性。

- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.
- 對董事採用持續經營會計基礎的恰當性作出結論，並根據所獲取的審核憑證，確定是否存在與事項或情況有關的重大不確定性，從而可能導致對貴集團的持續經營能力產生重大疑慮。倘吾等認為存在重大不確定性，則有必要在核數師報告中提請使用者注意綜合財務報表中的相關披露。倘有關披露不足，則修訂吾等的意見。吾等的結論乃基於截至核數師報告日期止所取得的審核憑證而作出。然而，未來事項或情況可能導致貴集團無法持續經營。
- 評估綜合財務報表的整體呈報方式、結構及內容，包括披露資料，以及綜合財務報表是否中肯反映相關交易和事項。
- 就貴集團內實體或業務活動的財務資料獲取充足及適當的審核憑證，以便對綜合財務報表發表意見。吾等負責集團審核的方向、監督及執行。吾等就審核意見承擔全部責任。

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

吾等與審核委員會就(其中包括)審核的計劃範圍、時間安排及重大審核發現進行溝通，該等發現包括吾等在審核過程中識別的內部監控的任何重大缺失。

吾等亦向審核委員會作出聲明，指出吾等已符合有關獨立性的相關道德要求，並與彼等溝通可能被合理認為會影響吾等獨立性的所有關係及其他事宜，以及相關防範措施(如適用)。

INDEPENDENT AUDITOR'S REPORT

獨立核數師報告

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Lawrence K.W. Lau.

從與審核委員會溝通的事項中，吾等確定對本期間綜合財務報表的審核至關重要的事項，因而構成關鍵審核事項。吾等在核數師報告中描述該等事項，除非法律或法規不允許公開披露該等事項，或在極端罕見的情況下，倘合理預期在吾等報告中溝通某事項造成的負面後果超出產生的公眾利益，則吾等決定不應在報告中溝通該事項。

出具本獨立核數師報告的審核項目合夥人為劉國華 (Lawrence K.W. Lau)。

2.1 BASIS OF PREPARATION

These financial statements have been prepared in accordance with IFRSs, (which include all standards and interpretations approved by the IASB, and International Accounting Standards (“IASs”), Standing Interpretations Committee interpretations) approved by the IASB that remain in effect, and the disclosure requirements of the Hong Kong Companies Ordinance. They have been prepared under the historical cost convention, except for investment properties and financial assets at fair value through profit or loss which have been measured at fair value. These financial statements are presented in Renminbi (“RMB”) and all values are rounded to the nearest thousand except when otherwise indicated.

Basis of consolidation

The consolidated financial statements include the financial statements of the Company and its subsidiaries (collectively referred to as the “Group”) for the year ended 31 December 2018. A subsidiary is an entity (including a structured entity), directly or indirectly, controlled by the Company. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee (i.e., existing rights that give the Group the current ability to direct the relevant activities of the investee).

2.1 編製基準

該等財務報表乃根據仍然有效的由國際會計準則理事會批准的國際財務報告準則(包括國際會計準則理事會批准的所有準則及詮釋、國際會計準則(「國際會計準則」)及常設詮釋委員會詮釋)及香港公司條例的披露要求編製。該等財務報表乃根據歷史成本法編製，惟已按公平值計量的投資物業及按公允價值計入損益的金融資產除外。該等財務報表以人民幣(「人民幣」)呈列，除另有說明外，所有金額約整至最接近千位數。

綜合入賬基準

該等綜合財務報表包括本公司及其附屬公司(統稱為「本集團」)截至2018年12月31日止年度的財務報表。附屬公司為由本公司直接或間接控制的實體(包括結構性實體)。當本集團對參與投資對象業務所得的浮動回報承擔風險或享有權利以及能透過對投資對象的權力(即本集團獲賦予現有能以主導投資對象相關活動的既存權利)影響該等回報時，即取得控制權。

2.1 BASIS OF PREPARATION (Continued)

Basis of consolidation (Continued)

When the Company has, directly or indirectly, less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- (a) the contractual arrangement with the other vote holders of the investee;
- (b) rights arising from other contractual arrangements; and
- (c) the Group's voting rights and potential voting rights.

The financial statements of the subsidiaries are prepared for the same reporting period as the Company, using consistent accounting policies. The results of subsidiaries are consolidated from the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases.

Profit or loss and each component of other comprehensive income are attributed to the owners of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

2.1 編製基準(續)

綜合入賬基準(續)

倘本公司直接或間接擁有少於投資對象大多數投票或類似權利的權利，則本集團於評估其是否擁有對投資對象的權力時會考慮一切相關事實及情況，包括：

- (a) 與投資對象其他投票持有人的合約安排；
- (b) 其他合約安排所產生的權利；及
- (c) 本集團的投票權及潛在投票權。

附屬公司的財務報表乃就本公司的相同報告期使用貫徹一致的會計政策編製。附屬公司的業績乃自本集團獲取控制權之日開始作綜合入賬計算，並繼續綜合入賬直至有關控制權終止之日為止。

即使導致非控股權益出現赤字餘額，損益及其他全面收益表各部分仍歸屬於本集團母公司擁有人及非控股權益。所有有關本集團各成員公司間之交易的集團內公司間資產及負債、權益、收入、開支及現金流量會於綜合賬目時全數抵銷。

2.1 BASIS OF PREPARATION (Continued)

Basis of consolidation (Continued)

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control described above. A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

If the Group loses control over a subsidiary, it derecognises (i) the assets (including goodwill) and liabilities of the subsidiary, (ii) the carrying amount of any non-controlling interest and (iii) the cumulative translation differences recorded in equity; and recognises (i) the fair value of the consideration received, (ii) the fair value of any investment retained and (iii) any resulting surplus or deficit in profit or loss. The Group's share of components previously recognised in other comprehensive income is reclassified to profit or loss or retained profits, as appropriate, on the same basis as would be required if the Group had directly disposed of the related assets or liabilities.

2.1 編製基準(續)

綜合入賬基準(續)

倘有事實及情況顯示上文所述三個控制因素中有一個或以上出現變動，則本集團將重新評估是否仍控制投資對象。附屬公司的擁有權權益變動(並無喪失控制權)被視為股本交易入賬。

倘本集團失去附屬公司之控制權，則會終止確認(i)該附屬公司之資產(包括商譽)及負債；(ii)任何非控股權益之賬面值；及(iii)計入權益之累計匯兌差額；並確認(i)已收取代價之公允價值；(ii)任何保留投資之公允價值；及(iii)所產生並於損益確認之任何盈餘或虧絀。先前已於其他全面收益確認之本集團應佔組成部分乃重新分類至損益或保留溢利(如適用)，基準與本集團直接出售相關資產或負債所需使用之基準相同。

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES

The Group has adopted the following new and revised IFRSs for the first time for the current year's financial statements.

Amendments to IFRS 2	<i>Classification and Measurement of Share-based Payment Transactions</i>
Amendments to IFRS 4	<i>Applying IFRS 9 Financial Instruments with IFRS 4 Insurance Contracts</i>
IFRS 9	<i>Financial Instruments</i>
IFRS 15	<i>Revenue from Contracts with Customers</i>

Amendments to IAS 40	<i>Transfers of Investment Property</i>

<i>Annual Improvements 2014-2016 Cycle</i>	Amendments to IFRS 1 and IAS 28

Other than as explained below regarding the impact of IFRS 9 and IFRS 15, the adoption of the above new and revised standards has had no significant financial effect on the financial performance.

2.2 會計政策及披露變動

本集團已於本年度財務報表首次採納以下新訂及經修訂國際財務報告準則。

《國際財務報告準則》第2號的修訂	以股份為基礎的付款交易的分類及計量
《國際財務報告準則》第4號的修訂	採用《國際財務報告準則》第4號保險合同時一併採用《國際財務報告準則》第9號金融工具
《國際財務報告準則》第9號	金融工具
《國際財務報告準則》第15號	客戶合同收入
《國際財務報告準則》第15號的修訂	澄清《國際財務報告準則》第15號客戶合同收入
《國際會計準則》第40號的修訂	轉讓投資物業
國際財務報告詮釋委員會詮釋第22號	外匯交易及墊付對價
2014-2016年週期的年度改進	《國際財務報告準則》第1號及《國際會計準則》第28號的修訂

除下文所闡釋有關《國際財務報告準則》第9號及《國際財務報告準則》第15號之影響外，採納上述新訂及經修訂準則對該等財務報表並無重大財務影響。

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES (Continued)

- (a) IFRS 9 *Financial Instruments* replaces IAS 39 *Financial Instruments: Recognition and Measurement* for annual periods beginning on or after 1 January 2018, bringing together all three aspects of the accounting for financial instruments: classification and measurement, impairment and hedge accounting.

With the exception of hedge accounting, which the Group has applied prospectively, the Group has recognised the transition adjustments against the applicable opening balances in equity at 1 January 2018, if any. Therefore, the comparative information was not restated and continues to be reported under IAS 39.

Classification and measurement

The following information sets out the impacts of adopting IFRS 9 on the statement of financial position, including the effect of replacing IAS 39's incurred credit loss calculations with IFRS 9's expected credit losses ("ECLs").

2.2 會計政策及披露變動(續)

- (a) 就2018年1月1日或之後開始之年度期間，*《國際財務報告準則》第9號金融工具*取代*《國際會計準則》第39號金融工具：確認及計量*，結合金融工具：分類及計量、減值及對沖會計全部三方面之會計處理。

除本集團已提前應用的對沖會計外，本集團已對於2018年1月1日的權益內之適用期初結餘確認過渡調整。因此，比較資料並無重列及繼續根據*《國際會計準則》第39號*呈報。

分類與計量

以下資料載列採納*《國際財務報告準則》第9號*對財務狀況表的影響，包括以*《國際財務報告準則》第9號*的預期信貸虧損(「預期信貸虧損」)取代*《國際會計準則》第39號*的已產生信貸虧損計算的影響。

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES (Continued)

(a) (Continued)

Classification and measurement (Continued)

Notes:

- (i) As at 1 January 2018, the Group has classified its available-for-sale investments as financial assets measured at fair value through profit or loss as these financial instruments were held for trading.
- (b) IFRS 15 and its amendments replace IAS 11 *Construction Contracts*, IAS 18 *Revenue* and related interpretations and it applies, with limited exceptions, to all revenue arising from contracts with customers. IFRS 15 establishes a new five-step model to account for revenue arising from contracts with customers. Under IFRS 15, revenue is recognised at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer. The principles in IFRS 15 provide a more structured approach for measuring and recognising revenue. The standard also introduces extensive qualitative and quantitative disclosure requirements, including disaggregation of total revenue, information about performance obligations, changes in contract asset and liability account balances between periods and key judgements and estimates. The disclosures are included in notes 3 and 5 to the financial statements. As a result of the application of IFRS 15, the Group has changed the accounting policy with respect to revenue recognition in note 2.4 to the financial statements.

The Group has adopted IFRS 15 using the modified retrospective method of adoption. Under this method, the standard can be applied either to all contracts at the date of initial application or only to contracts that are not completed at this date. The Group has elected to apply the standard to contracts that are not completed as at 1 January 2018.

2.2 會計政策及披露變動(續)

(a) (續)

分類與計量(續)

附註：

- (i) 於2018年1月1日，本集團已將其可供出售投資分類為按公允價值計入損益的金融資產，乃由於該等金融工具乃持作買賣。
- (b) 《國際財務報告準則》第15號及其修訂取代《國際會計準則》第11號建設合約、《國際會計準則》第18號收入及相關詮釋，且其適用於客戶合約產生的所有收入(少數例外情況除外)。《國際財務報告準則》第15號建立一個新的五步模式，將客戶合約產生的收益列賬。根據《國際財務報告準則》第15號，收益按實體預期就向客戶轉讓貨品或服務而有權獲得之代價金額確認。《國際財務報告準則》第15號之原則為計量及確認收益提供更加結構化之方法。該準則亦引入廣泛之定性及定量披露規定，包括分拆收入總額，關於履行責任、不同期間之間合約資產及負債賬目結餘之變動以及主要判斷及估計之資料。有關披露載於本財務報表附註3及5。由於應用《國際財務報告準則》第15號，本集團已就財務報表附註2.4的收入確認更改會計政策。

本集團以修訂式追溯應用法採納《國際財務報告準則》第15號。根據此方法，該項準則適用於初始應用日期的所有合約或僅適用於當日尚未完成的合約。本集團選擇將該項準則應用於2018年1月1日尚未完成的合約。

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES (Continued)

(b) (Continued)

Classification and measurement (Continued)

The nature of the adjustments as at 1 January 2018 and the reasons for the significant changes in the statement of financial position as at 31 December 2018 and the statement of profit or loss for the year ended 31 December 2018 are described below:

(i) *Financing component*

For contracts where the period between the payment by the customer and the transfer of the promised property or service exceeds one year, the transaction price and the amount of revenue from the sales of completed properties is adjusted for the effects of a financing component, if significant. The Group has assessed that the financing component effect is significant. Accordingly, upon adoption of IFRS 15, properties under development and contract liabilities were increased by RMB383,490,000 as at 1 January 2018.

(ii) *Proceeds from customers of pre-sold properties*

Before the adoption of IFRS 15, the Group recognised proceeds from customers of pre-sold properties as advances from customers. Under IFRS 15, the amount is classified as contract liabilities.

Therefore, upon adoption of IFRS 15, the Group reclassified RMB10,290,051,000 from advances from customers to contract liabilities as at 1 January 2018 in relation to proceeds from customers of pre-sold properties as at 1 January 2018.

As the combined impacts from (i) and (ii), at 31 December 2018, the adoption of IFRS15 resulted an increase in contract liabilities of RMB383,490,000, an increase in properties under development of RMB383,490,000, and a decrease of advances from customers correspondingly.

分類與計量(續)

於2018年1月1日的調整性質以及於2018年12月31日財務狀況表及截至2018年12月31日止年度的損益表出現重大變動的原因如下：

(i) *融資成分*

對於客戶付款至轉移所承諾物業或服務期間超過一年的合約，乃就重大融資成分的影響對交易價格作出調整(倘重大)。本集團評定融資成分影響重大。因此，採納國際財務報告準則第15號後，於2018年1月1日，開發中物業及合約負債增加人民幣383,490,000元。

(ii) *向客戶預售物業的所得款項*

採納《國際財務報告準則》第15號前，本集團確認向客戶預售物業的所得款項為客戶墊款。根據《國際財務報告準則》第15號，該金額分類為合約負債。

因此，採納《國際財務報告準則》第15號後，於2018年1月1日，本集團就向客戶預售物業的所得款項於2018年1月1日將預收客戶款項重新分類為合約負債人民幣10,290,051,000元。

由於(i)及(ii)的綜合影響，於2018年12月31日，採納《國際財務報告準則》第15號導致合約負債增加人民幣383,490,000元，開發中物業增加人民幣383,490,000元及預收客戶款項相應減少。

Further information about those IFRSs that are expected to be applicable to the Group is described below.

Amendments to IFRS 3 clarify and provide additional guidance on the definition of a business. The amendments clarify that for an integrated set of activities and assets to be considered a business, it must include, at a minimum, an input and a substantive process that together significantly contribute to the ability to create output. A business can exist without including all of the inputs and processes needed to create outputs. The amendments remove the assessment of whether market participants are capable of acquiring the business and continue to produce outputs. Instead, the focus is on whether acquired inputs and acquired substantive processes together significantly contribute to the ability to create outputs. The amendments have also narrowed the definition of outputs to focus on goods or services provided to customers, investment income or other income from ordinary activities. Furthermore, the amendments provide guidance to assess whether an acquired process is substantive and introduce an optional fair value concentration test to permit a simplified assessment of whether an acquired set of activities and assets is not a business. The Group expects to adopt the amendments prospectively from 1 January 2020.

2.3 已頒佈但未生效的《國際財務報告準則》 (續)

下述為有關預期適用於本集團的該等國際財務報告準則的進一步資料。

《國際財務報告準則》第3號的修訂闡明並提供有關業務定義之額外指引。該等修訂闡明一套綜合活動及資產將被視為業務，其必須至少包括可對產出能力有重大貢獻之投入及實質性進程。在不包括需要創造產出之所有投入及進程時業務可以存在。該等修訂移除評估市場參與者是否有能力收購業務並持續產出。相反，專注點在於所收購之投入及所收購之實質性進程能否共同對創造產出之能力作出重大貢獻。該等修訂亦縮小產出的定義以注重向客戶提供的商品或服務、一般活動之投資收入或其他收入。此外，該等修訂提供指引以評估所收購之進程是否為實質性的並引入可選擇的公允價值集中性測試，以允許簡化評估一系列所收購之活動及資產是否為業務。本集團預期自2020年1月1日起採納該等修訂。

2.3 ISSUED BUT NOT YET EFFECTIVE INTERNATIONAL FINANCIAL REPORTING STANDARDS (Continued)

Amendments to IFRS 10 and IAS 28 address an inconsistency between the requirements in IFRS 10 and in IAS 28 in dealing with the sale or contribution of assets between an investor and its associate or joint venture. The amendments require a full recognition of a gain or loss when the sale or contribution of assets between an investor and its associate or joint venture constitutes a business. For a transaction involving assets that do not constitute a business, a gain or loss resulting from the transaction is recognised in the investor's profit or loss only to the extent of the unrelated investor's interest in that associate or joint venture. The amendments are to be applied prospectively. The previous mandatory effective date of amendments to IFRS 10 and IAS 28 was removed by the IASB in December 2015 and a new mandatory effective date will be determined after the completion of a broader review of accounting for associates and joint ventures. However, the amendments are available for adoption now.

2.3 已頒佈但未生效的《國際財務報告準則》 (續)

《國際財務報告準則》第10號及《國際會計準則》第28號的修訂提出《國際財務報告準則》第10號及《國際會計準則》第28號有關處理投資者與其聯營公司或合資企業間之資產出售或注入的規定時的不一致情況。該等修訂規定當投資者與其聯營公司或合資企業間之資產出售或注入構成一項業務時，需全數確認收益或虧損。就涉及不構成一項業務的資產交易而言，交易產生的收益或虧損於投資者的損益確認，並僅以無關聯投資者於該聯營公司或合資企業的權益為限。該等修訂將按預期基準應用。國際會計準則理事會已於2015年12月廢除《國際財務報告準則》第10號及《國際會計準則》第28號的修訂的先前強制生效日期，而新強制生效日期將於完成對聯營公司及合資企業會計處理作更廣泛檢討後釐定。然而，該等修訂現時可供採納。

2.3 ISSUED BUT NOT YET EFFECTIVE INTERNATIONAL FINANCIAL REPORTING STANDARDS (Continued)

IFRS 16 replaces IAS 17 *Leases*, IFRIC 4 *Determining whether an Arrangement contains a Lease*, SIC-15 *Operating Leases – Incentives* and SIC-27 *Evaluating the Substance of Transactions Involving the Legal Form of a Lease*. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to recognise assets and liabilities for most leases. The standard includes two elective recognition exemptions for lessees – leases of low-value assets and short-term leases. At the commencement date of a lease, a lessee will recognise a liability to make lease payments (i.e., the lease liability) and an asset representing the right to use the underlying asset during the lease term (i.e., the right-of-use asset). The right-of-use asset is subsequently measured at cost less accumulated depreciation and any impairment losses unless the right-of-use asset meets the definition of investment property in IAS 40, or relates to a class of property, plant and equipment to which the revaluation model is applied. The lease liability is subsequently increased to reflect the interest on the lease liability and reduced for the lease payments. Lessees will be required to separately recognise the interest expense on the lease liability and the depreciation expense on the right-of-use asset. Lessees will also be required to remeasure the lease liability upon the occurrence of certain events, such as change in the lease term and change in future lease payments resulting from a change in an index or rate used to determine those payments. Lessees will generally recognise the amount of the remeasurement of the lease liability as an adjustment to the right-of-use asset. Lessor accounting under IFRS 16 is substantially unchanged from the accounting under IAS 17. Lessors will continue to classify all leases using the same classification principle as in IAS 17 and distinguish between operating leases and finance leases. IFRS 16 requires lessees and lessors to make more extensive disclosures than under IAS 17. Lessees can choose to apply the standard using either a full retrospective or a modified retrospective approach. The Group will adopt IFRS 16 from 1 January 2019. The Group plans to adopt the transitional provisions in IFRS 16 to recognise the cumulative effect of initial adoption as an adjustment to the opening balance of retained earnings at 1 January 2019 and will not restate the comparatives. In addition, the Group plans to apply the new requirements to contracts that were previously identified as leases applying IAS 17 and measure the lease liability at the present value of the remaining lease payments, discounted using the Group's incremental borrowing rate at the date of initial application. The right-of-use asset will be measured at the amount of the lease liability, adjusted by the amount of any prepaid or accrued lease payments relating to the lease recognised in the statement of financial position immediately before the date of initial application. The Group plans to use the exemptions allowed by the standard on lease contracts whose lease terms end within 12 months as of the date of initial application. The Group's future aggregate minimum lease payments under non-cancellable operating leases as at 31 December 2018 were RMB7,972,000, with the minimum lease payments due less than one year amounting to RMB3,199,000 and those due more than one year, less than five years amounting to RMB4,773,000. Given that the Group had total assets of RMB7,922,064,000 and total liabilities of RMB54,072,319,000 as at 31 December 2018, the directors of the Company are of the opinion that the initial adoption of IFRS 16 would not have significant impact on the financial performance and position of the Group.

2.3 已頒佈但未生效的《國際財務報告準則》 (續)

《國際財務報告準則》第16號取代《國際會計準則》第17號租賃、國際財務報告詮釋委員會第4號釐定安排是否包括租賃、準則詮釋委員會第15號經營租賃 – 優惠及準則詮釋委員會第27號評估涉及租賃法律形式交易的内容。該準則載列確認、計量、呈列及披露租賃的原則，並要求承租人就大多數租賃確認資產及負債。該準則包括給予承租人兩項租賃確認豁免 – 低價值資產租賃及短期租賃。於租賃開始日期，承租人將確認於租賃期作出租賃付款為負債（即租賃負債）及代表可使用相關資產的權利為資產（即有使用權資產）。除非有使用權資產符合《國際會計準則》第40號投資物業的定義或涉及應用重估模式之物業、廠房及設備類別，否則有使用權資產其後按成本減累計折舊及任何減值虧損計量。租賃負債其後會就反映租賃負債利息而增加及因租賃付款而減少。承租人將須分別確認租賃負債的利息開支及有使用權資產的折舊開支。承租人將亦須於若干事件發生時重新計量租賃負債，例如由於租賃期變更或用於釐定該等付款的一項指數或比率變更而引致未來租賃付款變更。承租人一般將重新計量租賃負債的數額確認為有使用權資產的調整。《國際財務報告準則》第16號大致沿用《國際會計準則》第17號內出租人的會計處理方式。出租人將繼續使用與《國際會計準則》第17號相同的分類原則對所有租賃進行分類，並將之分為經營租賃及融資租賃。《國際財務報告準則》第16號要求承租人和出租人作出比《國際會計準則》第17號項下規定的更多的披露。承租人可選擇採用全面追溯或修訂的追溯方式來應用該標準。本集團將於2019年1月1日起採用《國際財務報告準則》第16號。本集團計劃採用《國際財務報告準則》第16號的過渡性條款，確認初步採用的累積影響數為於2019年1月1日對保留盈利的年初餘額所作的過渡性調整，並且不會重列比較數字。此外，本集團計劃將新規定應用於先前已應用《國際會計準則》第17號而識別為租賃的合約，並按剩餘租賃付款的現值計量租賃負債，以及使用本集團於首次應用日期的增量借貸利率貼現。使用權資產將按租賃負債金額計量，並按緊接首次應用日期前在財務狀況表中確認與租賃相關的任何預付或應計租賃付款金額進行調整。本集團計劃使用該準則對租期於截至首次應用日期12個月內終止的租賃合約所允許的豁免。本集團於截至2018年12月31日的不可撤銷經營租賃項下的未來最低租賃款項總額為人民幣7,972,000元，其中於一年內到期的最低租賃款項為人民幣3,199,000元及於一年後及五年內到期的最低租賃款項為人民幣4,773,000元。鑒於本集團於截至2018年12月31日擁有的總資產及總負債分別為人民幣7,922,064,000元及人民幣54,072,319,000元，本公司董事認為，首次採納《國際財務報告準則》第16號不會對本集團的財務表現及狀況造成任何重大影響。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Investments in associates and joint ventures

An associate is an entity in which the Group has a long term interest of generally not less than 20% of the equity voting rights and over which it is in a position to exercise significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies.

A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require the unanimous consent of the parties sharing control.

The Group's investments in associates are stated in the consolidated statement of financial position at the Group's share of net assets under the equity method of accounting, less any impairment losses. The Group's share of the post-acquisition results and other comprehensive income of associates and joint ventures are included in the consolidated statement of comprehensive income. In addition, when there has been a change recognised directly in the equity of the associate or joint venture, the Group recognises its share of any changes, when applicable, in the consolidated statement of changes in equity. Unrealised gains and losses resulting from transactions between the Group and its associates or joint ventures are eliminated to the extent of the Group's investments in the associates or joint ventures, except where unrealised losses provide evidence of an impairment of the assets transferred. Goodwill arising from the acquisition of associates or joint ventures is included as part of the Group's investments in associates or joint ventures.

2.4 主要會計政策概要

於聯營公司及合資企業的投資

聯營公司指本集團長期擁有合共不少於20%股本投票權且可對其行使重大影響力之企業。重大影響力指的是參與投資對象之財務及經營決策之權力，但不是控制或共同控制該等決策之權力。

合資企業指一種合資安排，對安排擁有共同控制權之訂約方據此對合資企業之資產淨值擁有權利。共同控制指按照合約協定對一項安排所共有控制，共同控制僅在有關活動要求享有控制權之訂約方作出一致同意之決定時存在。

本集團於聯營公司及合資企業之投資以權益會計法按本集團應佔資產淨值扣除任何減值虧損在綜合財務狀況表列賬。本集團應佔聯營公司及合資企業之收購後業績及其他全面收益計入綜合全面收益表。此外，倘於聯營公司或合資企業之權益直接確認出現變動，則本集團會於綜合權益變動表確認其應佔任何變動（倘適用）。本集團與其聯營公司或合資企業交易所產生未變現收益及虧損按本集團於聯營公司或合資企業之投資為限的方式對銷，惟倘未變現虧損有證據顯示所轉讓資產出現減值則除外。收購聯營公司或合資企業產生之商譽計入為本集團於聯營公司或合資企業投資之一部分。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investments in associates and joint ventures (Continued)

If an investment in an associate becomes an investment in a joint venture or vice versa, the retained interest is not remeasured. Instead, the investment continues to be accounted for under the equity method. In all other cases, upon loss of significant influence over the associate or joint control over the joint venture, the Group measures and recognises any retained investment at its fair value. Any difference between the carrying amount of the associate or joint venture upon loss of significant influence or joint control and the fair value of the retained investment and proceeds from disposal is recognised in profit or loss.

Business combinations and goodwill

Business combinations are accounted for using the acquisition method. The consideration transferred is measured at the acquisition date fair value which is the sum of the acquisition date fair values of assets transferred by the Group, liabilities assumed by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree that are present ownership interests and entitle their holders to a proportionate share of net assets in the event of liquidation at fair value or at the proportionate share of the acquiree's identifiable net assets. All other components of non-controlling interests are measured at fair value. Acquisition-related costs are expensed as incurred.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts of the acquiree.

If the business combination is achieved in stages, the previously held equity interest is remeasured at its acquisition date fair value and any resulting gain or loss is recognised in profit or loss.

2.4 主要會計政策概要(續)

於聯營公司及合資企業的投資(續)

倘於聯營公司之投資成為與合資企業之投資(反之亦然),則保留權益不會重新計量,而該項投資會繼續以權益法入賬。在所有其他情況下,於失去對聯營公司之重大影響力或對合資企業之共同控制權時,本集團按其公允值計量並確認任何保留投資。於失去重大影響力或共同控制權後之聯營公司或合資企業賬面值與保留投資公允值及出售事項所得款項之任何差異,於損益賬中確認。

業務合併及商譽

業務合併使用收購法入賬。所轉讓代價按收購日期的公允價值計量,即本集團轉讓的資產、本集團向原擁有人承擔的負債及本集團為交換被收購方控制權而發行的股權於收購日期的公允價值總和。就各業務合併而言,本集團選擇被收購方中屬於現時擁有權且令持有人可在被收購方清盤時獲得該實體一定份額的非控股權益,按公允價值或按佔被收購方的可識別資產淨值的比例計量。非控股權益的所有其他部分按公允價值確認。收購相關成本於產生時列為開支。

當本集團收購業務時,其評估金融資產及所承擔負債,以按照合約條款、收購日期的經濟情況及相關狀況進行適當分類及指定。這包括將被收購方主合約中的嵌入式衍生工具分開。

倘業務合併分階段實現,早前持有的股權按收購日期的公允價值重新計量,因此產生的任何收益或虧損於損益確認。

31 December 2018

2018年12月31日

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Business combinations and goodwill (Continued)

Any contingent consideration to be transferred by the acquirer is recognised at fair value at the acquisition date. Contingent consideration classified as an asset or liability is measured at fair value with changes in fair value recognised in profit or loss. Contingent consideration that is classified as equity is not remeasured and subsequent settlement is accounted for within equity.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred, the amount recognised for non-controlling interests and any fair value of the Group's previously held equity interests in the acquiree over the identifiable net assets acquired and liabilities assumed. If the sum of this consideration and other items is lower than the fair value of the net assets acquired, the difference is, after reassessment, recognised in profit or loss as a gain on bargain purchase.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. Goodwill is tested for impairment annually or more frequently if events or changes in circumstances indicate that the carrying value may be impaired. The Group performs its annual impairment test of goodwill as at 31 December. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units, or groups of cash-generating units, that are expected to benefit from the synergies of the combination, irrespective of whether other assets or liabilities of the Group are assigned to those units or groups of units.

Impairment is determined by assessing the recoverable amount of the cash-generating unit (group of cash-generating units) to which the goodwill relates. Where the recoverable amount of the cash-generating unit (group of cash-generating units) is less than the carrying amount, an impairment loss is recognised. An impairment loss recognised for goodwill is not reversed in a subsequent period.

2.4 主要會計政策概要(續)

業務合併及商譽(續)

收購方將予轉讓的任何或然代價乃按收購日期的公允價值確認。分類為資產或負債的或然代價按公允價值計量，公允價值變動於損益確認。分類為權益的或然代價不予重新計量，而其後結算於權益入賬。

商譽初步按成本(即所轉讓代價、就非控股權益確認的金額及本集團先前於被收購方持有的股權公允價值的總額，超出所收購可識別資產淨值及所承擔負債的部分)計量。倘該代價與其他項目的總和低於所收購淨資產的公允價值，差額經重新評估後於損益確認為議價購買收益。

於初步確認後，商譽按成本減任何累計減值虧損入賬。商譽每年進行減值測試，倘有事件或情況變化表明賬面值可能減值，則更頻繁地進行減值測試。本集團於12月31日對商譽進行年度減值測試。就減值測試而言，業務合併中收購的商譽自收購日期起分配至預期受益於合併協同效益的本集團各現金產生單位或現金產生單位組別(不論本集團其他資產或負債是否分配予該等單位或單位組別)。

減值透過評估商譽涉及的現金產生單位(現金產生單位組別)的可收回金額而釐定。倘現金產生單位(現金產生單位組別)的可收回金額低於賬面值，則確認減值虧損。就商譽確認的減值虧損不會於隨後期間撥回。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Business combinations and goodwill (Continued)

Where goodwill has been allocated to a cash-generating unit (or group of cash-generating units) and part of the operation within that unit is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on the disposal. Goodwill disposed of in these circumstances is measured based on the relative value of the operation disposed of and the portion of the cash-generating unit retained.

Fair value measurement

The Group measures its investment properties, derivative financial instruments and equity investments at fair value at the end of each reporting period. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability, or in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible by the Group. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

2.4 主要會計政策概要(續)

業務合併及商譽(續)

倘商譽分配予現金產生單位(或現金產生單位組別)，且該單位內部分經營被出售，則與被出售經營有關的商譽在釐定出售收益或虧損時計入經營的賬面值。在該等情況下，被出售的商譽基於所出售經營及所保留現金產生單位部分的相對價值計量。

公允價值計量

本集團於各報告期末按公允價值計量其投資物業、衍生金融工具及股本投資。公允價值指於計量日期之市場參與者之間之有序交易中，就出售資產所收取之價格或轉讓負債所支付之價格。公允價值計量乃基於假設出售資產或轉讓負債之交易於資產或負債之主要市場，或在未有主要市場之情況下，則於資產或負債之最有利市場進行。主要或最有利市場須位於本集團能到達之地方。資產或負債之公允價值乃使用市場參與者為資產或負債定價所用之假設計量(假設市場參與者依照彼等之最佳經濟利益行事)。

非金融資產之公允價值計量乃經計及一名市場參與者透過使用其資產之最高及最佳用途或透過將資產出售予將使用其最高及最佳用途之另一名市場參與者而能夠產生經濟利益之能力。

本集團使用適用於不同情況之估值技術，而其有足夠數據計量公允價值，以盡量利用相關可觀察輸入數據及盡量減少使用不可觀察輸入數據。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fair value measurement (Continued)

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 – based on quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2 – based on valuation techniques for which the lowest level input that is significant to the fair value measurement is observable, either directly or indirectly

Level 3 – based on valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by reassessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

2.4 主要會計政策概要(續)

公允價值計量(續)

於財務報表計量或披露公允價值之所有資產及負債，均根據對公允價值計量整體而言屬重要之最低層輸入數據在下述公允價值等級架構內進行分類：

第1級 — 按相同資產或負債於活躍市場之報價(未經調整)計算

第2級 — 按估值技巧計算(對公允價值計量而言屬重要之最低層輸入數據為可直接或間接觀察)

第3級 — 按估值技巧計算(對公允價值計量而言屬重要之最低層輸入數據為不可觀察)

就按經常性基準於財務報表確認之資產及負債而言，本集團於每個報告期末通過重新評估分類(基於對公允價值計量整體而言屬重大之最低層輸入數據)以決定等級架構內各層之間是否有轉移。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Impairment of non-financial assets

Where an indication of impairment exists, or when annual impairment testing for an asset is required (other than inventories, financial assets, investment properties and non-current assets/a disposal group classified as held for sale), the asset's recoverable amount is estimated. An asset's recoverable amount is the higher of the asset's or cash-generating unit's value in use and its fair value less costs of disposal, and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets, in which case the recoverable amount is determined for the cash-generating unit to which the asset belongs.

An impairment loss is recognised only if the carrying amount of an asset exceeds its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. An impairment loss is charged to profit or loss in the period in which it arises in those expense categories consistent with the function of the impaired asset.

An assessment is made at the end of each reporting period as to whether there is an indication that previously recognised impairment losses may no longer exist or may have decreased. If such an indication exists, the recoverable amount is estimated. A previously recognised impairment loss of an asset other than goodwill is reversed only if there has been a change in the estimates used to determine the recoverable amount of that asset, but not to an amount higher than the carrying amount that would have been determined (net of any depreciation/amortisation) had no impairment loss been recognised for the asset in prior years. A reversal of such an impairment loss is credited to profit or loss in the period in which it arises, unless the asset is carried at a revalued amount, in which case the reversal of the impairment loss is accounted for in accordance with the relevant accounting policy for that revalued asset.

2.4 主要會計政策概要(續)

非金融資產的減值

倘出現減值跡象或須對資產(不包括存貨、金融資產、投資物業及非流動資產/分類為持作出售的出售組別)進行年度減值測試,則會估計資產的可收回金額。資產的可收回金額乃資產或現金產生單位使用價值與其公允價值減出售成本兩者中的較高者,並且就個別資產釐定,如果資產並不產生大部分獨立於其他資產或資產組合的現金流入,在該情況下,可收回金額則按資產所屬的現金產生單位釐定。

減值虧損僅於資產賬面值超過其可收回金額時確認。評估使用價值時,估計未來現金流量乃以反映貨幣時間值及資產特定風險的除稅前貼現率貼現至其現值。減值虧損於其產生之期間在損益中支銷,並計入與減值資產之功能一致之有關費用類別內。

於各報告期末,會就是否有任何跡象顯示先前確認之減值虧損不再存在或可能已減少作出評估。倘有該等跡象,便會估計可收回金額。先前就資產(不包括商譽)確認之減值虧損,僅於用以釐定該資產之可收回金額之估計有變時予以撥回,但撥回金額不得高於假設過往年度並無就該資產確認減值虧損而應有之賬面值(扣除任何折舊/攤銷)。此減值虧損之撥回計入發生當期之損益內,除非資產以重估金額入賬,於此情況下,則減值虧損撥回將根據該重估資產的相關會計政策入賬。

Property, plant and equipment and depreciation

Property, plant and equipment, other than construction in progress, are stated at cost less accumulated depreciation and any impairment losses. The cost of an item of property, plant and equipment comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use.

Expenditure incurred after items of property, plant and equipment have been put into operation, such as repairs and maintenance, is normally charged to profit or loss in the period in which it is incurred. In situations where the recognition criteria are satisfied, the expenditure for a major inspection is capitalised in the carrying amount of the asset as a replacement. Where significant parts of property, plant and equipment are required to be replaced at intervals, the Group recognises such parts as individual assets with specific useful lives and depreciates them accordingly.

物業、廠房及設備及折舊

物業、廠房及設備項目投入運行後產生之開支，如維修和保養，通常在開支發生當期之損益中扣除。倘符合確認標準，主要檢查之開支於資產賬面值中資本化為重置成本。倘物業、廠房及設備之重要部分須不時更換，則本集團將該等部分確認為具有特定使用年限之個別資產並相應對其計提折舊。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Property, plant and equipment and depreciation (Continued)

Depreciation is calculated on the straight-line basis to write off the cost of each item of property, plant and equipment to its residual value over its estimated useful life. The principal estimated useful lives and the annual depreciation rates are as follows:

	Annual depreciation rates
Buildings	2%-5%
Hotel properties	5%
Plant and machinery	10%-19%
Motor vehicles	24%
Furniture and fixtures	19%-32%
Leasehold improvements	5%-43%

Where parts of an item of property, plant and equipment have different useful lives, the cost of that item is allocated on a reasonable basis among the parts and each part is depreciated separately. Residual values, useful lives and the depreciation method are reviewed, and adjusted if appropriate, at least at each financial year end.

An item of property, plant and equipment including any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss on disposal or retirement recognised in profit or loss in the year the asset is derecognised is the difference between the net sales proceeds and the carrying amount of the relevant asset.

Construction in progress represents a building under construction, which is stated at cost less any impairment losses, and is not depreciated. Cost comprises the direct costs of construction and capitalised borrowing costs on related borrowed funds during the period of construction. Construction in progress is reclassified to the appropriate category of property, plant and equipment when completed and ready for use.

2.4 主要會計政策概要(續)

物業、廠房及設備及折舊(續)

物業、廠房及設備各項目在採用直線法計算折舊之估計使用期限內撇銷其成本至其殘值。主要估計可使用年限及年度折舊率如下：

	年度折舊率
樓宇	2%-5%
酒店物業	5%
廠房及機器	10%-19%
汽車	24%
傢俬及裝置	19%-32%
租賃物業裝修	5%-43%

如果某項物業、廠房及設備項目其中部分的可使用年期不同，該項目的成本會按合理基準分配至有關部分，而各部分均分開計提折舊。剩餘價值、可使用年期及折舊方法將至少於各財政年度末檢討及按需要作出調整。

物業、廠房及設備項目(包括任何初次確認的重大部分)於出售或預期使用或出售有關項目不會產生未來經濟利益時取消確認。於取消確認資產年度在損益確認的出售或報廢資產的收益或虧損，為出售有關資產所得款項淨額與其賬面值兩者間的差額。

在建工程指在建的樓宇，按成本減任何減值虧損列賬且不作折舊。成本包括建設期內的直接建設成本及相關借入資金的資本化借款成本。當在建工程完成並可使用時，將被重新分類至適當物業、廠房及設備類別。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment properties

Investment properties are interests in land and buildings (including the leasehold interest under an operating lease for a property which would otherwise meet the definition of an investment property) held to earn rental income and/or for capital appreciation, rather than for use in the production or supply of goods or services or for administrative purposes; or for sale in the ordinary course of business. Such properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at fair value, which reflects market conditions at the end of the reporting period.

Gains or losses arising from changes in the fair values of investment properties are included in profit or loss in the year in which they arise.

Any gains or losses on the retirement or disposal of an investment property are recognised in profit or loss in the year of the retirement or disposal.

For a transfer from investment properties to owner-occupied properties or inventories, the deemed cost of a property for subsequent accounting is its fair value at the date of change in use. If a property occupied by the Group as an owner-occupied property becomes an investment property, the Group accounts for such property in accordance with the policy stated under "Property, plant and equipment and depreciation" up to the date of change in use, and any difference at that date between the carrying amount and the fair value of the property is accounted for as a revaluation in accordance with the policy stated under "Property, plant and equipment and depreciation" above. For a transfer from inventories to investment properties, any difference between the fair value of the property at that date and its previous carrying amount is recognised in profit or loss.

2.4 主要會計政策概要(續)

投資物業

投資物業指為賺取租金收入及／或資本增值而持有的土地及樓宇權益(包括符合投資物業定義的物業經營租賃的租賃權益)，但不包括用作生產或供應貨品或提供服務或行政管理用途者；或在日常業務過程中出售的土地及樓宇權益。該等物業初步按成本(包括交易成本)計量。首次確認後，投資物業按公允價值列賬，其反映報告期間末之市況。

投資物業公允價值變動產生的收益或虧損列入產生年度的損益表。

報廢或出售投資物業之任何收益或虧損於報廢或出售期間於損益表內確認。

由投資物業轉為自置物業或存貨，視為其後入賬的成本為其於更改用途日期。如本集團作為自用物業佔用之物業轉變為投資物業，本集團對該物業入賬時會根據於「物業、廠房及設備及折舊」所列政策於更改用途當日入賬，而於當日有關該物業之賬面值與公允值之任何差額會根據上文「物業、廠房及設備及折舊」所列政策入賬列作資產重估儲備。至於將存貨轉入投資物業，當日物業公允值與其過去賬面值之差額於損益表確認。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Properties under development

Properties under development are intended to be held for sale after completion.

Properties under development are stated at the lower of cost comprising land costs, construction costs, borrowing costs, professional fees and other costs directly attributable to such properties incurred during the development period and net realisable value.

Properties under development are classified as current assets unless those will not be realised in the normal operating cycle. On completion, the properties are transferred to completed properties held for sale.

Completed properties held for sale

Completed properties held for sale are stated in the statement of financial position at the lower of cost and net realisable value. Cost is determined by an apportionment of the total costs of land and buildings attributable to the unsold properties. Net realisable value takes into account the price ultimately expected to be realised, less estimated costs to be incurred in selling the properties.

Allocation of property development cost

Land costs are allocated to each unit according to their respective saleable gross floor area ("GFA") to the total saleable GFA. Construction costs relating to units were identified and allocated specifically. Common construction costs have been allocated according to the saleable GFA similar to land costs.

2.4 主要會計政策概要(續)

開發中物業

開發中物業擬於落成後持作待售。

開發中物業按成本與可變現淨值之較低者列賬，成本包括土地成本、建築成本、借貸成本、專業費用及於發展期內與有關物業直接相關的其他成本。

除非開發中物業不會於一個正常營運週期內落成，否則相關開發中物業分類為流動資產。物業於落成時轉至持作待售的已竣工物業。

持作出售的已完工物業

持作出售的已完工物業按成本與可變現淨值兩者之較低者於財務狀況表列賬。成本按未售物業應佔土地及樓宇成本總額的分攤比例釐定，可變現淨值按預期最終將變現的價格減出售物業產生的估計成本計算。

分配物業開發成本

土地成本根據各單位的可售建築面積(「建築面積」)佔可售總建築面積的比例分配至各單位。單位相關建築成本按個別情況識別及分配。一般建築成本按與土地成本相若的方式根據可售建築面積分配。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Intangible assets (other than goodwill)

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is the fair value at the date of acquisition. The useful lives of intangible assets are assessed to be either finite or indefinite. Intangible assets with finite lives are subsequently amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at each financial year end.

Leases

Leases that transfer substantially all the rewards and risks of ownership of assets to the Group, other than legal title, are accounted for as finance leases. At the inception of a finance lease, the cost of the leased asset is capitalised at the present value of the minimum lease payments and recorded together with the obligation, excluding the interest element, to reflect the purchase and financing. Assets held under capitalised finance leases, including prepaid land lease payments under finance leases, are included in property, plant and equipment, and depreciated over the shorter of the lease terms and the estimated useful lives of the assets. The finance costs of such leases are charged to profit or loss so as to provide a constant periodic rate of charge over the lease terms.

Assets acquired through hire purchase contracts of a financing nature are accounted for as finance leases, but are depreciated over their estimated useful lives.

2.4 主要會計政策概要(續)

無形資產(商譽除外)

分開購入的無形資產於初次確認時按成本計量。於業務合併購入無形資產之成本為於收購日期之公允價值。無形資產的可使用年期被評估為有限或無限。可使用年期有限的無形資產其後在可用的經濟年期內攤銷，並在有跡象顯示無形資產可能已減值時進行減值評估。可使用年期有限的無形資產的攤銷期和攤銷法至少於各財政年度末作檢討。

租賃

凡將資產所有權(法定所有權除外)大部分回報及風險撥歸本集團的租賃均列為融資租賃。融資租賃訂定時，租賃資產的成本將按最低租金付款的現值資本化，並連同反映購買及融資的債務(不包括利息部分)入賬。以資本化融資租賃持有的資產(包括融資租賃項下預付土地租賃款項)包括在物業、廠房及設備項下，並按租約期或資產的估計可使用年期兩者中較短者計算折舊。上述租賃的融資成本於損益扣減，以在租約期按固定比率扣除。

通過具有融資性質的租購合約收購的資產乃列作融資租賃，有關資產乃按估計可使用年期予以折舊。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Leases (Continued)

Leases where substantially all the rewards and risks of ownership of assets remain with the lessor are accounted for as operating leases. Where the Group is the lessor, assets leased by the Group under operating leases are included in non-current assets, and rentals receivable under the operating leases are credited to profit or loss on the straight-line basis over the lease terms. Where the Group is the lessee, rentals payable under operating leases net of any incentives received from the lessor are charged to profit or loss on the straight-line basis over the lease terms.

Prepaid land lease payments under operating leases are initially stated at cost and subsequently recognised on the straight-line basis over the lease terms.

When the lease payments cannot be allocated reliably between the land and buildings elements, the entire lease payments are included in the cost of the land and buildings as a finance lease in property, plant and equipment.

Financial assets (under IAS 39)

Initial recognition and measurement

Financial assets are classified, at initial recognition, as loans and receivables and available-for-sale ("AFS") financial assets. All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Group commits to purchase or sell the asset.

2.4 主要會計政策概要(續)

租賃(續)

資產所有權之絕大部分回報與風險仍歸於出租人之租賃列作經營租賃。倘本集團為出租人，由本集團以經營租賃出租的資產乃計入非流動資產，而經營租賃的應收租金按租約年期以直線法計入損益。倘本集團為承租人，則經營租賃之應付租金(扣除出租人給予之優惠)按照租期以直線法在損益扣除。

根據經營租賃預付的土地租金首次乃成本列賬，而隨後則按租期以直線法確認。

租金不可於土地及樓宇部分可靠地分配時，全部租金作為物業、廠房及設備的融資租賃於土地及樓宇的成本中列賬。

金融資產(根據《國際會計準則》第39號)

初始確認及計量

金融資產於初步確認時分類為貸款及應收款項以及可供出售(「可供出售」)金融資產。所有金融資產乃初步按公允價值加(倘金融資產並非按公允價值計入損益)收購金融資產產生之交易成本確認。

要求按照市場規定或慣例(一般買賣)在特定時間內交付資產的金融資產買賣於交易日(即本集團承諾購買或出售該資產的日期)予以確認。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial assets (under IAS 39) (Continued)

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in two categories:

- Loans and receivables
- AFS financial assets

(i) *Loans and receivables*

This category is the most relevant to the Group. Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate ("EIR") method, less impairment. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the statements of profit or loss and other comprehensive income. The losses arising from impairment are recognised in the statements of profit or loss and other comprehensive income in finance costs for loans and in cost of sales or other expenses for receivables.

其後計量

就其後計量而言，金融資產分為兩類：

- 貸款及應收款項
- 可供出售金融資產

(i) *貸款及應收款項*

此分類與本集團最相關。貸款及應收款項為並非於活躍市場所報具固定或可釐定支付的非衍生金融資產。於初始計量後，該等金融資產乃隨後採用實際利率(「實際利率」)法減任何減值按攤銷成本計量。攤銷成本乃通過計入收購時的任何貼現或溢價及實際利率組成部分之費用或成本計算。實際利率攤銷乃於損益及其他全面收益表的融資收入入賬。減值產生的虧損乃於損益及其他全面收益表貸款融資成本及應收款項銷售成本或其他開支確認。

Subsequent measurement (Continued)

(ii) *AFS financial assets*

AFS financial assets include debt securities. Debt securities in this category are those that are intended to be held for an indefinite period of time and that may be sold in response to needs for liquidity or in response to changes in market conditions.

After initial measurement, AFS financial assets are subsequently measured at fair value with unrealised gains or losses recognised in other comprehensive income ("OCI") and credited to the AFS reserve until the investment is derecognised, at which time the cumulative gain or loss is recognised in other operating income, or the investment is determined to be impaired, when the cumulative loss is reclassified from the AFS reserve to the statements of profit or loss and other comprehensive income in finance costs. Interest earned whilst holding AFS financial assets is reported as interest income using the EIR method.

The Group evaluates whether the ability and intention to sell its AFS financial assets in the near term is still appropriate. When, in rare circumstances, the Group is unable to trade these financial assets due to inactive markets, the Group may elect to reclassify these financial assets if management has the ability and intention to hold the assets for the foreseeable future or until maturity.

(ii) *可供出售金融資產*

可供出售金融資產包括債務證券。此類別的債務證券為擬無限期持有及可能因應流動資金需要或因應市場狀況變動而出售者。

於初步計量後，可供出售金融資產其後按公允價值計量，其未變現收益或虧損乃確認為其他全面收益(「其他全面收益」)並於可供出售儲備中入賬，直至投資被終止確認，屆時累計收益或虧損乃於其他經營收入內確認，或投資於累計虧損自可供出售儲備重新分類至損益及其他全面收益表的融資成本時釐定為減值。持有可供出售金融資產所賺取的利息乃使用實際利率法呈報為利息收入。

本集團評估其於近期出售可供出售金融資產的能力及意圖是否仍然適用。當在罕有的情況下本集團因不活躍市場未能交易該等金融資產，本集團可能會選擇重新分類該等金融資產(倘管理層有能力及意圖於可見未來持有該等金融資產或持有至到期日)。

Subsequent measurement (Continued)

(ii) *AFS financial assets (Continued)*

For a financial asset reclassified from the AFS category, the fair value at the date of reclassification becomes its new amortised cost and any previous gain or loss on the asset that has been recognised in equity is amortised to profit or loss over the remaining life of the investment using the EIR. Any difference between the new amortised cost and the maturity amount is also amortised over the remaining life of the asset using the EIR. If the asset is subsequently determined to be impaired, then the amount recorded in equity is reclassified to the statements of profit or loss and other comprehensive income.

Derecognition of financial assets (under IAS 39 and IFRS 9)

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e., removed from the Group's statements of financial position) when:

- the rights to receive cash flows from the asset have expired; or
- the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Derecognition of financial assets (under IAS 39 and IFRS 9) (Continued)

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risk and rewards of ownership of the asset. When it has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

Impairment of financial assets (under IAS 39)

The Group assesses whether there is objective evidence that a financial asset or a group of financial assets is impaired. An impairment exists if one or more events that occurred after the initial recognition of the asset and that loss event has an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated. Evidence of impairment may include indications that a debtor or a group of debtors is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganisation and observable data indicating that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

2.4 主要會計政策概要(續)

終止確認金融資產(根據《國際會計準則》第39號及《國際財務報告準則》第9號)(續)

當本集團已轉讓其自資產收取現金流量的權利或已訂立轉讓安排，其會評估有否保留所有權的風險及回報，以及其程度。當本集團並無轉讓或保留該資產的絕大部分風險及回報及並無轉讓該資產的控制權，本集團以本集團持續參與程度為限繼續確認所轉讓資產。在此情況下，本集團亦確認相關負債。經轉讓資產及相關負債乃按反映本集團已保留的權利及責任為基準計量。

持續參與乃以被轉讓資產作出的一項保證的形式出現，並以該項資產的原賬面值及本集團或須償還的代價數額上限(以較低者為準)計算。

金融資產減值(根據《國際會計準則》第39號)

本集團評估是否有任何客觀證據顯示金融資產或一組金融資產已經減值。倘因於初步確認資產後發生一項或以上事件且虧損事件對可以可靠地估計的金融資產或一組金融資產的估計未來現金流量有影響時，則被視為減值。減值證據可能包括債務人或一組債務人正面臨重大財務困難、違約或拖欠利息或本金付款、彼等將有可能破產或進行其他財務重組及有客觀數據顯示估計未來現金流量有可以計量的減少，如與違約有關的拖欠或經濟狀況的變動。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Impairment of financial assets (under IAS 39) (Continued)

Financial assets carried at amortised cost

For financial assets carried at amortised cost, the Group first assesses whether impairment exists individually for financial assets that are individually significant, or collectively for financial assets that are not individually significant. If the Group determines that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, it includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses them for impairment. Assets that are individually assessed for impairment and for which an impairment loss is, or continues to be, recognised are not included in a collective assessment of impairment.

The amount of any impairment loss identified is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred). The present value of the estimated future cash flows is discounted at the financial asset's original effective interest rate (i.e. the effective interest rate computed at initial recognition).

The carrying amount of the asset is reduced either directly or through the use of an allowance account and the loss is recognised in the statements of profit or loss and other comprehensive income. Interest income continues to be accrued on the reduced carrying amount using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss. Loans and receivables together with any associated allowance are written off when there is no realistic prospect of future recovery and all collateral has been realised or has been transferred to the Group.

按攤銷成本列賬的金融資產

對於以攤銷成本入賬的金融資產，本集團會首先評估金額個別重大之金融資產有否個別出現客觀之減值證據，並整體評估金額不個別重大之金融資產。若本集團確定被個別評估之金融資產並不存在減值(不論是否重大)之客觀證據，則會將該資產包含於信貸風險特徵相似的金融資產組合當中，以作整體減值評估。作個別減值評估且減值虧損確認或將繼續確認的資產將不列入整體減值評估。

已識別之任何減值虧損數額須按資產之賬面值與估計未來現金流量(不包括尚未產生之未來信貸虧損)現值之間之差額入賬。估計未來現金流量之現值以該金融資產之初始實際利率(即初次確認時所採用之實際利率)折算。

資產之賬面值乃通過使用備抵賬直接或間接扣減，而虧損須於損益及其他全面收益表中確認。利息收入繼續以已調減賬面值並按折算未來現金流量以計量減值虧損之利率計算入賬。倘並無實際期望可予收回及所有的抵押已變現或已轉至本集團，則該等貸款及應收款項以及任何相關之備抵金額應予撇銷。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Impairment of financial assets (under IAS 39) (Continued)

Financial assets carried at amortised cost (Continued)

If, in a subsequent period, the amount of the estimated impairment loss increases or decreases because of an event occurring after the impairment was recognised, the previously recognised impairment loss is increased or reduced by adjusting the allowance account. If a write-off is later recovered, the recovery is credited to other expenses in the statements of profit or loss and other comprehensive income.

Available-for-sale financial investments

For available-for-sale financial investments, the Group assesses whether there is objective evidence that an investment or a group of investments is impaired.

If an available-for-sale asset is impaired, an amount comprising the difference between its cost (net of any principal payment and amortisation) and its current fair value, less any impairment loss previously recognised in the statements of profit or loss and other comprehensive income, is removed from OCI and recognised in the statements of profit or loss and other comprehensive income.

The determination of what is "significant" or "prolonged" requires judgement. In making this judgement, the Group evaluates, among other factors, the duration or extent to which the fair value of an investment is less than its cost.

可供出售金融投資

就可供出售金融投資而言，本集團評估是否有客觀證據顯示投資或一組投資已經減值。

當可供出售金融資產出現減值時，其成本(扣除任何本金付款和攤銷)和其現有公允價值，扣減之前於損益及其他全面收益表內確認之任何減值虧損之差額，將自其他全面收益移除，並在損益及其他全面收益表中確認。

確定是否屬「大幅」或「長期」時須作出判斷。在作出判斷時，本集團會評估(其中包括)一項投資的公允價值低於其成本的持續時間或程度。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Impairment of financial assets (under IAS 39) (Continued)

Available-for-sale financial investments (Continued)

In the case of debt instruments classified as available for sale, impairment is assessed based on the same criteria as financial assets carried at amortised cost. However, the amount recorded for impairment is the cumulative loss measured as the difference between the amortised cost and the current fair value, less any impairment loss on that investment previously recognised in the statements of profit or loss and other comprehensive income. Future interest income continues to be accrued based on the reduced carrying amount of the asset and is accrued using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss. The interest income is recorded as part of finance income. Impairment losses on debt instruments are reversed through the statements of profit or loss and other comprehensive income if the subsequent increase in fair value of the instruments can be objectively related to an event occurring after the impairment loss was recognised in the statements of profit or loss and other comprehensive income.

Assets carried at cost

If there is objective evidence that an impairment loss has been incurred on an unquoted equity instrument that is not carried at fair value because its fair value cannot be reliably measured, or on a derivative asset that is linked to and must be settled by delivery of such an unquoted equity instrument, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the current market rate of return for a similar financial asset. Impairment losses on these assets are not reversed.

按成本列賬的資產

倘若有客觀證據表明一項因其公允價值不能被可靠計量而不以公允價值列賬的非上市權益工具，或一項與非上市權益工具相關，並通過交付該非上市權益工具予以結算的衍生資產存在減值虧損，則應以資產的賬面價值和估計未來現金流量以當前市場一相似金融資產的回報率貼現的現值的差額作為虧損的金額。該等資產的減值虧損不予轉回。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial liabilities (under IAS 39 and IFRS 9)

Initial recognition and measurement

Financial liabilities are recognised when, and only when, the Group becomes a party to the contractual provisions of the financial instruments. The Group determines the classification of its financial liabilities at initial recognition. Financial liabilities are classified, at initial recognition, as loans and borrowings, as appropriate.

All financial liabilities are recognised initially at fair value and in the case of financial liabilities not at fair value through profit or loss, net of directly attributable transaction costs.

Subsequent measurement

After initial recognition, financial liabilities that are not carried at fair value through profit or loss are subsequently measured at amortised cost using the effective interest method. Gains and losses are recognised in profit or loss when the liabilities are derecognised, and through the amortisation process.

(i) Loans and borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost, using the effective interest rate method unless the effect of discounting would be immaterial, in which case they are stated at cost. Gains and losses are recognised in the profit or loss when the liabilities are derecognised as well as through the effective interest rate amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate. The effective interest rate amortisation is included in finance costs in profit or loss.

金融負債(根據《國際會計準則》第39號及《國際財務報告準則》第9號)

初始確認及計量

金融負債僅於本集團成為金融工具合同條文的訂約方時方予以確認。本集團於初步確認時釐定其金融負債的分類。金融負債於初步確認時被分類為貸款及借款(如適用)。

初步確認所有金融負債時，乃以公允價值及(倘屬並非按公允價值計入損益的金融負債)扣除直接應佔交易成本計量。

後續計量

於初步確認後，並非按公允價值計入損益列賬的金融負債隨後採用實際利率法按攤銷成本計量。當負債終止確認及進行攤銷程序時，其收益及虧損於損益內確認。

(i) 貸款及借款

於初步確認後，計息貸款及借款隨後以實際利率法按攤銷成本計量，除非貼現影響為微不足道，在該情況下則按成本列賬。當負債終止確認及按實際利率法進行攤銷程序時，其收益及虧損於損益表內確認。

攤銷成本於考慮任何收購折讓或溢價以及屬於實際利率組成部分的費用或成本後計算。實際利率攤銷計入損益表融資成本。

(ii) *Senior notes*

Senior notes issued by the Company that contain both liability and early redemption option (which is not closely related to the host contract) are classified separately into respective items on initial recognition. At the date of issue, both the liability and early redemption option components are recognised at fair value.

In subsequent periods, the debt component of the senior notes is carried at amortised cost using the effective interest method. The early redemption option is measured at fair value with changes in fair value recognised in profit or loss.

Transaction costs that relate to the issue of the senior notes are allocated to the liability and early redemption option components in proportion to their relative fair values. Transaction costs relating to the early redemption option are charged to profit or loss immediately. Transaction costs relating to the debt component are included in the carrying amount of the liability portion and amortised over the period of the senior notes using the effective interest method.

與發行優先票據有關的交易成本按有關公允值的比例分配予負債及提早贖回權部份。與提早贖回權有關的交易成本即時於損益中扣除。與負債部份有關的交易成本計入負債部份的賬面值,並使用實際利率法在優先票據期內攤銷。

(iii) Financial guarantee contracts (policies under IFRS 9 applicable from 1 January 2018)

Financial guarantee contracts issued by the Group are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. A financial guarantee contract is recognised initially as a liability at its fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequent to initial recognition, the Group measures the financial guarantee contracts at the higher of: (i) the ECL allowance determined in accordance with the policy as set out in "Impairment of financial assets (policies under IFRS 9 applicable from 1 January 2018)"; and (ii) the amount initially recognised less, when appropriate, the cumulative amount of income recognised.

(iv) Financial guarantee contracts (policies under IAS 39 applicable before 1 January 2018)

A financial guarantee contract is recognised initially as a liability at its fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequent to initial recognition, the Group measures the financial guarantee contract at the higher of: (i) the amount of the best estimate of the expenditure required to settle the present obligation at the end of the reporting period; and (ii) the amount initially recognised less, when appropriate, cumulative amortisation.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Derecognition of financial liabilities (under IAS 39 and IFRS 9)

A financial liability is derecognised when the obligation under the liability is discharged or cancelled, or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and a recognition of a new liability, and the difference between the respective carrying amounts is recognised in profit or loss.

Financial assets (under IFRS 9)

Initial recognition and measurement

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, and at fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient, the Group initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs.

如現有金融負債由同一放債人以幾乎完全不同條款的負債所取代，或現有負債的條款實質上幾乎已完全修訂，此類取代或修訂將被視為終止確認原負債及確認新負債處理，而有關賬面值的差額須於損益確認。

金融資產(根據《國際財務報告準則》第9號)

初始確認及計量

金融資產於初步確認時分類，其後按攤銷成本計量，並按公允價值計入損益。

初步確認時的金融資產分類取決於金融資產的合約現金流量特徵以及本集團管理彼等的業務模式。除了並不包含顯著的融資組成部份或本集團已就此應用簡易處理方法之應收貿易款項外，本集團初始按公平價值加上(倘金融資產並非按公平價值計入損益)交易成本計量金融資產。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial assets (under IFRS 9) (Continued)

Initial recognition and measurement (Continued)

In order for a financial asset to be classified and measured at amortised cost, it needs to give rise to cash flows that are 'solely payments of principal and interest (SPPI)' on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level.

The Group's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Group commits to purchase or sell the asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in two categories:

- Financial assets at amortised cost (debt instruments)
- Financial assets at fair value through profit or loss

2.4 主要會計政策概要(續)

金融資產(根據《國際財務報告準則》第9號)(續)

初始確認及計量(續)

為使金融資產按攤銷成本進行分類及計量，需就未償還本金產生「純粹支付本金及利息」的現金流量。該評估被稱為純粹支付本金及利息測試，並於工具層面執行。

本集團管理金融資產的業務模式指其如何管理其金融資產以產生現金流量。業務模式確定現金流量是否來自收集合約現金流量、出售金融資產，或兩者兼有。須於市場規則或慣例所設定的時間範圍內交付資產的金融資產購置或出售(定期交易)於交易日(即本集團承諾購買或出售資產的日期)確認。

後續計量

就後續計量而言，金融資產分為兩類：

- 按攤銷成本列賬的金融資產(債務工具)
- 按公允價值計入損益的金融資產

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial assets (under IFRS 9) (Continued)

Subsequent measurement (Continued)

(i) *Financial assets at amortised cost (debt instruments)*

This category is the most relevant to the Group. The Group measures financial assets at amortised cost if both of the following conditions are met:

- (a) The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows

and

- (b) The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at amortised cost are subsequently measured using the effective interest rate (EIR) method and are subject to impairment. Gains and losses are recognised in profit or loss when the asset is derecognised, modified or impaired.

The Group's financial assets at amortised cost includes trade receivables, financial assets included in prepayments, deposits and other receivables, and amounts due from related companies.

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

後續計量(續)

(i) *按攤銷成本列賬的金融資產(債務工具)*

該類別與本集團最為相關。倘滿足以下兩個條件，本集團將按攤銷成本計量金融資產：

- (a) 於旨在持有金融資產以收取合約現金流量的業務模式中持有的金融資產；

及

- (b) 金融資產的合約條款於特定日期產生的現金流量純粹為未償還本金支付本金及利息。

按攤銷成本列賬的金融資產其後使用實際利率法計量，並可能受減值影響。當資產終止確認、修訂或減值時，收益及虧損於損益中確認。

本集團按攤銷成本列賬的金融資產包括貿易應收款項、計入預付款項、按金及其他應收款項以及應收關聯公司款項列賬的金融資產。

所有已確認的金融資產，視乎金融資產的分類而定，其後全面按攤銷成本或公允價值計量。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial assets (under IFRS 9) (Continued)

Subsequent measurement (Continued)

(ii) *Financial assets at fair value through profit or loss*

Financial assets at fair value through profit or loss include financial assets held for trading, financial assets designated upon initial recognition as at fair value through profit or loss, or financial assets mandatorily required to be measured at fair value. Financial assets are classified as held for trading if they are acquired for the purpose of selling or repurchasing in the near term. Derivatives, including separated embedded derivatives, are also classified as held for trading unless they are designated as effective hedging instruments. Financial assets with cash flows that are not solely payments of principal and interest are classified and measured at fair value through profit or loss, irrespective of the business model. Notwithstanding the criteria for debt instruments to be classified at amortised cost or at fair value through OCI, as described above, debt instruments may be designated at fair value through profit or loss on initial recognition if doing so eliminates, or significantly reduces, an accounting mismatch.

Financial assets at fair value through profit or loss are carried in the statement of financial position at fair value with net changes in fair value recognised in the statements of profit or loss and other comprehensive income.

(ii) 按公允價值計入損益的金融資產

按公允價值計入損益的金融資產包括持作買賣的金融資產、於初始確認時指定為按公允價值計入損益的金融資產，或強制要求按公允價值計量的金融資產。倘為於近期出售或購回而收購金融資產，則該等金融資產分類為持作買賣。衍生工具(包括獨立嵌入式衍生工具)亦分類為持作買賣，惟該等衍生工具被指定為有效對沖工具則除外。現金流量並非純粹支付本金及利息的金融資產，不論其業務模式如何，均按公允價值計入損益分類及計量。儘管如上文所述債務工具可按攤銷成本或按公允價值計入其他全面收益分類，但於初始確認時，倘能夠消除或顯著減少會計錯配，則債務工具可指定為按公允價值計入損益。

按公允價值計入損益的金融資產按公允價值於財務狀況表列賬，而公允價值變動淨額於損益及其他全面收益表中確認。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial assets (under IFRS 9) (Continued)

Impairment of financial assets (policies under IFRS 9 applicable from 1 January 2018)

The Group recognises an allowance for ECLs for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

General approach

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12 months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

At each reporting date, the Group assesses whether the credit risk on a financial instrument has increased significantly since initial recognition. When making the assessment, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition and considers reasonable and supportable information that is available without undue cost or effort, including historical and forward-looking information.

金融資產(根據《國際財務報告準則》第9號)(續)

金融資產減值(根據《國際財務報告準則》第9號自2018年1月1日起適用的政策)

本集團確認對並非按公允價值計入損益的所有債務工具預期信貸虧損的撥備。預期信貸虧損乃基於根據合約到期的合約現金流量與本集團預期收取的所有現金流量之間的差額而釐定，並以原實際利率的近似值貼現。預期現金流量將包括出售所持抵押的現金流量或組成合約條款的其他信貸提升措施。

一般方法

預期信貸虧損分兩個階段進行確認。就自初步確認起未有顯著增加的信貸風險而言，預期信貸虧損提供予由未來十二個月內可能發生違約事件而導致的信貸虧損(十二個月預期信貸損失)。就自初步確認起經已顯著增加的信貸風險而言，不論何時發生違約，於餘下風險年期內的預期信貸虧損均須計提虧損撥備(整個存續的預期信貸虧損)。

本集團在各報告日期評估相關金融工具的信用風險自初始確認後是否已顯著增加。於作出評估時，本集團將報告日期金融工具出現違約事件之風險與初步確認日期金融工具出現違約事件之風險進行比較，並會考慮合理且可證實的資料(毋須過高成本或太多工序便可查閱)，包括過往經驗及前瞻性資料。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial assets (under IFRS 9) (Continued)

Impairment of financial assets (policies under IFRS 9 applicable from 1 January 2018) (Continued)

General approach (Continued)

The Group considers a financial asset in default when contractual payments are 90 days past due. However, in certain cases, the Group may also consider a financial asset to be in default when internal or external information indicates that the Group is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

Financial assets at amortised cost are subject to impairment under the general approach and they are classified within the following stages for measurement of ECLs except for trade receivables which apply the simplified approach as detailed below.

- Stage 1 – Financial instruments for which credit risk has not increased significantly since initial recognition and for which the loss allowance is measured at an amount equal to 12-month ECLs
- Stage 2 – Financial instruments for which credit risk has increased significantly since initial recognition but that are not credit-impaired financial assets and for which the loss allowance is measured at an amount equal to lifetime ECLs
- Stage 3 – Financial assets that are credit-impaired at the reporting date (but that are not purchased or originated credit-impaired) and for which the loss allowance is measured at an amount equal to lifetime ECLs

金融資產減值(根據《國際財務報告準則》第9號自2018年1月1日起適用的政策)(續)

一般方法(續)

當合約付款已逾期90日時，本集團會將金融資產視為違約。然而，在若干情況，在計及本集團所持的任何信貸增強時前，當內部或外部資料指出本集團不大可能悉數收回尚未償還合約金額，則本集團亦可能將金融資產視為違約。倘無法合理預期收回收約現金流量，則撇銷金融資產。

按攤銷成本計量的金融資產在一般方法下可能會出現減值，且除應用下文詳述的簡化方法的貿易應收款項外，其分類為以下階段以計量預期信貸虧損。

- 第一階段 — 金融工具的信用風險自初始確認後並未顯著增加，且虧損撥備以等同於12個月預期信貸虧損的金額計量。
- 第二階段 — 金融工具的信用風險自初始確認後顯著增加，惟其並非信貸減值的金融資產，其虧損撥備以等同於整個存續期的預期信貸虧損的金額計量
- 第三階段 — 於報告日期信貸減值的金融資產(惟其並非購買或原信貸減值)，其虧損撥備以等同於整個存續期的預期信貸虧損的金額計量

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial assets (under IFRS 9) (Continued)

Impairment of financial assets (policies under IFRS 9 applicable from 1 January 2018) (Continued)

Simplified approach

For trade receivables that do not contain a significant financing component or when the Group applies the practical expedient of not adjusting the effect of a significant financing component, the Group applies the simplified approach in calculating ECLs. Under the simplified approach, the Group does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Group has evaluated expected loss rate that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

For trade receivables and contract assets that contain a significant financing component and lease receivables, the Group chooses as its accounting policy to adopt the simplified approach in calculating ECLs with policies as described above.

The Group assesses at the end of each reporting period whether there is objective evidence that a financial asset or a group of financial assets is impaired. An impairment exists if one or more events that occurred after the initial recognition of the asset have an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated. Evidence of impairment may include indications that a debtor or a group of debtors is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganisation and observable data indicating that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

簡化方法

並無重大融資成分或本集團應用可行權宜方法不調整重大融資成分影響的貿易應收款項，本集團應用簡化方法計算預期信貸虧損。根據簡化方法，本集團並無追蹤信貸風險的變動，而是根據各報告日期的整個存續期的預期信貸虧損確認虧損撥備。本集團已根據其過往信貸虧損經驗評估預期虧損率，並按債務人特定的前瞻性因素及經濟環境作出調整。

就包括重大融資成分及應收租賃款項的貿易應收款項及合約資產而言，本集團於計算預期信貸虧損選擇採納上述政策所述之簡化方法作為其會計政策。

本集團於各報告期末評估是否有客觀證據顯示某項或某個組別的金融資產已減值。倘於初步確認資產後發生一項或多項事件，對該項或該組金融資產的估計未來現金流量所造成影響能可靠地估計，減值則存在。減值跡象可包括一名或一組債務人面臨重大財政困難、違約或拖欠利息或本金、彼等有可能破產或進行其他財務重組，以及有可觀察所得數據顯示估計未來現金流量出現可計量減少，例如欠款數目或與違約相關的經濟狀況出現變動。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial assets (under IFRS 9) (Continued)

Impairment of financial assets (policies under IFRS 9 applicable from 1 January 2018) (Continued)

Financial assets carried at amortised cost

For financial assets carried at amortised cost, the Group first assesses whether impairment exists individually for financial assets that are individually significant, or collectively for financial assets that are not individually significant. If the Group determines that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, it includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses them for impairment. Assets that are individually assessed for impairment and for which an impairment loss is, or continues to be, recognised are not included in a collective assessment of impairment.

The amount of any impairment loss identified is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not yet been incurred). The present value of the estimated future cash flows is discounted at the financial asset's original effective interest rate (i.e., the effective interest rate computed at initial recognition).

The carrying amount of the asset is reduced through the use of an allowance account and the loss is recognised in profit or loss. Interest income continues to be accrued on the reduced carrying amount using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss. Loans and receivables together with any associated allowance are written off when there is no realistic prospect of future recovery and all collateral has been realised or has been transferred to the Group.

金融資產(根據《國際財務報告準則》第9號)(續)

金融資產減值(根據《國際財務報告準則》第9號自2018年1月1日起適用的政策)(續)

按攤銷成本列賬的金融資產

對於按攤銷成本列賬的金融資產，本集團首先會評估個別重大金融資產或按集體基準評估個別非重大金融資產是否存在減值。倘本集團認定並無客觀證據顯示按個別基準評估的金融資產出現(無論是否重大)減值，則有關資產會歸入一組具有相似信貸風險特徵的金融資產，並按組合基準評估有否減值。經個別評估減值且已確認或持續確認減值虧損的資產不會納入集體減值評估之內。

已識別的任何減值虧損金額會按該項資產的賬面值與估計未來現金流量現值(不包括未產生的未來信貸虧損)的差額計量。估計未來現金流量現值會按金融資產的原實際利率(即初步確認時所用的實際利率)貼現。

資產賬面值透過使用撥備賬削減，而虧損在損益表內確認。利息收入按已調減後的賬面值持續累計，並採用計量減值虧損時用以貼現未來現金流量的利率累計。貸款及應收款項連同任何相關撥備於不存在日後收回的實際可能性及所有抵押品已變現或轉讓予本集團時撇銷。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial assets (under IFRS 9) (Continued)

Impairment of financial assets (policies under IFRS 9 applicable from 1 January 2018) (Continued)

Financial assets carried at amortised cost (Continued)

If, in a subsequent period, the amount of the estimated impairment loss increases or decreases because of an event occurring after the impairment was recognised, the previously recognised impairment loss is increased or reduced by adjusting the allowance account. If a write-off is later recovered, the recovery is credited to other expenses in profit or loss.

Assets carried at cost

If there is objective evidence that an impairment loss has been incurred on an unquoted equity instrument that is not carried at fair value because its fair value cannot be reliably measured, or on a derivative asset that is linked to and must be settled by delivery of such an unquoted equity instrument, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the current market rate of return for a similar financial asset. Impairment losses on these assets are not reversed.

Available-for-sale financial investments

For available-for-sale financial investments, the Group assesses at the end of each reporting period whether there is objective evidence that an investment or a group of investments is impaired.

If an available-for-sale asset is impaired, an amount comprising the difference between its cost (net of any principal payment and amortisation) and its current fair value, less any impairment loss previously recognised in profit or loss, is removed from other comprehensive income and recognised in profit or loss.

倘估計減值虧損的金額在其後期間因確認減值後發生的事項出現增減，則先前確認的減值虧損可通過調整撥備賬而增減。倘撇銷於其後收回，則收回金額將以其他開支計入損益表。

按成本列賬的資產

倘若有客觀證據表明一項因其公允價值不能可靠計量而不以公允價值列賬的非上市權益工具，或一項與非上市權益工具相關，並通過交付該非上市權益工具予以結算的衍生資產存在減值虧損，則應以資產的賬面價值和估計未來現金流量以當前市場一相似金融資產的回報率貼現的現值的差額作為虧損的金額。該等資產的減值虧損不予轉回。

可供出售金融投資

就可供出售金融投資而言，本集團會於各報告期末評估有否客觀證據顯示一項投資或一組投資出現減值。

當可供出售金融資產出現減值時，其成本(扣除任何本金付款和攤銷)和其現有公允價值，扣減之前於損益表內確認之任何減值虧損之差額，將自其他全面收益移除，並在損益表中確認。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial assets (under IFRS 9) (Continued)

Impairment of financial assets (policies under IFRS 9 applicable from 1 January 2018) (Continued)

Available-for-sale financial investments (Continued)

In the case of equity investments classified as available for sale, objective evidence would include a significant or prolonged decline in the fair value of an investment below its cost. "Significant" is evaluated against the original cost of the investment and "prolonged" against the period in which the fair value has been below its original cost. Where there is evidence of impairment, the cumulative loss – measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that investment previously recognised in profit or loss – is removed from other comprehensive income and recognised in profit or loss. Impairment losses on equity instruments classified as available for sale are not reversed through profit or loss. Increases in their fair value after impairment are recognised directly in other comprehensive income.

The determination of what is "significant" or "prolonged" requires judgement. In making this judgement, the Group evaluates, among other factors, the duration or extent to which the fair value of an investment is less than its cost.

In the case of debt instruments classified as available for sale, impairment is assessed based on the same criteria as financial assets carried at amortised cost. However, the amount recorded for impairment is the cumulative loss measured as the difference between the amortised cost and the current fair value, less any impairment loss on that investment previously recognised in profit or loss. Future interest income continues to be accrued based on the reduced carrying amount of the asset and is accrued using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss. The interest income is recorded as part of finance income. Impairment losses on debt instruments are reversed through profit or loss if the subsequent increase in fair value of the instruments can be objectively related to an event occurring after the impairment loss was recognised in profit or loss.

金融資產減值(根據《國際財務報告準則》第9號自2018年1月1日起適用的政策)(續)

可供出售金融投資(續)

倘權益投資被列作可供出售類別，則客觀證據將包括該項投資的公允價值大幅或長期跌至低於其成本。「大幅」是相對於投資之原始成本評估，而「長期」則相對於公允價值低於原始成本之期間而評估。倘出現減值證據，則累計虧損(按收購成本與現時公允價值之差額減該項投資先前在損益表內確認的任何減值虧損計量)將從其他全面收益中移除，並於損益內確認。分類為可供出售的股本工具的減值虧損不可通過損益撥回，而其公允價值於減值後的增加部分會直接於其他全面收益中確認。

確定是否屬「大幅」或「長期」時須作出判斷。在作出判斷時，本集團會評估(其中包括)一項投資的公允價值低於其成本的持續時間或程度。

當獲分類為可供出售債務工具時，減值的評估基礎與以攤銷成本列賬之金融資產相同。但減值金額按累計虧損以攤銷成本及當前公允價值之間的差額扣減該投資任何過往於損益確認的減值虧損後計量。未來利息收入繼續按照調減後的賬面價值及計算減值虧損時就未來現金流量進行貼現採用的貼現率作為利率調減後的賬面價值為基準計提。利息收入作為財務收入之一部份入賬。倘在後續期間，債務工具的減值虧損於損益表確認後發生客觀跡象的事項令公允價值增加，其減值虧損則於損益表回撥。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

Cash and cash equivalents

For the purpose of the consolidated statement of cash flows, cash and cash equivalents comprise cash on hand and demand deposits, and short term highly liquid investments that are readily convertible into known amounts of cash, are subject to an insignificant risk of changes in value, and have a short maturity of generally within three months when acquired, less bank overdrafts which are repayable on demand and form an integral part of the Group's cash management.

For the purpose of the consolidated statement of financial position, cash and cash equivalents comprise cash on hand and at banks, including term deposits, and assets similar in nature to cash, which are not restricted as to use.

Provisions

A provision is recognised when a present obligation (legal or constructive) has arisen as a result of a past event and it is probable that a future outflow of resources will be required to settle the obligation, provided that a reliable estimate can be made of the amount of the obligation.

When the effect of discounting is material, the amount recognised for a provision is the present value at the end of the reporting period of the future expenditures expected to be required to settle the obligation. The increase in the discounted present value amount arising from the passage of time is included in finance costs in the statement of profit or loss.

抵銷金融工具

倘目前有合法可強制執行權利抵銷已確認的金額，且有意按淨額基準支付或同時將資產變現及結算負債，則抵銷金融資產及金融負債，而其淨額須列於財務狀況表內。

現金及現金等價物

就綜合現金流量表而言，現金及現金等價物包括手頭現金、活期存款及可隨時轉換為已知數額現金、價值變動風險極低及一般自購入後三個月內到期的短期高流動性投資，但須扣減應要求償還及構成本集團現金管理不可分割部分的銀行透支。

就綜合財務狀況表而言，現金及現金等價物由手頭現金及銀行現金組成，包括定期存款及與現金性質類似及用途不受限制的資產。

撥備

倘因過往事件須承擔現時責任(法定或推定)，而履行該責任可能導致未來資源外流，且該責任所涉金額能夠可靠估計，則確認撥備。

倘貼現影響重大，則確認撥備的金額為預期履行責任所需未來開支於報告期末的現值。貼現現值隨時間流逝而增加的金額，並計入損益表中的融資成本。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Provisions (Continued)

The Group provides for warranties in relation to the sale of certain industrial products and the provision of construction services for general repairs of defects occurring during the warranty period. Provisions for these assurance-type warranties granted by the Group are recognised based on sales volume and past experience of the level of repairs and returns, discounted to their present values as appropriate.

A contingent liability recognised in a business combination is initially measured at its fair value. Subsequently, it is measured at the higher of (i) the amount that would be recognised in accordance with the general guidance for provisions above; and (ii) the amount initially recognised less, when appropriate, cumulative amortisation recognised in accordance with the guidance for revenue recognition.

Income tax

Income tax comprises current and deferred tax. Income tax relating to items recognised outside profit or loss is recognised outside profit or loss, either in other comprehensive income or directly in equity.

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period, taking into consideration interpretations and practices prevailing in the countries in which the Group operates.

Deferred tax is provided, using the liability method, on all temporary differences at the end of the reporting period between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

本集團就若干工業產品銷售及提供建築服務於保證期間發生的缺陷的一般維修提供保證。本集團授予的保證類保證撥備乃根據銷售量及過往維修及退貨水平的經驗確認，並適當貼現至其現值。

業務合併確認的或然負債初始按其公允價值計量。其後，按(i)根據上述一般撥備指引確認的金額；及(ii)初始確認的金額減根據收入確認指引確認的累計攤銷(如適用)兩者之間的較高者計量。

所得稅

所得稅包括即期和遞延稅項。與損益外確認的科目相關的所得稅不在損益確認，而在其他全面收益或直接在權益中確認。

即期稅項資產和負債以報告期末已頒佈或實質已頒佈的稅率(及稅法)，並考慮本集團運營所在國家的詮釋及慣例，按照預期自稅務機關收回或向稅務機關支付的金額進行計量。

遞延稅項使用負債法就報告期末資產及負債稅基與其作財務呈報的賬面值之間的一切暫時差額作出撥備。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Income tax (Continued)

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- when the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of taxable temporary differences associated with investments in subsidiaries, joint ventures and associates, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, the carryforward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, the carryforward of unused tax credits and unused tax losses can be utilised, except:

- when the deferred tax asset relating to the deductible temporary differences arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of deductible temporary differences associated with investments in subsidiaries, joint ventures and associates, deferred tax assets are only recognised to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

- 就有關附屬公司、合資企業及聯營公司投資所產生的應課稅暫時差額而言，撥回暫時差額的時間可受控制，而暫時差額於可預見的將來可能不會撥回。

所有可扣減暫時差額及未動用稅項抵免及任何未動用稅項虧損結轉，均被確認為遞延稅項資產。倘可能具有應課稅利潤抵銷可扣減暫時差額，以及可動用結轉的未動用稅項抵免及稅項虧損，則會確認遞延稅項資產，惟下述情況除外：

- 因有關可扣減暫時差額的遞延稅項資產源自初始確認一項交易(並非業務合併)中的資產或負債，而有關交易進行時既不影響會計利潤也不影響應課稅利潤或虧損；及
- 就有關附屬公司、合資企業及聯營公司投資所產生的可扣減暫時差額而言，遞延稅項資產僅於暫時差額於可預見的將來可能撥回，而且具有應課稅利潤用以抵銷暫時差額時，方會予以確認。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Income tax (Continued)

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at the end of each reporting period and are recognised to the extent that it has become probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and deferred tax liabilities are offset if and only if the Group has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

遞延稅項資產及負債以預期適用於資產變現或負債清還期間的稅率計量，並以報告期末已頒佈或實質已頒佈的稅率(及稅法)為基準。

當及僅當本集團有在法律上可強制執行的權利將即期稅項資產與即期稅項負債抵銷，且遞延稅項資產及遞延稅項負債與同一稅務機關對同一應課稅實體或不同應課稅實體徵收的所得稅相關，而該等不同的應課稅實體於各未來期間預期有大額遞延稅項負債或資產將予結算或清償時，擬按淨額基準結算即期稅務負債及資產或同時變現資產及結算負債，則遞延稅項資產與遞延稅項負債可予抵銷。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Government grants

Government grants are recognised at their fair value where there is reasonable assurance that the grant will be received and all attaching conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the costs, which it is intended to compensate, are expensed.

Where the grant relates to an asset, the fair value is credited to a deferred income account and is released to profit or loss over the expected useful life of the relevant asset by equal annual instalments or deducted from the carrying amount of the asset and released to profit or loss by way of a reduced depreciation charge.

Revenue recognition (applicable from 1 January 2018)

Revenue is measured at the fair value of the consideration received or receivable for the sales of properties and services provided in the ordinary course of the Group's activities. Revenue is shown, net of taxes.

Sales of properties

Revenues are recognised when or as the control of the asset is transferred to the purchaser. Depending on the terms of the contract and the laws that apply to the contract, control of the asset may transfer over time or at a point in time. Control of the asset is transferred over time if the Group's performance

- provides benefits which are received and consumed simultaneously by the purchaser; or
- creates and enhances an asset that the purchaser controls as the Group performs; or
- does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

政府補助

政府補助在合理確信可收取及一切附帶條件均可達成的情況下按其公允價值予以確認。倘補助涉及一項支出，則在與其擬補償而支銷相關成本的期間內，有系統地確認為收入。

當政府補助與某個資產項目相關聯時，公允價值先計入遞延收入賬，並根據相關資產之預期使用年期以年限平均法計入損益，或者從資產的賬面值中減去並通過減少折舊費用的方式計入損益。

收入確認(自2018年1月1日起適用)

收入乃按本集團於日常業務過程中銷售物業及所提供服務已收或應收代價的公允價值計量。收入乃按扣除稅項所示。

銷售物業

於資產控制權轉移至買方時確認收入。視乎合約條款及該合約的適用法例，資產控制權可在一段時間內或某一時間點轉移。倘本集團在履約過程中滿足下列各項，則資產控制權隨時間轉移：

- 本集團履約所帶來的利益由買家同時接收並消耗；或
- 本集團履約時創建及強化由買家控制的資產；或
- 並無創建一項對本集團具可替代用途的資產，且本集團就迄今為止已完成的履約有可強制執行的支付權利。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Revenue recognition (applicable from 1 January 2018)
(Continued)

Sales of properties (Continued)

If control of the asset transfers over time, revenue is recognised over the period of the contract by reference to the progress towards complete satisfaction of that performance obligation. Otherwise, revenue is recognised at a point in time when the purchaser obtains control of the asset.

The progress towards complete satisfaction of the performance obligation is measured based on the Group's efforts or inputs to the satisfaction of the performance obligation that best depict the Group's performance in satisfying the performance obligation.

In determining the transaction price, the Group adjusts the promised amount of consideration for the effect of a financing component if it is significant.

For property development and sales contracts for which the control of the property is transferred at a point in time, revenue is recognised when the purchaser obtains the physical possession or the legal title of the completed property and the Group has present right to payment and the collection of the consideration is probable.

Rental income

Rental income is recognised on a time proportion basis over the lease terms.

Share-based payments

The Company operates share option schemes for the purpose of providing incentives and rewards to eligible participants who contribute to the success of the Group's operations. Employees (including directors) of the Group receive remuneration in the form of share-based payments, whereby employees render services as consideration for equity instruments ("equity-settled transactions").

The cost of equity-settled transactions with employees is measured by reference to the fair value at the date at which they are granted. The fair value is determined by an independent third-party valuation firm using a binomial model, further details of which are provided in Note 38 to the financial statements.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Share-based payments (Continued)

The cost of equity-settled transactions is recognized, together with a corresponding increase in equity, over the period in which the performance and/or service conditions are fulfilled in employee benefit expense. The cumulative expense recognized for equity-settled transactions at the end of each reporting period until the vesting date reflects the extent to which the vesting period has expired and the Group's best estimate of the number of equity instruments that will ultimately vest. The charge or credit to the statement of profit or loss for a period represents the movement in the cumulative expense recognized as of the beginning and end of that period.

Service and non-market performance conditions are not taken into account when determining the grant date fair value of awards, but the likelihood of the conditions being met is assessed as part of the Group's best estimate of the number of equity instruments that will ultimately vest. Market performance conditions are reflected within the grant date fair value. Any other conditions attached to an award, but without an associated service requirement, are considered to be non-vesting conditions. Non-vesting conditions are reflected in the fair value of an award and lead to an immediate expensing of an award unless there are also service and/or performance conditions.

For awards that do not ultimately vest because non-market performance and/or service conditions have not been met, no expense is recognized. Where awards include a market or non-vesting condition, the transactions are treated as vesting irrespective of whether the market or non-vesting condition is satisfied, provided that all other performance and/or service conditions are satisfied.

在滿足表現及／或服務條件的期間，應確認股權結算交易費用為僱員福利開支，並同時相應增加權益。在股權結算交易於各報告期末至歸屬日期間確認之累計開支，反映所過去歸屬期以及本集團就最後歸屬之股本工具之數目之最佳估計。期內在損益表扣除或計入損益表之金額，指於該段期初及期終所確認之累計開支變動。

釐定於獎勵授出日之公允價值並無考慮服務及非市場表現條件，惟評定能達成條件之可能性部分在於為最終將歸屬為本集團權益工具之最佳估計數目。市場表現條件將反映在授出日之公允價值。附帶於獎勵中但並無相關聯服務要求之其他任何條件皆視為非歸屬條件。反映非歸屬條件之獎勵公允價值若當中不包含服務及／或表現條件，則須即時予以支銷。

因未能達至非市場表現及／或服務條件，而導致最終並無歸屬之獎勵並不會確認支銷。當獎勵包括一項市場或非歸屬條件，則無論市場或非歸屬條件是否達成，其均仍被視為歸屬，但必須符合所有其他表現及／或服務條件。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Share-based payments (Continued)

Where the terms of an equity-settled award are modified, as a minimum an expense is recognized as if the terms had not been modified, if the original terms of the award are met. In addition, an expense is recognized for any modification that increases the total fair value of the share-based payments, or is otherwise beneficial to the employee as measured at the date of modification.

Where an equity-settled award is cancelled, it is treated as if it had vested on the date of cancellation, and any expense not yet recognized for the award is recognized immediately. This includes any award where non-vesting conditions within the control of either the Group or the employee are not met. However, if a new award is substituted for the cancelled award, and is designated as a replacement award on the date that it is granted, the cancelled and new awards are treated as if they were a modification of the original award, as described in the previous paragraph.

Other Employee benefits

The employees of the Group's subsidiaries which operate in Mainland China are required to participate in a central pension scheme operated by the local municipal government. These subsidiaries are required to contribute a certain proportion of these payroll costs to the central pension scheme. The contributions are charged to profit or loss as they become payable in accordance with the rules of the central pension scheme.

倘股權結算獎勵被註銷，則被視為已於註銷日期被歸屬，而未就獎勵確認之開支則即時確認。這包括在本集團或僱員控制範圍以內之非歸屬條件未能獲履行的任何獎勵。然而，倘被註銷獎勵被新獎勵所取代，則被視為於授出之日期替代獎勵處理，而所註銷及新獎勵之處理方法，乃猶如其為前段所述修訂原獎勵。

其他僱員福利

本集團於中國內地經營業務之附屬公司之僱員須參與由地方市政府設立之中央退休金計劃。該等附屬公司須將薪金成本之若干部分向中央退休金計劃供款。供款根據中央退休金計劃規則在應付時自損益表扣除。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Contract assets (applicable from 1 January 2018)

A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Group performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional.

Contract liabilities (applicable from 1 January 2018)

A contract liability is the obligation to transfer goods or services to a customer for which the Group has received a consideration (or an amount of consideration that is due) from the customer. If a customer pays the consideration before the Group transfers goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Group performs under the contract.

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, i.e., assets that necessarily take a substantial period of time to get ready for their intended use or sale, are capitalised as part of the cost of those assets. The capitalisation of such borrowing costs ceases when the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs capitalised. All other borrowing costs are expensed in the period in which they are incurred. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

合約資產(自2018年1月1日起適用)

合約資產為收取向客戶轉讓貨物或服務作為交換的代價。倘本集團於客戶支付代價或付款到期前向客戶轉讓貨物或服務，則就所賺取的有條件代價確認合約資產。

合約負債(自2018年1月1日起適用)

合約負債為向客戶轉讓貨物或服務的責任，而本集團已自客戶收取代價(或代價已到期)。倘客戶於本集團向客戶轉讓貨物或服務前支付代價，合約負債於付款或款項到期時(以較早者為準)確認合約負債。合約負債於本集團根據合約履約時確認為收益。

借款成本

直接用於購買、興建或生產合資格資產(即需待相當時間方可達致其擬定用途或出售的資產)的借款成本一律撥充作為該等資產的部分成本。一旦資產大致可供擬定用途或出售，則有關借款成本不再撥充資本。特定借款於用作合資格資產開支前的臨時投資所賺取的投資收入於已資本化的借款成本中扣減。所有其他借款成本均於產生期間支銷。借款成本包括實體就借用資金產生的利息及其他成本。

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Dividends

Final dividends are recognised as a liability when they are approved by the shareholders in a general meeting. Proposed final dividends are disclosed in the notes to the financial statements.

Foreign currencies

Since the majority of the assets and operations of the Group are located in the PRC, the financial statements are presented in RMB, which is the functional currency of the Company. Foreign currency transactions recorded by the entities in the Group are initially recorded using their respective functional currency rates prevailing at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency rates of exchange ruling at the end of the reporting period. Differences arising on settlement or translation of monetary items are recognised in profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was measured. The gain or loss arising on translation of a non-monetary item measured at fair value is treated in line with the recognition of the gain or loss on change in fair value of the item (i.e., translation difference on the item whose fair value gain or loss is recognised in other comprehensive income or profit or loss is also recognised in other comprehensive income or profit or loss, respectively).

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Foreign currencies (Continued)

In determining the exchange rate on initial recognition of the related asset, expense or income on the derecognition of a non-monetary asset or non-monetary liability relating to an advance consideration, the date of initial transaction is the date on which the Group initially recognises the non-monetary asset or non-monetary liability arising from the advance consideration. If there are multiple payments or receipts in advance, the Group determines the transaction date for each payment or receipt of the advance consideration.

The resulting exchange differences are recognised in other comprehensive income and accumulated in the exchange fluctuation reserve. On disposal of a foreign operation, the component of other comprehensive income relating to that particular foreign operation is recognised in profit or loss.

Any goodwill arising on the acquisition of a foreign operation and any fair value adjustments to the carrying amounts of assets and liabilities arising on acquisition are treated as assets and liabilities of the foreign operation and translated at the closing rate.

外幣(續)

釐定有關資產於初步確認時、終止確認與預付代價有關的非貨幣性資產或非貨幣性負債產生的開支或收入的匯率時，初步交易日期為本集團初步確認因預付代價而產生非貨幣性資產或非貨幣性負債的日期。倘存在多次付款或預收款項，本集團釐定預付代價各付款或收款交易日期。

因此而產生的匯兌差額於其他全面收益確認並於匯兌波動儲備累計。出售外國業務時，與該項外國業務有關的其他全面收益的組成部分，會在損益確認。

因收購外國業務而產生的任何商譽及對資產與負債賬面值的公允價值調整作為外國業務之資產及負債處理，並按收市匯率換算。

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES

The preparation of the Group's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and their accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amounts of the assets or liabilities affected in the future.

Judgements

In the process of applying the Group's accounting policies, management has made the following judgements, apart from those involving estimations, which have the most significant effect on the amounts recognised in the financial statements:

Operating lease commitments – Group as lessor

The Group has entered into commercial property leases on its investment property portfolio. The Group has determined, based on an evaluation of the terms and conditions of the arrangements, that it retains all the significant risks and rewards of ownership of these properties which are leased out on operating leases.

3. 重大會計判斷及估計

編製本集團的歷史財務資料時，管理層須於報告日作出會影響所呈報收入、開支、資產與負債的報告金額及其披露以及或然負債披露的判斷、估計及假設。有關該等假設及估計的不明朗因素可能導致可能須對日後受到影響的資產與負債的賬面值作出重大調整。

判斷

在應用本集團的會計政策時，除涉及估計的判斷外，管理層亦作出下列判斷，其對財務報表的已確認金額影響至為重大：

經營租賃承擔 — 本集團作為出租人

本集團就其投資物業組合訂有商業物業租約。本集團按該等安排的條款及條件作出評估，釐定其保留於以經營租賃出租的物業的所有擁有權的重大風險及回報。

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES (Continued)

Judgements (Continued)

Classification between investment properties and completed properties held for sale

The Group determines whether a property qualifies as an investment property, and has developed criteria in making that judgement. Investment property is a property held to earn rentals or for capital appreciation or both. Therefore, the Group considers whether a property generates cash flows largely independently of the other assets held by the Group. Some properties comprise a portion that is held to earn rentals or for capital appreciation and another portion that is held for use in the production or supply of goods or services or for administrative purposes. If these portions could be sold separately or leased out separately under a finance lease, the Group accounts for the portions separately. If the portions could not be sold separately, the property is an investment property only if an insignificant portion is held for use in the production or supply of goods or services or for administrative purposes. Judgement is made on an individual property basis to determine whether ancillary services are so significant that a property does not qualify as an investment property.

Estimation uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below.

3. 重大會計判斷及估計(續)

判斷(續)

投資物業及持作銷售的完工物業的分類

本集團會釐定物業是否為投資物業，並已建立作出判斷的準則。投資物業為持有以賺取租金或資本增值或兩者的物業。因此，本集團會考慮物業是否大致獨立於本集團所持有的其他資產而產生現金流量。部分物業被持作賺取租金或資本增值用途，另一部分則被持作生產、貨物及服務供應或行政用途。倘若此等部分可分別出售或根據融資租賃分別出租，則本集團就將此等部分分別列賬。倘若該等部分無法分別出售，則只能於不重要部分作生產、貨物及服務供應或行政用途時，該物業方列為投資物業。按個別物業判斷以決定配套服務之重大程度是否足以使物業不再列為投資物業。

估計不明朗因素

下文所述可能引致資產及負債的賬面值於下個財政年度或須予以重大調整的重大風險且有關未來的主要假設，以及於報告期末存在的估計不明朗因素的其他主要來源。

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES (Continued)

Estimation uncertainty (Continued)

Provision for expected credit losses on trade receivables and prepayments, other receivables and other assets

The Group uses a provision matrix to calculate ECLs for trade receivables and prepayments, other receivables and other assets. The provision rates are based on days past due for groupings of various customer segments that have similar loss patterns (i.e., by geography, product type, customer type and rating, and coverage by letters of credit and other forms of credit insurance).

The expected loss rate is initially based on the Group's historical observed default rates. The Group will calibrate the matrix to adjust the historical credit loss experience with forward-looking information. For instance, if forecast economic conditions (i.e., gross domestic products) are expected to deteriorate over the next year which can lead to an increased number of defaults in the manufacturing sector, the historical default rates are adjusted. At each reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

The assessment of the correlation among historical observed default rates, forecast economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and forecast economic conditions. The Group's historical credit loss experience and forecast of economic conditions may also not be representative of customer's actual default in the future. The information about the ECLs on the Group's trade receivables and prepayments, other receivables and other assets is disclosed in note 24 and note 25 to the financial statements, respectively.

3. 重大會計判斷及估計(續)

估計不明朗因素(續)

貿易應收款項以及預付款項、其他應收款項及其他資產的預期信貸虧損撥備

本集團使用撥備矩陣計算貿易應收款項以及預付款項、其他應收款項及其他資產的預期信貸虧損。撥備率乃基於具有類似虧損模式的多個客戶分類組別(即按地區、產品類型、客戶類型及評級,以及信用狀或其他形式的信貸保險保障劃分)的逾期天數釐定。

預期虧損率初步根據本集團過往觀察違約率。本集團將按前瞻性資料校正矩陣以調整過往信貸虧損經驗。比如,倘預測經濟狀況(即國內生產總值)預期於來年轉差,則可能導致製造業違約數字增加,過往違約率因此調整。於各報告日期,過往觀察違約率已更新,及前瞻性估計變動已作分析。

過往觀察違約率、預測經濟狀況及預期信貸虧損之間相關性的評估為重大估計。預期信貸虧損金額對環境及預測經濟狀況變化相當敏感。本集團的過往信貸虧損經驗及預測經濟狀況可能無法代表客戶未來的實際違約。有關本集團貿易應收款項以及預付款項、其他應收款項及其他資產的預期信貸虧損的資料分別披露於財務報表附註24及25。

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES (Continued)

Estimation uncertainty (Continued)

Provision for properties under development and completed properties held for sale

The Group's properties under development and completed properties held for sale are stated at the lower of cost and net realisable value. Based on the Group's historical experience and the nature of the subject properties, the Group makes estimates of the selling prices, the costs of completion of properties under development, and the costs to be incurred in selling the properties based on prevailing market conditions.

If there is an increase in costs to completion or a decrease in net sales value, the net realisable value will decrease and this may result in a provision for properties under development and completed properties held for sale. Such provision requires the use of judgement and estimates. Where the expectation is different from the original estimate, the carrying value and provision for properties in the periods in which such estimate is changed will be adjusted accordingly.

PRC land appreciation tax ("LAT")

The Group is subject to LAT in the PRC. The provision for LAT is based on management's best estimates according to the understanding of the requirements set forth in the relevant PRC tax laws and regulations. The actual LAT liabilities are subject to the determination by the tax authorities upon the completion of the property development projects. The Group has not finalised its LAT calculation and payments with the tax authorities for all its property development projects. The final outcome could be different from the amounts that were initially recorded, and any differences will impact on the LAT expenses and the related provision in the period in which the differences realise.

3. 重大會計判斷及估計(續)

估計不明朗因素(續)

發展中物業及持作出售的完工物業的撥備

本集團的開發中物業及持作出售的完工物業以成本與可變現淨值的較低者入賬。本集團根據以往的經驗及所涉物業的性質估計發展中物業的售價與竣工成本，以及根據當前市況估計銷售物業將產生的費用。

倘竣工成本增加而銷售淨值降低，則可變現淨值會減少，可能導致須就發展中物業及持作銷售已竣工物業作出撥備。作出相關撥備時須運用判斷及估計。倘預期有別於原先估計，則會於變更估計期間相應調整物業賬面值及撥備。

中國土地增值稅(「土地增值稅」)

本集團須繳納中國土地增值稅。土地增值稅撥備根據管理層對中國相關稅務法律及法規所載規定的理解所作最佳估計計提。實際的土地增值稅負債須待物業發展項目竣工後由稅務機關釐定。本集團尚未就其全部物業發展項目與稅務機關最終確定土地增值稅的計算及付款。最終結果可能與初步入賬的金額不同，差額會影響差額變現期間的土地增值稅開支及相關撥備。

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES (Continued)

Estimation uncertainty (Continued)

Estimate of fair value of investment properties

In the absence of current prices in an active market for similar properties, the Group considers information from a variety of sources, including:

- (a) current prices in an active market for properties of a different nature, condition or location, adjusted to reflect those differences;
- (b) recent prices of similar properties on less active markets, with adjustments to reflect any changes in economic conditions since the date of the transactions that occurred at those prices; and
- (c) discounted cash flow projections based on reliable estimates of future cash flows, supported by the terms of any existing lease and other contracts and (when possible) by external evidence such as current market rents for similar properties in the same location and condition, and using discount rates that reflect current market assessments of the uncertainty in the amount and timing of the cash flows.

At 31 December 2018, the carrying amount of investment properties was RMB9,397,000,000 (31 December 2017: RMB8,722,859,000). Further details, including the key assumptions used for fair value measurement and a sensitivity analysis, are given in note 14 to the financial statements.

3. 重大會計判斷及估計(續)

估計不明朗因素(續)

投資物業公允價值估計

若無類似物業在活躍市場的現價，本集團將考慮來自多種來源之資料，其中包括：

- (a) 不同性質、狀況或地點之物業於活躍市場之現有價格(經調整以反映各項差異)；
- (b) 活躍程度稍遜之市場所提供同類物業近期價格(經調整以反映自按該等價格進行交易當日以來經濟狀況之任何變動)；及
- (c) 根據未來現金流量所作可靠估計預測之經貼現現金流量，此項預測以任何現有租約及其他合約之條款以及(在可行情況下)外來證據(如地點及狀況相同之類似物業現有市場租值)為憑證，並採用可反映有關現金流量金額及時間不明朗因素當時市場評估之貼現率。

於2018年12月31日，投資物業之賬面值為人民幣9,397,000,000元(2017年12月31日：人民幣8,722,859,000元)。進一步詳情(包括用作公允價值計量及敏感度分析之主要假設)載於財務報表附註14。

4. OPERATING SEGMENT INFORMATION

For management purpose, the Group is organised into business units based on the products and services they provide and has three reportable operating segments as follows:

- Property development
- Commercial property investment and operation
- Hotel operations

Management monitors the results of the Group's operating segments separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on reportable segment profit/loss, which is a measure of adjusted profit/loss before tax. The adjusted profit/loss before tax is measured consistently with Group's profit/loss before tax except that interest income, foreign exchange gains and finance costs as well as head office and corporated expenses are excluded from such measurement.

Segment net assets exclude other unallocated head office and corporate assets and liabilities as these assets and liabilities are managed on a group basis.

Intersement sales and transfers are transacted in accordance with the terms and conditions mutually agreed by the parties involved.

4. 經營分部數據

就管理而言，本集團根據所提供的產品及服務分為業務單位，三個可報告的經營分部如下：

- 物業開發
- 商業物業投資與經營
- 酒店經營

管理層獨立監察本集團營運分部業績，藉此決定資源分配及評核表現。分部表現基於可報告分部利潤／虧損（為經調整稅前利潤／虧損之計量方式）評定。經調整稅前利潤／虧損之計量方式與本集團稅前利潤／虧損之計量方式一致，惟計量前者時不包括利息收入、外匯收益、融資成本以及未分配總部及企業開支。

分部資產淨額不包括其他未分配的總部及企業資產及負債，原因為該等資產按集團基準管理。

分部間的銷售及轉讓根據相關各方共同商定的條款及條件進行。

4. OPERATING SEGMENT INFORMATION
(Continued)

The Group's operations are mainly conducted in Mainland China. Management considered there is no reportable geographic segment as all revenues from external customers are generated in Mainland China and the Group's significant non-current assets are located in Mainland China.

4. 經營分部數據(續)

本集團的業務主要在中國內地進行。管理層認為並無可報告地域分部，原因為來自外部客戶的所有收入均來自中國內地，且本集團的主要非流動資產位於中國內地。

	Valuation techniques 估值技術	Significant unobservable inputs 重大不可觀察輸入數據	Range or weighted average 範圍或加權平均數	
			2018 2018年	2017 2017年
Completed commercial properties 已完工商業物業	Income capitalisation method 收入資本化法	Estimated rental value (RMB per sq.m. and per month) 估計租值(每平方米及每月)	55-237	55-178
		Capitalisation rate 資本化率	4%-6.5%	4%-6.5%
		Long term vacancy rate 長期空置率	5%-15%	2%-5%
Commercial properties under construction 在建商業物業	Comparison method 比較法	Expected profit margin 預期利潤率	-	10%
		Estimated land price 預期土地價格	3,200-4,600	3,000-4,720

The fair value of completed commercial properties is determined by the income capitalisation method by taking into account the net rental income of the properties derived from the existing leases and/or achievable in the existing market with due allowance for the reversionary income potential of the leases, which have been then capitalised to determine the fair value at an appropriate capitalisation rate. Where appropriate, reference has also been made to the comparable sales transactions as available in the relevant market.

A significant increase in the estimated rental value would result in a significant increase in the fair value of the investment properties. A significant increase (decrease) in the long term vacancy rate and the capitalisation rate in isolation would result in a significant decrease (increase) in the fair value of the investment properties.

已完工商業物業的公允價值乃通過收入資本化法釐定，方法是通過計及有關物業因現有租約而產生及／或在現行市況下可能取得的租金收入淨額(就租約的潛在續租收入作出充分撥備)，然後加以資本化，以按適當的資本化比率釐定公允價值。亦會在適當情況下參考相關市場上可獲得的可資比較銷售交易。

估計租值大幅增加將導致投資物業的公允價值大幅增加。長期空置率及資本化比率單獨大幅增加(減少)將導致投資物業的公允價值大幅減少(增加)。

14. INVESTMENT PROPERTIES (Continued)

The fair value of commercial properties under construction is determined by using the comparison method, with reference to comparable sales evidence as available in the relevant market to derive the fair value of the property assuming they were completed and, where appropriate, after deducting the following items:

- Estimated construction costs and professional fees to be expensed to complete the properties that would be incurred by a market participant; and
- Estimated profit margin that a market participant would require to hold and develop the property to completion.

The higher the estimated construction costs the lower the fair value of the investment properties under construction.

15. PREPAID LAND LEASE PAYMENTS

		2018 2018年 RMB'000 人民幣千元	2017 2017年 RMB'000 人民幣千元

14. 投資物業(續)

在建商業物業的公允價值使用比較法釐定，經參考相關市場上可獲得的可資比較交易個案並(如適用)經扣除以下項目後得出物業的公允價值(假設其已完工)：

- 市場參與者完成物業將產生的估計建築成本及將支付的專業費用；及
- 市場參與者將房地產開發至完工所要求持有的估計利潤率。

估計建築成本越高，在建投資物業公允價值越低。

15. 預付土地租賃款項

Deferred tax liabilities (Continued)

For presentation purposes, certain deferred tax assets and liabilities have been offset in the consolidated statement of financial position. The following is an analysis of the deferred tax balances for financial reporting purposes:

		2018 2018年 RMB'000 人民幣千元	2017 2017年 RMB'000 人民幣千元
Net deferred tax assets recognised in the consolidated statement of financial position	於綜合財務狀況表內確認的遞延稅項資產淨值	443,060	185,813
Net deferred tax liabilities recognised in the consolidated statement of financial position	於綜合財務狀況表內確認的遞延稅項負債淨值	(2,330,160)	(1,911,027)
		(1,887,100)	(1,725,214)

Pursuant to the PRC Corporate Income Tax Law, a 10% withholding tax is levied on dividends declared to foreign investors from the foreign investment enterprises established in Mainland China. The requirement is effective from 1 January 2008 and applies to earnings after 31 December 2007. A lower withholding tax rate may be applied if there is a tax treaty between Mainland China and the jurisdiction of the foreign investors. For the Group, the applicable rate is 10%. The Group is therefore liable for withholding taxes on dividends distributed by those subsidiaries established in Mainland China in respect of earnings generated from 1 January 2008.

As at 31 December 2018, RMB170,000,000 has been recognised withholding taxes that would be payable on the unremitted earnings that are subject to withholding taxes of the Group's subsidiaries established in Mainland China. In the opinion of the directors of the Company, the Group's fund will be retained in Mainland China for the expansion of the Group's operation, so it is not probable that these subsidiaries will distribute such earnings in the foreseeable future. The aggregate amount of temporary differences associated with investments in subsidiaries in Mainland China for which deferred tax liabilities have not been recognised totalled approximately RMB7,060,112,000 (2017: RMB5,854,286,000).

19. 遞延稅項(續)

遞延稅項負債(續)

就呈列而言，若干遞延稅項資產及負債已於綜合財務狀況表內抵銷。以下為就財務申報目的的遞延稅項結餘分析：

根據《中華人民共和國企業所得稅法》，在中國內地成立的外商投資企業向海外投資者宣派的股息將徵收10%的預扣稅。該規定自2008年1月1日起生效並適用於2007年12月31日後產生的盈利。倘中國內地與該海外投資者所處司法管轄區存在稅收安排，可採用較低預扣稅率。本集團的適用稅率為10%。因此，本集團須就該等在中國內地成立附屬公司就自2008年1月1日起產生的盈利所分派的股息繳納預扣稅。

於2018年12月31日，已就本集團於中國內地成立的附屬公司須繳納預扣稅的未匯出盈利應付的預扣稅確認人民幣170,000,000元。本公司董事認為，本集團的資金將留存於中國內地，以擴充本集團的業務，因此該等附屬公司將不大可能於可預見未來分派該等盈利。與投資於中國內地附屬公司而尚未確認遞延稅項負債有關的暫時性差額總額約為人民幣7,060,112,000元(2017年：人民幣5,854,286,000元)。

24. TRADE AND BILLS RECEIVABLES (Continued)

Receivables that were neither past due nor impaired relate to a large number of diversified customers for whom there was no recent history of default.

The Group applies the simplified approach to providing for expected credit losses prescribed by IFRS 9, which permits the use of the lifetime expected loss provision for all trade receivables. To measure the expected credit losses, trade receivables have been grouped based on shared credit risk characteristics and the days past due. Expected loss rate of trade receivables is assessed to be 0.1%. Based on evaluation on expected loss rate and gross carrying amount, the directors of the Company are of the opinion that the ECL in respect of these balances is considered immaterial and therefore there has not been a loss allowance provision.

25. PREPAYMENTS, OTHER RECEIVABLES AND OTHER ASSETS

24. 貿易應收款項及應收票據(續)

既未逾期亦無減值之應收款項與各行業大量近期無拖欠記錄之客戶有關。

本集團根據《國際財務報告準則》第9號的規定應用簡易方法為預期信貸虧損計提撥備，該準則允許所有貿易應收款項採用整個存續期的預期虧損撥備。為計算預期信貸虧損，貿易應收款項已根據共享信用風險特徵及逾期日數分類。貿易應收款項的預期虧損率評估為0.1%。根據對預期虧損率和賬面總額的評估，本公司董事認為，有關該等結餘的預期信貸虧損不算重大，因此並無就其進行虧損撥備。

The internal credit rating of amounts due from non-controlling shareholders of subsidiaries, amounts due from third parties and other deposits were performing. The Group has assessed that the credit risk of these receivables has not increased significantly since initial recognition. The expected loss rate of these receivables is assessed to be 0.1%. The Group has evaluated the expected loss rate and gross carrying amount, measured the impairment based on the 12-month expected credit losses, and assessed that the expected credit losses were RMB8,521,000 as at 31 December 2018 (2017: Nil).

26. CONTRACT ASSETS

The RMB is not freely convertible into other currencies, however, under Mainland China's Foreign Exchange Control Regulations and Administration of Settlement, Sale and Payment of Foreign Exchange Regulations, the Group is permitted to exchange RMB for other currencies through banks authorised to conduct foreign exchange business.

Cash at banks earns interest at floating rates based on daily bank deposit rates. The bank balances are deposited with creditworthy banks with no recent history of default. The carrying amounts of the cash and cash equivalents approximate to their fair values.

As at 31 December 2018, internal credit rating of restricted cash, pledged deposits and cash and cash equivalents were performing. The Group has assessed that the credit risk of the restricted cash, pledged deposits and cash and cash equivalents has not increased significantly since initial recognition and measured the impairment based on 12-month expected credit loss, and has assessed that the expected credit losses are immaterial.

人民幣不得自由兌換為其他貨幣，但根據中國內地的《外匯管理條例》及《結匯、售匯及付匯管理規定》，本集團可通過獲授權進行外匯業務的銀行將人民幣兌換為其他貨幣。

銀行現金根據每日銀行存款利率按浮動利率計息。銀行結餘存於近期無違約歷史的信譽可靠的銀行。現金及現金等價物的賬面值與其公允價值相若。

截至2018年12月31日，受限制現金、已質押存款及現金及現金等價物正接受內部信用評級。本集團估計受限制現金、已質押存款及現金及現金等價物的信貸風險自初次確認後並無大幅增加，且根據12個月預期信貸虧損計量減值，估計預期信貸虧損並不重大。

年內授出的購股權公允價值為人民幣87,985,000元(每份0.95港元)(2017年：零)，其中本集團於截至2018年12月31日止年度確認人民幣24,326,000元(2017年：零)的購股權開支。

36. SHARE OPTION SCHEME (Continued)

Pre-IPO Share Option Scheme ("Pre-IPO Scheme") (Continued)

The fair value of equity-settled share options granted during the year was estimated as at the date of grant using a binomial model, taking into account the terms and conditions upon which the options were granted. The following table lists the inputs to the model used:

		2018 2018年	2017 2017年
Dividend yield (%)	股息率(%)	2.14	-
Expected volatility (%)	預期波幅(%)	43.66	-
Risk-free interest rate (%)	無風險利率(%)	3.64	-
Expected life of options (year)	購股權預計有效年期(年)	4.62-7.17	-
Weighted average share price (HK\$ per share)	加權平均股價(每股港元)	2.28	-

The expected life of the options is based on the benchmark of the industry and is not necessarily indicative of the exercise patterns that may occur. The expected volatility reflects the assumption the management made and is indicative of future trends, which may also not necessarily be the actual outcome.

No other feature of the options granted was incorporated into the measurement of fair value.

At the end of the reporting period, the Company had 112,000,000 share options outstanding under the Pre-IPO Scheme. The exercise in full of the outstanding share options would, under the present capital structure of the Company, result in the issue of 112,000,000 additional ordinary shares of the Company and additional share capital of RMB168,770,000 (before issue expenses).

At the date of approval of these financial statements, the Company had 112,000,000 share options outstanding under the Pre-IPO Scheme, which represented approximately 3.5% of the Company's shares.

36. 購股權計劃(續)

首次公開發售前購股權計劃(「首次公開發售前計劃」)(續)

本年度授出的股權支付購股權於授出日期按二項式估算，估算時將授出購股權的條件及條款納入考慮。下表載列該模式所使用的參數：

購股權的預計年期乃基於行業基準且並不一定反映可能出現的行權方式。預期波幅反映管理層的假設且能表明未來趨勢(但不一定為實際結果)。

公允價值的計算並無計入已授出的購股權的其他特點。

於報告期末，本公司在首次公開發售前計劃下擁有112,000,000份尚未行使的購股權。在本公司現行資本架構下，行使全數未行使的購股權將會導致本公司發行112,000,000股額外普通股及約人民幣168,770,000元額外股本(扣除發行開支前)。

截至該等財務報表批准之日，本公司在首次公開發售前計劃下擁有112,000,000份尚未行使的購股權，相等於本公司股份的約3.5%。

40. CONTINGENT LIABILITIES (Continued)

- (1) The Group provided guarantees in respect of mortgage facilities granted by certain banks to the purchasers of the Group's completed properties held for sale. Pursuant to the terms of the guarantee arrangements, in case of default on mortgage payments by the purchasers, the Group is responsible to repay the outstanding mortgage principals together with any accrued interest and penalties owed by the defaulted purchasers to those banks.

Under the above arrangement, the related properties were pledged to the banks as collateral for the mortgage loans, upon default on mortgage repayments by these purchasers, the banks are entitled to take over the legal titles and will realise the pledged properties through open auction.

The Group's guarantee period starts from the dates of grant of the relevant mortgage loans and ends upon the issuance and registration of property ownership certificates to the purchasers, which will generally be available within one to two years after the purchasers take possession of the relevant properties.

The Group did not incur any material losses during the year in respect of the guarantees provided for mortgage facilities granted to purchasers of the Group's completed properties held for sale. The directors of the Company considered that in case of default on payments, the net realisable value of the related properties would be sufficient to repay the outstanding mortgage loans together with any accrued interest and penalty, and therefore no provision has been made in connection with the guarantees.

- (2) The Group provided guarantees to banks and other institutions in connection with financial facilities granted to joint ventures and associates. Further details are included in note 43.

40. 或有負債(續)

- (1) 本集團就若干銀行向本集團持作出售的已完工物業買家授出的抵押融資提供擔保。根據擔保安排的條款，如買家拖欠按揭付款，本集團負責向該等銀行償還未償還抵押本金及違約買家所欠的任何應計利息及罰款。

根據上述安排，相關物業已質押予該等銀行作為抵押貸款的抵押品；倘該等買家拖欠抵押還款，該等銀行有權接管有關法定業權，並通過公開拍賣將抵押物業變現。

本集團的擔保期由授出相關抵押貸款日期起至買家獲發物業所有權證及辦理登記止，有關證明一般會於買家接管相關物業後的一至兩年內取得。

年內，本集團並未就向本集團持作出售的已完工物業買家授出的抵押融資提供擔保產生任何重大損失。本公司董事認為如出現違約付款，相關物業的可變現淨值可足以償還未償還抵押貸款連同任何應計利息及罰款，故並無對擔保計提撥備。

- (2) 本集團就授予合資企業及聯營公司的財務融資向銀行及其他機構提供擔保。詳情載於附註43。

45. FAIR VALUE AND FAIR VALUE HIERARCHY OF FINANCIAL INSTRUMENTS

The carrying amounts and fair values of the Group's financial instruments, other than those with carrying amounts that reasonably approximate to fair values, are as follows:

		Carrying amounts		Fair values	
		賬面值		公允價值	
		2018	2017	2018	2017
		2018年	2017年	2018年	2017年
		RMB'000	RMB'000	RMB'000	RMB'000

Financial liabilities	金融負債				
Interest-bearing bank and other borrowings	計息銀行貸款及其他借款	19,326,501	11,629,499	19,174,923	11,594,698
Senior notes	優先票據	2,592,868	-	2,612,371	-
		21,919,369	11,629,499	21,787,294	11,594,698

Management has assessed that the fair values of cash and cash equivalents, pledged deposits, restricted cash, trade receivables, trade and bills payables, financial assets included in prepayments, other receivables and other assets, financial liabilities included in other payables and accruals, amounts due from/to related companies and Financial guarantee contracts approximate to their carrying amounts largely due to the short term maturities of these instruments.

The Group's finance department headed by the finance manager is responsible for determining the policies and procedures for the fair value measurement of financial instruments. The finance manager reports directly to the chief financial officer. At each reporting date, the finance department analyses the movements in the values of financial instruments and determines the major inputs applied in the valuation. The valuation is reviewed and approved by the chief financial officer.

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

45. 金融工具的公允價值及公允價值層級

本集團金融工具(不包括該等賬面值與公允價值合理相若的金融工具)的賬面值及公允價值如下:

管理層已評估現金及現金等價物、已質押存款、受限制現金、貿易應收款項、貿易應付款項及應付票據、計入預付款項、其他應收款項及其他資產的金融資產、計入其他應付款項及應計費用的金融負債、應收/應付關聯公司款項及財務擔保合約的公允價值很大程度與其賬面值相若，這是由於該等工具的到期日較短所致。

本集團財務部門由財務經理帶領，負責釐定金融工具公允價值計量的政策及程序。財務經理直接向財務總監彙報。於各報告日期，財務部門分析金融工具價值的變動，確定估值採用的主要輸入數據。估值由財務總監審批。

金融資產及負債的公允價值以該工具自願交易方(強迫或清盤出售除外)當前交易下可交易金額入賬。

45. FAIR VALUE AND FAIR VALUE HIERARCHY OF FINANCIAL INSTRUMENTS (Continued)

The following methods and assumptions were used to estimate the fair values:

The fair values of interest-bearing bank and other borrowings have been calculated by discounting the expected future cash flows using rates currently available for instruments with similar terms, credit risk and remaining maturities. The Group's own non-performance risk for interest-bearing bank and other borrowings as at 31 December 2018 was assessed to be insignificant.

The fair values of senior notes are based on quoted market prices.

The Group invests in unlisted investments, which represent wealth management products issued by banks in Mainland China and wealth management private funds in Hong Kong. The Group has estimated the fair value of these unlisted investments by using a discounted cash flow valuation model based on the market interest rates of instruments with similar terms and risks.

45. 金融工具的公允價值及公允價值層級 (續)

以下方法及假設均用來估算公允價值：

計息銀行貸款及其他借款的公允價值已就預期未來現金流量按條款、信貸風險及剩餘到期情況相類似的工具的目前可用比率貼現計算。截至2018年12月31日，本集團計息銀行貸款及其他借款的未履約風險被評定為不重大。

優先票據的公允價值乃基於市場報價。

本集團投資於非上市投資，即中國內地銀行發行的理財產品及及香港理財產品私募基金。本集團已使用貼現現金流估值模型，按條款及風險相類的工具的市場利率，估計該等非上市投資的公平值。

46. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's principal financial instruments mainly include cash and bank balances, restricted cash, trade receivables, and trade and other payables, which arise directly from its operations. The Group has other financial assets and liabilities such as interest-bearing bank and other borrowings, senior notes, corporate notes, financial instruments at fair value through profit or loss, amounts with related companies and other receivables. The main purpose of these financial instruments is to raise finance for the Group's operations.

The main risks arising from the Group's financial instruments are interest rate risk, foreign currency risk, credit risk and liquidity risk. Generally, the Group introduces conservative strategies on its risk management. The Group does not hold or issue derivative financial instruments for trading purposes. The board of directors reviews and agrees policies for managing each of these risks and they are summarised below:

(a) Interest rate risk

The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's long term debt obligations with floating interest rates.

The following table demonstrates the sensitivity to a reasonably possible change in interest rates, with all other variables held constant, of the Group's profit before tax (through the impact on floating rate borrowings).

46. 財務風險管理目標及政策

本集團的主要金融工具主要包括現金及銀行結餘、受限制現金、貿易應收款項，以及貿易及其他應付款項，均直接來自本集團的營運。本集團的其他金融資產及負債包括計息銀行及其他借款、優先票據、公司票據、按公平值計入損益的金融工具、與關聯公司的往來款項及其他應收款項。該等金融工具主要用於為本集團籌集經營資金。

本集團金融工具產生的主要風險包括利率風險、外幣風險、信貸風險及流動資金風險。本集團對風險管理一般採取保守策略。本集團並無持有或發行衍生金融工具作買賣用途。董事會檢討及協定控制各類風險的政策，有關政策概述如下：

(a) 利率風險

本集團所承受市場利率變動風險主要與本集團的浮動利率長期債務有關。

下表載列在所有其他變數維持不變之情況下，本集團之除稅前溢利(透過浮動利率借款所受影響)對利率合理可能出現變動之敏感程度。

46. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

(a) Interest rate risk (Continued)

46. 財務風險管理目標及政策(續)

		Increase/ (decrease) in basis points 基點增加/ (減少) %	Increase/ (decrease) in profit before tax 除稅前溢利 增加/(減少) RMB'000 人民幣千元

31 December 2017			
RMB	於2017年12月31日 人民幣	25	16,705
RMB	人民幣	(25)	(16,705)

The sensitivity analysis above has been determined assuming that the change in interest rates had occurred at the end of the year and has applied the exposure to interest rate risk to those bank and other borrowings in existence at that date. The estimated percentage increase or decrease represents management's assessment of a reasonably possible change in interest rates over the year until the end of the next reporting period.

以上的敏感度分析乃假設利率變動已於年終時發生而釐定，並已計入於該日存在的銀行貸款及其他借款所面臨的利率風險。估計百分比上調或下調指管理層對直至下一個報告期間結束止年度利率的可能合理變動的評估。

46. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

(b) Foreign currency risk

The Group has transactional currency exposures. Such exposures arise from sales or purchases by operating units in currencies other than the units' functional currencies. None of the Group's sales were denominated in currencies other than the functional currencies of the operating units making the sale, whilst 100% of costs were denominated in the units' functional currencies.

In addition, the Group has currency exposures from its cash and cash equivalents, financial assets at fair value through profit or loss and senior notes.

The following table demonstrates the sensitivity at the end of the reporting period to a reasonably possible change in the USD and HKD exchange rate, with all other variables held constant, of the Group's profit before tax (due to changes in the fair values of monetary assets and liabilities)

46. 財務風險管理目標及政策(續)

(b) 外匯風險

本集團面臨交易貨幣風險。有關風險源自與非功能貨幣單位的購貨及銷售交易。本集團的銷售均無以進行出售的經營單位的功能貨幣以外的貨幣計算，而100%的成本則以該等單位的功能貨幣計算。

此外，本集團因現金及現金等價物、按公允價值計入損益的金融資產及優先票據而面臨外匯風險。

下表闡述於各報告期末，在所有其他變數維持不變的情況下，本集團的稅前利潤（由貨幣資產及負債的公允價值變動所致）對美元及港元匯率合理可能變動的敏感度：

		Increase/ (decrease) in USD/HKD rate 美元/ 港元匯率上 升/(下降)	Increase/ (decrease) in profit before tax 稅前利潤 上升/(下降)

If the RMB strengthens against the HKD	如人民幣兌港元升值	+5%	(71)

46. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

(c) Credit risk

Under IAS 39 (applicable before 1 January 2018)

Credit risk is the risk of loss due to the inability or unwillingness of a counterparty to meet its contractual obligations from 1 January 2017 to 31 December 2017.

The Group has no concentrations of credit risk in view of its large number of customers. The Group did not record any significant bad debt losses as at 31 December 2017.

The credit risk of the Group's other financial assets, which mainly comprise restricted cash and pledged deposits, cash and cash equivalent, financial assets included in prepayments, deposits and other receivables, and amounts due from related companies, arises from default of the counterparty, with a maximum exposure equal to the carrying amounts of these instruments as at 31 December 2017.

Under IFRS 9 (applicable from 1 January 2018)

The carrying amounts of restricted cash, pledged deposits, cash and cash equivalents, trade receivables, financial assets included in prepayments, deposits and other receivables, financial assets at fair value through profit or loss and amounts due from related companies included in the statements of financial position represent the Group's maximum exposure to credit risk in relation to its financial assets as at 31 December 2018.

46. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

(c) Credit risk (Continued)

*Under IFRS 9 (applicable from 1 January 2018)
(Continued)*

The Group groups financial instruments on basis of shared credit risk characteristics, such as instrument type and credit risk ratings for the purpose of determining significant increases in credit risk and calculation of impairment. The Group has no significant concentrations of credit risk, with exposure spread over a large number of counterparties and customers.

The Group applies the simplified approach to provide for ECL prescribed by IFRS 9, which permits the use of the lifetime expected loss provision for all trade receivables. The expected credit losses also incorporated forward-looking information based on key economic variables such as the per capita disposable income of urban residents and central bank base rate.

A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- significant financial difficulty of the debtor;
- a breach of contract such as a default or past due event;
- it is probable that the debtor will enter bankruptcy or other financial reorganisation;

(c) 信貸風險(續)

*根據《國際財務報告準則》第9號(自
2018年1月1日適用)(續)*

本集團根據共有信貸風險特徵(如工具類型及信貸風險評級)將金融工具分組,以確定有否信貸風險顯著增加及計算減值。本集團並無重大信貸風險集中情況,風險分散至大量對手方及客戶。

本集團根據《國際財務報告準則》第9號的規定應用簡易方法為預期信貸虧損計提撥備,該準則允許所有貿易應收款項採用整個存續期的預期虧損撥備。預期信貸虧損亦包括根據關鍵經濟變量(例如城市居民人均可支配收入及中央銀行基準利率)而作出的前瞻性資料。

當發生一項或多項對金融資產估計未來現金流量有不利影響的事件時,金融資產出現信貸減值。金融資產出現信貸減值的證據包括以下可觀察事件:

- 債務人出現嚴重財務困難;
- 違反合約,如欠繳或拖欠款項;
- 債務人可能將告破產或進行其他財務重組。

46. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

(c) Credit risk (Continued)

*Under IFRS 9 (applicable from 1 January 2018)
(Continued)*

The Group has established a policy to perform an assessment for the period beginning on or after 1 January 2018 of whether a financial instrument's credit risk has increased significantly since initial recognition, by considering the change in the risk of default occurring over the remaining life of the financial instrument. The Group groups its other receivables and amounts due from related companies into Stage 1, Stage 2 and Stage 3, as described below:

- Stage 1: When other receivables and amounts due from related companies are first recognised, the Group recognises an allowance based on 12 months' ECLs.
- Stage 2: When other receivables and amounts due from related companies has shown a significant increase in credit risk since origination, the Group records an allowance for the lifetime ECLs.
- Stage 3: When other receivables and amounts due from related companies considered are credit-impaired, the Group records an allowance for the lifetime ECLs.

(c) 信貸風險(續)

*根據《國際財務報告準則》第9號(自
2018年1月1日適用)(續)*

本集團已制定政策以於2018年1月1日當日或之後開始的期間評估金融工具的信貸風險自初始確認以來是否出現大幅增加，方式為考慮該金融工具剩餘年期出現違約的風險變動。本集團將其他應收款項及應收關聯公司款項分為第1階段、第2階段及第3階段，詳情如下：

- 第1階段 當首次確認其他應收款項及應收關聯公司款項時，本集團按12個月預期信貸虧損確認撥備。
- 第2階段 當其他應收款項及應收關聯公司款項自產生以來信貸風險出現大幅增加，本集團按整個存續期的預期信貸虧損入賬撥備。
- 第3階段 當其他應收款項及應收關聯公司款項被視為出現信貸減值時，本集團按整個存續期的預期信貸虧損入賬撥備。
