Logan Group Company Limited ("Logan Group" or the "Group") was founded in 1996, and listed on the main board of the Hong Kong Stock Exchange in 2013 (Stock Code: 3380.HK). In 2017, the Group embarked on its business footprint into overseas market and the Hong Kong Special Administrative Region. The Group possesses the national first-class qualification for real estate development, the national first-class qualification for general construction contracting projects and the first-class qualification for engineering design.

Logan Group is an integrated city service provider dedicated to building a better life. Since its founding, adhering to the brand concept of "Shaping Cities and Homes with Responsibility and Sincerity", the Group's national strategic footprint spreads across the most valuable core metropolises in China, such as Guangdong-Hong Kong-Macao Greater Bay Area, the core metropolises of the Yangtze River Delta, and southwest China and central China city-clusters. As of 31 December 2024, the Group's land reserves available for development reached approximately 23.61 million square meters, of which the value of land reserves in Greater Bay Area and Yangtze River Delta Region accounted for approximately 76%, reflecting our well-structured urban mix. For more than 20 years of development, the Group has formed product lines, including the "Tian", "Jiu", "Jiangnan" and other collections, which so far developed more than 200 real estate projects, providing high-quality residential services to over one million people.

Owing to its commitment to a sustainable development strategy, in 2024, the Group has maintained an "A" ESG rating by MSCI, a renowned global index complier.

## **CORPORATE STRUCTURE**

#### Dear Shareholders,

On behalf of the board of directors (the "Board") of Logan Group Company Limited, I hereby present the annual results of the Group for the year ended 31 December 2024.

#### **Business Review**

In 2024, China's real estate industry remained in an adjustment cycle. Investment in real estate development in the country decreased by 10.6% year-on-year to RMB10,028 billion; among which, investment in residential properties amounted to RMB7,604 billion, representing a year-on-year decrease of 10.5%. The sales area of commercial properties was 973.85 million square meters, representing a year-on-year decrease of 12.9%, with the sales area of residential properties decreasing by 14.1%. The sales revenue of commercial properties was RMB9,675 billion, down 17.1% from the previous year, with the sales of residential properties decreasing by 17.6%.

In the face of a tough year, the Group proactively responded to the challenges by timely adjusting its business strategies, continuously conducting refined management, implementing measures to bolster project sales and recoup capital for ensuring the development and operation of the projects. The Group made all efforts to achieve the goal of "stabilizing operations and ensuring housing project deliveries". Throughout 2024, the Group successfully completed a total delivery of 70 batches of projects and over 28,000 units, fulfilling its corporate commitments and demonstrating its sense of responsibility.

Regarding the offshore holistic debt restructuring, the Group and its financial advisors have been actively communicating with all creditors and treat all creditors in a fair and equitable manner. On 6 January 2025, the Group made significant progress and announced the holistic restructuring proposal in respect of the offshore debt, which seeks to ensure that the Company continues to operate as a going concern for the benefit of its stakeholders as a whole. On 10 January 2025, the Group has reached an agreement with the ad hoc group of holders of the existing notes in relation to the holistic restructuring proposal in respect of the offshore debt and entered into the creditor support agreement (the "Holistic CSA"), marking a significant milestone in relation to the holistic debt restructuring of the Group. As of 27 February 2025, consenting creditors holding more than 80.8% of the aggregate principal amount of part of the Group's offshore debt amounting to US\$6,207 million (including the existing notes, the equity-linked securities (ELS), the existing loans, and the structured finance and guaranteed debts) have acceded to the Holistic CSA. Within just over a month after the announcement of such proposal, the Group has received widespread recognition and support from its creditors for the holistic restructuring proposal in respect of the offshore debt, which reflects that the Company has treated its creditors fairly with the utmost sincerity and protected the interests of its creditors as a whole.

As for the onshore debt restructuring, on 11 July 2024, the resolutions on adjustment to the payment arrangements for the principal and interest of 21 onshore corporate bonds and asset-backed securities (ABS) issued by Shenzhen Logan Holdings Co., Ltd.\* (深圳市龍光控股有限公司), a wholly-owned subsidiary of the Group, were approved at relevant bondholders' meeting. This provides the Group with time to formulate a restructuring proposal that aligns with the actual conditions of the industry. On 17 March 2025, the Group published the holistic restructuring proposal in respect of the onshore debt to its investors. In line with the current market environment and the actual situation of the Company's business, such proposal provides diversified options taking into account the needs of different types of investors. The Company will actively communicate with its investors to obtain their support of and approval for the holistic restructuring proposal in respect of the onshore debt.

#### **Future Prospects**

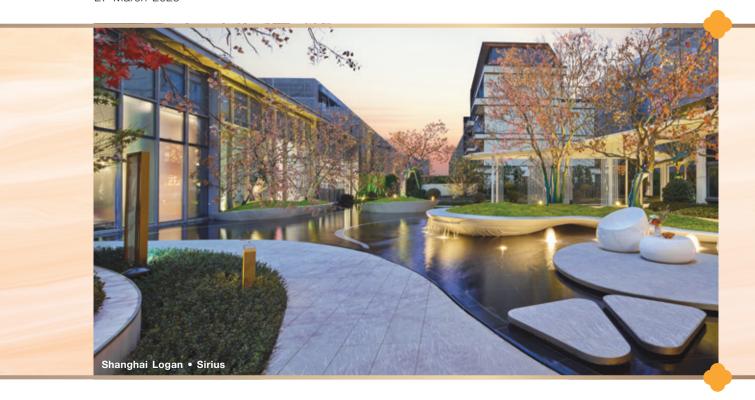

Over the past year, China's central government put forward the goal of reversing the downturn of and stabilizing the real estate market, and continuously introduced policies in support of the real estate industry, such as measures for optimization of new housing supply and digestion of existing housing inventory, continuously relaxing purchase restrictions in core cities, lowering down payment requirements and mortgage interest rates, accelerating the implementation of the renovation of urban villages and dilapidated houses, and promoting the acquisition of existing commercial housing. However, the effects of these policies will take time to manifest. The Group will continue to focus on both operation and debt management. On one hand, the Group will persist in taking proactive measures to "ensure property deliveries and stabilize operations". On the other hand, the holistic restructuring proposal in respect of the offshore debt of the Group has been supported and approved by the majority of its creditors, which will accelerate the implementation of the holistic restructuring proposal in respect of the offshore debt. Besides, the Group will also continue to communicate with creditors across different classes on the onshore debt restructuring, making every effort to expedite the completion of onshore and offshore holistic debt restructuring.

#### Acknowledgements

On behalf of the Board, I express my heartfelt gratitude to all the Group's shareholders, investors, partners, customers, and the community for their support and trust. I would also like to extend my thanks to all employees for their dedication and overcoming difficulties in the industry together.

#### Kei Hoi Pang

## Business Review Property Development

In 2024, China's economic development faced increased external pressures and more internal difficulties. The overall situation of the real estate sector remained complex and severe, and the market performance was sluggish in the first three quarters. On 26 September, China's central government clearly put forward the goal of "promoting the real estate market to stop falling and return to stability", pursuant to which, multiple departments have jointly introduced a series of policies. At the end of the year, there were initial signs of a recovery in sales in some core cities. However, the effectiveness of such policies still needs to be continuously observed. Against this backdrop, there was an inevitable decline in the sales of the Group for 2024 in line with lower industrial confidence. However, by exercising the flexibility in adjusting its marketing strategies and rationalizing the allocation of saleable resources, the Group strived to minimize the adverse impacts.

#### Contracted sales

For the year ended 31 December 2024, the Group achieved attributable contracted sales of approximately RMB7.18 billion. For the contracted sales in 2024, Greater Bay Area, Yangtze River Delta region, Southwest region and other regions accounted for approximately 52.1%, 14.9%, 9.2% and 23.8% respectively.

#### (I) Revenue

Total revenue of the Group for the year ended 31 December 2024 decreased by approximately RMB23,902.2 million, or approximately 50.7% to RMB23,264.6 million, as compared with 2023. The decrease was mainly due to the decrease in revenue from property development as compared to 2023. Revenue from property development for the year ended 31 December 2024 amounted to approximately RMB22,964.1 million, representing a decrease of approximately 50.9% as compared to RMB46,781.9 million in 2023. Yangtze River Delta Region, Greater Bay Area, Southwest Region and other regions contributed to the revenue from property development in 2024, accounting for 37.5%, 35.5%, 14.5% and 12.5%, respectively.

		Revenue from property development in 2024	
	Amount (RMB Million)	Percentage

#### (II) Cost of sales

Cost of sales of the Group for the year ended 31 December 2024 decreased by approximately RMB23,336.3 million to RMB28,339.9 million, or approximately 45.2%, as compared with 2023, primarily due to the decrease in revenue recognized as compared to 2023. In addition, the Group has made an inventory impairment provision of approximately RMB6,280.0 million due to the sharp decline in the industry in 2024. Key components of costs are as follows:

			Change
	2024	2023	per year
	RMB'000	RMB'000	%
Total cost of sales	28,339,884	51,676,220	-45.2%

### CORPORATE GOVERNANCE REPORT

The Board of the Company is pleased to present this corporate governance report for the period from 1 January 2024 to 31 December 2024.

#### Corporate Governance Practices

The Board is committed to achieving high corporate governance standards. The Board believes that high corporate governance standards are essential in providing a framework for the Group to safeguard the interests of shareholders of the Company (the "Shareholders") and enhance corporate value. The Company's corporate governance practices are based on the principles set out in Part 2 of the Corporate Governance Code (the "CG Code") contained in Appendix C1 of the Rules Governing the Listing of Securities (the "Listing Rules") on The Stock Exchange of Hong Kong Limited (the "Stock Exchange").

The Company has adopted, applied and complied with the CG Code for the year ended 31 December 2024.

#### Corporate Culture and Development Strategy

Since its establishment, the Company has always adhered to its core values of "pragmatic, innovative, sunshine and efficient", upheld the business philosophy of "customer first, service excellence", constantly enhanced its product and service quality, and turned itself into an "integrated city service provider" dedicated to building a better life, by providing high-quality residential services for more than one million people.

The Board integrates such corporate culture into forging the core competencies and formulates strategic planning for sustainable development and unremittingly strives to achieve the corporate vision of "Building a better life and an evergreen Logan", with a view to creating greater value for its shareholders and customers.

#### Model Code for Securities Transactions

The Company has adopted the Model Code for Securities Transactions by Directors of Listed Issuers (the "Model Code") as set out in Appendix C3 to the Listing Rules.

Specific enquiry has been made to all the Directors and the Directors have confirmed that they have complied with the Model Code throughout the year ended 31 December 2024. In addition, the Board has also adopted the principles and rules of the Model Code as written guidelines for relevant employees (the "Employees Written Guidelines") in respect of their dealings in the securities of the Company. No incident of non-compliance of the Employees Written Guidelines by the employees was noted by the Company.

#### Board of Directors

The Company is headed by an effective Board which is collectively responsible and works with the management for the long-term success of the Company. All directors act objectively in the best interests of the Company and hold management accountable for performance. The Board puts in place a code of conduct and ethics, sets appropriate tone from the top and promotes positive corporate culture, and ensures the Company's culture aligns with its purpose, values and strategies.

The Board should regularly review the contribution required from a Director to perform his/her responsibilities to the Company, and whether the Director is spending sufficient time performing them.

#### **Board Composition**

The Board currently comprises five executive Directors and four independent non-executive Directors. Independent non-executive Directors constitute not less than one-third of the Board.

The list of the Directors is set out in the section headed "Corporate Information" on page 6 and their biographies are set out in the section headed "Biographies of Directors and Senior Management" on pages 22 to 24 of this annual report. There is no relationship (including financial, business, family or other material relationship) between any members of the Board.

#### Chairman and Chief Executive Officer

The positions of chairman and chief executive officer are currently held by Mr. Kei Hoi Pang and Mr. Lai Zhuobin respectively. The chairman provides leadership and is responsible for the effective functioning and leadership of the Board. The chief executive officer focuses on the Company's business development and daily management and operations generally.

#### **Independent Non-executive Directors**

During the year 2024, the Board at all times met the requirements of the Listing Rules relating to the appointment of at least three independent non-executive Directors representing not less than one-third of the Board with one of whom possessing appropriate professional qualifications or accounting or related financial management expertise.

The Company has confirmed each of the independent non-executive Directors in respect of his/her independence in accordance with the independence guidelines set out in Rule 3.13 of the Listing Rules. The Company is of the view that all independent non-executive Directors are independent.

#### Appointment and Re-election of Directors

Each of the Directors is appointed for a specific term of three years. In accordance with the articles of association of the Company (the "Articles of Association") and Code Provision B.2.2 in Part 2 of the CG Code, each of the Directors is subject to retirement by rotation at least once every three years. In case of any Director appointed by the Board to fill a casual vacancy, or as an addition to the existing Board, such Director shall hold office until the next following annual general meeting and shall then be eligible for re-election by the Shareholders. Any further appointment of an independent non-executive Director, who has served the Board for more than nine years, shall be subject to a separate resolution to be approved by the Shareholders in accordance with Code Provision B.2.3 of the CG code.

#### Responsibilities, Accountabilities and Contributions of the Board and Management

The Board is responsible for leadership and control and oversees the Group's businesses, strategic decisions and performance and is collectively responsible for promoting the success of the Company by directing and supervising its affairs. The Board takes decisions objectively in the interests of the Company.

All Directors have brought a wide spectrum of valuable business experience, knowledge and professionalism to the Board for its efficient and effective functioning.

All Directors have timely access to appropriate information of the Company as well as the services and advice from the company secretary and senior management of the Company. The Directors may, upon request, seek independent professional advice in appropriate circumstances, at the Company's expenses for discharging their duties to the Company. The independent non-executive Directors are responsible for ensuring a high standard of regulatory reporting of the Company and providing a balance in the Board for bringing effective independent judgement on corporate actions and operations.

The Directors shall disclose to the Company details of other offices held by them and the Board regularly reviews the contribution required from each Director to perform his/her responsibilities to the Company. The Board reserves its decision on all major matters which relate to policies, strategies and budgets, internal control and risk management, material transactions (in particular those that may involve conflict of interests), financial information, appointment of Directors and other significant operational matters of the Company. Responsibilities relating to implementing decisions of the Board, directing and co-ordinating the daily operation and management of the Company are delegated to the management. The delegated functions are periodically reviewed. Approval has to be obtained from the Board prior to any significant transactions entered into by senior management.

The Board believes that independent non-executive Directors have brought their independent judgment on issues in connection with the Group's strategies, performance, conflict of interests and management process so that the interests of all Shareholders are considered and safeguarded.

#### **Continuous Professional Development of Directors**

Every newly appointed Director (if any) shall receive a formal and comprehensive induction on the first occasion of his/her appointment to ensure appropriate understanding of the business and operations of the Company and Director's responsibilities and obligations under the Listing Rules and relevant statutory requirements.

Directors' training is an on-going process. All Directors are encouraged to participate in continuous professional development to develop and refresh their knowledge and skills. The Company also updates Directors on any latest development regarding the Listing Rules and other applicable regulatory requirements from time to ensure compliance and enhance their awareness of good corporate governance practices.

#### **Board Diversity Policy**

The Company has adopted a board diversity policy (the "Board Diversity Policy") which sets out the approach to achieve diversity of the Board. The Company recognizes and embraces the benefits of having a diverse Board and sees increasing diversity at the Board level as an essential element in maintaining the Company's competitive advantage.

The Board consists of a diverse mix of Board members in terms of age and gender. Currently, the Board has two female Directors out of nine Directors and the Directors come from a variety of different backgrounds and have a diverse range of business, financial services and professional experience. The Company is committed to improving the diversity of the Board, senior management and the workforce based on its needs and as and when suitable candidates are identified. As at 31 December 2024, the full-time employees of the Group (including senior management) comprise about 61.4% male and 38.6% female. For details of the diversity of the Group's employees, please refer to the environmental, social and governance report of the Company.

Overview of the Board diversity is set out below:

Pursuant to the Board Diversity Policy, the Nomination Committee will review annually the structure, size and composition (in particular with regard to gender diversity) of the Board and where appropriate, make recommendations on changes to the Board to complement the Company's corporate strategy and to ensure that the Board maintains a balanced diverse profile. In relation to reviewing and assessing the Board composition, the Nomination Committee is committed to striving for diversity at all levels and will consider a number of aspects, including but not limited to gender, age, cultural and educational background, professional qualifications, skills, knowledge and regional and industry experience.

The Company aims to maintain an appropriate balance of diversity perspectives that are relevant to the Company's business growth and is also committed to ensuring that recruitment and selection practices at all levels (from the Board downwards) are appropriately structured so that a diverse range of candidates are considered.

The Nomination Committee has reviewed the implementation and effectiveness of the Board Diversity Policy and consider it to be effective during the year.

#### **Director Nomination Policy**

The Board has delegated its responsibilities and authority for selection and appointment of Directors to the Nomination Committee of the Company.

The Company has adopted a director nomination policy (the "Director Nomination Policy") which sets out the selection criteria and nomination process and the Board succession planning considerations in relation to nomination and appointment of Directors and aims to ensure that the Board has a balance of skills, experience and diversity of perspectives appropriate to the Company and the continuity of the Board and appropriate leadership at Board level.

The Director Nomination Policy sets out the criteria for assessing the suitability and the potential contribution to the Board of a proposed candidate, including but not limited to the following:

- Character and integrity;
- Qualifications including professional qualifications, skills, knowledge and experience that are relevant to the Company's business and corporate strategy;
- Diversity in all aspects, including but not limited to gender, age (18 years or above), cultural and educational background, ethnicity, professional experience, skills, knowledge and length of service;
- Requirements of independent non-executive Directors on the Board and independence of the proposed independent non-executive Directors in accordance with the Listing Rules; and
- Commitment in respect of available time and relevant interest to discharge duties as a member of the Board and Board committees.

The Director Nomination Policy also sets out the procedures for the selection and appointment of new Directors and re-election of Directors at general meetings.

The Nomination Committee will review the Director Nomination Policy, as appropriate, to ensure its effectiveness.

#### **Board Independence Mechanism**

The Company has adopted a board independence mechanism (the "Board Independence Mechanism") that is designed to ensure a strong independent element on the Board of the Company, which allows the Board to effectively exercise independent judgement to better safeguard the Shareholders' interests.

The objectives of the mechanism are to improve the Board's effectiveness, maximise strengths, and identify the areas that need improvement or further development. The evaluation process also clarifies what actions of the Company need to be taken to maintain and improve the Board's performance, for instance, addressing individual training and development needs of each Director.

The Board Independence Mechanism sets out the mechanism for assessing the independence of the Board, including but not limited to the following:

- The Nomination Committee will assess annually the independence of all independent non-executive Directors and to confirm if each of them still satisfies the criteria of independence as set out in the Listing Rules. Every Nomination Committee member should abstain from assessing his/her own independence;
- A mechanism is in place for Directors to seek independent professional advice in performing their duties at the Company's expense; and
- An annual review of the Board's independence will be conducted, with the aim to ensure that it remains
  independent in judgement, and that the Board continues to present an objective and constructive
  challenge to the assumptions and viewpoints presented by the management.

During the year ended 31 December 2024, the Board has reviewed the implementation and effectiveness of the Board Independence Mechanism and the results were satisfactory.

#### **Dividend Policy**

The Company has adopted a dividend policy on payment of dividends. Depending on the financial conditions of the Company and the Group and the conditions and factors as set out in the Company's dividend policy, dividends may be proposed and/or declared by the Board during a financial year and any final dividend for a financial year will be subject to Shareholders' approval.

The declaration of dividends by the Company is also subject to any restrictions under the Companies Act of the Cayman Islands, the Articles of Association and any applicable laws, rules and regulations.

In determining payment of dividends, the Company shall share its profits with Shareholders while maintaining adequate reserves for meeting its future growth, with a view to declaring dividends higher than the industrial average level and achieving a stable and better return for the Shareholders.

The Board shall also take into account the following factors of the Group when considering the declaration and payment of dividends:

- financial results;
- cash flow situation;
- business conditions and strategies;
- future operations and earnings;
- capital requirements and expenditure plans;
- interests of Shareholders;
- tax issue;
- any restrictions on payment of dividends; and
- any other factors that the Board may consider relevant.

Depending on the financial conditions of the Company and the Group and the conditions and factors as set out above, the following dividends may be proposed and/or declared by the Board for a financial year or period:

- interim dividend;
- final dividend;
- special dividend; and
- any distribution of net profits that the Board may consider appropriate.

#### **Anti-Corruption Policy**

The Company has established an anti-corruption policy to combat all offences involving bribery, extortion, fraud and money laundering, and has been implementing the "zero tolerance" strategy for any corruption and illegal behavior in accordance with the Criminal Law of the People's Republic of China. The policy applies to all employees of the Group. The Company's audit and supervision office, under the leadership of the audit committee of the Company and the president's office, conducts comprehensive supervision of the integrity of the Company's system.

#### Whistleblowing Policy

The Company has also established a whistleblowing policy and has committed to the highest possible standards of openness, probity and accountability. In line with that commitment the Company expects and encourages its employees, customers, suppliers and other stakeholders who have concerns about any suspected misconduct or malpractice within the Company to come forward and voice those concerns. Persons making appropriate complaints under this policy are assured of protection against unfair dismissal, victimisation or unwarranted disciplinary action, even if the concerns turn out to be unsubstantiated. The Audit Committee has overall responsibility for this policy. Responsibility for monitoring and reviewing the operation of the policy and any recommendations for action resulting from investigation into complaints lies with the audit committee. The Audit Committee will review and monitor the effectiveness of this whistleblowing policy from time to time.

#### **Corporate Governance Functions**

The Audit Committee is responsible for performing the functions set out in the Code Provision A.2.1 in Part 2 of the CG Code.

During the year 2024, the Audit Committee reviewed the Company's corporate governance policies and practices, training and continuous professional development of Directors and senior management, the Company's policies and practices on compliance with legal and regulatory requirements and the Company's compliance with the CG Code and disclosure in this corporate governance report.

#### Risk Management and Internal Controls

The Board acknowledges its responsibility for the risk management and internal control systems and reviewing their effectiveness. Such systems are designed to manage rather than eliminate the risk of failure to achieve business objectives, and can only provide reasonable and not absolute assurance against material misstatement or loss.

The Board has the overall responsibility for evaluating and determining the nature and extent of the risks it is willing to take in achieving the Company's strategic objectives, and establishing and maintaining appropriate and effective risk management and internal control systems. Such risks would include, amongst others, material risks relating to environmental, social and governance. The Audit Committee assists the Board in leading the management and overseeing their design, implementation and monitoring of the risk management and internal control systems.

The Company has developed and adopted various risk management procedures and guidelines with defined authority for implementation by key business processes and office functions. The procedures and guidelines comprise the following phases:

• Identification: Identify ownership of risks, business objectives and risks that could affect the

achievement of objectives.

Evaluation: Analyze the likelihood and impact of risks and evaluate the risk portfolio accordingly.

Management: Consider the risk responses, ensure effective communication to the Board and on-

going monitor the residual risks.

The Company has also in place an internal control system which is compatible with the Committee of Sponsoring Organizations of the Treadway Commission ("COSO") 2013 framework. The framework enables the Group to achieve objectives regarding effectiveness and efficiency of operations, reliability of financial reporting and compliance with applicable laws and regulations.

The Company has established the "Notice in respect of Further Regulations on Joint Ventures Management" which formalised the management of the joint ventures and related affairs.

The management has confirmed to the Board and the Audit Committee on the effectiveness of the risk management and internal control systems for the year ended 31 December 2024.

The Group's audit and supervision office is responsible for internal audit function of the Company in performing independent review of the adequacy and effectiveness of the risk management and internal control systems. The audit and supervision office examined key issues in relation to the accounting practices and all material controls and provided its findings and recommendations for improvement to the Audit Committee. In addition, the Group has engaged SHINEWING Risk Services Limited to carry out the internal audit function such as the analysis and independent assessment of the adequacy and effectiveness of the Group's risk management and internal control systems covering financial, operational and legal compliance controls for the year ended 31 December 2024. The assessments were conducted annually and the results have been finalized in March 2025 and communicated with the Audit Committee.

The Board, through the Audit Committee, had reviewed the risk management and internal control systems, including the financial, operational and compliance controls, for the year ended 31 December 2024, and considered that such systems are effective and adequate. The annual review also covered the financial reporting and internal audit function, staff qualifications, experiences and relevant resources, as well as those relating to the issuer's environmental, social and governance performance and reporting. The Board's annual review has confirmed that there is no change, since the last annual review, in the nature and extent of significant risks (including environmental, social and governance risks), and the Company is capable to respond to changes in its business and the external environment. The Company had also reviewed the scope and quality of management's ongoing monitoring of risks (including environmental, social and governance risks) and of the internal control systems, and where applicable, the work of its internal audit function.

The Company has developed respective disclosure policy which provides a general guide to the Company's Directors, senior management, officers and relevant employees in handling confidential information, monitoring information disclosure and responding to enquiries. Control procedures have been implemented to ensure that unauthorized access and use of inside information are strictly prohibited. This includes but is not limited to the following:

- The access of information is restricted to a limited number of employees on a need-to-know basis. Employees who are in possession of inside information are fully conversant with their obligations to preserve confidentiality.
- Confidentiality agreements are in place when the Company enters into significant negotiations.

#### Directors' Responsibility in Respect of the Financial Statements

### Continuing Disclosure Requirements under Rule 13.21 of the Listing Rules 2019 Facility Agreement

On 24 January 2019, the Company as borrower entered into a facility agreement with certain banks as lenders for a term loan facility of HK\$1,610,000,000 (the "2019 Facility Agreement"), which may be increased to not more than HK\$2,500,000,000 in accordance with the terms of the 2019 Facility Agreement at an interest rate of HIBOR plus 3.95% per annum. The facility has to be fully repaid within 42 months after the date of the 2019 Facility Agreement. On 15 July 2019, term loan facility has been increased by HK\$150,000,000 to HK\$1,760,000,000. On 25 July 2022, a letter agreement was entered into whereby the final maturity date of the term loan facility was extended to 24 January 2023.

Pursuant to the 2019 Facility Agreement, it shall constitute an event of default if (i) Ms. Kei Perenna Hoi Ting, her spouse and any of her child under the age of 18, collectively do not or cease to beneficially own, directly or indirectly, at least 51% of the beneficial shareholding interests in the issued share capital of, and carrying at least 51% of all the voting rights in the Company, such shareholding interest and voting rights being free from any security; (ii) Mr. Kei Hoi Pang does not or ceases to have management control of the Company or the Group and/or control over the business of the Group; or (iii) any person other than any one of Mr. Kei Hoi Pang and Mr. Ji Jiande is or becomes the chairman of the Company. Upon and at any time after the occurrence of an event of default, the lenders may cancel all or any parts of their commitments and declare that all or part of the loans, together with accrued interest, and all other amounts accrued or outstanding under the finance documents be immediately due and payable.

As at the date of this annual report, the term loan facility of HK\$880,000,000 remained outstanding. The Company intends to include this facility in the Company's holistic restructuring announced on 10 January 2025.

#### 2020 Facility Agreement

On 8 April 2020, the Company as borrower entered into a facility agreement with certain banks as lenders pursuant to which a dual currency USD and HKD term loan facility of HK\$2,525,640,000 equivalent (with green shoe option of up to HK\$770,000,000) was made available to the Company (the "2020 Facility Agreement"). The facility has to be fully repaid within 36 months after the date of the 2020 Facility Agreement.

Pursuant to the 2020 Facility Agreement, if (i) Ms. Kei Perenna Hoi Ting and her family collectively cease to own, directly or indirectly, more than 50% of the Company's total issued share capital, free from any security; and/or (ii) Mr. Kei Hoi Pang and his family cease to maintain control of the Group's business, if the majority lenders under the facilities so require, the Company shall prepay the facilities in full within the time specified under the 2020 Facility Agreement.

As at the date of this annual report, the term loan facility of HK\$780,000,000 and US\$223,880,000 remained outstanding. The Company intends to include this facility in the Company's holistic restructuring announced on 10 January 2025.

The Company will continue to make relevant disclosure in its subsequent interim and annual reports pursuant to Rule 13.21 of the Listing Rules for as long as circumstances giving rise to the obligation under Rule 13.18 of the Listing Rules continue to exist.

Save as disclosed above, as at 31 December 2024, the Company did not have other disclosure obligations under Rule 13.18 of the Listing Rules.

#### Share Option Scheme

The Company's share option scheme (the "Share Option Scheme") was conditionally adopted by the written resolutions of the shareholders of the Company passed on 18 November 2013. The Share Option Scheme was effective for 10 years commencing from 18 November 2013 and expired on 17 November 2023. No further share option will be granted under the Share Option Scheme but in respect of all share options which remain exercisable on such date, the provisions of the Share Option Scheme shall remain in full force and effect. The summary of the principal terms of the Share Option Scheme was as follows:

#### 1. Purpose of the Share Option Scheme:

The Share Option Scheme is established to recognize and acknowledge the contributions the Eligible Participants (as defined in paragraph 2 below) had or may have made to the Group. The Share Option Scheme will provide the Eligible Participants an opportunity to have a personal stake in the Company with the view to achieving the following objectives:

- (i) motivate the Eligible Participants to optimize their performance efficiency for the benefit of the Group; and
- (ii) attract and retain or otherwise maintain on-going business relationship with the Eligible Participants whose contributions are or will be beneficial to the long-term growth of the Group.

#### 2. Participants of the Share Option Scheme:

The Board may, at its discretion, offer to grant an option to the following persons (collectively the "Eligible Participants") to subscribe for such number of new Shares as the Board may determine:

- (i) any full-time or part-time employees, executives or officers of the Company or any of its subsidiaries;
- (ii) any directors (including independent non-executive directors) of the Company or any of its subsidiaries; and
- (iii) any advisors, consultants, suppliers, customers, agents, distributors and such other persons who, in the sole opinion of the Board, will contribute or have contributed to the Company or any of its subsidiaries.

#### 3. Maximum number of Shares available for issue:

The maximum number of Shares in respect of which options may be granted under the Share Option Scheme and under any other share option schemes of the Company must not in aggregate exceed 10% of the total number of Shares in issue immediately following the completion of the global offering of the Company (but taking no account of any Shares which may be allotted and issued pursuant to the exercise of the over-allotment option), being 500,000,000 shares (representing approximately 8.79% of the number of the issued shares of the Company as at the date of this annual report), excluding for this purpose Shares which would have been issued on the exercise in full of options in accordance with the terms of the Share Option Scheme (or any other share option schemes of the Company, but not cancelled, lapsed or exercised). Subject to the issue of a circular by the Company and the approval of the Shareholders in general meeting and/or such other requirements prescribed under the Listing Rules from time to time, the Board may: (i) renew this limit at any time to 10% of the Shares in issue as of the date of the approval by the Shareholders in general meeting; and/or (ii) grant options beyond the 10% limit to Eligible Participants specifically identified by the Board.

Notwithstanding the foregoing, the Shares which may be issued upon exercise of all outstanding options granted and yet to be exercised under the Share Option Scheme and any other share option schemes of the Company at any time shall not exceed 30% of the Shares in issue from time to time. No further options shall be granted under any schemes of the Company (including the Share Option Scheme) if this will result in the 30% limit being exceeded. The maximum number of Shares in respect of which options may be granted shall be adjusted, in such manner as the auditor of the Company or an approved independent financial adviser shall certify to be appropriate, fair and reasonable in the event of any alteration in the capital structure of the Company whether by way of consolidation, capitalization issue, rights issue, sub-division or reduction of the share capital of the Company but in no event shall the maximum number of Shares in respect of which options may be granted exceed the limit prescribed in this paragraph.

On acceptance of the options granted under the Share Option Scheme, the grantee is required to pay HK\$1.0 to the Company as consideration for the grant of options.

Following the expiry of the Share Option Scheme on 17 November 2023, no options were available for grant as at 31 December 2024. As at the date of this report, a total number of 58,782,000 shares (representing approximately 1.03% of the shares in issue as at the date of this report), are available for issue in respect of the outstanding share options granted under the Share Option Scheme.

#### 4. Maximum entitlement of each participant under the Share Option Scheme:

The total number of Shares issued and which may fall to be issued upon exercise of the options granted under the Share Option Scheme and any other share option schemes of the Company (including both exercised and outstanding options) to each Eligible Participant in any 12-month period up to the date of grant shall not exceed 1% of the Shares in issue as at the date of grant. Any further grant of options in excess of this 1% limit shall be subject to:

- (i) the issue of a circular by the Company containing the identity of the Eligible Participant, the number of and terms of the options to be granted (and options previously granted to such participant) the information as required under Rules 17.02(2)(d) and the disclaimer required under 17.02(4) of the Listing Rules; and
- (ii) the approval of the Shareholders in general meeting and/or other requirements prescribed under the Listing Rules from time to time with such Eligible Participant and his/her associates (as defined in the Listing Rules) abstaining from voting.
- 5. The period within which the options must be exercised under the Share Option Scheme:

  An option may be exercised at any time during a period to be determined and notified by the Directors to each grantee, but shall not be more than 10 years from the date of grant of options subject to the provisions for early termination set out in the Share Option Scheme.
- 6. The minimum period for which an option must be held before it can be exercised:

  There is no minimum period for which an option granted must be held before it can be exercised except otherwise imposed by the Directors.

#### 7. The basis of determining the exercise price:

Determined by the Board but shall not be less than the highest of (i) the closing price of the ordinary Shares as stated in the Stock Exchange daily quotation sheets on the date of grant of options, which must be a trading day; (ii) the average of the closing price of the ordinary Shares as stated in the Stock Exchange's daily quotation sheets for the five business days immediately preceding the date of grant of options; and (iii) the nominal value of an ordinary Share.

#### 8. The remaining life of the Share Option Scheme:

The Share Option Scheme expired on 17 November 2023. No further share option will be granted under the Share Option Scheme but in respect of all share options which remain exercisable on such date, the provisions of the Share Option Scheme shall remain in full force and effect.

No share option has been granted during 2024. Details of the outstanding share options granted under the Share Option Scheme were as follows:

#### Notes:

- (1) The percentage is calculated based on the total number of 5,685,407,450 Shares in issue as at 31 December 2024.
- (2) The share options are exercisable within a period of 10 years from 25 August 2017 and subject to the following vesting schedule and performance review:
  - (i) up to 25% of the share options granted after the expiration of 36 months from 25 August 2017;
  - (ii) up to another 25% of the share options granted after the expiration of 48 months from 25 August 2017;
  - (iii) up to another 25% of the share options granted after the expiration of 60 months from 25 August 2017; and
  - (iv) all the remaining share options granted after the expiration of 72 months from 25 August 2017.
- (3) The share options are exercisable within a period of 10 years from 8 June 2018 and subject to the following vesting schedule and performance review:
  - (i) up to 33.3% of the share option granted to each grantee at any time after the expiration of 36 months from 8 June 2018:
  - (ii) up to 33.3% of the share option granted to each grantee at any time after the expiration of 48 months from 8 June 2018; and
  - (iii) the remaining of the share option granted to each grantee at any time after the expiration of 60 months from 8 June 2018.
- (4) The share options are exercisable within a period of 10 years from 22 October 2018 and subject to the following vesting schedule and performance review:
  - (i) up to 33.3% of the share option granted to each grantee at any time after the expiration of 36 months from 22 October 2018;

  - (ii) for the remaining grantees, up to 50% of their share options granted at any time after the expiration of 36 months from the date of grant and up to 50% of their share options granted at any time after the expiration of 48 months from the date of grant.
- (6) The share options are exercisable within a period of 10 years from the 12 June 2020 and will be vested after the expiration of 36 months from 12 June 2020.

For further details, please refer to note 30 to the consolidated financial statements of this annual report.

Given that as mentioned above, no share option has been granted during 2024, it is not applicable for the Company to set out the number of Shares that may be issued in respect of the Share Option Scheme during the year ended 31 December 2024 divided by the weighted average number of Shares of the relevant class in issue for the year ended 31 December 2024.

#### Share Award Scheme

A share award scheme (the "Share Award Scheme") was adopted by the Company on 13 May 2020 (the "Adoption Date"). Unless early termination as determined by the Board pursuant to the Share Award Scheme, it shall be valid and effective for a term of 15 years commencing on the Adoption Date, subject to any extension of the period by the Board. As at the date of this annual report, the Share Award Scheme will have a remaining term of approximately 10 years. The purpose of the Share Award Scheme is (i) to promote the effective realization of the medium and long-term performance growth targets of the Group; (ii) to promote the long-term sustainable growth in the shareholder value of the Group; and (iii) to attract outstanding talents in the industry and to motivate and retain outstanding key talents of the Group with rewards and incentives.

The Share Award Scheme is a share scheme that is funded by existing shares of the Company. The Share Award Scheme will continue to operate in accordance with the "Transitional arrangements for share schemes existing as at 1 January 2023" set out in the attachment to Frequently Asked Questions No. 083–2022 to 101–2022 published by the Stock Exchange.

Subject to the terms of the Share Award Scheme, the Board may from time to time, select any employee, director, officer, consultant, or advisor of any member of the Group or any affiliate who the Board considers, in its sole discretion, to have significantly contributed or will significantly contribute to the development of the Group, to be a selected participant ("Selected Participant") and grant award shares ("Award Shares") to such Selected Participant during the duration of the Share Award Scheme. Where any grant of Award Shares is proposed to be made to any Selected Participant who is a Director (including an independent non-executive Director) or chief executive of the Company, such grant must first be approved by all the independent non-executive Directors (excluding any independent non-executive Director who is a proposed recipient of the Award Shares). Where any grant of Award Shares is proposed to be made to any person who is a connected person (as defined under the Listing Rules), the Company shall comply with such provisions of the Listing Rules as may be applicable. No amount is payable by a Selected Participant upon acceptance of the Award Shares, and the Award Shares may be granted to a Selected Participant at nil consideration.

According to the Share Award Scheme, Shares up to 3% of the issued share capital of the Company (from time to time) will be purchased by the trustee from the market out of cash contributed by the Company and be held in trust for the relevant selected participants until the Award Shares are vested with the relevant selected participants in accordance with the provisions of the Share Award Scheme. As of 31 December 2024, the Company had through the trustee purchased a total of 158,230,000 Shares from the market, none of such Shares was purchased during the twelve months ended 31 December 2024. As at the date of this annual report, the maximum number of Award Shares available for grant under the Share Award Scheme are 170,562,223 Shares, representing approximately 3% of issued Shares of the Company as at the date of this annual report.

There is no maximum entitlement of Award Shares for each Selected Participant under the Share Award Scheme.

The Board or the committee of the Board or person(s) to which the Board delegated its authority may from to time while the Share Award Scheme is in force and subject to all applicable laws, determine such vesting criteria and conditions or periods for the Award Shares to be vested hereunder.

Since the Adoption Date, no Award Shares had been granted. For further details, please refer to note 30 to the consolidated financial statements of this annual report. Given that as at the date of this annual report, the Company has not granted any Award Shares under the Share Award Scheme, it is not applicable for the Company to set out any details of the grant in accordance with Rule 17.07(1) of the Listing Rules. It is also not applicable for the Company to set out the number of Shares that may be issued in respect of options and awards granted under both the Share Option Scheme and the Share Award Scheme during the year ended 31 December 2024 divided by the weighted average number of Shares of the relevant class in issue for the year ended 31 December 2024. There were a maximum of 170,562,223 Shares which may be granted under the Share Award Scheme at the beginning and the end of the year ended 31 December 2024.

#### **Equity-linked Agreements**

Save as the Share Option Scheme and the Share Award Scheme, no equity-linked agreements were entered into by the Company during the year under review.

#### Continuing Connected Transactions

Details of the continuing connected transactions of the Company during the year ended 31 December 2024 are as follows:

#### 2022 Master Project Development Management Agreement

On 30 December 2022, Shenzhen Logan Holdings Co., Ltd.\* (深圳市龍光控股有限公司) ("Shenzhen Logan"), a wholly-owned subsidiary of the Company, entered into the master project development management agreement (the "2022 Master Project Development Management Agreement") with Logan Foundation Group Co., Ltd.\* (龍光交通集團有限公司) ("Logan Foundation") pursuant to which Shenzhen Logan has agreed to provide, and procure its subsidiaries to provide, project development management service, including, but not limited to, construction services and design and architectural services (the "Project Development Management Service"), to Logan Foundation and its subsidiaries at development stages for a term commencing from 1 January 2023 and ending on 31 December 2025 (both days inclusive), and subject to an annual cap of RMB320,000,000 for each year ended on 31 December 2023, 31 December 2024 and 31 December 2025 respectively.

The above annual caps were determined with reference to (i) the expected amount of service fees payable to Shenzhen Logan for the provision of Project Development Management Service taking into account (a) the anticipated demand of Project Development Management Service required by Logan Foundation during the term of the 2022 Master Project Development Management Agreement taking into account of the number of property development projects of Logan Foundation in the PRC and the expected GFA to be completed for each year during the term of the 2022 Master Project Development Management Agreement, including at least one project with anticipated service demand in value of approximately RMB200,000,000, to be required by the Group in 2023; (b) the estimated costs (including labour and construction raw materials) required by the Group; and (c) the prevailing service fees charged by other independent service providers; and (ii) the historical transaction amount taking into account the expected recovery of the real estate sector in PRC from 2023.

#### 2022 Master Property Management Service Agreement

On 30 December 2022, Shenzhen Logan, a wholly-owned subsidiary of the Company, entered into the master property management service agreement (the "2022 Master Property Management Service Agreement") with Guangdong Logan Group Property Management Co., Ltd.\* (廣東龍光集團物業管理有限公司) ("Logan Property Management"), pursuant to which Logan Property Management has agreed to provide, and procure its subsidiaries to provide services, including, but not limited to property management services and consultation services at the pre-delivery stage of property development (the "Property Management Service"), to Shenzhen Logan and its subsidiaries for a term commencing from 1 January 2023 and ending on 31 December 2025 (both days inclusive), and subject to an annual cap of RMB320,000,000 for each year ended on 31 December 2023, 31 December 2024 and 31 December 2025 respectively.

The above annual caps were determined with reference to (i) the expected demand of Property Management Services of the Group having regards to the expected GFA requiring property management services, the contracted sales of the Group and the expected land bank during the term of the 2022 Master Property Management Services Agreement; (ii) the prevailing market rate of similar property management services; and (iii) the historical transaction amounts.

#### 2022 Master Lease Agreement

On 30 December 2022, Shenzhen Logan, a wholly-owned subsidiary of the Company, entered into the master lease agreement (the "2022 Master Lease Agreement") with Logan Foundation, pursuant to which Shenzhen Logan, as lessor, has agreed to lease and procure its subsidiaries to lease properties held by them in the PRC to Logan Foundation and its subsidiaries, as lessee, for a term commencing from 1 January 2023 and ending on 31 December 2025 (both days inclusive), and subject to an annual cap of RMB120,000,000 for each year ended on 31 December 2023, 31 December 2024 and 31 December 2025 respectively.

The above annual caps were determined with reference to (i) the expected space that Logan Foundation has indicated to the Group that it would rent for hotel business and office use during the term of the 2022 Master Lease Agreement. Under the existing arrangement, Logan Foundation has leased two mixed use complexes for its hotel business located in Nanning and Huizhou from the Group; and (ii) the prevailing market rent of the premises that are expected to be leased by Logan Foundation and its subsidiaries.

Logan Foundation is held as to 47% by Mr. Kei Hoi Pang ("Mr. Kei"). Logan Property Management is wholly-owned by Ms. Kei Perenna Hoi Ting, who is the daughter of Mr. Kei. As such, each of Logan Foundation and Logan Property Management is a connected person of the Company pursuant to the Listing Rules. Accordingly, the transactions contemplated under the 2022 Master Project Development Management Agreement, the 2022 Master Property Management Service Agreement and the 2022 Master Lease Agreement constitute continuing connected transactions for the Company under Chapter 14A of the Listing Rules.

Details of the 2022 Master Project Development Management Agreement, the 2022 Master Property Management Service Agreement and the 2022 Master Lease Agreement are set out in the announcement of the Company dated 30 December 2022.

The Company has complied with the disclosure requirements as prescribed in Chapter 14A of the Listing Rules with respect to the above continuing connected transactions of the Group.

All independent non-executive Directors have reviewed the above continuing connected transactions, and confirmed that those transactions were entered into:

- 1. in the ordinary and usual course of business of the Group;
- 2. under normal commercial terms, or on terms better than terms available to or from independent third parties; and
- 3. in accordance with the agreements governing the above continuing connected transactions, the terms of which are fair and reasonable and in the interests of the Shareholders as a whole.

The Company's auditor was engaged to report on the Group's continuing connected transactions in accordance with Hong Kong Standard on Assurance Engagements 3000 (revised) "Assurance Engagements Other Than Audits or Reviews of Historical Financial Information" and with reference to Practice Note 740 (revised) "Auditor's Letter on Continuing Connected Transactions under the Hong Kong Listing Rules" issued by the Hong Kong Institute of Certified Public Accountants.

Based on the work performed, the auditor of the Company confirmed to the Board that the aforesaid continuing connected transactions:

- 1. have been approved by the Board;
- 2. are in accordance with the pricing policy of the Group;
- 3. have been entered into, in all material respects, in accordance with the relevant agreements governing the transactions; and
- 4. have not exceeded the relevant caps allowed by the Stock Exchange and as stated in the announcement of the Company dated 30 December 2022.

Pursuant to Rule 14A.56 of the Listing Rules, the auditor has issued an unqualified letter containing their conclusions in respect of the continuing connected transactions of the Group to the Company.

Save as otherwise disclosed, there are no related party transactions disclosed in note 40 to the financial statements which constitutes a connected transaction or continuing connected transaction which should be disclosed pursuant to Rules 14A.49 and 14A.71 of the Listing Rules during the year ended 31 December 2024.

#### Sufficiency of Public Float

Rule 8.08(1)(a) of the Listing Rules requires there to be an open market in the securities to be maintained. This normally means that at least 25% of an issuer's total issued share capital must at all times be held by the public. However, Rule 8.08(1)(d) of the Listing Rules provides that the Stock Exchange may, at its discretion, accept a lower percentage of between 15% and 25%, if the issuer meets the following requirements under Rule 8.08(1)(d) of the Listing Rules:

- (a) the issuer will have an expected market capitalization at the time of listing of over HK\$10.0 billion;
- (b) the number of securities concerned and the extent of their distribution would enable the market to operate properly with a lower percentage;
- (c) the issuer will make appropriate disclosure of the lower prescribed percentage of public float in the initial listing documents;
- (d) the issuer will confirm the sufficiency of the public float in successive annual reports after listing; and
- (e) a sufficient portion (to be agreed in advance with the Stock Exchange) of any securities intended to be marketed contemporaneously within and outside Hong Kong must normally be offered in Hong Kong.

The Stock Exchange had granted a waiver under Rule 8.08(1)(d) of the Listing Rules to accept a lower public float percentage of 15% (or a higher percentage upon exercise of the over-allotment option as defined in the Company's prospectus dated 10 December 2013) of the Company's issued share capital (the "Company's Minimum Public Float") subject to:

- (i) the Company's minimum public float upon the listing date was 15%;
- (ii) the sponsor and the Company were able to demonstrate satisfactory compliance with Rules 8.08(2) and 8.08(3) of the Listing Rules at the time of the listing:
- (iii) the Company has implemented appropriate measures and mechanisms to ensure continual maintenance of the minimum percentage of public float; and
- (iv) the Company has made appropriate disclosure of the lower prescribed percentage of public float in the Company's prospectus dated 10 December 2013 and confirms sufficiency of public float as at the date of this annual report.

Based on the information that is publicly available to the Company and within the knowledge of the Directors, throughout the year ended 31 December 2024 and as at the date of this annual report, the Company has maintained sufficient public float as required under the Listing Rules.

#### Corporate Governance

Principal corporate governance practices adopted by the Company are set out in the Corporate Governance Report contained on pages 25 to 38 of this annual report.

#### Auditor

The consolidated financial statements for the year ended 31 December 2024 have been audited by Prism Hong Kong Limited, who will retire and, being eligible, offer themselves for re-appointment as the auditor of the Company at the AGM.

On 11 May 2022, Ernst & Young resigned as the Company's auditor. Prism Hong Kong Limited (formerly known as Prism Hong Kong and Shanghai Limited) was appointed as the new auditor of the Company to fill the casual vacancy following the resignation of Ernst & Young.

#### Professional Tax Advice Recommended

If the shareholders of the Company are unsure about the taxation implications of purchasing, holding, disposing of, dealing in, or the exercise of any rights in relation to the shares of the Company, they are advised to consult an expert.

### INDEPENDENT AUDITOR'S REPORT

#### To the shareholders of Logan Group Company Limited

(Incorporated in the Cayman Islands with limited liability)

#### **Opinion**

We have audited the consolidated financial statements of Logan Group Company Limited (the "Company") and its subsidiaries (the "Group") set out on pages 62 to 174 which comprise the consolidated statement of financial position as at 31 December 2024, and the consolidated statement of profit or loss, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including material accounting policy information.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2024, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with HKFRS Accounting Standards issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

#### Basis for opinion

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSAs") issued by the HKICPA. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group in accordance with the HKICPA's *Code of Ethics for Professional Accountants* (the "Code") and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Material Uncertainty Related to the Going Concern

We draw attention to note 2.1 to the consolidated financial statements. The events and conditions stated in note 2.1 indicate that a material uncertainty exists that may cast significant doubt on the Group's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

#### Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. In addition to the matter described in the *Material Uncertainty Related to Going Concern* section, we have determined the matters described below to be the key audit matters to be communicated in our report.

We have fulfilled the responsibilities described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying consolidated financial statements.

#### Kev audit matter

#### How our audit addressed the key audit matter

#### Valuation of investment properties

As at 31 December 2024, the Group held investment properties with a carrying amount of RMB39,150 million representing 18.42% of the total assets of the Group.

The Group has engaged external valuers to assist management in determining the fair value of the investment properties at the end of the reporting period.

We identified this as a key audit matter because the carrying amounts of the investment properties are significant to the Group and significant estimations are involved in determining their fair value. The determination of valuation models adopted also involved significant judgements.

Related disclosures are included in notes 3, 4 and 15 to the consolidated financial statements.

We evaluated management's assessment on the valuation of investment properties by performing the following procedures:

- Evaluated the objectivity, independence and competence of the external valuers engaged by the management of the Group.
- Engaged independent valuation specialists to assist us in evaluating the appropriateness of valuations models, assumptions and parameters adopted in the valuation.
- Compared the valuation determined by the management or external valuer to the range provided by the independent valuation specialists.
- Evaluated the reasonableness of significant inputs to the valuation used.
- Assessed the adequacy of the disclosures of the valuation of the investment properties in the consolidated financial statements.

Assessment of net realisable value ("NRV") of properties held for development for sale (the "PFD"), properties under development for sale (the "PUD") and completed properties for sale (the "CPFS") under inventories

As at 31 December 2024, the Group held inventories with a carrying amount of RMB121,702 million representing 57.25% of the total assets of the Group.

We identified the assessment of NRV of the Group's PFD, PUD and CPFS (collectively referred to as the "Properties") as a key audit matter due to the estimation involved in the determination of the NRV of the Properties and the future costs to completion of the Properties, where applicable.

As set out in note 4 to the consolidated financial statements, the management of the Group determined the NRV of the Properties by reference to the estimated market prices and estimated future costs to completion, if applicable, of the Properties, which takes into account a number of factors including the recent prices of similar property types in the same project or by similar properties, and the prevailing and forecasted real estate market conditions in the People's Republic of China (the "PRC"). Besides, as set out in note 4 to the consolidated financial statements, the management estimated the future costs to completion of the Properties, where applicable, by reference to the actual development cost of the Group's completed projects, adjusted by certain current market data.

Related disclosures are included in notes 3, 4 and 19 to the consolidated financial statements

Our procedures in relation to the assessment of NRV of the Properties included:

- Evaluating the reasonableness of the estimated future costs to completion of the Properties, where applicable, on a sample basis, by comparing it to the actual development cost of similar completed properties of the Group and comparing the adjustments made by the management to current market data;
- Assessing the appropriateness of the NRV of the Properties, on a sample basis, estimated by the management by comparing the estimated market price that derive the NRV to the market prices achieved in the same project or comparable properties, based on our knowledge of the Group's business and the real estate industry in the PRC; and
- Assessing the accuracy of the estimation of the market price that derive the NRV and future costs to completion of the Properties by comparing the previous estimation to the actual amounts.

#### Other information included in the Annual Report

The directors of the Company are responsible for the other information. The other information comprises the information included in the Annual Report, other than the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### Responsibilities of the Directors of the Company and Those Charged with Governance for the Consolidated Financial Statements

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRS Accounting Standards issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors of the Company are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors of the Company either intend to liquidate the Group or to cease operations or have no realistic alternative but to do so.

Those charged with Governance are responsible for overseeing the Group's financial reporting process.

#### Auditor's responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Our report is made solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

### Auditor's responsibilities for the Audit of the Consolidated Financial Statements (Continued)

As part of an audit in accordance with HKSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors of the Company.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the Group as a basis for forming an opinion on the Group financial statements. We are responsible for the direction, supervision and review of the audit work performed for purpose of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

### Auditor's responsibilities for the Audit of the Consolidated Financial Statements (Continued)

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Lee Kwok Lun.

<sup>\*</sup> Registered as wholly-foreign-owned enterprises under PRC law

Note: The official names of these entities are in Chinese. The English translation of the names is for reference only.

The above table lists the subsidiaries of the Company which, in the opinion of the directors, principally affected the results for the year or formed a substantial portion of the net assets of the Group. To give details of other subsidiaries would, in the opinion of the directors, result in particulars of excessive length.

These entities are accounted for as subsidiaries of the Group because the Group owns more than half of the voting rights even though the equity interests in these entities attributable to the Group are 50% or less.

#### 2.1 Basis of Presentation

Since 7 August 2022, the Group had suspended the payment of interest of all its offshore USD denominated senior notes (the "USD Senior Notes") and HKD denominated equity-linked securities (the "HKD ELS"). In addition, since 25 August 2022 and up to the approved date of the consolidated financial statements, the Group suspended the repayment of the principal amount of US\$300 million of senior notes due 2022 issued on 25 February 2019, the principal amount of US\$450 million of senior notes due 2023 issued on 23 May 2017 and the principal amount of US\$400 million of senior notes due 2023 issued on 16 July 2019, the principal amount of US\$100 million of senior notes due 2024 issued on 9 September 2019, the principal amount of US\$180 million of senior notes due 2024 issued on 17 January 2020, the principal amount of US\$100 million of senior notes due 2024 issued on 17 September 2020 and the principal amount of US\$60 million of senior notes due 2024 issued on 5 August 2021. As of 31 December 2024, the outstanding principal of the USD Senior Notes and HKD ELS amounted to US\$3,619 million (RMB26,077 million). On 6 January 2025, the Group made significant progress and announced the holistic restructuring proposal in respect of the offshore debt, and has reached an agreement with certain offshore creditors. On 10 January 2025, a holistic creditor support agreement, to which the terms were appended, was signed by the Group and the AHG. As at 27 February 2025, consenting creditors holding more than 80.8% of the aggregate principal amount of part of the Group's offshore debt amounting to US\$6,207 million have acceded to the holistic creditor support agreement.

As disclosed in the Group's announcement dated 16 February 2024, on 15 February 2024 (Cayman Islands time) and 16 February 2024, the Grand Court of the Cayman Islands and the High Court of Hong Kong have ordered that the Cayman Petition and the Hong Kong Petitions be dismissed respectively.

As of 31 December 2024, the total value of current assets of the Group amounted to RMB157,726 million, of which cash and cash equivalents amounted to RMB8,654 million. The total value of current liabilities of the Group amounted to RMB157,761 million. In view of the prevailing slow-down of the property market, coupled with the limited source of financing from the capital market, the Group may take longer time than expected to realise cash from the sale of its properties and/or have the cash from external financing to meet its loan repayment obligations. In addition, the Group is involved in different litigation and arbitration disputes for various reasons. In view of the aforesaid, the Group has given careful consideration to the future liquidity and business performance of the Group and its available sources of financing in assessing whether the Group will have sufficient financial sources to continue as a going concern. The following plans and measures are formulated to mitigate the liquidity pressure and to improve the financial position of the Group:

- (a) The Group is actively negotiating with financial institutions currently in business relationship and holders of senior notes and secured debt on the renewal of certain borrowings, senior notes and secured debt.
- (b) The Group will continue to implement measures to accelerate the pre-sale and sale of its properties under development and completed properties, and to speed up the collection of sales proceeds and other receivables.

### 2.1 Basis of Presentation (Continued)

- (c) The Group will continue to dispose of its assets when needed.
- (d) The Group will continue to take active measures to control administrative costs.

The Group has reviewed the Group's cash flow projections prepared by the management, which cover a period of not less than fifteen months from 31 December 2024. They are of the opinion that, taking into account the above mentioned plans and measures, the Group will have sufficient working capital to finance its operations and to meet its financial obligations or financial obligations upon agreement of the holistic liability management solution as and when they fall due in the foreseeable future.

Accordingly, the Group is satisfied that it is appropriate to prepare the consolidated financial statements on a going concern basis. Notwithstanding the above, significant uncertainties exist as to whether the Group is able to achieve its plans and measures as described above. Whether the Group will be able to continue as a going concern would depend upon the following:

- (a) the successful renewal of its debts including borrowings, senior notes and borrowings subject to guarantees, as and when needed, and the implementation of Holistic Liability Management Solution (as defined in the announcement of the Group dated 7 August 2022);
- (b) the successful and timely implementation of the plans to accelerate the pre-sale and sale of properties under development and completed properties, speed up the collection of outstanding sales proceeds and other receivables, and control costs so as to generate adequate net cash inflows; and
- (c) the successful disposal of assets, as and when needed.

Should the Group be unable to achieve the above-mentioned plans and measures and operate as a going concern, adjustments would have to be made to write down the carrying values of the Group's assets to their recoverable amounts, providing for provisions that may be further incurred, and to reclassify non-current assets and non-current liabilities as current assets and current liabilities, respectively. The effects of these adjustments have not been reflected in these consolidated financial statements.

#### 2.2 Basis of Preparation

These financial statements have been prepared in accordance with HKFRS Accounting Standards (which include all Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards ("HKASs") and Interpretations) issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA"), accounting principals generally accepted in Hong Kong and the disclosure requirement of the Hong Kong Companies Ordinance. They have been prepared under the historical cost convention, except for investment properties and derivative financial instruments which have been measured at fair value.

These financial statements are presented in Renminbi ("RMB") and all values are rounded to the nearest thousand ("RMB'000") except when otherwise indicated.

### 2.2 Basis of Preparation (Continued)

#### Basis of consolidation

The consolidated financial statements include the financial statements of the Company and its subsidiaries (collectively referred to as the "Group") for the year ended 31 December 2024. A subsidiary is an entity (including a structured entity), directly or indirectly, controlled by the Company. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee (i.e., existing rights that give the Group the current ability to direct the relevant activities of the investee).

Generally, there is a presumption that a majority of voting rights results in control. When the Company has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- (a) the contractual arrangement with the other vote holders of the investee;
- (b) rights arising from other contractual arrangements; and
- (c) the Group's voting rights and potential voting rights.

The financial statements of the subsidiaries are prepared for the same reporting period as the Company, using consistent accounting policies. The results of subsidiaries are consolidated from the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases.

Profit or loss and each component of other comprehensive income are attributed to the owners of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control described above. A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

If the Group loses control over a subsidiary, it derecognises the related assets (including goodwill), liabilities, any non-controlling interest and the exchange fluctuation reserve; and recognises the fair value of any investment retained and any resulting surplus or deficit in profit or loss. The Group's share of components previously recognised in other comprehensive income is reclassified to profit or loss or retained profits, as appropriate, on the same basis as would be required if the Group had directly disposed of the related assets or liabilities.

## 2.3 Changes in Accounting Policies and Disclosures

The Group has adopted the following revised HKFRS Accounting Standards for the first time for the current year's financial statements:

Amendments to HKFRS 16 Lease Liability in a Sale and Leaseback

Amendments to HKAS 1 Classification of Liabilities as Current or Non-current

(the "2020 Amendments")

Amendments to HKAS 1 Non-current Liabilities with Covenants (the "2022 Amendments")

Amendments to HKAS 7 and Supplier Finance Arrangements

HKFRS 7

The nature and the impact of the revised HKFRS Accounting Standards that are applicable to the Group are described below:

- (a) Amendments to HKFRS 16 specify the requirements that a seller-lessee uses in measuring the lease liability arising in a sale and leaseback transaction to ensure the seller-lessee does not recognise any amount of the gain or loss that relates to the right of use it retains. Since the Group has no sale and leaseback transactions with variable lease payments that do not depend on an index or a rate occurring from the date of initial application of HKFRS 16, the amendments did not have any impact on the financial position or performance of the Group.
- (b) The 2020 Amendments clarify the requirements for classifying liabilities as current or non-current, including what is meant by a right to defer settlement and that a right to defer must exist at the end of the reporting period. Classification of a liability is unaffected by the likelihood that the entity will exercise its right to defer settlement. The amendments also clarify that a liability can be settled in its own equity instruments, and that only if a conversion option in a convertible liability is itself accounted for as an equity instrument would the terms of a liability not impact its classification. The 2022 Amendments further clarify that, among covenants of a liability arising from a loan arrangement, only those with which an entity must comply on or before the reporting date affect the classification of that liability as current or non-current. Additional disclosures are required for non-current liabilities that are subject to the entity complying with future covenants within 12 months after the reporting period.

The Group has reassessed the terms and conditions of its liabilities as at 1 January 2023 and 2024 and concluded that the classification of its liabilities as current or non-current remained unchanged upon initial application of the amendments. Accordingly, the amendments did not have any impact on the financial position or performance of the Group.

(c) Amendments to HKAS 7 and HKFRS 7 clarify the characteristics of supplier finance arrangements and require additional disclosure of such arrangements. The disclosure requirements in the amendments are intended to assist users of financial statements in understanding the effects of supplier finance arrangements on an entity's liabilities, cash flows and exposure to liquidity risk. As the Group does not have supplier finance arrangements, the amendments did not have any impact on the Group's financial statements.

## 2.4 Issued but Not Yet Effective HKFRS Accounting Standards

The Group has not applied the following new and revised HKFRS Accounting Standards, that have been issued but are not yet effective, in these financial statements. The Group intends to apply these new and revised HKFRS Accounting Standards, if applicable, when they become effective.

- <sup>4</sup> No mandatory effective date yet determined but available for adoption

Further information about those HKFRS Accounting Standards that are expected to be applicable to the Group is described below:

HKFRS 18 replaces HKAS 1 Presentation of Financial Statements. While a number of sections have been brought forward from HKAS 1 with limited changes, HKFRS 18 introduces new requirements for presentation within the statement of profit or loss, including specified totals and subtotals. Entities are required to classify all income and expenses within the statement of profit or loss into one of the five categories: operating, investing, financing, income taxes and discontinued operations and to present two new defined subtotals. It also requires disclosures about management-defined performance measures in a single note and introduces enhanced requirements on the grouping (aggregation and disaggregation) and the location of information in both the primary financial statements and the notes. Some requirements previously included in HKAS 1 are moved to HKAS 8 Accounting Policies, Changes in Accounting Estimates and Errors, which is renamed as HKAS 8 Basis of Preparation of Financial Statements. As a consequence of the issuance of HKFRS 18, limited, but widely applicable, amendments are made to HKAS 7 Statement of Cash Flows, HKAS 33 Earnings per Share and HKAS 34 Interim Financial Reporting. In addition, there are minor consequential amendments to other HKFRS Accounting Standards. HKFRS 18 and the consequential amendments to other HKFRS Accounting Standards are effective for annual periods beginning on or after 1 January 2027 with earlier application permitted. Retrospective application is required. The Group is currently analysing the new requirements and assessing the impact of HKFRS 18 on the presentation and disclosure of the Group's financial statements.

### 2.4 Issued but Not Yet Effective HKFRS Accounting Standards (Continued)

HKFRS 19 allows eligible entities to elect to apply reduced disclosure requirements while still applying the recognition, measurement and presentation requirements in other HKFRS Accounting Standards. To be eligible, at the end of the reporting period, an entity must be a subsidiary as defined in HKFRS 10 Consolidated Financial Statements, cannot have public accountability and must have a parent (ultimate or intermediate) that prepares consolidated financial statements available for public use which comply with HKFRS Accounting Standards. Earlier application is permitted. As the Company is a listed company, it is not eligible to elect to apply HKFRS 19. Some of the Company's subsidiaries are considering the application of HKFRS 19 in their specified financial statements.

Amendments to HKFRS 9 and HKFRS 7 clarify the date on which a financial asset or financial liability is derecognised and introduce an accounting policy option to derecognise a financial liability that is settled through an electronic payment system before the settlement date if specified criteria are met. The amendments clarify how to assess the contractual cash flow characteristics of financial assets with environmental, social and governance and other similar contingent features. Moreover, the amendments clarify the requirements for classifying financial assets with non-recourse features and contractually linked instruments. The amendments also include additional disclosures for investments in equity instruments designated at fair value through other comprehensive income and financial instruments with contingent features. The amendments shall be applied retrospectively with an adjustment to opening retained profits (or other component of equity) at the initial application date. Prior periods are not required to be restated and can only be restated without the use of hindsight. Earlier application of either all the amendments at the same time or only the amendments related to the classification of financial assets is permitted. The amendments are not expected to have any significant impact on the Group's financial statements.

Amendments to HKFRS 10 and HKAS 28 address an inconsistency between the requirements in HKFRS 10 and in HKAS 28 in dealing with the sale or contribution of assets between an investor and its associate or joint venture. The amendments require a full recognition of a gain or loss resulting from a downstream transaction when the sale or contribution of assets constitutes a business. For a transaction involving assets that do not constitute a business, a gain or loss resulting from the transaction is recognised in the investor's profit or loss only to the extent of the unrelated investor's interest in that associate or joint venture. The amendments are to be applied prospectively. The previous mandatory effective date of amendments to HKFRS 10 and HKAS 28 was removed by the HKICPA. However, the amendments are available for adoption now.

Amendments to HKAS 21 specify how an entity shall assess whether a currency is exchangeable into another currency and how it shall estimate a spot exchange rate at a measurement date when exchangeability is lacking. The amendments require disclosures of information that enable users of financial statements to understand the impact of a currency not being exchangeable. Earlier application is permitted. When applying the amendments, an entity cannot restate comparative information. Any cumulative effect of initially applying the amendments shall be recognised as an adjustment to the opening balance of retained profits or to the cumulative amount of translation differences accumulated in a separate component of equity, where appropriate, at the date of initial application. The amendments are not expected to have any significant impact on the Group's financial statements.

## 2.4 Issued but Not Yet Effective HKFRS Accounting Standards (Continued)

Annual Improvements to HKFRS Accounting Standards — Volume 11 set out amendments to HKFRS 1, HKFRS 7 (and the accompanying Guidance on implementing HKFRS 7), HKFRS 9, HKFRS 10 and HKAS 7. Details of the amendments that are expected to be applicable to the Group are as follows:

- HKFRS 7 Financial Instruments: Disclosures: The amendments have updated certain wording in paragraph B38 of HKFRS 7 and paragraphs IG1, IG14 and IG20B of the Guidance on implementing HKFRS 7 for the purpose of simplification or achieving consistency with other paragraphs in the standard and/or with the concepts and terminology used in other standards. In addition, the amendments clarify that the Guidance on implementing HKFRS 7 does not necessarily illustrate all the requirements in the referenced paragraphs of HKFRS 7 nor does it create additional requirements. Earlier application is permitted. The amendments are not expected to have any significant impact on the Group's financial statements.
- HKFRS 9 Financial Instruments: The amendments clarify that when a lessee has determined that a lease liability has been extinguished in accordance with HKFRS 9, the lessee is required to apply paragraph 3.3.3 of HKFRS 9 and recognise any resulting gain or loss in profit or loss. In addition, the amendments have updated certain wording in paragraph 5.1.3 of HKFRS 9 and Appendix A of HKFRS 9 to remove potential confusion. Earlier application is permitted. The amendments are not expected to have any significant impact on the Group's financial statements.
- HKFRS 10 Consolidated Financial Statements: The amendments clarify that the relationship described in paragraph B74 of HKFRS 10 is just one example of various relationships that might exist between the investor and other parties acting as de facto agents of the investor, which removes the inconsistency with the requirement in paragraph B73 of HKFRS 10. Earlier application is permitted. The amendments are not expected to have any significant impact on the Group's financial statements.
- HKAS 7 Statement of Cash Flows: The amendments replace the term "cost method" with "at cost" in paragraph 37 of HKAS 7 following the prior deletion of the definition of "cost method". Earlier application is permitted. The amendments are not expected to have any impact on the Group's financial statements.

## 3. Material Accounting Policies

## Investments in associates and joint ventures

An associate is an entity, in which the Group has a long term interest of generally not less than 20% of the equity voting rights and over which it has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies.

A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require the unanimous consent of the parties sharing control.

## 3. Material Accounting Policies (Continued) Investments in associates and joint ventures (Continued)

The Group's investments in associates and joint ventures are stated in the consolidated statement of financial position at the Group's share of net assets under the equity method of accounting, less any impairment losses.

Adjustments are made to bring into line any dissimilar accounting policies that may exist.

The Group's share of the post-acquisition results and other comprehensive income of associates and joint ventures is included in the consolidated statement of profit or loss and other comprehensive income. In addition, when there has been a change recognised directly in the equity of the associate or joint venture, the Group recognises its share of any changes, when applicable in the consolidated statement of changes in equity. Unrealised gains and losses resulting from transactions between the Group and its associates or joint ventures are eliminated to the extent of the Group's investments in the associates or joint ventures, except where unrealised losses provide evidence of an impairment of the assets transferred. Goodwill arising from the acquisition of associates or joint ventures is included as part of the Group's investments in associates or joint ventures.

If an investment in an associate becomes an investment in a joint venture or vice versa, the retained interest is not remeasured. Instead, the investment continues to be accounted for under the equity method. In all other cases, upon loss of significant influence over the associate or joint control over the joint venture, the Group measures and recognises any retained investment at its fair value. Any difference between the carrying amount of the associate or joint venture upon loss of significant influence or joint control and the fair value of the retained investment and proceeds from disposal is recognised in profit or loss.

When an investment in an associate or a joint venture is classified as held for sale, it is accounted for in accordance with HKFRS 5 Non-current Assets Held for Sale and Discontinued Operations.

#### Business combinations and goodwill

Business combinations are accounted for using the acquisition method. The consideration transferred is measured at the acquisition date fair value which is the sum of the acquisition date fair values of assets transferred by the Group, liabilities assumed by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets. All other components of non-controlling interests are measured at fair value. Acquisition-related costs are expensed as incurred.

The Group determines that it has acquired a business when the acquired set of activities and assets include an input and a substantive process that together significantly contribute to the ability to create outputs.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts of the acquiree.

#### Business combinations and goodwill (Continued)

If the business combination is achieved in stages, the previously held equity interest is remeasured at its acquisition date fair value and any resulting gain or loss is recognised in profit or loss or other comprehensive income, as appropriate.

Any contingent consideration to be transferred by the acquirer is recognised at fair value at the acquisition date. Contingent consideration classified as an asset or liability is measured at fair value with changes in fair value recognised in profit or loss. Contingent consideration that is classified as equity is not remeasured and subsequent settlement is accounted for within equity.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred, the amount recognised for non-controlling interests and any fair value of the Group's previously held equity interests in the acquiree over the identifiable net assets acquired and liabilities assumed. If the sum of this consideration and other items is lower than the fair value of the net assets acquired, the difference is, after reassessment, recognised in profit or loss as a gain on bargain purchase.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. Goodwill is tested for impairment annually or more frequently if events or changes in circumstances indicate that the carrying value may be impaired. The Group performs its annual impairment test of goodwill as at 31 December. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units, or groups of cash-generating units, that are expected to benefit from the synergies of the combination, irrespective of whether other assets or liabilities of the Group are assigned to those units or groups of units.

Impairment is determined by assessing the recoverable amount of the cash-generating unit (group of cash-generating units) to which the goodwill relates. Where the recoverable amount of the cash-generating unit (group of cash-generating units) is less than the carrying amount, an impairment loss is recognised. An impairment loss recognised for goodwill is not reversed in a subsequent period.

Where goodwill has been allocated to a cash-generating unit (or group of cash-generating units) and part of the operation within that unit is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on the disposal. Goodwill disposed of in these circumstances is measured based on the relative value of the operation disposed of and the portion of the cash-generating unit retained.

#### Fair value measurement

The Group measures its investment properties and derivative financial instruments at fair value at the end of each reporting period. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability, or in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible by the Group. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

#### Fair value measurement (Continued)

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 based on quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2 based on valuation techniques for which the lowest level input that is significant to the fair value measurement is observable, either directly or indirectly
- Level 3 based on valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by reassessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

#### Impairment of non-financial assets

Where an indication of impairment exists, or when annual impairment testing for non-financial asset is required (other than inventories, deferred tax assets and investment properties), the asset's recoverable amount is estimated. An asset's recoverable amount is the higher of the asset's or cash-generating unit's value in use and its fair value less costs of disposal, and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets, in which case the recoverable amount is determined for the cash-generating unit to which the asset belongs.

In testing a cash-generating unit for impairment, a portion of the carrying amount of a corporate asset (e.g., a headquarters building) is allocated to an individual cash-generating unit if it can be allocated on a reasonable and consistent basis or, otherwise, to the smallest group of cash-generating units.

An impairment loss is recognised only if the carrying amount of an asset exceeds its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. An impairment loss is charged to the statement of profit or loss in the period in which it arises in those expense categories consistent with the function of the impaired asset.

#### Impairment of non-financial assets (Continued)

An assessment is made at the end of each reporting period as to whether there is an indication that previously recognised impairment losses may no longer exist or may have decreased. If such an indication exists, the recoverable amount is estimated. A previously recognised impairment loss of an asset other than goodwill is reversed only if there has been a change in the estimates used to determine the recoverable amount of that asset, but not to an amount higher than the carrying amount that would have been determined (net of any depreciation/amortisation) had no impairment loss been recognised for the asset in prior years. A reversal of such an impairment loss is credited to the statement of profit or loss in the period in which it arises.

#### Related parties

A party is considered to be related to the Group if:

- (a) the party is a person or a close member of that person's family and that person:
  - (i) has control or joint control over the Group;
  - (ii) has significant influence over the Group; or
  - (iii) is a member of the key management personnel of the Group or of a parent of the Group;

or

- (b) the party is an entity where any of the following conditions applies:
  - (i) the entity and the Group are members of the same group;
  - (ii) one entity is an associate or joint venture of the other entity (or of a parent, subsidiary or fellow subsidiary of the other entity);
  - (iii) the entity and the Group are joint ventures of the same third party;
  - (iv) one entity is a joint venture of a third entity and the other entity is an associate of the third entity;
  - (v) the entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group;
  - (vi) the entity is controlled or jointly controlled by a person identified in (a);
  - (vii) a person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity); and
  - (viii) the entity, or any member of a group of which it is a part, provides key management personnel services to the Group or to the parent of the Group.

Other property, plant and equipment and depreciation

Other property, plant and equipment are stated at cost less accumulated depreciation and any impairment losses. The cost of an item of other property, plant and equipment comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use.

Expenditure incurred after items of other property, plant and equipment have been put into operation, such as repairs and maintenance, is normally charged to statement of profit or loss in the period in which it is incurred. In situations where the recognition criteria are satisfied, the expenditure for a major inspection is capitalised in the carrying amount of the asset as a replacement. Where significant parts of other property, plant and equipment are required to be replaced at intervals, the Group recognises such parts as individual assets with specific useful lives and depreciates them accordingly.

Depreciation is calculated on the straight-line basis to write off the cost of each item of other property, plant and equipment to its residual value over its estimated useful life. The principal annual rates used for this purpose are as follows:

Buildings Over the lease terms of the leasehold land where the buildings are

situated

Leasehold improvements Over the shorter of the lease terms and 20%

Furniture, fixtures and other plant 3 to 10 years

and equipment

Where parts of an item of other property, plant and equipment have different useful lives, the cost of that item is allocated on a reasonable basis among the parts and each part is depreciated separately. Residual values, useful lives and the depreciation method are reviewed, and adjusted if appropriate, at least at each financial year end.

An item of other property, plant and equipment including any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss on disposal or retirement recognised in the statement of profit or loss in the year the asset is derecognised is the difference between the net sales proceeds and the carrying amount of the relevant asset.

## 3. Material Accounting Policies (Continued) Inventories

#### (a) Properties held for development for sale

The cost of leasehold land, which is held for development for sale, represents the cost of acquisition. Net realisable value is determined by reference to management estimates based on prevailing market conditions.

#### (b) Properties under development for sale

Properties under development for sale are stated at the lower of cost and net realisable value and comprise land costs, construction costs, borrowing costs, professional fees and other costs directly attributable to such properties incurred during the development period.

Properties under development for sale are classified as current assets unless the construction period of the relevant property development project is expected to complete beyond the normal operating cycle. On completion, the properties are transferred to completed properties for sale.

#### (c) Completed properties for sale

Completed properties for sale are stated at the lower of cost and net realisable value. Cost is determined by an apportionment of total land and construction costs attributable to the unsold properties. Net realisable value is determined by reference to the sales proceeds of properties sold in the ordinary course of business, less applicable variable selling expenses, or by management estimates based on prevailing market conditions.

#### Investment properties

Investment properties include both completed investment properties and investment properties under construction.

Completed investment properties are interests in land and buildings (including right-of-use assets) held to earn rental income and/or for capital appreciation. Such properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at fair value, which reflects market conditions at the end of the reporting period.

Investment properties under construction or development for future use as investment properties are classified as investment properties under construction. Such properties under construction are measured initially at cost, including transaction costs, and stated at fair value, subsequent to initial recognition, at the end of the reporting period when the fair value can be determined reliably.

Gains or losses arising from changes in the fair values of completed investment properties and investment properties under construction are included in the statement of profit or loss in the year in which they arise.

Any gains or losses on the retirement or disposal of a completed investment property or an investment property under construction are recognised in the statement of profit or loss in the year of the retirement or disposal.

## 3. Material Accounting Policies (Continued) Investment properties (Continued)

If a property occupied by the Group as an owner-occupied property becomes an investment property, the Group accounts for such property in accordance with the policy stated under "Other property, plant and equipment and depreciation" for owned property and/or accounts for such property in accordance with the policy stated under "Right-of-use assets" for property held as a right-of-use asset up to the date of change in use, and any difference at that date between the carrying amount and the fair value of the property is accounted for as a revaluation in accordance with the policy stated under "Other property, plant and equipment and depreciation" above. If a property occupied by the Group as a property under development or a completed property for sale becomes an investment property, any difference between the fair value of the property at that date and its previous carrying amount is recognised in the statement of profit or loss.

#### Leases

The Group assesses at contract inception whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

#### Group as a lessee

The Group applies a single recognition and measurement approach for all leases, except for short-term leases. The Group recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

#### (a) Right-of-use assets

Right-of-use assets are recognised at the commencement date of the lease (that is the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and any impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease terms and the estimated useful lives of the assets as follows:

Leasehold land

Over the lease terms

If ownership of the leased asset is transferred to the Group by the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

#### Leases (Continued)

Group as a lessee (Continued)

#### (b) Lease liabilities

Lease liabilities are recognised at the commencement date of the lease at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for termination of a lease, if the lease term reflects the Group exercising the option to terminate the lease. The variable lease payments that do not depend on an index or a rate are recognised as an expense in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in lease payments (e.g., a change to future lease payments resulting from a change in an index or rate) or a change in assessment of an option to purchase the underlying asset.

#### (c) Short-term leases

The Group applies the short-term lease recognition exemption to its short-term leases of rented offices (that is those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the recognition exemption for leases of low-value assets to leases of office equipment and laptop computers that are considered to be of low value.

Lease payments on short-term leases are recognized as an expense on a straight-line basis over the lease term.

#### Group as a lessor

When the Group acts as a lessor, it classifies at lease inception (or when there is a lease modification) each of its as either an operating lease or a finance lease.

Leases in which the Group does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. When a contract contains lease and non-lease components, the Group allocates the consideration in the contract to each component on a relative stand-alone selling price basis. Rental income is accounted for on a straight-line basis over the lease term and is included in revenue in the statement of profit or loss due to its operating nature. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

Leases that transfer substantially all the risks and rewards incidental to ownership of an underlying asset to the lessee, are accounted for as finance leases.

Investments and other financial assets

#### Initial recognition and measurement

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, and fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient of not adjusting the effect of a significant financing component, the Group initially measures a financial assets at its fair value, plus in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient are measured at the transaction price determined under HKFRS 15 in accordance with the policies set out for "Revenue recognition" below.

In order for a financial asset to be classified and measured at amortised cost, it needs to give rise to cash flows that are solely payments of principal and interest ("SPPI") on the principal amount outstanding. Financial assets with cash flows that are not SPPI are classified and measured at fair value through profit or loss, irrespective of the business model.

The Group's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both. Financial assets classified and measured at amortised cost are held within a business model with the objective to hold financial assets in order to collect contractual cash flows, while financial assets classified and measured at fair value through other comprehensive income are held within a business model with the objective of both holding to collect contractual cash flows and selling. Financial assets which are not held within the aforementioned business models are classified and measured at fair value through profit or loss.

Purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the marketplace are recognised on the trade date, that is, the date that the Group commits to purchase or sell the asset.

#### Subsequent measurement

The subsequent measurement of financial assets depends on their classification as follows:

#### Financial assets at amortised cost (debt instruments)

Financial assets at amortised cost are subsequently measured using the effective interest method and are subject to impairment. Gains and losses are recognised in the statement of profit or loss when the asset is derecognised, modified or impaired.

Investments and other financial assets (Continued)

Subsequent measurement (Continued)

Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss are carried in the statement of financial position at fair value with net changes in fair value recognised in the statement of profit or loss.

This category includes derivative instruments and equity investments which the Group had not irrevocably elected to classify at fair value through other comprehensive income. Dividends on the equity investments are also recognised as other income in the statement of profit or loss when the right of payment has been established.

A derivative embedded in a hybrid contract, with a financial liability or non-financial host, is separated from the host and accounted for as a separate derivative if the economic characteristics and risks are not closely related to the host; a separate instrument with the same terms as the embedded derivative would meet the definition of a derivative; and the hybrid contract is not measured at fair value through profit or loss. Embedded derivatives are measured at fair value with changes in fair value recognised in the statement of profit or loss. Reassessment only occurs if there is either a change in the terms of the contract that significantly modifies the cash flows that would otherwise be required or a reclassification of a financial asset out of the fair value through profit or loss category.

A derivative embedded within a hybrid contract containing a financial asset host is not accounted for separately. The financial asset host together with the embedded derivative is required to be classified in its entirety as a financial asset at fair value through profit or loss.

#### Derecognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e., removed from the Group's consolidated statement of financial position) when:

- the rights to receive cash flows from the asset have expired; or
- the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risk and rewards of ownership of the asset. When it has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

## Material Accounting Policies (Continued) Derecognition of financial assets (Continued)

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

#### Impairment of financial assets

The Group recognises an allowance for expected credit losses ("ECLs") for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

#### General approach

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12 months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

At each reporting date, the Group assesses whether the credit risk on a financial instrument has increased significantly since initial recognition. When making the assessment, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition and considers reasonable and supportable information that is available without undue cost or effort, including historical and forward-looking information. The Group considers that there has been a significant increase in credit risk when contractual payments are more than 30 days past due.

The Group considers a financial asset in default when contractual payments are 90 days past due. However, in certain cases, the Group may also consider a financial asset to be in default when internal or external information indicates that the Group is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group.

A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

Financial assets at amortised cost are subject to impairment under the general approach and they are classified within the following stages for measurement of ECLs except for trade receivables and contract assets which apply the simplified approach as detailed below.

Stage 1 — Financial instruments for which credit risk has not increased significantly since initial recognition and for which the loss allowance is measured at an amount equal to 12-month ECLs

#### Impairment of financial assets (Continued)

#### General approach (Continued)

- Stage 2 Financial instruments for which credit risk has increased significantly since initial recognition but that are not credit-impaired financial assets and for which the loss allowance is measured at an amount equal to lifetime ECLs
- Stage 3 Financial assets that are credit-impaired at the reporting date (but that are not purchased or originated credit-impaired) and for which the loss allowance is measured at an amount equal to lifetime ECLs

#### Simplified approach

For trade receivables and contract assets that do not contain a significant financing component or when the Group applies the practical expedient of not adjusting the effect of a significant financing component, the Group applies the simplified approach in calculating ECLs. Under the simplified approach, the Group does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Group has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

For trade receivables and contract assets that contain a significant financing component and lease receivables, the Group chooses as its accounting policy to adopt the simplified approach in calculating ECLs with policies as described above.

#### Financial liabilities

#### Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Group's financial liabilities include trade and other payables, bank and other loans, senior notes, other current liabilities and corporate bonds and liabilities under cross-border guarantee arrangements.

#### Subsequent measurement

The subsequent measurement of financial liabilities depends on their classification as follows:

#### Financial liabilities at amortised cost (trade and other payables, and borrowings)

After initial recognition, trade and other payables, and bank and other loans and corporate bonds are subsequently measured at amortised cost, using the effective interest rate method unless the effect of discounting would be immaterial, in which case they are stated at cost. Gains and losses are recognised in the statement of profit or loss when the liabilities are derecognised as well as through the effective interest rate amortisation process.

Financial liabilities (Continued)

Subsequent measurement (Continued)

Financial liabilities at amortised cost (trade and other payables, and borrowings) (Continued)

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate. The effective interest rate amortisation is included in finance costs in the statement of profit or loss.

#### Senior notes

Senior notes issued by the Group that contain both liability and early redemption option (which is not closely related to the host contract) are classified separately into respective items on initial recognition. At the date of issue, both the liability and early redemption option components are recognised at fair value.

In subsequent periods, the liability component of the senior notes is carried at amortised cost using the effective interest method. The early redemption option is measured at fair value with changes in fair value recognised in the statement of profit or loss.

Transaction costs that relate to the issue of the senior notes are allocated to the liability and early redemption components in proportion to their relative fair values. Transaction costs relating to the early redemption option are charged to the statement of profit or loss immediately. Transaction costs relating to the liability component are included in the carrying amount of the liability portion and amortised over the period of the senior notes using the effective interest method.

#### Financial quarantee contracts

Financial guarantee contracts issued by the Group are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. A financial guarantee contract is recognised initially as a liability at its fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequent to initial recognition, the Group measures the financial guarantee contracts at the higher of: (i) the ECL allowance determined in accordance with the policy as set out in "Impairment of financial assets"; and (ii) the amount initially recognised less, when appropriate, the cumulative amount of income recognised.

#### Derecognition of financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged or cancelled, or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and a recognition of a new liability, and the difference between the respective carrying amounts is recognised in the statement of profit or loss.

#### Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

#### Cash and cash equivalents

Cash and cash equivalents in the statement of financial position comprise cash on hand and at banks, and short-term highly liquid deposits with a maturity of generally within three months that are readily convertible into known amounts of cash, subject to an insignificant risk of changes in value held for the purpose of meeting short-term cash commitments.

For the purpose of the consolidated statement of cash flows, cash and cash equivalents comprise cash on hand and at banks, and short-term deposits as defined above, less bank overdrafts which are repayable on demand and form an integral part of the Group's cash management.

#### Perpetual capital securities

Perpetual capital securities with no contractual obligation to repay its principal or to pay any distribution are classified as part of equity.

#### **Provisions**

A provision is recognised when a present obligation (legal or constructive) has arisen as a result of a past event and it is probable that a future outflow of resources will be required to settle the obligation, provided that a reliable estimate can be made of the amount of the obligation.

When the Group expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit or loss net of any reimbursement.

When the effect of discounting is material, the amount recognised for a provision is the present value at the end of the reporting period of the future expenditures expected to be required to settle the obligation. The increase in the discounted present value amount arising from the passage of time is included in finance costs in the statement of profit or loss.

#### Income tax

Income tax comprises current and deferred tax. Income tax relating to items recognised outside profit or loss is recognised outside profit or loss, either in other comprehensive income or directly in equity.

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period, taking into consideration interpretations and practices prevailing in the countries in which the Group operates.

Deferred tax is provided, using the liability method, on all temporary differences at the end of the reporting period between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

## Material Accounting Policies (Continued) Income tax (Continued)

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- when the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in
  a transaction that is not a business combination and, at the time of the transaction, affects neither
  the accounting profit nor taxable profit or loss and does not give rise to equal taxable and
  deductible temporary differences; and
- in respect of taxable temporary differences associated with investments in subsidiaries, associates and joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, and the carryforward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carryforward of unused tax credits and unused tax losses can be utilised, except:

- when the deferred tax asset relating to the deductible temporary differences arises from the initial
  recognition of an asset or liability in a transaction that is not a business combination and, at the
  time of the transaction, affects neither the accounting profit nor taxable profit or loss and does not
  give rise to equal taxable and deductible temporary differences; and
- in respect of deductible temporary differences associated with investments in subsidiaries, associates and joint ventures, deferred tax assets are only recognised to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at the end of each reporting period and are recognised to the extent that it has become probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and deferred tax liabilities are offset if and only if the Group has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities which intend either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

#### Government grants

Government grants are recognised at their fair value where there is reasonable assurance that the grant will be received and all attaching conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the costs, for which it is intended to compensate, are expensed.

Where the grant relates to an asset, the fair value is credited to a deferred income account and is released to the statement of profit or loss over the expected useful life of the relevant asset by equal annual instalments or deducted from the carrying amount of the asset and released to the statement of profit or loss by way of a reduced depreciation charge.

Where the Group receives grants of non-monetary assets, the grants are recorded at the fair value of the non-monetary assets and released to the statement of profit or loss over the expected useful lives of the relevant assets by equal annual instalments.

Where the Group receives government loans granted with no or at a below-market rate of interest for the construction of a qualifying asset, the initial carrying amount of the government loans is determined using the effective interest rate method, as further explained in the accounting policy for "Financial liabilities" above. The benefit of the government loans granted with no or at a below-market rate of interest, which is the difference between the initial carrying value of the loans and the proceeds received, is treated as a government grant and released to the statement of profit or loss over the expected useful life of the relevant asset by equal annual instalments.

#### Revenue recognition

#### Revenue from contracts with customers

Revenue from contracts with customers is recognised when control of goods or services is transferred to the customers at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services.

When the consideration in a contract includes a variable amount, the amount of consideration is estimated to which the Group will be entitled in exchange for transferring the goods or services to the customer. The variable consideration is estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognised will not occur when the associated uncertainty with the variable consideration is subsequently resolved.

When the contract contains a financing component which provides the customer with a significant benefit of financing the transfer of goods or services to the customer for more than one year, revenue is measured at the present value of the amount receivable, discounted using the discount rate that would be reflected in a separate financing transaction between the Group and the customer at contract inception. When the contract contains a financing component which provides the Group with a significant financial benefit for more than one year, revenue recognised under the contract includes the interest expense accreted on the contract liability under the effective interest method. For a contract where the period between the payment by the customer and the transfer of the promised goods or services is one year or less, the transaction price is not adjusted for the effects of a significant financing component, using the practical expedient in HKFRS 15.

Revenue recognition (Continued)

Revenue from contracts with customers (Continued)

#### (a) Sale of properties

Revenue is recognised when the control of the asset is transferred to the customer. Depending on the terms of the contract and the laws that apply to the contract, control of the asset may transfer over time or at a point in time. Control of the asset is transferred over time if the Group's performance:

- provides all of the benefits received and consumed simultaneously by the customer;
- creates and enhances an asset that the customer controls as the Group performs; or
- does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

If control of the asset transfers over time, revenue is recognised over the period of the contract by reference to the progress towards complete satisfaction of that performance obligation. Otherwise, revenue is recognised at a point in time when the purchaser obtains control of the asset. The progress towards complete satisfaction of the performance obligation is measured based on the Group's efforts or inputs to the satisfaction of the performance obligation, by reference to the construction costs incurred up to the end of each reporting period as a percentage of total estimated construction costs for each contract.

For sales contract for which the control of the property is transferred at a point in time, revenue is recognised when the customer obtains the physical possession or the legal title of the completed property and the Group has the present right to payment and the collection of the consideration is probable.

#### (h) Development management

Revenue from the provision of construction and decoration services is recognised over time, using an input method to measure progress towards complete satisfaction of the service, because the Group's performance creates or enhances an asset that the customer controls as the asset is created or enhanced. The input method recognises revenue based on the proportion of the actual costs incurred relative to the estimated total costs for satisfaction of the construction and decoration services.

#### Revenue from other source

Rental income is recognised on a time proportion basis over the lease terms. Variable lease payments that do not depend on an index or a rate are recognised as income in the accounting period in which they are incurred.

#### Revenue recognition (Continued)

#### Other income

Interest income is recognised on an accrual basis using the effective interest method by applying the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument to the net carrying amount of the financial asset.

Dividend income is recognised when the shareholders' right to receive payment has been established, it is probable that the economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably.

#### Contract assets

If the Group performs by transferring goods or services to a customer before being unconditionally entitled to the consideration under the contract terms, a contract asset is recognised for the earned consideration that is conditional. Contract assets are subject to impairment assessment, details of which are included in the accounting policies for impairment of financial assets. They are reclassified to trade receivables when the right to the consideration becomes unconditional.

#### Contract liabilities

A contract liability is recognised when a payment is received or a payment is due (whichever is earlier) from a customer before the Group transfers the related goods or services. Contract liabilities are recognised as revenue when the Group performs under the contract (i.e., transfers control of the related goods or services to the customer).

#### Contract costs

Costs to fulfil a contract Costs to fulfil a contract Other than the costs which are capitalised as properties under development for sale and other property, plant and equipment, costs incurred to fulfil a contract with a customer are capitalised as an asset if all of the following criteria are met:

- (a) The costs relate directly to a contract or to an anticipated contract that the entity can specifically identify.
- (b) The costs generate or enhance resources of the entity that will be used in satisfying (or in continuing to satisfy) performance obligations in the future.
- (c) The costs are expected to be recovered.

#### Costs of obtaining contracts

Incremental costs of obtaining a contract are those costs that the Group incurs to obtain a contract with a customer it would not have incurred if the contract had not been obtained e.g., commission to sales agents. Incremental costs of obtaining a contract are capitalised when incurred if the costs relate to revenue which will be recognised in a future reporting period and the costs are expected to be recovered. Other costs of obtaining a contract are expensed when incurred.

#### Contract costs (Continued)

#### Costs of obtaining contracts (Continued)

The capitalised contract costs are amortised and charged to the statement of profit or loss on a systematic basis that is consistent with the transfer to the customer of the goods or services to which the asset relates. Other contract costs are expensed as incurred.

#### Share-based payments

#### Share option scheme

The Company operates a share option scheme. Employees (including directors) of the Group receive remuneration in the form of share-based payments, whereby employees render services in exchange for equity instruments ("Equity-Settled Transactions").

The cost of Equity-Settled Transactions with employees is measured by reference to the fair value at the date at which they are granted. The fair value is determined by an external valuer using a binomial model, further details of which are given in note 30 to the financial statements.

The cost of Equity-Settled Transactions is recognised in employee benefit expense, together with a corresponding increase in equity, over the period in which the performance and/or service conditions are fulfilled. The cumulative expense recognised for equity-settled transactions at the end of each reporting period until the vesting date reflects the extent to which the vesting period has expired and the Group's best estimate of the number of equity instruments that will ultimately vest. The charge or credit to the statement of profit or loss for a period represents the movement in the cumulative expense recognised as at the beginning and end of that period.

Service and non-market performance conditions are not taken into account when determining the grant date fair value of awards, but the likelihood of the conditions being met is assessed as part of the Group's best estimate of the number of equity instruments that will ultimately vest. Market performance conditions are reflected within the grant date fair value. Any other conditions attached to an award, but without an associated service requirement, are considered to be non-vesting conditions. Non-vesting conditions are reflected in the fair value of an award and lead to an immediate expensing of an award unless there are also service and/or performance conditions.

For awards that do not ultimately vest because non-market performance and/or service conditions have not been met, no expense is recognised. Where awards include a market or non-vesting condition, the transactions are treated as vesting irrespective of whether the market or non-vesting condition is satisfied, provided that all other performance and/or service conditions are satisfied.

Where the terms of an equity-settled award are modified, as a minimum an expense is recognised as if the terms had not been modified, if the original terms of the award are met. In addition, an expense is recognised for any modification that increases the total fair value of the share-based payments, or is otherwise beneficial to the employee as measured at the date of modification.

#### Share-based payments (Continued)

#### Share option scheme (Continued)

Where an equity-settled award is cancelled, it is treated as if it had vested on the date of cancellation, and any expense not yet recognised for the award is recognised immediately. This includes any award where non-vesting conditions within the control of either the Group or the employee are not met. However, if a new award is substituted for the cancelled award, and is designated as a replacement award on the date that it is granted, the cancelled and new awards are treated as if they were a modification of the original award, as described in the previous paragraph.

The dilutive effect of outstanding options is reflected as additional share dilution in the computation of earnings per share.

#### Share award scheme

Where shares are acquired by the Share Award Scheme from the market, the total consideration of shares acquired from the market (including any directly attributable incremental costs) is presented as shares held for the Share Award Scheme and deducted from total equity.

Upon vesting, the related costs of the vested awarded shares purchased from the market are credited to shares held for the Share Award Scheme, with a corresponding decrease in the employee share-based compensation reserve for awarded shares.

### Other employee benefits

#### Pension schemes

The Group operates a defined contribution Mandatory Provident Fund retirement benefit scheme (the "MPF Scheme") under the Mandatory Provident Fund Schemes Ordinance for those employees who are eligible to participate in the MPF Scheme. Contributions are made based on a percentage of the employees' basic salaries and are charged to statement of profit or loss as they become payable in accordance with the rules of the MPF Scheme. The assets of the MPF Scheme are held separately from those of the Group in an independently administered fund. The Group's employer contributions vest fully with the employees when contributed into the MPF Scheme. Where employees leave the scheme prior to the full vesting of the employer's contributions, the amount of forfeited contributions cannot be used to reduce the contributions payable by the Group.

The employees of the Group's subsidiaries which operate in Mainland China are required to participate in a central pension scheme (the "Pension Scheme") operated by the local municipal government. The subsidiaries are required to contribute certain percentages of their payroll costs to the Pension Scheme. The only obligation of the Group with respect to the Pension Scheme is to pay the ongoing contributions under the Pension Scheme. The contributions are charged to statement of profit or loss as they become payable in accordance with the rules of the Pension Scheme.

#### **Borrowing costs**

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, i.e., assets that necessarily take a substantial period of time to get ready for their intended use or sale, are capitalised as part of the cost of those assets. The capitalisation of such borrowing costs ceases when the assets are substantially ready for their intended use or sale. All other borrowing costs are expensed in the period in which they are incurred. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

#### Events after the reporting period

If the Group receives information after the reporting period, but prior to the date of authorisation for issue, about conditions that existed at the end of the reporting period, it will assess whether the information affects the amounts that it recognises in its financial statements. The Group will adjust the amounts recognised in its financial statements to reflect any adjusting events after the reporting period and update the disclosures that relate to those conditions in light of the new information. For non-adjusting events after the reporting period, the Group will not change the amounts recognised in its financial statements, but will disclose the nature of the non-adjusting events and an estimate of their financial effects, or a statement that such an estimate cannot be made, if applicable.

#### **Dividends**

Final dividends are recognised as a liability when they have been approved by the shareholders in a general meeting. Proposed final dividends are disclosed in the notes to the financial statements.

Interim dividends are simultaneously proposed and declared, because the Company's memorandum and articles of association grant the directors the authority to declare interim dividends. Consequently, interim dividends are recognised immediately as a liability when they are proposed and declared.

#### Foreign currencies

These financial statements are presented in RMB, which is the Group's presentation currency. The functional currency of the Company is Hong Kong dollars ("HK\$") while RMB is used as the presentation currency because the Group's operation is mainly carried out in Mainland China. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency. Foreign currency transactions recorded by the entities in the Group are initially recorded using their respective functional currency rates prevailing at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency rates of exchange ruling at the end of the reporting period. Differences arising on settlement or translation of monetary items are recognised in the statement of profit or loss.

Differences arising on settlement or translation of monetary items are recognised in the statement of profit or loss with the exception of monetary items that are designated as part of the hedge of the Group's net investment of a foreign operation. These are recognised in other comprehensive income until the net investment is disposed of, at which time the cumulative amount is reclassified to statement of profit or loss. Tax charges and credits attributable to exchange differences on these monetary items are also recorded in other comprehensive income.

# 3. Material Accounting Policies (Continued) Foreign currencies (Continued)

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was measured. The gain or loss arising on translation of a non-monetary item measured at fair value is treated in line with the recognition of the gain or loss on change in fair value of the item (i.e., translation difference on the item whose fair value gain or loss is recognised in other comprehensive income or profit or loss, respectively).

In determining the exchange rate on initial recognition of the related asset, expense or income on the derecognition of a non-monetary asset or non-monetary liability relating to an advance consideration, the date of initial transaction is the date on which the Group initially recognises the non-monetary asset or non-monetary liability arising from the advance consideration. If there are multiple payments or receipts in advance, the Group determines the transaction date for each payment or receipt of the advance consideration.

The functional currencies of certain subsidiaries, joint ventures and associates operating outside the PRC are currencies other than RMB. As at the end of the reporting period, the assets and liabilities of these entities are translated into RMB at the exchange rates prevailing at the end of the reporting period and their statements of profit or loss and other comprehensive income are translated into RMB at the exchange rates that approximate to those prevailing at the dates of the transactions.

The resulting exchange differences are recognised in other comprehensive income and accumulated in the exchange fluctuation reserve, except to the extent that the differences are attributable to non-controlling interests. On disposal of a foreign operation, the cumulative amount in the reserve relating to that particular foreign operation is recognised in the statement of profit or loss.

For the purpose of the consolidated statement of cash flows, the cash flows of non-PRC entities are translated into RMB at the exchange rates ruling at the dates of the cash flows. Frequently recurring cash flows of non-PRC entities which arise throughout the year are translated into RMB at the weighted average exchange rates for the year.

#### 4. Significant Accounting Judgements and Estimates

The preparation of the Group's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and their accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amounts of the assets or liabilities affected in the future.

# 4. Significant Accounting Judgements and Estimates (Continued) Judgements

In the process of applying the Group's accounting policies, management has made the following judgements, apart from those involving estimations, which have the most significant effect on the amounts recognised in the financial statements:

#### Determining the timing of satisfaction of contracts related to sale of properties

Revenue from sale of properties is recognised over time when the Group's performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date; otherwise, revenue is recognised at a point in time when the buyer obtains control of the legal title of the completed property. The Group may not change or substitute the property unit or redirect the property unit for another use due to the contractual restrictions with the customer and thus the property unit does not have an alternative use to the Group. However, whether there is an enforceable right to payment depends on the terms of the sales contract and the interpretation of the applicable laws that apply to the contract. Such determination requires significant judgements. The Group has obtained legal counsel opinion regarding the enforceability of the right to payment for sales contracts. Management uses judgements, based on legal counsel opinion, to classify sales contracts into those with the enforceable right to payment and those without the enforceable right.

#### Classification between investment properties and owner-occupied properties

The Group determines whether a property qualifies as an investment property, and has developed criteria in making that judgement. Investment property is a property held to earn rentals or for capital appreciation or both. Some properties comprise a portion that is held to earn rentals or for capital appreciation and another portion that is held for use in the production or supply of goods or services or for administrative purposes. If these portions could be sold separately or leased out separately under a finance lease, the Group accounts for these portions separately. If the portions could not be sold separately, the property is an investment property only if an insignificant portion is held for use in the production or supply of goods or services or for administrative purposes. Judgement is made on an individual property basis to determine whether ancillary services are so significant that a property does not qualify as an investment property.

#### Classification between investment properties and properties held for sale

The Group develops properties held for sale and properties held to earn rentals and/or for capital appreciation. Judgement is made by management on determining whether a property is designated as an investment property or a property held for sale. The Group considers its intention for holding the properties at the early development stage of the related properties. During the course of construction, the related properties under construction are accounted for as properties under development for sale included in current assets if the properties are intended for sale after their completion, whereas, the properties are accounted for as investment properties under construction included in investment properties if the properties are intended to be held to earn rentals and/or for capital appreciation. Upon completion of the properties, the properties held for sale are transferred to completed properties for sale and are stated at cost, while the properties held to earn rentals and/or for capital appreciation are transferred to completed investment properties. Investment properties, both under construction and completed, are subject to revaluation at the end of each reporting period.

# 4. Significant Accounting Judgements and Estimates (Continued) Judgements (Continued)

#### Property lease classification - Group as lessor

The Group has entered into commercial property leases on its investment property portfolio. The Group has determined, based on an evaluation of the terms and conditions of the arrangements, such as the lease term not constituting a major part of the economic life of the commercial property and the present value of the minimum lease payments not amounting to substantially all the fair value of the commercial property, that it retains substantially all the significant risks and rewards incidental to ownership of these properties which are leased out and accounts for the contracts as operating leases.

#### Allocation of construction cost on properties under development for sale

When developing properties, the Group typically divides the development projects into phases. Costs directly related to the development of a phase are recorded as the cost of such phase. Costs that are common to each phase are allocated to each phase based on the saleable floor area of each phase as a percentage of the total saleable floor area of the entire project. The cost of the unit sold is determined by the floor area in square metres sold during the year multiplied by the average cost per square metre of that particular phase of the project.

## Whether the presumption that investment properties stated at fair value are recovered through sale is rebutted in determining deferred tax

The Group has investment properties located in the PRC which are measured at fair value. Investment property is property held to earn rentals or for capital appreciation or both. In considering whether the presumption in HKAS 12 Income Taxes that an investment property measured at fair value will be recovered through sale is rebutted in determining deferred tax, the Group has developed certain criteria in making that judgement, such as whether an investment property is held within a business model whose objective is to consume substantially all of the economic benefits embodied in the investment property over time or through sale. In determining the Group's deferred tax on investment properties, the directors have determined that the presumption set out in HKAS 12 Income Taxes that investment properties measured using the fair value model are recovered through sale is rebutted. Continuous assessments on the presumption will be made by management at each reporting date.

#### **Estimation uncertainty**

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below.

#### Valuation of properties under development for sale and completed properties for sale

Properties under development for sale and completed properties for sale are stated at the lower of cost and net realisable value. The cost of each unit in each phase of development is determined using the weighted average method. The estimated net realisable value is the estimated selling price less selling expenses and the estimated cost of completion (if any), which are estimated based on the best available information.

# 4. Significant Accounting Judgements and Estimates (Continued) Estimation uncertainty (Continued)

#### Valuation of properties under development for sale and completed properties for sale (Continued)

If there is an increase in costs to completion or a decrease in net sales value, the net realisable value will decrease and this may result in a provision for properties under development for sale and completed properties for sale. Such provision requires the use of judgement and estimates. Where the expectation is different from the original estimate, the carrying value and provision for properties in the periods in which such estimate is changed will be adjusted accordingly.

#### Investments in joint ventures and associates

The Group has cooperated with certain third parties to engage in certain property development projects through investments in and advances to joint ventures and associates. Significant estimation and judgement are required to assess the recoverability of the receivables from joint ventures and associates because the profitability of the future development of properties by the joint ventures and associates over a number of years can be difficult to predict and can be influenced by broader political and economic factors.

#### Estimation of fair value of investment properties

Investment properties, including completed investment properties and investment properties under construction, were revalued at each reporting date during the year based on the appraised market value provided by independent professional valuers or the Group's internal assessment. Such valuations were based on certain assumptions, which are subject to uncertainty and might materially differ from the actual results. In making the estimation, the Group considers information from current prices in an active market for similar properties and uses assumptions that are mainly based on market conditions existing at each reporting date. The valuations of investment properties under construction was based on the residual approach, and have taken into account the expended construction costs and the costs that will be expended to complete the development to reflect the quality of the completed development on the basis that the properties will be developed and completed in accordance with the Group's latest development plan.

#### PRC corporate income tax ("CIT")

The Group is subject to CIT in the PRC. As a result of the fact that certain matters relating to income taxes have not been confirmed by the local tax bureau, objective estimates and judgement based on currently enacted tax laws, regulations and other related policies are required in determining the provision for income taxes. Where the final tax outcome of these matters is different from the amounts originally recorded, the differences will impact on the income tax and tax provisions in the period in which the differences realise.

#### PRC land appreciation tax ("LAT")

The Group is subject to LAT in the PRC. The provision for LAT is based on management's best estimates according to the understanding of the requirements set forth in the relevant PRC tax laws and regulations. The actual LAT liabilities are subject to the determination by the tax authorities upon the completion of the property development projects. The Group has not finalised its LAT calculation and payments with the tax authorities for certain of its property development projects. The final outcome could be different from the amounts that were initially recorded.

# 4. Significant Accounting Judgements and Estimates (Continued) Estimation uncertainty (Continued)

#### Deferred tax assets

Deferred tax assets are recognised for all unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of future taxable profits together with future tax planning strategies.

#### Provision for expected credit losses on receivables from joint ventures and associates

The measurement of impairment losses under HKFRS 9 requires to determine, the estimation of the amount and timing of future cash flows and collateral values when determining impairment losses and the assessment of a significant increase in credit risk. These estimates are driven by a number of factors, such as risk of default, loss given default and collateral recovery, changes in which can result in different levels of allowances.

The Group's expected credit loss calculations on receivables from joint ventures and associates are based on assumptions about risk of default and loss given default. The Group is required to determine in making these assumptions and selecting the inputs to the impairment calculations, based on credit risks of the debtors or comparable companies in the market, existing market conditions as well as forward looking estimates at the end of each reporting period. It has been the Group's policy to regularly review its models in the context of actual loss experience and adjust when necessary.

At 31 December 2024, the carrying amount of the Group's receivables from joint ventures and associates was RMB5,079 million (2023: RMB5,312 million), and the ECLs are insignificant. Further details of the Group's receivables from joint ventures and associates, and the key assumptions and inputs used for impairment calculations are given in notes 17 and 20 to the financial statements.

#### 5. Operating Segment Information

For management purposes, the Group is organised into business units based on their products and services and has two reportable operating segments as follows:

- (a) the property development segment comprised of (i) develops and sells residential and commercial properties, retail shops and office units; (ii) engages in construction of office premises and residential buildings; (iii) provides decoration services for external customers; and (iv) provides interior decoration services to property buyers; and
- (b) the property operation segment which is the leases office units, commercial centers, retail shops and hotels to generate rental income and to gain from the appreciation in the properties' values in the long term.

The Group's revenue from external customers from each operating segment is set out in note 5 to the financial statements.

#### 5. Operating Segment Information (Continued)

Management monitors the results of the Group's operating segments separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on reportable segment profit or loss, which is a measure of adjusted profit or loss before tax. The adjusted profit or loss before tax is measured consistently with the Group's profit or loss before tax except that depreciation, other income and gains, other expenses, finance costs, share of profits or losses of joint ventures and associates, fair value changes on investment properties and derivative financial instruments and head office and corporate expenses are excluded from such measurement. Segment assets and liabilities are not reported to the Group's chief operating decision maker regularly.

Intersegment sales and transfers are transacted with reference to the selling prices used for sales made to third parties at the then prevailing market prices.

Information regarding the reportable segments is presented below.

#### 12. Dividends

The board of directors did not recommend the payment of a dividend for the years ended 31 December 2024 and 2023.

#### 13. Loss per Share Attributable to Ordinary Equity Holders of the Parent

The calculation of the basic loss per share amount for the year ended 31 December 2024 is based on the loss for the period attributable to owners of the parent, adjusted for the distribution related to perpetual capital securities, and the weighted average number of ordinary shares outstanding less the weighted average number of shares held under the share award scheme during the period.

The calculation of the diluted loss per share amount for the year ended 31 December 2024 is based on the loss for the period attributable to owners of the parent, adjusted for the distribution related to perpetual capital securities. The weighted average number of ordinary shares used in the calculation is the weighted average number of ordinary shares outstanding less the weighted average number of shares held under the share award scheme during the period, as used in the basic loss per share calculation, and the weighted average number of ordinary shares assumed to have been issued at no consideration on the deemed exercise of all the dilutive potential ordinary shares into ordinary shares.

The calculations of the basic and diluted loss per share are based on:

#### 15. Investment Properties (Continued)

#### Fair value hierarchy (Continued)

The valuations of completed investment properties were based on either the direct comparison method by reference to comparable market transactions, which is positively correlated to the market unit sale rate; or the income approach by capitalisation of net rental income derived from the existing tenancies with allowance for the reversionary rental income potential of the properties, which is positively correlated to the market rental growth rate, yearly unit rental income and occupancy rate, and negatively correlated to risk-adjusted discount rate and capitalisation rate.

The valuations of investment properties under construction were based on the residual approach, and have taken into account the expected construction costs and future costs that will be expended to complete the development to reflect the quality of the completed development on the basis that the properties will be developed and completed in accordance with the Group's latest development plan. The valuations of investment properties under construction are positively correlated to the development profit and negatively correlated to the risk-adjusted discount rate.

#### 16. Leases

#### The Group as a lessor

The Group leases its investment properties (note 15) under operating lease arrangements. The terms of the leases generally also require the tenants to pay security deposits and provide for periodic rent adjustments according to the then prevailing market conditions. Rental income recognised by the Group during the year was RMB300,506,000 (2023: RMB384,904,000), details of which are included in note 6 to the financial statements.

At 31 December 2024, the undiscounted lease payments receivable by the Group in future periods under operating leases with its tenants are as follows:

	2024 RMB'000	2023 RMB'000
Within one year	188,054	208,443
After one year but within two years	149,971	159,971

The official names of the above entities are in Chinese. The English translation of the names are for reference only.

The directors consider that the Group can only exercise significant influence over Zhuhai Ruiliang and Nanning Jinlin based on their board composition, and accordingly they are classified as associates of the Group. The associates are accounted for using the equity method in the consolidated financial statements. All the associates in which the Group held interest are unlisted corporate entities, whose quoted market prices are not available.

#### 17. Investments in Associates (Continued)

An impairment analysis is performed at each reporting date by considering the probability of default of comparable companies with published credit ratings. As at 31 December 2024, the probability of default applied was 0.066% (2023: 25.70%) and the loss given default was approximately to 72.1% (2023: 3.04%) and the expected credit loss was considered to be minimal.

All the properties held for development for sale, properties under development for sale and completed properties for sale are stated at the lower of cost and net realisable value.

At 31 December 2024 and 2023, certain of the Group's inventories were pledged to secure certain bank, other loans and borrowings granted to the Group (note 38).

Lump sum payments were made upfront to acquire the leased land from the PRC government with lease periods of 40 to 70 years, and no ongoing payments will be made under the terms of these land leases.

Further particulars of the Group's major properties inventories are set out on page 176 of the Annual Report.

#### Notes:

(i) The Group's trade receivables mainly arise from the sale of properties and leasing of investment properties.

Consideration in respect of sale of properties is payable by the purchasers in accordance with the terms of the related sale and purchase agreements. The Group normally requires its customers to make payment of monthly/quarterly charges in advance in relation to the leasing of investment properties.

Since the Group's trade receivables are related to a number of diversified customers, there is no significant concentration of credit risk. The Group does not hold any collateral or other credit enhancements over its trade receivable balances. All trade receivables are non-interest-bearing.

#### 20. Trade and Other Receivables, Prepayments and Other Assets (Continued)

Notes: (Continued)

#### (i) (Continued)

An ageing analysis of the trade receivables as at the end of the reporting period, based on the invoice date and net of loss allowance, is as follows:

	2024 RMB'000	2023 RMB'000
Within 30 days	52,587	137,944
31 to 90 days	140,999	142,868

181 to 365 days	770,550	875,114
	1,136,478	1,361,684

An impairment analysis for trade receivables is performed at each reporting date using the simplified approach to measure expected credit losses including trade receivables. The provision rates are based on days past due for groupings of various customers with similar loss patterns. The calculation reflects the probability-weighted outcome, the time value of money and reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions. Based on the evaluation on the provision rate and gross carrying amount, the directors of the Company are of the opinion that the financial impact of ECLs in respect of these balances is considered immaterial. As at 31 December 2024 and 2023, the loss allowance for trade receivables was assessed to be minimal.

- (ii) The amounts due from related companies and non-controlling shareholders are unsecured, interest-free and repayable on demand
- (iii) As at December 2024, except for amounts of RMB482 million (2023: RMB502 million), which are trade nature, other amounts due from joint ventures and associates are advanced by the Group for land acquisition and project development and construction, which are unsecured, interest-free and repayable on demand.

An ageing analysis of the trade receivables from joint ventures and associates as at the end of the reporting period, based on the invoice date and net of loss allowance, is as follows:

	2024 RMB'000	2023 RMB'000
Within 30 days	100,869	93,739
31 to 90 days	94,182	71,045

181 to 365 days	110,824	210,973
	481,863	501,829

An impairment analysis for trade receivables from joint ventures and associates is performed at each reporting date using the simplified approach to measure expected credit losses. The provision rates are based on days past due for groupings of various customers with similar loss patterns. The calculation reflects the probability-weighted outcome, the time value of money and reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions. Based on the evaluation on the provision rate and gross carrying amount, the directors of the Company are of the opinion that the financial impact of ECLs in respect of these balances is considered immaterial. As at 31 December 2024 and 2023, the loss allowance for trade receivables from joint ventures and associates was assessed to be minimal.

## 20. Trade and Other Receivables, Prepayments and Other Assets (Continued) Notes: (Continued)

- (iv) The amount represents prepaid agency fees in connection with the sale of properties. For the year ended 31 December 2024, the sales commission expense was RMB475 million (2023: RMB859 million).
- (v) Contract assets consist of unbilled amounts resulting from sale of properties when revenue recognised exceeds the amounts billed to the customers. The balance is expected to be recovered or settled within one year. As at 31 December 2024 and 2023, the loss allowance for contract assets was assessed to be minimal.
- (vi) The financial assets included in the above balances relate to receivables for which there was no recent history of default. As at 31 December 2024 and 2023, the loss allowance was assessed to be minimal.

#### 21. Assets and Liabilities under Cross-Border Guarantee Arrangements

During the years ended 31 December 2024 and 2023, the Group had some cross-border guarantee arrangements with certain financial institutions, whereby certain onshore funding (i.e. in the PRC) and offshore funding (i.e. in Hong Kong) have been used as a pledge against advances to offshore (i.e. in Hong Kong) and onshore (i.e. in the PRC) for the Group's general working capital.

Pursuant to these arrangements which are made in compliance with the relevant rules and regulations promulgated by the State Administration of Foreign Exchange, funds are advanced to the Group's subsidiaries in Hong Kong by depositing a certain amount of funds in the relevant financial institutions by the Group's subsidiaries in the PRC or vice versa. The net cost of such arrangements is less than 1% per annum of the total funds advanced.

#### Notes:

As at 31 December 2024, the total cash and bank balances amounted to RMB8,654 million (2023: RMB13,172 million), of which:

- (a) Deposits in the amount of RMB3,992 million (2023: RMB8,215 million) are placed in designated bank accounts and can only be applied in the designated property development projects in accordance with the applicable prevailing policies and regulations; and
- (b) Deposits in the amount of RMB2,009 million (2023: RMB2,847 million) were restricted in relation to project development such as mortgage loans granted to the property purchasers or for bank and other loans.

At the end of the reporting period, the cash and bank balances and time deposits of the Group denominated in RMB amounted to RMB5,735,933,000 (2023: RMB9,959,271,000). RMB is not freely convertible into other currencies, however, under Mainland China's Foreign Exchange Control Regulations and Administration of Settlement, Sale and Payment of Foreign Exchange Regulations, the Group is permitted to exchange RMB for other currencies through banks authorised to conduct foreign exchange business.

Cash at banks earns interest at floating rates based on daily bank deposit rates. Non-pledged time deposits are made for varying periods of between seven days and six months depending on immediate cash requirements of the Group, and earn interest at the respective short term time deposit rates. All the bank balances and time deposits are deposited with creditworthy banks with no recent history of default.

Over 365 days	7,158,378	9,715,583
	23,277,191	29,795,615

The trade payables are non-interest-bearing.

- (ii) Other payables are non-interest-bearing and are expected to be settled within one year.
- (iii) The balance represented proceeds, after deduction of certain percentage of upfront fee, received from specific purpose entities ("SPEs") set up by financial institutions in the PRC for the issuance of asset-backed securities ("ABS"), to which the Group has transferred the right of receipt of the remaining sales proceeds of certain properties to be delivered by the Group. Under the assignment arrangement between the Group and the SPEs, as and when the Group receives the sales proceeds from customers, the Group would remit to the holder of the ABS any cash flows it collects on behalf of the SPEs.
- (iv) The amounts due to non-controlling shareholders are unsecured, interest-free and repayable on demand, except for amounts of RMB427,966,000 (2023: RMB427,966,000) as at 31 December 2024 which bore interest at fixed interest rates ranging from 4.75% to 8.0% (2023: 4.75% to 8.0%) per annum.
- (v) The amounts due to related companies are unsecured, interest-free and repayable on demand, except for amounts of RMB335,790,000 (2023: RMB405,000,000) as at 31 December 2024 which were secured by the Group's inventories, details of which are disclosed in note 38 to the financial statements.
- (vi) The amounts due to joint ventures and associates are unsecured, interest-free and repayable on demand.
- (vii) The amounts due to controlling shareholders are unsecured, interest-free and repayable on demand.

#### 24. Contract Liabilities

Contract liabilities mainly represent sales proceeds received from buyers in connection with the Group's pre-sales of properties. Balance as at 1 January 2023 was RMB56,844 million. Contract liabilities are expected to be settled within the Group's normal operating cycle. The decrease in contract liabilities during the year was mainly due to contract liabilities were recognised as revenue.

## 28. Deferred Tax (Continued)

#### Deferred tax assets (Continued)

For presentation purposes, certain deferred tax assets and liabilities have been offset in the consolidated statement of financial position. The following is an analysis of the deferred tax balances of the Group for financial reporting purposes:

	2024 RMB'000	2023 RMB'000
Net deferred tax assets recognised in the consolidated statement of financial position	(868,759)	(1,517,135)
Net deferred tax liabilities recognised in the consolidated statement of financial position	7,753,672	7,558,169
	6,884,913	6,041,034

The Group is liable for withholding taxes on dividends distributed by those subsidiaries established in Mainland China in respect of earnings generated from 1 January 2008. The applicable rate is 5% or 10% for the Group.

At 31 December 2024, no deferred tax has been recognised for withholding taxes that would be payable on unremitted earnings that are subject to withholding taxes of the Group's subsidiaries established in Mainland China. In the opinion of the directors, it is not probable that these subsidiaries will distribute such earnings in the foreseeable future. The aggregate amount of temporary differences associated with investments in subsidiaries in Mainland China for which deferred tax liabilities have not been recognised totalled approximately RMB55,020,394,000 at 31 December 2024 (2023: RMB57,430,555,000).

In the opinion of the directors, the Group's tax losses in respect of which deferred tax assets have not been recognised was not significant as at the end of the reporting period.

There are no income tax consequences attaching to the payment of dividends by the Company to its shareholders.

#### **Share options**

Details of the Company's share option scheme are included in note 30 the consolidated financial statements.

## 30. Share Option Scheme and Share Award Scheme Share option scheme

The Company operates a share option scheme (the "Share Option Scheme") which was adopted by an ordinary resolution of the shareholders of the Company on 18 November 2013. Full-time and part-time employees, executives, officers or directors (including independent non-executive directors) of the Group and any advisors, consultants, agents, suppliers, customers, distributors and such other persons who, in the sole opinion of the Board, will contribute or have contributed to the Group are included in the eligible participants under the Scheme. The maximum number of shares may be granted is 10% of the shares in issue immediately upon completion of the Global offering. Each participant cannot be entitled to more than 0.1% of the total number of shares in issue in any 12-month period unless approval from the independent non-executive directors of the Company is obtained. The option shall expire, in any event, not later than 10 years from the date of grant of the option subject to the provision for early termination set out in the Share Option Scheme.

The maximum number of unexercised share options currently permitted to be granted under the Scheme is an amount equivalent, upon their exercise, to 30% of the total number of shares of the Company in issue at any time. The maximum number of shares issuable under share options to each eligible participant in the Share Option Scheme within any 12-month period is limited to 1% of the shares of the Company in issue at any time. Any further grant of share options in excess of this limit is subject to shareholders' approval in a general meeting.

Share options granted to directors, chief executive or substantial shareholder of the Company, or to any of their respective associates, are subject to approval in advance by the independent non-executive directors. In addition, any share options granted to a substantial shareholder or an independent non-executive director of the Company, or to any of their associates, in excess of 0.1% of the shares of the Company in issue at any time or with an aggregate value (based on the price of the Company's shares at the date of grant) in excess of HK\$5 million, within any 12-month period, are subject to shareholders' approval in advance in a general meeting.

The offer of a grant of share options may be accepted within 30 days from the date of offer, upon payment of a nominal consideration of HK\$1 in total by the grantee. The exercise period of the share options granted is determinable by the directors and ends on a date which is not later than 10 years from the date of offer of the share options.

The exercise price of the share option is determinable by the directors, but should not be less than the highest of (i) the official closing price of the shares of the Company as stated in the Stock Exchange daily quotation sheet on the date of grant of the share options; (ii) the average official closing price of the shares of the Company as stated in the Stock Exchange for the five business days immediately preceding the date of the offer; and (iii) the nominal value of the shares of the Company.

Share options do not confer rights on the holders to dividends or to vote at shareholder's meetings.

## 30. Share Option Scheme and Share Award Scheme (Continued) Share option scheme (Continued)

No share options were granted during the year. The fair value of the share options granted in 2020 was HK\$13,300,000 (equivalent to RMB11,194,000), of which the Group recognised a share option expense of HK\$4,433,000 (equivalent to RMB3,747,000) during the year ended 31 December 2020. The fair value of equity-settled share options granted during in 2020 was estimated as at the date of grant using a binomial pricing model, taking into account the terms and conditions upon which the options were granted and the following table lists the major inputs used:

	2020
Dividend yield (%)	7%
Expected volatility (%)	38%
Risk-free interest rate (%)	0.53%
Exit rates of the grantees of the options granted under the Scheme (%)	25%

The expected volatility reflects the assumption that the historical volatility was indicative of future trends, which might also not necessarily be the actual outcome.

No other feature of the options granted was incorporated into the measurement of fair value.

At the end of the reporting period, the Company had 62,098,000 share options outstanding under the Share Option Scheme. The exercise in full of the outstanding share options would, under the present capital structure of the Company, result in the issue of additional ordinary shares of the Company and additional share capital of HK\$6,210,000 (equivalent to RMB5,751,000) and share premium of HK\$558,261,000 (equivalent to RMB516,972,000) (before issue expenses).

At the date of approval of these financial statements, the Company had 58,782,000 share options outstanding under the Share Option Scheme, which represented approximately 1.03% of the Company's shares in issue as at that date.

#### Share award scheme

The Company operates a share award scheme (the "Share Award Scheme") which was adopted by the Board of the Company on 13 May 2020. Unless otherwise cancelled or amended, the Share Award Scheme will remain valid and effective for 15 years from the date of adoption. The specific objectives of the Share Award Scheme are (i) to promote the effective realisation of the medium and long-term performance growth targets of the Group; (ii) to promote the long-term sustained growth in the shareholder value of the Group; and (iii) to attract outstanding talents in the industry and to motivate and retain outstanding key talents of the Group with rewards and incentives.

The Share Award Scheme is operated by an independent trustee which holds the shares in trust for the selected participants, until the shares become vested. The shares to be awarded under the Share Award Scheme will be acquired by the trustee from the open market. The shares granted will be vested in the proportions and on the dates as set out in the relevant letters of grant issued by the Company. Vested shares will be transferred to the selected participants at no cost save that transaction fees and expenses will be payable by the selected participants as transferrees.

As at 31 December 2024, the number of the Company's shares held under the Share Award Scheme is 158,230,000 (2023: 158,230,000). None of the shares purchased has been awarded under the Share Award Scheme.

### 31. Perpetual Capital Securities

On 31 May 2017, the Company issued perpetual capital securities with a principal amount of US\$350,000,000 (equivalent to approximately RMB2,363,346,000).

The securities confer the holders a right to receive distributions at the applicable distribution rate of 7% per annum from and including 31 May 2017, payable semi-annually on 31 May and 30 November of each year. The Company may, at its sole discretion, elect to defer a distribution pursuant to the terms of the securities. Unless and until the Company satisfies in full all outstanding arrears of distribution and any additional distribution amount, the Company shall not declare or pay any dividends, distributions or make payment on, and will procure that no dividend or other payment is made on or redeem, reduce, cancel, buy-back or acquire for any consideration any share capital thereof. The securities may be redeemed at the option of the Company, in whole but not in part.

In the opinion of the directors, the Company is able to control the delivery of cash or other financial assets to the holders of the perpetual capital securities due to redemption other than an unforeseen liquidation of the Company. Accordingly, the perpetual capital securities are classified as equity instruments of the Company.

#### 32. Reserves

#### (i) Share premium

The share premium account is governed by the Companies Law of the Cayman Islands and may be applied by the Company subject to the provisions, if any, of its memorandum and articles of association in paying distributions or dividends to equity shareholders.

#### (ii) Exchange reserve

The exchange reserve comprises all foreign exchange differences arising from the translation of the financial statements of group entities. The reserve is dealt with in accordance with the accounting policy set out in note 3.

#### (iii) PRC statutory reserves

PRC statutory reserves include the general reserve, statutory surplus reserve and statutory reserve fund.

#### General reserve

The general reserve is non-distributable and the transfer to this reserve is determined by the board of directors in accordance with the relevant laws and regulations of the PRC. This reserve can be used to offset accumulated losses and increase capital upon approval from the relevant authorities.

#### Statutory surplus reserve

According to the PRC Company Law, the PRC subsidiaries of the Group (excluding foreign investment enterprises) are required to transfer 10% of their profit after taxation, as determined under the PRC Accounting Regulations, to the statutory surplus reserve until the reserve balance reaches 50% of their registered capital. The transfer to this reserve must be made before distribution of a dividend to shareholders.

### 32. Reserves (Continued)

### (iii) PRC statutory reserves (Continued)

#### Statutory reserve fund

Statutory reserve fund can be used to make good previous years' losses, if any, and may be converted into share capital by the issue of new shares to shareholders in proportion to their existing shareholdings or by increasing the par value of the shares currently held by them, provided that the balance after such issue is not less than 25% of the registered capital.

#### (iv) Share-based compensation reserve

Share-based compensation reserve represents the fair value of services in respect of share options granted under the share option scheme.

The share options lapsed due to the resignation of certain mid-level managers. When the share options are forfeited after the vesting date or are still not exercised at the expiry date, the related share-based compensation reserve is transferred to retained profits.

## 34. Acquisitions of Subsidiaries

#### (a) Acquisition of subsidiaries that are not a business

#### (i) Year ended 31 December 2024

During the year ended 31 December 2024, the Group acquired certain assets through acquisition of Shenzhen Weichi Industrial Co., Ltd. ("Shenzhen Weichi") and certain entities included in "Others" below from joint venture partners, joint ventures and/or independent third party. Upon the completion of this acquisition, the acquired company became wholly-owned subsidiaries of the Group. The following table summarises the financial information in relation to the acquisition of subsidiaries.

	Shenzhen Weichi RMB'000	Others RMB'000	Total RMB'000

Cash and cash equivalents acquired	1,615
Net inflow of cash and cash equivalents included in	
cash flows from investing activities	1,535

The fair value of the other receivables as at the date of the acquisition amounted to RMB80,356,000. The gross contractual amount of other receivables was RMB80,356,000, of which nil is expected to be uncollectible.

Since the acquisitions, the subsidiaries acquired during the period contributed RMB68,194,000 to the consolidated loss for the period.

Had the combination taken place at the beginning of the period, the loss of the Group for the period would have been RMB78,030,000.

## 34. Acquisitions of Subsidiaries (Continued)

#### (b) Acquisition of subsidiaries that are a business

#### (i) Year ended 31 December 2023

During the period ended 31 December 2023, the Group acquired 50% or 100% of equity interests of Shenzhen Lifan Investment Co., Ltd. ("Shenzhen Lifan"), Zhuhai Shunxing Real Estate Co., Ltd. ("Zhuhai Shunxing") and Nanning Longguang Junchi Real Estate Development Co., Ltd. ("Longguang Junchi") and certain entities included in "Others" below from joint venture partners, joint ventures and/or independent third parties. Upon completion of the acquisitions, most of the acquired entities became wholly-owned subsidiaries of the Group, except for certain entities included in "Others" below being non-wholly-owned subsidiaries. These acquired entities are principally engaged in the business of property development and property investment in the PRC. Among subsidiaries acquired in the current period, the aggregated consideration for subsidiaries that are a business acquired from joint ventures was RMB412,757,000.

## 37. Financial Guarantees

At the end of the reporting period, the Group had the following financial guarantees:

	2024	2023
	RMB'000	RMB'000
Guarantees in respect of mortgage facilities provided for certain		
purchasers of the Group's properties (notes (i) and (ii))	32,545,416	45,250,486

credit facilities granted to joint ventures, associates and		
joint ventures partners provided by the Group (note (iii))	11,879,623	15,713,271
	44,425,039	60,963,757

### 37. Financial Guarantees (Continued)

The Group does not hold any collateral or other credit enhancements over the guarantees. The financial guarantee contracts are measured at the higher of the ECL allowance and the amount initially recognised less the cumulative amount of income recognised. The ECL allowance is measured by estimating the cash shortfalls, which are based on the expected payments to reimburse the holders for a credit loss that it incurs less any amounts that the Group expects to receive from the debtor. The amount initially recognised represents the fair value at initial recognition of the financial guarantees.

#### Notes:

(i) As at 31 December 2024 and 2023, the Group provided guarantees in respect of mortgage facilities granted by certain banks relating to the mortgage loans arranged for certain purchasers of the Group's properties. Pursuant to the terms of the guarantees, in the event of default on mortgage payments by these purchasers before the expiry of the guarantees, the Group is responsible for repaying the outstanding mortgage principals together with the accrued interest and penalties owed by the defaulted purchasers to the banks, net of any auction banks, net of any auction proceeds as described below.

Pursuant to the above arrangement, the related properties were pledged to the banks as collateral for the mortgage loans, in the event of default on mortgage repayments by these purchasers, the banks are entitled to take over the legal titles and will realise the pledged properties through open auction. The Group is responsible for repaying the banks when the proceeds from the auction of the properties cannot cover the outstanding mortgage principals together with the accrued interest and penalties.

The Group's guarantee period starts from the dates of grant of the relevant mortgage loans and ends upon the issuance of real estate ownership certificates to the purchasers, which will generally be available within one to two years after the purchasers take possession of the relevant properties.

- (ii) The fair value of the guarantees at initial recognition and the ECL allowance are not significant as the directors of the Company consider that in the event of default on payments, the net realisable value of the related properties can cover the repayment of the outstanding mortgage principal together with the accrued interest and penalties.
- (iii) As at 31 December 2024, the Group provided seven (2023: seven) guarantees to the extent of RMB9,721,790,000 (US\$1,349,000,000) (2023:RMB9,513,715,000 (US\$1,349,000,000)) in respect of the borrowings of entities controlled by a joint venture partner. The joint venture partner is an independent third party. The borrowings have been used for the project development of the joint venture partner's joint ventures with the Group. The joint venture partner entered into counter-guarantee agreements with the Group, pursuant to which the joint venture partner provided counter guarantees to the Group in respect of guarantees provided by the Group to the banks and other lenders to entities controlled by the joint venture partner. The counter-guarantees are secured by property projects, the valuation of which is sufficient to cover the guarantee amount of RMB9,721,790,000 (US\$1,349,000,000) (2023: RMB9,513,715,000 (US\$1,349,000,000)) provided by the Group.

In the opinion of the directors, the fair value of the guarantees at initial recognition and the ECL allowance are not significant.

#### 38. Pledge of Assets

At the end of the reporting period, the Group's equity interests in certain subsidiaries and the following assets of the Group were pledged to secure certain bank and other loans granted to the Group:

	Notes	2024 RMB'000	2023 RMB'000 (Represented)

- (iii) The income was derived from the leasing of the Group's investment properties to related companies controlled by Mr. Kei, at rates similar to the terms and conditions set out in the rental agreements entered into with the other tenants of the Group.

## 40. Related Party Transactions (Continued)

#### (a) (Continued)

Notes: (Continued)

- (iv) This represented the gross interest income from the joint ventures and associates, which is before the elimination of interest between the Group and joint ventures or associates. The Group has been providing funds to joint ventures and associates.
- (v) This represented the property management service provided by related companies controlled by Mr. Kei to the Group at rates determined in accordance with the terms and conditions set out in the agreements entered into with the relevant parties.

#### (b) Compensation of key management personnel of the Group

Remuneration to key management personnel includes amounts paid to the directors as disclosed in note 9.

Transactions in connection with construction contracts income, project management service income, rental income, decoration income and design service income from related companies and property management expenses to related companies above also constitute continuing connected transactions as defined in Chapter 14A of the Listing Rules.

## 41. Financial Instruments by Category

Except for the derivative financial instruments, which are classified as financial assets at fair value through profit or loss that are mandatorily measured as such (HKFRS7.8(a)), other financial assets and financial liabilities of the Group as at 31 December 2024 and 2023 were financial assets at amortised cost, and financial liabilities at amortised cost, respectively.

### 42. Fair Value and Fair Value Hierarchy of Financial Instruments

The carrying amounts of the Group's financial instruments, other than derivative financial instruments, and senior notes and corporate bonds, reasonably approximate to their fair values.

Management has assessed that the fair values of the current portion of cash and bank balance, trade receivables, trade payables, the current portion of financial assets included in prepayments, other receivables and other assets, financial liabilities included in other payables and accruals, the current portion of bank and other loans, amounts due from/to related parties approximate to their carrying amounts largely due to the short term maturities of these instruments.

For the Group's assets and liabilities not measured at fair value in the consolidated statement of financial position but for which the fair value is disclosed, (i) the carrying amounts of the amounts due from joint ventures and associates included in investments in joint ventures and associates, bank and other loans and assets and liabilities under cross-border guarantee arrangements approximated to their fair values and were determined as Level 3; (ii) the fair values of the senior notes and certain corporate bonds were RMB2,458,674,000 with carrying amount of RMB26,314,972,000 and RMB2,463,693,000 with carrying amount of RMB13,650,959,000, respectively (2023: RMB1,714,267,000 with carrying amount of RMB25,751,918,000 and RMB2,497,860,000 with carrying amount of RMB13,678,287,000, respectively), and were determined as Level 1; and (iii) the fair values of the remaining corporate bonds were RMB1,264,583,000 with carrying amount of RMB3,369,185,000), and were determined as Level 2.

## 42. Fair Value and Fair Value Hierarchy of Financial Instruments (Continued)

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The following methods and assumptions were used to estimate the fair values:

The fair values of the amounts due from joint ventures and associates included in investments in joint ventures and associates, bank and other loans and certain corporate bonds and assets and liabilities under cross-border guarantee arrangements have been calculated by discounting the expected future cash flows using rates currently available for instruments with similar terms, credit risk and remaining maturities. The fair values of the senior notes and certain corporate bonds are calculated with reference to quoted market prices at the reporting date. The changes in fair value as a result of the Group's own non-performance risk for bank and other loans as at 31 December 2024 and 2023 were assessed to be insignificant.

The fair values of derivative financial instruments are determined using the residual method by subtracting the fair value of the straight debt from the quoted market price of the notes at the date of valuation. The fair value measurement is negatively correlated to risk free rate, option adjusted spread and discount rate. The carrying amounts of derivative financial instruments are the same as their fair values.

## 42. Fair Value and Fair Value Hierarchy of Financial Instruments (Continued) Fair value hierarchy (Continued)

Assets (liabilities) measured at fair value: (Continued)

The fair values of derivative financial instruments are determined using the residual method by subtracting the fair value of the straight debt from the quoted market price of the notes at the date of valuation. The fair value measurement is negatively correlated to risk free rate, option adjusted spread and discount rate.

The Group did not have any financial liabilities measured at fair values as at 31 December 2024 and 2023.

During the year, there were no transfers of fair value measurements between level 1 and level 2 and no transfers into or out of level 3 for both financial assets and financial liabilities (2023: Nil).

## 43. Financial Risk Management Objectives and Policies

The Group's principal financial instruments, other than derivatives, comprise bank and other loans and senior notes and corporate bonds, amounts due from/to related parties, and cash and short term deposits. The main purpose of these financial instruments is to raise finance for the Group's operations. The Group has various other financial assets and liabilities such as trade receivables and trade payables, which arise directly from its operations.

The Group's accounting policies related to derivatives are set out in note 3 to the financial statements.

The main risks arising from the Group's financial instruments are interest rate risk, foreign currency risk, credit risk and liquidity risk. The board of directors reviews and agrees policies for managing each of these risks and they are summarised below.

#### Interest rate risk

The Group's income and operating cash flows are substantially independent of changes in market interest rates. Other than deposits held at banks, the Group does not have significant assets with floating interest rates. Restricted deposits were held at banks in the PRC at the same savings rate of unrestricted deposits throughout the year. The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's bank and other loans with floating interest rates.

The following table demonstrates the sensitivity at the end of the reporting period to a reasonably possible change in interest rates, with all other variables held constant, of the Group's profit before tax. There is no material impact on other components of the Group's equity.

#### Foreign currency risk

Under existing PRC foreign exchange regulations, payments of current account items, including dividends, trade and service-related foreign exchange transactions, can be made in foreign currencies without prior approval from the State Administration for Foreign Exchange Bureau by complying with certain procedural requirements. However, approval from appropriate PRC governmental authorities is required where RMB is to be converted into a foreign currency and remitted out of China to pay capital account items, such as the repayment of bank and other loans denominated in foreign currencies.

The Group's PRC subsidiaries may also retain foreign currencies in their current accounts to satisfy foreign currency liabilities or to pay dividends. Since foreign currency transactions on the capital account are still subject to limitations and require approval from the State Administration for Foreign Exchange Bureau, this could affect the Group's subsidiaries' ability to obtain required foreign currency through debt or equity financing, including by means of loans or capital contributions from the shareholders.

## 43. Financial Risk Management Objectives and Policies (Continued) Foreign currency risk (Continued)

All the revenue-generating operations of the Group are transacted in RMB. The majority of the Group's assets and liabilities are denominated in RMB except for the Company and certain investment holding companies within the Group operating in Hong Kong and Singapore, in which bank and other loans, senior notes and other receivables were denominated either in HK\$ and Singapore dollar ("SG\$"), respectively. The fluctuation of exchange rates of RMB and HK\$ against other foreign currencies will not have a material adverse effect on the operating results of the Group.

The following table demonstrates the sensitivity at the end of the reporting period to a reasonably possible change in the RMB exchange rates against HK\$, US\$ and SG\$, with all other variables held constant, of the Group's profit before tax (due to changes in the fair value of monetary assets and liabilities).

### Credit risk

It is the Group's policy that all customers are required to pay deposits in advance of the purchase of properties. In addition, the Group does not have any significant credit risk as the credit given to any individual or corporate entity is not significant. The Group performs appropriate and sufficient credit verification procedures for every credit sale transaction to minimise credit risk. There is no significant concentration of credit risk within the Group.

The Group has arranged bank financing for certain purchasers of property units and provided guarantees to secure obligations of such purchasers for repayments. Detailed disclosure of these guarantees is made in note 37.

The credit risk of the Group's other financial assets, which mainly comprise and short term deposits, other receivables and amounts due from related parties, joint ventures and associates, arises from default of the counterparty, with a maximum exposure equal to the carrying amounts of these instruments.

## 43. Financial Risk Management Objectives and Policies (Continued) Credit risk (Continued)

#### Maximum exposure and year-end staging

The credit risk of the Group's trade receivables, contract assets, other receivables, amounts due from related parties, non-controlling shareholders, joint ventures and associates, cash and bank balances, arises from default of the counterparty, with a maximum exposure equal to the carrying amounts of these instruments.

Except for trade receivables and contract assets which apply the simplified approach in calculating ECLs, the credit quality of other financial assets measured at amortised cost is considered to be "normal" as they are not past due and there is no information indicating that the financial assets had a significant increase in credit risk since initial recognition and hence, they are all classified under stage 1 for measurement of ECLs. The loss allowance for all financial assets measured at amortised cost and contract assets were not significant as at 31 December 2024 and 2023.

Guarantees given to banks and other lenders in connection with credit facilities granted to associates, joint ventures and third parties and in respect of mortgage facilities provided for certain purchasers of the Group's properties with an aggregate amount utilised of RMB44,440,639,000 (2023: RMB60,963,757,000) which are not yet past due and there is no information indicating of default and, hence, are all classified under stage 1 for measurement of ECLs.

#### Liquidity risk

Due to the capital intensive nature of the Group's business, the Group ensures that it maintains sufficient cash and credit lines to meet its liquidity requirements. The Group's objective is to maintain a balance between continuity of funding and flexibility through the use of bank and other loans. In the opinion of the directors of the Company, the Group will have adequate sources of funding to finance its operational needs and manage its liquidity position.

## 43. Financial Risk Management Objectives and Policies (Continued) Capital management

The primary objectives of the Group's capital management are to safeguard the Group's ability to continue as a going concern and to maintain healthy capital ratios in order to support its business and maximise shareholders' value.

The Group manages its capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares, or sell assets to reduce debt. No changes were made in the objectives, policies or processes for managing capital during the years ended 31 December 2024 and 31 December 2023.

The Group monitors capital using a net debt to equity ratio, which is net debt divided by the total equity. Net debt includes total bank and other loans, senior notes and corporate bonds less cash and bank balances. Total capital comprises all components of equity (i.e., share capital, non-controlling interests, perpetual capital securities and reserves). The Group aims to maintain a healthy and stable net debt to equity ratio.

As at 31 December 2024, the liabilities of the Group were mainly bank and other loans of approximately RMB63,275 million (31 December 2023: approximately RMB66,514 million) (note 25), senior notes of approximately RMB26,315 million (31 December 2023: approximately RMB25,752 million) (note 26), and corporate bonds of approximately RMB17,013 million (31 December 2023: approximately RMB17,047 million) (note 27). As at 31 December 2024, cash and bank balances of the Group amounted to approximately RMB8,654 million (31 December 2023: approximately RMB13,172 million) (note 22), the net debt of the Group amounted to approximately RMB97,949 million (31 December 2023: approximately RMB96,141 million), total equity of Group amounted to approximately RMB24,805 million (31 December 2023: approximately RMB32,733 million). As at 31 December 2024, the Group's net debt to equity ratio was approximately 395% (31 December 2023: approximately 294%).

As at 31 December 2024, Shenzhen Logan, a wholly-owned subsidiary of the Company (established in the PRC) (the "Issuer"), has totally issued an amount of RMB17 billion (2023: RMB17 billion) of corporate bonds, of which RMB13.7 billion are publicly issued (2023: RMB13.7 billion).
