VOLUNTARY ANNOUNCEMENT IN RELATION TO THE ENTERING INTO OF THE ALIBABA CLOUD CAPABILITY CENTRE COOPERATION AGREEMENT

This announcement is made by AsiaInfo Technologies Limited (the “**Company**”, and together with its subsidiaries, the “**Group**” or “**AsiaInfo Technologies**”) on a voluntary basis to keep the shareholders (the “**Shareholders**”) and potential investors of the Company informed of the latest business updates of the Group.

The board of directors (the “**Directors**”) of the Company (the “**Board**”) is pleased to announce that AsiaInfo Technologies (China), Inc. (a wholly-owned subsidiary of the Company) has recently entered into a capability centre cooperation agreement (the “**Cooperation Agreement**”) with Alibaba Cloud (Beijing) Technologies Co., Ltd. (“**Alibaba Cloud**”), pursuant to which it has become a cloud computing project delivery capability centre of Alibaba Cloud, reflecting Alibaba Cloud’s high recognition of the Company’s capabilities in the delivery of AI large model applications. Both parties will cooperate closely, complement each other’s strengths and seek common development. Alibaba Cloud will continue to focus on advancing computing power technologies and model algorithm iterations, and by leveraging its leading infrastructure and technological reserves, it will provide a solid underlying foundation for the implementation of AI applications. AsiaInfo Technologies will continue to promote the transformation towards an AI-native enterprise and, by capitalising on the advantages of deep learning and large language model generation, will gradually optimise the traditional application development paradigm, so as to serve Alibaba Cloud’s clients with top-quality, high-resilience and cost-efficient cloud delivery capabilities, thereby continuously strengthening the Group’s core competitiveness in the field of cloud computing delivery. The parties will strengthen their collaboration in the joint research and development of products and services across multiple areas, including the Tongyi Qianwen large model, AI integrated machines, and AI large model security

solutions, and will carry out AI-native research and development as well as market expansion for industry applications, facilitating the implementation of “AI+” across a wide range of sectors.

Alibaba Cloud is a globally leading cloud computing and artificial intelligence technology company, serving as China’s largest and Asia-Pacific’s foremost cloud service provider. It caters to millions of customers across over 200 countries and regions worldwide, providing services to over half of the A-Share listed companies and 80% of China’s technology innovation enterprises. AsiaInfo Technologies stands as a pioneering enterprise in large-model application delivery, possessing end-to-end, full-chain service capabilities. It is also a key member of Alibaba Cloud’s “Galaxy Plan” artificial intelligence ecosystem alliance for government and enterprise clients. Leveraging its outstanding capabilities in consulting and planning, infrastructure, large-model platforms, large-model applications, large-model deployment, large-model services, and operational management, it supports diverse requirements for large-model business development across a wide range of industries.

The Board believes that the entering into of the Cooperation Agreement with Alibaba Cloud will provide opportunities for the Group to expand into new business areas, such as the delivery of AI large models, and expects that the establishment of a mutually beneficial cooperation will create more potential opportunities for growth, which is in the interests of the Group and the Shareholders as a whole.

The Shareholders and potential investors of the Company are advised to exercise caution when dealing in the shares of the Company.

By order of the Board
AsiaInfo Technologies Limited
Dr. TIAN Suning
Chairman and Executive Director
