## CHARACTERISTICS OF GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate small and mid-sized companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.

Given that the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

## MANAGEMENT DISCUSSION AND ANALYSIS

### BUSINESS REVIEW AND OUTLOOK

The Group is principally engaged as a subcontractor for the provision of supply, installation and fitting-out services of MVAC system for various types of private and public building projects including infrastructural, commercial and residential building projects in Hong Kong and Macau.

During the Relevant Period, despite steady recovery signs in both the local and global economies, the overall market sentiment in Hong Kong's construction sector had remained weak. The absence of major new construction projects intensified competition in the construction industry. On-going challenges such as heightened financial costs, soft demand and oversupply in both commercial and residential sectors, shortage of skilled labour, inflationary pressure and project delays continued to impact the local market, thereby exacerbating the industry's strategic challenges and outlook. Despite intense competition in the local market, leveraging on its solid foundation in MVAC industry, the Group secured, amongst other projects, a new project with an initial contract sum exceeding HK\$175 million in July 2025.

During the Relevant Period, the Group recorded a loss of approximately HK\$2.7 million as compared to a profit of approximately HK\$2.3 million in the corresponding period in 2024. The loss during the Relevant Period was mainly due to (i) decrease in revenue of approximately HK\$11.6 million as a result of delay in projects amid the sluggish economy; and (ii) the prolonged completion of various projects of the Group leading to overrun of project costs. As mentioned in the announcements of the Company dated 15 August 2024 and 20 March 2025, a new project was awarded to the Group with an initial contract sum exceeding HK\$383 million in March 2024 ("**New Project**"). While the Group has adopted a pragmatic and resilient approach focusing on quality assurance in project management, and stringent cost control measures, any delay of the New Project may potentially affect the financial results of the Group for the year ending 31 December 2025. The Group will continue to regularly and closely monitor the progress of its ongoing projects and will continue to identify suitable tender opportunities and submit tenders for potential projects to maximise the Group's profits and return to its shareholders.

Looking ahead, the Group maintains a cautious outlook for the year 2025 and will continue to explore cooperation with new customers and derive new revenue streams, and optimise resource utilisation and efficiencies in order to maximise return to our shareholders. In addition to the above, the Group continues to explore other investment opportunities in the future. Nonetheless, the Group will stay vigilant by constantly reviewing its business and tendering strategies and enhancing its operational efficiency and financial performance.

## FINANCIAL REVIEW

### Revenue

Our revenue decreased by approximately HK\$11.6 million, from approximately HK\$78.3 million for the six months ended 30 June 2024 to approximately HK\$66.7 million for the Relevant Period, representing a decrease of approximately 14.8%. In particular, while the Group recorded (i) an increase in revenue of approximately HK\$21.1 million from new projects (in particular a new project located at Wong Chuk Hang); and (ii) an increase in revenue of approximately HK\$3.5 million due to the increase in the amount of work under our existing projects as compared with the six months ended 30 June 2024 (in particular, a project located at Tseung Kwan O), the aforesaid increments were offset by (i) a decrease in revenue of approximately HK\$0.8 million resulting from the completion of certain projects during the Relevant Period; and (ii) a decrease in revenue of approximately HK\$35.4 million due to the decrease in the amount of work under our existing projects as compared with the six months ended 30 June 2024 (in particular, a project located at Kai Tak and a project located at Chek Lap Kok together accounted for a decrease in revenue of approximately HK\$34.4 million).

### Cost of Sales

Our cost of sales decreased from approximately HK\$65.3 million for the six months ended 30 June 2024 to approximately HK\$61.3 million for the Relevant Period, representing a decrease of approximately 6.1%. The decrease was mainly attributable to the decrease in costs of materials, offset by the increase in subcontractor costs mainly in the prolonged completion of certain projects.

### Gross Profit and Gross Profit Margin

Our gross profit decreased by approximately HK\$7.6 million from approximately HK\$13.0 million for the six months ended 30 June 2024 to approximately HK\$5.4 million for the Relevant Period. The gross profit margin decreased from approximately 16.6% for the six months ended 30 June 2024 to approximately 8.1% for the Relevant Period. The decrease in gross profit and gross profit margin was primarily attributable to the prolonged completion of certain projects of the Group leading to overrun of project costs.

### **Administrative Expenses**

Our administrative expenses decreased by approximately HK\$0.4 million, or approximately 4.8%, from approximately HK\$8.4 million for the six months ended 30 June 2024 to approximately HK\$8.0 million for the Relevant Period, mainly attributable to the decrease in the legal and professional fees.

### **Income Tax Expense**

Our income tax expense decreased by approximately HK\$1.0 million, or approximately 76.9%, from approximately HK\$1.3 million for the six months ended 30 June 2024 to approximately HK\$0.3 million for the Relevant Period, mainly attributable to the decrease in deferred income tax resulting from the decrease in utilisation of tax loss brought forward from prior years.

### **Loss/Profit for the Period**

As a result of the foregoing, our Group recognised a loss of approximately HK\$2.7 million for the Relevant Period as compared with a profit of approximately HK\$2.3 million for the corresponding period in 2024.

The total interest-bearing borrowings (including bank borrowings and bank overdrafts) of the Group decreased from approximately HK\$25.2 million as at 31 December 2024 to approximately HK\$19.4 million as at 30 June 2025. Current ratio increased from 2.0 times as at 31 December 2024 to approximately 2.2 times as at 30 June 2025.

The Group's borrowing and bank balances are mainly denominated in Hong Kong dollars and there was no significant exposure to foreign exchange rate fluctuations during the Relevant Period.

The Group's gearing ratio, which is calculated by dividing the total interest-bearing borrowings and lease liabilities by total equity at the respective reporting date, decreased from approximately 38.0% as at 31 December 2024 to approximately 30.4% as at 30 June 2025, primarily due to the combined effect of (i) the decrease in the total interest-bearing borrowings; and (ii) the decrease in total equity resulting from the decrease in retained profits attributable to recording a net loss for the Relevant Period.
